Agatha L. Mergenovich,

Secretary.

[FR Doc. 81–16647 Filed 6–5–81; 8:45 am]

BILLING CODE 7035–01–M

Motor Carrier; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by

Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satified before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Vol. No. OPY–2–087

Decided: May 21, 1981.

By the Commission, Review Board No. 1, Members Parker, Chandler, and Taylor.

MC 77972 (Sub-50), filed May 8, 1981. Applicant: MERCHANTS TRUCK LINE, INC., P.O. Box 908, New Albany, MS 38652. Representative: Donald B. Morrison, P.O. Box 22628, Jackson, MS 39205, (601) 948–8820. Transporting *general commodities* (except classes A and B explosives) between points in Lauderdale and Scott Counties, MS, on the one hand, and, on the other, points in AK, AZ, CA, CO, CT, DE, HI, ID, IA, KS, ME, MD, MA, MI, MN, MS, MT, NE, NV, NH, NJ, NM, NY, ND, OH, OK, OR, PA, RI, SD, UT, VT, VA, WA, WV, WI, WY, and DC.

BILLING CODE 7035–01–M

Motor Carriers; Finance Applications; Decision—Notice

As indicated by the findings below, the Commission has approved the following applications filed under 49 U.S.C. 10924, 10926, 10931 and 10932.

We find

Each transaction is exempt from section 11343 (formerly Section 5) of the Interstate Commerce Act, and complies with the appropriate transfer rules.

This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

Petitions seeking reconsideration must be filed within 20 days from the date of this publication. Replies must be filed within 20 days after the final date for filing petitions for reconsiderations; any interested person may file and serve a reply upon the parties to the proceeding. Petitions which do not comply with the relevant transfer rules at 49 CFR 1132.4 may be rejected.

If petitions for reconsideration are not timely filed, and applicants satisfy the conditions, if any, which have been imposed, the application is granted and they will receive an effective notice. The notice will indicate that consummation of the transfer will be presumed to occur on the 20th day following service of the notice, unless either applicant has advised the Commission that the transfer will not be consummated or that an extension of time for consummation is needed. The notice will also recite the compliance requirements which must be met before the transferee may commence operations.

Applicants must comply with any conditions set forth in the following decision-notices within 30 days after publication, or within any approved extension period. Otherwise, the decision-notice shall have no further effect.

By the Commission, Review Board Number 3. Members Krock, Joyce and Dowell.

MC–FC–78968. By decision of May 19, 1981, issued 49 U.S.C. 10926 and the transfer rules at 49 C.F.R. Part 1132, Review Board Number 3 approved the transfer to HARDEE'S TRANSPORT, INC., of Jacksonville, FL, of Certificate Nos. MC 148788 (Sub-2F and 3F) issued to PORT CARRIERS, INC., on March 9, 1981, and December 12, 1980 respectively, and authorizing transportation of (1)(a) *general commodities* (except in bulk), in intermodal containers and (b) intermodal containers between points in Duval County, FL; Glynn and Chatham Counties, GA, and Chesteron County, S.C., on the one hand, and, on the other, points in Florida and Georgia, restricted to ex-water movement and (2) *general commodities* (except used household goods, hazardous or secret materials and sensitive weapons and munitions, for the United States Government, between points in the United States. Representative is: James E. Wharton, Esq., Suite 811, Metcalf Bldg., 100 So. Orange Avenue, Orlando, FL 32802.

MC–FC–79018. By decision of April 14, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 C.F.R. 1132, Review Board Number 3 approved the transfer to RAMDO TRANSPORT, INC., of Fargo, ND of Permit MC 129484 (Sub-1, 3, 4 and 7), issued November 5, 1968, October 14, 1977, August 6, 1979, and April 8, 1981, respectively to MELVIN WANG of Fertile, MN d.b.a. M. WANG TRUCKING authorizing transportation as a motor contract carrier of *liquid fertilizer and liquid fertilizer ingredients,* from and to various points in Minnesota, Iowa, and North Dakota. No temporary authority or any other related application has been filed. Transferee holds no other motor carrier authority from the Commission. Representative: Gene P. Johnson, P.O. Box 2471, Fargo, ND 58108 (701) 237–4223.

MC–FC–79047. By decision of March 6, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 C.F.R. Part 1132, Review Board Number 3 approved the transfer to THE GREYHOUND CONNECTION, INC., of Chanute, KS of Certificate MC 133778 and MC 133778 (Sub-2F) issued May 5, 1970 and November 2, 1980 to R. W. LAUSCH of Chanute, KS authorizing the transportation over irregular routes of *dogs and dog racing equipment* between points in Kansas, Oklahoma, Texas, Colorado, Missouri, Nebraska, Arkansas, South Dakota, Massachusetts, Florida, Arizona, New Hampshire, Vermont, Rhode Island, Connecticut, Alabama and West Virginia. Representative is John L. Richeson, P.O. Box 7, Ottawa, KS 66067. TA application has not been filed.

MC–FC–79077. By decision of March 24, 1981, issued under 49 C.F.R. 1045.11, Review Board No. 3 approved the change of Control of Distributor Services, Inc., a broker of motor carrier freight transportation holding license No. MC 13074. Fifty percent of the commonstock of the corporate was authorized to be transferred from WILLIAM J. FARRELL, JR., to T. LAWRENCE VIGINENS, JR. As a result of the transaction T. Lawrence Vigurns, Jr., moved over all the common stock of the corporator. Representatives: Robert B. Einhorm, 12 South 12th Street, 3220 Pses Building, Philadelphia, PA 19107.

MC–FC–79108. By decision of May 1, 1980, issued under 49 U.S.C. 10926 and the transfer rules at 49 C.F.R. Part 1132 Review Board Number 3 approved the transfer to ALL–COAST TRANSPORTATION SERVICES, INC. of Salt Lake City, UT of Certificate MC 33641 (Sub-151F) issued 1/29/81 to IML FREIGHT, INC. of Salt Lake City, UT authority to operate as a common carrier by motor vehicle in interstate of foreign commerce, over irregular routes, transporting *general commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment) moving on bills of lading of freight forwarders as defined in 49 U.S.C. Section 10102(8), between points in the United States. Representative is: Michael J. Stecher, 256 Montomery Street, San Francisco, CA 94104. TA application has not been filed.

MC–FC–79109. By decision of May 1, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR Part 1132

Review Board Number 3 approved the transfer to ROBBINS TRUCK LINE, INC. of Hardinsburg, KY of Certificate No. MC 139958 and (Sub-1, 3, 4, 5, 7, 10, 11, 12, 13, 14, and 15) issued 12/5/77, 3/7/78, 10/12/76, 12/21/78, 3/20/79, 11/12/80, 8/21/80, 11/12/80, 2/2/81, 2/2/81, 12/12/80 and 3/13/81 to R.T. TRUCK SERVICE, INC. of Hardinsburg, KY authorizing generally the transportation of (1) *paper and paper products* from Hawesville, KY to points in Ohio, West Virginia, Indiana, Illinois, Michigan, Missouri, Tennessee, Georgia, and North Carolina. From St. Louis across the Mississippi River to East St. Louis, IL, thence over IL Hwy 15 to Belleville, IL, and thence as specified above to Scott Field. From St. Louis across the Mississippi River to East St. Louis, IL, thence over U.S. Hwy 50 to junction Kings-highway, thence over Kings-highway to junction IL Hwy 15, thence over Il Hwy 15 to Belleville, IL, and thence as specified above to Scott Field. From St. Louis across the Mississippi River to East St. Louis, IL, thence over Missouri Avenue to junction Ill Hwy 13, thence over Missouri Ave. to Junction IL Hwy 13, thence over IL Hwy 13 to Belleville, and thence to Scott Field as specified above. From St. Louis across the Mississippi River to East St. Louis, IL, thence over IL Hwy 3 to Cahokia, IL, thence over IL Hwy 13 to Belleville, and thence to Scott Field, as specified above; and return over those routes to St. Louis. Service is authorized to and from all intermediate points on the above specified routes. *Household goods* as defined by the Commission, and *mining machinery and supplies*, over irregular routes, between St. Louis, MO, on the one hand, and on the other, points and places in St. Clair County, IL. Representative: B. W. LaTourette, Jr., 11 S. Meramec, Ste. 1400, St. Louis, MO 63105 (314) 727–0777.

MC–FC–79142. By decision of May 13, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR Parts 1132, Review Board Number 3 approved the transfer to INTERSTATE TRUCKING CORP. of Elizabeth, NJ, of Certificate No. MC–1548 and MC–1548 (Sub-No. 1) issued April 7, 1941, and October 8, 1970, respectively, to Mercer Motor Freight, Inc., of Tenton, NJ, authorizing the transportation in No. MC–1548 of *General commodities*, except those of unusual value, and except liquors, dangerous explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 MCC 467, commodities in bulk, commodities requiring special

equipment, and those injurious or contaminating to other lading. Between Trenton, N.J., and New York: From Trenton over U.S. Highway 1 to Jersey City, N.J., and thence across the Hudson River to New York, N.Y., and return over the same route. Between Trenton, N.J., and Wilmington, Del.: From Trenton over New Jersey Highway 37 to Junction New Jersey Highway 39, thence over New Jersey Highway 39 to junction U.S. Highway 130, thence over U.S. Highway 130 to Stevens, N.J., thence over U.S. Highway 130 to junction unnumbered highway, thence over unnumbered highway to Burlington, N.J., thence over unnumbered highway via Riverside and Riverton, N.J., to Camden, N.J., thence across the Delaware River to Philadelphia, Pa. and thence over U.S. Highway 13 to Wilmington, and return over the same route. Between Trenton, N.J., and Philadelphia, Pa., as follows: From Trenton across the Delaware River to Morrisville, Pa., and thence over U.S. Highway 1 to Philadelphia: From Trenton across the Delaware River to Morrisville, Pa., and thence over U.S. Highway 13 to Philadelphia; and return over these routes to Trenton. Service is authorized to and from all intermediate points on the above-specified routes, and the off-route points of Hopewell, Lambertville, Pennington, and Princeton, N.J., and points and places in the New York, N.Y. Commercial Zone, as defined by the Commission in 1 MCC 665, those in Bergen, Essex, Hudson, Middlesex, Morris, Passaic, and Union Counties, N.J., and those in Delaware, Montgomery, and Philadelphia Counties, Pa.; in No. MC–1458 (Sub-No. 1) of *Ceramic wall tile, carpet cushioning, mechanics, rubber goods, plastic articles, commercial refrigerators, commercial cooling boxes, commercial cooling rooms,* and *cooling and breezing machines* and *parts thereof,* From Trenton, N.J., to points in Nassau, Suffolk, and Westchester Counties, N.Y., with no transportation for compensation on return except as otherwise authorized. Application for TA has been filed. Transferee presently holds authority under Certificate No. MC–139521. Applicant's representative is: Ronald I. Shapss, Esquire, Attorney, 450 Seventh Avenue, New York, NY 10123, (212) 239–4610.

MC–FC–79144. By decision of May 15, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132 Review Board Number 3 approved the transfer to BREMCO MILLS, INC. of New Bremen, OH of Permit No. MC–146397 (Sub-No. 2) issued November 14, 1980 to M.T.I. Trucking, Inc. of Indianapolis, IN authorizing the transportation by irregular routes of (1) *such commodities* as are dealt in by manufacturers of glass and plastic products, (except commodities in bulk), and (2) *materials, equipment, and supplies* used in the manufacture and distribution of the commodities in (1) above, (except commodites in bulk), between points in Wisconsin, Michigan, Illinois, Missouri, Kentucky, Indiana, Ohio, Pennsylvania, and West Virginia, restricted to traffic originating at or destined to the facilites of Anchor Hocking Corporation at points in the designated territory, under continuing contract(s) with Anchor Hocking Corporation, at points in the above designated territory, under continuing contract(s) with Anchor Hocking Corporation, of Lancaster, OH. Applicant's representative is: Donald W. Smith, P.O. Box 40248, Indianapolis, IN 46240.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

Motor Carriers; Finance Applications; Decision-Notice

As indicated by the findings below, the Commission has approved the following applications filed under 49 U.S.C. 10924, 10926, 10931 and 10932.

We find:

Each transaction is exempt from section 11343 (formerly Section 5) of the Interstate Commerce Act, and complies with the appropriate transfer rules.

This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

Petitions seeking reconsideration must be filed within 20 days from the date of this publication. Replies must be filed within 20 days after the final date for filing petitions for reconsiderations; any interested person may file and serve a reply upon the parties to the proceeding. Petitions which do not comply with the relevant transfer rules at 49 CFR 1132.4 may be rejected.

If petitions for reconsideration are not timely filed, and applicants satisfy the conditions, if any, which have been imposed, the application is granted and they will receive an effective notice. The notice will indicate that consummation of the transfer will be presumed to occur on the 20th day following service of the notice, unless either applicant has advised the Commission that the transfer will not be consummated or that an extension of time for consummation is needed. The notice will also recite the compliance requirements which must be met before the transferee may commence operations.

Applicants must comply with any conditions set forth in the following decision-notices within 30 days after publication, or within any approved extension period. Otherwise, the decision-notice shall have no further effect.

By the Commission, Review Board Number 3. Members Krock, Joyce, and Dowell.

MC–FC–78891. By decision of May 6, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to D&S EXPRESS, INC. of Bound Brook, NJ, of a portion of Certificate No. MC–139595 (Sub-No. 1) issued April 11, 1975 to Mid-Atlantic Transportation Co., of Elizabeth, NJ, authorizing the transportation of *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between points in Suffolk County, NY, beyond the New York, NY, Commercial Zone, on the one hand, and, on the other, points in Hudson, Essex, Union, and Middlesex Counties, NJ. Applicants' representative: Thomas F. X. Foley, Esq., State Highway 34, Colts Neck, NJ 07722, (201) 780–0300.

Note.—A directly related extension application in No. MC–139596 (Sub-No. 1) is published in this same **Federal Register** issue.

MC–FC–78991. By decision of February 18, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 5 approved the transfer to T. D. MURPHY, d.b.a. MOVIE FILM EXPRESS of Mesa, AZ, of a portion of Certificate No. MC–121335 (Sub-No.2) issued November 30, 1978, to Film Transport Co., of Cal., Inc., of Los Angeles, CA, authorizing the transportation of *films and articles associated with the exhibition of motion pictures,* between Los Angeles, on the one hand,and, on the other, points in Arizona on and south of a line beginning at the junction of Interstate Hwy 10 and the Arizona-California State line, then along Interstate Hwy 10 to junction U.S. Hwy 60, then over U.S. Hwy 60 to junction U.S. Hwy 70 at Globe, AZ, then over U.S. Hwy 70 to its intersection with the Arizona-New Mexico State line. Applicant's representative: Theodore Wi. Russell, Attorney at Law, 1545 Wilshire Blvd., Los Angeles, CA 90017.

MC–FC–79062. By decision of May 5, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132,

Review Board Number 3 approved the transfer to KOHN TRANSPORT, INC. of Canton, OH of Permit No. MC–141925 (Sub-Nos. 4 and 5) and issued to Kohn Beverage, Inc., d.b.a. Kohn Transport, of Canton, OH, authorizing: *such commodities* as are dealt in or used by printer, (except commodities in bulk), from the facilities of Danner Press Corporation, at or near Canton, OH, to Detroit, MI, Erie, PA, and Syracuse, Rochester, and Buffalo, NY, under contract(s) with Danner Press Corporation, of Canton, OH. *Such commodities* as are dealt in or used by printers (except commodities in bulk), from the facilities of Danner Press Corporation at or near Canton, OH, to points in Illinois, Indiana, Kentucky, Maryland, Michigan, New Jersey, New York, North Carolina, Pennsylvania, and Wisconsin, under continuing contract(s) with Danner Press Corporation. Applicant's representative: David A. Turano, 100 E. Broad St., Columbus, OH 43215.

Note.— The Review Board dismissed the applicatioin insofar as it involved transfer of authority conditionally granted in No. MC–147906, as no certificated authority has been issued in that proceeding, in the absence of compliance with Commission regulations.

MC–FC–79127. By decision of May 5, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132 Review Board Number 3 approved the transfer to ALTON DELIVERY SERVICE, INC. of New York, New York of certificate No. of MC–141417, lead and Sub-No. 1, issued March 15, 1976 and July 24, 1979 respectively to Super Speed Delivery & Messenger Service, Inc. of New York, New York. The certificate authorized the transportation over irregular routes of (lead) *General commodities* (usual exceptions), between points in Bergen, Passaic, Essex, Hudson, Union and Middlesex Counties, NJ, on the one hand, and, on the other, New York, New York; (Sub-No. 1) *Textiles and textile picture kits,* between Lynchburg and Madison Heights, VA, Pawtucket, RI, Taylorsville, Statesville, Greenville, Aberdeen, Spindale, and Williamston, NC, Greenville, Lugoff, Simpsonville, Wateree, Kingstree and Williamston, SC, on the one hand, and on the other, Newburgh, NY, Derby, CT, Fall River and New Bedford, MA, Pawtucket, RI, and points in New Jersey on and north of U.S. Hwy 22. Applicant's representative is: John D. Heffner, Suite 307, 2011 Eye Street NW., Washington, DC 20006. Transferee holds no authority. TA lease is not sought.

MC–FC–79134. By decision of May 14, 1981, issued under 49 CFR 1132, Review Board Number 3 approved the Transfer to LINDSEY MOTOR EXPRESS, INC. of Cincinnati, OH of Permit No. MC–123540, MC–123540 (Sub-No. 3) and No. MC–123540 (Sub-No. 4) issued to Werlin Corporation of Cincinnati, OH authorizing the transportation of *dry fertilizer,* in bulk and in bags, from the plant site of the Armour Agricultural Chemical Co., of St. Bernard, Ohio, to points in Fleming, Bath, Lewis, Mason, Wolfe, Nicholas, Bourbon, Montgomery, Clark, Madison, Fayette, Garrard, Menifee, Rowan, Morgan, and Elliott Counties, KY., under a continuing contract, or contracts, with Armour Agricultural Chemical Co., of St. Bernard, Ohio; *fertilizer,* from St. Bernard and Cincinnati, Ohio, to points in Indiana, Kentucky, and these in Cabell, Calhoun, Lincoln, Putnam, Pleasants, Tyler, Wetzel, Mason, Roane, Wirt, Wood, and Wayne Counties, W. Va.; and *liquid fertilizer,* in bulk in tank vehicles, from Kingston, Ohio, to points in Indiana and Illinois (except East St. Louis and points in Illinois within the St. Louis, Mo.–East St. Louis, Ill., commercial zone as defined by the Commission), under continuing contract, or contracts, with Swift Agricultural Chemical Corporation; and in a pending request authority is sought to transport *commodities in bulk,* between points in the United States, under continuing contract(s) with Stauffer Chemical Company, of Westport, Ct., Sherwin Williams Co., of Mason, OH, Vulcan Materials, Company, of Wichita, KS, and Kaiser Agricultural Chemicals, of Savannah, GA. Applicant's representative: Paul F. Berry, 275 East State St., Columbus, OH 43215. TA lease is not sought. Transferee is a carrier.

MC–FC–79135. By decision of May 14, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to J. J. RIEDINGER d.b.a. OVERLAND COMMERCIAL COMPANY of Certificate No. MC–147748F issued January 6, 1981 to R. C. Kercheval and J. J. Riedinger, a partnership doing business as Overland Commercial Company authorizing the irregular route transportation of *general commodities* (except Class A and B explosives), between points in the Seattle, WA and Tacoma, WA Commercial zones restricted to traffic having a prior or subsequent movement by water. Applicant's representative is: George R. LaBissoniere, Attorney-At-Law, Suite 233, 15 S. Grady Way, Renton, WA 98055.

MC–FC–79138. By decision of May 14, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 C.F.R. Part 1132, Review Board Number 3 approved the transfer to B & F Towing & Salvage Co., Inc., of New Castle, DE of Certificate No. MC–124198 issued October 5, 1972, to P & S Service, Inc., of Jersey City, NJ, authorizing the transportation of *wrecked or disabled trucks, tractors, busses and passenger cars,* in towaway service, requiring the use of wrecker equipment, between points in New Jersey and New York, on the one hand, and, on the other, points in Connecticut, Delaware, Massachusetts, New Jersey, New York, Pennsylvania and Rhode Island, and *replacement vehicles* for such wrecked or disabled trucks, tractors, and passenger cars, in towaway service, from points in New Jersey and New York, to points in Connecticut, Delaware, Massachusetts, New Jersey, New York, Pennsylvania and Rhode Island, with no transportation for compensation on return, except as otherwise authorized. An application for temporary authority has been filed. Transferee presently holds no authority from the Commission. Applicant's representative is: Robert J. Corber, Attorney, Steptoe & Johnson, 1250 Connecticut Avenue NW., Washington, DC 20036, (202) 862–2038.

MC–FC–79156. By decision of May 5, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 C.F.R. 1132 Review Board Number 3 approved the transfer to Trans-Speed Delivery Service, Inc., of New York, New York of certificate No. MC–141417, (Sub-No. 3), issued October 31, 1979 to Super Delivery and Messenger Service, Inc. of New York, New York. The certificate authorizes transportation over irregular routes of *textiles* from Newburgh, NY, to New York, NY. Applicant's representative is: John D. Heffner, Suite 307, 2011 I Street, N.W., Washington, DC 20006. Transferee holds no authority. TA lease is not sought.

Decision-Notice

The following operating rights applications, filed on or after July 3, 1980, are filed in connection with pending finance applications under 49 U.S.C. 10926, 11343 or 11344. The applications are governed by Special Rule 252 of the Commission's General Rules of Practice (49 CFR 1100.252).

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Persons submitting protests to applications filed in connection with pending finance applications are requested to indicate across the front page of all documents and letters submitted that the involved proceeding is directly related to a finance application and the finance docket number should be provided. A copy of any application, together with

V 46 / 109 J E 8 8 1 UMI

applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. However, the Commission may have modified the application to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exceptions of those applications involving duly noted problems (e.g., unresolved common control, unresolved fitness questions, and jurisdictional problems) we find, preliminarily, that each applicant has demonstrated that its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able properly to perform the service proposed and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where specifically noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests in the form of verified statements as to the finance application *or* to the following operating rights applications directly related thereto filed within 45 days of publication of this decision-notice (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (except where the application involves duly noted problems) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

Applicant(s) must comply with all conditions set forth in the grant or grants authority within the time period specified in the notice by effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board Number 3, Members Krock, Joyce, and Dowell

MC 139595 (Sub-No. 1). By decision of May 6, 1981, issued under 49 U.S.C. 10920 Review Board Number 3 approved the application of D&S Express, Inc., authorizing the transportation of (1) *General commodities* (Classes A and B explosives), between Suffolk County, NY, on the one hand, and, on the other, points in New Jersey north of the southern boundaries of Mercer and Monmouth Counties, NJ, and points in Orange, Rockland, and Westchester Counties, NY, and (2) *textile mill products*, between Suffolk County, NY, on the one hand, and, on the other, points in New Jersey.

Note.—This application is directly related to a transfer proceeding pursuant to 49 U.S.C 10926 in MC–FC–78891, published in this same **Federal Register** issue.

Appendix B

No. MC–139596 (Sub-No. 1)

Authority to conduct the following operations will be issued in an appropriate document.

To operate as a *common carrier*, by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting (1) *general commodities*, Classes A and B explosives, between Suffolk County, NY, on the one hand, and, on the other, points in New Jersey north of the southern boundaries of Mercer and Monmouth Counties, NJ, and points in Orange, Rockland, and Westchester Counties, NY, and (2) *textile mill products*, between Suffolk County, NY, on the one hand, and, on the other, points in New Jersey.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81-16912 Filed 6-5-81; 8:45 am]

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule 251 of the Commission's Rules of Practice, see 49 CFR 1100.251 Special Rule 251 was published in the **Federal Register** on December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness water carrier dual operations, or jurisdictional questions) we fined, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulation. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract"

Vol. No. OPY-4-170

Decided: June 2, 1981.

By the Commission, Review Board No. 2. Members Carleton, Fisher, and Williams.

MC 156106, filed May 22, 1981. Applicant: RON KINSFATER, 10913 S.E. Wood, Milwaukie, OR 97222. Representative: (same as applicant) (503) 659-1272. Transporting *food and other edible products and byproducts intended for human consumption* (except alcoholic beverages and drugs), *agricultural limestone and fertilizers, and other soil conditioners* by the owner of the motor vehicle in such vehicle between points in the U.S.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81-16909 filed 6-5-81; 8:45 am]

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OP1–161

Decided: May 28, 1981.

By the Commission, Review Board No. 1, Members Parker, Chandler, and Fortier.

W 580 (Sub-10), filed April 30, 1981. Applicant: DRUMMOND LIGHTERAGE COMPANY, P.O. Box 2287, Seattle, WA 98111. Representative: Leo C. Franey, 700 World Center Building, 918 Sixteenth Street NW., Washington, DC 20006, (202) 785–3700. To operate as a *common carrier* by water, in interstate or foreign commerce, (1) by self-propelled vessels or by nonself-propelled vessels with the use of separate towing vessels in the transportation of *general commodities*, and (2) by towing vessels in the performance of general towage, between ports and points on the Atlantic Coast and tributary waterways, Gulf of Mexico Coast and tributary waterways (excluding the Mississippi River System above Baton Rouge, LA), and Pacific Coast and tributary waterways.

MC 2960 (Sub-48), filed April 13, 1981, and previously noticed in the **Federal Register** issue of April 29, 1981. Applicant: ENGLAND TRANSPORTATION CO. OF TEXAS, INC., 2301 McKinney, Houston, TX 77023. Representative: Edwin M. Snyder, P.O. Box 45538, Dallas, TX 75245, (214) 358–3341. Transporting *general commodities* (except classes A and B explosives), between points in AR, TX, LA, and OK.

Note.—This republication includes AR in the radial territory.

MC 17000 (Sub-28), filed May 18, 1981 Applicant: HOHENWALD TRUCK LINES, INC., P.O. Box 196, Hohenwald TN 38462. Representative: Robert L. Baker, Sixth Floor, United American Bank, Nashville, TN 37219, (615) 244–8100. Over regular routes, transporting *general commodities* (except classes A and B explosives), between Chapel Hill, TN, and Nashville, TN, over U.S. Hwy 31A, serving all intermediate points.

MC 35831 (Sub-28), filed May 18, 1981. Applicant: E. A. HOLDER, INC., P.O. Box 69, Kennedale, TX 76060. Representative: Billy R. Reid, 1721 Carl St., Fort Worth, TX 76106, (817) 332–4718. Transporting *mercer commodities*, between points in TX, LA and NM.

MC 61440 (Sub-211), filed May 18, 1981. Applicant: LEE WAY MOTOR FREIGHT, INC., 3401 Northwest 63rd St., Oklahoma City, OK 73116. Representative: Richard H. Champlin, P.O. Box 12750, Oklahoma City, OK 73157, (405) 840–7579. Transporting *general commodities* (except classes A and B explosives), serving points in Tuscaloosa County, AL, as off-route points in connection with applicant's authorized regular route operations.

MC 82841 (Sub-313), filed May 15, 1981. Applicant: HUNT TRANSPORTATION, INC., 10770 "I" St., Omaha, NE 68127. Representative: William E. Christensen (same address as applicant), (402) 339–3003. Transporting *such commodities* as are dealt in or used by agricultural and industrial equipment dealers and manufacturers (1) between points in Scott and Des Moines Counties, IA, on the one hand, and, on the other, points in IA, NE, SD, MO, KS, CO, WY, UT, MT, NM, AZ, CA, NV, ID, WA, and OR and (2) between points in Racine County, WI, on the one hand, and, on the other, points in MO, IA, NE, KS, SD, CO, and WY.

MC 85970 (Sub-55), filed May 8, 1981. Applicant: SARTAIN TRUCK LINE, INC., 1625 Hornbrook Street, Dyersburg, TN 38024. Representative: Warren A. Goff, 2008 Clark Tower, 5100 Poplar Ave., Memphis, TN 38137, (901) 767–5600. Transporting *metal products*, between points in Orange County, CA, on the one hand, and on the other, points in the U.S.

MC 88161 (Sub-100), filed May 18, 1981. Applicant: INLAND TRANSPORTATION CO., INC., 6737 Corson Avenue South, Seattle, WA 98108. Representative: Paul J. Monroe (same address as applicant), (206) 767–3605. Transporting *pulp, paper and related products, and lumber and wood products*, between points in the U.S., under continuing contract(s) with Weyerhaeuser Company, of Tacoma, WA.

MC 93840 (Sub-63), filed May 15, 1981 Applicant: GLESS BROS., INC., P.O. Box 219, Blue Grass, IA 52726. Representative: Larry D. Knox, 600 Hubbell Bldg., Des Moines, IA 50309, (515) 244–2329. Transporting *general commodities* (except classes A and B explosives), between the facilities of Ralston Purina Company and its subsidiaries, in the U.S., on the one

hand, and, on the other, points in the U.S.

MC 108121 (Sub-17), filed May 15, 1981. Applicant: TRANSPORT STORAGE & DISTRIBUTING CO., 18800 Southcenter Parkway, Tukwila, WA 98188. Representative: Michael B. Crutcher, 2000 IBM Building, Seattle, WA 98101, (206) 623–7580. Transporting *transportation equipment*, between points in the U.S., under continuing contract(s) with Mazda Motors of America (Central), Inc. of Compton, CA.

MC 108121 (Sub-18), filed May 20, 1981. Applicant: TRANSPORT STORAGE & DISTRIBUTING CO., a corporation, 18800 Southcenter Parkway, Tukwila, WA 98188. Representative: Michael B. Crutcher, 2000 IBM Bldg., Seattle, WA 98101, (206) 623–7580. Transporting *transportation equipment*, between Tacoma, WA, and points in NV.

MC 111310 (Sub-65), filed April 20, 1981, previously noticed in the **Federal Register** issue of May 5, 1981. Applicant: BEER TRANSIT, INC., Box 352, Black River Falls, WI 54615. Representative: Wayne W. Wilson, 150 E. Gilman, Madison, WI 53703, (608) 256–7444. Transporting *food and related products*, between the facilities of Swift & Company at those points in the U.S. in and east of ND, SD, NE, KS, OK, and TX, on the one hand, and, on the other, those points in the U.S. in and east of ND, SD, NE, KS, OK, and TX.

MC 113751 (Sub-47), filed May 18, 1981. Applicant: HAROLD F. DUSHEK, INC., 10th and Columbia Sts., Waupaca, WI 54981. Representative: James A. Spiegel, Olde Towne Office Park, 6333 Odana Rd., Madison, WI 53719, (608) 273–1003. Transporting *food and related products* between the facilities used by Sanna Inc., a subsidiary of Beatrice Food Company at those points in the U.S., in and east of ND, SD, NE, CO, OK, and TX, on the one hand, and, on the other, those points in the U.S., in and east of ND, SD, NE, CO, OK and TX.

MC 114761 (Sub-15), filed May 20, 1981. Applicant: GETTER TRUCKING INCORPORATED, 1635 North Frontage Road, Billings, MT 59101. Representative: John R. Davidson, Suite 805, First Bank Bldg., Billings, MT 59101, (406) 248–9156. Transporting (1) *mercer commodities* and (2) *pipe, and earth drilling materials, equipment, and supplies*, (a) between points in AK, AZ, CA, CO, ID, KS, MT, NE, ND, NM, NV, OK, OR, SD, TX, UT, WA, and WY, and (b) between points in AK, AZ, CA, CO, ID, KS, MT, NE, ND, NM, NV, OK, OR, SD, TX, UT, WA, and WY, on the one hand, and, on the other, those points in the U.S. in and east of ND, SD, NE, KS, OK, and TX.

MC 117730 (Sub-87), filed May 15, 1981. Applicant: KOUBENEC MOTOR SERVICE, INC., Route #47, Huntley, IL 60142. Representative: Stephen H. Loeb, Suite 2027, 33 North LaSalle St., Chicago, IL 60602, (312) 726–9722. Transporting *food and related products*, between points in Davidson County, TN, on the one hand, and, on the other, points in FL, GA, NC, PA, and SC.

MC 121720 (Sub-1), filed May 19, 1981. Applicant: FRANK'S TRANSFER, INC., 126 West Forest Grove, Phoenix, AZ 85041. Representative: Andrew V. Baylor, 337 E. Elm St., Phoenix, AZ 85012, (602) 274–5146. Transporting *general commodities* (except classes A and B explosives), between points in the U.S., under continuing contract(s) with Kinney Service Corporation, of Harrisburg, PA.

MC 123310 (Sub-24), filed May 20, 1981. Applicant: DOUG ANDRUS DISTRIBUTING, INC., 1820 W. Broadway, Idaho Falls, ID 83401. Representative: Timothy R. Stivers, P.O. Box 1576, Boise, ID 83701, (208) 343–3071. Transporting *chemicals and related products* between points in ID, MT, OR, WA, WY and UT.

MC 134551 (Sub-23), filed May 19, 1981. Applicant: LANTER REFRIGERATED DISTRIBUTING CO., No. 3 Caine Dr., Madison, IL 62060. Representative: Gerald K. Gimmel, Suite 145, 4 Professional Dr., Gaithersburg, MD, (301) 840–8565. Transportation (1) *chemicals and related products*, (2) *machinery*, and (3) *instruments and photographic goods*, between St. Louis, MO, on the one hand, and, on the other, those points in IL on and south of U.S. Highway 80.

MC 138800 (Sub-1), filed May 15, 1981. Applicant: THREE BROTHERS, INC., 40 "B" Street, Boston, MA 02127. Representative: Frederick T. O'Sullivan, P.O. Box 2184, Peabody, MA 01960, (617) 535–5430. Transporting *transportation equipment*, between points in MA, on the one hand, and, on the other, those points in the U.S. in and east of WI, IL, MO, AR, and LA.

MC 143130 (Sub-2), filed May 8, 1981. Previously noticed in **Federal Register** issue of May 21, 1981. Applicant: RITCHIE BUS LINES, INC., 257 West Main Street, Northboro, MA 01530. Representative: Thomas N. Willess, 1000 Sixteenth St., NW., Suite 502, Solar Bldg., Washington, DC 20036, (202) 783–8131. Transportation *passengers and their baggage*, in the same vehicle with passengers, in charter operations, between points in MA and RI, and those in Windham, Tolland, Hartford, New Haven, Middlesex, and New London Counties, CT, Merrimack, Rockingham, Hillsborough and Cheshire Counties, NH, York County, ME, and Windham County, VT, on the one hand, and, on the other, points in the U.S. (including AK, but excluding HI).

Note.—This republication clarifies the type of service to be performed.

MC 143280 (Sub-28), filed May 18, 1981. Applicant: SAFE TRANSPORTATION COMPANY, 6834 Washington Ave. South, Eden Prairie, MN 55344. Representative: Robert P. Sack, P.O. Box 6010, West St. Paul, MN 55118, (612) 457–6889. Transportation (1) *pulp, paper and related products*, (2) *chemicals and related products*, (3) *metal products*, and (4) *rubber and plastic products*, between points in Will County, IL, Brown and Winnebago Counties, WI, on the one hand, and, on the other, points in the U.S.

BILLING CODE 7035-01-M

[Volume No. 95]

Motor Carriers; Permanent Authority Decisions; Restriction Removals; Decision-Notice

Decided: June 2, 1981.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR Part 1137. Part 1137 was published in the **Federal Register** of December 31, 1980, at 45 FR 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the specific provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Restriction Removal Board, Members Sporn, Alspaugh, and Shaffer.

Agatha L. Mergenovich,

Secretary.

MC 52460 (Sub-328)X, filed May 11, 1981. Applicant: ELLEX TRANSPORTATION, INC., P.O. Box 9637, Tulsa, OK 74107. Representative: William P. Parker, 141 N.E. 38th Terrace, Oklahoma City, OK 73105. DEPARTMENT OF JUSTICE

Antitrust Division

United States v. Laramie County Liquor Dealers Association; Proposed Consent Judgment and Competitive Impact Statement Thereon

Notice is hereby given pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. Sections 16(b)-(h), that a proposed Final Judgment and a Competitive Impact Statement have been filed with the United States District Court for the District of Wyoming in *United States* v. *Laramie County Liquor Dealers Association*, Civil No. C80-0239.

The complaint in this case alleged that the Association conspired to fix, raise, maintain, and stabilize prices of beer, wine and liquor sold to customers of Association members in violation of Section 1 of the Sherman Act.

The proposed Final Judgment prohibits the Association from fixing or establishing prices; from preparing or distributing price lists; from contacting any person who sells beer, wine or liquor because of the prices charged by that person; and from attempting to enforce any price or price list.

The proposed Final Judgment requires the Association to distribute copies of the Judgment to its members, present and future, and to all other retail liquor dealers to whom it provided price lists. It also requires the Association to hold a meeting in 1981 at which the Final Judgment is to be explained by an attorney to the retail liquor dealers of Laramie County. The proposed Final Judgment further requires the Association to direct its members to independently recompute their current prices.

Public comment is invited within the statutory 60-day comment period. Such comments and responses thereto, will be published in the **Federal Register** and filed with the Court. Comments should be directed to Anthony E. Desmond, Chief, San Francisco Field Office, Antitrust Division, Department of Justice, 450 Golden Gate Avenue, Box 36046, San Francisco, California 94102.

Joseph H. Widmar,
Director of Operations.

United States District Court—District of Wyoming

United States of America, plaintiff, v. Laramie County Liquor Dealers Association, an unincorporated association, defendant. Civil No. C80-0239.

Filed: May 29, 1981.

Stipulation

It is stipulated by and between the undersigned parties, by their respective attorneys, that:

1. The parties consent that a Final Judgment in the form hereto attached may be filed and entered by the Court, upon the motion of any party or upon the Court's own motion, at any time after compliance with the requirements of the Antitrust Procedures and Penalties Act [15 U.S.C. § 16], and without further notice to any party or any other proceedings, provided that plaintiff has not withdrawn its consent, which it may do at any time before the entry of the proposed Final Judgment by serving notice thereof on defendant and by filing that notice with the Court.

2. In the event plaintiff withdraws its consent or if the proposed Final Judgment is not entered pursuant to this Stipulation, this Stipulation shall be of no effect whatever and the making of this Stipulation shall be without prejudice to plaintiff or defendant in this or any other proceeding.

Dated:

For the Plaintiff, United States of America: William F. Baxter, *Assistant Attorney General;* Joseph H. Widmar, Anthony E. Desmond, *Attorneys, Department of Justice;* /s/ Tosh Suyematsu, *United States Attorney;* Gary R. Spratling, Christopher S. Crook, *Attorneys, Department of Justice.*

For the Defendant, Laramie County Liquor Dealers Association: Louis A. Mankus, *Attorney, Laramie County Liquor Dealers Assocation.*

United States District Court—District of Wyoming

United States of America, Plaintiff, v. Laramie County Liquor Dealers Association, an unincorporated association, Defendant. Civil No. C80–0239 Final Judgment.

Filed: May 29, 1981.

Plaintiff, United States of America, having filed its complaint herein on August 11, 1980 and the defendant, by its attorneys, having consented to the entry of this Final Judgment, without trial or adjudication of any issue of fact of law herein and without this Final Judgment constituting any evidence against or admission by any party with respect to any isue of fact or law herein:

Now, therefore, without any adjudication of any issue of fact or law herein, and upon the consent of both parties hereto, it is hereby

Ordered, adjudged and decreed:

I.

This Court has jurisdiction of the subject matter herein and of the parties hereto. The Compliant states claims upon which relief may be granted against the defendant under Section 1 of the Sherman Act (15 U.S.C. § 1).

II.

As used in this Final Judgment:

(A) "Person" shall mean any individual, sole proprietorship, partnership, firm, association, corporation or other business entity;

(B) "Price list" means any list of retail prices charged or to be charged for liquor, or showing a range of retail prices to be charged or a method for charging retail liquor prices;

(C) "Liquor" means all alcoholic beverages for human consumption incuding wine, beer and spirits.

III.

The provisions of this Final Judgment are applicable to the defendant and also apply to each of defendant's officers, directors, agents, employees, successors and assigns, and members and to all other persons in active concert or participation with any of them, who shall have received actual notice of this Final Judgment by personal service or otherwise.

IV.

Defendant is enjoined and restrained from:

(A) Fixing, establishing, maintaining or stabilizing any price for the sale of liquor;

(B) Advocating, suggesting, urging, advising, inducing or recommending that any person who sells liquor adhere to or otherwise base its liquor prices on any particular price list;

(C) Adopting, preparing, formulating, suggesting, publishing or distributing any price list;

(D) Adhering to, maintaining, or enforcing any price list or price to be charged for the sale of liquor;

(E) Making any individual contact, devising or putting into effect any procedure, or taking any action with reference to a person who sells liquor because of the prices charged for liquor by that person;

(F) Communicating to or exchanging with any person who sells liquor any information concerning actual or proposed prices for liquor, or price changes, discounts, delivery charges, or other terms and conditions of sale at which liquor is to be, or has been sold.

V.

(A) Defendant, Laramie County Liquor Dealers Association, shall direct its members, and all other persons to whom it or its members have distributed or provided price lists, at any time, to destroy all such price lists.

(B) Defendant, Laramie County Liquor Dealers Association, shall direct all of its members to independently and individually review and recompute their current prices and discounts for the sale of liquor based on current wholesale costs and market conditions, without reference to and without regard for any price lists distributed or provided at any time by said defendant or any other liquor dealer.

(C) Defendant's President, Robert L. McMurray, and its former Vice-President, Milton L. Nation, shall reduce to writing the result of their independent review and recomputation required by paragraph (B) of this Section, including a full explanation of the methodology employed by them, and shall mail or deliver the same to this Court, with a copy to plaintiff, within ninety (90) days after the entry of this Final Judgment, to be filed by the Clerk of the Court under seal, unavailable to the public except upon order of this Court.

(D) Defendant, Laramie County Liquor Dealers Association,

(1) shall within sixty (60) days after the date of entry of this Final Judgment, send a copy of this Final Judgment together with a letter identical in text to that attached to this Final Judgment as Appendix A, to each licensed liquor dealer in Laramie County, Wyoming;

(2) shall serve a copy of this Final Judgment together with a letter identical in text to that attached to this Final Judgment as Appendix A, upon all of its future members as they become members; and

(3) shall file with this Court and serve upon the plaintiff within ninety (90) days after the date of entry of this Final Judgment an affidavit as to the fact and manner of compliance with subsections (A), (B), and (D)(1) of this Section V.

(E) Defendant, Laramie County Liquor Dealers Association, shall conduct at least one meeting during 1981 to which it invites all of its members and all other licensed liquor dealers in Laramie County, during which meeting an attorney retained by defendant will explain this Final Judgment to the persons present and will also explain the applicability of federal and state (Wyoming) antitrust laws to the sale and distribution of liquor in Wyoming. Reasonable notice of the above-described meeting will be provided to plaintiff, who through its attorneys may attend the meeting to insure compliance with this provision.

VI.

Jurisdiction is retained by this Court for the purpose of enabling either of the parties to this Final Judgment to apply to this Court at any time for such further orders or directions as may be necessary or appropriate for the construction or carrying out of this Final Judgment, for the modification of any of the provisions hereof, for the enforcement of compliance herewith, and for the punishment of any violation hereof.

VII.

This Final Judgment shall be in full force and effect for a period of ten (10) years following entry of this decree.

VIII.

Entry of this Final Judgment is in the public interest.

Dated:

United States District Judge

Appendix A

Dear Sir: This letter and the enclosed Final Judgment are being sent to you as part of the settlement of a lawsuit brought by the United States against the Laramie County Liquor Dealers Association (*United States* v. *Laramie County Liquor Dealers Association.* Civil No. C80–0239). You should read the Final Judgment carefully and note that you, as an individual, under certain circumstances are bound by its provisions. The purpose of this letter is to help explain the provisions in the Final Judgment.

The essence and intent of the Final Judgment is that the Laramie County Liquor Dealers Association may not in any way prepare, publish, adopt, distribute, suggest, recommend, advocate or enforce any form of price list. The principal purpose of the Judgment is to prohibit the Association and its members from engaging in any joint activity concerning the prices to be charged for liquor, which includes beer, wine and spirits. Under the law and this Judgment, you or your retail liquor store must set your own prices for liquor (beer, wine and spirits) independently without consultation or agreement with the Association or any of its officers or members, or any other retail liquor dealer. You should review your current prices and discounts and recompute them without regard to any price lists prepared, suggested, or recommended by the Association or its officers or members and without consultation with any other retail liquor dealer.

If you have any price lists prepared, suggested, or recommended by the Association or its officers or members, you must destroy all such price lists.

United States District Court—District of Wyoming

United States of America, plaintiff v. Laramie County Liquor Dealers Association, an unincorporated association, defendant. Civil No. C80–0239.

Competitive Impact Statement

Pursuant to Section 2(b) of the Antitrust Procedures and Penalties Act [15 U.S.C. 16(b)], the United States hereby submits this Competitive Impact Statement relating to the proposed consent judgment submitted for entry in this civil antitrust proceeding.

I.

Nature of the Proceeding

On August 11, 1980, the United States filed a civil Complaint under Section 4 of the Sherman Act (15 U.S.C. 4), alleging that defendant, Laramie County Liquor Dealers Association (defendant Association), and unnamed co-conspirators, had engaged in a combination and conspiracy to fix, raise, maintain, and stabilize the prices of beer, wine, and liquor sold to customers of Association members. The Complaint asks the Court to find that the defendant has violated Section 1 of the Sherman Act (15 U.S.C. 1) and further requests the Court to enjoin the continuance of the conspiracy.

II.

Practices Giving Rise to the Alleged Violation

Defendant is an unincorporated association whose members are retail liquor dealers located in Laramie County, Wyoming. The Government contends and was prepared to show at trial that beginning at least as early as 1968 and continuing to the date of the filing of the Complaint (August 11, 1980) that defendant prepared, published and distributed suggested retail price lists for beer, wine and liquor. These price lists were distributed both to members of the defendant and to other retail liquor dealers in Laramie County. The price lists were prepared at defendant's expense, with dues collected from defendant's members, and were usually revised and distributed several times each year. The Government was further prepared to show at trial that the price lists were used by retail liquor dealers who were members of the defendant Association to establish their prices and that defendant prepared and published the price lists with the intent and knowledge that the price lists would be used by its members and other retail liquor dealers in establishing their prices for beer, wine and liquor sold in Laramie County.

According to the Complaint, the practices described above have had the following effects: (a) price competition in the sale of beer, wine and liquor in Laramie County has been restrained; (b) prices for beer, wine and liquor sold to customers of defendant Association's members and co-conspirators have been artificially fixed, raised, maintained and stabilized; (c) customers of defendant Association's members and co-conspirators have been deprived of the opportunity to purchase beer, wine and liquor in an open and competitive market; and (d) competition between and among defendant Association's members and co-conspirators in the sale of beer, wine and liquor has been restrained.

III.

Explanation of the Proposed Consent Judgment

The United States and defendant Laramie County Liquor Dealers Association have agreed that the proposed Final Judgment, which is in a form negotiated by the parties, may be entered by the Court at any time after compliance with the Antitrust Procedures and Penalties Act. The proposed Final Judgment provides that there has been no admission by anyone with respect to any issue of fact or law. Under the provisions of Section 2(e) of the Antitrust Procedures and Penalties Act, entry of this Final Judgment by the Court is conditioned upon a determination that the proposed judgment is in the public interest.

The proposed Final Judgment will prohibit the Laramie County Liquor Dealers Association from fixing or establishing prices and from suggesting, urging, inducing or recommending that any person who sells beer, wine or liquor, adhere to or otherwise base its prices on any price list (Sections IV(A) and (B)). The defendant Association will be prohibited from preparing, publishing, or distributing any price lists for beer, wine or liquor (Section IV(C)). The defendant Association is also prohibited from contacting persons who sell beer, wine or liquor with reference to the prices charged by that person and from attempting to enforce any price or price list (Sections IV(D) and (E)). The defendant Association is further prohibited from communicating or exchanging with any person who sells liquor information about prices or proposed prices (Section IV(F)).

In order to help put into effect the provisions of Section IV of the proposed Final Judgment, defendant Association is required to direct its members and other persons to whom it distributed price lists (1) to destroy all such price lists (Section V(A)), and (2) to independently and individually review and recompute their current prices without reference to defendant's or anyone else's price list (Section V(B)). The proposed Final Judgment also requires that defendant's President and former Vice President submit the results of their individual recomputations to the Court (Section V(C)). The defendant Association is further required to provide the Final Judgment to each licensed liquor dealer in Laramie County, as well as to all future members of defendant Association, and to have the Final Judgment explained to its members by an attorney at an Association meeting held in 1981 (Sections V(D) and (E)).

The proposed Judgment is designed to prevent any recurrence of the activities alleged in the Complaint. The provisions in the proposed judgment are intended to ensure that future retail beer, wine and liquor prices in Laramie County are determined by the individual decision of each retail liquor dealer without consultation with defendant Association or any other retail liquor dealer. The provisions of the Final Judgment will be in effect for a period of ten years.

IV.

Alternatives to the Proposed Final Judgment

The alternative to the proposed Final Judgment would be a full trial of the case. In the view of the Department of Justice, such a trial would involve substantial costs to the United States and is not warranted since the proposed Final Judgment provides the relief that the United Staters sought in its Complaint.

V.

Remedies Available to Private Litigants

Section 4 of the Clayton Act (15 U.S.C. 15) provides that any person who has been injured as a result of conduct prohibited by the antitrust laws may bring suit in federal court to recover three times the damages suffered, as well as costs and reasonable attorney fees. Under the provisions of Section 5(a) (15 U.S.C. 16(a)), this Final Judgment has no *prima facie* effect in the lawsuits which may be brought against the defendant.

VI.

Procedures Available for Modification of the Proposed Judgment

As provided by the Antitrust Procedures and Penalties Act, any person believing that the proposed judgment should be modified may submit written comments to Anthony E. Desmond, Department of Justice, Antitrust Division, 450 Golden Gate Avenue, San Franscisco, California 94102, within the 60-day period provided by the Act. The comments and the Government's responses to them will be filed with the Court and published in the **Federal Register**. All comments will be given due consideration by the Department of Justice, which remains free to withdraw its consent to the proposed judgment at any time prior to its entry if it should determine that some modification of the judgment is necessary to the public interest. The proposed judgment itself provides that the Court will retain jurisdiction over this action, and that the parties may apply to the Court for such orders as may be necessary or appropriate for the modification or enforcement of the judgment.

VII.

Determinative Document

No materials and documents of the type described in Section 2(b) of the Antitrust Procedures and Penalties Act (15 U.S.C. 16(b)) were considered in formulating this proposed judgment.

Dated:

Gary R. Spratling,

Christopher S. Crook,

Attorneys, U.S. Department of Justice.

Federal Bureau of Investigation

Advisory Policy Board of the National Crime Information Center; Meeting

The Advisory Policy Board of the National Crime Information Center (NCIC) will meet on June 17 and June 18, 1981, from 9:00 a.m. until 5:00 p.m. at the Red Lion Inn, 29th and Chinden Boulevard, Boise, Idaho.

The major topics to be discussed include:

(1) Status of implementation of the Interstate Identification Index Pilot Project.

(2) NCIC access by campus police agencies, railroad police agencies and regional communication centers.

(3) Reorganization of the NCIC Boat File.

(4) The presentation of proposals recommended by local and state users of the NCIC System and the quality of records within the System.

The meeting will be open to the public with approximately 45 seats available for seating on a first-come first-served basis. Any member of the public may file a written statement with the Advisory Policy Board before or after the meeting. Anyone wishing to address a session of the meeting should notify the Advisory Committee Management Officer, Mr. W. A. Bayse, FBI, at least twenty-four hours prior to the start of the session. The noification may be by mail, telegram, cable or hand-delivered note. It should contain the name, corporate designation, consumer affiliation or Government designation, along with a capsulized version of the statement and an outline of the material to be offered. A person will be allowed not more than 15 minutes to present a topic, except with the special approval of the Chairman of the Board.

Inquiries may be addressed to Mr. David F. Nomecek, Committee Management Liaison Officer, NCIC, Federal Bureau of Investigation, Washington, D.C. 20535, telephone number 202–324–2606.

Dated: May 31, 1981.

NATIONAL ADVISORY COMMITTEE ON OCEANS AND ATMOSPHERE

Independent Areas Task Force, Fisheries Subgroup;

Pursuant to section 10(a)(2), of the Federal Advisory Committee Act, 5 U.S.C. App. (1976), notice is hereby given that the Fisheries Subgroup of the Independent Areas Task Force (IATF) of the National Advisory Committee on Oceans and Atmosphere (NACOA) will meet Wednesday and Thursday, June 17–18, 1981. The Subgroup will meet in Room 550, Page #2, 3300 Whitehaven St., NW. on June 17 and Room 418, Page #1, 2001 Wisconsin Ave., NW. on June 18.

The sessions, which will be open to the public, will convene at 9:00 a.m. and adjourn at 4:00 p.m. on Wednesday, June 17 and will convene at 9:00 a.m. and adjourn at 4:00 p.m. on Thursday, June 18. Discussions with non-Federal officials on fishery issues will be conducted at this meeting. The tentative agenda is as follows:

Wednesday, June 17

Room 550, Page 2

9:00 a.m.–9:30 a.m.—Opening Remarks–Jay Lanzillo
9:30 a.m.–10:30 a.m.—Briefing by James Crutchfield, University of Washington
10:30–12:00 noon—Briefing by John Mehos, Liberty Fish Co.
12:00 noon–1:00 p.m.—Lunch
1:00 p.m.–2:00 p.m.—Briefing by Douglas Gordon, National Food Processors
2:00 p.m.–3: p.m.—Briefing by Lucy Sloan, National Federation of Fishermen
3:00 p.m.–4: p.m.—Discussion of report

Thursday, June 18

Room 418, Page 1

9:00 a.m.–10:00 a.m.—Briefing by Gilbert Radonski, Sport Fish Institute
10:00 a.m.–11:00 a.m.—Briefing
11:00 a.m.–12:00 a.m.—Briefing by Spencer Apollonio, State of Maine
12:00 noon–1:00 p.m.—Lunch
1:00 p.m.–4:00p.m.—Discussion of report

NACOA has initiated a study to formulate national goals and objectives for the oceans in the decade of the 1980's and beyond. To support the conduct of this study, the Secretary of Commerce has established the IATF for NACOA. The IATF will be responsible for the preparation of preliminary recommendations in the areas of energy, fisheries, marine transportation, ocean minerals, ocean operations and services, and waste management and pollution.

Persons desiring to attend will be admitted to the extent seating is available. Persons wishing to make formal statements should notify the Chairperson of the Subgroup on Fisheries, Jay G. Lanzillo, in advance of the meeting. The Chairperson retains the prerogative to impose limits on the duration of oral statements and discussion. Written statements may be submitted before or after each session.

Additional information concerning this meeting may be obtained through the NACOA Executive Director, Mr. Steven N. Anastasion, or Clarence P. Idyll, the Staff Member for the Fisheries Subgroup. The mailing address is: NACOA, 3300 Whitehaven Street, NW. (Suite 438, Page Building #1), Washington, DC 20235.

Stephanie M. Jones,

Administrative Assistant.

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards, Subcommittee on Class-9 Accidents; Meeting

The ACRS Subcommittee on Class-9 Accidents will hold a meeting on June 24, 1981 in Room 1046, 1717 H Street, N.W., Washington, DC to review the research budget associated with the Severe Accident Research Program. Notice of this meeting was published May 19.

In accordance with the procedures outlined in the **Federal Register** on October 7, 1980 (45 FR 66535), oral or

written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the Designated Federal Employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The entire meeting will be open to public attendance except for those sessions which will be closed to protect proprietary information (Sunshine Act Exemption 4). One or more closed sessions may be necessary to discuss such information. To the extent practicable, these closed sessions will be held so as to minimize inconvenience to members of the public in attendance.

The agenda for subject meeting shall be as follows: *Wednesday, June 24, 1981, 10:00 a.m. until the conclusion of business.*

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, will exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the NRC Staff, their consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefore can be obtained by a prepaid telephone call to the cognizant employee, Mr. David Bessette (telephone 202/634–3267) between 8:15 a.m. and 5:00 p.m., EDT. The Designated Federal Employee for this meeting is Mr. Gary Quittschreiber.

I have determined, in accordance with Subsection 10(d) of the Federal Advisory Committee Act, that it may be necessary to close portions of this meeting to public attendance to protect proprietary information. The authority for such closure is Exemption (4) to the Sunshine Act, 5 U.S.C. 552b(c)(4).

Dated: June 3, 1981.

John C. Hoyle,

Advisory Committee Management Officer.

[FR Doc. 81-16872 Filed 6-5-81; 8:45 am]

BILLING CODE 7590-01-M

Advisory Committee on Reactor Safeguards, Subcommittee on Emergency Core Cooling Systems; Meeting

The ACRS Subcommittee on Emergency Core Cooling Systems will hold a meeting on June 23 and 24, 1981, at the Westbank Hotel, 475 River Parkway, Idaho Falls, ID. The Subcommittee will review the NRC Programs on Loss-of-Coolant-Accident (LOCA) and Transient Research, the LOFT Facility Research Program (Loss of Fluid Test) and will also discuss the NRC's FY 1983 Reactor Safety Research Program Budget. Notice of this meeting was published May 19.

In accordance with the procedures outlined in the **Federal Register** on October 7, 1980, (45 FR 66535), oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the Designated Federal Employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The majority of the meeting will be open to public attendance. The Subcommittee will be considering some predecisional budget information associated with the NRC Safety Research Program Budget for FY 1983. In order to perform this review, the ACRS must be able to engage in frank discussion with members of the NRC Staff. Therefore it may be necessary to close portions of this meeting (Sunshine Act Exemption 9(B)). To the extent practicable, these closed sessions will be held so as to minimize inconvenience to members of the public in attendance.

The agenda for subject meeting shall be as follows: *Tuesday and Wednesday, June 23–24, 1981 8:00 a.m. until the conclusion of business each day.*

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the NRC Staff, their consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefore can be obtained by a prepaid telephone call to the cognizant Designated Federal Employee, Mr. Paul Boehnert (telephone 202/634–3267) between 8:15 a.m. and 5:00 p.m., EDT.

I have determined, in accordance with Subsection 10(d) of the Federal Advisory Committee Act, that it may be necessary to close portions of this meeting to public attendance to protect 1978 NRC Authorization Act to review the NRC Research Program and Budget and to report the results of the review to Congress. The authority for such closure is Exemption 9(B) to the Sunshine Act, 5 U.S.C. 552b(c)(9)(B).

Dated: June 3, 1981.

John C. Hoyle,

Advisory Committee Management Officer.

Advisory Committee on Reactor Safeguards, Subcommittee on Three Mile Island Unit 1; Meeting

The ACRS Subcommittee on Three Mile Island Unit 1 will hold a meeting on June 25 and 26, 1981 in Room 1046, 1717 H Street, N.W., Washington, D.C. to review the restart modifications required as a result of the TMI–2 accident. Notice of this meeting was published May 19.

In accordance with the procedures outlined in the **Federal Register** on October 7, 1980 (45 FR 66535), oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the Designated Federal Employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The entire meeting will be open to public attendance except for those sessions which will be closed to protect proprietary information (Sunshine Act Exemption 4). One or more closed sessions may be necessary to discuss such information. To the extent practicable, these closed sessions will be held so as to minimize inconvenience to members of the public in attendance.

The agenda for subject meeting shall be as follows: *Thursday and Friday, June 25 and 26, 1981, 8:30 a.m. until the conclusion of business each day.*

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, will exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the Metropolitan Edison Company, NRC Staff, their consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefore can be obtained by a prepaid telephone call to the cognizant Designated Federal Employee, Mr. Richard Major (telephone 202/634–1414) between 8:15 a.m. and 5:00 p.m., EDT.

I have determined, in accordance with Subsection 10(d) of the Federal Advisory Committee Act, that it may be necessary to close portions of this meeting to public attendance to protect proprietary information. The authority for such closure is Exemption (4) to the Sunshine Act, 5 U.S.C. 552b(c)(4).

BILLING CODE 7590–01–M

[Docket No. 50–70]

General Electric Co., General Electric Test Reactor; Revised Notice of Availability of Applicant's Environmental Report and Notice of Intent To Publish an Environmental Impact Statement

Pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in 10 CFR Part 51, General Electric has filed an environmental report as part of their application for renewal of the operating license for General Electric Test Reactor located at the Vallecitos Nuclear Center near Pleasanton, California. The original request for renewal was submitted on October 21, 1975, and notice of Proposed Renewal of Facility License was published in the **Federal Register** on September 15, 1977 (42 FR 46427). The report, which discusses environmental considerations related to the continued operation of the facility, is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555. Copies of the report are also being made available at the Office of the Governor, Office of Planning and Research, 400 Tenth Street, Sacramento, CA 95814 and Association of Bay Area Governments, Hotel Claremont, Berkeley, CA 94705.

In order to determine the scope of the issues to be addressed in the EIS and to identify the significant issues related to the proposed license renewal, an open scoping meeting will be held in the Little Theatre at the Granada High School, 400 Wall Street, Livermore, CA 94550 at 9:30 a.m. on June 13, 1981.

After the environmental report has been analyzed by the staff, a draft environmental statement will be prepared. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the **Federal Register** a summary notice of availability of the draft statement, with a request for comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials will be made available when received. Upon consideration of comments submitted with respect to the draft environmental statement, the staff will issue a final environmental statement, the availability of which will be published in the **Federal Register**.

Any questions regarding the proposed license renewal or the environmental impact statement should be addressed to James R. Miller, Chief, Standardization and Special Projects Branch, Division of Licensing, Office of Nuclear Reactor Regulation, Washington, D.C. 20555, (301) 492–7014.

This Notice revises, in its entirety, the Notice issued May 22, 1981 and published in the **Federal Register** on May 29, 1981 (46 FR 29013).

Dated at Bethesda, Md, this 2d day of June 1981.

For the Nuclear Regulatory Commission.

James R. Miller,

Chief, Standardization and Special Projects Branch, Division of Licensing.

[FR Doc. 81–16875 Filed 6–5–81; 8:45 am]

BILLING CODE 7590–01–M

Regional Licensing Program; Establishment

Effective July 1, 1981, the U. S. Nuclear Regulatory Commission will establish a regional licensing program in which selected parts of its materials licensing program will be conducted at its Region I Office in King of Prussia, Pennsylvania. Licenses in the following Region I Non-Agreement States, with the exception of federal facilities within these states, will be involved in the regional licensing program: Connecticut, Delaware, Maine, Massachusetts, New Jersey, Pennsylvania and Vermont.

The program will include (1) all licenses for medical uses of radioisotopes, except teletherapy sources and nuclear power pacemakers. (2) all academic licenses except irradiators, (3) all industrial licenses authorizing research and development and (4) licenses for industrial use of gauges (stationary and portable) and sources contained in gas chromatographs and x-ray fluorescence analyzers.

Effective July 1, 1981, all inquiries or applications for new licenses, amendments, or renewals should be sent to the following address: U.S. Nuclear Regulatory Commission, Region I Material Licensing Section, 631 Park Avenue, King of Prussia, Pennsylvania 19406.

For further information, please contact me at 301–427–4002.

Dated at Silver Spring, Maryland this 29th day of May 1981.

For the Nuclear Regulatory Commission.

Vandy L. Miller,

Chief, Material Licensing Branch, Division of Fuel Cycle and Material Safety, NMSS.

[FR Doc. 81–16876 Filed 6–5–81; 8:45 am]

BILLING CODE 7590–01–M

Safety Goal; Extension of Period for Public Comment on Development

AGENCY: Nuclear Regulatory Commission.

ACTION: Extension of Period for Public Comment on Development of a Safety Goal.

The Nuclear Regulatory Commission hereby extends the period for public comment on development of a safety goal until June 25, 1981. Comments received after this date will be considered only to the extent practicable.

The NRC asked for public comment on documents and issues associated with the development of a safety goal and established an original deadline of May 26, 1981 for receipt of public comment (46 FR 18827, March 26, 1981). NRC had also expected to receive written and oral public comment in connection with four public meetings (46 FR 24336, April 30, 1981). These meetings were subsequently postponed. The postponement was announced in the **Federal Register** (46 FR 26721, May 14, 1981).

Because of the postponement of the public meetings and because of requests for an extension of the comment period

the NRC has decided to extend the period for written public comment until June 25, 1981.

Dated at Washington, District of Columbia this 3rd day of June 1981.

For the Nuclear Regulatory Commission.

Samuel J. Chilk,

Secretary of the Commission.

[FR Doc. 81-16877 Filed 6-5-81; 8:45 am]

BILLING CODE 7590-01-M

OFFICE OF MANAGEMENT AND BUDGET

Agency Forms Under Review

June 1, 1981.

Background

When executive departments and agencies propose public use forms, reporting, or recordkeeping requirements, the Office of Management and Budget (OMB) reviews and acts on those requirements under the Paperwork Reduction Act (44 U.S.C. Chapter 35). Departments and agencies use a number of techniques including public hearings to consult with the public on significant reporting requirements before seeking OMB approval. OMB in carrying out its responsibility under the Act also considers comments on the forms and recordkeeping requirements that will affect the public.

List of Forms Under Review

Every Monday and Thursday OMB publishes a list of the agency forms received for review since the last list was published. The list has all the entries for one agency together and grouped into new forms, revisions, extensions (burden change), extensions (no change), or reinstatements. The agency clearance officer can tell you the nature of any particular revision you are interested in. Each entry contains the following information:

The name and telephone number of the agency clearance officer (from whom a copy of the form and supporting documents is available);

The office of the agency issuing this form;

The title of the form;

The agency form number, if applicable;

How often the form must be filled out;

Who will be required or asked to report;

The Standard Industrial Classification (SIC) codes, referring to specific respondent groups that are affected;

Whether small businesses or organizations are affected;

A description of the Federal budget functional category that covers the information collection;

An estimate of the number of responses;

An estimate of the total number of hours needed to fill out the form;

An estimate of the cost to the Federal Government;

An estimate of the cost to the public;

The number of forms in the request for approval;

An indication of whether Section 3504(h) of Pub. L. 96-511 applies;

The name and telephone number of the person or office responsible for OMB review; and

An abstract describing the need for and uses of the information collection.

Reporting or recordkeeping requirements that appear to raise no significant issues are approved promptly. Our usual practice is not to take any action on proposed reporting requirements until at least ten working days after notice in the **Federal Register**, but occasionally the public interest requires more rapid action.

Comments and Questions

Copies of the proposed forms and supporting documents may be obtained from the agency clearance officer whose name and telephone number appear under the agency name. The agency clearance officer will send you a copy of the proposed form, the request for clearance (SF83), supporting statement, instructions, transmittal letters, and other documents that are submitted to OMB for review. If you experience difficulty in obtaining the information you need in reasonable time, please advise the OMB reviewer to whom the report is assigned. Comments and questions about the items on this list should be directed to the OMB reviewer or office listed at the end of each entry.

If you anticipate commenting on a form but find that time to prepare will prevent you from submitting comments promptly, you should advise the reviewer of your intent as early as possible.

The timing and format of this notice have been changed to make the publication of the notice predictable and to give a clearer explanation of this process to the public. If you have comments and suggestions for further improvements to this notice, please send them to Jim J. Tozzi, Deputy Administrator, Office of Information and Regulatory Affairs, Office of Management and Budget, 726 Jackson Place, Northwest, Washington, D.C. 20503.

DEPARTMENT OF AGRICULTURE

Agency Clearance Officer—Richard J. Schrimper—202-447-6201

New

• Farmers Home Administration
Application for FMHA Services
FMHA 410-1
On occasion
Individuals or households/farms
Farm operators and ranchers unable to obtain credit from
SIC: 011,013, 016, 017, 018, 019, 021, 024, 025, 027
Small businesses or organizations
Farm income stabilization, 218,000 responses, 109,000 hours; $81,280 Federal cost, 1 form; not applciable under 3504(h)
Charles A. Ellett, 202-395-7340

The consolidated Farm and Rural Development Act, as amended, authorizes FMHA to collect information necessary to determine applicants eligibility for the requested financial assistance.

Revisions

• Food Safety and Quality Service
Regulations Governing Inspection, Certification and Standards for Fresh Fruit, Vegetables and Other Products
FVQ-237, FVQ-292
On occasion
Businesses or other institutions
Processors
SIC: 964, 072
• Consumer and occupational health and safety, 81,700 responses, 4,170 hours; $42,527 Federal cost, 2 forms; not applicable under 3504(h)
Charles A. Ellett, 202-395-7340

The standardization and grading programs for fresh fruits, vegetables, edible nuts, peanuts and miscellaneous related products are authorized under the Agricultural Marketing Act of 1946. Grading service is available in all shipping areas under cooperative agreements between the Department and the cooperating agencies. These regulations are necessary in order that uniformity be obtained in providing the services as required by the act.

Extensions (Burden Change)

• Economics and Statistics Service
Off-Farm Stocks of Grain and Oilseed
Quarterly, other—see SF 83
Businesses or other institutions
Terminal elevators and warehouses, country elevators
SIC: 422
Small businesses or organizations
Agricultural research and services, 41,900 responses, 13,827 hours;

$335,000 Federal cost, 5 forms; not applicable under 3504(h)
Off. of Federal Statistical Policy and Standard, 202–673–7974

Provides data to estimate quarterly off-farm stocks of major grains and oilseeds produced in the United States. Results combined with on-farm stocks (40-R0007) to estimate stocks in all positions. Farm legislation requires Secretary of Agriculture to consider carryover stocks relative to the Department's export-import program.

DEPARTMENT OF COMMERCE

Agency Clearance Officer—Edward Michals 202–377–3627

New

• National Oceanic and Atmospheric Administration
Foreign Fishing: Northeast Pacific Ocean
On occasion
Businesses or other institutions
Foreign fishing vessels
Small businesses or organizations
Other natural resources, 6,600 responses, 1,650 hours; 1 form; not applicable under 3504(h)
William T. Adams, 202–395–4814

Day-to-day management of foreign fishing operations across the west coast. Monitors catch so that overfishing will be prevented and fees required under 50 CFR 611.20 can be assessed.

DEPARTMENT OF EDUCATION

Agency Clearance Officer—Wallace McPherson—202–426–5030

New

• Office of Educational Research and Improvement
Residential and Migration of College Students, Fall 1981

• Part 214—Terms, Conditions and Limitations of Foreign
Air Carrier Permits authorizing Charter Transportation Only
On Occasion
Businesses or other Institutions
Foreign charter air carriers
SIC: 451
Small businesses or organizations
Air transportation, 20,016 responses, 10,824 hours; 1 form; not applicable under 3504(H)
Terry Grindstaff, 202–395–7340

Eliminated all reporting requirements in part 214 and consolidated them with similar requirements in part 212.

• Part 323—Terminations, Suspensions, and Reductions of Service
On Occasion
Businesses or other institutions
U.S. Direct air carriers
SIC: 451
Small businesses or organizations
Air transportation, 214 responses, 2,272 hours; 1 form; not applicable under 3504(H)

Terry Grindstaff, 202–395–7340

Would reduce airline suspension and termination notice requirements.

Reflecting the Board's loss of authority under section 401 (J) of the Federal Aviation Act on January 1, 1982. Section 401 (J) notices would be eliminated and new, less burdensome notice types would permit the board to carry out its authority under section 419.

ENVIRONMENTAL PROTECTION AGENCY

Agency Clearance Officer—Mr. Phillip Ross—202–287–0747

New

• Interlocutory Motion for Appeal
Nonrecurring
Individuals or households
Permittee, regional trial staff, intervenor
Pollution control and abatement, 8 responses, 640 hours; 1 form; not applicable under 3504 (H)
Edward H. Clarke, 202–395–7340

Any party may file a motion for an interlocutory appeal to the administrator.

• Petition to Administrator
Nonrecurring
Individuals or households/state or local governments/businesses or other inspermittee, regional trial staff, intervenor
Small businesses or organizations
Pollution control and abatement, 8 responses, 640 hours; 1 form; not applicable under 3504 (H)
Edward H. Clarke, 202–395–7340

Any part may file a petition to Appeal to the Administrator any matter set forth in the initial decision.

• Manual Value Discharge and Relief Valve Discharge Reports and Records
On Occasion
Businesses or other institutions
Ethylene dichloride, vinyl chloride, and polyvinyl chlor. pl.
SIC: 282
Pollution control and abatement, 232 responses, 464 hours; $1,933 Federal cost, 1 form; not applicable under 3504 (H)
Edward H. Clarke, 202–395–7340

Owner or operator shall submit a report of details of a relief valve charge has occurred, this report is documenting a violation.

• Demolition and Renovation Notification, Recordkeeping
On occasion
Businesses or other institutions
Demolition and renovation contractors
SIC: 179
Small businesses or organizations
Pollution control and abatement, 7,675 responses, 3,838 hours; $15,979 Federal cost, 1 form; not applicable under 3504 (h)
Edward H. Clarke, 202–395–7340

Owner or operator provides notification prior to renovation or demolition to allow Administrator time for scheduling an observer, ensuring compliance, and program planning. Recordkeeping and requests for alternative procedures allow the source flexibility in operations while remaining in compliance.

• Filing of Brief, Proposed Findings of Fact and Conclusions of Law
Nonrecurring
Businesses or other institutions
Permit applicant, agency trial staff
SIC: Multiple
Pollution control and abatement, 124 responses, 9,920 hours; 1 form; not applicable under 3504 (h)
Edward H. Clarke, 202–395–7340

Each party may submit proposed findings of fact, conclusions of law and a brief in support thereof, each party may file a reply brief.

• Monitoring requirements for primary aluminum reduction plants
Other—see SF83
Businesses or other institutions
Each new, modified or reconstructed primary aluminum
SIC: 333
Small businesses or organizations
Pollution control and abatement, 1,095 responses, 274 hours; $625 Federal cost, 1 form; not applicable under 3504 (h)
Edward H. Clarke, 202–395–7340

Owner or operator shall record daily aluminum and anode weight, and maintain records of daily production nates for aluminum and anode, raw material feed rates and potline voltages for 2 years. EPA uses this data to assure production conditions are the same as when the source was originally performance tested.

• Appeal From or Review of Recommended Decision
Nonrecurring
Individuals or households/State or local governments/businesses or other institutions
Permit applicant or agency trial staff
SIC: Multiple
Pollution control and abatement 62 responses, 4,960 hours; 1 form; not applicable under 3504 (h)
Edward H. Clarke, 202–395–7340

Any party may take exception to any decision of the presiding officer and may appeal to the Administrator.

• Excess Emissions Report for New, Modified or Reconstructed Ammonium Sulfate Plants
Other—See SF83
Businesses or other institutions
Each covered ammonium sulfate manufacturing plant in the
SIC: 281
Small businesses or other organizations
Pollution control and abatement, 730 responses, 183 hours; $625 Federal cost, 1 form; not applicable under 3504 (h)
Edward H. Clarke, 202–395–7340

Sources shall monitor mass flow of ammonium sulfate feed or use weigh scales to directly measure production rate of ammonium sulfate. Source shall continuously monitor pressure drop across the control system. These records shall be kept two years and provide a means of insuring that the control equipment is being maintained well.

• Commercial Demonstration Permit
Nonrecurring
Businesses or other institutions
All new, modified or reconstructed electric utility steam
SIC: 491
Pollution control and abatement, 1 response, 3 hours; $62 Federal cost, 1 form; not applicable under 3504 (h)
Edward H. Clarke, 202–395–7340

Any source subject to the standard proposing to demonstrate an emerging technology may apply for a permit from the Administrator. This allows the source to meet a less stringent requirement as means of encouraging new technology.

• Request for a Non-Adversary Panel Hearing
Nonrecurring
Individuals or households, state or local governments, businesses or other institutions
Permit applicant, any interested person
SIC: Multiple
Pollution control and abatement, 62 responses, 62 hours; 1 form; not applicable under 3504 (h)
Edward H. Clarke, 202–395–7340

Any person may request the Regional Administrator to hold a panel hearing, contents of the panel hearing request.

• EPA/Division of Stationary Source ENF.
Other—See SF83
Businesses or other institutions
All new, modified or reconstructed iron and steel plants
SIC: 331
Pollution control and abatement, 2,920 responses, 730 hours; $4,500 Federal cost, 1 form; not applicable under 3504 (h)
Edward H. Clarke, 202–395–7340

The time and duration of each steel production cycle and each diversion of exhaust gases shall be recorded. The pressure loss through the Venturi construction and the water supply pressure to the control equipment shall be recorded continuously. These shall be reported quarterly if they indicate changes in operating conditions, and thus raise doubts the standard is being met.

• Request to Participate in a Panel Hearing
Nonrecurring
Businesses or other institutions
Regional trial staff
SIC: Multiple
Pollution control and abatement, 62 responses, 62 hours; 1 form; not applicable under 3504(H)
Edward H. Clarke, 202–395–7340

Any person who wishes to participate in a panel hearing must file a request to participate, contents of request.

• Written Application for Alternative Monitoring Procedures Under NSPS
Nonrecurring
Businesses or other institutions
All covered sources which have continuous monitoring req.
SIC: 333, 491, 142, 327, 331, 121, 287, 495, 324, 281
Small businesses or organizations
Pollution control and abatement, 3 responses, 1 hour; $225 Federal cost, 1 form; not applicable under 3504(H)
Edward H. Clarke, 202–395–7340

This is designed to give more flexibility to the source in demonstrating compliance. Alternate monitoring procedure will be approved by the administrator when the required procedures are not practical. If an affected facility is operated infrequently or use of the specified system would provide inaccurate measurements, alternative systems may be approved.

• Submission of Written Comments on Draft Permits, Response To comments
Nonrecurring
Individuals or households/State or local Governments/Businesses or other institutions permit applicant, agency trial staff
SIC: Multiple
Pollution control and abatement, 124 responses, 4,960 hours; 1 form; not applicable under 3504(H)
Edward H. Clarke, 202–395–7340

Allows parties second chance to emphasize points made in prior submission.

• Innovative Technology Waiver Under NSPS
Nonrecurring
State or local governments/businesses or other institutions any source subject to NSPS May apply
SIC: 333, 491, 142, 327, 331, 121, 287, 495, 324, 281
Small businesses or organizations
Pollution control and abatement, 1 response, 100 hours; $1,250 Federal cost, 1 form; not applicable under 3504(H)
Edward H. Clarke, 202–395–7340

A source may request a waiver with respect to any air pollutant to encourage the use of an innovative technology. This is designed to provide flexibility and would reduce source expenditure on control equipment.

• Monitoring Requirements for Granular Triple Superphosphates
Storage Facilities
Other—See SF83
Businesses or other institutions
Each covered granular triple susperphosphate storage
SIC: 287
Pollution control and abatement, 694 responses, 175 hours; $250 Federal cost, 1 form; not applicable under 3504(H)
Edward H. Clarke, 202–395–7340

Source shall maintain an account of triple superphosphate in storage and a daily record of equivalent P2 05 stored. Source shall operate a monitoring device continously recording pressure drop across the scrubber. This assures the system is operating properly without the need for inspections or testing.

• Blanket Clearance Request for Human and Environmental Survey and Analysis Programs
Other—see SF83
Individuals or households/farms/businesses or other institutions community members in the vicinity of chemical problem
Pollution control and abatement, 1,000 responses; 500 hours; 1 form; not applicable under 3504(H)
Edward H. Clarke, 202–395–7340

The office of pesticides and toxic substances exposure evaluation division is requesting a blanket OMB clearance for human and environmental survey and analysis programs. Such a blanket clearance is critical to the ability of EED to respond in a responsible and meaningful manner to unexpected crisis situations calling for the assessment of exposure to toxic compound and the protection of human health.

• Fuel Additive Manufacturer Annual Report
EPA (DUR) 366
Annually
Businesses or other institutions
Manufacturers of fuel additives
SIC: 284, 286, 299
Small Businesses or organizations
Pollution Control and abatement, 3,546 responses, 3,546 hours; 1 form; not applicable under 3504(H)
Edward H. Clarke, 202–395–7340

Each annual report gathers data on impurities, production quantity, and emission characteristics of one fuel additive.

• Fuel Manufacturer Quarterly Report—Gasoline
EPA (DUR) 368
Quarterly
Businesses or other institutions
Motor vehicle fuel manufacturers
SIC: 291, 132
Small businesses or organizations
Pollution control and abatement, 2,400 responses, 28,800 hours; 1 form; not applicable under 3504(h)
Edward H. Clarke, 202–395–7340

Each report gives the concentration range during the last quarter of previously registered additives in a single gasoline blend. EPA uses the information to monitor type and quantity of gasoline additives.

• Fuel Manufacturer Quarterly Report—Diesel Fuel
EPA (DUR) 371
Quarterly
Businesses or other institutions
Motor vehicle fuel manufacturers
SIC: 291, 132
Small businesses or organizations
Pollution control and abatement, 1,600 responses, 19,200 hours; 1 form; not applicable under 3504(h)
Edward H. Clarke, 202–395–7340

Each report gives concentration range during the reported quarter of previously reported additives in a single diesel fuel blend. EPA uses the data to monitor the type and quantity of additives in use.

• Fuel manufacturer annual report—diesel fuel
EPA (DUR) 372
Annually
Businesses or other institutions
Motor vehicle fuel manufacturers
SIC: 291, 132
Small businesses or organizations
Pollution control and abatement, 400 responses, 4,800 hours; 1 form; not applicable under 3504(h)
Edward H. Clarke, 202–395–7340

Each annual report informs EOA of the chemical composition, methods of analysis, and fuel characteristics of a single diesel fuel blend. EPA uses the data to monitor pollution characteristics of the fuel.

• Fuel Manufacturer Notification for Motor Vehicle Gasoline
EPA (DUR) 367
Nonrecurring
Businesses or other institutions
Motor vehicle fuel manufacturers
SIC: 291, 132
Small businesses or organizations
Pollution control and abatement, 600 responses, 7,200 hours; 1 form; not applicable under 3504(h)
Edward H. Clarke, 202–395–7340

Requested information notifies EPA of the chemical compositon and additives used by each fuel manufacturer. EPA uses the data to monitor new substances that may injure pollution control systems or increase pollution hazards.

• Fuel Manufacturer Notification—Diesel Fuel
EPA (DUR) 370A
Nonrecurring
Businesses or other institutions
Motor vehicle fuel manufacturers
SIC: 291, 132
Small businesses or organizations
Pollution control and abatement, 400 responses, 4,800 hours; 2 forms; not applicable under 3504(h)
Edward H. Clarke, 202–395–7340

The form notifies EPA of the chemical composition, including additives, in a single diesel fuel blend for motor vehicles. EPA uses the data to monitor fuels and additives for effects on air quality and on pollution control systems.

Extensions (Burden Change)

• Fuel Manufacturer annual Report—Gasoline

EPA (DUR) 369
Annually
Businesses or other institutions
Motor vehicle fuel manufacturers
SIC: 291, 132
Small businesses or organizations
Pollution control and abatement, 600 responses, 7,200 hours; 1 form; not applicable under 3504(h)
Edward H. Clarke, 202–395–7340

Each annual report informs EPA of the chemical composition, methods of chemical analysis, and fuel characteristics of a single gasoline fuel blend. EPA uses the data to monitor pollution characteristics of the fuel.

• Fuel Additive Manufacturer Notification Report
EPA (DUR) 365 & 365A
Nonrecurring
Businesses or other institutions
Manufacturers of fuel additives
SIC: 284, 286, 299
Pollution control and abatement, 788 responses, 1,576 hours; 2 forms; not applicable under 3504(h)
Edward H. Clarke, 202–395–7340

This report notifies EPA of the uses and chemical properties of a new fuel additive. EPA uses the data to monitor the introduction into commerce of potential air pollutants and substances that may affect emission control systems.

Reinstatements

• NPDES Permit Application to Discharge Wastewater
EPA 7550–22, 7550–23 (7–73)
Nonrecurring
Businesses or other institutions/State or local governments/municipalities
SIC: Multiple
Small businesses or organizations
Pollution control and abatement, 300 responses, 3,000 hours, 2 forms; not applicable under 3504(h)
Edward H. Clarke, 202–395–7340

These application forms are needed to obtain information for the issuance and enforcement of wastewater discharge permits for municipal and new source industrial dischargers.

• Comment Card—Calendar of Federal Regulations
Semiannually
Individuals or households/State or local governments/farms/businesses or other institutions
Readers of calendar of Federal Regulations
SIC: All
Small businesses or organizations
Pollution control and abatement, 800 responses, 27 hours, $3,000 Federal cost, 1 form; not applicable under 3504(h)
Edward H. Clarke, 202–395–7340

To assess calendar readership and usefulnesss of information in order to improve future editions.

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Clearance Officer—Panos Konstas—389–4251

New

• Consolidated Report of Income—Monthly—Large Mutual Savings Banks
8040/60
Monthly
Businesses or other institutions
FDIC-insured mutual savings banks having over $500 million
SIC: 603
Mortgage credit and thrift insurance, 960 responses, 1,440 hours, $22,956 Federal cost, 1 form; not applicable under 3504(h)
Kevin Broderick, 395–6880

The survey provides information which FDIC uses to monitor savings bank deposit flows, and income-expense results under the prevailing economic conditions with continued high interest rates it is necessary to obtain this information on a monthly basis.

FEDERAL MARITIME COMMISSION

Agency Clearance Officer—Ronald D. Murphy—202–523–5326

Extensions (Burden Change)

• General Order 40—Financial Responsibility for Water Pollution
46 CFR 542
On occasion—semiannually—annually
Businesses or other institutions
4
SIC: 441, 442
Water transportation, 3,000 responses, 1,018 hours, $400,000 Federal cost, 0 form; not applicable under 35.04(h)
William T. Adams, 202–395–4814

In order for the FMC to implement section 311(p) of the Federal Water Pollution Control Act, amended by the Clean Water Act of 1977, regulations were needed. Therefore, General Order 40 (Pub. L. 95–217) was adopted.

• Application for Certificate of Financial Responsibility (Water Pollution)
FMC–321
On occasion
Businesses or other institutions
Foreign and domestic vessel operators using U.S. waters
SIC: 441, 442
Water transportation, 1,500 responses, 750 hours, 1 form; not applicable under 35.04(h)
William T. Adams, 202–395–4814

In order to issue a vessel a certificate of financial responsibility (water pollution) an application form completely filled out is required. This form will provide the FMC with information as to the owner, operator, size, flag, etc. of the vessels.

• Letter Requesting Data Omitted on Form FMC–321
FMC–11 (rev)
On occasion
Businesses or other institutions
Foreign and domestic vessel operators using U.S. waters
SIC: 441, 442
Water transportation, 1,000 responses, 250 hours, 1 form; not applicable under 35.04(h)
William T. Adams, 202–395–4814

When an insurance form FMC–322 has not been submitted or an incomplete form has been submitted. This letter is mailed to the applicant. Also, when an incomplete application form FMC–321 has been submitted. This form is sent

out requesting the additional data from the vessel operator.

• Letter requesting confirmation that a certificate is desired
FMC–346 (rev)
On occasion
Businesses or other institutions
Foreign and domestic vessel operators using U.S. waters
SIC: 441, 442
Water transportation, 300 responses, 75 hours; 1 form; not applicable under 3504(h)
William T. Adams, 202–395–4814

When evidence of insurance is received by the FMC for a vessel which has not received a certification of financial responsibility (water pollution), the applicant already has certification for other vessels. The applicant completes the reverse side of the letter and returns it with the necessary fees.

• Certificate of Financial Responsibility (Water Pollution)
FMC–329
Nonrecurring
Businesses or other institutions
Foreign and domestic vessel operators using U.S. waters
SIC: 441, 442
Water transportation, 2,850 responses, 237 hours; 1 form; not applicable under 3504(h)
William T. Adams, 202–395–4814

Once an operator has demonstrated to the FMC proof of financial responsibility, a certificate of financial responsibility is issued. That certificate is presented to U.S. Customs or Coast Guard upon request.

INTERSTATE COMMERCE COMMISSION

Agency Clearance Officer—Carroll Stearns—202–633–0204

New

• Certificate of notification under 49 U.S.C. 11301(c)(1)—issuance of Short Term Notes
OP–F 230
On occasion
Businesses or other institutions
Privately owned regulated carriers
Ground transportation, 100 responses, 300 hours; 1 form; not applicable under 3504(h)
Corrinne Hayward, 202–395–7340

Regulated carriers issuing short term securities submit notice of issuance within 10 days after disposition as required under 49 U.S.C. 11301(c)(1).

Extensions: (Burden Change)

• Application for temporary authority under section 210A(a) of the Interstate Commerce Act
OP–MCB–95
On occasion
Businesses or other institutions
New & existing motor carriers seeking permits
Small businesses or organizations
Ground transportation, 30,000 responses, 60,000 hours; 1 form; not applicable under 3504(h)
Corrinne Hayward, 202–395–7340

This form is filed by applicants seeking to operate as a motor carrier under the temporary authority provisions of the ICC Act. This data furnished must establish that there is an immediate and urgent need for the service within a territory having no carrier service capable of meeting that need.

• Special application for authority to sell securities without competitive bidding
OP–F–210
Nonrecurring
Businesses or other institutions
Privately owned rail carriers
Ground transportation, 15 responses, 450 hours; 1 form; not applicable under 3504(h)
Corrinne Hayward, 202–395–7340

Form OP–F–10 is an application filed by railroads for authority to sell securities without competitive bidding. Generally railroads are required to sell their securities through competitive bidding but there are times when this may not be feasible. This form is an application for exemption from these rules.

NUCLEAR REGULATORY COMMISSION

Agency Clearance Officer—Stephen Scott—301–492–8585

New

• Emergency Notification System
Nonrecurring
Businesses or other institutions
NRC licensees
SIC: 483
Energy Information, policy, and regulation, 76 responses, 912 hours; $2,000 Federal cost, 1 form; not applicable under 3504(h)
Jefferson B. Hill, 202–395–7340

NRC has an emergency notification system which is a dedicated telephone system used by licensees to report events that may endanger the public health and safety. Data needs to be collected to upgrade the capabilities of the system.

REVISIONS

• Amendment to 10 CFR 50: Additional TMI Related Requirements
Nonrecurring
Businesses or other institutions
Commercial nuclear power plants
SIC: 483
Energy information, policy, and regulation, 13 responses, 811,200 hours; $3,000,000 Federal cost, 1 form; not applicable under 3504 (H)
Jefferson B. Hill, 202–395–7340

Extensive investigations and reviews following the accident at Three Mile Island indicated the necessity for additional requirements for nuclear power plants. The issuance of these requirements, including the submittal of certain evaluations and reports, is vital to the NRC's mission to protect the health and safety of the public.

PEACE CORPS

Agency Clearance Officer—Richard Celeste—202–254–7970

Extension (No Change)

• Action/Peace Corps Volunteer Application Form
A–35
On occasion
Individuals or households
Citizens who apply for action or Peace Corps volunteer serv.
Foreign economic and financial assistance, 15,600 Responses, 15,600 hours; $160,000 Federal cost, 1 form; not applicable under 3504 (H)
Phillip T. Balazs, 202–395–4814

The Action/Peace Corps volunteer application is used to collect data to evaluate an individual applicant's eligibility and suitability for Peace Corps volunteer service. Peace Corps has no other means of obtaining the required qualifying data.

VETERANS ADMINISTRATION

Agency Clearance Officer—R. C. Whitt—202–389–2146

REVISIONS

• Application for Ordinary Life Insurance (at age 70)
28–848 5A
On occasion
Individuals or households
Insured veteran
Income security for veterans, 1,000 responses, 83 hours; $4,330 Federal cost, 1 form; not applicable under 3504(H)
Robert Neal, 202–395–6880

The completed form is required by law, U.S.C. 704. The information collected is used to process the insured's request for replacement insurance for his/her modified life policy.

Extensions (No Change)

• Supplement to Application for Direct Loan (Dwelling or farm)
26–6921A
On occasion
Individuals or households/farms
Veterans in rural areas
SIC: 019 029 024
Veterans housing, 348 responses, 58 hours; $3,271 Federal cost, 1 form; not applicable under 3504 (H)
Robert Neal, 202–395–6880

Completed by Veterans eligible for direct loans authorized by 38 U.S.C. 1811 for construction of new home or alteration, improvement or repair of existing homes (38 U.S.C. 1810(A)(1), (3), (4), and (7)). Information collected is necessary for VA determinations concerning eligible purposes (38 U.S.C. 1810(A)) and reasonable value requirements (38 U.S.C. 1810(B)(5)).

C. Louis Kincannon,

Assistant Administrator For Reports Management.

[FR Doc. 81–16878 Filed 6–5–81; 8:45 am]

BILLING CODE 3110–01–M

Agency Forms Under Review

June 3, 1981.

Background

When executive departments and agencies propose public use forms, reporting, or recordkeeping requirements, the Office of Management and Budget (OMB) reviews and acts on those requirements under the Paperwork Reduction Act (44 U.S.C., Chapter 35). Departments and agencies use a number of techniques including public hearings to consult with the public on significant reporting requirements before seeking OMB approval. OMB in carrying out its responsibility under the Act also considers comments on the forms and recordkeeping requirements that will affect the public.

List of Forms Under Review

Every Monday and Thursday OMB publishes a list of the agency forms received for review since the last list was published. The list has all the entries for one agency together and grouped into new forms, revisions, extensions (burden change), extensions (no change), or reinstatements. The agency clearance officer can tell you the nature of any particular revision you are interested in. Each entry contains the following information:

The name and telephone number of the agency clearance officer (from whom a copy of the form and supporting documents is available);

The office of the agency issuing this form;

The title of the form;

The agency form number, if applicable;

How often the form must be filled out;

Who will be required or asked to report;

The Standard Industrial Classification (SIC) codes, referring to specific respondent groups that are affected;

Whether small businesses or organizations are affected;

A description of the Federal budget functional category that covers the information collection;

An estimate of the number of responses;

An estimate of the total number of hours needed to fill out the form;

An estimate of the cost to the Federal Government;

An estimate of the cost to the public;

The number of forms in the request for approval;

An indication of whether Section 3504(h) of Pub. L. 96–511 applies;

The name and telephone number of the person or office responsible for OMB review; and

An abstract describing the need for and uses of the information collection.

Reporting or recordkeeping requirements that appear to raise no significant issues are approved promptly. Our usual practice is not to take any action on proposed reporting requirements until at least ten working days after notice in the **Federal Register**, but occasionally the public interest requires more rapid action.

Comments and Questions

Copies of the proposed forms and supporting documents may be obtained from the agency clearance officer whose name and telephone number appear under the agency name. The agency clearance officer will send you a copy of the proposed form, the request for clearance (SF83), supporting statement, instructions, transmittal letters, and other documents that are submitted to OMB for review. If you experience difficulty in obtaining the information you need in reasonable time, please advise the OMB reviewer to whom the report is assigned. Comments and questions about the items on this list should be directed to the OMB reviewer or office listed at the end of each entry.

If you anticipate commenting on a form but find that time to prepare will prevent you from submitting comments promptly, you should advise the reviewer of your intent as early as possible.

The timing and format of this notice have been changed to make the publication of the notice predictable and to give a clearer explanation of this process to the public. If you have comments and suggestions for further improvements to this notice, please send them to Jim J. Tozzi, Deputy Administrator, Office of Information and Regulatory Affairs, Office of Management and Budget, 726 Jackson Place, Northwest, Washington, D.C. 20503.

DEPARTMENT OF AGRICULTURE

Agency Clearance Officer—Richard J. Schrimper—202–447–6201

Extensions (Burden Change)

• Economics and Statistics Service
Potato Stocks Inquiry
Other—see SF83
Farms/businesses or other institutions
Potato storage operators
SIC: 134, 203
Small Businesses or organizations
Agricultural research and services, 7,630 responses, 1,277 hours, $120,000 Federal cost, 2 forms; not applicable under 3504(h)
Off. of Federal Statistical Policy & Standard, 202–673–7974

Provides data to estimate all potatoes held by growers, processors and dealers. Estimates contribute to orderly marketing of potatoes by growers and handlers. Data also provided to estimate shrinkage and dumping during storage season. This estimate measures the keeping quality of potatoes.

Reinstatements

• Food Safety and Quality Service
Regulation on Shell Egg Grading
PY–157 & PY–100
On occasion
Businesses or other institutions
Egg packers and dealers
SIC: 964, 072
Consumer and occupational health and safety, 60,115 responses, 1,682 hours, $10,340 Federal cost, 2 forms; not applicable under 3504(h)
Charles A. Ellett, 202–395–7340

These regulations set forth grading procedures, information on how to obtain and use the service, and operating procedures and facility and sanitation requirements for plants to qualify for the service. The regulations also contain the official U.S. standards, grades, and weight classes for shell eggs. While the program is voluntary, it is widely used since many of the outlets for shell eggs require that the product be officially graded for quality.

DEPARTMENT OF COMMERCE

Agency Clearance Officer—Edward Michals—202–377–3627

Revisions

• Maritime Administration
Application for admission to the United States Merchant Marine Academy
KP–2–65, KB 3–4
On occasion
Individuals or households
Persons desiring to gain admission and school officials
Water transportation, 2,000 responses, 10,000 hours, $142,300 Federal cost, 2 forms; not applicable under 3504(h)
William T. Adams, 202–395–4814

The application is used to apply for admission to the U.S. Merchant Marine Academy.

DEPARTMENT OF DEFENSE

Agency Clearance Officer—John V. Wenderoth—703–697–1195

Extensions (Burden Change)

• Department of the Navy
Application for MSC Afloat Employment
MSC 12310/1
On occasion
Individuals or households
Any person desiring to apply for MSC afloat employment
Department of Defense—Military, 8,000 responses, 16,000 hours, $1,000 Federal Cost, 1 form; not applicable under 3504(h)
Edward C. Springer, 202–395–4814

The application for MSC afloat employment (MSC 12310/1) is required to establish eligibility for MSC afloat (seagoing) positions. Because the need for specific licenses and certification information is required a custom form is needed. The MSC form is used in lieu of SF–171 as previously approved under item 7 below.

Extensions (No Change)

• Department of the Air Force
Missile and Space Propellants Report (by Contractors)
AF 210, 588, 857, 858, 859, and 1994
On occasion/weekly/monthly/quarterly
Semiannually/other—see SF83

Health, 57,000 responses, 19,114 hours; $2,400,000 Federal costs, 12 forms; not applicable under 3504(h)
Richard Eisinger, 202–395–6880

The hospice evaluation study (HCFA 286 A to L) will be used to determine the effectiveness of providing hospice care to terminally ill patients, including medicare/medicaid beneficiaries.

Revisions

• Social Security Administration
Student Reporting Form
SSA–1383–SM
On occasion

Individuals or households
Qualified full-time students receiving social security
General retirement and disability insurance, 200,000 responses, 20,000 hours; $1,266,000 Federal cost, 1 form; not applicable under 3504(h)
Barbara F. Young, 202–395–6880

Section 202(d) of the Social Security Act provides for termination of child's social security benefits if certain conditions are met. This form is used to determine a student's continuing eligibility for these benefits.

DEPARTMENT OF TRANSPORTATION

Agency Clearence Officer—John Windsor—202–426–1887

• Research and Special Programs Administration
Recordkeeping Requirements for Cylinder Retesting and Reinspection
Other-see SF83
Individuals or Households/Farms/Businesses or other institutions
All cylinder owners who wish to recharge and ship charged cyl.
SIC: all
Small businesses or organizations
Other transportation, 1,000,000 responses, 200,000 hours; 1 form; not applicable under 3504(H)
Terry Grindstaff, 202–395–7340

To verify that cylinders have not been damaged by handling or the materials with which they have been charged and are safe to recharge and transport.

• Federal Highway Administration
Written Notice of Death After Filling Accident Report Form
MCS–50T or 50B
On occasion
Individuals or households/businesses or other institutions
Motor carriers operating in interstate or foreign commerce
Small businesses or organizations
Ground transportation, 30 responses, 120 hours; 1 form; not applicable under 3504(H)
Terry Grindstaff, 202–395–7340

After an accident report form MCS–50T or 50B has been filed, if a death occurs within 30 days from date of accident, written notice is required by 49 CFR 394.11 detailing items to be used to determine if an investigation is warranted and to update the accident data file.

• National Highway Traffic Safety Administration
Periodic Motor Vehicle Inspection
On occasion
State or local governments
State governments
SIC: 371
Ground transportation, 97,000,000 responses, 24,250,000 hours; 1 form; not applicable under 3504(H)
Corrinne Hayward, 202–395–7340

The highway safety standard on periodic motor vehicle inspection recommends that each State have an inspection program to identify unsafe conditions jwhich the owner is required to correct, and to maintain records to assess vehicle safety and program operation.

• National Highway Traffic Safety Administration
Driver Licensing
On occasion
State or local governments
• State and Local Governments
SIC: 371
Ground transportation, 143,300,000 responses, 3,200,000 hours; 1 form; not applicable under 3504(h)
Corrinne Hayward, 202–395–7340

The highway safety standard on driver licensing recommends that each State maintain a record of each driver licensed and his driving history, with rapid accessibility for enforcement and other operational needs.

• National Highway Traffic Safety Administration
Motor Vehicle Registration
On occasion
State or local governments
State and local governments
SIC: 371
Ground transportation, 159,000,000 responses, 9,600,000 hours; 1 form; not applicable under 3504(h)
Corrinne Hayward, 202–395–7340

The highway safety standard for motor vehicle registration recommends that each State have a records system which can rapidly identify each vehicle and its owner for financial responsibility control, assistance to law enforcement and the insurance and manufacturing industries, and accident research and operational planning.

Revisions

• Federal Aviation Administration
Application for Airman Medical Certificate or Airman Medical and Student Pilot Certificate—FAR 67
FAA 8500–8
Annually
Individuals or households
Airman medical cert., med. and student pilot cert. applicants Air transportation 572,000 responses, 291,000 hours; $3,994,600 Federal cost, 1 form; not applicable under 3504(h)
Corrinne Hayward, 202–395–7340

Federal Aviation Act of 1958, section 602 (49 U.S.C. 1422), requires airmen to be physically able to perform the duties of the certificate sought. 14 CFR 67 prescribes minimum airman medical standards. Information collected shows applicant eligibility.

• Federal Aviation Administration
Maintenance, Preventive Maintenance, Rebuilding and Alterations—FAR 43
FAA 337
On occasion
Individuals or households/businesses or other institutions, mechanics, repa. stations, manufacturers and air carriers
Small businesses or organizations

New

• State Notification of Duty To Submit Inventory Information
Nonrecurring
State or local governments
Dir. of St. UIC program or the RA if EPA is running the PR.
Pollution control and abatement, 15,150 responses, 30,300 hours; 1 form; not applicable under 3504 (h)
Edward H. Clarke, 202-395-7340

The State must notify the permitee of his duty to submit inventory information to assure that an owner or operator is aware of this requirement.

• Variance Request (Fundamentally Different Factors)
Nonrecurring
Businesses or other institutions
Small number of NPDES industrial permit applicants
SIC: multiple
Small businesses or organizations
Pollution control and abatement, 8 responses, 480 hours; $100 Federal cost, 1 form; not applicable under 3504(h)
Edward H. Clarke, 202-395-7340

An industrial discharger seeking a variance from otherwise applicable effluent limitations based on the presence of fundamentally different factors must submit a request demonstrating why such variance is justified. EPA will evaluate the request. (40 CFR 122.53 (i) (1).

• Variance Request (Direct Industrial Discharger)
On occasion
Businesses or other institutions
Direct indust. discharges who can demonstrate innovative
SIC: multiple
Small businesses or organizations
Pollution control and abatement, 30 responses, 1,800 hours; $100 Federal cost, 1 form; not applicable under 3504(h)
Edward H. Clarke, 202-395-7340

Applicants may submit data showing that their technology for meeting BAT and BCT requirements is innovative in order to delay the required compliance date by 3 years.

• Coordination With Federal and State Agencies
On occasion, weekly
State or local governments
States with authority to administer the 404 program
Pollution control and abatement, 1 response, 1 hour; 1 form; not applicable under 3504(h)
Edward H. Clarke, 202-395-7340

This requirement will provide coordination between a State's areawide waste treatment management plan and the State's dredge and fill program so as to eliminate regulatory overlap and requires States to consult with other relevant State and Federal agencies when issuing dredge or fill permits so as to insure full input into the permitting process.

• Exclusion Request
Nonrecurring
Businesses or other institutions
Auto. mfgrs. includes major mfgrs. and sml. mfgrs., etc.
SIC: 371
Small businesses or organizations
Pollution control and abatement, 30 responses, 60 hours; $1,500 Federal cost, 1 form; not applicable under 3504(h)
Edward H. Clarke, 202-395-7340

A manufacturer who desires a determination whether a particular type of vehicle is excluded from coverage by the Clean Air Act must submit specifications describing the size, use, top speed, etc. of the vehicle so a determination may be made.

• Fuel and Fuel Additive Waiver Guidelines
Nonrecurring
Businesses or other institutions
Fuel and fuel additive mfgrs. incld. oil cos., addi., etc.
Pollution control and abatement, 4 responses, 1,000 hours; $15,600 Federal cost, 1 form; not applicable under 3504(h)
Edward H. Clarke, 202-395-7340

This information is necessary for the Administrator to determine if a new fuel or additive will cause or contribute to the failure of vehicles to meet emission standards and if a waiver of the Clean Air Act's section 211(f) prohibits should be granted.

• Unleaded Gasoline Field Inspection
Nonrecurring
Businesses or other institutions
Retail sellers of motor fuel, fleet users of motor fuel
SIC: 554
Small businesses or organizations
Pollution control and abatement, 15,000 responses, 250 hours; $10,000 Federal cost, 1 form; not applicable under 3504(h)
Edward H. Clarke, 202-395-7340

Used to record results of inspection for compliance with EPA's unleaded gasoline regulations and FTC's octane posting regulations. The forms are used in enforcement actions, and to place DA in a fuels data base.

• Stage I Vapor Recovery Inspection Form
Nonrecurring
Businesses or other institutions
Oper. of gaso. dispensing fac. (e.g., serv. stat. oper.)
SIC: 554
Small businesses or organizations
Pollution control and abatement, 2,065 responses, 35 hours; $680 Federal cost, 1 form; not applicable under 3504(h)
Edward H. Clarke, 202-395-7340

EPA conduct inspections at gasoline dispensing facilities (primarily gasoline service stations) in order to determine compliance with Federal regulations and federally-approved State regulations requiring Stage I vapor recovery equipment. Inspection data, recorded on forms by the inspectors, is subsequently reviewed by EPA personnel for potential violations. Station personnel only provide background information.

• Source Compliance and State Action Reporting
Nonrecurring, quarterly
State or local governments
A respondent in this request is each State and local air
SIC: All
Pollution control and abatement, 220 responses, 20 hours; $170,000 Federal cost, 1 form; not applicable under 3504(h)
Edward H. Clarke, 202-395-7340

This information on source compliance and enforcement actions taken by the States is needed to keep track of the compliance status of all

major sources and major State enforcement activities. It is used to assess progress in meeting air quality standards and to assure continued attainment of the standards.

• Public Notice of Emergency Permits
On occasion
State or local governments
States with authorization to administer the 404 program
Pollution control and abatement, 60 responses, 360 hours, 1 form; not applicable under 3504 (h)
Edward H. Clarke, 202–395–7340

States are required to issue public notice of any emergency permits issued to insure that the public is made aware of the State's emergency action that may affect them and to allow an opportunity to comment on the State's emergency action.

• Request for Public Hearing
On occasion
Individuals or households/State or local governments/farms/businesses or other institutions
State or persons interested in permit application
Pollution control and abatement, 10 responses, 500 hours, 1 form; not applicable under 3504 (h)
Edward H. Clarke, 202–395–7340

Within 90 days of receipt of objection by EPA the State or any interested party may request that the R.A. hold a public hearing. A public hearing shall be held whenever requested by the State or if warranted by significant public interest.

• Preactivity Notification
On occasion
Individuals or households/farms/businesses or other institutions
Dischargers of dredged or fill material into waters of U.S.
Small businesses or organizations
Pollution control and abatement, 1,500 responses, 3,000 hours, 1 form; not applicable under 3504(h)
Edward H. Clarke, 202–395–7340

Before an activity can be carried out under a general permit, the State director must be notified 30 days prior to commencement of the activity. If the applicant has not heard from the State within 15 days of submission, activity under the general permit may begin.

• Update of Part A Applications for Interim Status Facilities
On occasion
Businesses or other institutions
Persons treating, storing, or disposing of hazardous substance
SIC: Multiple
Small businesses or organizations
Pollution control and abatement, 2,640 responses, 7,920 hours, 1 form; not applicable under 3504(h)
Edward H. Clarke, 202–395–7340

Revision of part A applications after promulgation of revised regulations under 40 CFR Part 261 (listing and identifying additional hazardous wastes) is necessary in order for the facility to obtain interim status for these wastes and is useful to EPA in deciding them to request part B of the application.

• Contents of Part B Application (RCRA)
Nonrecurring
State or local governments, businesses or other institutions
Persons wishing to treat, store, or dispose of hazardous substance
SIC: Multiple
Small businesses or organizations
Pollution control and abatement, 627 responses, 188,100 hours, 1 form; not applicable under 3504(h)
Edward H. Clarke, 202–395–7340

Information is necessary to determine whether the facility can meet the various performance standards established under 40 CFR Part 264 to protect human health and the environment as required by 42 U.S.C. section 6924.

• Preparation of Revised Permit
On Occasion
State or local governments
States who have assumed 404 permitting responsibility
Pollution control and abatement, 300 responses, 3,000 hours, 1 form; not applicable under 3504(h)
Edward H. Clarke, 202–395–7340

When the State director has received an objection, a revised permit may be prepared to eliminate the objection. If no further objection is received from the R.A. within 15 days of receipt of revised permit, the State director may issue the permit.

• Information to Determine if a Facility Is a New Source
Nonrecurring
Businesses or other institutions
NPDES permit applicants
SIC: Multiple
Small businesses or organizations
Pollution control and abatement, 500 responses, 250 hours, 1 form; not applicable under 3504(h)
Edward H. Clarke, 202–395–7340

When an applicant provides this information to the regional administrator, it will enable EPA to decide if a facility is a new source and if it is subject to environmental review requirements under NEPA of the Clean Water Act.

• Permittee Recording of Injected Fluids
On Occasion
Businesses or other institutions
Owners or operators of underground injection wells
Small businesses or organizations
Pollution control and abatement, 1,300 responses, 650 hours, 1 form; not applicable under 3504(h)
Edward H. Clarke, 202–395–7340

The permittee is required to keep records of the nature and composition of injected fluids for five years after plugging or abandonment to assure that the director will have access to this information if contamination of an underground source of drinking water is discovered.

• Contractor report of costs incurred in responding to hazardous substance emergencies
1900–55
Other—see SF83
Businesses or other institutions
Businesses having contracts with the USEPA for response to
SIC: Multiple
Small businesses or organizations
Pollution control and abatement, 90,000 responses, 63,000 hours, 1 form; not applicable under 3504(h)
Edward H. Clarke, 202–395–7340

The report will document costs incurred by contractors responding to hazardous substance releases. It will be used as a management tool by EPA personnel to account for personnel, equipment, and material furnished by the contractor and to verify costs claimed for reimbursement by the contractor.

Extensions (Burden Change)

• Applicants Must Submit Information
On occasion
Individuals or households/State or local governments/farms/businesses or other institutions
Dischar. of dredged or fill mater. into waters of the U.S.
Pollution control and abatement, 4,200 responses, 73,500 hours, 1 form; not applicable under 3504(h)
Edward H. Clarke, 202–395–7340

The 1977 amendments to the Clean Water Act authorized the transfer of the existing 404 permit program from the Corps of Engineers to qualified States. These State programs must meet minimum requirements for approval and operation as set out in EPA's consolidated regulations. In approved States applicants will supply the information to the State rather than to the corps.

FEDERAL RESERVE SYSTEM

Agency Clearance Officer—Carolyn B. Doying—202–452–3512

Extensions (No Change)

• Report of Assets and Liabilities of U.S. Branches, and Agencies of Foreign Banks
FFIEC 002
Quarterly
Businesses or other institutions
U.S. branches and agencies of foreign banks
General government, 1,376 responses, 20,296 hours, $100,000 Federal cost, 1 form; not applicable under 3504(h)
Kevin Broderick, 395–6880

This report of assets and liabilities, provides balance sheet information from all U.S. branches and agencies of foreign banks required for the supervisory and regulatory requirements of the International Banking Act of 1978. Additional uses of the data are to augment the bank credit, loan and deposit information needed for monetary policy decisions.

VETERANS ADMINISTRATION

Agency Clearance Officer—R. C. Whitt—202–389–2146

New

• POW Medical Follow-Up
Nonrecurring
Individuals or households
Former prisoners of war: W.W. II, Korean conflict and controls
Hospital and medical care for veterans, 3,300 responses, 1,100 hours; $150,125 Federal cost, 3 forms; not applicable under 3504(h)
Robert Neal, 202–395–6880

Previous studies of American former prisoners of war have revealed excess morbidity and mortality during the years following repatriation. This study will investigate for how long and from what causes excess illnesses persist as well as whether chronic diseases are a more serious problem for former POW's.

Revisions

• Employment Questionnaire
21–4140
Annually
Individuals or households
Disabled veterans
Income security for veterans, 40,500 responses, 3,375 hours; $96,560 Federal cost, 1 form; not applicable under 3504(h)
Robert Neal, 202–395–6880

This form is used as a control for total compensation evaluations based on individual unemployability. The information furnished by the veteran is reviewed annually for a maximum of 10 years or until age 60 to determine continued entitlement to the total compensation evaluation.

Reinstatements

• Daily Report of Workmen and Material
Other—see SF83

BILLING CODE 3110-01-M

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Request for Public Comments: Section 337 Determination of the U.S. International Trade Commission Regarding Certain Window Shades and Components Thereof

June 2, 1981.

On May 29, 1981, the United States International Trade Commission (the Commission) issued an order excluding from entry into the U.S. imports of certain window shades and components thereof which had been determined to be infringing claims of U.S. Letters Patent 4,006,770, and causing substantial injury to an efficiently and economically operated domestic industry. The Commission issued the exclusion order following their investigation, No. 337–TA–83, under section 337 of the Tariff Act of 1930 (19 U.S.C. 1337).

Under section 337(g), the President within 60 days may disapprove the determination of the Commission for domestic or foreign policy reasons, terminating the exclusion order on the day the Commission is notified of his disapproval. The President also may approve the determination expressly, making the order final immediately, or he may take no action, allowing the order to become final following the 60 day period provided for review.

Interested parties are invited to submit comments concerning domestic or foreign policy issues which should be considered in the review of the Commission determination and order. The original and 19 copies of the comments should be delivered to the Secretary, Trade Policy Staff Committee, 600 17th Street, Room 413, Washington, D.C. 20506. For further information call Alice Zalik (202) 395–3432.

Alice T. Zalik,

Chairman, Section 337 Committee.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 17833; File Nos. SR-Amex-81-8; SR-CBOE-81-6; SR-PSE-81-6; SR-Phlx-81-7]

American Stock Exchange, Inc., et. al.; Order Approving Proposed Rule Changes

June 1, 1981.

In the matter of American Stock Exchange, Inc., 86 Trinity Place, New York, New York 10006; Chicago Board Options Exchange, Inc., LaSalle at Jackson, Chicago, Illinois 60604,; Pacific Stock Exchange Inc., 301 Pine Street, San Francisco, California 94104; Philadelphia Stock Exchange, Inc., 17th Street and Stock Exchange Place, Philadelphia, Pennsylvania 19103.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1) (the "Act"), notice is hereby given that the self-regulatory organizations listed above ("options exchanges") have filed with the Commission copies of proposed rule changes to amend the joint options allocation plan to provide for the replacement of involuntarily delisted options.[1]

Notice of the proposed rule changes by Amex, CBOE and Phlx, together with the terms of substance of the proposed rule changes, was given by the issuance of a Commission Release (Securities Exchange Act Release No. 17757 (April 27, 1981)) and by publication in the **Federal Register** (46 FR 24352 (April 30, 1981)). Notice of the proposed rule change by PSE, together with the terms of substance of the proposed rule change, was given by issuance of a Commission Release (Securities

[1] The proposed rule changes were filed on the following dates: American Stock Exchange, Inc. ("Amex"), April 16, 1981; Chicago Board Options Exchange, Incorporated ("CBOE"), April 20, 1981; Pacific Stock Exchange Incorporated ("PSE"), May 4, 1981; and Philadelphia Stock Exchange, Inc. ("Phlx"), April 24, 1981.

Exchange Act Release No. 17777 (May 6, 1981)) and by publication in the **Federal Register** (46 FR 28416 (May 12, 1981)). No comments were received concerning any of the proposed rule changes.

The Commission finds that the proposed rule changes are consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges and, in particular, the requirements of Section 6. Moreover, the Commission finds good cause for approving the proposed rule change of the PSE prior to the thirtieth day after the date of publication of notice of filing thereof since it is identical in its terms to the proposals of the other options exchanges, which were published for the normal statutory comment period.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the above-mentioned proposed rule changes be, and they hereby are, approved.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Release No. 22075; (70-6361)]

Appalachian Power Co., et. al.; Proposal of Holding Company To Make Cash Capital Contributions to Subsidiary

June 2, 1981.

In the matter of Appalachian Power Co., 40 Franklin Road, Roanoke, Virginia 24009; Columbus and Southern Ohio Electric Co., 215 North Front Street, Columbus, Ohio 43215; Indiana & Michigan Electric Co., 2101 Spy Run Avenue, Fort Wayne, Indiana 46801; Kentucky Power Co., 1701 Central Avenue, Ashland, Kentucky 41101; Kingsport Power Co., 40 Franklin Road, Roanoke, Virginia 24009; Michigan Power Co., Post Office Box 367, Three Rivers, Michigan 49093; Ohio Power Co., 301 Cleveland Avenue, S.W., Canton, Ohio 44701; Wheeling Electric Co., 51 Sixteenth St., Wheeling, West Virginia 26003; American Electric Power Company, Inc., 2 Broadway, New York, New York 10004.

American Electric Power Company, Inc. ("AEP"), a registered holding company, and Appalachian Power Company ("Appalachian"), Columbus and Southern Ohio Electric Company ("CSOE") Indiana & Michigan Electric Company ("I&M"), Kentucky Power Company ("KPCO"), Kingsport Power Company ("Kingsport"), Michigan Power Company ("Michigan"), Ohio Power Company ("Ohio Power") and Wheeling Electric Company ("Wheeling"), public utility Subsidiaries, have filed with this Commission a post-effective amendment to their application-declaration previously filed and amended pursuant to Sections 6(b) and 12 of the Public Utility Holding Company Act of 1935 ("Act") and Rule 50(a)(2) promulgated thereunder.

By a prior order in this proceeding dated December 9, 1980 (HCAR No. 21832), AEP was authorized to issue and sell from time to time prior to January 1, 1982, short-term notes to 14 banks with lines of credit in an aggregate amount of $239,000,000, maturing no later than June 30, 1982. AEP was also authorized to make cash capital contributions from time to time subsequent to December 31, 1980 and prior to January 1, 1982, to Appalachian in the amount of $60 million, to CSOE in the amount of $40 million, to I&M in the amount of $90 million, to KPCO in the amount of $20 million and to Ohio Power in the amount of $60 million.

By post-effective amendment AEP seeks authority to also make cash capital contributions from time to time prior to January 1, 1982 to Kingsport in the aggregate amount of $2,000,000. The funds will be used to partially finance Kinsgport's general obligations, including estimated expenditures of $2,900,000 for Kingsport's 1981 construction program, and to serve other corporate purposes.

The application-declaration as amended by the post-effective amendment and any amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by June 26, 1981, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and serve a copy on the applicant-declarants at the addresses specified above. Proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in this matter. After said date, the application-declaration, as amended by the post-effective amendment or as it may be further amended, may be granted and permitted to become effective.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Release No. 22074; (70-6607)]

Arkansas Power & Light Co.; Proposed Issuance and Sale of First Mortgage Bonds

June 1, 1981.

Arkansas Power & Light Company ("Arkansas"), First National Building, Little Rock, Arkansas 72203, an electric utility subsidiary company of Middle South Utilities, Inc., a registered holding company, has filed an application with this Commission pursuant to Section 6(b) of the Public Utility Holding Company Act of 1935 ("Act") and Rule 50 promulgated thereunder.

Arkansas proposes to issue and sell up to $90,000,000 in principal amount of its first mortgage bonds of a series having a term of not less than five nor more than thirty years. The terms will be determined by competitive bidding. The bonds are to be issued as a new series under Arkansas' Mortgage and Deed of Trust, dated as of October 1, 1944, as heretofore supplemented and as proposed to be further supplemented. Arkansas intends to use the net proceeds derived from the issuance and sale of the bonds for the payment of a portion of its short-term indebtedness. Arkansas may request by amendment hereto that the sale of the bonds be excepted from the competitive bidding requirements of Rule 50.

The application and any amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by June 30, 1981, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and serve a copy on the applicant at the address specified above. Proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in this matter. After said date, the application, as filed or as it may be amended, may be granted.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

[Release No. 11800; (811-2010)]

Montrose Investors, Inc.; Notice of Filing of Application Pursuant to Section 8(f) of the act for an Order Declaring That Applicant has ceased To Be an Investment Company

June 1, 1981.

Notice is hereby given that Montrose Investors, Inc. ("Applicant"), c/o Mr. Allen M. Singer, 11109 Deborah Dr., Potomac, MD 20854, a Delaware corporation register under the Investment Company Act of 1940 ("Act") as an open-end, diversified management investment company, filed an applicaton on June 28, 1978, for an order of the Commission, pursuant to Section 8(f) of the Act, declaring that Applicant has ceased to be an investment company as defined by the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant registered under the Act on January 22, 1970. The application states that at a meeting held on December 20, 1977, a plan of liquidation and dissolution was approved by shareholders. It is asserted that, pursuant to that plan, on December 30, 1977, a liquidating dividend amounting to $8.50 per share was distributed to shareholders of Applicant who had not redeemed their shares prior to that date. Finally, the application, states that, at the date of the filing of the application, the Applicant had no assets and no stockholders.

Section 8(f) of the Act provides, in pertinent part, that when the Commission upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and that, upon the effectiveness of such order, the registration of such company will cease to be in effect.

Notice is further given that any interested person may, not later than June 26, 1981, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the application accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commisson, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Mangement, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

SMALL BUSINESS ADMINISTRATION

[License No. 03/03-0146]

James River Capital Associates; Issuance of License

On January 30, 1981, a notice was published in the **Federal Register** (46 FR 10033) stating that an application has been filed by James River Capital Associates, 909 East Main Street, Richmond, Virginia 23219, with the Small Business Administration pursuant to §§ 107.4 and 107.102 of the regulations governing small business investment companies (SBIC's) under the provisions of the Small Business Investment Act of 1958, as amended.

Interested parties were given until the close of business February 9, 1981, to submit their comments to SBA. No comments were received.

Notice is hereby given that, pursuant to Section 301(c) of the Small Business Investment Act of 1958, as amended, after having considered the application and all other pertinent information, the SBA issued License No. 03/03-0146 to James River Capital Associates, to operate as an SBIC.

BILLING CODE 8025-01-M

[Declaration of Disaster Loan Area # 1989]

Montana; Declaration of Disaster Loan Area

As a result of the President's major disaster declaration, I find that Broadwater, Cascade, Gallatin, Granite, Jefferson, Lewis and Clark, Meagher, Missoula, Powell and Silver Bow counties and adjacent counties within the State of Montana constitute a disaster area because of damage resulting from severe storms and flooding beginning on or about May 19, 1981. Eligible persons, firms and organizations may file applications for loans for physical damage until the close of business on July 27, 1981, and for economic injury until close of business on March 1, 1982, at: Small Business Administration, District Office, 301 South Park, Room 528, Federal Office Building, Drawer 10054, Helena, Montana 59601, or other locally announced locations. For recent changes in disaster loan eligibility, see 46 FR 18526 (March 25, 1981).

BILLING CODE 8025-01-M

[License No. 03/03-0062]

Osher Capital Corp.; Application for Transfer of Control

Notice is hereby given that an Application has been filed with the Small Business Administration pursuant to § 107.701 of the regulations governing small business investment companies (13 CFR 107.701 (1980)) for the transfer of control of Osher Capital Corporation (OCC), Township Line Road & Washington Lane, Wyncote, PA 19095, a Federal license under the Small Business Investment Act of 1958 (Act) as amended (15 U.S.C. 661 et seq.).

Section 107.701 of the regulations provides in general that any transfer of 10 or more percent of the licensee's stock is considered a transfer of control and requires prior approval from the SBA.

At the present time there are twelve shareholders. Mr. Leonard Cantor, President-Treasurer and Director proposes to purchase 40 percent or 1,200 shares of the issued and outstanding stock from 6 existing shareholders. Upon consumation and approval, Mr. Cantor will have increased his ownership position from 20 to 60 percent of the issued and outstanding stock.

Matters involved in SBA's consideration of the application include the general business reputation and character of the proposed new owner, and the probability of a successful operation under his control in accordance with the Act and Regulations promulgated thereunder.

Notice is hereby given that any person, may not later than June 23, 1981 submit written comments on this Application to the Acting Associate Administrator for Investment, Small Business Administration, 1441 L Street, NW., Washington, D.C. 20416.

A copy of this Notice shall be published in a newspaper of general circulation in the Wnycote area.

BILLING CODE 8025-01-M

[Application No. 08/08-0053]

Tracy Corp.; Application for a License To Operate as a Small Business Investment Company

Notice is hereby given of the filing of an application with the Small Business Administration pursuant to § 107.102 of the SBA Regulations (13 CFR 107.102 (1980)) by Tracy Corporation (Applicant), 107 South Main Street, Salt Lake City, Utah 84110, for a license to operate as a small business investment company (SBIC) under the provisions of the Small Business Investment Act of 1958 (the Act), as amended (15 U.S.C. 661 *et seq.*).

The proposed officers, directors and sole shareholder are:

Name and address	Title and relationship	Percent of ownership
Tracy-Collins Bank and Trust Company, 107 South Main Street, Salt Lake City, Utah 84110.	Shareholder	100
Gilbert L. Shelton, 2309 Cottonwood Lane, Salt Lake City, Utah 84117.	Chairman of the Board & Director	
John C. Slater, 11527 S. High Mountain Drive, Sandy, Utah 84070.	President & Director	
Ted E. Steers, 1059 S. Millcrest Cr., Bountiful, Utah 84010.	Vice President & Director	
Charles R. Canfield, 2818 South Breeze Drive, Magna, Utah.	Vice President & Director	
Ben F. Armstrong, 1505 Arlington Drive, Salt Lake City, Utah 84103	Vice President & Director	
Ted May, 2096 Linden Circle, Salt Lake City, Utah 84121.	Vice President & Director	
J. Michael Holt, 1970 Logan Avenue, Salt Lake City, Utah.	Vice President & Director	
Peter Karl Ringger, 3790 South Becky Circle, Salt Lake City, Utah	Secretary, Treasurer & Director	
Brooke Grant, 1418 Military Way, Salt Lake City, Utah	Director	
John Alexander Dahlstrom, 4567 Mathews Way, Salt Lake City, Utah.	Director	

The Applicant proposes to begin operations with a capitalization of $545,000 and will be a source of equity capital and long-term loans for qualified small business concerns. The Applicant plans to provide management consulting services to small business concerns.

Matters involved in SBA's consideration of the application include, the general business reputation and character of the proposed owners and management, and the probability of successful operations of the new company under their management, including adequate profitability and financial soundness, in accordance with the Act and Regulations.

Notice is further given that any person may, not later than June 23, 1981, submit written comments on the proposed SBIC to the Acting Associate Administrator for Investment, Small Business Administration, 1441 "L" Street N.W., Washington, D.C. 20416.

A copy of the Notice will be published in a newspaper of general circulation in Salt Lake City, Utah.

DEPARTMENT OF STATE

Office of the Secretary

[Public Notice CM-8/415]

Shipping Coordinating Committee; Subcommittee on Safety of Life at Sea; Notice of Meeting

The Working Group on Radio-communications of the Subcommittee on Safety of Life at Sea will conduct an open meeting on June 18, 1981, at 1:30 p.m., in Room 8238 of the Department of Transportation, 400 Seventh Street, SW., Washington, D.C. 20590.

This meeting is being held inside of the required two-week publication period in order to consider several issues concerning the Future Global Maritime Distress and Safety System which arose at the 23rd Session of the Subcommittee on Radio-communications held in London, on May 11–15, 1981. It is necessary to establish a work program to develop U.S. proposals to these issues well in advance of the next meeting of the Subcommittee.

The purpose of the meeting is to prepare position documents for the Twenty-fourth Session of the Subcommittee on Radio-communications of the Intergovernmental Maritime Consultative Organization (IMCO) to be held in London, in May of 1982. In

particular, the working group will discuss the following topics:

—survival craft radio equipment
—operational requirements for future EPIRBs
—operational standards for shipboard radio equipment
—maritime distress system

For further information contact Mr. Richard Swanson, U.S. Coast Guard (G-OTM-S), Washington, D.C. 20593. Telephone (202) 426-0517.

Dated: June 4, 1981.

James A. Treichel,

Executive Secretary, Shipping Coordinating Committee.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Aircraft Position Light and Anticollision Light Installations; Availability of Advisory Circular and Request for Comments

AGENCY: Federal Aviation Administration.

ACTION: Notice of availability of draft Advisory Circular (AC) and request for comments.

SUMMARY: The draft Advisory Circular is intended to combine and update material contained in AC 20-30A and AC 43.13-2A, provided a method to calculate rear position obstructions, and summarize the airworthiness requirements for anticollision lights.

DATE: Commenters must identify file number AC 20-30B and comments must be received on or before July 8, 1981.

ADDRESS: Send all comments in duplicate on the draft to Federal Aviation Administration, Office of Airworthiness, Attention: Systems Branch (AWS-130), 800 Independence Ave. SW., Washington, D.C. 20591, or delivered in duplicate to Room 335-E, 800 Independence Ave. SW., Washington, D.C. 20591. Comments delivered must be marked file number AC 20-30B. Comments may be inspected at Room 335-E between 8:30 a.m. and 5:00 p.m.

FOR FURTHER INFORMATION CONTACT: Mr. Philip J. Akers, Systems Branch (AWS-130), Aircraft Engineering Division, Office of Airworthiness, Federal Aviation Administration, 800 Independence Ave. SW., Washington, D.C. 20591 (Telephone (202) 426-8395)

SUPPLEMENTARY INFORMATION:

Comments Invited

Comments are solicited on all aspects of the draft Advisory Circular. A copy of the draft Advisory Circular may be obtained by contacting the person identified under "For Further Information Contact."

Issued in Washington, D.C. on June 2, 1981.

M. C. Beard,

Director of Airworthiness.

Advisory Circular

Department of Transportation,
Federal Aviation Administration,
Washington, D.C.

FAR Guidance Material

Subject: Aircraft Position Light and Anticollision Light Installations.

1. *Purpose.* This circular sets forth acceptable means, but not the only means, of showing compliance with the Federal Aviation Regulations (FAR) applicable to installed position lights and anticollision lights.

2. *Cancellation.* AC 20-30A dated April 18, 1968, is canceled.

3. *Related FAR Sections.*

a. Sections .1385 through .1401 of FAR Parts 23, 25, 27, and 29.

b. Sections .33 and .73 of FAR Part 91.

4. *Related Reading Material.*

a. Advisory Circular AC 20-74, Aircraft Position Lights and Anticollision Light Measurements.

b. Advisory Circular AC 43.13-2A, Acceptable Methods, Techniques, and Practices, Aircraft Alterations.

c. Technical Standard Order (TSO) C30b, Aircraft Position Lights.

5. *Background.* Airworthiness regulations and Technical Standard Orders prescribe minimum intensities, light distribution, overlap limits, allowable obstructions to light visibility, and color for position lights and anticollision lights.

6. *Laboratory Measurements.* Measurements of intensity, light distribution, and light color are normally made under laboratory conditions before installation. Advisory Circular 20-74 contains information concerning measurements of intensity, distribution, and color.

7. *Position Light System Installation.*

a. *Location.* In determining whether forward position lights have been "spaced laterally as far apart as practicable," and whether the rear position light has been "mounted as far aft as practicable," as required by the FAR's, each installation may be evaluated for special considerations. Examples of special consideration are:

(1) Would the number of malfunctions be significantly increased due to increased vibration or other environmental conditions if the lights were spaced farther apart, or mounted farther aft?

(2) Would accessibility for maintenance be significantly reduced if the lights were spaced farther apart or farther aft?

b. *Rear Position Light Obstructions.* A small light obstruction is permitted within dihedral angle A (aft) described in § .1387(d) of Parts 23, 25, 27, and 29. That obstruction is limited in size to 0.04 steradian and in position to the 30° cone described in § .1387(e) of Parts 23, 25, 27, and 29 and shown in Figure 1. Measurements to show compliance with the regulations can be made on actual aircraft or on appropriate scale drawings. The following procedure is one means of showing compliance with the regulations:

(1) On the side view drawing, draw a line through the light center perpendicular to the aircraft longitudinal axis. Draw a second line upward through the light center to the most aft point on the vertical stabilizer. The angle Z between the two lines is limited by the airworthiness rules to 30°. Figure 1 shows an example of angle Z.

(2) On the rear view drawing, draw angle W which is formed by two lines drawn upward from the light center to the maximum right and left obstructions within angle Z. When a protrusion causes a very small zone of obstruction it may be discounted unless total obstructions are near the regulatory limit. When a rear view drawing is not available, a combination of other drawings or measurements on the actual aircraft can be used to determine angle W.

(3) Multiply angle Z degrees by angle W degrees to obtain the amount of obstruction in square degrees. The method is conservative, as obstructions as wide as angle W may not exist throughout angle Z. Convert the measurement to steradians by dividing the square degree value by 3284. The number 3284 is a conversion factor to obtain steradians from square degrees.

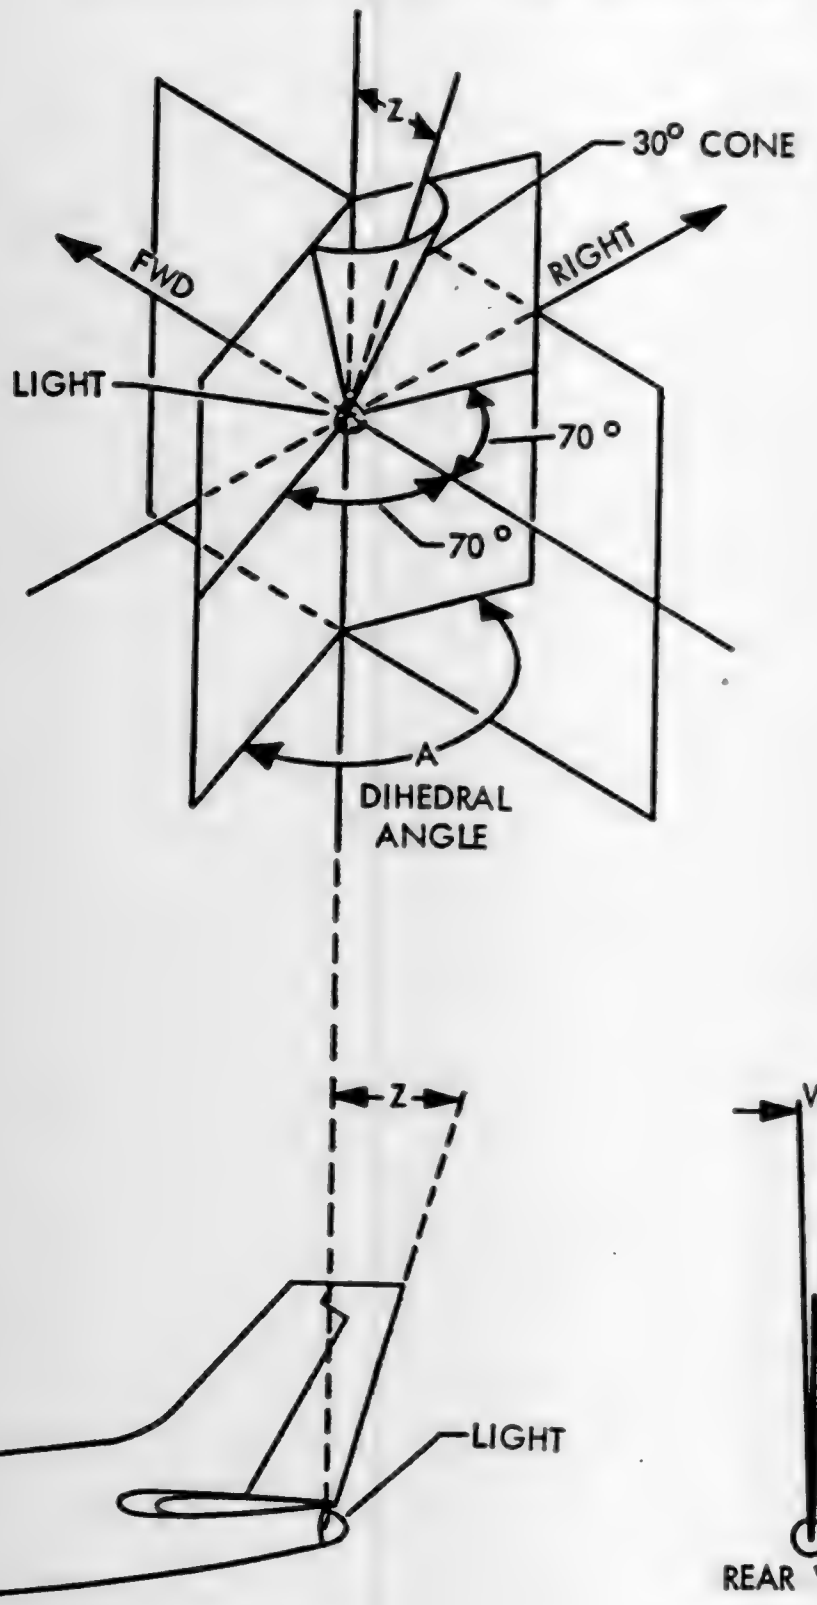
8. *Anticollision Lights.*

a. *Airworthiness Requirements.*

Appendix 1, Tables 1 through 4, summarize the airworthiness requirements for anticollision lights and lists them according to the applicable amendments to the CAR's/FAR's. The airworthiness requirements for a specific aircraft can usually be determined by entering the applicable table with the latest amendment shown for the certification basis in the aircraft's type certificate data sheet.

BILLING CODE 4910-13-M

FIGURE 1. REAR POSITION LIGHT OBSTRUCTIONS



BILLING CODE 4910-13-C

V 4 6 / 1 0 9 J E 8 8 1 UMI

b. *Operational Requirements.* Some airworthiness requirements have been made retroactive by Amendment 91-90, which amended § 91.33(c)(3) of the FAR. The term "initially installed" used in this section refers to new installations based on newly-approved design data or any installation which includes a major change as defined in FAR 21.93(a) to the previously approved design data. In effect, new designs which have had no previous FAA approval are considered initially installed systems. Anticollision light installations approved by Major Repair and Alteration (Airframe, Powerplant, Propeller, or Appliance), FAA Form 337, supplemental type certificate or amended type certificate prior to August 11, 1971, may be duplicated on like make and model aircraft without being considered initially installed.

c. *Obstruction Measurements.* When anticollision light obstructions are allowed within the required field of coverage, measurements on shadows, scale drawings or actual aircraft can be used to substantiate that solid angles of obstruction do not exceed regulatory limits. When masking is used to prevent the impairment of crew vision, the mask becomes an additional light obstruction. The amount of obstruction caused by the mask depends not only on the physical size of the mask, but also on the type and size of the light source. With rotating beacons, the mask obstruction may be slightly larger than indicated by the physical size of the mask. This condition results from the lack of a sharp cutoff of light at the mask edges. As the reflector rotates, there is a gradual reduction of light near the mask edges due to the relatively large size of the light source. Accurate measurement of mask obstruction can best be accomplished during the laboratory measurement of intensity and field of coverage. Otherwise, total obstructions measured very near the regulatory limit may actually exceed that limit.

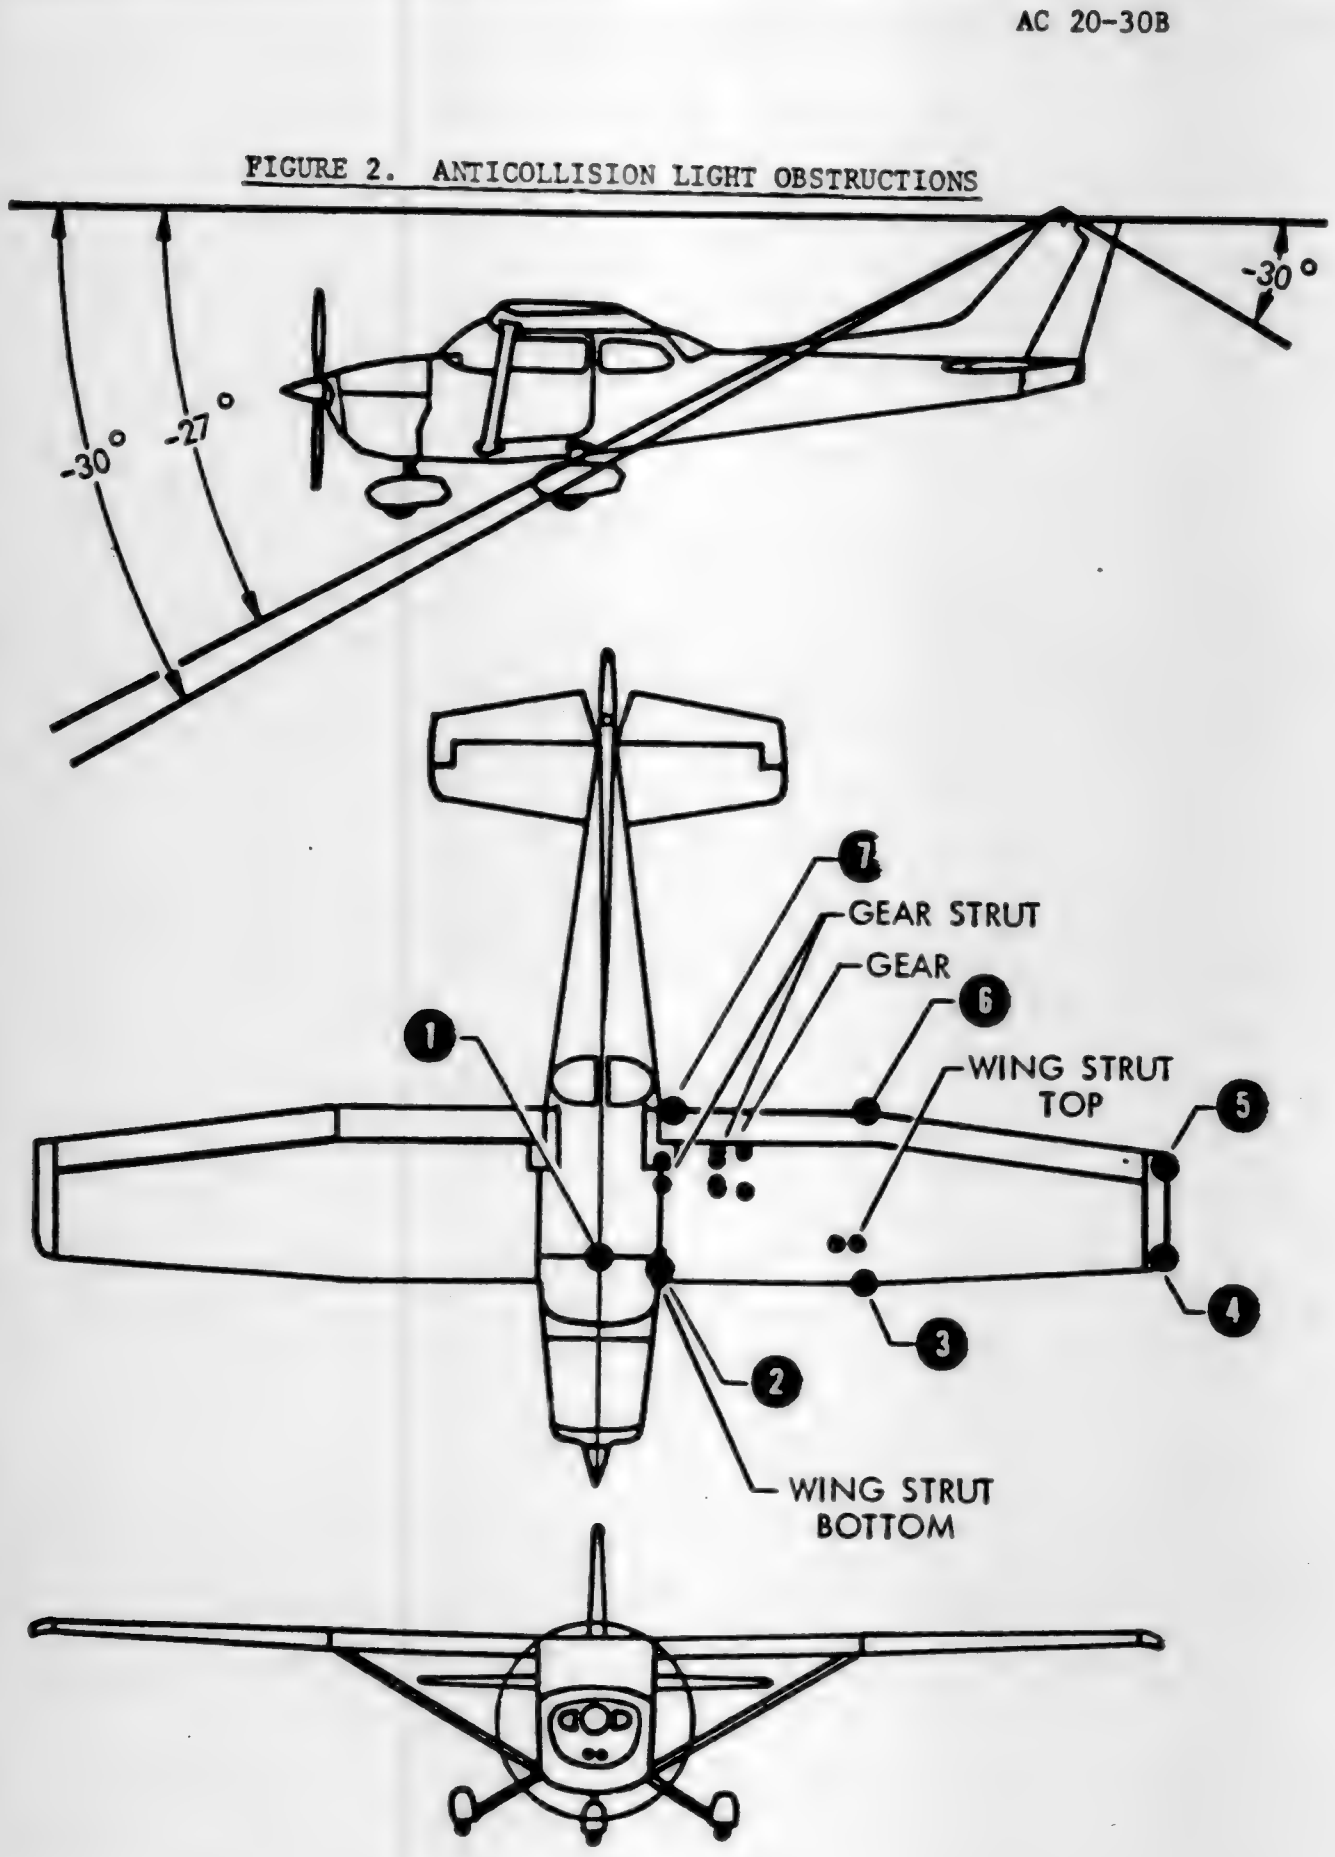
d. The following procedures refer to the example shown in Figure 2. Scale drawings and measurements from the light unit are used in substantiating compliance with the anticollision light requirements. The procedure with variations can be applied to other aircraft. Variations include other shapes and vertical coverage requirements. The procedure converts scale drawing obstructions to a plot of horizontal versus vertical degrees where area units become square degrees. By counting the squares within obstructions and converting the sum to steradians, compliance can be shown. Scale drawings should be large enough to assure reasonable accuracy in the measurements. For the example, the vertical coverage requirement is ±30°.

(1) *Fuselage and Wings.*

(i) *Point selection.* On the top view, establish enough points to adequately follow the shape of obstructions. In the example of Figure 2, seven points are established and numbered to represent the left half of the fuselage and the left wing. Because of symmetry, measurements are limited to one side, and the measured obstructed area is doubled to account for the other side of the aircraft. Additional obstructions, not represented by the seven numbered points, include mask, wing struts, landing gear, and rudder. These additional obstructions are considered separately.

BILLING CODE 4910-13-M

FIGURE 2. ANTICOLLISION LIGHT OBSTRUCTIONS



BILLING CODE 4910-13-C

(ii) *Horizontal angles.* On the top view of Figure 2, measure the horizontal angles between the aircraft centerline and lines connecting the anticollision light center to the numbered points.

(iii) *Vertical angles.* On the side view of Figure 2, measure the vertical angles from the horizontal plane passing through the anticollision light center to lines connecting the light center to the numbered points.

(iv) *Tabulation.* Tabulate the measured horizontal and vertical angles as shown in Table 1.

Note.—In lieu of direct angle measurements, distance measurements may be used to calculate the angles using trigonometry relationships.

(2) *Wing strut angles.* On the top view of Figure 2, establish right and left points for the strut top and fore and aft points for the strut bottom. Horizontal angles for the strut bottom points are approximately equal. Measure the horizontal and vertical angles to the four points and tabulate as shown in Table 1.

(3) *Main gear fairing.* On the top of Figure 2, establish four points for the main gear fairing obstruction. The rear obstruction limit is the $-30°$ vertical coverage requirement, and the forward obstruction extends to vertical angles of $-27°$. The effect of wheel fairing rounding is slight and is neglected. Measure the horizontal angles to the four points, and tabulate as shown in Table 1.

(4) *Main gear strut.* On the top view of Figure 2, establish four points for the main gear strut. Measure the horizontal and vertical angles to the four points, and tabulate as shown in Table 1.

(5) *Rudder obstructions.* On the side view of Figure 2, rudder obstructions occur aft of the anticollision light while all other obstructions are forward. Therefore, it is practical to measure rudder obstructions independently. On the side view of Figure 2, the rudder obstructs for 30 vertical degrees. On the top view, the obstruction is 3 horizontal degrees on the left side. The left side rudder obstruction is 90 square degrees; i.e., $30°x3° = 90$ square degrees.

(6) *Calculating obstructions.* The graph of Figure 3 shows plotting of the collected data of Table 1 as vertical degrees versus horizontal degrees. Each square is equal to one square degree so that obstructions can be measured by counting squares. Obstruction areas can be counted in zones bounded by vertical lines through the numbered points. Table 2 shows the counts including the rudder obstruction which was measured independent of the graph. Square degrees are converted to steradians by dividing by 3284.

Dowty Rotol Models (c) R.321 and (c) R.324 Propellers; Certification and Availability of Documents

The formal certification process for the Dowty Rotol Models (c) R.321 and (c) R.324 Propellers initiated in November 1980 was completed April 3, 1981.

The Director of the FAA Great Lakes Region has reviewed a document entitled "Decision Basis for the Type Certification of the Dowty Rotol Models (c) R.321 and (c) R.324 Propellers." Based on this summary of the certification process, the Director has approved issuance of Type Certificate P61GL dated April 13, 1981.

A copy of the "Decision Basis for the Type Certification of the Dowty Rotol Models (c) R.321 and (c) R.324 Propellers" is on file in the FAA Rules Dockets. The "Decision Basis" includes a copy of Type Certificate P61GL. The report is available for examination and copying at the FAA Rules Docket, Room 916, 800 Independence Avenue SW., Washington, D.C. Copies of the report may be obtained from the Director, FAA Great Lakes Region, 2300 E. Devon Avenue, Des Plaines, Illinois 60018.

Issued in Des Plaines, Illinois on May 22, 1981.

Wayne J. Barlow,

Director, Great Lakes Region.

BILLING CODE 4910-13-M

Federal Highway Administration

Environmental Impact Statement; Dawson County, Nebraska

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement will be prepared for a proposed highway project in Gothenburg, Dawson County, Nebraska.

FOR FURTHER INFORMATION CONTACT: Walter Running, Program Support Engineer, FHWA, Federal Building, 100 Centennial Mall North, Lincoln, Nebraska 68508, Telephone: (402) 471-5527. Gerald Grauer, Project Development Engineer, Nebraska Department of Roads, P.O. Box 94759, Lincoln, Nebraska 68509, Telephone: (402) 473-4795.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Nebraska Department of Roads (NDOR), will prepare an environmental impact statement for a proposed project to provide a viaduct over the Union Pacific Railroad tracks on State Highway N-47, in Gothenburg, Dawson County, Nebraska. The proposed project consists of the construction of an overpass structure and related approach roadways with an overall length of approximately one mile. The proposed project is deemed necessary to provide for vehicle traffic movement without the delays caused by coal and freight train movements through Gothenburg.

Alternatives under consideration include (1) taking no action; and (2) constructing the proposed project.

Public information meetings were held in Gothenburg, on February 18, 1980 and on March 5, 1981 to discuss the concerns of the immediate community and the general public. No formal scoping meeting is planned at this time. A public hearing will be held after the Environmental Impact Statement has been made available for public and agency review and comment. Public notice will be given of the time and place of the public hearing.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning the proposed action should be directed to the FHWA or the NDOR at the address provided above.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Research, Planning and Construction. The provisions of OMB Circular No. A-95 regarding State and local clearinghouse review of Federal and federally assisted programs and projects apply to this program)

Issued on: May 28, 1981.

Walter M. Running,

Program Support Engineer, Nebraska Division, Federal Highway Administration, Lincoln, Nebraska.

BILLING CODE 4910-22-M

National Highway Traffic Safety Administration

[Docket No. IP81-14; Notice 1]

International Harvester Company; Petition for Exemption From Notice and Remedy for Inconsequential Noncompliance

International Harvester Company of Fort Wayne, Indiana, has petitioned to be exempted from the notification and remedy requirements of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1381 *et seq.*) for a noncompliance with 49 CFR 571.101-80, Motor Vehicle Safety Standard No. 101-80, *Controls and Displays*. The basis of the petition is that the noncompliance is inconsequential as it relates to motor vehicle safety.

This notice of receipt of a petition is published under section 157 of the Act (15 U.S.C. 1417) and does not represent any agency decision or exercise of judgment concerning the merits of the petition.

Paragraph S5.2.3 and Table 2 of Standard No. 101-80 require that certain internal displays on any passenger car manufactured on or after September 1, 1980, be identified with the appropriate International Standards Organization (ISO) symbol. At its option, the manufacturer may also provide identifying words. Use of an identifying word was mandatory before September 1, 1980, and no symbols were required.

Harvester estimates that it has produced approximately 200 trucks since September 1, 1980 in which the headlamp switch is identified only by the word "LIGHTS", compliant with Standard No. 101, but noncompliant with Standard No. 101-80. Harvester argues that use of the previously acceptable wording creates no safety hazard as it is readily understandable by the public.

Interested persons are invited to submit written data, views and arguments on the petition of International Harvester Company described above. Comments should refer to the docket number and be submitted to Docket Section, Room 5109, National Highway Traffic Safety Administration, 400 Seventh Street SW., Washington, D.C. 20590. Is is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closinig date indicated below will be considered. The application and supporting materials will be filed, and all comments received after the closing date will be considered to the extent possible. When the petition is granted or denied, notice will be published in the **Federal Register** pursuant to the authority indicated below.

The engineer and attorney responsible for this notice are John Carson and Taylor Vinson, respectively.

Comment closing date: July 8, 1981.

(Sec. 102, Pub. L. 93-492, 88 Stat. 1470 (15 U.S.C. 1417); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8)

Issued on June 1, 1981.

Michael M. Finkelstein,

Associate Administrator for Rulemaking.

BILLING CODE 4910-59-M

DEPARTMENT OF THE TREASURY

Office of the Secretary

Treasury Announces Public Meeting To Discuss U.S.A.-Pakistan Tax Treaty Issues on July 7, 1981

The Treasury Department announced that it will hold a public meeting on July 7, 1981, to solicit the views of interested persons regarding issues being considered during negotiations of a new income tax treaty between the United States and Pakistan.

The public meeting will be held at the Treasury Department, at 1:30 p.m., in room 4426. Persons interested in attending are requested to give notice in writing by June 29, 1981, of their intention to attend. Notices should be addressed to Joel Rabinovitz, Deputy International Tax Counsel, Department of the Treasury, Washington, D.C. 20220.

The July public meeting follows the recent conclusion of the second round of negotiations between representatives of the United States and Pakistan to develop a new income tax treaty for the avoidance of double taxation and the prevention of tax evasion. The new treaty would replace the income tax treaty presently in effect between the United States and Pakistan which was signed in 1957.

In the course of the recent negotiations, many subjects of mutual concern were identified and discussed. Among the major issues being considered are: taxation of corporations organized in one country but managed or controlled in the other country; taxation of dividends, interest, and royalties; the rules relating to permanent establishments; the taxation of income from the operation of ships and aircraft; the taxation of capital gains; and the taxation of various forms of personal service income.

The Treasury seeks the views of interested persons in regard to the full range of income tax treaty issues, as well as other matters that may have relevance to an income tax treaty between the United States and Pakistan. The July 7 public meeting will provide an opportunity for an exchange of views, and will permit discussion of the United States position in regard to the issues presented.

Dated: June 1, 1981.

John E. Chapoton,

Assistant Secretary (Tax Policy).

BILLING CODE 4810-25-M

Treasury Announces Public Meeting To Discuss U.S.A.-Sri Lanka Tax Treaty Issues on July 7, 1981

The Treasury Department announced that it will hold a public meeting on July 7, 1981, to solicit the views of interested persons regarding issues being considered during negotiations of an income tax treaty between the United States and Sri Lanka.

The public meeting will be held at the Treasury Department, at 3:30 p.m., in room 4426. Persons interested in attending are requested to give notice in writing by June 29, 1981, of their intention to attend. Notices should be addressed to Joel Rabinovitz, Deputy International Tax Counsel, Department of the Treasury, Washington, D.C. 20220.

The July public meeting follows the recent conclusion of the first round of negotiations between representatives of the United States and Sri Lanka to develop an income tax treaty for the avoidance of double taxation and the prevention of tax evasion. There is presently no treaty in effect between the United States and Sri Lanka.

In the course of the recent negotiations, many subjects of mutual concern were identified and discussed. Among the major issues being considered are: taxation of dividends, interest and royalties; rules relating to permanent establishments; the taxation of income from the rental of tangible personal property; and the taxation of income from the operation of ships and aircraft.

The Treasury seeks the views of interested persons in regard to the full range of income tax treaty issues, as well as other matters that may have relevance to an income tax treaty between the United States and Sri Lanka. The July 7 public meeting will provide an opportunity for an exchange of views, and will permit discussion of the United States position in regard to the issues presented.

Dated: June 1, 1981.

John E. Chapoton,

Assistant Secretary (Tax Policy).

BILLING CODE 4810-25-M

VETERANS ADMINISTRATION

Education Loans for Flight Training

AGENCY: Veterans Administration.

ACTION: Request for public comments.

SUMMARY: The Veterans Administration is publishing for public comment statements of procedures which have been adopted by the agency in order to implement some of the provisions of the Veterans' Rehabilitation and Education Amendments of 1980. These statements will better acquaint veterans, educational institutions and the public at large with the way these provisions will be implemented.

DATE: Comments must be received on or before July 8, 1981.

ADDRESSES: Send written comments to: Administrator of Veterans Affairs (271A), Veterans Administration, 810 Vermont Avenue, NW., Washington, D.C. 20420.

Comments will be available for review at the above address during normal business hours until July 20, 1981.

FOR FURTHER INFORMATION CONTACT: June C. Schaeffer (225), Assistant Director for Policy and Program Administration, Education Service, Department of Veterans Benefits, Veterans Administration, 810 Vermont Avenue, NW., Washington, DC 20420 (202-389-2092).

SUPPLEMENTARY INFORMATION: This publication contains Appendix E to DVB Circular 22-80-39. This appendix implements the provisions of the Veterans Rehabilitation and Education Amendments of 1980 dealing with giving education loans to veterans in flight training. It has been distributed through normal channels. The Veterans Administration is implementing the procedures contained in the appendix. All comments received will be reviewed and used in changing the appendix, if necessary.

Additional Comment Information

Interested persons are invited to submit written comments, suggestions or objections regarding this document to the Administrator of Veterans Affairs (271A), Veterans Administration, 810 Vermont Avenue, NW., Washington, DC 20420. All written comments received will be available for public inspection at the above address only between the hours of 8 am and 4:30 pm Monday through Friday (except holidays) until July 20, 1981. Any person visiting the Veterans Administration Central Office in Washington, DC for the purpose of inspecting any such comments will be received by the Central Office Veterans Services Unit in room 132. Such visitors to a VA field station will be informed that the records are available for

inspection only in Central Office and furnished the address and the above room number.

Approved: June 2, 1981.

D. Custis,

Acting Administrator.

DVB Circular 22–80–39

Appendix E

Department of Veterans Benefits,
Veterans Administration, Washington, D.C.
March 16, 1981.

VETERANS ADMINISTRATION EDUCATION LOANS FOR FLIGHT TRAINING

1. *Purpose.* This appendix provides instructions for implementing the provisions of Public Law 96–466 which amends 38 U.S.C. 1798 to allow loans for flight training.

2. *General.*

a. Pub. L. 96–46 authorizes the VA to grant education loans for enrollment in flight training for eligible students who will be reimbused at 60 percent of the approved charges. Loans may not be made if reimbursement will be made at the 90 percent rate. Current procedures governing loans for institutional training will apply to loans for enrollments in flight training unless specified otherwise.

b. The following are major differences applying to loans for flight training.

(1) A waiver of the 6-month course length requirement for loans will be required for each flight course for which a loan is requested unless the school can show that the average student requires at least 6 months to complete the course. (See par. 5.)

(2) The length of time it will take an individual student to complete a course will generally not be known at the time of the application. Consequently, it must be estimated for each student. (See par. 6.)

(3) Flight training will be presumed to meet the attendance requirements of 38 U.S.C. 1662(a)(2) and 1798(c).

3. *Application.*

a. The claimant will apply for an education loan for flight training on VA Form 22–8725, Application for Education Loan, which must be received before completion of the particular flight course for which application is made. A separate application will be required for each course and for each segment of a course which lasts over 6 months.

b. The current loan application form does not contain information and instructions on loans for flight training. Until such time as a revised application is published, additional development will be necessary to ensure that adequate information, as specified in paragraph 13, is provided with the application.

4. *Eligibility—Basic Criteria.*

a. *Student Eligible for Educational Assistance.* If the delimiting date of the application has not expired, he/she must be otherwise eligible for reimbursement at the 60 percent rate and enrolled in an approved flight training course.

b. *Student Not Eligible for Educational Assistance (Post-Delimiting-Date Loans).* Loans may be granted for a maximum of 2 years after the student's delimiting date applying the same criteria as for loans for institutional programs.

(1) If the delimiting date has expired, the following additional critiera must be met:

(a) The student has unused entitlement;

(b) The student is enrolled in a flight course approved for VA benefit purposes within his/her flight program on the date his/her delimiting date occurred and was entitled to receive reimbusement at the 60 percent rate on that date;

(c) The student must have received some flight training in the flight program within the 6-month period before his/her delimiting date; and

(c) The student continues to be enrolled in the same flight program during the loan period that he/she was enrolled in on the date his/her delimiting date occurred.

(2) Unused entitlement may be used to establish loan eligibility until the earliest of the following:

(a) Two years from the student's delimiting date; or

(b) Until unused entitlement used to establish loan eligibility has been exhausted; or

(c) Until the approved flight program in which the student was enrolled on his/her delimiting date is completed.

(3) A post-delimiting date loan period for flight training cannot begin before October 1, 1980.

(4) Once qualified for an education loan after the delimiting date, enrollment in the same flight program is required to qualify for another loan during a subsequent loan period.

5. *Six-Month Course Length Requirement.*

a. An education loan may be granted to a veteran attending a course not organized on a term, quarter, or semester basis if that course requires at least 6 months to complete. Since flight training courses generally are not organized in terms of a specific number of months of attendance, it will be necessary for the flight school to establish that the individual flight course for which a loan is requested meets the 6-month requirement.

(1) The flight school may submit evidence in the form of an affidavit signed by the president, owner or chief official of the school which establishes that it generally takes 6 months or longer to complete the course. The evidence must be sufficient to clearly demonstrate that on the average it took at least 6 months for students (veterans as well as nonveterans) to complete the course during the past 2 years. No loans may be approved until the evidence is received.

(2) If it is established that a course meets the 6-month requirement for loan purposes, appropriate notice must be given to the Authorization activity. It will not be necessary for the school to submit the evidence as described above for subsequent loans for the same course unless requested by the VA.

(3) Note that "course," as used in this context, refers to the individual course a student may pursue, such as commercial pilot, instrument rating, or multiengine rating; all are separate courses.

b. If the flight school is unable to submit evidence to establish that the course meets the 6-month requirement, a waiver of this requirement will be necessary before a loan can be considered for the flight course.

(1) A flight school may apply for a waiver to the Director of the VA regional office that has jurisdiction of the area where the school is located. The waiver application must be accompanied by an affidavit signed by the president, owner, or chief official of the school. The affidavit must certify all of the following:

(a) The percentage of students whose enrollments ended during the past 2 years who completed the flight course. This information may be established from the Occupational Graduate Employment Report (Schools), VA Form 22–8723, by dividing the entry on line 3 by the entry on line 1, and multiplying by 100;

(b) The percentage of all students (no exclusions for any reasons) completing the course over the past 2 years who obtained employment in the occupational category for which the flight course was designed to provide training or in a closely related occupation. This information may be established from VA Form 22–8723 by dividing the sum of the entries on line 16 and line 17 by the entry on line 12, and multiplying by 100;

(c) The average length of the course. This may be obtained by determining the average time over the past 2 years that was necessary for students to complete the flight course. Students not completing the course will not be included in this computation;

(d) The percentage of all students currently enrolled in the flight school receiving VA educational benefits. Do not include students receiving training under Part 61 of FAA regulations.

2. The Director of the regional office will review waiver requests to determine if they meet all of the following requirements:

(a) The course completion rate has been 75 percent or more for the preceding 2 years. This amount can be obtained from VA Form 22–8723 by dividing the entry on line 3 by the entry on line 1, and multiplying by 100;

(b) Seventy-five percent or more of the graduates of the flight course during the preceding 2 years have gained employment in the occupation for which trained or in a closely related occupation. This may be obtained from VA Form 22–8723 by dividing the sum of the entries on line 16 and line 17 by the entry on line 12, and multiplying by 100;

(c) The course requires at least 3 months to complete based on the average time that students needed to complete the course;

(d) The percentage of all students currently enrolled in the school receiving VA educational benefits does not exceed 35 percent. Do not include students receiving training under Part 61 of FAA regulations;

(e) The cumulative default experience on all VA educational loans made at the educational institution does not exceed 5 percent or 5 cases, whichever is greater. This may be determined from the station's current RCS 22–8, VA Education Loan Payment/Default Report. The percentage will be the total defaults divided by the total loans disbursed; and

(f) There have been no serious discrepancies discovered at the school by the State approving agency on supervisory visits or by the VA on compliance surveys during the previous 2 years.

(3) The application for waiver, other related information, and any decision based on the application will be made a part of the approval folder.

(4) If the above requirements have not been met, the regional office Director is authorized to deny requests for waiver. The denial letter to the school will state the reason for denial and advise the school that it may request an administrative review of the decision by Central Office within 1 year from the date of the denial letter. A copy of the denial letter will be filed in the approval folder. Such a request for review should be made to the regional office. If a request for review is received, the complete record, including the approval folder and compliance survey file, will be sent to the Field Director (225B) for review and final decision. The regional office will notify the school by letter when the record is forwarded to Central Office. The Central Office decision will be sent to the regional office Director for written notice to the school.

(5) If the requirements of subparagraph (2) above have been met, the regional office will prepare a memorandum to the Field Director (225B). This memorandum will briefly summarize the findings and will recommend concurrence in the waiver request. The complete record, including the approval folder and the compliance survey file, will be sent to the Field Director (225B) along with the memorandum. The regional office will notify the school by letter when the record is forwarded to Central Office. The Central Office concurrence or nonconcurrence will be sent to the regional office Director for written notice to the school. If a waiver is granted, appropriate notice must be given the Authorization activity.

c. Applications for education loans from veterans attending flight courses will be disapproved unless the individual course meets the 6-month requirement or a waiver has been granted. The applicant will be given the reasons for the disapproval by dictated letter and informed as to the evidence the school may submit to meet these requirements if the school has not previously applied.

6. *Loan Period.*

a. Since there generally is no definite time for completing a flight course, the length of the course for each student must be estimated for loan purposes by the flight school and the student to arrive at a reasonable completion date for the course. This estimate will be independent of the course length for all students completing the course as described in the preceding paragraphs since each student may pursue flight training at a different rate. It will not be advantageous to the student to arrive at an estimated completion date for loan purposes that is significantly later than the date he/she is expected to complete the course. (See par. 8c.)

b. A single loan period for a particular flight course may not exceed 6 months. If the veteran does not complete the particular course by the estimated completion date or within 6 months of the beginning of the loan period, whichever is earlier, he/she may apply for another loan for the course by submitting another loan application.

7. *Eligibility—Financial Criteria.* The applicant's income and expenses related to training are counted in a similar manner as loans for institutional training.

a. *Available Resources.* Income from sources such as estimated net income for the year, cash assets, family contributions, and non-VA financial assistance will be reported and counted as in claims for loans for other types of training. As with all education loans, reported resources should be examined as to the reasonableness of the amounts shown. The adjudicator or education clerk should develop for any reported resources that do not appear to be reasonable. For VA educational assistance, the applicant should report that portion of the total charges which the VA will reimburse for the flight training courses over the period to which the loan will apply.

b. *Allowable Expenses.*

(1) Only those expenses related to flight training will be included under Related Educational Expenses on the application. The expenses will be reported for the loan period. Books, supplies, commuting expenses, and other school-related expenses are allowable to the same extent as for loans for institutional training.

(2) The student may list charges for room and board in the same manner as for other institutional courses. Since most flight schools do not furnish room and board, the allowable amounts for these expenses may not exceed the room and board charges at the nearest State school or university which provides room and board. These amounts may be obtained or verified from current school catalogs and adjusted to correspond to the length of the flight course. If the flight school does furnish room and/or board, the school certifying official will provide the cost of these services on the application for the entire estimated length of the course. The allowable expenses may not exceed the room and board charges for the flight school.

(3) The school certifying official should report total charges for flight training that the student is expected to incur for the course.

8. *Loan Amount.*

a. *Determining Loan Amount.*

(1) *Income Computation.* Amounts reported for estimated current year net available taxable and nontaxable income will be multiplied by the appropriate factor according to the loan period as follows:

Period to which loan will apply (months)	Factor [1]
1–3	.25
4–5	.375
6	.50

[1] Factor by which income multiplied.

(2) *Adjustment of Total Charges.*

(a) The total charges for flight training and for room and board, if provided, reported for the length of the course must be adjusted if the estimated ending date of the course (item 15C on the application) is more than 6 months from the beginning date of the course. To adjust the charges to a 6-month basis, divide 6 by the number of months of the course and multiply the fraction obtained by the total charges of the course. Portions of a month of 15 or more calendar days will be rounded to the next higher month; fewer than 15 days will be dropped. To the extent that the charges are used to compute the amount of the loan, that portion of the charges will not be used again in computing a subsequent loan for the same course.

(b) For example, if the flight school reports a 9 month course with total charges of $6,000, charges of $4,000 (6/9 x $6,000) can be counted as expenses for the first loan period; the remaining $2,000 may be counted as expenses if a second loan is requested for the course.

(c) The veteran's income from VA educational assistance should not be less than 60 percent of the projected total flight charges unless he/she is no longer eligible for educational assistance.

(d) The flight charges that can be counted to compute the loan amount must be examined carefully if the veteran requests a second loan for the same flight course. Flight charges used to compute the amount for the initial loan for a course cannot be counted as expenses to compute a subsequent loan for the same course. For example, if approved charges for a flight course are $8,000 and the veteran claims $5,000 in flight charges for the initial loan, no more than $3,000 can be allowed as charges for a second loan for that course.

(3) *Maximum Loan Amount.* For courses estimated to be less than 6 months in length, the maximum loan that may be granted is at the rate of $270 per month. If the course is 6 months, the maximum loan amount for the period is $1,660. Portions of a month of 15 or more calendar days will be rounded to the next higher month for computation purposes; fewer than 15 days will be dropped. However, a course of less than 15 days will be considered as 1 month. If the course is longer than 6 months, these criteria will be applied separately to each additional period of up to 6 months.

(4) *Absolute Maximum.* In addition to the limitations on the loan amount due to the length of the course, there are limitations based on the amount of the veteran's remaining entitlement to educational assistance. For loans for flight training under chapter 34, the loan amount may not exceed the amount obtained by multiplying $302 (effective 10/1/80) times the number of months of remaining monthly entitlement. This rate was increased to $317 times remaining monthly entitlement effective January 1, 1981. If a loan period begins before January 1, 1981, and ends on or after that date, each portion of the period will be computed at the rate appropriate for that period. The two amounts will be combined.

b. *Approved Loan Amount.* The approved loan amount will be the lesser of the following:

(1) The amount needed;

(2) The amount requested;

(3) The maximum loan for the enrollment period (as computed according to subpar. a(3) above); or

(4) The absolute maximum (as computed according to subpar a(4) above).

c. *Adjustment of Approved Loan Amount.* Two loan periods for different courses may overlap if one course is completed and a loan request for a second course is received that covers a period beginning before the estimated completion date of the first course. The loan amount approved for the second course must be reduced to the extent that the actual loan amount due the student for the first course exceeds the amount paid. The following subparagraphs give an example of overlapping loan periods:

(1) The estimated length of the first course for which a loan is approved covers the period January 20, 1981, through April 10, 1981. The student actually completes the first course on March 12, 1981. The loan request for the second flight course covers the period March 16, 1981, through May 20, 1981.

(2) First, compute the loan amount for the second course. Second, recompute the loan amount for the first course by adjusting income and expenses for the actual length of the course and actual charges paid.

(3) If the recomputed loan amount for the first course is less than the loan amount paid for that course, deduct the difference from the loan amount approved for the second course. If the recomputed amount is equal to or greater than the amount paid, the full loan amount for the second course will be paid. NOTE: the amount of any loan granted will not be recomputed if the student completes a flight course before the estimated completion date except as provided in this subparagraph.

9. *Entitlement Accounting for Post-Delimiting-Date Loans.*

a. As in the case of institutional training, the Authorization activity must maintain a record of remaining entitlement used to establish loan eligibility. The entitlement remaining at the student's delimiting date will be reduced after payment of each loan by an amount equal to the number of months of entitlement that would be charged if the student had received reimbusement based on the rate of $302 (effective 10/1/80) and $317 (effective 1/1/81) during the period to which the loan applies.

b. For example, if the loan period is established as of January 10, 1981 through March 31, 1981, for course charges of $6,000, the entitlement remaining to establish additional loan eligibility would be reduced by the amount of entitlement that would be charged on $3,600 (60% of $6,000). The entitlement is computed as follows: $3,600 ÷ $317 = 11.3565 or 11.25 mos. ent. chg. (round down to next lowest quarter month).

c. Entitlement charges for loan purposes normally will not be adjusted if the reimburseable charges are actually less than originally estimated. However, entitlement may be adjusted if the actual charges are less than estimated and if the loan for that period is fully repaid.

10. *Processing Loan Payments.*

a. Loan payments for flight training as in the case of institutional training, will be drawn in favor of the veteran and mailed to the flight school. The school will then deliver the check to the student as soon as practicable after it is received and certify to the VA that the check has been delivered.

b. The school will use VA Form 4–5220a, Certification of Delivery of Education Loan Payment, to verify that it delivered the loan payment to the veteran. This form will be mailed to the flight school with the loan payment. When the school delivers the loan payment to the veteran, the certifying official will verify this fact on the VA Form 4–5220a. The school will retain a copy of the certification for their records and will return the original to the VA regional office at the address shown on the certification.

c. The delivery of the loan payment by the school and the certification of the delivery will entitle the school to the advance payment reporting fee.

d. If a school does not choose to deliver loan payment checks, or if it is determined that the school cannot satisfactorily care for and deliver them, the loan payment checks will be mailed directly to the student.

11. *Loan Repayment.*

a. The grace period for repayment will begin when flight training is terminated or the date of last training, whichever is earlier. Further, if during any 3-month period, the veteran completes less than 10 hours of training (flight time, ground school, or a combination of both), the grace period will begin at the end of the third month. The Finance activity will review flight certifications monthly to determine whether or not repayment can be deferred. If the student is not receiving education benefits but has been granted an education loan, the flight school should continue to submit monthly flight certifications to the Finance activity for that student. Such certifications should be clearly marked "EDUCATION LOAN ONLY." Repayment will be deferred if the veteran continues in flight training beyond the loan period or enrolls in another type of approved training on a half-time or greater basis.

b. The Promissory Note, VA Form 22–8726, and FL 22–891 indicate that the period for repayment will not commence until the student reduces attendance to less than half time. Until these forms are revised, indicate on the FL 22–891 or other dictated letter which is sent as cover letter to the Promissory Note that repayment of the loan will begin 9 months after flight training is terminated or at the end of a 3-month period if less than 10 hours of flight training are completed.

12. *Statistics.*

a. The following items will be added to the VA Education Loans report (RCS 22–10):

(1) Number of flight training loan applications received during current quarter;

(2) Number of flight training loan applications approved during current quarter;

(3) Number of flight training loan applications denied during current quarters;

(4) Number of post-delimiting-date flight training loan applications received during current quarter;

(5) Number of post-delimiting-date flight training loan applications approved during current quarter; and

(6) Number of post-delimiting-date flight training loan applications denied during current quarter.

b. The number of flight loan applications will not be included in the statistics now reported for applications for institutional training in the RCS 22–10.

c. The number of post-delimiting-date flight training loan application (items (4)–(6) above) will not be included in the statistics for the number of other flight training loan applications (items (1)–(3) above).

d. The statistics for loans for flight training for the quarter ending December 31, 1980, should be delayed and reported along with the statistics for loans for the quarter ending March 31, 1981. However, stations will report statistics for flight training loans for the quarter ending December 31, 1980, separately from the statistics for flight training loans for the quarter ending March 31, 1981.

13. *Information to Accompany Aplication.* Until a revised application is published to accommodate loan applications for flight training, the adjudicator or education clerk will ensure that the following information and instructions relating to flight training are provided with loan applications:

a. Instruction 2A: Inform the applicant that to be eligible for an education loan, he/she must be receiving or eligible to receive VA education benefits for reimbursement at 60% of authorized charges for enrollment in an approved flight course.

b. If the applicant's delimiting date has expired or will expire within a short time, he/she should be informed of the requirements for post-delimiting-date loans as explained in paragraph 4b of this circular.

c. Instruction 2C(1): A loan cannot be granted in an amount to exceed the applicant's months of entitlement remaining as of the beginning date of the loan period multiplied by $302 effective October 1, 1980, and $317 effective January 1, 1981.

d. Instruction 2C(3): For a flight course the maximum loan period for a single loan is 6 months although the applicant may reapply for a subsequent loan for the same course if the course has not been completed within 6 months or is scheduled to last for more than 6 months.

e. Instruction 2C(3)(B): The maximum loan amount is $270 per month of enrollment for loan periods of less than 6 months. For a loan period of 6 months, the maximum is $1,660.

f. Instruction 3A–Item 9: Inform the Applicant to indicate "Flight" in this item. In item 9f, indicate the period for which the loan is requested, but not to exceed 6 months.

g. Instruction 4–Item 15A: The school will also provide the name of the course for which the loan is to apply.

h. Instruction 4–Items 15B and D: These items need not be completed.

i. Instruction 4–Item 15C: The school will indicate the beginning date of the flight course and the date the applicant is expected to complete the course.

j. Instruction 4–Item 15E: Request the school to provide the total charges for flight training that the applicant is expected to incur for the course. The items for "Room and Board" should be completed only if the school provides and charges for room and/or board. The amounts for total charges for flight training and for room and/or board will be reported for the entire course, not for the loan period indicated in item 9f.

14. *Responsibilities of Education Liaison Representatives.* Education Liaison Representatives should inform flight schools of the provisions of this appendix. Particularly they should assist flight schools in developing the evidence on course length and on waiver of the course length requirement specified in paragraph 5.

Dorothy L Starbuck,

Chief Benefits Director.

BILLING CODE 8320-01-M

Fort Snelling National Cemetery, St. Paul, Minnesota; Finding of No Significant Impact

The Veterans Administration (VA) has assessed the potential cumulative environmental impacts that may occur as a result of the implementation of various projects included in the conceptual master plan for the Fort Snelling National Cemetery, St. Paul, Minnesota.

The conceptual master plan includes projects to develop more gravesite area, refine the entrance gate, provide an administration/service building complex and upgrade the landscape and grounds maintenance. These projects will be phased in design and constructon over a several year span. As the master plan is conceptual in scope, the individual projects are not totally designed and each is flexible in terms of exact size, location and timing.

Long term impacts associated with the implementation of the master plan include the development of approximately 300 acres acquired from the U.S. Army. This site existed as an unutilized/abandoned military installation, so in effect the VA is recycling existing Federal property. The National Cemetery will be carefully designed to provide a sensitive setting for the burial of eligible veterans and their dependents.

Short term impacts associated with this proposed development will include the impacts related to construction; air-borne particulates, noise, erosion, traffic and visual impacts. These temporary impacts will be mitigated through the application of the VA's environmental protection construction specification. These specifications will require the contractor to provide measures to eliminate or reduce soil erosion through proper engineering techniques, maintain equipment at proper levels to insure against excessive engine emissions and noise, control dust, and maintain the construction site in a professional condition to eliminate negative visual impacts.

The significance of the identified impacts has been evaluated relative to the considerations of both context and intensity, as defined by the Council on Environmental Quality (40 CFR 1508.27).

This Environmental Assessment has been performed in accordance with the requirements of the National Environmental Policy Act Regulations, Sections 1501.3 and 1508.9, Title 40, Code of Federal Regulations. A "Finding of No Significant Impact" has been reached based on the information presented in this assessment.

The assessment is being placed for public examination at the Veterans Administration, Washington, DC. Persons wishing to examine a copy of the document may do so at the following office: Mr. Willard Sitler, P.E., Director, Office of Environmental Affairs (003A), Room 950, Veterans Administration, 1425 K Street, NW, Washington, DC, (202) 389-2526. Questions or requests for single copies of the Environmental Assessment may be addressed to: Director, Office of Environmental Affairs (003A), 810 Vermont Avenue, NW, Washington, DC 20420.

Dated: June 2, 1981.

Donald L. Custis,

Acting Administrator.

FEDERAL ENERGY REGULATORY COMMISSION.

June 3, 1981.

TIME AND DATE: 10 a.m., June 10, 1981.

PLACE: Room 9306, 825 North Capitol Street, N.E., Washington, D.C. 20426.

STATUS: Open.

MATTERS TO BE CONSIDERED: Agenda.

Note.—Items listed on the agenda may be deleted without further notice.

CONTACT PERSON FOR MORE INFORMATION: Kenneth F. Plumb, Secretary; telephone (202) 357-8400.

This is a list of matters to be considered by the Commission. It does not include a listing of all papers relevant to the items on the agenda; however, all public documents may be examined in the Division of Public Information.

The consent agendas, power and miscellaneous agendas will be considered on Wednesday June 10, 1981. The gas agenda will be considered on Thursday June 11, 1981.

Consent Power Agenda—492nd Meeting, June 10, 1981, Regular Meeting (10 a.m.)

NATIONAL CREDIT UNION ADMINISTRATION.

TIME AND DATE: 9:30 a.m., Thursday, June 11, 1981.

PLACE: Seventh floor board room, 1776 G Street N.W., Washington, D.C.

STATUS: Open.

MATTERS TO BE CONSIDERED:

1. Review of Central Liquidity Facility Lending Rate.
2. Proposed deregulation of Sections 701.21–1, 701.21–2 and 701.21–3 of the NCUA Rules and Regulations regarding lending policies, amortization and payment of loans and lines of credit.
3. Proposed regulation—Section 701.21–3A to the NCUA Rules and Regulations regarding business relationship with line of credit lender.
4. Proposed amendments to Section 701.21–6 of the NCUA Rules and Regulations: real estate lending including use of due on sale clauses.
5. Proposed dergulation of Section 701.21–7 of the NCUA Rules and Regulations regarding loan participation.
6. Proposed regulation—Section 701.21–6B to the NCUA Rules and Regulations regarding adjustable rate mortgages.
7. Requests for assistance for three CDCUs under Section 705 of the NCUA Rules and Regulations—Community Development Credit Union Program.
8. Proposed regulation—Section 748 to the NCUA Rules and Regulations regarding minimum security devices and procedures.
9. Proposed policy on merger assistance under Section 208(a)(2) of the Federal Credit Union Act.
10. Report of assistance taken under delegations of authority.
11. Applications for charters, amendments to charters, bylaw amendments, mergers as may be pending at that time.

RECESS: 10:30 a.m.

TIME AND DATE: 10:45 a.m., Thursday, June 11, 1981.

PLACE: Seventh floor board room, 1776 G Street N.W., Washington, D.C.

STATUS: Closed.

MATTERS TO BE CONSIDERED:

1. Administrative adjudication. Closed pursuant to exemptions (8) and (10).
2. Proposed conversion. Closed pursuant to exemptions (8) and (9)(A)(ii).
3. Administrative action under Section 120 of the Federal Credit Union Act. Closed pursuant to exemptions (8) and (9)(A)(II).
4. Administrative action under Section 206 of the Federal Credit Union Act. Closed pursuant to exemptions (8) and (9)(A)(II).
5. Requests from Federally insured credit unions for special assistance under Section 208 of the Federal Credit Union Act. Closed pursuant to exemptions (8) and (9))A)(ii).
6. Requests for merger with special assistance under Section 208 of the Federal Credit Union Act. Closed pursuant to exemptions (8) and (9)(A)(II).

Environmental Protection Agency

Protest of Grantee Procurement Actions Under Grants for Construction of Publicly Owned Treatment Works; Subject Index List of Regional Administrator Protest Determinations Issued During 1980

ENVIRONMENTAL PROTECTION AGENCY

[AS-FRL-1847-4]

Protest of Grantee Procurement Actions Under Grants for Construction of Publicly Owned Treatment Works; Subject Index List of Regional Administrator Protest Determinations Issued During 1980

This notice publishes the 1980 subject index list for EPA Regional Administrator Protest Determinations. these determinations have been made under the EPA protest procedure set forth at 40 CFR 35.939.

This is the fourth EPA subject index and lists only the bid protest determinations issued during calendar year 1980. The first index, listing Regional Administrator protest determinations issued during the period 1974 through 1977, was published at 43 FR 29086–95 (July 5, 1978). This was supplemented by the index of 1978 protest determinations published at 44 FR 25812–18 (May 2, 1979) and the index of 1979 protest determinations published at 45 FR 58770–74 (September 4, 1980).

In 1980, 80 determinations were issued by EPA Regional Administrators. Each determination has been cited in this subject index by Grantee and State and includes a notation of the EPA Region in which the protest arose, the date of the determination, and the protester's name.

A brief descriptive parenthetical reference has been added to each citation.

Copies of the issued protest determinations may be obtained from any EPA Office of Regional Counsel or from the headquarters source identified below.

Interested parties are invited to submit comments concerning any improvement or correction to the subject index list to Lee DeHihns, Acting Assistant General Counsel, Grants (A–134), Office of General Counsel, United States Environmental Protection Agency, Washington, D.C. 20460. Comments should be made within sixty (60) days of this publication.

FOR FURTHER INFORMATION CONTACT:

Stephen M. Sorett, Esquire, Grants, Contacts, and General Administration Division (A–134); Office of General Counsel, United States Environmental Protection Agency, Washington, D.C. 20460; (202) 755–8108.

Mary Doyle,

Acting General Counsel (A–130).

May 29, 1981.

Ambiguity

1. San Buenaventura, CA (IX, 3–28–80) (A. A. Portanova & Sons) (difference between unit price and extended total).
2. Glennville, GA (IV, 4–4–80) (J. W. Meadors and Company) (unsolicited discount).
3. Port Austin Area Water and Sewer Atuhority, MI (V, 7–2–80) (Amado Cardenas, d/b/a Nashville Excavating Company) (MBE efforts prior to bidding).
4. Newaygo County Board of Public Works, MI (V, 7–21–80) (M. D. Taddie & Company, Inc.) (discount applied to single contract).
5. Rochester, MN (V, 7–24–80) (Darin & Armstrong, Inc.; Kraus-Anderson/PMW Construction; Newberg, Foster & Paschen; Premier Electric Corporation) (MBE effort prior to bidding).
6. Newaygo County Board of Public Works, MI (V, 7–28–80) (R. S. Bennett & Company) (prequalified equipment to comply with specifications).
7. Ashley Valley Sewer Management Board, UT (VIII, 11–20–80) (Western Utility Contractors, Inc.) (difference between unit price and extended total).

A/E Procurement

1. Northwest Bergen County Sewer Authority, NJ (II, 1–10–80) (URS/MSR Engineers, Inc.) (oral interview, cost submission).
2. Hudson County Utilities Authority, NJ (II, 3–31–80) (E&R Engineers Limited) (time to protest).
3. San Antonio, TX (VI, 7–15–80) (Camp Dresser and McKee, Inc.) (terminate negotiations with initial selectee).
4. Vista Sanitation District/Encina Joint Powers, CA (IX, 7–30–80) (Don Todd Associates) (cost in evaluation).
5. Vista Sanitation District/Encina Joint Powers, CA (IX, 9–19–80) (Don Todd Associates) (reconsideration, reevaluate proposals).
6. Southwest Florida Regional Planning Council [Fort Myers], FL (IV, 12–3–80) (Jones, Edmunds and Associates/Missimer & Associates) (evaluation).

Award—Prime Contract

No entries.

Bid Shopping

1. Hastings, NE (VII, 3–7–80) (Horizon Construction Company; Olson Contruction Company) (failure to list MBE subs).
2. Johnson County, KS (VII, 4–1–80) (Sharp Brothers Contracting Company) (failure to list MBE subs).
3. Tacoma, WA (X, 4–3–80) (Worthington Pump Corporation) (equipment substitution).
4. Glennville, GA (IV, 4–4–80) (J. W. Meadors and Company) (Failure to list suppliers).
5. Port Austin Area Water and Sewer Authority, MI (V, 7–2–80) (Amado Cardenas, d.b.a. Nashville Excavating Company) (failure to list MBE subs).
6. County of Nassau, NY (II, 8–7–80) (Komline-Sanderson Engineering Corporation) (substitution for listed equipment).
7. San Jacinto River Authority [Woodlands], TX (VI, 10–3–80) (Industrial Contractors, Inc.) (listing of MBE subs).
8. DuPage County [Department of Public Works], IL (V, 12–15–80) (Paschen Contractors, Inc.) (failure to list subs).
9. Pierce County, WA (X, 12–23–80) (Frank Coluccio Construction Company) (failure to list subs).

Bids

A. Late

No entries.

B. Modification

1. Monmouth, OR (X, 8–21–80) (Chinook Pacific Corporation) (limiting time to accept bid).

C. Unbalanced

1. Glennville, GA (IV, 4–4–80) (J. W. Meadors and Company) (not automatically rejected).
2. Branford, CT (I, 5–28–80) (C. H. Nickerson & Co.) (zero unit price deduct).

Bonds

1. Norwich, CT (I, 2–1–80) (Fantoni Company) (bid bond not signed by principal).
2. Cecil County, MD (III, 8–11–80) (Hanks Contracting, Inc.) (bid bond not submitted).
3. Pierce County, WA (X, 12–23–80) (Frank Coluccio Construction Company) (bid bond as a percentage of bid).

Burden of Proof

1. DeKalb County, GA (IV, 2–29–80) (Southeast Grading, Inc.) (on procurement agency in award to other than low bidder).
2. Cordele, GA (IV, 5–1–80) (Franklin Aluminum Division/Hoover Universal, Inc.) (on protester in restrictive specification claim).
3. Clarksville, TN (IV, 6–5–80) (Penetryn Systems, Inc.) (on procurement agency if low bidder is nonresponsive).
4. Ashley Valley Sewer Management Board, UT (VIII, 11–20–80) (Western Utility Contractors, Inc.) (on protester to show violation of procurement principles).

Buy American Act Requirements

No entries.

Choice of Law

A. General

No entries.

B. Fundamental Federal Procurement Principles

1. Colfax Public Service District, WV (III, 8–29–80) (Salerno Brothers, Inc.) (bid rejection for failure to acknowledge wage rate addendum).
2. Alma, NE (VII, 9–4–80) (William Anderson Company, Inc.) (bidders advised of basis for evaluation).

C. GAO Decisions—Effect of

1. Norwich, CT (I, 2–1–80) (Fantoni Company) (absence of state law).

D. State Law

1. Mount Holly Sewerage Authority, NJ (II, 2–6–80) (Neshaminy Constructors, Inc.) (State Court action).
2. Metropolitan Sanitary District of Greater Chicago, IL (V, 2–27–80) (Shea-Kiewit) (post-award contract claim).
3. Hastings, NE (VII, 3–7–80) (Horizon Construction Company; Olson Construction Company) (State Open Meeting law).
4. Whiteville, NC (IV, 3–26–80) (Astor Bolden Enterprises, Inc. T/A Quality Sanitary Services Co.) (contractor bidding license, number of bids).
5. Sacramento Regional County Sanitation District, CA (IX, 5–9–80) (Burdick Contractors, Inc.) (state law on bid mistake).
6. Monmouth, OR (X, 8–21–80) (Chinook Pacific Corporation) (bid withdrawal).
7. Colfax Public Service District, WV (III, 6–29–80) (Salerno Brothers, Inc.) (state law does not require award to low bidder).
8. Northeast Ohio Regional Sewer District, OH (V, 9–4–80) (D. E. Williams Electric, Inc.) (relief for bid mistake).
9. Ashley Valley Sewer Management Board, UT (VIII, 11–20–80) (Western Utility Contractors, Inc.) (correction of error in unit price).
10. Ashley Valley Sewer Management Board, UT (VIII, 11–26–80) (Van Staveren Construction, Inc.) (state license, dollar bid amount).
11. Pierce County, WA (X, 12–23–80) (Frank Coluccio Construction Company) (reversal of decision to reject bids).

Competition

A. General

1. Odessa, TX (VI, 2–4–80) (Gifford-Hill and Company) (single pipe material).
2. Tolleson, AZ (IX, 3–17–80) (Hydro Conduit Corporation) (single pipe material).
3. Northeast Ohio Regional Sewer District, OH (V, 10–14–80) (ICI Americas, Inc.) (single material for carbon columns).

B. De Facto

1. Alma, NE (VII, 9–4–80) (William Anderson Company, Inc.) (4 of 8 bidders bid no charge for sealant).

C. Free and Open

1. Cordele, GA (IV, 4–10–80) (Ralph Healey & Associates, Inc.) (manufacturers only).

Conflict of Interest

1. Southwest Florida Regional Planning Council (Fort Myers), FL (IV, 12–3–80) (Jones, Edmunds and Associates/Missimer & Associates) (A/E with contracts to assess and to inspect seawalls).

Davis-Bacon Act

No entries.

Deferral of Procurement Action

No entries.

Descriptive Literature Requirement

No entries.

Enforcement

1. St. Petersburg, FL (IV, 1–10–80) (Municipal and Industrial Pipe Services, Ltd.) (limiting grant eligibility in rebidding).
2. Checotah, OK (VI, 6–16–80) (Sherman Machine and Iron Works, Inc.) (limiting additional cost if equipment reprocured).

Engineering Judgment

1. East Bay Dischargers Authority, CA (IX, 1–30–80) (Capital Controls Company) (rational basis to reject proposed equal).
2. Odessa, TX (VI, 2–4–80) (Gifford-Hill and Company) (rational basis for single material).
3. Whitehall, NY (II, 2–5–80) (Davis Water & Waste Industries, Inc.) (salient requirement to meet minimum need).
4. Tolleson, AZ (IX, 3–17–80) (Hydro Conduit Corporation) (justification for single material).
5. Puyallup, WA (X, 4–24–80) (Rodding-Cleaning Machines, Inc.) (requirement based on performance need).
6. Moorhead, MN (V, 6–3–80) (Waldor Pump & Equipment Company) (consultant's judgment to be rationally based).
7. Clarksville, TN (IV, 6–5–80) (Penetryn Systems, Inc.) (justification for single material).
8. County Sanitation Districts of Los Angeles County, CA (IX, 6–26–80) (Ingersoll-Rand Co.) (rational performance related basis).
9. Richmond, VA (III, 7–1–80) (Lane Construction Company; Clevepak Corporation) (equipment rejection for performance needs has rational basis).
10. Northeast Ohio Regional Sewer District, OH (V, 10–14–80) (ICI Americas, Inc.) (single material requirement has rational basis).

E.E.O.

No entries.

Evaluation of Bids

1. Mount Holly Sewerage Authority, NJ (II, 2–6–80) (Neshaminy Constructors, Inc.) (deletion of alternate item).
2. Tacoma, WA (X, 4–3–80) (Worthington Pump Corporation) (acceptance of equipment of different size).
3. Soldotna, AK (X, 4–25–80) (Interstate Company) (MBE documents as to positive efforts).
4. Branford, CT (I, 5–28–80) (C. H. Nickerson & Co.) (zero unit price, identical price for alternates).
5. Moorhead, MN (V, 6–3–80) (Waldor Pump & Equipment Company) (cost and performance basis).
6. Newaygo County Board of Public Works, MI (V, 7–21–80) (M. D. Taddie & Company, Inc.) (discount).
7. Newaygo County Board of Public Works, MI (V, 7–28–80) (R. S. Bennett & Company) (equipment efficiency and operating costs).

Experience Requirements

1. Orange County Sanitation Districts of Orange County, CA (IX, 5–22–80) (Ralph B. Carter Co.; Komline-Sanderson Engineering Corp.) (experience as prequalification factor).

Finality of Administrative Determinations

No entries.

Formal Advertising

No entries.

Grantee Responsibilities

1. Nashville, MI (V, 10–24–80) (Clark Construction Company) (MBE goals, investigation of MBE status).

Innovative and Alternative Technology

No entries.

Judicially Directed Review

No entries.

Jurisdiction

1. Pima County, AZ (IX, 2–20–80) (Ameron) (change order).
2. Metropolitan Sanitary District of Greater Chicago, IL (V, 2–27–80) (Shea-Kiewit) (change order).
3. Suffolk County, NY (II, 3–3–80) (Davis Construction Corp.) (retainage).
4. Metropolitan Sanitary Disrict of Greater Chicago, IL (V, 3–7–80) (Joint Venture of Pora Construction Company and Minority-Majority Construction Company) (delay claim).
5. Metropolitan Sanitary District of Greater Chicago, IL (V, 3–27–80) (Herlihy Mid-Continent Company) (claims).
6. Northwest Bergen County Sewer Authority, NJ (II, 5–5–80) (Interpace Corporation) (contract interpretation).
7. Portland, OR (X, 6–12–80) (Robbins & Myers, Inc.) (change order).
8. County of Nassau, NY (II, 6–7–80) (Komline-Sanderson Engineering Corporation) (equipment substitution).
9. Portland, OR (X, 6–7–80) (Robbins & Myers, Inc.) (change order).
10. Northeast Ohio Regional Sewer District, OH (V, 9–4–80) (D. E. Williams Electric, Inc.) (State law as to remedy for bid mistake).

Minority Business Enterprise

1. DeKalb County, GA (IV, 2–29–80) (Southeast Grading, Inc.) (good faith negotiations).
2. Hastings, NE (VII, 3–7–80) (Horizon Construction Company; Olson Construction Company) (falure to list MBE subs is curable).
3. Johnson County, KS (VII, 4–1–80) (Sharp Brothers Contracting Company) (failure to list MBE subs is curable).
4. Huntsville, TX (VI, 4–18–80) (Angleton General Mechanical, Inc.) (failure to furnish documentation of positive efforts is curable).
5. Burlingame, CA (IX, 4–25–80) (Pat Kennelly Construction Company) (failure to contact assistance center can be waived).
6. Soldotna, AK (X, 4–25–80) (Interstate Company) (failure to file MBE for with bid is curable).
7. Port Austin Area Water and Sewer Authority, MI (V, 7–2–80) (Amado Cardenas, d.b.a. Nashville Excavating Company) (specifications ambiguous in requiring positive efforts prior to bidding).
8. Rochester, MN (V, 7–24–80) (Darin & Armstrong, Inc.; Kraus-Anderson/PMW Construction; Newberg, Foster & Paschen; Premier Electric Construction) (specifications ambiguous in requiring positive efforts prior to bidding).
9. Toledo, OH (V, 7–28–80) (Minority Earth Movers, Inc.) (MBE policy does not extend to WBE).

10. Rockford, MI (V, 8–1–80) (Nagel Construction, Inc.; Interstate Pipe Maintenance, Inc.; Clytus Industries, Inc.) (timeliness).

11. Albert Lea, MN (V, 9–18–80) (Orvedahl Construction, Inc.; Centennial Contractors Corp.; Johnson Brothers Corp.) (Grantee can make responsiveness dependent on pre-bid positive efforts).

12. San Jacinto River Authority [Woodlands], TX (VI, 10–3–80) (Industrial Contractors, Inc.) (goal attainment or positive efforts go to responsibility).

13. Nashville, MI (V, 10–24–80) (Clark Construction Company) (grantee can make MBE data a matter of responsiveness).

14. Webster, TX (VI, 10–31–80) (LEM Construction Company, Inc.) (positive efforts).

15. DuPage County [Department of Public Works], IL (V, 12–15–80) (Paschen Contractors, Inc.) (positive efforts).

16. Pierce County, WA (X, 12–23–80) (Frank Coluccio Construction Company) (MBE documentation as responsibility factor).

17. Bear Creek Valley Sanitary Authority, OR (X, 12–24–80) (Ausland Construction, Inc.) (post-bid efforts to meet MBE goals).

18. Clear Lake City, TX (VI, 12–29–80) (LEM Construction Co., Inc.) (MBE documentation is responsibility factor).

Mistake

1. San Buenaventura, CA (IX, 3–28–80) (A. A. Portanova & Sons) (unit price corrected).

2. Sacramento Regional County Sanitation District, CA (IX, 5–9–80) (Burdick Contractors, Inc.) (State law).

3. Marquette County, MI (V, 8–14–80) (Brumm Construction Company; O'Dovero Construction Company) (change order to cover bid mistake).

4. Northeast Ohio Regional Sewer District, OH (V, 9–4–80) (D. E. Williams Electric, Inc.) (upward adjustment relief as State law issue).

5. Ashley Valley Sewer Management Board, UT (VIII, 11–20–80) (Western Utility Contractors, Inc.) (unit price corrected).

Negotiated Procurement

No entries.

Nonrestrictive Specifications

1. Cordele, GA (IV, 1–15–80) (Tuttle/White Constructors, Inc.) (manufacturers only).

2. East Bay Dischargers Authority, CA (IX, 1–30–80) (Capital Control Company) (rejection of equipment).

3. Whitehall, NY (II, 2–5–80) (Davis Water & Waste Industries, Inc.) (pump lacks salient feature).

4. Fall River, MA (I, 2–13–80) (Passavant Corporation) (manufacturers only).

5. Anne Arundel County, MD (III, 2–13–80) (Sabatini Company) (pipe).

6. Tolleson, AZ (IX, 3–17–80) (Hydro Conduit Corporation) (pipe).

7. Cordele, GA (IV, 4–10–80) (Ralph Healey & Associates, Inc.) (manufacturers only).

8. Puyallup, WA (X, 4–24–80) (Rodding—Cleaning Machines, Inc.) (performance requirement).

9. Little Rock, AR (VI, 4–29–80) (Autotrol Corporation) (performance specifications).

10. Cordele, GA (IV, 5–1–80) (Franklin Aluminum Division/Hoover Universal, Inc.) (protester has burden of proof).

11. Northwest Bergen County Sewer Authority, NJ (II, 5–5–80) (New Holland Newcrete Products Division of New Enterprise Stone & Lime Co.) (national standards).

12. Clarksville, TN (IV, 6–5–80) (Penetryn Systems, Inc.) (single grout material).

13. Checotah, OK (VI, 6–18–80) (Sherman Machine and Iron Works, Inc.) (performance needs).

14. County Sanitation Districts of Los Angeles County, CA (IX, 6–26–80) (Ingersoll-Rand Co.) (cost effectiveness, equipment life).

15. Richmond, VA (III, 7–1–80) (Lane Construction Company; Clevepak Corporation) (performance requirements).

16. Northeast Ohio Regional Sewer District, OH (V, 10–14–80) (ICI Americas, Inc.) (single material).

Patents

No entries.

Prequalification

1. Fall River, MA (I, 2–8–80) (Performance Systems, Inc.) (sludge filter press).

2. Orange County Sanitation Districts of Orange County, CA (IX, 5–22–80) (Ralph B. Carter Co.; Euramca, Inc.; Komline-Sanderson Engineering Corp.) (belt filter press).

3. Newaygo County Board of Public Works, MI (V, 7–28–80) (R. S. Bennett & Company) (pumps).

Procedure

1. Fall River, MA (I, 2–13–80) (Passavant Corporation) (notice to others).

2. Anne Arundel County, MD (III, 2–13–80) (Sabatini Company) (moot, premature, readvertise).

3. DeKalb County, GA (IV, 2–29–80) (Southeast Grading, Inc.) (authority to award before resolution of subcontract protests, notice to others).

4. Tolleson, AZ (IX, 3–17–80) (Hydro Conduit Corporation) (short notice of protest hearing, notice to others).

5. Whiteville, NC (IV, 3–26–80) (Astor Bolden Enterprises, Inc. T/A. Quality Sanitary Services, Inc.) (failure to state basis, notice to others).

6. Soldotna, AK (X, 4–25–80) (Interstate Company) (grantee's hearing procedure).

7. Little Rock, AR (VI, 4–29–80) (Autotrol Corporation) (notice to others, raising new issues at EPA review).

8. Orange County Sanitation Districts of Orange County, CA (IX, 5–22–80) (Ralph B. Carter Co.; Komline-Sanderson Engineering Corp.) (time limits to present evidence).

Program Integrity

No entries.

Rational Basis Test

1. East Bay Dischargers Authority, CA (IX, 1–30–80) (Capital Control Company) (equipment fails to meet salient requirements).

2. Fall River, MA (I, 2–13–80) (Passavant Corporation) (no performance related rational basis for manufacturers only).

3. Cordele, GA (IV, 4–10–80) (Ralph Healey & Associates, Inc.) (no rational basis for manufacturers only).

4. Puyallup, WA (X, 4–24–80) (Rodding-Cleaning Machines, Inc.) (rational basis to require specific method of mixing grout).

5. Orange County Sanitation Districts of Orange County, CA (IX, 5–22–80) (Ralph B. Carter Co.; Komline-Sanderson Engineering Corp.) (high quality specifications had rational basis).

6. County Sanitation Districts of Los Angeles County, CA (IX, 6–26–80) (Ingersoll-Rand Co.) (hard abrasive surface for centrifuge had rational basis).

7. Vista Sanitation District/Encina Joint Powers, CA (IX, 7–30–80) (Don Todd Associates) (evaluation of engineering qualifications had rational basis).

8. Ashley Valley Sewer Management Board, UT (VIII, 11–20–80) (Western Utility Contractors, Inc.) (correction of unit price mistake had rational basis).

Reconsideration of Administrative Determinations

1. Pima County, AZ (IX, 3–17–80) (Ameron) (denied if issue is not protestable).

2. Checotah, OK (VI, 7–25–80) (Sherman Machine and Iron Works, Inc. [*Per* Lakeside Equipment Corporation]) (denied if no material factual mistake, new evidence or legal error).

3. Portland, OR (X, 8–7–80) (Robbins & Myers, Inc.) (decision affirmed when no material error of law or fact).

4. Vista Sanitation District/Encina Joint Powers, CA (IX, 9–19–80) (Don Todd Associates) (without new evidence or arguments, no reconsideration to require new RFP rather than new evaluation of prior RFP).

Rejection of All Bids

1. St. Petersburg, FL (IV, 1–10–80) (Municipal and Industrial Pipe Services, Ltd.) (Grantee's financial situation, limit federal share).

2. Anne Arundel County, MD (III, 2–13–80) (Sabatini Company) (specifications restrictive).

3. Port Austin Area Water and Sewer Authority, MI (V, 7–2–80) (Amado Cardenas, d.b.a. Nashville Excavating Company) (RA directed, ambiguous MBE specifications).

4. Newaygo County Board of Public Works, MI (V, 7–21–80) (M.D. Taddie & Company, Inc.) (no adverse effect of bid form ambiguity).

5. Rochester, MN (V, 7–24–80) (Darin & Armstrong, Inc.; Kraus-Anderson/PMW Construction; Newberg, Foster & Paschen; Premier Electric Construction) (RA directed, ambiguous MBE specifications).

6. Newaygo County Bord of Public Works, MI (V, 7–28–80) (R.S. Bennett & Company) (RA directed, ambiguous MBE specifications).

Responsibility (see also *Responsiveness*)

1. Huntsville, TX (VI, 7–8–80) (Angleton General Mechanical, Inc.) (prior performance).

2. Webster, TX (VI, 10–31–80) (LEM Construction Company, Inc.) (positive MBE efforts).

Responsiveness

1. Norwich, CT (I, 2–1–80) (Fantoni Company) (authority to sign bid, bid bond not signed by principal).

2. Hastings, NE (VIII, 3–7–80) (Horizon Construction Company; Olson Construction Company) (bidder cannot offer different warranty).
3. Johnson County, KS (VII, 4–1–80) (Sharp Brothers Contracting Company) (MBE sub listing).
4. Tacoma, WA (X, 4–3–80) (Worthington Pump Corporation) (pump dimensions differing from specifications).
5. Glennville, GA (IV, 4–4–80) (J.W. Meadors and Company) (discount offer, sub listing).
6. Huntsville, TX (VI, 4–18–81) (Angleton General Mechanical, Inc.) (MBE documentation of positive efforts).
7. Soldotna, AK (X, 4–25–80) (Interstate Company) (MBE documentation).
8. Northwest Bergen County Sewer Authority, NJ (II, 5–5–80) (R.J. Longo Construction Co.) (failure to identify type of pipe to be used).
9. Sacramento Regional County Sanitation District, CA (IX, 5–9–80) (Burdick Contractors, Inc.) (acceptance of part of combination bid).
10. Branford, CT (I, 5–28–80) (C.H. Nickerson & Co.) (zero unit price, identical price for alternatives).
11. Clarksville, TN (IV, 6–5–80) (Penetryn Systems, Inc.) (compliance with specifications).
12. Port Austin Area Water and Sewer Authority, MI (V, 7–2–80) (Amado Cardenas, d.b.a. Nashville Excavating Company) (MBE sub listing).
13. Newaygo County Board of Public Works, MI (V, 7–21–80) (M.D. Taddie & Company, Inc.) (discount offer).
14. Rochester, MN (V, 7–24–80) (Darin & Armstrong, Inc.; Kraus-Anderson/PMW Construction; Newberg, Foster & Paschen; Premier Electric Construction) (MBE sub listing).
15. Newaygo County Board of Public Works, MI (V, 7–28–80) (R.S. Bennett & Company) (prequalified equipment not meeting specifications, efficiency guarantee).
16. Rockford, MI (V, 8–1–80) (Nagel Construction, Inc.; Interstate Pipe Maintenance, Inc.; Clytus Industries, Inc.) (MBE documentation).
17. Cecil County, MD (III, 8–11–80) (Hanks Contracting, Inc.) (need for bid bond).
18. Monmouth, OR (X, 8–21–80) (Chinook Pacific Corporation) (conditional bid, limiting bid acceptance time).
19. Colfax Public Service District, WV (III, 8–29–80) (Salerno Brothers, Inc.) (failure to acknowledge addendum).
20. Alma, NE (VIII, 9–4–80) (William Anderson Company, Inc.) (bid of "free" for bid item).
21. Albert Lea, MN (V, 9–18–80) (Orvedahl Construction, Inc.; Centennial Contractors Corp.; Johnson Brothers, Corp.) (MBE documentation).
22. San Jacinto River Authority [Woodlands], TX (VI, 10–3–80) (Industrial Contractors, Inc.) (failure to attain MBE goal).
23. Nashville, MI (V, 10–24–80) (Clark Construction Company) (MBE documentation).
24. DuPage County [Department of Public Works], IL (V, 12–15–80) (Paschen Contractors, Inc.) (MBE documentation).
25. Pierce County, WA (X, 12–23–80) (Frank Coluccio Construction Company) (MBE sub listing).
26. Clear Lake City, TX (VI, 12–29–80) (LEM Construction Co., Inc.) (MBE documentation).

No entries.

Salient Requirements

1. Cordele, GA (IV, 1–15–80) (Tuttle/White Constructors, Inc.) (manufacturers only not performance related).
2. East Bay Dischargers Authority, CA (IX, 1–30–80) (Capital Controls Company) (equipment will not satisfy needs).
3. Whitehall, NY (II, 2–5–80) (Davis Water & Waste Industries, Inc.) (metal connection was needed performance characteristic).
4. County Sanitation Districts of Los Angeles County, CA (IX, 6–26–80) (Ingersoll-Rand Co.) (hard surface abrasive requirement decreased maintenance cost).

Small Business

No entries.

Sole Source

1. Tacoma, WA (X, 4–3–80) (Worthington Pump Corporation) (not sole source if available from protester).

Specifications

No entries.

Standing

1. East Bay Dischargers Authority, CA (IX, 1–30–80) (Capital Controls Company) (supplier).
2. Tacoma, WA (X, 4–3–80) (Worthington Pump Corporation) (supplier alleging sole source).
3. Cordele, GA (IV, 5–1–80) (Franklin Aluminum Division/Hoover Universal, Inc.) (supplier alleging restrictive specifications).
4. Moorhead, MN (V, 6–3–80) (Waldor Pump & Equipment Company) (supplier's standing can be recognized by RA).

Sua Sponte Review

1. Cordele, GA (IV, 1–15–80) (Tuttle/White Constructors, Inc.) (restrictive specifications).
2. Tacoma, WA (X, 4–3–80) (Worthington Pump Corporation) (bid evaluation).
3. Moorhead, MN (V, 6–3–80) (Waldor Pump & Equipment Company) (bid evaluation on cost and performance basis).
4. Checotah, OK (IV, 7–25–80) (Sherman Machine and Iron Works, Inc.) (decision need not be based on parties' arguments).
5. Toledo, OH (V, 7–28–80) (Minority Earth Movers, Inc.) (WBE is not MBE).
6. Bear Creek Valley Sanitary Authority, OR (X, 12–24–80) (Ausland Construction, Inc.) (MBE efforts).

Subcontracts—Award

1. Tacoma, WA (X, 4–3–80) (Worthington Pump Corporation) (cancellation of subcontract).
2. Moorhead, MN (V, 6–3–80) (Waldor Pump & Equipment Company) (cost savings in alternate bid).
3. County of Nassau, NY (II, 8–7–80) (Komline-Sanderson Engineering Corporation) (supplier obtains no protest rights by being listed).

Summary Disposition

1. Anne Arundel County, MD (III, 2–13–80) (Sabatini Company) (moot or premature protest).
2. Pima County, AZ (IX, 2–20–80) (Ameron) (change order).
3. Metropolitan Sanitary District of Greater Chicago, IL (V, 2–27–80) (Shea-Kiewit) (unit price claim).
4. Metropolitan Sanitary District of Greater Chicago, IL (V, 3–27–80) (Herlihy Mid-Contient Company) (contract claim).
5. Hudson County Utilities Authority, NJ (II, 3–31–80) (E&R Engineers Limited) (untimely).
6. Moorhead, MN (V, 6–3–80) (Waldor Pump & Equipment Company) (lengthy submittals preclude dismissal).
7. Cecil County, MD (III, 8–11–80) (Hanks Contracting, Inc.) (untimely, lack of bid bond).
8. Whitewater, WI (V, 9–22–80) (Nagle-Hart, Inc.) (untimely).
9. Linden Roselle Sewerage Authority, NJ (II, 10–31–80) (Euramca Ecosystems, Inc.) (untimely).
10. Clear Lake City, TX (VI, 12–29–80) (LEM Construction Co., Inc.) (MBE compliance affects responsibility).

Time Limitations

1. Cordele, GA (IV, 1–15–80) (Tuttle/White Constructors Inc.) (written notice to supplier of rejection).
2. Fall River, MA (I, 2–13–80) (Passavant Corporation) (delay aggravated by grantee and EPA).
3. Hudson County Utilities Authority, NJ (II, 3–31–80) (E&R Engineers Limited) (one week to protest and to appeal).
4. Tacoma, WA (X, 4–3–80) (Worthington Pump Corporation) (oral notice of rejection).
5. Little Rock, AR (VI, 4–29–80) (Autotrol Corporation) (before bid opening).
6. Rochester, MN (V, 7–24–80) (Darin & Armstrong, Inc.; Kraus-Anderson/PMW Construction; Newberg, Foster & Paschem; Premier Electric Construction) (notice).
7. Toledo, OH (V, 7–28–80) (Minority Earth Movers, Inc.) (seeking clarification before filing protest).
8. Rockford, MI (V, 8–1–80) (Nagle Construction, Inc.; Interstate Pipe Maintenance, Inc.; Clytus Industries, Inc.) (RA refusal to waive one week appeal limit).
9. Cecil County, MD. (III, 8–11–80) (Hanks Contracting, Inc.) (one week to appeal to RA).
10. Marquette County, MI (V, 8–14–80) (Brumm Construction Company; O'Dovero Construction Company) (prompt action on actual knowledge).
11. Whitewater, WI (V, 9–22–80) (Nage-Hart, Inc.) (59 days after bid opening).
12. Linden Roselle Sewerage Authority, NJ (II, 10–31–80) (Euramca Ecosystems, Inc.) (appeal one month after grantee determination).
13. Dorchester County Sanitary Commission, MD (III, 11–5–80) (Andrews, Miller and Associates, Inc.) (9 days after grantee determination).
14. Newaygo County Board of Public Works, MI (V, 11–7–80) (D. J. Domas, Inc.) (failure to file detailed statement).

15. Bear Creek Valley Sanitary Authority, OR (X, 12-24-80) (Ausland Construction, Inc.) (8 days after bid opening).

Waiver

1. Norwich, CT (I, 2-1-80) (Fantoni Company) (failure to sign bid bond).
2. Johnson County, KS (VII, 4-1-80) (Sharp Brothers Contracting Company) (failure to submit MBE forms).
3. Huntsville, TX (VI, 4-18-80) (Angleton General Mechanical, Inc.) (MBE documentation).
4. Northwest Bergen County Sewer Authority, NJ (II, 5-5-80) (R. J. Longo Construction Co.) (failure to cross out pipe not to be used).
5. Monmouth, OR (X, 8-21-80) (Chinook Pacific Corporation) (limiting bid acceptance period and all or none qualification are not waivable).
6. Colfax Public Service District, WV (III, 8-29-80) (Salerno Brothers, Inc.) (failure to acknowledge addendum).

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday).

This is a voluntary program. (See OFR NOTICE 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/SECRETARY	USDA/ASCS		DOT/SECRETARY	USDA/ASCS
DOT/COAST GUARD	USDA/FNS		DOT/COAST GUARD	USDA/FNS
DOT/FAA	USDA/FSQS		DOT/FAA	USDA/FSQS
DOT/FHWA	USDA/REA		DOT/FHWA	USDA/REA
DOT/FRA	MSPB/OPM		DOT/FRA	MSPB/OPM
DOT/NHTSA	LABOR		DOT/NHTSA	LABOR
DOT/RSPA	HHS/FDA		DOT/RSPA	HHS/FDA
DOT/SLSDC			DOT/SLSDC	
DOT/UMTA			DOT/UMTA	
CSA			CSA	

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.
Comments on this program are still invited.
Comments should be submitted to the

Day-of-the-Week Program Coordinator,
Office of the Federal Register,
National Archives and Records Service,
General Services Administration,
Washington, D.C. 20408.

List of Public Laws

Note: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's **List of Public Laws.**

Last Listing May 27, 1981

V 4 6 1 - 0 6 9 J E 8 8 1 - UMI

Advance Orders are now Being Accepted for Delivery in About 6 Weeks

Code of Federal Regulations

Revised as of October 1, 1980

Highlights

30481 **National Safe Boating Week** Presidential proclamation.

30485 **Presidential Task Force on the Arts and the Humanities** Executive order.

30483 **President's Commission on Hostage Compensation** Executive order.

30519 **Food Assistance Program** USDA/FNS announces intent to conduct demonstration project on alternatives to donation of USDA commodities to National School Lunch Program.

30488 **Federal Home Loan Bank** FHLBB amends merger rules for Federally chartered capital stock associations and other institutions and redefines "association".

30568 **Health and Safety** HHS/FDA announces availability of and solicits comments on the Chest X-Ray Referral Criteria Panel Draft Report.

30507 **Maritime Education and Training** Commerce/MA proposes regulations on merchant marine training at State maritime academies.

CONTINUED INSIDE

Highlights

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $75.00 per year, or $45.00 for six months, payable in advance. The charge for individual copies is $1.00 for each issue, or $1.00 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

30593 **Grant Program—Criminal Justice** Justice/NIJ announces competitive graduate research fellowships for doctoral candidates engaged in research and writing of dissertations.

30500 **Grant Program—General Administration** HHS/Sec'y implements cost principles for nonprofit organizations and amends rules on property acquired with grant support.

30497 **Emission Standards** EPA clarifies emission standards for carbon monoxide (CO) for certain 1982 model year light-duty vehicles.

30594 **Labor** Labor/ETA publishes annual list of labor surplus areas.

30620 **Warehouses—Grain** USDA/AMS proposes definitions and various provisions for transactions involving the storing and marketing of grain.

Title 3—

The President

Proclamation 4847 of June 4, 1981

National Safe Boating Week, 1981

By the President of the United States of America

A Proclamation

Americans enjoy a multitude of sports and recreational activities that serve to refresh the body and spirit. For many of our citizens, recreation means boating.

Those involved in recreational boating should always remember that the primary responsibility for safety rests with the individual. And while a cruise can be a wonderful experience for one person or an entire family, it can also result in tragedy.

Aware of the need for boating safety, the Congress enacted the joint resolution of June 4, 1958 (36 U.S.C. 161) as amended, requesting that the President proclaim a National Safe Boating Week.

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, do hereby designate the week beginning on June 7, 1981 as National Safe Boating Week.

All Americans who utilize our waterways for recreation should possess at least a minimum knowledge of safety afloat. I urge all Americans who engage in recreational boating to take advantage of the numerous safe boating courses sponsored by governmental and private organizations. I particularly urge inexperienced operators of small boats to enroll in these safety and educational programs. Learning the fundamentals of safe boating can do nothing but add to the potential pleasure and excitement of recreational boating.

I also invite the Governors of the States, Puerto Rico, the Northern Mariana Islands, the Virgin Islands, Guam, and American Samoa, and the Mayor of the District of Columbia to provide for the observance of this week.

IN WITNESS WHEREOF, I have hereunto set my hand this 4th day of June in the year of our Lord nineteen hundred and eighty-one, and of the Independence of the United States of America the two hundred and fifth.

Ronald Reagan

Executive Order 12307 of June 4, 1981

President's Commission on Hostage Compensation

By the authority vested in me as President by the Constitution and statutes of the United States of America, in accordance with the Federal Advisory Committee Act, as amended (5 U.S.C. App. I), and to give the President's Commission on Hostage Compensation time to complete its work, it is hereby ordered that Executive Order No. 12285 (January 19, 1981) is amended as follows:

The first sentence of Section 1-202 of the Order is amended to read: "The Commission shall submit a report to the President no later than August 20, 1981."

The second sentence of Section 1-301 of the Order is amended to read: "In addition to conducting open meetings in accordance with the Federal Advisory Committee Act, the Commission may conduct public hearings to identify critical issues and possible solutions related to compensation."

Executive Order 12308 of June 5, 1981

Presidential Task Force on the Arts and Humanities

By the authority vested in me as President by the Constitution of the United States of America, and to establish in accordance with the provisions of the Federal Advisory Committee Act, as amended (5 U.S.C. App. I), an advisory committee on arts and humanities of the United States, it is hereby ordered as follows:

SECTION 1. *Establishment.* (a) There is hereby established the Presidential Task Force on the Arts and Humanities. The Task Force shall be composed of no more than 36 members appointed by the President. No more than one member shall be a full-time Federal officer or employee. The remaining members shall not represent Executive agencies.

(b) The President shall designate three Cochairmen and one Vice Chairman from among the members of the Task Force.

SEC. 2. *Functions.* (a) The Task Force shall advise the President with respect to:

(1) methods to increase private support for the arts and humanities;

(2) ways in which Federal decisions regarding arts and humanities projects can rely more on the judgments of nongovernmental professionals, private sector groups, and individuals; and

(3) potential improvements in the management, organization and structure of (i) the National Foundation on the Arts and the Humanities (including the National Endowment for the Arts, the National Endowment for the Humanities and the Federal Council on the Arts and the Humanities) and (ii) other Federal arts and humanities programs.

(b) The Task Force shall report its findings and recommendations to the President, the Chairman of the National Endowment for the Arts, and the Chairman of the National Endowment for the Humanities.

SEC. 3. *Administration.* (a) The heads of Executive agencies shall, to the extent permitted by law, provide the Task Force with such information with respect to arts and humanities issues as may be necessary for the effective performance of its functions.

(b) Members of the Task Force shall receive no compensation for their work on the Task Force. However, while engaged in the work of the Task Force, members may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by law for persons serving intermittently in the government service (5 U.S.C. 5701–5707).

(c) The National Endowment for the Humanities shall, to the extent permitted by law and subject to the availability of funds, provide the Task Force with such administrative services, funds, facilities, staff and other support services as may be necessary for the effective performance of its functions.

SEC. 4. *General Provisions.* (a) Notwithstanding the provisions of any other Executive order, the responsibilities of the President under the Federal Advisory Committee Act, as amended, except that of reporting annually to the Congress, which are applicable to the advisory committee established by this Order, shall be performed by the Chairman of the National Endowment for the

Humanities, in accordance with the guidelines and procedures established by the Administrator of General Services.

(b) The Task Force shall terminate on September 30, 1981, unless sooner extended.

Irish Potatoes Grown in the Southeastern States; Handling Regulation

Correction

In FR Doc. 81-16421, at page 29454, in the issue of Tuesday, June 2, 1981, on page 29455, in the last column, first line of the first paragraph, correct "(1)" to read "(d)".

BILLING CODE 1505-01-M

Animal and Plant Health Inspection Service

9 CFR Part 78

Brucellosis Areas

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: These amendments add the county of Drew in Arkansas, the county of Gadsden in Florida, the county of Lincoln in Idaho, and the counties of Corson, Custer, Dewey, McPherson, Meade, and Spink in South Dakota, to the list of Certified Brucellosis-Free Areas and delete these counties from the list of Modified Certified Brucellosis Areas. It has been determined that these areas qualify to be designated as Certified Brucellosis-Free Areas. The effect of this action will allow for less restrictions on cattle moved interstate from these areas. These amendments also add the counties of Banks, Echols, Rabun, and Stephens in Georgia, and Gray and Reagan in Texas, to the list of Modified Certified Brucellosis Areas and delete them from the list of Certified Brucellosis-Free Areas because it has been determined that these counties now qualify only as Modified Certified Brucellosis Areas. The effect of this action will provide for more restrictions on cattle moved interstate from these areas.

EFFECTIVE DATE: June 9, 1981.

FOR FURTHER INFORMATION CONTACT: Dr. A. D. Robb, USDA, APHIS, VS, Room 805, 6505 Belcrest Road, Hyattsville, MD 20782, 301-436-5961.

SUPPLEMENTARY INFORMATION: This final action is issued in conformance with Executive Order 12291 and has been determined to be "not major." The emergency nature of this action makes it impracticable for the agency to follow the procedures of Executive Order 12291 with respect to this rule.

Dr. Paul Becton, Director, National Brucellosis Eradication program, USDA, APHIS, VS, has determined that an emergency situation exists which warrants publication without opportunity for a public comment period on this final action. The amendment designating areas as Certified Brucellosis-Free Areas relieves certain restrictions presently imposed on the interstate movement of cattle. These restrictions are no longer deemed necessary to prevent the spread of brucellosis from such areas. Therefore, the amendment should be made effective immediately in order to permit affected persons to move cattle interstate from such areas without unnecessary restrictions.

The amendment designating areas as Modified Certified Brucellosis Areas imposes restrictions presently not imposed on the interstate movement of cattle from these areas. The additional restrictions are necesssary in order to prevent the spread of brucellosis from such areas and, therefore, must be made effective immediately.

Further, pursuant to the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to this final rule are impracticable and contrary to the public interest and good cause is found for making this final rule effective less than 30 days after publication of this document in the **Federal Register**.

Dr. Harry C. Mussman, Administrator of the Animal and Plant Health Inspection Service, has determined that this action will not have a significant economic impact on a substantial number of small entities because the change in brucellosis status affects less than 0.34 percent of the farms in the United States and does not have a significant economic impact on a substantial number of other types of small entities.

A complete list of brucellosis areas was published in the **Federal Register** (45 FR 85718-85720) effective December 30, 1980. These amendments add the county of Drew in Arkansas, the county of Gadsen in Florida, the county of Lincoln in Idaho, and the counties of Corson, Custer, Dewey, McPherson, Meade, and Spink in South Dakota, to the list of Certified Brucellosis-Free Areas in § 78.20 and delete these counties from the list of Modified Certified Brucellosis Areas in § 78.21, because it has been determined that such areas now come within the definition of a Certified Brucellosis-Free Area contained in § 78.1(l) of the regulations. These amendments add the counties of Banks, Echols, Rabun, and Stephens in Georgia, and Gray and Reagan in Texas, to the list of Modified Certified Brucellosis Areas in § 78.21 and delete these counties from the list of Certified Brucellosis-Free Areas in § 78.20, because it has been determined that they now qualify only as Modified Certified Brucellosis Areas as defined in § 78.1(m) of the regulations. This list is updated monthly and reflects actions taken under criteria for designating areas according to brucellosis status. The format of the authority citation for Part 78 is also revised. Accordingly, Part 78, Title 9, Code of Federal Regulations, is hereby amended in the following respects:

1. The authority citation for Part 78 is revised to read as follows: Authority: Secs. 4-7 and 13 of the Act of May 29, 1884, as amended, 23 Stat. 32; secs. 1 and 2 of the Act of February 2, 1903, as amended, 32 Stat. 791-792; sec. 3 of the Act of March 3, 1905, as amended, 33 Stat. 1265; and secs. 3 and 11, P.L. 87-518, 76 Stat. 130, 132 (21 U.S.C. 111-113, 114a-1, 115, 117, 120, 121, 125, 134b, 134f) 37 FR 28464, 28477; 38 FR 19141, unless otherwise noted.

2. In § 78.20, paragraph (b) is amended by adding: *Arkansas.* Drew; *Florida.* Gadsen; *Idaho.* Lincoln; *South Dakota.* Corson, Custer, Dewey, McPherson, Meade, Spink; and deleting: *Georgia.*

Banks, Echols, Rabun, Stephens; *Texas.* Gray, Reagan.

3. In § 78.21, paragraph (b) is amended by adding: *Georgia.* Banks, Echols, Rabun, Stephens; *Texas.* Gray, Reagan; and deleting: *Arkansas.* Drew; *Florida.* Gadsen; *Idaho.* Lincoln; *South Dakota.* Corson, Custer, Dewey, McPherson, Meade, Spink.

Done at Washington, D.C., this 3rd day of June 1981.

J. K. Atwell,

Deputy Administrator, Veterinary Services.

BILLING CODE 3410-34-M

---

9 CFR Part 82

Exotic Newcastle Disease; and Psittacosis or Ornithosis in Poultry Areas Quarantined

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: The purpose of this amendment is to quarantine a portion of Orange County and a portion of Los Angeles County in California because of the existence of exotic Newcastle disease. Exotic Newcastle disease was confirmed in such portions of Orange County and Los Angeles County on May 26, 1981. Therefore, in order to prevent the dissemination of exotic Newcastle disease, it is necessary to quarantine the affected areas.

EFFECTIVE DATE: June 3, 1981.

FOR FURTHER INFORMATION CONTACT: C. G. Mason, Chief, National Emergency Field Operations, Emergency Programs, Veterinary Services, USDA, Federal Building, Room 751, Hyattsville, MD 20782, 301-436-8093.

SUPPLEMENTARY INFORMATION: This final action has been reviewed in conformance with Executive Order 12291, and has been determined to be not a "major rule." Also, the emergency nature of this action makes it impracticable for the agency to follow the procedures of Executive Order 12291 with respect to this rule.

The Department has determined that this rule will have an annual effect on the country of less than $100 million, will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions, and will not have any significant adverse effects on competition, employment, investment, productivity, or innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Dr. J. K. Atwell, Deputy administrator, USDA, APHIS, VS, has determined that an emergency situation exists which warrants publication without opportunity for a public comment period on this final action. This amendment is necessary to prevent the interstate spread of exotic Newcastle disease, a communicable disease of poultry, and must be made effective immediately to accomplish its purpose in the public interest.

Further, pursuant to the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to this final rule are impracticable and contrary to the public interest and good cause is found for making this final rule effective less than 30 days after publication of this document in the **Federal Register.**

Additionally, Dr. Harry C. Mussman, Administrator of the Animal and Plant Health Inspection Service, has determined that this action will not have a significant economic impact on a substantial number of small entities because the quarantine imposed due to the existence of exotic Newcastle disease affects only two premises, neither of which are owned by a small entity.

This amendment quarantines a portion of Orange County and a portion of Los Angeles County in California because of the existence of exotic Newcastle disease. Therefore, the restrictions pertaining to the interstate movement of poultry, mynah, and psittacine birds, and birds of all other species under any form of confinement, and their carcasses, and parts thereof, and certain other articles, from quarantined areas, as contained in 9 CFR Part 82, as amended, will apply to the quarantined areas.

Accordingly, Part 82, Title 9, Code of Federal Regulations, is hereby amended in the following respects:

1. The authority citation for Part 82 reads as follows:

Authority: Secs. 4-7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791-792, as amended; secs. 1-4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132 (21 U.S.C. 111-113, 115, 117, 120, 123-126, 134b, 134f; 37 FR 28464 28477; 38 FR 19141).

2. In § 82.3, new paragraph (c)(2) is added to read:

§ 82.3 Imposition and removal of quarantine.

* * * * *

(c) * * *

(2) *California.* (i) The premises of Jack Schafer, 6441 Cosa Verdi Drive, Cypress, Orange County.

(ii) The premises of Jack Schafer, 12005 South Street, Artesia, Los Angeles County.

Done at Washington, D.C., this 3rd day of June 1981.

J. K. Atwell,

Deputy Administrator, Veterinary Services.

BILLING CODE 3410-34-M

FEDERAL HOME LOAN BANK BOARD

12 CFR Part 552

[NO. 81-29]

Federal Stock Charter Amendments

May 29, 1981.

AGENCY: Federal Home Loan Bank Board.

ACTION: Final rule.

SUMMARY: The Board is amending its regulations on mergers between Federally-chartered capital stock (Charter S) and other institutions insured by the Federal Savings and Loan Insurance Corporation ("FSLIC") to clarify the Board's authority to waive or deem inapplicable certain regulatory requirements in a supervisory merger involving a Charter S association, and to amend the Board's definition of "association" to reflect statutory changes.

EFFECTIVE DATE: May 29, 1981.

FOR FURTHER INFORMATION, PLEASE CONTACT: Patricia C. Trask, Office of General Counsel, Federal Home Loan Bank Board, 1700 G Street, N.W., Washington, D.C. 20552 (telephone: 212/377-6474).

SUPPLEMENTARY INFORMATION: The Regulations for the Federal Savings and Loan system at 12 CFR 552.13 and 552.14 govern mergers and other combinations of Federally-chartered capital stock (Charter S) associations with other institutions having accounts insured by the Federal Savings and Loan Insurance Corporation ("FSLIC"). Section 552.15 of the Charter S regulations sets forth the authority of the Board to waive or deem inapplicable any of the requirements of §§ 552.13 and 552.14 in order to avert insolvency or imminent failure of a Charter S association.

This amendment clarifies that the Board may take similar action in a supervisory combination involving a Charter S association without regard to whether the Charter S association is the failing institution. The amendment does

not permit waiver of procedures, with respect to supervisory combinations, that would deprive stockholders of a non-failing constituent institution of any stockholder rights provided under §§ 552.13 and 552.14.

The Board also has taken this opportunity to eliminate the notice requirements in paragraph (h) of § 552.13 with regard to supervisory combinations. Such notices are regulatory requirements that, on balance, should not be imposed in the circumstances of a supervisory combination. Similar waivers of notice are already contained in other of the Board's regulations governing mergers and conversions (12 CFR Parts 546 and 563b, respectively).

The Board is also amending the definition of "association" in § 552.13(b)(1) by including Federal mutual savings banks to reflect changes made by Title XII of the Financial Institutions Regulatory and Interest Rate Control Act of 1978 (Pub. L. 95–630, 92 Stat. 3710).

The Board finds that observance of the notice and comment period of 12 CFR 508.12 and 5 U.S.C. § 553(b) and the 30-day delay of effective date of 12 CFR 508.14 and 5 U.S.C. § 553(d) are unnecessary because it is in the public interest for the Board to be able to exercise maximum flexibility immediately in resolving supervisory cases by merger or other combination.

Accordingly, the Federal Home Loan Bank Board hereby amends Part 552, Subchapter C, Chapter V of Title 12, *Code of Federal Regulations*, as set forth below.

SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM

PART 552—STOCK ASSOCIATIONS

1. Amend subparagraph (b)(1) of § 552.13 by inserting before the period at the end thereof the following phrase: ", or any Federal mutual savings bank".

2. Amend paragraph (h) of § 552.13 by adding new subparagraph (6), to read as follows:

§ 552.13 Combinations involving Charter S associations.

* * * * *

(h) *Notice.* * * *

(6) *Supervisory exception.* This paragraph (h) does not apply to combinations instituted for supervisory reasons.

3. Amend the first sentence of § 552.15 to read as follows:

§ 552.15 Supervisory combinations.

Notwithstanding the foregoing provisions of this Part, the Board may determine to waive or deem inapplicable any provision of §§ 552.13 or 552.14 of this Part insofar as it is deemed necessary to avert insolvency or imminent failure of an association as defined in § 552.13(b)(1). * * *

(Sec. 5(d)(11), 48 Stat. 131 (U.S.C. § 1464); Secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended (12 U.S.C. §§ 1725, 1728, 1730); sec. 5, 48 Stat. 132, as amended (12 U.S.C. § 1464); Pub. L. 95–630, 92 Stat. 3710; Reorg. Plan No. 3 of 1947, 12 CFR 4981, 3 CFR 1943–48 Comp., 1071)

By the Federal Home Loan Bank Board.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Part 271

[Order No. 152; Docket No. RM79–76 (Colorado—7)]

High-Cost Gas Produced From Tight Formations; Final Rule

Issued: June 3, 1981.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determines that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR § 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This final order adopts the recommendation of the Colorado Oil and Gas Conservation Commission that the Dakota Formation be designated as a tight formation under § 271.703(d).

EFFECTIVE DATE: This rule is effective on June 3, 1981.

FOR FURTHER INFORMATION CONTACT: Leslie Lawner, (202) 357–8307, or Victor Zabel, (202) 357–8616.

Order No. 152

Issued June 3, 1981.

Before Commissioners: Georgiana Sheldon, Acting Chairman; Matthew Holden, Jr. and J. David Hughes. In the matter of High-Cost Gas Produced From Tight Formations, Docket No. RM79–76 (Colorado—7).

The Commission hereby amends § 271.703(d) of its regulations to include the Dakota Formation in Colorado as a designated tight formation eligible for incentive pricing under § 271.703. The amendment was proposed in a Notice of Proposed Rulemaking by Director, OPPR, issued November 19, 1980 (45 FR 78701, November 26, 1980)[1] based on a recommendation by the Colorado Oil and Gas Conservation Commission (Colorado) in accordance with § 271.703(c), that the Dakota Formation be designated as a tight formation.

Evidence submitted by Colorado and the commenters supports Colorado's assertion that the Dakota Formation meets the guidelines contained in § 271.703(c)(2). The Commission adopts the Colorado recommendation.

This amendment shall become effective immediately. The Commission has found that the public interest dictates that new natural gas supplies be developed on an expedited basis, and therefore, incentive prices be made available immediately. The need to make incentive prices available immediately established good cause to waive the thirty day publication period.

(Department of Energy Organization Act, 42 U.S.C. § 7101 *et seq.*; Natural Gas Policy Act of 1978, 15 U.S.C. § 3301–3432; Administrative Procedure Act, 5 U.S.C. 553)

For the reasons stated herein, Part 271 of Subchapter I, Title 18, *Code of Federal Regulations*, is amended as set forth below, effective immediately.

By the Commission.

Kenneth F. Plumb,

Secretary.

Section 271.703(d) is amended by adding new subparagraph (28) to read as follows:

§ 271.703 Tight formations.

* * * * *

(d) *Designated tight formations.* The following formations are designated as tight formations. A more detailed description of the geographical extent and geological parameters of the designated tight formations is located in the Commission's official file for Docket

[1] Comments were invited and favorable comments were received. No party requested a public hearing and no hearing was held.

No. RM79–76, subindexed as indicated, and is also located in the official files of the jurisdictional agency that submitted the recommendation.

* * * * *

(28) *Dakota Formation in Colorado.* RM79–76 (Colorado—8).

(i) *Delineation of formation.* The Dakota Formation is found in La Plata and Archuleta Counties, Colorado. It is located southeast of the City of Durango, Colorado, and is bounded on the north by the southern boundary of the Southern Ute Indian reservation. The Dakota Formation underlies Township 34 North, Ranges 6 and 7 West (South of the Ute Line), Sections 1 through 36, and Township 34 North,. Ranges 8 and 9 West (South of the Ute Line), Sections 1 through 24.

(ii) *Depth.* The Dakota Formation is defined as that formation the depth to the top of which averages approximately 7,600 feet and the base of which is defined by the top of the Morrison Formation.

18 CFR Part 271

[Order No. 151; Docket No. RM79–76 (Colorado—9)]

High-Cost Gas Produced From Tight Formations; Final Rule

Issued June 3, 1981.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determines that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR § 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This final order adopts the recommendation of the Colorado Oil and Gas Conservation Commission that the Corcoran Formation and Cozzette Formation each be designated as a tight formation under § 271.703(d).

EFFECTIVE DATE: This rule is effective June 3, 1981.

FOR FURTHER INFORMATION CONTACT: Leslie Lawner, (202) 357–8307, or Victor Zabel, (202) 357–8559.

Order No. 151

Issued June 3, 1981.

Before Commissioners: Georgiana Sheldon, Acting Chairman; Matthew Holden, Jr. and J. David Hughes. In the matter of High-Cost Gas Produced From Tight Formations, Docket No. RM79–76 (Colorado—9).

The Commission hereby amends § 271.703(d) of its regulations to include the Corcoran and Cozzette Formations in Colorado as designated tight formations eligible for incentive pricing under § 271.703. The amendment was proposed in a Notice of Proposed Rulemaking by Director, OPPR, issued November 19, 1980 (45 FR 78703, November 26, 1980) [1] based on a recommendation by the Colorado Oil and Gas Conservation Commission (Colorado) in accordance with § 271.703(c), that the Corcoran and Cozzette Formations be designated as tight formations.

Evidence submitted by Colorado and the commenters supports Colorado's assertion that the Corcoran and Cozzette Formations meet the guidelines contained in § 271.703(c)(2). The Commission adopts the Colorado recommendation.

This amendment shall become effective immediately. The Commission has found that the public interest dictates that new natural gas supplies be developed on an expedited basis, and therefore, incentive prices be made available immediately. The need to make incentive prices available immediately establishes good cause to waive the thirty day publication period.

(Department of Energy Organization Act, 42 U.S.C. 7101 *et seq.*; Natural Gas Policy Act of 1978, 15 U.S.C. 3301–3432; Administrative Procedure Act, 5 U.S.C. 553)

For the reasons stated herein, Part 271 of Subchapter I, Title 18, *Code of Federal Regulations*, is amended as set forth below, effective immediately.

By the Commission.

Kenneth F. Plumb,

Secretary.

Section 271.703(d) is amended by adding new subparagraphs (29) and (30) to read as follows:

§ 271.703 Tight formations.

* * * * *

(d) *Designated tight formations.* The following formations are designated as tight formations. A more detailed description of the geographical extent and geological parameters of the designated tight formations is located in the Commission's official file for Docket No. RM79–76, subindexed as indicated, and is also located in the official files of the jurisdictional agency that submitted the recommendation.

* * * * *

(29) *Cozzette Formation in Colorado.* RM79–76 (Colorado—9).

(i) *Delineation of formation.* The Cozzette Formation is found in Mesa and Garfield Counties, Colorado. It is located northeast of the City of Grand Junction, Colorado, and occupies an area known locally as the Wagon Track Tight Gas and Sand area. The Cozzette Formation underlies Township 8 South, Ranges 98 and 99 West, Sections 1 through 36, and Range 100 West, Sections 21 through 28 and 33 through 36; Township 9 South, Range 97 West, Sections 1 through 24, 26 through 35, Ranges 98 and 99 West, Sections 1 through 36, Range 100 West, Sections 1 through 4, 9 through 14, 23, 24, 25 and 36; Township 10 South, Range 97 West, Sections 2 through 11, Range 98 West, Sections, 1 through 12, and Range 99 West, Sections 1 through 5 and 9 through 12.

(ii) *Depth.* The Cozzette Formation is defined as that formation occurring within the Mount Garfield Formation in the Mesaverde Group and which is found at an average measured depth of 2478 feet.

(30) *Corcoran Formation in Colorado.* RM79–76 (Colorado—9).

(i) *Delineation of formation.* The Corcoran Formation is found in Mesa and Garfield Counties, Colorado. It is located northeast of the City of Grand Junction, Colorado, and occupies an area locally known as the Wagon Track Tight Sand area. The Corcoran Formation underlies Township 8 South, Ranges 98 and 99 West, Sections 1 through 36, and Range 100 West, Sections 21 through 28 and 33 through 36; Township 9 South, Range 97 West, Sections 1 through 24, 26 through 35, Ranges 98 and 99 West, Sections 1 through 36, Range 100 West, Sections 1 through 4, 9 through 14, 23, 24, 25 and 36; Township 10 South, Range 97 West, Sections 2 through 11, Range 98 West, Sections 1 through 12, and Range 99 West, Sections 1 through 5 and 9 through 12.

(ii) *Depth.* The Corcoran Formation is defined as that formation occurring within the Mount Garfield Formation of

High-Cost Gas Produced From Tight Formations; Adoption of Designation Recommendation

Issued June 3, 1981.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determines that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR § 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This final order adopts the recommendation of the Colorado Oil and Gas Conservation Commission that the Sanastee Formation and Dakota Formation each be designated as a tight formation under § 271.703(d).

EFFECTIVE DATE: This rule is effective on June 3, 1981.

FOR FURTHER INFORMATION CONTACT: Leslie Lawner, (202) 357-8307, or Victor Zabel, (202) 357-8559.

Order No. 150

Issued June 3, 1981.

Before Commissioners: Georgiana Sheldon, Acting Chairman; Matthew Holden, Jr. and J. David Hughes. In the matter of High-Cost Gas Produced From Tight Formations, Docket No. RM79-76 (Colorado—8).

The Commission hereby amends § 271.703(d) of its regulations to include the Sanastee and Dakota Formations in Colorado as designated tight formations eligible for incentive pricing under § 271.703. The amendment was proposed in a Notice of Proposed Rulemaking by Director, OPPR, issued November 19, 1980 (45 FR 78703, November 26, 1980)[1] based on a recommendation by the Colorado Oil and Gas Conservation Commission (Colorado) in accordance with § 271.703(c), that the Sanastee and Dakota Formations be designated as tight formations.

Evidence submitted by Colorado and the commenters supports Colorado's assertion that the Sanastee and Dakota Formations meet the guidelines contained in § 271.703(c)(2). The Commission adopts the Colorado recommendation.

This amendment shall become effective immediately. The Commission has found that the public interest dictates that new natural gas supplies be developed on an expedited basis, and therefore, incentive prices be made available immediately. The need to make incentive prices available immediately establishes good cause to waive the thirty day publication period.

(Department of Energy Organization Act, 42 U.S.C. § 7101 *et seq.*; Natural Gas Policy Act of 1978, 15 U.S.C. § 3301-3432; Administrative Procedure Act, 5 U.S.C. 553)

For the reasons stated herein, Part 271 of Subchapter I, Title 18, *Code of Federal Regulations*, is amended as set forth below, effective immediately.

By the Commission.

Kenneth F. Plumb,

Secretary.

Section 271.703(d) is amended by adding new subparagraph (27) to read as follows:

§ 271.703 Tight formations.

* * * * *

(d) *Designated tight formations.* The following formations are designated as tight formations. A more detailed description of the geographical extent and geological parameters of the designated tight formations is located in the Commission's official file for Docket No. RM79-76, subindexed as indicated, and is also located in the official files of the jurisdictional agency that submitted the recommendation.

* * * * *

(27) *Sanastee Formation in Colorado.* RM79-76 (Colorado—8).

(i) *Delineation of formation.* The Sanastee Formation is found in La Plata and Archuleta Counties, Colorado. It is located southeast of the City of Durango, Colorado, and is bounded on the north by the southern boundary of the Southern Ute Indian Reservation. The Sanastee Formation underlies Township 34 North, Ranges 6 and 7 West (South of the Ute Line), Sections 1 through 36, and Township 34 North, Ranges 8 and 9 West, Sections 1 through 24.

(ii) *Depth.* The Sanastee Formation is defined as that formation occurring within the Mancos shale at intervals from approximately 7500 to 7700 feet.

[1] Comments were invited and favorable comments were received. No party requested a public hearing and no hearing was held.

[Order No. 30-F; Docket No. RM79-34]

Transportation Certificates for Natural Gas for the Displacement of Fuel Oil

Issued May 21, 1981.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Final rule.

SUMMARY: On May 17, 1979, the Federal Energy Regulatory Commission (Commission) issued Order No. 30 in Docket No. RM79-34 (44 FR 30323; May 25, 1979). That order established a short-term program authorizing the transportation of natural gas for the displacement of fuel oil. The program, which was originally scheduled to terminate on June 1, 1980, was extended by Order No. 30-D (45 FR 56046; August 22, 1980) through May 31, 1981. By this rule, the Commission again extends the Order No. 30 program until 90 days after a final rule becomes effective in Docket No. RM81-19. A Notice of Proposed Rulemaking was issued in Docket No. RM81-19 on March 10, 1981 (46 FR 16903; March 16, 1981).[1] The Commission invites written comments in Docket No. RM81-19 on whether the pipeline transportation of end-user natural gas for the displacement of fuel oil (presently encompassed in the order No. 30 program) should be included in the final rule in Docket No. RM81-19.

DATES: Effective Date: May 31, 1981. Comments must be received in Docket No. RM81-19 on whether the pipeline transportation of end-user natural gas for the displacement of fuel oil should be included in the final rule in Docket No. RM81-19 on or before June 21, 1981.

ADDRESS: All comments regarding Docket No. RM81-19 to: Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT: Robert C. Platt, Assistant Advisory Counsel, Office of the General Counsel,

[1] See FR Doc. 81-17007 in the Proposed Rule Section of this issue.

Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426 (202) 357–8457.

SUPPLEMENTARY INFORMATION: On March 10, 1981, Consolidated Edison Company of New York, Inc., National Gas and Oil Corporation, the Ohio Producers Group,[2] Public Service Electric and Gas Company, Salt River Project Agricultural Improvement and Power District, Long Island Lighting Company, Alabama-Tennessee Natural Gas Company, and Phelps Dodge Corporation (Petitioners) filed a petition in this Docket seeking a rulemaking pursuant to § 1.7 of the Commission's Rules of Practice and Procedure (18 CFR 1.7). Petitioners seeks an amendment of § 284.201(e) of the Commission's regulations to provide a temporary extension of the fuel oil displacement program promulgated in Order No. 30.[3] In addition, the Petitioners seek "a more effective program to replace Order No. 30," (petition at 5) which would embody eight design considerations.[4]

On May 17, 1979, the Commission issued Order No. 30 which established a short-term program authorizing the transportation of natural gas for the displacement of fuel oil. That order was adopted in response to a proposal of the Economic Regulatory Administration (ERA) of the Department of Energy which was referred to the Commission pursuant to Section 403(a) of the Department of Energy Organization Act, 42 U.S.C. 7173(a) (DOE Act).

In Order No. 30, the Commission authorized interstate pipelines to transport natural gas to end-users certified by the ERA.[5] In significant part, the Commission determined that the public interest was served by action to displace fuel oil with natural gas in order to relieve demand pressure on distillate and related stocks of petroleum products as the peak winter heating season approached. The Commission perceived the fuel oil shortages would be relieved by the beginning of the next summer period. Hence, the rule originally terminated the program on June 1, 1980.

On August 15, 1980, the Commission issued Order No. 30–D,[6] which extended the program through May 31, 1981. In Order No. 30–D, the Commission noted:

> By [May 31, 1981], the Commission expects to implement more effective programs to dispose of excess natural gas deliverabilities. It is our objective to reassess current policies and programs and so develop a comprehensive long term policy prior to May 31, 1981.

Such a comprehensive reexamination of the Commission's transportation policies was initiated in Docket Nos. RM81–19 and RM81–29.[7] In these dockets, the Commission proposed to issue blanket certificates to cover a variety of routine transactions. However, it does not appear that the Commission will be able to complete its consideration of public comments and issue final rules in the RM81–19 and RM81–29 Dockets prior to May 31, 1981. In addition, transportation contemplated by those proposed rules cannot occur until the Commission processes applications for blanket certificates. Accordingly, the Commission is extending the duration of the Order No. 30 program until 90 days after a final rule becomes effective in Docket No. RM81–19. This interim extension is accomplished by amending the definition of "fuel shortage emergency period" in § 284.201(e).

Written Comments

The Commission invites interested persons, who have not already done so, to submit written comments in Docket No. RM81–19 on whether the pipeline transportation of end-user natural gas for the displacement of fuel oil (presently encompassed in the Order No. 30 program) should be included in the final rule in Docket No. RM81–19.

An original and 14 conformed copies of written comments should be filed by June 21, 1981. Comments should reference Docket No. RM81–19 and should be addressed to the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426.

Written comments will be placed in the Commission's public files and will be available for public inspection in the Commission's Office of Public Information, Room 1000, 825 North Capitol Street, N.E., Washington, D.C. 20426. The Commission will consider all timely comments before acting on this issue in Docket No. RM81–19.

Effective Date

In order to avoid disruption of on-going transactions authorized under Order No. 30, this rule must take effect prior to June 1, 1981. For this reason, the Commission, in accordance with 5 U.S.C. §§ 553(b) and (d), finds that good cause exists to waive normal notice and effective date requirements. Accordingly, this rule is effective on May 31, 1981.

[Natural Gas Act, 15 U.S.C. § 717–717w; Natural Gas Policy Act of 1978, 15 U.S.C. § 3301–3432; Department of Energy Organization Act, 42 U.S.C. § 7101–7352; E.O. 12009, 42 FR 46267.]

In consideration of the foregoing, Part 284 of Chapter I, Title 18, Code of Federal Regulations, is amended as set forth, effective May 31, 1981.

By the Commission.

Kenneth F. Plumb,

Secretary.

1. Section 284.201 is amended by revising paragraph (e) to read:

§ 284.201 Definitions.

* * * * *

(e) "Fuel Shortage emergency period" means the period starting May 13, 1979, and ending at 11:59 p.m. on the ninetieth (90th) day following the effective date in the final rule in Docket No. RM81–19.

[Docket No. 79F–0481]

Dimethylpolysiloxane Used as a Defoaming Agent in the Processing of Food, Viscosity Specification

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) amends the food additive regulations by revising the viscosity specification for dimethylpolysiloxane when used as a defoaming agent in the processing of food, to read "300 to 1,050 centistokes at 25° C" rather than "300 to 600 centistokes at 25° C" as currently listed. ICI Americas, Inc., filed a petition requesting such revision.

V 46 / 110 / JUNE 9 1981 UMI

DATES: Effective June 9, 1981. Objections by July 9, 1981.

ADDRESS: Written objections to the Dockets Management Branch (formerly the Hearing Clerk's office) (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Julius Smith, Bureau of Foods (HFF–334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–472–5690.

SUPPLEMENTARY INFORMATION: In a notice published in the **Federal Register** of February 8, 1980 (45 FR 8725), FDA announced that a food additive petition (FAP 7A3340) had been filed by ICI Americas, Inc., Wilmington, DE 19897, proposing that § 173.340 *Defoaming agents* (21 CFR 173.340) be amended by revising the viscosity specification for dimethylpolysiloxane when used as a defoaming agent in the processing of foods.

FDA has evaluated data in the petition and other relevant material and concludes that the use of dimethylpolysiloxane with specifications as indicated herein is safe and that the food additive regulations should be amended as set forth below.

Further, the National Academy of Sciences will be requested to revise the viscosity specification for dimethylpolysiloxane as it is listed in the "Food Chemicals Codex," 2d Ed. (1972) to reflect the amendment of § 173.340.

Likewise, because the increase in the upper limit of the viscosity range will cause an increase in the upper limit of the specific gravity range of the additive, it will also be requested that the upper limit for this specification as listed in the "Food Chemicals Codex" be changed from 0.964–0.973 to read 0.964–0.977.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10 (formerly 21 CFR 5.1; see 46 FR 26052; May 11, 1981)), Part 173 is amended in § 173.340(a)(2) by changing the viscosity specification in the item "dimethylpolysiloxane" in the list of substances to read as follows:

§ 173.340 Defoaming agents.

* * * * *

(a) * * *

(2) * * *

Substances	Limitations
Dimethylpolysiloxane (substantially free from hydrolyzable chloride and alkoxy groups, no more than 18 percent loss in weight after heating 4 hours at 200° C; viscosity 300 to 1,050 centistokes at 25° C; refractive index 1.400–1.404 at 25° C)	* * *

* * * * *

* * * * *

Any person who will be adversely affected by the foregoing regulation may at any time on or before July 9, 1981, submit to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a hearing is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held; failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Four copies of all documents shall be submitted and shall be identified with the docket number found in brackets in the heading of this regulation. Received objections may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Effective date. This regulation shall become effective June 9, 1981.

(Secs. 201(s), 409, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348))

Dated: June 1, 1981.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

21 CFR Part 173

[Docket No. 79F–0419]

Acrylate-Acrylamide Resins; Safe Use as a Flocculent in Clarification of Corn Starch Hydrolyzate

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the food additive regulations to provide for the safe use of acrylate-acrylamide resins as a flocculent in the clarification of corn starch hydrolyzate. This action is based on a food additive petition filed by Tate & Lyle Process Technology, Ltd.

DATES: Effective June 9, 1981, objections by July 9, 1981.

ADDRESS: Written objections to the Dockets Management Branch (formerly the Hearing Clerk's office) (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Rudolph Harris, Bureau of Foods (HFF–334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–472–5690.

SUPPLEMENTARY INFORMATION: In a notice published in the **Federal Register** of December 11, 1979 (44 FR 71461), FDA announced that a petition (FAP 9A3454) had been filed by Tate & Lyle Process Technology, Ltd., Cosmos House, Bromley Common, Bromley BR2 9NA, England, proposing that § 173.5 (21 CFR 173.5) be amended to provide for the safe use of acrylate-acrylamide resins as a flocculent in the clarification of corn starch hydrolyzate.

FDA has evaluated data in the petition and other relevant material and finds that acrylate-acrylamide resins are safe for their intended use and that § 173.5 should be amended as set forth below to include the petitioned additive.

The agency has carefuly considered the potential environmental effects of this action and has concluded that the action will not have a significant impact on the human environment and that an evironmental impact statement is not required. The agency's finding of no significant impact and the evidence supporting that document may be seen in the Dockets Management Branch, Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, between 9 a.m. and 4 p.m., Monday through Friday.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10 (formerly 5.1; see 46 FR 26052; May 11, 1981)), Part 173 is amended in § 173.5 by revising paragraph (c) (1), to read as follows:

§ 173.5 Acrylate-acrylamide resins.

* * * * *

(c) * * *

(1) The aditive identified in paragraph (a) (1) of this section is used as a flocculent in the clarification of beet sugar juice and liquor or cane sugar juice and liquor or corn starch hydrolyzate in an amount not to exceed 5 parts per million by weight of the juice or 10 parts per million by weight of the liquor or the corn starch hydrolyzate.

. . . . .

Any person who will be adversely affected by the foregoing regulation may at any time on or before July 9, 1981, submit to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a hearing is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held; failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Four copies of all documents shall be submitted and shall be identified with the docket number found in brackets in the heading of this regulation. Received objections may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Effective date. This regulation shall become effective June 9, 1981.

(Secs. 201(s), 409, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348))

Dated: June 1, 1981.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4110–03–M

ENVIRONMENTAL PROTECTION AGENCY

21 CFR Part 193

[FAP OH5262/T68; PH–FRL–1847–8]

Tolerances for Pesticides in Food Administered by the Environmental Protection Agency; (±)Cyano(3-Phenoxyphenyl)methyl (+)-4-(Difluoromethoxy)-Alpha-(1-Methylethyl)Benzeneacetate

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA has extended a temporary food additive regulation permitting residues of the insecticide (±)cyano(3-phenoxyphenyl)methyl (+)-4-(difluoromethoxy)-alpha-(1-methylethyl)benzeneacetate in or on cottonseed oil at 0.2 ppm.

EFFECTIVE DATE: Effective on June 9, 1981.

ADDRESS: Written objections may be submitted to the: Hearing Clerk, Environmental Protection Agency, Rm. M–3708 (A–110), 401 M St., SW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Franklin D. R. Gee, Product Manager (PM) 17, Registration Division (TS–767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 401, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202 (703–557–7028).

SUPPLEMENTARY INFORMATION: EPA issued a notice published in the **Federal Register** of August 12, 1980 (45 FR 53457) that a food additive regulation had been established permitting residues of the insecticide (±)cyano(3-phenoxyphenyl)methyl (+)-4-(difluoromethoxy)-alpha-(1-methylethyl)benzeneacetate in or on cottonseed oil at 0.2 ppm. The regulation was requested by American Cyanamid Co., P.O. Box 400, Princeton, NJ 08540.

The scientific data reported and other relevant material has been evaluated, and it has been determined that extension of this temporary food additive regulation will protect the public health. Therefore, 21 CFR Part 193 is amended as set forth below.

Any person adversely affected by this regulation may, on or before July 9, 1981, file written objections with the Hearing Clerk, EPA, Rm. M–3708 (A–110), 401 M St., SW., Washington, DC 20460. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

As required by Executive Order 12291, EPA has determined that this rule is not a "Major" rule and therefore does not require a Regulatory Impact Analysis. In addition, the Office of Management and Budget (OMB) has exempted this regulation from the OMB review requirement of Executive Order 12291, pursuant to section 8(b) of that Order.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96–534, 94 Stat. 1164, 5 U.S.C. 601–612), the Administrator has determined that regulations establishing new food and feed additive levels, or conditions for safe use of additives, or raising such food and feed additive levels do not have significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (46 FR 24945).

Effective on: June 9, 1981.

(Sec. 409(c)(1) 72 Stat. 1786, 21 U.S.C. 348(c)(1))

Dated: May 29, 1981.

James M. Conlon,

Acting Deputy Assistant Administrator for Pesticide Programs.

Therefore, 21 CFR 193.99 is revised to read as follows:

§ 193.99 (±)Cyano(3-Phenoxyphenyl)methyl (+)-4-(Difluoromethoxy)-Alpha-(1-Methylethyl)Benzeneacetate.

A tolerance is established for the insecticide (±)cyano(3-phenoxyphenyl)methyl (+)-4-(difluoromethoxy)-alpha-(1-methylethyl)benzeneacetate in or on cottonseed oil at 0.2 part per million. Such residues may be present therein only as a result of the application of the insecticide in accordance with the provisions of an experimental use permit that expires April 10, 1982.

BILLING CODE 1505-01-M

DEPARTMENT OF JUSTICE

28 CFR Part 16

[AAG/A Order No. 67-81]

Production or Disclosure of Material or Information

AGENCY: Department of Justice.

ACTION: Final rule.

SUMMARY: The Federal Bureau of Investigation (FBI) is amending its Privacy Act regulations by clarifying its reasons for having exempted its Central Records System, JUSTICE/FBI-002, from certain Privacy Act provisions.

DATE: This rule shall be effective June 9, 1981.

ADDRESSES: All comments should be addressed to the Administrative Counsel, Justice Management Division, Department of Justice, Room 6239, 10th and Constitution Avenue NW., Washington, D.C. 20530.

FOR FURTHER INFORMATION CONTACT: William J. Snider (202-633-3452).

SUPPLEMENTARY INFORMATION: Paragraph (b)(2) of 28 CFR 16.96 has been revised to offer the public a clearer explanation of why the FBI's Central Records System, JUSTICE/FBI-002, is exempt from selected provisions of the Privacy Act pursuant to 5 U.S.C. 552a (j) and (k). And, paragraphs (b) (1) and (2), the introductory text to paragraph (b) (3), and paragraphs (b) (4), (5), and (6) have been revised to make minor editorial corrections. Specifically, the term "paragraph," which had been inappropriately used to reference "subsections" of the Privacy Act, has been deleted and the term "subsection" has been substituted.

This rule does not constitute an amplification or expansion of the present FBI exemption rule published in 28 CFR 16.96. It simply offers the public a clearer explanation of why the exemptions which have already been promulgated are necessary. Since clarification of this rule is in the public interest, it has been determined that it is impracticable and unnecessary to provide opportunity for public comment and that it is contrary to the public interest to delay the effective date of this rule. This determination is made in accordance with 5 U.S.C. 553(b) (B) and (d)(3).

This rule is exempt from the application of Executive Order 12291 pursuant to section 1(a)(3).

Accordingly, pursuant to the authority vested in the Attorney General by 5 U.S.C. 552a and delegated to me by Attorney General Order No. 793-78, § 16.96 of Title 28 of the Code of Federal Regulations is amended as set forth below.

Dated: May 28, 1981.

William D. Van Stavoren,

Acting Assistant Attorney General for Administration.

Section 16.96 is amended by revising introductory text to paragraph (b), paragraphs (b) (1) and (2), introductory text to paragraph (b)(3), and paragraphs (b) (4), (5), and (6), all of which are reprinted below.

§ 16.96 Exemption of Federal Bureau of Investigation Systems—Limited access.

* * * * *

(b) Exemptions from the particular subsections are justified for the following reasons:

(1) From subsection (c)(3) because making available to a record subject the accounting of disclosures from records concerning him/her would reveal investigative interest by not only the FBI, but also by the recipient agency. This would permit the record subject to take appropriate measures to impede the investigation, e.g., destroy evidence, intimidate potential witnesses or flee the area to avoid the thrust of the investigation.

(2)(i) From subsections (d), (e)(4)(G) and (H), (f) and (g) because these provisions concern individual access to investigative records, compliance with which could compromise sensitive information classified in the interest of national security, interfere with the overall law enforcement process by revealing a pending sensitive investigation, possibly identify a confidential source or disclose information which would constitute an unwarranted invasion of another individual's personal privacy, reveal a sensitive investigative technique, or constitute a potential danger to the health or safety to law enforcement personnel.

(ii) Also, individual access to non-criminal investigative records, e.g., civil investigations and administrative inquiries, as described in subsection (k) of the Privacy Act, could also compromise classified information related to national security, interfere with a pending investigation or internal inquiry, constitute an unwarranted invasion of privacy, reveal a confidential source or sensitive investigative technique, or pose a potential threat to law enforcement personnel. In addition, disclosure of information collected pursuant to an employment suitability or similar inquiry could reveal the identity of a source who provided information under an express promise of confidentiality, or could compromise the objectivity or fairness of a testing or examination process.

(iii) In addition, from paragraph (d)(2) because to require the FBI to amend information thought to be incorrect, irrelevant or untimely, because of the nature of the information collected and the essential length of time it is maintained, would create an impossible administrative and investigative burden by forcing the agency to continuously retrograde its investigations attempting to resolve questions of accuracy, etc.

(3) From subsection (e)(1) because:

* * * * *

(4) From subsection (e)(2) because the nature of criminal and other investigative activities is such that vital information about an individual can only be obtained from other persons who are familiar with such individual and his/her activities. In such investigations it is not feasible to rely upon information furnished by the individual concerning his own activities.

(5) From subsection (e)(3) because disclosure would provide the subject

with substantial information which could impede or compromise the investigation. The individual could seriously interfere with undercover investigative activities and could take appropriate steps to evade the investigation or flee a specific area.

(6) From subsection (e)(8) because the notice requirements of this provision could seriously interfere with a law enforcement activity by alerting the subject of a criminal or other investigation of existing investigative interest.

BILLING CODE 4410-02-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-5-FRL 1831-5]

Ambient Air Quality Monitoring, Data Reporting, and Surveillance Provisions for the State of Wisconsin

AGENCY: Environmental Protection Agency.

ACTION: Final rulemaking.

SUMMARY: On February 6, 1981 (46 FR 11321), the U.S. Environmental Protection Agency (EPA) proposed approval of and solicited public comment on an air quality surveillance plan submitted by the State of Wisconsin as a revision to the Wisconsin State Implementation Plan (SIP). No public comments were received. This notice announces EPA's final approval of the air quality surveillance plan as a revision to the Wisconsin SIP.

EFFECTIVE DATE: This final rulemaking becomes effective on July 9, 1981.

ADDRESSES: Copies of the SIP revision and EPA's evaluation are available for inspection during normal business hours at the following addresses:

United States Environmental Protection Agency, Air Programs Branch, Region V, 230 South Dearborn Street, Chicago, Illinois 60604.

United States Environmental Protection Agency, Public Information Reference Unit, 401 M Street SW., Washington, D.C. 20460.

Copies of the submission are also available at: Wisconsin Department of Natural Resources, Bureau of Air Management, 101 South Webster Street, Madison, Wisconsin 53707.

FOR FURTHER INFORMATION CONTACT: Delores Sieja, Regulatory Analysis Section, U.S. Environmental Protection Agency, Region V, 230 South Dearborn Street, Chicago, Illinois 60604, (312) 886-6038.

SUPPLEMENTARY INFORMATION: Section 319 of the Clean Air Act, as amended, requires the U.S. Environmental Protection Agency (EPA) to establish monitoring criteria to be followed uniformly across the nation. Pursuant to this requirement and the recommendations of the Standing Air Monitoring Work Group (SAMWG), EPA, on May 10, 1979 (44 FR 27558), promulgated Rules and Regulations for Ambient Air Quality Monitoring, Data Reporting, and Surveillance Provisions. The regulations revoke Part 51 of Title 40 of the Code of Federal Regulations and establish a new Part 58 entitled Ambient Air Quality Surveillance.

On April 18, 1980, the State of Wisconsin submitted to EPA a SIP revision to provide for modification of the existing air quality surveillance network. An amendment to the revision was submitted by the State of Wisconsin on September 15, 1980. EPA has reviewed the submission and determined that it meets the requirements of Sections 110 and 319 of the Clean Air Act, as amended, and EPA regulations in 40 CFR Part 58. The complete requirements for an air quality surveillance plan are outlined in 40 CFR 58.20, and were summarized in EPA's notice of proposed rulemaking published February 6, 1981 (46 FR 11321). At that time, EPA discussed the State's submission, and proposed approval of the Wisconsin air quality surveillance plan. Interested parties were given until March 9, 1981 to comment on the plan and on EPA's proposed approval. No comments were received.

This notice announces EPA's final rulemaking action to approve the air quality surveillance plan as a revision to the Wisconsin SIP.

Under Section 307(b)(1) of the Clean Air Act, judicial review of this final action is available *only* by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit within 60 days of date of final rulemaking. Under Section 307(b)(2) of the Clean Air Act, the requirements which are the subject of today's notice may not be challenged later in civil or criminal proceedings brought by EPA to enforce these requirements.

Pursuant to the provisions of 5 U.S.C. section 605(b) I hereby certify that this final rule will not have a significant economic impact on a substantial number of small entities. The action relates only to air quality surveillance to be carried out by one State and will not cause any significant economic impacts.

Under Executive Order 12291, EPA must judge whether a regulation is "major" and therefore subject to the requirement of a Regulatory Impact Analysis. This regulation is not major because EPA is approving provisions which are developed by and are effective in the State. EPA is not promulgating any requirements beyond the requirements imposed by the State.

This regulation was submitted to the Office of Management and Budget (OMB) for review as required by Executive Order 12291.

This Final Rulemaking is issued under the authority of Sections 110 and 319 of the Clean Air Act, as amended (42 U.S.C. 7410 and 7619).

Dated: June 2, 1981.

Anne M. Gorsuch,
Administrator.

Note.—Incorporation by reference of the State Implementation Plan for the State of Wisconsin was approved by the Director of the **Federal Register** on July 1, 1980.

Title 40 of the Code of Federal Regulations, Chapter 1, Part 52 is amended as follows:

Subpart YY—Wisconsin

Section 52.2570 is amended by adding paragraph (c) (19) as follows:

§ 52.2570 Identification of plan.

* * * * *

(c) * * *

* * * * * *

(19) On April 18, 1980, the State of Wisconsin submitted a revision to provide for modification of the existing air quality surveillance network. An amendment to the revision was submitted by the State of Wisconsin on September 15, 1980.

BILLING CODE 6560-38-M

40 CFR Part 62

[A-2-FRL 1828-7]

Approval and Promulgation of State Plans for Designated Facilities and Pollutants; New Jersey and the Virgin Islands

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: Regulations promulgated under the provisions of Section 111(d) of the Clean Air Act, as amended, require states to submit plans to the Environmental Protection Agency (EPA) to control fluoride emissions from

existing primary aluminum plants. Alternatively, a state can submit to the EPA a "negative declaration" which certifies that no existing primary aluminum plants are located within the state's boundaries. In the March 24, 1981 **Federal Register** (46 FR 18321) the EPA proposed approval of "negative declarations" submitted to it by the Territory of the Virgin Islands and New Jersey. Today's notice announces final approval of these "negative declarations."

DATE: This action is effective on June 9, 1981.

ADDRESSES: Copies of the "negative declarations" from the Virgin Islands and New Jersey are available for inspection at the following addresses:

Environmental Protection Agency, Region II, Air Programs Branch, 26 Federal Plaza, Room 1005, New York, New York 10278.

Environmental Protection Agency, Public Information Reference Unit, 401 M Street SW., Washington, D.C. 20460.

The Office of the Federal Register, 1100 L Street NW., Room 8401, Washington, D.C. 20408.

New Jersey Department of Environmental Protection, Division of Environmental Quality, John Fitch Plaza, Trenton, New Jersey 08625.

Virgin Islands Department of Conservation and Cultural Affairs, Division of Environmental Health, Charlotte Amalie, St. Thomas, Virgin Islands 00801.

FOR FURTHER INFORMATION CONTACT: William S. Baker, Chief, Air Programs Branch, U.S. Environmental Protection Agency, Region II Office, 26 Federal Plaza, New York, New York 10278, (212) 264–2517.

SUPPLEMENTARY INFORMATION: Section 111(d) of the Clean Air Act, as amended, and 40 CFR Part 60 require states to submit plans to the Environmental Protection Agency (EPA) to control emissions of "designated pollutants" from "designated facilities." "Designated pollutants" are pollutants which are not included in a list published under the provisions of Section 108(a) or Section 112(b)(1)(A) of the Clean Air Act, but which are pollutants for which standards of performance for new sources have been established under Section 111(b) of the Clean Air Act. A "designated facility" is an existing facility which emits a designated pollutant and which would be subject to a new source performance standard for that pollutant if the facility were new. In lieu of a control plan, as provided for in 40 CFR Part 62, Subpart A, a state can submit to EPA a "negative declaration" which certifies that for a specific "designated pollutant" no "designated facilities" exist within its boundaries.

In the **Federal Register** of March 24, 1981 (46 FR 18321), EPA proposed approval of "negative declarations" relating to fluoride emissions from existing primary aluminum plants for New Jersey and the Virgin Islands. In the proposal, EPA invited the public to submit written comments on its intent to approve the "negative declarations." No comments were received. Therefore, EPA is hereby promulgating without change its approval of the "negative declarations" submitted by New Jersey and the Virgin Islands. Furthermore, this action is being made effective immediately since it imposes no hardship on any source.

Under Section 307(b)(1) of the Clean Air Act, judicial review of this action is available only by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit within 60 days of today. Under Section 307(b)(2) of the Clean Air Act, the requirements which are the subject of today's notice may not be challenged later in civil or criminal proceedings brought by EPA to enforce these requirements.

Pursuant to the provisions of 5 U.S.C. 605(b), I hereby certify that this rule will not have a significant economic impact on a substantial number of small entities. This action will impose no new regulatory requirements, but instead will exempt the State of New Jersey and the Territory of the Virgin Islands from the requirements of Subpart B of 40 CFR Part 60 for this particular designated pollutant.

Under Executive Order 12291, EPA must judge whether a regulation is "Major" and therefore subject to the requirement of a Regulatory Impact Analysis. This regulation is not major because it identifies areas where state plans are not needed, thereby reducing further regulatory requirements.

This regulation was submitted to the Office of Management and Budget for review as required by Executive Order 12291.

(Secs. 111 and 301(a), Clean Air Act, as amended (42 U.S.C. 7413 and 7601))

Note.—Incorporation by reference of the State Implementation Plans for the Territory of the Virgin Islands and the State of New Jersey was approved by the Director of the Federal Register on July 1, 1980.

Dated: June 3, 1981.

Anne M. Gorsuch,

Administrator.

Part 62, Subparts FF and CCC, Chapter I, Title 40 of the Code of Federal Regulations are amended by adding §§ 62.7602 and 62.13353 as follows:

* * * * *

Subpart FF—New Jersey

Fluoride Emissions From Primary Aluminum Reduction Plants

§ 62.7602 Identification of plan—negative declaration.

The New Jersey Department of Environmental Protection submitted, on September 29, 1980, a letter certifying that there are no existing primary aluminum plants in the State subject to Part 60 Subpart B of this Chapter.

* * * * *

Subpart CCC—Virgin Islands

Fluoride Emissions From Primary Aluminum Reduction Plants

§ 62.13353 Identification of plan—negative declaration.

The Virgin Islands Department of Conservation and Cultural Affairs submitted, on July 21, 1980, a letter certifying that there are no primary aluminum plants in the Territory subject to Part 60, Subpart B of this Chapter.

BILLING CODE 6560-38-M

---

40 CFR Part 86

[EN-FRL-1822-7]

Clarification of Regulations Establishing Emission Standards for Carbon Monoxide (CO) for Certain 1982 Model Year Light-Duty Vehicles.

AGENCY: Environmental Protection Agency. (EPA).

ACTION: Clarification of final rule.

SUMMARY: This notice clarifies the extent of coverage of a previous regulation which established a CO emission standard for one 1982 model year light-duty vehicle model for which EPA granted a waiver from the standard otherwise applicable under section 202(b)(5) of the Clean Air Act, 42 U.S.C. § 7521(b)(5). The effect of this notice is to allow the affected manufacturer to introduce into commerce the vehicles in question under the less stringent waived CO emission standard prescribed below.

EFFECTIVE DATE: July 9, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Jerry Schwartz Attorney/Advisor,

Manufacturers Operations Division (EN-340), U.S. Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460, (202) 472-9421.

SUPPLEMENTARY INFORMATION: Section 202(b)(1)(A) of the Clean Air Act (the Act), 42 U.S.C. § 7521(b)(1)(A), requires that regulations applicable to CO emissions from light-duty vehicles or engines manufactured during or after the 1981 model year shall contain standards which require a reduction of at least 90 percent from CO emission levels allowable under the 1970 model year standards. Regulations implementing this requirement have established a CO standard, often referred to as the statutory standard for CO, of 3.4 grams per vehicle mile (g/mi).

Section 202(b)(5) of the Act authorizes the Administrator, on application of any manufacturer, to waive the statutory CO standard for the 1981 and 1982 model years for any light-duty vehicle model regarding which the Administrator can make certain findings. Upon granting a waiver application, the Act requires simultaneous promulgation of regulations adopting emission standards not permitting CO emissions from vehicles of the model to exceed 7.0 g/mi.

On September 13, 1979, EPA issued a waiver decision and final rule (44 FR 53376) establishing a substitute standard of 7.0 g/mi for the 1981 and 1982 model years for a 3.8 liter (L) vehicle model (engine family for purposes of that decision) produced by General Motors Corporation (GM). On January 12, 1981, GM sent EPA a letter which requested EPA to clarify whether its new 1982 model year 3.0L engine, derived from its 3.8L engine, was covered by the CO waiver granted to the 3.8L model.

EPA has concluded on the basis of the information in GM's letter and in GM's previous waiver application that the determinations made in the first CO waiver decision regarding the GM 3.8L/V-6 engine family are applicable to the 3.0L/V-6 engine, and that the technology represented by the 3.0L/V-6 is within the scope of the CO waiver granted the GM 3.8/V-6. GM has provided EPA with information that shows that the 3.0L/V-6 engine in question is similar to the 3.8L/V-6 in all major parameters except for a shorter piston stroke and consequent smaller displacement. The displacement difference between the two engines is within the 50 cubic inch displacement differential EPA has established for determining engine family relationship for certification purposes and the two engines will be employed in vehicles of similar weight and size. GM also projects slightly improved fuel economy for the 3.0L/V-6 relative to the GM 3.8L/V-8 model.

Recent certification durability test data do indicate that the 3.0L/V-6 version may be able to meet the 3.4 g/mi CO emission standard in certification testing. Nevertheless, GM's information indicates that the 3.0L/V-6 emissions control technology is substantially similar to that of the 3.8L/V-6 for which a waiver for the 1981 and 1982 model years was previously granted. The design difference between the 3.8L and 3.0L versions are minor enough to permit me to conclude that the emissions characteristics of the 3.8L/V-6 emission control system are representative of the emissions characteristics of the 3.0L/V-6 system.

For clarification, this notice amends 40 CFR 86.082-(a)(1)(ii) to reflect this decision.

Under section 553(b) of the Administrative Procedure Act, EPA finds that a notice of proposed rulemaking on these amendments and public procedures thereon is unnecessary and contrary to the public interest. These technical amendments clarify the scope of an earlier decision based upon notice, comment, and public hearing. Repeating those procedures would be unnecessary, and would delay production and introduction of the 3.0L/V-6 engine.

Note.—EPA has determined that this action is not a major rule under Executive Order 12291, 46 FR 13193 (February 19, 1981), and therefore does not require a Regulatory Impact Analysis. These technical amendments will have no adverse effects on the economy, and indeed should result in a cost savings for consumers and the affected manufacturer. These amendments should have no adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Finally, under the Regulatory Flexibility Act, 5 U.S.C. section 601 *et. seq.*, EPA is required to determine whether a regulation will have a significant economic impact on a substantial number of small entities so as to require a regulatory analysis. The interim CO emission standard clarified by this notice directly affects only GM, which is not a "small entity" under the Regulatory Flexibility Act. Therefore, pursuant to 5 U.S.C. § 605(b), I hereby certify that this rule will not have a significant economic impact on a substantial number of small entities.

(Sections 202 and 301(a) of the Clean Air Act, as amended, 42 U.S.C. §§ 7521 and 7501(a))

Dated: April 22, 1981.

Richard D. Wilson,

Acting Assistant Administrator for Enforcement.

40 CFR 86.082-8(a)(1)(ii) is revised to read as follows:

§ 86.082-8 Emissions standards for 1982 light-duty vehicles.

(a)(1) * * *

(ii) Carbon monoxide—3.4 grams per vehicle mile (2.11 grams per vehicle kilometer), except that carbon monoxide emissions from light-duty vehicles of the following 1982 model year engine families shall not exceed 7.0 grams per vehicle mile (4.35 grams per vehicle kilometer):

Manufacturer	Engine family
American Motors Corporation	151 CID.
	258 CID.
BL Cars, Ltd.	215 CID.
	326 CID.
Chrysler Corporation	11.6 liter.
	1.7 liter.
	2.2 liter.
	12.6 liter.
	3.7 liter.
	5.2 liter/2V.
	5.2 liter/4V.
Ford Motor Company	1.6 liter.
	2.3L/Turbocharged.
General Motors Corporation	1.6L.
	1.8/2.0 liter.
	2.8 liter/173 CID-2V.
	3.0/3.8 liter/2V.
Toyota Motor Company, Ltd.	88.6 CID.

* * * * *

(Section 202 and 301(a) of the Clean Air Act, as amended, 42 U.S.C. 7521 and 7501(a))

Subject: Clarification of Regulations Establishing Emission Standards for Carbon Monoxide (CO) for Certain 1982 Model Year Light-Duty Vehicles.

The Regulatory Flexibility Certification

Under the Regulatory Flexibility Act, 5 U.S.C. 601 et. seq., EPA is required to determine whether a regulation will have a significant economic impact on a substantial number of small entities so as to require a regulatory analysis. The interim CO emission standard clarified by this notice directly affects only GM, which is not a "small entity" under the Regulatory Flexibility Act. Pursuant to 5 U.S.C. section 605(b), I hereby certify that this rule will not have a significant economic impact on a substantial number of small entities.

Dated: June 3, 1981.

Anne M. Gorsuch,

Administrator.

[FR Doc. 81-17107 Filed 6-8-81; 8:45 am]

BILLING CODE 6560-33-M

40 CFR Part 180

[PP 6F1799/R326; PH-FRL-1848-1]

Chlorothalonil; Tolerances and Exemptions From Tolerances for Pesticide Chemicals in or on Raw Agricultural Commodities

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes a tolerance for the combined residues of the fungicide chlorothalonil (tetrachloroisophthalonitrile) and its metabolite 4-hydroxy-2,5,6-trichloroisophthalonitrile. The amendment to the regulation was requested by Diamond Shamrock Corporation. This regulation establishes maximum permissible levels for residues of chlorothalonil in or on the raw agricultural commodity soybeans.

EFFECTIVE DATE: Effective on June 9, 1981.

ADDRESS: Written objections may be submitted to the: Hearing Clerk, Environmental Protection Agency, Rm. M-3708 (A-110), 401 M St., SW, Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Henry M. Jacoby, Product Manager (PM) 21, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 418, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202 (703-557-7060).

SUPPLEMENTARY INFORMATION: EPA issued a notice that published in the **Federal Register** of July 6, 1976 (41 FR 27776) that Diamond Shamrock Corporation, Agricultural Chemicals Division, 1100 Superior Ave., Cleveland, OH 44114, has filed pesticide petition 6F1799 with the EPA.

The petition proposed that 40 CFR 180.275 be amended to establish a tolerance for the combined residues of the fungicide chlorothalonil (tetrachloroisophthalonitrile) and its metabolite 4-hydroxy-2,5,6-trichloroisophthalonitrile in or on the raw agricultural commodity soybeans at 0.2 part per million. No comments were received in response to this notice of filing.

The data submitted in this petition and all other relevant material have been evaluated. The scientific data considered in support of this tolerance were: two 2-year dog feeding studies (negative, with no-observed-effect-levels (NOEL) of less than 0.15 percent and 60 ppm, respectively), and an 18-month rat feeding study (NOEL of less than 0.05 percent), a 2-year rat feeding study (NOEL of 60 ppm), a three-generation rat reproduction feeding study (NOEL of less than 0.5 percent), a second three-generation rat reproduction study (NOEL of 15,000 ppm) and a series of mutagenicity studies (cell transformation in newborn rats, DNA repair, mammalian cell Gene-Point, Ames, and an *in vitro* Mammalian Point Mutation) that resulted in negative findings except for a finding that chlorothalonil may interfere with DNA repair in TA-1538 cells. A cancer study performed by the National Cancer Institute (NCI) concluded that chlorothaonil was carcinogenic in male and female Osborne-Mendel rats, but not in $B_6C_3F_1$ mice. Deficiencies have been alleged in the report of the NCI study; however, the present tolerance regulation is based on the assumption that the NCI study is valid. In an Incremental Risk Assessment based on carcinogenic and chronic effects, the analysis showed that, based on the theoretical exposure and risk associated with this tolerance (and other proposed tolerances), the carcinogenic upper limits of risk are less than 1 in 10^{-7}.

In performing the incremental risk assessment, the agency considered the potential exposure to the new born child who may consume a soy-based milk substitute. A soy-based milk substitute consists of no more than 6 percent soy oil and soy meal. Assuming that a 5 kilogram (kg) child consumes 770 grams (gm) of soy-based milk substitute per day, this is equivalent to 9.24 gm of soy substances per kg of body weight per day. By comparison, the average adult diet of 1,500 gm consists of approximately 7.25 gm of dairy products per kg of body weight. As the exposure, on a gram per kilogram of body weight basis, is not substantially different for the new born child and the adult, the agency has concluded that there would be no significant incremental risk for infants consuming a diet of soybean formula.

Based on the dog feeding study, the NOEL is 60.0 mg/kg/day. Using a 100-fold safety factor, the allowable daily intake (ADI) is 0.015 mg/kg/day and the maximum permissible intake (MPI) is 0.9 mg/day for a 60-kg person. The establishment of this tolerance results in a theoretical exposure of 0.0028 mg per day and utilizes 0.03 percent of the ADI. Established tolerances and this proposed tolerance result in a maximum theoretical exposure of 0.7633 mg/day for a 60-kg person and utilize 84.81 percent of the ADI. Tolerances have previously been established for residues of chlorothalonil in or on a variety of raw agricultural commodities, ranging from 0.1 to 15 ppm (40 CFR 180.275).

The metabolism of chlorothalonil is adequately understood and an adequate analytical method is available for enforcement purposes (gas chromatography procedure coupled with electron capture detection).

Based on the information cited above, the agency has determined that the establishment of the tolerance for residues of the fungicide chlorothalonil in or on the raw agricultural commodity will protect the public health. Therefore, the regulation is established as set forth below.

Any person adversely affected by this regulation may, on or before July 9, 1981, file written objections with the Hearing Clerk, Environmental Protection Agency, Rm. M-3708 (A-110), 401 M St., S.W., Washington, D.C. 20460. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested the objections must state the issues for the hearing. A hearing will be granted if the objections are legally sufficient to justify the relief sought.

As required by Executive Order 12291, EPA has determined that this rule is not a "major" rule and therefore does not require a Regulatory Impact Analysis. In addition, the Office of Management and Budget (OMB) has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to sec. 8(b) of that Order.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-543, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** on May 4, 1981 (46 FR 24950).

Effective on: June 9, 1981.

(Sec. 408(d) (2), 68 Stat. 514, (21 U.S.C. 347(d) (2)))

Dated: May 27, 1981.

Edwin L. Johnson,

Deputy Assistont Administrator, for Pesticide Programs.

Therefore, Subpart C of 40 CFR Part 180 is amended by alphabetically inserting the raw agricultural commodity "soybeans" in the table under § 180.275 to read as follows:

§ 180.275 Chlorothalonil; tolerances for residues.

* * * * *

Commodity	Part per million
Soybeans	0.2

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

45 CFR Part 74

Administration of Grants; Implementation of Cost Principles for Nonprofit Organizations and Amendments to Property Rules

AGENCY: Department of Health and Human Services (HHS).

ACTION: Final rule.

SUMMARY: This amendment to the HHS Department-wide grants administration regulation implements Government-wide cost principles for nonprofit organizations. It also makes some changes in the regulation's rules on property acquired with grant support.

EFFECTIVE DATE: July 9,1981.

FOR FURTHER INFORMATION CONTACT: Richard G. Sullivan, Department of Health and Human Services, Room 533-H, Hubert H. Humphrey Building, 200 Independence Avenue SW., Washington, D.C. 20201, (202) 755-7613.

SUPPLEMENTARY INFORMATION:

Cost Principles for Nonprofit Organizations

The Office of Management and Budget (OMB) published a notice in the **Federal Register** on April 26, 1977 inviting comments on proposed Government-wide cost principles for nonprofit organizations. Numerous comments on the proposal were received and a number of changes were made in response to the comments. OMB published the final principles in the **Federal Register** on July 8, 1980 (45 FR 46022) as OMB Circular A-122. The principles apply to nonprofit organizations other than State and local governments, Indian Tribal governments, institutions of higher education, hospitals, and certain other nonprofit organizations listed in Attachment C of Circular A-122.

HHS Implementation

This amendment to the Department's general grants administration regulation implements the new cost principles for nonprofit organizations. The amendment incorporates OMB Circular A-122 into the regulation by reference and automatically applies to any future changes to the Circular as of the start of an organization's first fiscal year beginning after OMB's publication of the change in the **Federal Register** (unless a different date is prescribed by OMB). Copies of the Circular will be provided to nonprofit organizations, upon request, by the Department's Regional Offices. This procedure is consistent with the procedure the Department follows in implementing other OMB Circulars on cost principles.

The amendment also includes provisions covering two cost elements—bid and proposal costs, and independent research and development costs—which are not covered by Circular A-122. In substance, these provisions are the same as the comparable provisions in the previous HHS cost principles for nonprofit organizations and therefore do not represent a substantive change to the regulation. As indicated in the amendment, the Department is continuing its long-standing policy of not allowing independent research and development costs (i.e., research and development which is not sponsored by grants, contracts, or other agreements). The Department believes that allowing these costs would have the effect of circumventing the process of evaluating proposed research and development projects and selecting the most meritorious projects for direct funding by the Department.

Paragraph 5. of Circular A–122 states that the nonprofit organizations listed in Attachment C to the Circular shall be subject to Federal cost principles applicable to commercial concerns. This part of the Circular is implemented in the amendment by requiring that these organizations use the cost principles for commercial concerns in Subpart 1–15.2 of the Federal Procurement Regulations (41 CFR 1–15.2). However, the provisions governing the treatment of independent research and development costs in Subpart 1–15.2 are inconsistent with the Department's long standing policy in this area as discussed in the previous paragraph. Allowing these provisions to be applied to nonprofit organizations subject to Subpart 1–15.2 would also be unfair to other nonprofit organizations receiving grants from the Department. Therefore, the amendment requires the same treatment of these costs for all nonprofit organizations, including those subject to subject to Subpart 1–15.2. This aspect of the amendment also does not represent a substantive change to the regulation since all nonprofit organizations were subject to this restriction under the HHS nonprofit cost principles.

Changes in Subpart on Property

Subpart O of this regulation implements the policies on equipment and other property acquired with grant support in OMB Circular A–102, "Uniform administrative requirements for grants-in-aid to State and local governments," and OMB Circular A–110, "Uniform administrative requirements for grants and agreements with institutions of higher education, hospitals, and other nonprofit organizations."

Based upon those Circulars, Subpart O defines "equipment" as tangible personal property having a useful life of more than one year and a unit acquisition cost of $300 or more per unit. In contrast, OMB Circular A–122, which we are implementing by these amendments, defines equipment as an article of tangible personal property having a useful life of more than two years and an acquisition cost of $500 or more. OMB Circular A–21, revised, "Cost principles for educational institutions," also uses that definition.

OMB plans to revise the equipment definition in Circulars A–102 and A–110 to make it the same as the definition in the Circulars A–122 and A–21 cost principles. In the meantime, by memorandum dated October 1, OMB authorized Federal agencies to use the definition in the cost principles for the purpose of the equipment policies in Circulars A–102 and A–110. This will further the goal of standardization and eliminate a source of confusion for grantees. It will also reduce record-keeping and other burdensome requirements on recipients.

Accordingly, we are amending Subpart O of Part 74 by replacing the current definition for "equipment" by the one in OMB Circulars A–122 and A–21.

Subpart O includes a rule (74.141) on supplies that are left over at the end of the grant or subgrant for which they were acquired. The rule requires that the grant be credited if the supplies exceed $1,000 in aggregate market value and are not needed for any project or program currently or previously sponsored by the Federal Government.

The rule implements a policy in OMB Circulars A–102 and A–110. OMB has recently told us that it intends the policy to apply only to supplies that have not yet been put to use in the project or program for which they were acquired. Accordingly, we are amending 74.141 so that it will apply only to these supplies.

Waiver of Proposed Rulemaking Procedures

Since this amendment to HHS regulations merely incorporates Government-wide policy established by OMB after obtaining public participation, proposed rulemaking procedures are considered unnecessary.

The provisions of the amendment concerning bid and proposal costs and independent research and development costs do not represent substantive changes to the Department's regulations; therfore, proposed rulemaking procedures are also considered unnecessary for these provisions.

Finally, the changes in the definition of "equipment" and in the rule on supplies are suggested and authorized by OMB, the first for the sake of consistency with the cost principles and the second to reflect of the intent of OMB Circulars A–102 and A–110. The changes have the effects of relieving restrictions on grantees and subgrantees. Proposed rulemaking procedures are therefore considered unnecessary for these changes.

Other Information

Timing. The changes affecting cost principles for nonprofit organizations apply as of the start of an organization's first fiscal year beginning after July 9, 1981. Early or delayed implementation is permitted by mutual agreement between a nonprofit organization and the cognizant Federal agency designated under OMB Circular A–122.

The changes to Subpart O apply as of July 9, 1981.

Effect of change in definition of equipment. Beginning July 9, 1981, recipients may regard items of tangible personal property no longer included in the definition of equipment as supplies instead of equipment. They may elect to do so for previously acquired items still on hand as well as for newly acquired items.

The Department has determined that this is not a major rule as defined in Executive Order 12291. Pursuant to the provisions of 5 U.S.C. Section 605(b), I hereby certify that this rule will not have a significant economic impact on a substantial number of small entities.

Dated: May 28, 1981.

Richard S. Schweiker,

Secretary of Health and Human Services.

Part 74 of Title 45, Code of Federal Regulations, is amended as follows:

1. The table of contents is amended by revising the entries for Section 74.141 and for appendix F to read as follows:

* * * * *

74.141 Unused supplies.

* * * * *

Appendix F [Reserved]

* * * * * *

Authority: 5 U.S.C. 301.

2. In § 74.132, the definition of "equipment" is revised to read as follows:

§ 74.132 Definitions.

* * * * *

"Equipment" means an article of tangible personal property that has a useful life of more than two years and an acquisition cost of $500 or more. Any recipient may use its own definition of equipment if its definition would at least inclulde all items of equipment as defined here.

* * * * *

3. Section 74.141 is revised to read as follows:

§ 74.141 Unused supplies.

(a) This section applies to supplies which have not yet been put to use in the project or program for which they were acquired when the grant or subgrant under which they were acquired expires or is terminated.

(b) If the unused supplies exceed $1,000 in total aggregate fair market value and are not needed for any project or program currently or previously funded by the Federal Government, the recipient may either retain or sell the supplies, and must credit the grant as follows:

(1) *Retained supplies.* The credit is computed by multiplying the Federal

share of the supplies times their current market value.

(2) *Sold supplies.* The credit is computed by multiplying the Federal share of the supplies times the proceeds from sale. However, the recipient may reduce the credit by 10% of the sales proceeds, for selling and handling expenses.

(c) For possible exemptions from this section, see § 74.135.

4. Section 74.174 is revised to read as follows:

§ 74.174 Other nonprofit organizations.

(a) Except as provided in paragraph (c) of this section, the principles to be used in determining allowable costs of activities conducted by nonprofit organizations (other than governments, institutions of higher education, and hospitals) are contained in OMB Circular A–122, including any amendments to the Circular published in the **Federal Register** by OMB. A copy of this Circular may be obtained from the Division of Cost Allocation in any HHS Regional Office. Unless otherwise prescribed by OMB, amendments to the Circular shall apply as of the start of an organization's first fiscal year beginning after the amendment is published in the **Federal Register**.

(b) OMB Circular A–122 does not cover the treatment of bid and proposal costs or independent research and development costs. The following rules apply to these costs for nonprofit organizations subject to the Circular:

(1) *Bid and proposal costs.* Bid and proposal costs are the immediate costs of preparing bids, proposals, and applications for potential Federal and non–Federal grants, contracts, and agreements, including the development of scientific, cost, and other data needed to support the bids, proposals and applications. Bid and proposal costs of the current accounting period are allowable as indirect costs. Bid and proposal costs of past accounting periods are unallowable in the current period. However, if the organization's established practice is to treat these costs by some other method, they may be accepted if they are found to be reasonable and equitable. Bid and proposal costs do not include independent research and development costs covered by subparagraph (2) of this paragraph, or preaward costs covered by Attachment B, Paragraph 33, of OMB Circular A–122.

(2) *Independent research and development costs.* Independent research and development is research and development conducted by an organization which is not sponsored by Federal or non–Federal grants, contracts, or other agreements. Independent research and development shall be allocated its proportionate share of indirect costs on the same basis as the allocation of indirect costs to sponsored research and development. The costs of independent research and development, including its proportionate share of indirect costs, are unallowable.

(c) The principles to be used in determining allowable costs of activities conducted by the nonprofit organizations listed in Attachment C to OMB Circular A–122 are contained in Subpart 1–15.2 of the Federal Procurement Regulations (41 CFR 1–15.2), except that the costs of independent research and development, including its proportionate share of indirect costs, are unallowable.

Appendix F [Reserved]

5. Appendix F to Part 74 is removed and reserved.

BILLING CODE 4110–12–M

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1000

Definition of Special Agents, Accountants, and Examiners

AGENCY: Interstate Commerce Commission.

ACTION: Correction of final rule.

SUMMARY: The Commission recently revised the definition of special agents, accountants, and examiners in 49 CFR 1000.5(c) by final rule published on December 4, 1980 (45 FR 80292). The purpose of this document is to correct an inadvertent error made in that publication. Under 49 CFR 1000.5(c) the revised list of employee titles which follows the introductory text is now amended to add the title of "Administrative Law Judge" to the list which had been inadvertently left out.

EFFECTIVE DATE: June 9, 1981.

FOR FURTHER INFORMATION CONTACT: Virgil L. Schultz (202) 275–7236.

§ 1000.5(c) [Amended]

Accordingly, 49 CFR 1000.5(c) is amended by adding Administrative Law Judges to the list of employee titles.

By the Commission.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035–01–M

49 CFR Part 1033

[Directed Service Order No. 1497]

Various Railroads—Directed Service—Chicago, Milwaukee, St. Paul and Pacific Railroad Company, Debtor (Richard B. Ogilvie, Trustee)

Decided: June 1, 1981.

AGENCY: Interstate Commerce Commission.

ACTION: Directed Service Order No. 1497.

SUMMARY: Pursuant to Section 18(b) of the Milwaukee Road Restructuring Act (MRRA) Pub. L. No. 96–101, as amended by Pub. L. No. 96–254, 45 U.S.C. 916(b), and 49 U.S.C. 11125, the Commission is directing various carriers named in the appendix (DRCs) to provide service over described lines of the Chicago, Milwaukee, St. Paul and Pacific Railroad Company, debtor (Richard B. Ogilvie, Trustee) (Milwaukee).

This directed service order is being issued on the basis of a request for three consecutive directed service periods and related certifications by the Secretary of Transportation under 45 U.S.C. 916(b). Each directed service period will be limited to (30) thirty days in duration.

EFFECTIVE DATE: This directed service order shall become effective on June 2, 1981.

FOR FURTHER INFORMATION CONTACT: Joel E. Burns (202) 275–7849, or Michael Sullivan (202) 275–0826

SUPPLEMENTARY INFORMATION:

Decision of the Commission

Background

The Chicago, Milwaukee, St. Paul and Pacific Railroad Company (Milwaukee) filed for relief under former Section 77 of the Bankruptcy Act in December 1977. Pursuant to reorganization plans, Milwaukee embargoed service over several of its lines in South Dakota on March 1, 1980, and effected abandonment over these lines on June 28, 1980. On October 27, 1980, the Bankruptcy Court approved the sale of various abandoned Milwaukee lines to the South Dakota Railroad Authority.

Section 18 of the Milwaukee Railroad Restructuring Act (MRRA), 45 U.S.C. 916, as amended by Section 116 of the Rock Island Railroad Transition and Employee Assistance Act (RITEA), Pub. L. No. 96–254, provides for directed service over Milwaukee lines or line segments where, as in the case of South Dakota, legislation was enacted by the State legislature, prior to the date of enactment of RITEA, permitting the State to tender a *bona fide* offer for

acquisition of the lines or line segments. That section limits directed service to the 30-day period immediately prior to acquisition of an involved line or line segment. Further, that section requires that the Commission *shall* provide for directed service under 49 U.S.C. 11125, upon request, if the Secretary of Transportation determines that such service cannot be continued under the Emergency Rail Service Assistance Act.

Discussion and Conclusions

Section 18(b) of MRRA provides that the Commission shall, upon request, direct service for a period not to exceed 30 days over any milwaukee line for which the Secretary of Transportation makes an appropriate certification to the Commission. A request for service has been made and the Secretary has issued the appropriate certification for Milwaukee's lines described in the appendix. Therefore, we shall direct the named DRCs to perform operations over the certified lines. We believe that the selected DRCs will be able to perform the directed operations in an efficient, economical manner.

A request for directed service under Section 18(b) of MRRA, although nominally pursuant to 49 U.S.C. § 11125, in fact presents a special situation with respect to labor protection. Here, for instance, because the involved lines have not been operated since March 1, 1980, there has been no existing work force providing transportation over the lines within the recent past. Therefore, the provision of 49 U.S.C. § 11125(b)(4) that the "directed carrier hire the employees of the other carrier to the extent that they provided that transportation for the other carrier," simply does not apply to the unique circumstances of this request.

Further, former Milwaukee employees would likely not be readily available for employment during the short periods of directed service proposed by this order. In addition, restrictions on the hiring practices of the DRCs might prevent the execution of directed service within the funding constraints imposed by the Federal Railroad Administration. Given the brief time involved, and the likely cost-prohibitive effect of hiring practice restrictions on the DRCs, we conclude that the imposition of mandatory labor conditions is inappropriate here. Moreover, Milwaukee employees have alternative benefits available under MRRA, and ordinarily we do not encumber new rail operators with employee protective conditions. We see no need to burden this operation with costs that might foreclose renewed operation of these lines and eliminate potential positions for separated Milwaukee employees and others.

The service authorized in this decision is of very limited scope and regulation under 49 U.S.C. 10901 is not necessary to carry out the transportation policy of 49 U.S.C. 10101a. Therefore, pursuant to 49 U.S.C. 10505, we will exempt the DRC(s) described in the appendix from the provisions of 49 U.S.C. 10901. Because this exemption is necessary for the immediate commencement of the requested directed service, advance public notice of the exemption, under 5 U.S.C. 553 would be impracticable, unnecessary, and contrary to the public interest.

We will direct service for the period(s) set forth in Appendix A of this order.

The terms and conditions of this directed service are set forth below.

Terms and Conditions

Effective Date—DSO No. 1497 shall be effective on the first day following the service date of this decision.

Expiration Date—Unless modified by the Commission, this order will remain in effect, with respect, with respect to each particular DRC or line segment, according to the terms set forth in the appendix.

Operations—The DRCs are authorized, respectively, to operate over the Milwaukee tracks described in the appendix. Operation over the designated tracks includes use of facilities and appurtenances thereto that are necessary or reasonably related to train operations, including but not limited to: yards and yard facilities; maintenance facilities; communication, electrical, and signal facilities; locomotive and car repair facilities; scales; etc.

Reimbursement Procedures—Reimbursement for directed service under this decison shall be limited to the amount certified for such purpose and made available by the Secretary of Transportation under Section 104(b)(1) of RITEA, and shall include only those expenses necessary to rehabilitate the track pursuant to agreements between South Dakota and the Federal Railroad Administration. Any dispersal of funds, by the Commission, will be conditioned upon receipt of such funds from the Federal Railroad Administration in accordance with the Secretary's certification.

Track Safety—The DRCs are not authorized to expend funds to rehabilitate the track except as provided in governing agreements between South Dakota and the Federal Railroad Administration.

Cars and Operating Equipment—In operating the involved Milwaukee lines, each DRC shall use its own cars and operating equipment.

Preservation of Milwaukee Property—During the period of operation of Milwaukee lines, the DRCs shall be responsible for preserving the value of the lines in accordance with the acquisition agreement between South Dakota and the Milwaukee Trustee.

Liabilities and Expenses—Prior to commencing operations, each DRC shall obtain necessary insurance in an amount reasonably estimated to cover major liabilities and expenses arising out of wrecks or derailments, personal injury claims and actions, and damage to or destruction of property on directed service lines.

Compensation for Milwaukee Lines and Facilities—This order provides for the performance of directed service operations for a period of 30 days immediately prior to acquisition of the involved line by a state. Compensation, if any, to be paid for use of Milwaukee property during directed service operations shall be governed by the terms of the relevant acquisition agreement between the State and the trustee of Milwaukee's property.

Rates—The DRCs may adopt any existing local Milwaukee rates or may establish new through or local rates on less than one day's notice to the Commission and the public.

Operational Difficulties—Any operational or other difficulties associated with the authorized operations shall be resolved by the DRC and any other affected party through negotiated agreement or, failing agreement, by the Commission's Railroad Service Board.

Reporting Requirements—The DRCs shall submit to the Commission a report on the directed service operations. This report shall include a summary of the revenues collected and the expenses incurred in the directed service operations, in a form to be specified by the Commission's Bureau of Accounts. Revenue, expenses, and statistics resulting from directed service operations shall be internally maintained separate from the DRCs other railroad operations.

We find:

1. A request for directed service has been made and the Secretary of Transportation has issued a certification to the Commission, pursuant to Section 18(b) of Pub. L. 96–101, as amended by Pub. L. 96–254, with respect to the Milwaukee lines described in Appendix A.

2. The designated DRCs are capable of performing directed service over the described line.

3. This decision will not significantly affect either the quality of the human environment or the conservation of energy resources. *See* 49 CFR Parts 1106, 1108, (1978).

4. Application of the provisions of 49 U.S.C. 10901 to the DRC described in the appendix is not necessary to carry out the transportation policy of 49 U.S.C. 10101 a and the service the DRC is authorized to perform is of limited scope. The DRC, pursuant to 49 U.S.C. 10505, should be exempted from the provisions of 49 U.S.C. 10901.

5. Advance public notice of the exemption specified in paragraph 4, above, would be impracticable, unnecessary, and contrary to the public interest.

It is ordered:

§ 1033.1497 Various railroads—directed service—Chicago, Milwaukee, St. Paul and Pacific Railroad Company, debtor (Richard B. Ogilvie, trustee)

(1) *Authority Exemption*—Pursuant to 49 U.S.C. 10505, the DRC(s) described in the appendix shall be exempt from regulation under 49 U.S.C. 10901 for the period of directed service.

(2) *Entry*—Each DRC is directed to enter upon and operate Milwaukee's lines described in the appendix pursuant to this directed service order. Entry, by each DRC respectively, shall occur and continue in accordance with the terms set forth in the appendix. Each DRC shall notify the Commission of its entry on the property immediately after such entry takes place.

(3) *Commission Filings*—All submissions filed in this proceeding should refer to "DSO No. 1497" and be sent to the following Commission offices in the Commission's Headquarters at 12th and Constitution Avenue, N.W., Washington, D.C. 20423:

- Office of the Secretary (Room 2215) (original)
- Railroad Service Board (Room 7115) (3 copies)
- Section of Finance (Room 5417) Office of Proceedings (3 copies)
- Section of Rail Service Planning (Room 5355) Office of Policy and Analysis (3 copies)

(4) *Applicability*—The provisions of this decision shall apply to intrastate, interstate, and foreign commerce.

(5) *Modifications*—The Commission retains jurisdiction to modify, supplement or reconsider this order at any time.

(6) *Funding*—All correspondence to the Commission containing requests for funding shall be addressed to: Ronald S. Young, Director, Bureau of Accounts, Interstate Commerce Commission, Room 6133, 12th and Constitution Avenue, NW, Washington, DC 20423.

Envelopes containing such requests shall have the notation "Milwaukee-DS" typed on the lower left corner.

(7) *Costs and revenues*—The DRC shall record the costs and revenues attributable to directed service in the manner prescribed in this decision and in 49 CFR 1126, 44 FR 6156, 8879 (1979) or as modified by the Bureau of Accounts, subject to the limitations set forth in the directed service certification of the Secretary of Transportation.

(8) *Service on Parties*—This decision shall be served on all parties. This decision shall also be served upon the American Short Line Railroad Association and upon the Association of American Railroads, Transportation Division (as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement).

(9) *Notice to General Public*—Notice of this decision shall be given to the general public by: (a) depositing a copy in the Office of the Secretary, Interstate Commerce Commission, Washington, DC; and (b) filing a copy with the Director, Office of the Federal Register.

(10) *Effective Date*—This decision and order shall be effective on the first day after its service date.

(11) *Expiration Date*—Unless otherwise modified by the Commission, this decision and order will expire with respect to the various DRCs in accordance with the terms set forth in the appendix.

By the Commission, Acting Chairman Alexis, Commissioners Gresham, Clapp, Trantum, and Gilliam. Commissioner Trantum dissented with a separate expression.

Agatha L. Mergenovich,

Secretary.

Commissioner Trantum, dissenting: I do not find this proposed rehabilitation project, with its incidental-at-best service, to constitute "directed service"as Congress and the Commission have used that term in the past. The $2.6 million cost should be borne by those in South Dakota who will benefit from the rehabilitation and operation of the lines, not by the Federal Government.

Milwaukee Lines Certified for Directed Service

1. A. *Carrier.* Railroad Builders, Inc.
B. *Certification Date.* May 29, 1981.

Proposed Rules

Federal Register
Vol. 46, No. 110
Tuesday, June 9, 1981

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Parts 157 and 375

[Docket No. RM81-19]

Interstate Blanket Certificates for Routine Transactions

AGENCY: Federal Energy Regulatory Commission.

ACTION: Proposed rule; extension of comment period.

SUMMARY: On March 10, 1981, the Commission issued a proposed rule which would modify its procedures under the Natural Gas Act for issuing certificates of public convenience and necessity to interstate pipelines (46 FR 16903, March 16, 1981). In a final rule issued in Docket No. RM79-34 on May 21, 1981 (published concurrently with this notice)[1] the Commission extended its fuel oil displacement program pending issuance of the final rules on blanket certificates. By this notice, Commission extends the time for comments on whether the pipeline transportation of end user natural gas for the displacement of fuel oil should be included in the final rule on blanket certificate procedures.

DATE: Comments due on or before June 21, 1981.

ADDRESS: File comments with: Office of Secretary, 825 North Capitol Street, N.E., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT: Kenneth F. Plumb, Secretary, FERC (202) 357-8400.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 161

[Docket No. 80N-0385]

Quick Frozen Lobsters, Rock Lobsters, Spiny Lobsters, and Slipper Lobsters; Termination of Consideration of Codex Standard

AGENCY: Food and Drug Administration.

ACTION: Notice of Termination of Consideration.

SUMMARY: This notice terminates the review by the United States of the Codex Alimentarius Commission (Codex) "Recommended International Standard for Quick Frozen Lobsters". The response to the Food and Drug Administration's (FDA's) request for comments on the provisions of the Codex standard and on the desirability of establishing a U.S. standard for quick frozen lobsters indicates that there is neither sufficient interest in nor need to warrant proposing a U.S. standard for these foods. Therefore, FDA has terminated consideration of developing a U.S. standard for quick frozen lobsters based on the Codex standard.

EFFECTIVE DATE: June 9, 1981.

FOR FURTHER INFORMATION CONTACT: Eugene T. McGarrahan, Bureau of Foods (HFF-215), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-245-1155.

SUPPLEMENTARY INFORMATION: In the Federal Register of November 4, 1980 (45 FR 73095), FDA published an advance notice of proposed rulemaking that offered interested persons an opportunity to review the Codex "Recommended International Standard for Quick Frozen Lobsters" and to comment on the desirability and need for a U.S. standard for these foods. The Codex standard was submitted to the United States for consideration for acceptance by the Joint Food and Agriculture Organization/World Health Organization Codex Alimentarius Commission.

Two comments were received in response to the advance notice of proposed rulemaking. One of the comments opposed establishing a U.S. standard of identity and the other one suggested modifications to the standard without expressing either approval of, or opposition to, establishing a standard.Therefore, FDA concludes that there is neither sufficient interest in nor need to warrant proposing a U.S. standard, at this time, for quick frozen lobsters under the authority of 21 U.S.C. 341.

Therefore, under the procedures in 21 CFR 130.6, notice is given that the Commissioner of Food and Drugs has terminated consideration of developing a U.S. standard for quick frozen lobsters based on the Codex standard. This action is without prejudice to future consideration of the development of a U.S. standard for quick frozen lobsters upon appropriate justification.

The Codex Alimentarius Commission will be informed that an imported food that complies with the requirements of the Codex standard for quick frozen lobsters may move freely in interstate commerce in this country, providing it complies with applicable U.S. laws and regulations.

Dated: June 3, 1981.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4110-03-M

POSTAL SERVICE

39 CFR Part 10

International Express Mail Rates; Rates to the Republic of South Africa

AGENCY: Postal Service.

ACTION: Proposed international express mail rates to the Republic of South Africa.

SUMMARY: Pursuant to its authority under 39 U.S.C. 407, the Postal Service proposes to begin International Express Mail Service with the Republic of South Africa at rates indicated in the table below. The proposed rates are scheduled to become effective on July 20, 1981.

DATE: Comments must be received on or before July 8, 1981.

ADDRESS: Written comments should be directed to the General Manager, Rate Design Division, Rates and Classification Department, U.S. Postal Service, Washington, DC 20260. Copies of all written comments will be

available for public inspection and photocopying between 9 a.m. and 4 p.m. Monday through Friday in Room 8606, 475 L'Enfant Plaza West, SW, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Martin R. Anker (202) 245–4418.

SUPPLEMENTARY INFORMATION: Although 39 U.S.C. 407 does not require advance notice and opportunity for submission of comments and the Postal Service is exempted by 39 U.S.C. 410(a) from the provisions of the Administrative Procedure Act regarding proposed rulemaking (5 U.S.C. 533), the Postal Service invites interested persons to submit written data, views, or arguments concerning the proposed rates of postage for International Express Mail set out in the following table (designated Table 19 for inclusion as a separate country entry in the International Mail Manual, incorporated by reference 39 CFR 10.1).

In consideration of the foregoing, the Postal Service proposes to add Table 19 to the International Mail Manual to read as follows:

(39 U.S.C. 401,403, 404(2), 407, 410(a), Universal Postal Convention, Lausanne, 1974. T.I.A.S. No. 8231, Art. 6)

W. Allen Sanders,

Associate General Counsel,Office of General Law and Administration.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 180

[OPP-300050; PH-FRL-1848-6]

Ammonium Chloride; Proposed Exemption From the Requirement of a Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: This amendment proposes that ammonium chloride, already listed as exempt from the requirement of a tolerance, be exempted for an additional use pattern. The present exemption (40 CFR 180.1001(c)) limits use to "Intensifier when used with ammonium nitrate as dessicant or defoliant." This proposed rule would add "Fire suppressant in aluminum phosphide and magnesium phosphide formulations." This proposal was submitted by Research Products Company.

DATE: Written comments must be received on or before July 9, 1981.

ADDRESS: Written comments to: John A. Shaughnessy, Registration Division (TS–767C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: John A Shaughnessy, (703–557–7110).

SUPPLEMENTARY INFORMATION: At the request of Research Products Company, Box 1057, Salina, KS 67401, the Administrator, proposes to add an additional use to the present exemption of ammonium chloride. This would read "Fire suppressant in aluminum phosphide and magnesium phosphide formulations."

Inert ingredients are all ingredients which are not active ingredients as defined in 40 CFR 162.3(c), and include, but are not limited to, the following types of ingredients (except when they have pesticidal efficacy of their own): solvents such as water; baits such as sugar, starches, and meat scraps; dust carriers such as talc and clay; fillers; wetting and spreading agents; propellants in aerosol dispensers; and emulsifiers. The term inert is not intended to imply nontoxicity; the ingredient may or may not be chemically active.

Preambles to proposed rulemaking documents of this nature include the common or chemical name of the substance under consideration, the name and address of the firm making the request for the exemption, and toxicological and other scientific bases used in arriving at a conclusion of safety in support of the exemption.

Name of inert ingredient	Name and address of requestor	Basis for approval
Ammonium Chloride	Reserch Products Co Box 1057, Salina, KS 67401.	Presently cleared under 40 CFR 180.1001(c) when used with ammonium nitrate Also cleared under 21 CFR 182.90 for use in packaging of food. Used in medicine as expectorant, diuretic Naturally occuring material in human intra- and extra-cellular fluids.

Based on the above information, and a review of its use, it has been found that, when used in accordance with good agricultural practice, this ingredient is useful and does not pose a hazard to the environment. It is concluded, therefore, that the proposed amendment to 40 CFR 180.1001(c) will protect the public health, and it is proposed that the regulation be established as set forth below.

Any person who has registered or submitted an application for the registration of a pesticide under Federal Insecticide, Fungicide, and Rodenticide Act, which contains ammonium chloride may request, July 9, 1981, that this proposal be referred to an advisory committee in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments on the proposed regulation. The comments must bear notation indicating both the subject and the petition and the document control number "[OPP–300050]." All written comments filed in response to this notice of proposed rulemaking will be available for public inspection in the Process Coordination Branch (TS–767C), Room 514D CM No. 2, Environmental Protection Agency, Arlington, VA, from 8:00 a.m. to 4:00 p.m. Monday through Friday, except legal holidays.

As required by Executive Order 12291, EPA has determined that this rule is not a "Major" rule and therefore does not require a Regulatory Impact Analysis. In addition, the Office of Management and Budget (OMB) has exempted this

regulation from the OMB review requirement of Executive Order 12291, pursuant to section 8(b) of that Order.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96–534, 94 Stat. 1164, 5 U.S.C. 601–612), the Administrator has determined that the regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (46 FR 24950).

(Sec. 408(e), 68 Stat. 514, (21 U.S.C. 346a(e))

Dated: June 1, 1981.

Douglas D. Campt,

Director, Registration Division, Office of Pesticide Programs.

Therefore, it is proposed that 40 CFR 180.1001(c) be amended by revising the entry "ammonium chloride" to read as follows:

§ 180.1001 Exemption from the requirement of a tolerance.

* * * * *

(c) * * *

Inert ingredients	Limits	Uses
* * * * *		
Ammonium chloride		Intensifier when used with ammonium nitrate as dessicant or defoliant. Fire suppressant in aluminum phosphide and magnesium phosphide formulations.

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 67

[Docket No. FEMA 6048]

Proposed Flood Elevation Determinations Under the National Flood Insurance Program; Correction

AGENCY: Federal Insurance Administration, FIA.

ACTION: Correction of proposed rule.

SUMMARY: This document corrects a proposed rule on base (100-year) flood elevations for the Commonwealth of Puerto Rico; Rio de La Plata Basin, that appeared on page 26083 in 46 FR on May 11, 1981.

EFFECTIVE DATE: May 11, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, National Flood Insurance Program, (202) 755–5585, Federal Emergency Management Agency, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: All proposed elevations for all flooding sources in Rio de La Plata Basin and Rio Grande de Manati Basin, Commonwealth of Puerto Rico, appeared as "Elevation in feet (NGVD)". The elevations should have appeared as "Elevation, meters above mean sea level (MSL)". The values appearing in the elevations column were all correct but the heading was not.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator, 44 FR 20963).

Issued: May 29, 1981.

Richard W. Krimm,

Acting Administrator, Federal Insurance Administration.

DEPARTMENT OF COMMERCE

Maritime Administration

46 CFR Part 310

Merchant Marine Training; Regulations and Minimum Standards for State Maritime Academies and Colleges

AGENCY: Maritime Administration, Department of Commerce.

ACTION: Proposed rulemaking.

SUMMARY: The Maritime Administration proposes to amend its regulations relative to merchant marine training at the State maritime academies to conform the regulations to the provisions of the recently enacted Maritime Education and Training Act of 1980 (Pub. L. 96–453) and to revise the form of the agreement between the Maritime Administration and the State maritime academies and colleges.

DATES: Written comments by interested persons must be received on or before June 24, 1981. The standard agreement between the Maritime Administration and the six State maritime academies to be executed on or before July 1, 1981, provides that it is subject to the provisions of the regulations. Accordingly, an abbreviated comment period is required.

ADDRESS: Send the original and five (5) copies of the comments to the Secretary, Maritime Administration, Washington, D.C. 20230. All comments will be made available for inspection during normal business hours in Room 3099–B, Department of Commerce, 14th & E Streets, N.W., Washington, D.C. 20230.

FOR FURTHER INFORMATION CONTACT: Mr. Erich J. Bernhardt, Academies Program Officer, Maritime Administration, Office of Maritime Labor & Training, Main Commerce Building, Washington, D.C. 20230 (202) 377–1170.

SUPPLEMENTARY INFORMATION: The Maritime Education and Training Act of 1980 (Pub. L. 96–453) contains a number of key provisions with respect to merchant marine training at the State maritime academies. The following is a summarization of the substantive changes the Maritime Administration is proposing to conform the regulations in Subpart A of 46 CFR Part 310 to the requirements of law, as amended by Pub. L. 96–453.

Section 310.2 Federal Assistance—We are proposing that a provision on fuel costs be added in the event that funds should be appropriated and be available for this purpose.

Section 310.3 Schools and Courses—The paragraph dealing with the use of the training ships is being revised to clarify the fact that the training ships may also be used as instructional and laboratory facilities and for berthing of entering class cadets on a limited basis. The provision concerning the admission of out-of-state students would be amended. It now states that a school must agree to admit residents of other states to the extent of "at least 10 percent of the school's student capacity." It would be amended to tie the 10 percent requirement to the size of the entering class rather than the student capacity, which may or may not be fully utilized. Finally, it provides that copies of the Federal Curriculum Standards for Merchant Marine Officer Training at the State maritime academies may be obtained from the Office of Maritime Labor and Training, Maritime Administration.

Section 310.4 Training Ship—As amended this section would provide greater detail about the responsibilities of the Federal Government and the schools in various areas such as the furnishing of a training ship, maintenance and repair, property aboard the ship, condition surveys, cruises, hospitalization and termination of use of a ship.

Section 310.5 Personnel—As amended it would further clarify the qualifications for the Commanding Officer of the training ship and require that the requisite two (2) years minimum experience as a Master, Chief Officer, Commanding Officer or Executive must have been obtained within the last five (5) years.

Section 310.6 Entrance Requirements—The proposed amendments provide that as a condition of Federal support cadets enrolled prior

to April 1, 1982, must take all necessary and positive steps to obtain a commission as Ensign, Merchant Marine Reserve, U.S. Naval Reserve. Further, it provides that such students will agree that a graduation certificate will not be issued to subsidized students until they pass the United States Coast Guard original licensing examination. Also, it provides for entrance requirements of students admitted on or after April 1, 1982. The requirements track the provisions of the Maritime Education and Training Act of 1980.

Section 310.7 Federal Student Subsistence Allowances and Student Incentive Payments—As revised this section sets forth the policy regarding subsidized cadets who are disenrolled or make a commitment to the Naval Reserve Officers Training Corps Program. Such individuals may not reclaim their original subsidy status.

A new provision on student incentive payments is proposed. Essentially, it describes the manner in which student incentive payments will be awarded and indicates that unused payments may be temporarily reallocated on a need basis to other academies. Also, it provides the form of a service obligation agreement which students sign in order to be able to receive the student incentive payment. The agreement contains stipulations concerning the use of Federal funds, completion of the course of instruction, completion of the licensing requirements, commissioning as an officer in a reserve component, and serving the foreign and domestic commerce and national defense of the United States for at least three (3) years following graduation. Further, the provision defines what is considered acceptable marine-related employment, i.e., positions of operational, management and administrative responsibility. A satisfactory year of afloat employment is also defined and the three year reporting requirements of the graduates are delineated.

Finally, it describes the consequences for breaching the service obligation agreement. Students who are in their junior or senior year may be ordered to active duty in the United States Navy for a period not to exceed two (2) years. Graduates who breach their agreement may be ordered to active duty in a uniformed service of the United States for a period not more than the unexpired portion of their three (3) year service requirement. The service obligation requirements may be waived in hardship cases. Also, in exceptional cases two (2) year deferments of the service obligation may be granted for the purpose of doing marine or maritime-related graduate study at an accredited graduate school.

Section 310.13 Form of Agreement—This section sets forth the format of a new agreement that will be effective July 1, 1981. It incorporates the provisions of Pub. L. 96–453, pertinent provisions from the current agreements, the latest addendum concerning an audit clause in the current contracts. Additionally, it reflects appropriate changes regarding style and terminology.

The Assistant Secretary of Commerce for Maritime Affairs has made a determination, pursuant to the provisions of Executive Order 12291 that the preparation of a regulatory impact analysis is not required. The proposed regulation is not considered a major rule under Executive Order 12291. The regulation concerns maritime training, would have no impact on U.S. commerce, and does not require preparation of a regulatory flexibility analysis, pursuant to the regulatory Flexibility Act of 1980 (Pub. L. 96–354). The reporting requirement imposed on six (6) State academies under § 310.7(b)(6) is exempt from the provisions of the Paperwork Reduction Act of 1980 (Pub. L. 96–511). The Maritime Administration will develop specific reporting requirements for State academy graduates which are subject to approval by the Office of Management and Budget. Accordingly, it is proposed that 46 CFR, Part 310, Subpart A be revised to read as follows:

PART 310—MERCHANT MARINE TRAINING

Subpart A—Regulations and Minimum Standards for State Maritime Academies and Colleges

Sec

310.1 Definitions.
310.2 Federal assistance.
310.3 Schools and courses.
310.4 Training ship.
310.5 Personnel.
310.6 Entrance requirements.
310.7 Federal student subsistence allowances and student incentive payments.
310.8 Leave.
310.9 Medical attention and injury claims.
310.10 Discipline and dismissal.
310.11 Cadet uniforms.
310.12 Scope and effect.
310.13 Form of agreement.

§ 310.1 Definitions.

For purposes of §§ 310.1 through 310.13:

(a) "The 1958 Act" means the Maritime Academy Act of 1958, Public Law 85–672.

(b) "Act" means the Maritime Education and Training Act of 1980, Public Law 96–453.

(c) "Administration" means the Maritime Administration, United States Department of Commerce.

(d) "Agreement" means an agreement between a State maritime academy or college and the Assistant Secretary of Commerce for Maritime Affairs as authorized by the 1958 Act or the Act and set forth in § 310.13 of this part.

(e) "Secretary" means Secretary of Commerce.

(f) "Assistant Secretary" means the Assistant Secretary of Commerce for Maritime Affairs.

(g) " Cadet" means cadet enrolled in the United States Maritime Service and in good standing at a State or Territorial maritime academy or college meeting the requirements of the 1958 Act.

(h) "Commanding Officer" means the Commanding Officer of a training ship furnished by the Administration.

(i) "Deputy" means the Deputy Assistant Secretary.

(j) "Maritime Service" means the United States Maritime service.

(k) "Officers" means all officers and faculty employed by a State maritime academy or college.

(l) "Region Director" means the Director of the Administration's region office in which a School is located or in which a training ship is located.

(m) "School" means State or Territorial or Regional maritime academy or college meeting the requirements of the Act.

(n) "Superintendent" means the superintendent or president of a School.

(o) "Supervisor" means the employee of the Administration designated to supervise the Federal Government's interest in a School under the provisions of the Act, an agreement, and this subpart.

(p) "Training ship" means a vessel used for training by a school and furnished by the Administration to a State or Territory, and includes the ship itself and all its equipment, apparel, appliances, machinery boilers, spare and replacement parts and other property contained in it.

(q) "Midshipman" means a student in good standing at a State maritime academy or college who has accepted midshipman status in the United States Naval Reserve (including the Merchant Marine Reserve, United States Naval Reserve) under the Act.

§ 310.2 Federal assistance.

(a) The Assistant Secretary may enter into agreements with the present or later established schools (not more than one

such school in each State or Territory) meeting the requirements of the Act to make annual payments, for not in excess of four (4) years in the case of each such agreement, to be used for the maintenance and support of such schools. The amount of each such annual payment shall be not less than the amount furnished to such academy for its maintenance and support by the State or Territory in which such academy is located or, in the case of a Regional maritime academy an amount equal to the amount furnished to such academy for its maintenance and support by all States or Territories, or both, cooperating to support such academy but shall not exceed $100,000. However, the amount shall not exceed $25,000, if such academy does not meet the requirements of subsection 1304(f)(2) of the Act.

(b) Pursuant to the provisions of section 1304 (c) of the Act, The Assistant Secretary, may furnish to any State or Territory of the United States for use as a training ship by a school any suitable vessel that is under his or her jurisdiction, obtain such vessel from any department or agency of the United States, or may construct and furnish a suitable vessel, if such vessel is not available.

(c) The Assistant Secretary may pay to any school the amount of the costs of all fuel consumed by a training ship furnished under the provisions of section 1304 (c)(1) of the Act while such vessel is being used for training purposes by such a school.

(d) As a condition to receiving any payments or the use of any training ship under the provisions of the Act, the school shall comply with the requirements of the Act and this subpart and shall agree in writing to conform to such requirements.

(e) As a further condition to receiving any payments or the use of any training ship, a school shall agree that, with respect to the training program for merchant marine officers, consistent with provisions of the Act, the 1958 Act, and the Agreement, it will comply with the following provisions of law and implementing regulations duly promulgated thereunder, to the extent applicable, including, but not limited to: Title VI, Civil Rights Act, 1964, (42 USC 2000d);the Age Discrimination Act of 1975 (42 USC 6101); the Vocational Rehabilitation Act—Section 504 (29 USC 794); and 15 CFR Part 8. Each school shall give assurances that it will take any and all measures necessary to effectuate compliance.

§ 310.3 Schools and Courses.

(a) *Schools with Federal aid.* The following schools are presently operating with Federal aid under the 1958 Act or the Act:

California Maritime Academy
Maine Maritime Academy
Massachusetts Maritime Academy
State University of New York Maritime College
Texas Maritime College of the Texas A&M University at Galveston
The Great Lakes Maritime Academy

(b) *General rules for operation of schools.* (1) The schools shall maintain adequate berthing, messing and classroom instruction facilities ashore, or have plans to establish same at the earliest possible time, unless prevented from doing so by conditions beyond the control of the school. During a period a school is implementing an approved plan, cadets may be housed and instructed on a training ship. However,the approved plan may include the ongoing use of the training ship as an instructional and laboratory facility and for the berthing of entering class cadets for a period not to exceed six months for purposes of shipboard indoctrination.

(2) The school shall arrange for the cadet or midshipman to take the United States Coast Guard original licensing examination prior to the date of graduation.

(3) As a condition to receiving payments of any amount allowable by the 1958 Act and the Act in excess of $25,000 for any year, a school shall agree to admit student residents of other States to the extent of at least ten percent (10%) of each entering class, if such out-of-State students apply for admission and are otherwise qualified for such admission. The calculation of residents of other States shall exclude residents of foreign countries, but shall include residents of Territories and possessions of the United States (including the Commonwealth of Puerto Rico).

(4) Upon the request of the Administration a school shall furnish such reports and estimates as may be required in the preparation of Federal Budget estimates.

(5) State authorities shall prescribe and administer rules and regulations for the internal organization and administration of each school.

(6) The Administration shall have the right to inspect shore base facilities at all reasonable times.

(7) Records pertaining to a school, its officers, crew, cadets, the training ship, and shore base, shall be maintained by each school and shall be available to the Supervisor upon request. A detailed record of applications for admissions, enrollments, reenrollments, absences with or without leave, hospitalizations, determinations of students not in good standing, disenrollments, graduations, and other data concerning cadets and Midshipmen shall be kept by each school for the period of enrollment plus one year. Copies of these records shall be furnished to the Supervisor upon request.

(8) The Administration may include in any pamphlets, brochures or other public information materials an adequate description of each school giving the reader knowledge of the existence of the school, its purposes and where to obtain application forms and further information.

(c) *Curriculum.* (1) The minimum period of training shall be three (3) years. For the cadets and midshipmen at the schools located in California, Maine, Massachusetts, New York and Texas at least six (6) months of the total time must be aboard a training ship in cruise status. A maximum of two (2) months of training time aboard commercial vessels of not less than 2,500 horsepower may be substituted for two (2) months of the specified cruise time. For the cadets at the Great Lakes Maritime Academy, six (6) months of the time shall be aboard Great Lakes commercial vessels and an additional three (3) months shall be aboard either a training ship in a cruise status or Great Lakes commercial vessels while underway. Cadets in training status aboard commercial vessels shall sign on board as cadets and shall pursue their training within the framework of formal sea projects prepared and monitored by their respective schools.

(2) State authorities shall prescribe and be responsible for the courses of instruction and general system of training and the addition of such reasonable maritime courses as may be prescribed by Federal authorities, subject to approval by the Assistant Secretary. The curriculum as a composite shall, as a minimum, meet the requirements set out in the Federal Curriculum Standards for Merchant Marine Officers Training Program.

(3) Copies of the Federal Curriculum Standards for Merchant Marine Officers Training Program at the State maritime academies may be obtained from the Maritime Administration, Office of Maritime Labor and Training, Main Commerce Building, Washington, D.C. 20230.

§ 310.4 Training ship.

The Administration may furnish a training ship, if such is available, to each of the schools. Training ships which may be designated for use by an academy will be delivered to the academy at a location determined by the Maritime Administration, in condition found to be in class by the American Bureau of Shipping and certificated by the U.S. Coast Guard. If a training ship is not available, adequate cruising facilities shall be the responsibility of the State and its school. The furnishing of a training ship shall be subject to the following terms and conditions:

(a) *General provisions.* (1) The State and its school shall exercise reasonable care to safeguard the interests of the Administration and avoid (i) injury to any person aboard the training ship, and (ii) loss and damage of every nature with respect to the training ship. Also, the school shall have reasonable layup procedures during noncruise status of the training ship.

(2) Excerpts from log books and reports shall be submitted as directed by the Supervisor.

(3) Initial telegraphic or telephonic reports shall be made promptly to the Supervisor and the appropriate Region Director in the event of an accident causing (i) serious injury to any person, or to the training ship, or (ii) damage inflicted by the training ship upon any other ship or other property. Such reports shall be followed by complete written details of the occurrence.

(4) The Supervisor shall determine whether or not the berth of the training ship at the base in its home port is suitable from the standpoint of safe mooring. When the training ship is not on cruise, the Commanding Officer or Superintendent shall keep the Supervisor informed of the location of the training ship and any contemplated change of berth.

(5) The following notice shall be posted conspicuously aboard each training ship furnished to a State for use by a school:

> This training ship is the property of the United States of America. It is furnished to the State of _____ by the Department of Commerce, Maritime Administration, for the purpose of training young men and women to become officers in the merchant marine of the United States. Neither the State, the Commanding Officer, nor any other person has any right, power or authority to create, incur or permit to be imposed upon this vessel, any lien whatever.

(6) No changes requiring U.S. Coast Guard approval shall be made to the training ship without the written approval of the Administration.

(7) In the event of the termination of the use of a training ship by the State or by the Assistant Secretary, the State shall return to the State base port, the training ship and all property whatsoever owned by the Administration. Title to all additions, replacements, and renewals made by the State shall vest in the Administration without charge.

(b) *Termination of use.* The Assistant Secretary may terminate the use of a training ship upon such reasonable notice to the State as the circumstances may permit in the judgment of the Assistant Secretary. If use of the training ship is terminated by the Assistant Secretary, the Assistant Secretary may:

(1) Substitute another training ship;

(2) Require the sharing of a training ship by two or more schools: or

(3) Cooperate with the school in arranging for training time aboard commercial vessels for its cadets and midshipmen.

(c) *Property aboard the training ship.* The State shall have the complete use of a training ship as defined, subject to the following terms and conditions:

(1) All property or its equivalent shall be returned to the Administration when use of the training ship is terminated. The only exceptions are: spare and replacement parts consumed; and losses due to ordinary wear and tear, unavoidable accident and perils of the sea. All other property otherwise lost or destroyed shall be replaced at the expense of the State.

(2) Administration property shall not be permanently removed from the training ship to the shore base without the prior written approval of the Supervisor.

(3) The administration shall take inventories of State and Federal property aboard the training ship at such times as it deems necessary. The school, at its expense, shall furnish such assistance as may be necessary in taking such inventrories.

(d) *Condition Surveys.* Before a training ship is released to a school and manned by officers under State control, a condition survey shall be made by duly authorized representatives of the school and the Administration. If the training ship is found in order, the school representative shall sign a receipt for the training ship. Subsequently, after due notice to the State authorities, a condition survey may be made of the training ship whenever deemed advisable by the Administration, and, in any event, upon redelivery of the training ship by the State to the Administration.

(e) *Maintenance and repairs.* (1) A training ship shall be maintained in good repair by the Secretary as provided by the 1958 Act and the Act. Expenses for repairs, changes and alterations, repairs to equipage and replacements of equipage in accordance with the Administration's approved allowance lists for the training ship (i.e. authorized under the Act and to the extent that funds are available), shall be borne by the Administration under the following terms and conditions:

(i) When it is necessary to repair or drydock the training ship because of damage (except in an emergency, when on foreign cruise), the Commanding Officer or Superintendent shall notify the Supervisor and appropriate Region Director by telephone or telegraph in order to enable a representative of the Region Director, if available, to be present, when the survey of the damage is made.

(ii) Repairs which need not be carried out during the annual overhaul period shall be made by the Cadets or Midshipmen, if possible, under the supervision of the officers. When repair material is required for this purpose, the Commanding Officer or Superintendent shall forward to the Supervisor a list of such material and estimated costs, and a description of the repairs to be carried out by the cadets or midshipmen. The Supervisor shall promptly advise the Commanding Officer or Superintendent whether or not such work comes under the heading of repairs, and if procurement of the material is authorized.

(iv) Requisitions covering repairs, renewals, and betterments shall be prepared in quintuplicate by the heads of departments of the training ship and submitted by the Commanding Officer or Superintendent to the Supervisor at least forty-five (45) days before the date of the annual overhaul, with one copy to the Region Director.

(v) The State is authorized to expend not to exceed $5,000 for emergency repairs which become necessary while the training ship is on foreign cruise. The Adminstration shall reimburse the State upon submission of vouchers to, and approval by, the Assistant Secretary. To obtain reimbursement for emergency repairs estimated to cost in excess of $5,000, authorization must be obtained by the State from the Supervisor prior to undertaking such repaires. The Commanding Officer shall be responsible for all necessary filings with the United States Customs Service to avoid duties upon all emergency repairs

performed outside the United States. If penalties are imposed, for non-filing or improper filing, they shall be solely the responsibility of the State. Except as otherwise provided in this section, the State shall, at its own expense, accomplish the following:

(i) Undertake usual preventive maintenance of the training ship, adhere to minimum levels of preventive maintenance as prescribed by the Administration, and keep the training ship above the waterline clean and painted according to good maritime practices.

(ii) Cause the training ship to be fumigated if required by the Administration and forward to the Supervisor a copy of the fumigation certificate.

(iii) Pay for all consumable stores, freshwater and costs incidental to the operation of the training ship.

(iv) Pay for fuel of the training ship except that the Administration may assist in paying the cost of fuel consumed on the training ship while being used for training purposes if funds are appropriated and available for such purposes.

(f) *Cruises.* The school shall submit the cruise itinerary of the training ship including a listing of foreign ports to be visited, for approval of the Supervisor at least sixty (60) days in advance of the date such cruise is scheduled to begin. The Supervisor shall arrange with the Department of State for clearance of the training ship to visit foreign ports. Permission for the training ship to visit United States Naval stations or Naval bases shall be arranged by the Supervisor.

(g) *Hospitalization.* The school shall be responsible for all medical treatment and hospitalization of all persons aboard the training ship at all times, including officers and cadets and midshipmen. If available, facilities of the United States Public Health Service should be utilized.

(h) *Repatriation and return to home port.* The school shall be responsible for the return to the home port of the training ship of all persons, including officers and cadets and midshipmen, who originally embarked on a training cruise from a Continental United States port and who are left behind, after the departure of the training ship from any port, foreign or domestic, or are to be brought home from the ship at any time or for any reason. The school shall be solely responsible for all expenses of repatriation and return to home port.

§ 310.5 Personnel.

(a) *Selection and appointment of Superintendent and faculty by State authorities.*

(1) The State shall select and appoint the Superintendent of a school in accordance with qualifications established by appropriate State authorities. The State shall notify the Assistant Secretary whenever a new Superintendent is appointed and furnished with appropriate background information on the appointee for informational purposes.

(2) The State shall appoint faculty members in disciplines other than engineering and navigation on the basis of the same criteria used in the employment of such personnel in State-supported colleges and universities throughout the State. Faculty members in navigation and engineering courses, including steam and diesel, shall meet appropriate academic and practical experience standards adopted by the school and approved by the Administration.

(b) *Personnel for training ships.* (1) *Commanding Officer.* The Commanding Officer shall hold a valid Master's Ocean, Unlimited Tonnage license, including Radar Observer endorsement issued by the United States Coast Guard and must have served at least two (2) years within the last five (5) years as Master, Chief Officer, Commanding Officer, or Executive Officer either (i) on oceangoing vessels under the authority of said Master's Ocean, Unlimited Tonnage license, or (ii) in the case of sea service as a member of the Uniformed Services of the United States, on ships accepted by the United States Coast Guard as equivalent for qualifying service for issue of a Master's Ocean, Unlimited Tonnage license.

(2) *Chief Engineer.* The Chief Engineer must hold a valid Chief Engineer's (Steam) Ocean, Unlimited Horsepower license, issued by the United States Coast Guard and have served as Chief Engineer of an oceangoing steamship of comparable horsepower to that of the particular training ship.

(3) *Watch Officers.* Both Deck and Engineer Watch Officers in charge of a watch, underway, shall hold valid Ocean, Unlimited Tonnage licenses, issued by the United States Coast Guard, in their particular field.

(4) *Radio Officers.* During each training cruise the training ship will be required to have assigned one or more radio officers holding a valid license issued by the United States Coast Guard, in accordance with its regulations.

(5) *Licensed Engineer.* When a training ship boiler is in operation, there shall be a Licensed Engineer qualified to stand the watch aboard at all times.

(c) *Insignia for officers and other School personnel.* The State may furnish insignia for officers and other school personnel, other than officers of the United States Navy, United States Naval Reserve, United States Maritime Service and United States Coast Guard.

§ 310.6 Entrance requirements.

(a) *Enrollment prior to April 1, 1982.* A candidate for admission to a school who wishes to be considered for Federal student subsistence payments shall:

(1) Be a citizen of the United States.

(2) Agree in writing before admission to (i) complete the Naval Science curriculum (ii) take all necessary and positive steps to obtain a commission as ensign in the United States Naval Reserve, (iii) apply before graduation for such commission, and (iv) accept such commission if offered. A breach of this agreement will result in termination of cadet status and of Federal student subsistence payments, and may lead to legal action for recovery of all past such payments. The requirements of this paragraph shall not apply at The Great Lakes Maritime Academy.

(3) Agree in writing before admission to sit for the appropriate licensing examination of the United States Coast Guard and, further, agree that the School shall not issue a graduation certificate until the United States Coast Guard examination is passed. A breach of this agreement will result in termination of cadet status and of Federal student subsistence payments, and may lead to legal action for recovery of all past such payments.

(4) Meet the physical standards specified by the United States Coast Guard for original licensing as a merchant marine officer. The written certification of the Superintendent of the school, based on a physical examination by a doctor, the results of which are on record at the school, that a candidate meets these requirements, will be acceptable to the Administration.

(5) Possess a secondary school education or equivalent, satisfactory for admission as an undergraduate, to colleges or universities under control of the State in which the school is located.

(6) Meet requirements established by the school in regard to such criteria as the individual's secondary school grades, rank in graduating class, aptitude, achievement as measured by an objective examination, character, personality and qualities of leadership.

(b) *Enrollment on or after April 1, 1982.* A candidate for admission to a school who wishes to be considered for

the Federal student incentive payments shall:

(1) meet the requirements of subparagraphs 1, 4, 5 and 6 of paragraph (a) above.

(2) be at least seventeen (17) years of age and not have passed the twenty-fifth (25th) birthday on the day of enrollment at a school.

(3) apply for, be offered, and have accepted midshipman status in the United States Naval Reserve (including the Merchant Marine Reserve, United States Naval Reserve) and simultaneously have applied and been accepted for Enlisted Reserve status.

§ 310.7 Federal student subsistence allowances and student incentive payments.

(a)(1) In accordance with the Administration's established freshmen subsidy allocation for each school, the school shall select the individuals in its new entering class who will be enrolled in the United States Maritime Service as cadets and start to receive Federal student subsistence payments for uniforms, textbooks and subsistence as provided in the 1958 Act. The freshmen subsidy allocations for each school are as follows: California Maritime Academy 110; Maine Maritime Academy 150; Massachusetts Maritime Academy 77; State University of New York Maritime College 251; Great Lakes Maritime Academy 50; and the Texas Maritime College 35. Each student who meets the entrance requirements in § 310.6(a) and applies for enrollment in the United States Maritime Service shall be entitled to consideration for a student subsistence payment at a rate and under the conditions in the 1958 Act. The list identifying the selected students shall be forwarded to the Administration on or before October 31, 1981. The Federal student subsistence payments will be paid to the school while a cadet is in attendance but not in excess of four (4) academic years for any one student. There will be no substitution for students removed or dropped from the list of those originally receiving Federal student subsistence payments. Subsidized students who resign or are disenrolled from a school shall not, on subsequent reenrollment, be in a position to reclaim their subsidy status. The selection of the students to receive such payments shall be made by the school in accordance with criteria established by the school, with the prior approval of the Administration. The rate of Federal student subsistence payments will be determined by the Administration according to the 1958 Act or the Act.

(2) Subsidized cadets who make a commitment to the Naval Reserve Officer Training Corps will be removed from the Maritime Administration subsidy rolls effective on the date they receive funds from the United States Navy. Should they leave the Navy program for any reason they may not reclaim the Maritime Administration subsidy as a cadet.

(3) The Administration shall make the Federal student subsistence payments no more frequently than monthly, directly to the school upon the presentation of a statement containing the names of each cadet selected by the Academy (within the quotas furnished pursuant to paragraph (a) of this section) to be enrolled in the Maritime Service and to receive the Federal student subsistence payments. For newly selected Cadets in a new entering class, the statement supporting the first voucher for payment shall certify that the cadets have met the entrance requirements in § 310.6.

(4) All vouchers submitted for payment shall contain a certification by the Superintendent that the payment will be used to assist in defraying the cost of the uniforms, textbooks, and subsistence of each cadet on the basis of the amount to which the cadet is entitled, as reflected by the attached Daily Attendance Report. No cadet shall receive a federal student subsistence payment for any time during which he or she is absent without leave or for absence due to a condition not in line of duty, or when determined by the school to be not in good standing.

(5) If it appears that the amount appropriated by Congress under the Act shall not be sufficient to make payments at the maximum rate, not in excess of $1,200 per academic year per cadet, the Assistant Secretary, after consultation with the schools, may determine the exact rate to be paid at each school for the remainder of the fiscal year.

(b) *Federal student incentive payments.* (1) *General provisions.* In accordance with the Administration's established subsidy quotas for new entering classes entering after April of 1982, each school will identify to the Administration; the students who are to be considered for the student incentive payment authorized by the Act. The students so identified must meet the requirements of § 310.6(b). The Administration shall provide the school with the necessary service obligation agreements. The agreements will be signed by the designated students and returned by the school to the Supervisor and shall become effective when signed by the Supervisor or his or her designee. A copy shall be returned to the school for transmittal to the student. Payments will be issued to these midshipmen in amounts equaling $1,200 for each academic year of attendance. Payments shall commence to accrue on the day each such midshipman begins his or her first term of work at the school. Such payments shall be made quarterly to the midshipman until the completion of his or her course of instruction but in no event for more than four (4) academic years.

The school shall submit a monthly certified Daily Attendance Report listing the names of all designated midshipmen who are entitled to student incentive payments.

(2) Temporary reallocation of Federal student incentive payments. If a school does not have a sufficient number of eligible freshment to utilize all of its alloted payments, then the unused subsidies may be reallocated on a need basis to academies with eligible students. In the next academic year, each school's subsidy quota for entering students will revert to its original level.

(3) *Form of the Service Obligation Agreement.* The service obligation agreement shall obligate the midshipman to—

(i) use the student incentive payment to defray the cost of uniforms, books and subsistence;

(ii) complete the course of instruction at the school unless sooner separated by the school;

(iii) take the examination for a license as an officer in the merchant marine of the United States on or before the date of graduation from a school and to fulfill the requirements for such license not late than three (3) months after graduation;

(iv) maintain a license as an officer in the merchant marine of the United States for at least six (6) years following graduation from a school;

(v) apply for an appointment as, accept if tendered, and serve as a commissioned officer in the United States Naval Reserve (including the Merchant Marine Reserve, United States Naval Reserve), the United States Coast Guard Reserve, or any other Reserve unit of an armed force of the United States, for at least six (6) years following graduation from a school; and

(vi) serve the foreign or domestic commerce or both, and the national defense of the United States for at least three (3) years following graduation from a school—

(*a*) as a merchant marine officer serving on vessels documented under the laws of the United States or on vessels owned and operated by the

United States or by any State or Territory of the United States;

(*b*) as an employee in a United States maritime-related industry, profession, or marine science (as determined by the Assistant Secretary), if the Assistant Secretary determines that service under paragraph (a) is not available to such individual;

(*c*) as a commissioned officer on active duty in an armed force of the United States or in the National Oceanic and Atmospheric Administration; or

(*d*) by combining the services specified in clauses (a), (b) and (c).

(4) *Marine-related employment.* (i) graduates who intend to claim employment in a United States maritime-related industry, profession of marine science as meeting all or part of the service obligation under (3)(vi) above, shall submit evidence to the Supervisor that they have conscientiously sought employment as a merchant marine officer, and that such employment is not available. Such evidence and other information available, shall be considered in any finding. In view of current and projected employment opportunites, afloat, the Assistant Secretary will grant the shoreside employment option infrequently and only on the basis of comprehensive evidence.

(ii) The Assistant Secretary may consider the positions of operational, management and administrative responsibility in the following marine-related categories under the provisions of paragraph (3)(vi)(b) of this section: civilian employment in Federal and State agencies related to maritime affairs, steamship companies, stevedoring companies, vessel chartering and operations, cargo terminal operations, naval architecture, shipbuilding and repair, municipal and state port authorities, port development, marine engineering, and tug and barge companies. The above list is not all inclusive and is only intended to serve as a general guide.

(5) *Afloat employment year.* For purposes of the service obligation, a satisfactory year of afloat employment, shall be a number of days employed afloat that is at least equal to the median number of days of seafaring employment under Articles achieved by deck or engine officers in the most recent calendar year for which statistics are available.

(6) *Reporting requirement.* The schools shall promptly submit copies of all resignation forms (containing the name, reason, address and telephone number) of juniors and seniors to the Supervisor, to be used for monitoring and enforcement purposes. Each graduate shall submit an employment report form to the Supervisor on or before July 1 of each year following their year of graduation, for three years. In case a deferment has been granted to engage in a graduate course of study, semi-annual reports must be submitted for any extension of the three (3) year obligation period resulting from such deferments. Reporting forms will be distributed by the school and the Supervisor. The reporting requirement for graduates will not become effective until there are State academy graduates subject to this provision, not earlier than 1985. The specific form to be developed by the Maritime Administration shall be subject to approval by the Office of Management and Budget.

(7) *Breach of Agreement.*

(i) If the Administration determines that any midshipman who has attended a school for not less than 2 years has failed to complete the course of instruction at a school, the Secretary of the Navy may order that midshipman to active duty in the United States Navy, to serve for a period of time not to exceed 2 years. The Supervisor shall submit the list of those who have breached their agreement to the Chief of Naval Education and Training, Pensacola, Florida 32508.

(ii) If the Administration determines that a graduate of a school has broken his or her agreement under paragraph (3), the Secretary of the Navy may order that individual to active duty to serve a period of time not less than 2 years and not more than the unexpired portion of the service required. The Assistant Secretary for Maritime Affairs, in consultation with the Secretaries of Defense and Transportation, shall determine in which service the graduate shall serve such period of time.

(8) *Waivers*—Waivers may be granted in cases where there would be undue hardship or impossibility of performance of the provisions of the agreement due to accident, illiness or other justifiable reason. Applications for waiver will be submitted to the Supervisor.

(9) *Deferments*—

In exceptional cases the Administration may grant a deferment of all or part of the service commitment under clauses (3)(ii)—(vi) for a period not to exceed two years, only for graduates considered to have superior academic and conduct records while at the school, for the purpose of their entry after graduation into a marine-or maritime-related graduate course of study at an accredited graduate school. However, the Secretary of the department (including the Secretary of the department in which the U.S. Coast Guard is operating and the Secretary of Commerce with respect to the National Oceanic and Atmospheric Administration) which has jurisdiction over such service shall approve any deferment of service as a commissioned officer. Applications for such deferment shall be made through the Superintendent of Midshipman's school, who shall forward each application together with the Superintendent's recommendation for approval or disapproval and an evaluation of the applicant's academic and conduct records, to the Supervisor for appropriate action.

(10) *Determination of Compliance with Service Agreement, Appeals and Review Procedures*—

(*a*) An official of the Administration designated by the Supervisor shall:

(*i*) render determinations of whether a student or graduate has breached his or her service agreement;

(*ii*) grant or deny a deferment of the service obligation under subparagraph (g) above;

(*iii*) grant or deny a waiver of the requirements of the service agreement in hardship cases.

(*b*) A four-person Review Panel consisting of the Supervisor serving as Chairman, and representatives of the Department of the Navy, the NOAA Corps, and the U.S. Coast Guard, shall:

(*i*) consider appeals of the decisions of the designated official pertaining to a breached agreement in hardship cases;

(*ii*) consider appeals from denial of deferral by the designated official; and

(*iii*) consider any issues of procedure or of the merits of cases referred to it by the designated official.

(*c*) The procedures for processing determinations of compliance with the service agreement shall be developed by the Supervisor and approved by the Assistant Secretary. Actual notice of such procedures will be given to each student at the time of enrollment in the program.

The decisions of the Review Panel on appeals shall be final.

§ 310.8 Leave.

Cadet and midshipman leave without loss of Federal student subsistence or incentive payments shall be as follows, with the specific periods to be set at the discretion of the Superintendent on an academic year basis:

(a) If transferred to a hospital, or sick at home, or in the sick bay, not to exceed four (4) months.

(b) For an emergency due to the serious illness, injury or death of a very near relative, not to exceed seven (7) days.

(c) Annual leave not to exceed thirty (30) days.

(d) Christmas and Easter not to exceed a total of twelve (12) days. All legal holidays—Federal and State. This leave is in addition to that granted in paragraph (c) of this section.

(e) Leave in addition to that provided in paragraphs (1)—(4) of this section, may be granted only if approved in advance by the Supervisor upon direct request by the Superintendent.

§ 310.9 Medical attention and injury claims.

(a) *Medical attention and hospitalization.* The school shall be responsible for arranging that a medical officer shall be attached or on call to the school. During the cruise, a medical officer shall be assigned to the training ship.

(b) *Compensation claims of cadets or midshipmen.* Compensation claims for personal injuries or death sustained by a cadet or Midshipman in the performance of official duty shall be forwarded to the Supervisor for transmission to the Office of Workers' Compensation Programs. The Supervisor shall furnish necessary forms.

(c) *Medical care and compensation for Officers and other personnel.* Officers and other personnel of the school, and of the training ship may avail themselves of any medical facilities furnished by the State or Federal Government for which they qualify. See, for example, 42 CFR Part 32. Such persons who are not Federal employees shall look to the State alone for pay, allowances, compensation and other benefits during injury or illness.

§ 310.10 Discipline and dismissal.

(a) Each school shall establish and publish rules and regulations governing Cadet and Midshipman discipline and providing for a demerit system for infractions of these rules and regulations. Serious or excessive violations of the rules and regulations by a cadet or midshipman may be considered as evidence of inaptitude for the demanding career of a merchant marine officer and warrant dismissal by the school.

(b) Each cadet or midshipman shall, upon admission to the school, be furnished a copy of the school's rules and regulations.

(c) Any cadet or midshipman placed on probation for failure to meet the conduct requirements of the school may, at the discretion of the Superintendent, be listed as not in good standing for any period not to exceed six (6) months for the purpose of § 310.7(4).

§ 310.11 Cadet uniforms.

Cadet uniforms shall be supplied at the school in accordance with the uniform regulations of the school. Those regulations shall prescribe a distinctive insignia or device approved by the Assistant Secretary.

§ 310.12 Scope and effect.

(a) If any provisions of this subpart conflicts with laws and regulations of the State, the appropriate State authorities shall notify the Assistant Secretary in writing of such conflict and pertinent circumstances. The Assistant Secretary, as a matter of discretion, shall take, or not take, any action determined appropriate under the 1958 Act or the Act.

(b) The Assistant Secretary may, after consultation with the Superintendents of the schools issue binding executive instructions supplementing this subpart.

§ 310.13 Form of agreement.

(a) The form of agreement between the Assistant Secretary and a school for annual maintenance and support payments, Federal student subsistence and incentive payments and fuel assistance under the 1958 Act and the Act is set forth below. The form of agreement may be augmented by special, additional articles if requested by the State and if agreed to by the Assistant Secretary. Agreement by the Assistant Secretary will be rare and will occur only if (1) the State presents good cause (e.g. explicit requirement of State law) and (2) the requested addition is not inconsistent with the 1958 Act or the Act and this subpart.

United States of America, Department of Commerce, Maritime Administration

State Maritime Academy or College Agreement

This Agreement, entered into as of the 1st day of July 1981, by and between the United States of America, acting through the Department of Commerce, Maritime Administration (hereinafter called the "Administration") and the State of ———— (hereinafter called the "State"), acting through the ———— Maritime Academy (hereinafter called the "School").

Witnesseth

Whereas:

1. The Agreement is effective July 1, 1981. A number of its provisions will become effective October 1, 1981, or later, and are so indicated;

2. "The Maritime Education and Training Act of 1980," Public Law 96–453 (hereinafter called the "Act"), effective October 1, 1981, and its predecessor statute "The Maritime Academy Act of 1958," Public Law 85–672 (hereinafter called the "1958 Act"), provide for payments to State, Regional, and Territory maritime academies and colleges (hereinafter called "schools") for the maintenance and support of such schools;

3. The 1958 Act provides for payments to the schools for students in attendance at such schools commencing with the day such students begin their first term of work at such schools until the completion of the course of instruction, but in no event for more than four academic years;

4. The Act authorizes the Administration to make payments to students entering into a service obligation agreement with the Administration;

5. The Act authorizes the Administration to pay for the cost of all fuel consumed by a training ship furnished by the Administration while such vessel is being used for training purposes;

6. The Act and the 1958 Act provide for certain requirements regarding courses of instruction and educational standards which any such schools must meet in order to receive said payments referred to in paragraph 2 above; and,

7. The Administration has determined that the School has met or by virtue of this Agreement meets all the requirements referred to in paragraph 6 above.

Now, therefore, in consideration of the premises and of the mutual promises hereinafter set forth, the parties hereto agree as follows:

Article 1. *Assistance Payments.*

The Administration, subject to the provisions of Article 5 of this Agreement, agrees to make annual payments to the school for not in excess of four years if the school has a four-year course and not in excess of three years if the school has a three-year course under this Agreement to be used for the maintenance and support of the school. The amount of each such annual payment shall be not less than the amount furnished to the school for its maintenance and support by the State but shall not exceed $25,000, or $100,000 if the school meets the requirements of Article 5(b) of this Agreement.

Article 2. *Subsistence Payments.*

The Administration, subject to the provisions of Article 5 of this Agreement, agrees to make payments for each student enrolled in a subsidized status before April 1, 1982, at a rate not in excess of $1,200 for each academic year. These payments shall be made to the school for the account of each such subsidized student who is attending the school. The school agrees that such payments shall be used by the student to assist in defraying the cost of his or her uniforms, textbooks, and subsistence. It is further agreed that the payments under this Article 2 shall commence to accrue on the day each such subsidized student begins his or her first term of work at the school and that such payments shall be paid to the school in such installments as the Administration shall prescribe while such student is in attendance and until the completion of his or her course of instruction, but in no event for more than the normal period required, by the school, to complete the prescribed course.

Article 3. *Student Incentive Payments.*

The Administration, subject to the provisions of Article 5 of this Agreement,

agrees to provide the school with service obligation agreement forms for a specified number of students beginning the first term of work at the school on or after April 1, 1982. The service obligation agreement forms shall be signed by the designated students and returned by the school to the Administration which agrees to issue payments to these students in amounts equaling $1,200 for each academic year to assist them in paying the cost of uniforms, books and subsistence. It is further agreed that under Article 3 payments shall commence to accrue on the day each such subsidized student begins his or her first term of work at the school and that such payments shall be paid in such installments as the Administration shall prescribe while the student is in attendance and until the completion of his or her course of instruction, but in no event for more than the normal period required, by the school, to complete the prescribed course.

Article 4. *Fuel Payments.*

If funds are appropriated in any given fiscal year and are made available for expenditure by the Administration for fuel consumed by Government-owned training ships furnished to the schools, the allocation of such funds may be as determined in the discretion of the Administration.

Article 5. *Requirements.*

(a) In consideration of the payments to be made to the school pursuant to Articles 1, 2 and 4 of this Agreement, and of the payments to designated students enrolled in the school pursuant to Article 3 of this Agreement, the school shall, and as a condition of this Agreement agrees to,

(1) Provide courses of instruction in navigation, marine engineering (including steam and diesel propulsion), the operation and maintenance of vessels and equipment, and innovations being introduced to the merchant marine of the United States; and,

(2) Conform to such standards in such courses, in training facilities, in entrance requirements, and in instructors, as are established by the Administration after consultation with the Superintendents of schools.

(b) In addition to the condition provided in paragraph (a) of this Article 5 and as an express condition to receiving payments of any amount in excess of $25,000 for any one year under Article 1 of this Agreement, the school hereby agrees to admit to its courses of instruction otherwise qualified students resident in any other State or Territory in such numbers as the Administration shall prescribe, except that the number so prescribed shall not, at any time, exceed one third of the total number of students attending the school.

(c)(1) The school agrees that, with respect to the training program for merchant marine officers under the Act and the 1958 Act, and this Agreement, it will, to the extent applicable, comply with the following provisions of law and implementing regulations duly promulgated thereunder (including, but not limited to 15 CFR Part 8): Title VI, Civil Rights Act, 1964 (42 USC 2000d); Age Discrimination Act of 1975 (42 USC 6101); and Vocational Rehabilitation Section 504 (29 USC 794). The school further agrees that it will immediately take any measures necessary to effectuate this subparagraph (c)(1).

(2) It is agreed that these assurances are given in consideration of and for the purpose of obtaining and continuing in effect any financial assistance extended after the date hereof to the school by the Administration including any payments to be rendered pursuant to agreements extending financial assistance which were approved prior to such date, and any violation by the school of any of the provisions of this assurance of nondiscrimination shall constitute a breach of this Agreement and of each of such prior agreements.

(3) The school further recognizes and agrees that such financial assistance will be extended by the Administration in reliance upon the representations and agreements made in this assurance of nondiscrimination, and that the United States shall have the right (in addition to any of its other rights under its agreements with the school) to seek judicial enforcement of these assurances. These assurances are binding on the school, its principals, officers, employees, agents, successors, transferees, and assignees.

(d) The Administration is hereby authorized to examine and audit the books, records and accounts of the school whenever it is deemed necessary or desirable. Further, the school agrees to permit the making of photostatic or other copies of any such books, records, papers, memoranda or other documents and to furnish without charge, adequate office space and other facilities reasonably required by such auditors of the Administration or other persons designated by the Administration in the performance of their duties in administering the provisions of the payments provided under this Agreement. This provision complies with Federal Management Circular 73–6 providing for a single audit for educational institutions and assigning one Federal agency with the audit responsibility for schools receiving Federal aid.

Article 6. *Methods of Payment.*

(a) *Assistance Payments.* The school shall submit to the Administration annually, at the time and in the form approved by the Administration, a voucher for the assistance payment provided in Article 1 of this Agreement. Each voucher for an assistance payment whether under the Act or the 1958 Act, shall be supported by certified statements of operating expenses for the preceding year, of an estimate of operating expenses for the year with respect to which the voucher is submitted, of amounts furnished by the State to the school for maintenance and support, and of evidence of compliance with the requirements of paragraph (b) of Article 5 of this Agreement. Upon approval of such voucher by the Administration, payment shall be made by the Administration to the school.

(b) *Subsistence Payments.* The school shall submit a monthly voucher, in form approved by the Administration, for the subsistence payments provided in Article 2 of this Agreement. Each voucher for subsistence payments shall be supported by a certified Daily Attendance Report listing the names of all subsidized students and the number of days each was in attendance at the school and is entitled to payment as stated on such voucher. Upon approval of such voucher by the Administration, payment shall be made by the Administration to the school.

(c) *Student Incentive Payments.* The school shall submit a monthly certified Daily Attendance Report listing the names of all designated students who are entitled to the student incentive payments provided in Article 3 of this Agreement and the number of days each was in attendance at the school and is entitled to payment. The Administration shall issue quarterly payments directly to such students.

(d) *Fuel Payments.* Upon notice from the Administration that appropriated funds are available for fuel payments provided in Article 4 of this Agreement, the school will submit a statement of the fuel consumed by the Government-owned training ship supported by copies of all billings representing fuel purchases, a statement of fuel consumed while such ship was being used for training purposes, copies of appropriate fuel consumption entries in the engineering log, and such other information as the Administration may require. The Administration will prepare the necessary voucher and make payment to the school.

Article 7. *Public Information.*

It is agreed that the school shall include in its curriculum catalogue, student information pamphlets, brochures, and other public information materials, a detail description of the assistance available to the school and its students under the Act, the 1958 Act and this Agreement, including the service obligations of student and graduates who first enter the school on or after April 1, 1982.

Article 8. *Regulations.*

This Agreement is subject to all the provisions of Part 310, Subpart A, Title 46, Code of Federal Regulations, and the school hereby agrees to conform to said provisions as they may be amended from time-to-time during the period this Agreement is in effect.

Article 9. *Officials not to Benefit or be Employed.*

No member of or delegate to Congress, nor Resident Commissioner, shall be admitted to any share or part of this Agreement or to any benefit that may arise therefrom; but this provision shall not be construed to extend to this Agreement if made with a corporation for its general benefit.

Article 10. *Disputes.*

Except as otherwise provided in this Agreement, any dispute concerning a question of fact arising under this Agreement which is not disposed of by agreement shall be decided by the Director, Office of Maritime Labor and Training who shall reduce his or her decision to writing and mail or otherwise furnish a copy thereof to the school, which decision shall be final and conclusive unless within thirty (30) days from the date of receipt of such copy, the school appeals by mailing or otherwise furnishing said Director, Office of Maritime Labor and Training, a written appeal addressed to the Assistant Secretary for Maritime Affairs. The decision of the Assistant Secretary for Maritime Affairs, or his or her duly authorized representative, shall be final and conclusive. In connection with any appeal,

the school shall be afforded an opportunity to be heard and to offer evidence in support of its appeal. Pending final decision of a dispute hereunder, the school shall proceed diligently with performance of the Agreement in accordance with the decision of the Director, Office of Maritime Labor and Training.

Article 11. *Duration of Agreement.*

This Agreement is effective as of the day and year first set forth hereinabove and shall remain in full force and effect for a period of ——years after said date, unless sooner terminated by either party as herein provided.

Article 12. *Termination of Agreement.*

This Agreement may be terminated by either party upon sixty (60) days written notice to the other party, *provided, however,* that notwithstanding any such termination the parties hereto shall continue to be responsible for the faithful performance of all of the terms and provisions of this Agreement through the effective date of such termination. Termination or expiration of this Agreement shall neither affect nor relieve either party of any liability or obligation that may have arisen or accrued prior thereto.

Article 13. *Renewal of Agreement.*

Unless terminated by notice, as provided for herein under Article 12 of this Agreement, the rights and privileges granted to, and the obligations assumed by, the parties together with all other provisions of this Agreement shall continue in full force and effect and shall be renewed from year-to-year for an additional period of one (1) year from the expiration date herein, unless either party shall at least three (3) months prior to the date of expiration of any additional one (1) year period notify the other party in writing that it does not desire the Agreement to be extended for such additional one (1) year period. This Agreement, as extended year-to-year as aforesaid, may be amended, modified or supplemented in writing at any time by the mutual consent of the parties hereto.

Article 14. *Assignment Prohibited.*

It is hereby agreed by ther school that the Agreement, or any interest herein, shall not be assigned to any other person without the prior written consent of the Administration, which consent may be subject to such terms and conditions as the Administration deems appropriate.

Article 15. *Availability of Funds.*

It is understood and agreed by and between the parties hereto that the obligations under this Agreement shall be deemed executory to the extent of the monies available to said parties for the purpose thereof and no liability on account thereof shall be incurred beyond such available monies by either of said parties.

Article 16. *Prior Agreement.*

It is hereby understood and agreed by and between the parties hereto that the agreement in effect between the parties on the date prior to the effective date of this Agreement is superseded by this Agreement but only as to obligations not incurred prior to the expiration date of said prior agreement under the provisions of said prior agreement.

In witness whereof, the UNITED STATES OF AMERICA, represented as aforesaid, has caused this Agreement to be executed on its behalf in three counterparts as of the day and year first written hereinabove and actually on the —— day of ——— 19—.

BILLING CODE 3510–15–M

FEDERAL COMMUNICATION COMMISSION

47 CFR Ch. I

[CC Docket No. 80–632]

Overseas Communications Services; Order Extending Time for Filing Comments and Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Notice of Proposed Rulemaking: Extension of Filing Periods.

SUMMARY: This Document grants request of National Telecommunications and Information Administration (NTIA) for extension of comments and reply dates in C.C. Docket No. 80–632 on overseas communications services. Extension granted to permit NTIA to complete and submit detailed study regarding proposed rulemaking. Intended effect of action is to provide Commission with most complete and meaningful record possible.

DATES: Comments now due on July 10, 1981. Replies due on August 21, 1981.

FOR FURTHER INFORMATION CONTACT: Stuart Chiron, Common Carrier Bureau, (202)632–7265.

In the matter of overseas Communications Services: (45 FR 76498: 11–19–80).

Adopted: May 29, 1981.

Released: June 1, 1981.

By the Common Carrier Bureau.

1. In this proceeding, the Commission is considering whether or not to change its 1964 TAT–4 policy decision, 37 F.C.C. 1151, which created an overseas voice-record dichotomy. As a result of TAT–4, AT&T has not been able to offer overseas record services (other than Dataphone), and the IRCs have not been able to provide overseas voice services (other Than Datel). The instituting order, FCC 80–585 (released October 28, 1980), established December 12, 1980, as the date for filing comments and January 16, 1981, as the date for replies. These dates have been subsequently extended. Comments are presently due on June 5 and replies on July 6, 1981.

2. On May 22, 1981, the National Telecommunications and Information Administration (NTIA) filed a motion to extend the time for comments and replies. In support of its request NTIA states that a thorough study of the international telecommunications industry being performed by a consultant, which will be submitted to the Commission, will not be completed until early July.

3. We believe that the record will be more complete and meaningful with the inclusion of the NTIA study. Since a delay will not harm any cognizable public interest we will grant NTIA's request. Accordingly, it is ordered that the date for all interested persons to file comments in CC Docket No. 80–632 is extended from June 5 to July 10, 1981, and that the date for filing replies is extended from July 6 to August 21, 1981.

4. This order is issued under § 0.291 of the Commission's Rules on Delegations of Authority, and is subject to review under § 1.115 of the Rules on Practice and Procedure.

Federal Communications Commission.

Joseph A. Marino,

Acting Chief, Common Carrier Bureau.

Radio Broadcast Services; FM Broadcast Station in Fountain, Colo.; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Withdrawal of proposed rulemaking. (Report and Order.)

SUMMARY: Action taken herein dismisses a petition filed by Kurt M. Grow which requested the assignment of a Class A FM channel to Fountain, Colorado. The proceeding was terminated for failure of petitioner to make the requisite showing of initial and continuing interest in the proposed channel allocation.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Mark N. Lipp, Broadcast Bureau (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Report and Order (Proceeding Terminated)

Adopted: May 19, 1981.

Released: May 26, 1981.

By the Chief, Policy and Rules Division:

1. Before the Commission is a *Notice of Proposed Rule Making*, 45 F.R. 43813, published June 30, 1980, proposing the assignment of FM Channel 292A to Fountain, Colorado, as that comunity's first local aural broadcast service, in response to a petition filed by Kurt M. Grow ("petitioner"). In the *Notice* we indicated that petitioner failed to state that he would apply for the channel, if assigned, and requested that he make a commitment to that effect.

2. According to Commission policy, a showing of continuing interest is required before a channel will be assigned. The petitioner herein, Kurt M. Grow, failed to file comments in response to the *Notice*. The period for filing comments in this proceeding has expired and no other party has expressed an interest in the proposed Class A assignment to Fountain.

3. In view of the foregoing, it is ordered, That the petition of Kurt M. Grow, proposing the assignment of FM Channel 292A to Fountain, Colorado, is hereby dismissed.

4. It is further ordered, That this proceeding is terminated.

5. For further information concerning this proceeding, contact Mark N. Lipp, Broadcast Bureau, (202) 632-7792.

BILLING CODE 6712-01-M

47 CFR Part 73

[BC Docket No. 80-318; RM-3549]

Radio Broadcast Services; FM Broadcast Station Greenville, Ill.; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Withdrawal of proposed rulemaking.

SUMMARY: This action dismisses a request from Charles N. Cutler to assign FM Channel 269A to Greenville, Illinois. Cutler indicates he is no longer interested in operating a station to serve Greenville.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Mark N. Lipp, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Report and Order (Proceeding Terminated)

Adopted: May 19, 1981.

Released: May 27, 1981.

By the Chief, Policy and Rules Division:

1. The Commission has before it for consideration a *Notice of Proposed Rule Making*, 45 FR 43810, published June 30, 1980, in response to a petition filed by Charles N. Cutler ("petitioner"), proposing the assignment of FM Channel 269A to Greenville, Illinois, as that community's first FM assignment.

2. In supplementary comments filed August 18, 1980, petitioner requests that its petition be dismissed since it has determined through an engineering survey that the channel could be put to better use at either of two other communities in conformity with the minimum distance separation requirements. Since no site restriction would be required at the other communities (a 12 kilometer (7.8 mile) site restriction is necessary for Greenville), a more efficient use of the allocation could be made. Cutler states that he may file for an assignment to either of the communities at some future date.

3. After careful consideration, we have concluded that it would be in the public interest to grant the requested dismissal. No party has indicated an interest in the proposed Greenville assignment.

4. Accordingly, it is ordered, pursuant to Sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and Section 0.281 of the Commission's Rules, that the request filed by Charles N. Cutler for dismissal of its petition proposing the assignment of Channel 269A to Greenville, Illinois, is granted.

5. It is further ordered, That this proceeding is terminated.

6. For further information concerning this proceeding, contact Mark N. Lipp, Broadcast Bureau, (202) 632-7792.

Federal Communications Commission.

Henry L. Baumann,

Chief, Policy and Rules Division, Broadcast Bureau.

Radio Broadcast Services; FM Broadcast Station, Fort Pierce, Fla.; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Withdrawal of proposed rulemaking.

SUMMARY Action taken herein dismisses a petition filed by Hubbard Broadcasting, Inc., which initially requested the assignment of a commercial television channel to Fort Pierce, Florida. The proceeding was teminated for failure of petitioner to state an interest in filing for the proposed assignment to Fort Pierce.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Mark N. Lipp, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Report and Order (Proceeding Terminated)

Adopted: May 19, 1981.

Released: May 26, 1981.

By the Chief, Policy and Rules Division.

1. Before the Commission is a *Notice of Proposed Rule Making*, 45 FR 64983, published October 1, 1980, proposing the assignment of UHF-TV Channel 59 to Fort Pierce, Florida, as that community's second commercial television allocation, in response to a petition filed by Hubbard Broadcasting, Inc. ("petitioner").[1] No comments were filed in response to the *Notice*.

[1] Hubbard had proposed that the reservation on Channel *21 be deleted at Fort Pierce, and Channel 59 be substituted therefor and reserved. Petitioner's interest in that proposal apparently stemmed from

Continued

2. According to Commission policy, a showing of continuing interest is required before a channel will be assigned. The petitioner herein, Hubbard Broadcasting, Inc., failed to file any comments and the period for doing so has expired. No other party has expressed an interest in the proposed assignment of Channel 59 to Fort Pierce.

3. In view of the foregoing, it is ordered, That the petition of Hubbard Broadcasting, Inc., proposing the assignment of Channel 59 to Fort Pierce, Florida, is hereby dismissed.

4. It is further ordered, That this proceeding is terminated.

5. For further information concerning this proceeding, contact Mark N. Lipp, Broadcast Bureau, (202) 632-7792

Federal Communications Commission.

the fact that it had applied for a construction permit for a 1,000 watt commercial translator station to operate on Channel 21 at Fort Pierce. However, even if Channel 21 were not reserved for noncommercial educational usage and Channel 59 substituted instead, an educational applicant would be able to apply for Channel 21, and a grant thereof would displace petitioner's proposed translator operation. For this, and other reasons set out in the *Notice*, it did not appear appropriate to change the Channel '21 reservation.

[BC Docket No. 80-518; RM-3545]

Radio Broadcast Services; FM Broadcast Station in Smith Center, Kans.; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Withdrawal of proposed rulemaking.

SUMMARY: This action dismisses a request from Ernest McRae and Jerry T. Venable ("petitioners") to assign FM Channel 231 to Smith Center, Kansas. Petitioners indicate they are no longer interested in operating a station to serve Smith Center.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Mark N. Lipp, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Report and Order (Proceeding Terminated)

Adopted: May 19, 1981.

Released: May 26, 1981.

By the Chief, Policy and Rules Division:

1. The Commission has before it for consideration a *Notice of Proposed Rule Making*, 45 FR 58616, published September 4, 1980, in response to a petition filed by Ernest McRae and Jerry T. Venable ("petitioners"), proposing the assignment of FM Channel 231 to Smith Center, Kansas, as that community's first FM assignment.

2. On May 5, 1981, petitioners filed a letter requesting dismissal of its petition. They state that from an assignment and channel usage standpoint, it would be preferable to assign Channel 231 to Downs, Kansas, instead, as that community's first FM assignment, and that it has concurrently filed a rule making petition seeking such assignment.

3. Since no other party has indicated an interest in the proposal, we shall dismiss the proposal so that the channel can be considered for assignment to Downs, Kansas.

4. In view of the foregoing, it is ordered, That the petition of Ernest McRae and Jerry T. Venable, proposing the assignment of Channel 231 to Smith Center, Kansas, is hereby dismissed.

5. It is further ordered, That this proceeding is terminated.

6. For further information concerning this proceeding, contact Mark N. Lipp, Broadcast Bureau (202) 632-7792.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

Ariton Livestock Auction, Ariton, Alabama, et al.; Deposting of Stockyards

It has been ascertained, and notice is hereby given, that the livestock markets named herein, originally posted on the respective dates specified below as being subject to the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 *et seq.*), no longer come within the definition of a stockyard under said Act and are, therefore, no longer subject to the provisions of the Act.

Facility No., name, and location of stockyard	Date of posting
AL-104 Ariton Livestock Auction, Ariton, Alabama.	May 26, 1959
AL-117 Demopolis Cattleman's Stockyard, Inc., Demopolis, Alabama.	May 18, 1959
AL-126 Gadsden Livestock Market, Gadsden, Alabama.	Oct. 1, 1965
AL-128 Georgiana Stockyards, Inc., Georgiana, Alabama.	Jan. 15, 1968
AL-129 Clarke County Livestock Corp., Grove Hill, Alabama.	May 20, 1959
AL-134 Tri-County Stockyards, inc., Hurtsboro, Alabama.	Oct 1, 1959
AL-150 Westbrook Livestock Auction Sales, Troy, Alabama.	May 15, 1959

Notice or other public procedure has not proceded promulgation of the foregoing rule. There is no legal justification for not promptly deposting a stockyard which is no longer within the definition of that term contained in the Act.

The foregoing is in the nature of a change relieving a restriction and may be made effective July 9, 1981. This notice shall become effective June 9, 1981.

(42 Stat. 159, as amended and supplemented (7 U.S.C. 181 *et seq.*)

Done at Washington, D.C., this 3rd day of June 1981.

BILLING CODE 3410-02-M

Food and Nutrition Service

Food Distribution Program: Alternatives to Donation of Commodities for the National School Lunch Program

AGENCY: Food and Nutrition Service, USDA.

ACTION: Notice of demonstration project.

SUMMARY: This Notice announces the Department of Agriculture's intent to conduct a demonstration project involving alternatives to the donation of USDA commodities to the National School Lunch Program. This demonstration project is mandated by the Agriculture Appropriations Act for Fiscal Year 1981 (P.L. 96–528). the project will test two alternatives to the current commodities donation program for school lunches to determine the costs and effectiveness of each alternative, their effects on food usage in the National School Lunch Program, their impact on the farm sector and government price support and surplus removal programs, and the administrative feasibility of their implementation nationally.

The Notice of intent also sets forth the procedures by which the demonstration project will be conducted and solicits applications from school food authorities wishing to participate in the project.

EFFECTIVE DATE: This Notice shall be effective June 9, 1981.

APPLICATION: School food authorities desiring to participate in the project shall apply as detailed in the Notice of Intent no later than July 24, 1981.

FOR FURTHER INFORMATION CONTACT: Ronald Vogel, (202) 426–9322, Program Evaluation Staff, Room 622 GHI, Office of Policy, Planning, and Evaluation, Food and Nutrition Service, U.S. Department of Agriculture, 500 12th Street SW., Washington, D.C. 20250.

SUPPLEMENTARY INFORMATION: Title III of the Agriculture, Rural Development and Related Agencies Appropriations Act for Fiscal Year 1981 mandates that the Department of Agriculture conduct a demonstration project to examine two alternatives to the donation of agricultural commodities for the National School Lunch Program. One alternative (cash-in-lieu) will provide participating school food authorities (SFAs) with cash equal to the value of commodities to which they would have been entitled under the current commodity donation program. The other alternative will give participating SFAs commodity vouchers (hereafter referred to as commodity letters of credit) allowing the purchase of specific food items. In each case, the cash-in-lieu or commodity letters of credit will be given in place of donated commodities.

Approximately 30 SFAs will be selected for each alternative. Thirty additional SFAs will be chosen to act as control sites and will continue to operate under current regulations of the commodity donation program. SFAs chosen as demonstration projects will participate for four school years beginning in 1981–82, although actual implementation of alternatives to commodity distribution will occur in no more than 9 SFAs in the 1981–82 school year. The balance of the chosen SFAs will assume full demonstration implementation beginning with the 1982–83 school year. The fourth year (school year 1984–85) of participation will be optional to participating SFAs regardless of when full demonstration status begins. Evaluation of the demonstration projects will take place during the first three years. The evaluation will culminate with a report to Congress by December 15, 1984.

The eight SFAs that participated in the Department's 1978–79 cash-in-lieu study will be permitted, at their option to participate as adjunct cash-in-lieu project sites for all four years of the demonstration effort.

All current Food Distribution Program Regulations (7 CFR Par 250), except as specifically indicated in this Notice, shall govern the operation of this project.

Notice of Intent

In accordance with the Agriculture Appropriations Act for Fiscal Year 1981 (P.L. 96–528), the Secretary of Agriculture announces his intention to conduct two sets of pilot projects to test alternative methods of operating the commodity distribution program under

Section 14 of the National School Lunch Act. Under one set of projects (cash-in-lieu of commodities, hereafter called the cash-in-lieu projects) participating school food authorities (SFAs) will be given cash equal to the value of commodities to which they would have been entitled under the current commodity distribution program and will not be eligible to receive donated commodities. The other set of projects (hereafter called the commodity letter of credit projects) will provide participating SFAs with commodity letters of credit allowing the purchase of specific food items and will also preclude their receiving donated commodities. Thirty school districts will be selected for each set of pilot projects by June 30, 1981 and will be allowed to participate for four school years: 1981–82, 1982–83, 1983–84, and 1984–85. Other than the eight SFAs that participated in the 1978–79 cash-in-lieu study, no more than nine of the newly selected SFAs will actually receive cash or commodity letters of credit during the 1981–82 school year. All selected SFAs, however, will be involved in demonstration development and training activities during the 1981–82 school year. Full demonstration implementation for the balance of the selected SFAs will begin with the 1982–83 school year. The eight SFAs that participated in the 1978–79 cash-in-lieu study will be allowed once again to receive cash instead of commodities beginning with the 1981–82 school year.

Staggered implementation of demonstration projects is necessary because of possible legislative changes that may affect the existing commodity distribution program. Staggered implementation is also desirable to ensure overall efficiency of the demonstration effort.

Evaluation of the projects will take place during the first three years and will involve analysis of the food service operations of participating SFAs as well as comparisons across projects and with at least 30 control sites operating under the present commodity distribution program.

The study has four primary objectives:

1. To estimate and compare the costs (food, non-food, and administrative) and effectiveness associated with the commodity letter of credit, cash-in-lieu, and existing commodity donation programs;

2. To assess changes in food usage associated with the two alternatives relative to the existing commodity donation programs;

3. To estimate the impact which the two alternatives would have on agricultural commodity markets, farm incomes, the existing food distribution system, and government price support and surplus removal programs; and

4. To assess the administrative feasibility of implementing the commodity letter of credit and cash-in-lieu alternatives nationally and to compare systematically the cost/effectiveness of the three alternatives focusing on the distribution of costs and benefits to various constituents under each alternative.

In addition, the study will address other issues including the impact of the options on SFA operations, changes in the nutritional content of school lunches, changes in the quality of foods utilized by SFAs, the effect on student costs and participation in the school lunch program, changes in school lunch plate waste, and the impact on other USDA programs. The evaluation will culminate with a report to Congress by December 15, 1984.

For SFAs chosen to participate in the cash-in-lieu and commodity letter of credit projects, certain regulations described in CFR Part 250 relating to donated commodities will not be in force. The regulations include: S 250.4(h); S 250.6(e); S 250.6(h); S 250.8(a); and S 250.13(h). These changes will be in effect only during the time school districts participating in the project actually receive cash or commodity letters of credit.

This Notice invites SFAs to submit applications to participate in this study as pilot project sites. Approximately 90 SFAs will be chosen as participants. Selected SFAs will be assigned to the cash-in-lieu or the commodity letter of credit projects or will be control sites operating under the current commodity donation program. None of the SFAs participating in the cash-in-lieu or commodity letter of credit projects will be allowed to receive donated commodity foods while operating under either option. Selected SFAs shall sign agreements with the Food and Nutrition Service (FNS) of the U.S. Department of Agriculture (USDA) detailing their rights, responsibilities, and limitations while participating in this study.

Approximately 30 school districts will be selected to participate in the cash-in-lieu pilot projects and will be given cash equal to the value of commodities they would have received under the current commodity distribution program. These funds may be used to purchase domestically produced food items for school lunch program use under the same conditions as funds provided under Section 4 of the National School Lunch Act. SFAs will be required to keep records on their school food service operations including food costs. These records will be made available to FNS or its designated representatives as needed.

Approximately 30 school districts will be selected to take part in the commodity letter of credit pilot projects and will be given commodity letters of credit authorizing the purchase of particular commodities. Each commodity letter of credit will specify the precise food item to be purchased, its minimum quality, the maximum amount which may be purchased (in terms of food quantity and/or dollar cost), and the time period during which the commodity letter of credit may be used. SFAs will be allowed to refuse up to 20 percent of the value of commodity letters of credit issued to them. To the extent possible, other commodity letters of credit will be issued to SFAs to replace those which are refused. As in the current program, however, there can be no guarantee of complete replacement. Participating SFAs will be required to purchase all food items from private suppliers and will be free to choose the form in which commodities are received. The commodity letters of credit can be used to pay for any items containing the relavant commodities, but only to the extent that those commodities are used as ingredients. Thus, a commodity letter of credit for cheese could be used to pay for the cheese part of pizzas, but not for entire pizzas. Again, SFAs will be required to keep detailed records on their school food service operations including food costs. These records will be made available to FNS personnel or their representatives.

Participating school districts can expect only minor changes in their operations beyond the switch from donated commodities to either cash-in-lieu or commodity letter of credit. SFAs operating under each alternative will receive no donated foods during the course of the study, but will receive their equivalent value in cash or commodity letters of credit. The total value of cash-in-lieu subsidies or commodity letters of credit received by project sites will be based upon the number of reimbursable meals served in the course of a school year. Whether cash-in-lieu or commodity letter of credit projects will also receive credit for "bonus" commodities provided under Section 416 and Section 32 has yet to be determined. The House Appropriations Committee Report on H.R. 3400, a bill making supplemental appropriations for fiscal year 1982 gives the Secretary several options with respect to bonus commodities that may be received by school districts

participating in the study. Specifically, the secretary is expected ". . . to either withhold, charge for, or earmark in some fahion . . ." bonus commodities for all study projects except those participating as comparison sites (House Report 97–29, p. 23). The Secretary's decision in this matter will be forthcoming. Applications to participate in the study can be withdrawn, if school districts so chose, after this decision is announced.

All participating SFAs, including control sites, may experience slight increases in required recordkeeping. In addition, FNS personnel or their representatives will visit each participating SFA approximately every six months for on-site data collection. During these visits, SFAs will be expected to provide limited assistance in identification and interpretation of SFA records.

Sites will be selected with the primary objective of obtaining a representative and unbiased sample of all school districts. Applicants will therefore be chosen randomly based on SFA characteristics. In addition, an effort will be made to ensure that the chosen sample is balanced in terms of attitudes toward and experience wih the school lunch program. To this end, all school districts, regardless of their attitudes concerning the present commodity distribution program or the project options, are encouraged to apply. If a balanced and representative sample of school districts cannot be obtained from among applicants, some school districts which did not apply to participate may be invited to become pilot project sites. FNS will consult with relevant State Agencies prior to final site selection. It is anticipated that site selection will be completed by July 31, 1981 so that the nine school districts chosen for advanced implementation during the 1981–82 school year will have time to incorporate new procedures.

School food authorities that desire to apply to participate in the pilot project shall respond by letter with a brief description of their food service operations. This letter should include as an attachment the applicant's monthly report for October 1980 (Form FNS–10).

In addition, applicants may wish to provide a brief discussion of the advantages and disadvantages for their own districts of *each* of the pilot project options *and* the current commodity distribution program. Applicants may also express a preference to participate in a particular option, but there is no assurance that such preference can be honored. Application letters should be sent to: Ronald Vogel, Program Evaluation Staff, Room 622 GHI, Office of Policy, Planning and Evaluation, Food and Nutrition Service, U.S. Department of Agriculture, 500 12th Street SW., Washington, D.C. 20250.

Such letters shall be postmarked no later than July 24, 1981.

Dated: June 13, 1981.

G. William Hoagland,

Administrator, Food and Nutrition Service.

Forest Service

Umatilla National Forest Grazing Advisory Board; Meeting

The Umatilla National Forest Grazing Advisory Board will meet at 8:00 a.m., June 30, 1981, at the U.S. Forest Service Office, 2517 S.W. Hailey Avenue in Pendleton, Oregon. The purpose of the meeting will be a field review of allotment planning on selected allotments of the Umatilla National Forest. This field review will be for two days, June 30 and July 1, 1981. The tour is in conjunction with the Society of Range Management Tour. The Board will be expected to make recommendations on the range allotment planning procedures and goals at the next regular scheduled meeting, as presented by the Forest Service during the tour.

Dennis E. Jones,

Acting Forest Supervisor.

June 1, 1981.

Rural Electrification Administration

Wabash Valley Power Association, Inc.; Finding of No Significant Impact

Notice is hereby given that the Rural Electrification Administration (REA) has prepared a Finding of No Significant Impact (FONSI) in connection with proposed financing assistance by REA for Wabash Valley Power Association, Inc., (WVPA) of Indianapolis, Indiana, to purchase selected high voltage substations and transmission lines which will be constructed by the Public Service Company of Indiana (PSI) as part of a Transmission Participation Agreement. These new transmission facilities include a 1.5 acre, 230/69 kV substation to be constructed near the town of Carmel in Hamilton County; a 3 acre, 345/138 kV substation near the town of Greensboro in Henry County; 7.3 miles of 230 kV transmission line and 2.5 miles of 69 kV transmission line in Hamilton County; 13.5 miles of 230 kV transmission line in Howard County; and 3.0 miles of 345 kV transmission line in Pike County.

WVPA prepared a Borrower's Environmental Report concerning the proposed project and an Environmental Assessment has been prepared by REA.

Threatened and endangered species, important farmlands, archaeological and historic sites, wetlands, floodplains, and all other potential impacts of the proposed project have been adequately investigated.

Based on REA's independent evaluation, the REA Environmental Assessment, and WVPA's Borrower's Environmental Report, a Finding of No Significant Impact was reached in accordance with REA Bulletin 20–21:320–21, Part I.

Copies of REA's Finding of No Significant Impact, REA's Environmental Assessment, and WVPA's Borrower's Environmental Report may be reviewed in the office of the Director, Power Supply Division, Room 5168, South Agriculture Building, Washington, D.C. 20250, and at the office of Wabash Valley Power Association, Inc., 700 North High School Road, P.O. Box 24700, Indianapolis, Indiana 46224.

This Program is listed in the Catalog of Federal Domestic Assistance as 10.850—Rural Electrification Loans and Loan Guarantees.

Dated at Washington, D.C., this 3d day of June, 1981.

Joe S. Zoller,

Acting Administrator, Rural Electrification Administration.

CIVIL AERONAUTICS BOARD

Fitness Determination of Evanston Aviation, Inc., d.b.a. Bridger Air

AGENCY: Civil Aeronautics Board.

ACTION: Notice of Commuter Air Carrier Fitness Determination—Order 81–6–23, Order To Show Cause.

SUMMARY: The Board is proposing to find that Evanston Aviation, Inc., d.b.a Bridger Air is fit, willing, and able to provide commuter air carrier service under section 419(c)(2) of the Federal Aviation Act, as amended, and that the aircraft used in this service conform to applicable safety standards. The complete text of this order is available, as noted below.

DATE: Responses: All interested persons wishing to respond to the Board's tentative fitness determination shall serve their responses on all persons

listed below no later than June 23, 1981, together with a summary of the testimony, statistical data, and other material relied upon to support the allegations.

ADDRESSES: Responses or additional data should be filed with Special Authorities Division, Room 915, Civil Aeronautics Board, Washington, D.C. 20428, and with all persons listed in Attachment A of Order 81–6–23.

FOR FURTHER INFORMATION CONTACT: Mr. J. Kevin Kennedy, Bureau of Domestic Aviation, Civil Aeronautics Board, 1825 Connecticut Avenue, NW., Washington, D.C. 20428, (202) 673–5918.

SUPPLEMENTARY INFORMATION: The complete text of Order 81–6–23 is available from the Distribution Section, Room 516, 1825 Connecticut Avenue, NW., Washington, D.C. Persons outside the metropolitan area may send a postcard request for Order 81–6–23 to the Distribution Section, Civil Aeronautics Board, Washington, D.C. 20428.

By the Civil Aeronautics Board: June 4, 1981.

Phyllis T. Kaylor,

Secretary.

[FR Doc. 81–16992 Filed 6–8–81, 8:45 am]

BILLING CODE 6320–01–M

Fitness Determination of AAA Air Enterprises, Inc.

AGENCY: Civil Aeronautics Board.

ACTION: Notice of Commuter Air Carrier Fitness Determination—Order 81–6–24, Order to Show Cause.

SUMMARY: The Board is proposing to find that AAA Air Enterprises, Inc. is fit, willing, and able to provide commuter air carrier service under section 419(c)(2) of the Federal Aviation Act, as amended, and that the aircraft used in this service conform to applicable safety standards. The complete text of this order is available, as noted below.

DATES: Responses: All interested persons wishing to respond to the Board's tentative fitness determination shall serve their responses on all persons listed below no later than June 23, 1981, together with a summary of the testimony, statistical data, and other material relied upon to support the allegations.

ADDRESSES: Responses or additional data should be filed with Special Authorities Division, Room 915, Civil Aeronautics Board, Washington, D.C. 20428, and with all persons listed in Attachment A of Order 81–6–24.

FOR FURTHER INFORMATION CONTACT: Ms. Joyce Snovitch, Bureau of Domestic Aviation, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428, (202) 673–5074.

SUPPLEMENTARY INFORMATION: The complete text of Order 81–6–24 is available from the Distribution Section, Room 516, 1825 Connecticut Avenue, N.W., Washington, D.C. Persons outside the metropolitan area may send a postcard request for Order 81–6–24 to the Distribution Section, Civil Aeronautics Board, Washington, D.C. 20428.

By the Civil Aeronautics Board: June 4, 1981.

Phyllis T. Kaylor,

Secretary.

DEPARTMENT OF COMMERCE

Maritime Administration

Reconstruction of Two Constellation Class Vessels, the SS Mormacaltair and the SS Mormacdrago, in Order To Increase Container Carrying Capacity; Intent To Compute Foreign Cost

Notice is hereby given of the intent of the Maritime Subsidy Board, pursuant to the provisions of section 502(b) of the Merchant Marine Act, 1936, as amended, to compute the estimated foreign cost for the reconstruction of two *Constellation* class vessels, MA Design C6–S–60b, in order to increase their container carrying capacity by 31, 40-foot containers in Hold No. 3 and 48, 20-foot containers on deck.

Any person, firm or corporation having an interest (within the meaning of section 502(b)) in such computations may file written statements by the close of business on June 23, 1981 with the Secretary, Maritime Subsidy Board, Maritime Administration, Room 3009B, Department of Commerce Building, 14th & E Streets, N.W., Washington, D.C. 20230.

Dated: June 2, 1981.

By Order of the Maritime Subsidy Board, Maritime Administration.

Robert J. Patton, Jr.,

Secretary.

National Technical Information Service

Government-Owned Inventions; Availability for Licensing

The inventions listed below are owned by the U.S. Government and are available for domestic and, possibly, foreign licensing.

Copies of patents cited are available from the Commissioner of Patents & Trademarks, Washington, DC 20231, for $.50 each. Requests for copies of patents must include the patent number.

Copies of patent applications cited are available from the National Technical Information Service (NTIS), Springfield, Virginia 22161 for $5.00 each ($10.00 outside North American Continent). Requests for copies of patent applications must include the PAT-APPL number. Claims are deleted from patent application copies sold to avoid premature disclosure. Claims and other technical data will usually be made available to serious prospective licensees upon execution of a non-disclosure agreement.

Requests for information on the licensing of particular inventions should be directed to:

BILLING CODE 3510-04-M

National Oceanic and Atmospheric Administration

Coastal Zone Management Programs; Availability of Evaluation Findings

AGENCY: Office of Coastal Zone Management, NOAA, Commerce.

ACTION: Notice of Availability of Evaluation Findings.

SUMMARY: Notice is hereby given of the availability of the evaluation findings for the Maryland, North Carolina, Oregon, and Rhode Island Coastal Zone Management Programs.

Section 312 of the Coastal Zone Management Act of 1972, as amended (16 U.S.C. 1451 et seq.) requires the conduct of a continuing review of the performance of each coastal state under its federally approved coastal zone management program. All 4 states evaluated were found to be adhering to their management programs as a result of which accomplishments are occurring with respect to resource protection, management of coastal development, increased recreational access, and improved government decisionmaking.

A copy of the findings made by the Acting Assistant Administrator for Coastal Zone Management for each of these states may be obtained on request from: Rosella Sussman, Evaluation Officer, Office of Coastal Zone Management, Page Building 1, 3300 Whitehaven Street, NW., Washington, D.C. 20235 (telephone: 202/634-4245).

Dated: June 2, 1981.

Robert W. Knecht,

Acting Assistant Administrator for Coastal Zone Management.

[FR Doc. 81-16970 Filed 6-8-81; 8:45 am]

BILLING CODE 3510-08-M

DEPARTMENT OF ENERGY

Office of Assistant Secretary for International Affairs

Proposed Subsequent Arrangement

Pursuant to Section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160) notice is hereby given of a proposed "subsequent arrangement" authorized by the Taiwan Relations Act of 1979 (Pub. L. 96-8).

The subsequent arrangement to be carried out under the above authority involves supply of the following material to the Institute for Nuclear Energy Research, Taiwan:

Contract Number WC-CI-7, 105.6 grams of uranium enriched to 4.30% in U-235, and 23.6 grams of uranium enriched to 2.84% in U-235.

The above materials are to be utilized in the Safeguards Analytical Laboratory Evaluation (SALE) Program. This program is designed to evaluate the capability of participating laboratories to analyze materials to be safeguarded in the nuclear fuel cycle, and to provide means by which measurement capability may be improved through the interchange of measurement technology.

In accordance with Section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that the furnishing of these nuclear materials will not be inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than June 24, 1981.

For the Department of Energy.

Dated: June 3, 1981.

Harold D. Bengelsdorf,

Director for Nuclear Affairs International Nuclear and Technical Programs.

BILLING CODE 6450-01-M

Economic Regulatory Administration

[Docket No. ERA-FC-81-008; OFC Case No. 65029-9202-01-11]

MacMillan Bloedel; Petition for Order Exempting Major Fuel Burning Installations

AGENCY: Economic Regulatory Administration, DOE.

ACTION: Notice of acceptance of petition for exemption from the prohibitions of the Powerplant and Industrial Fuel Use Act of 1978 and notice of availability of tentative staff analysis.

SUMMARY: On April 27, 1981, MacMillan Bloedel, Inc. (MBI) filed a petition with the Economic Regulatory Administration (ERA) of the Department of Energy (DOE) for an order exempting two new major fuel burning installations (MFBI's) from the provisions of the Powerplant and Industrial Fuel Use Act of 1978 (42 U.S.C. 8301 et seq.) (FUA or the Act), which prohibit the use of petroleum and natural gas as a primary energy source in certain new MFBI's unless an exemption for such use has been granted by DOE. Pertinent criteria and procedures for petitioning for an exemption from the prohibitions of FUA are contained in 10 CFR Parts 500 and 501 and 10 CFR Part 503 published on June 6, 1980, at 45 FR 38276 and 38302 respectively.

MBI is seeking a temporary public interest exemption to burn No. 6 fuel oil or natural gas in one or two package boilers (depending on availability) to be located at its Pine Hill, Alabama linerboard, plywood and lumber producing facility. Eligibility and evidentiary requirements governing the use of petroleum and natural gas during the duration of a temporary public interest exemption as authorized under section 211(c) of FUA, are set forth at 10 CFR 503.25. Under subsection (a)(2) of that section, a temporary exemption is available for MFBI's which will be used only during that temporary period during which the petitioner's on-going construction of an alternate fuel fired facility is completed. MBI has petitioned for a temporary exemption from the prohibitions of Title II of FUA under 10 CFR 503.25 based upon the use of one or two (depending upon availability at time of need) package boilers during the expected 6- to 10-month conversion of an existing on-site boiler to coal and wood waste. ERA's decision in this proceeding will determine whether MBI will be granted the requested temporary exemption to use petroleum or natural gas in a rented package boiler(s) for a period of up to 10 months.

ERA has determined that MBI's petition is complete and is accepted as filed in accordance with 10 CFR 501.3(d). Additionally, the ERA staff has reviewed and analyzed the information presently contained in the record of this proceeding, and has completed a Tentative Staff Analysis which recommends that ERA issue an order which would grant MBI the requested exemption. In order to expedite the processing of the petition, and pursuant to 10 CFR 501.64, notice of availability of the Tentative Staff Analysis is hereby issued simultaneously with this notice of acceptance of MBI's petition for exemption. A review of the petition and a summary of the Tentative Staff Analysis is provided in the Supplementary Information section below.

As provided for in section 701(c) and (d) of FUA and 10 CFR 501.63 and

501.34(b), interested persons are invited to submit written comments on MBI's petition and any interested person may submit a written request that ERA convene a public hearing on the exemption petition. As provided for in 10 CFR 501.64, interested persons may also submit written comments or request a public hearing on the Tentative Staff Analysis noticed herein. Any hearing requested must include a description of the interest in the issue or issues involved and an outline of the anticipated content of the presentations.

DATES: Written comments on the acceptance of MBI's petition for exemption are due on or July 24, 1981. Any request for public hearing must also be made within the same 45-day period. The 14-day period to submit written comments or request a public hearing on the Tentative Staff Analysis, as prescribed in 10 CFR 501.64, is also included within and will run concurrently with the above 45-day comment period. Accordingly, any such written comments or requests for public hearing on the Tentative Staff Analysis must also be filed with ERA on or before the expiration of the 45-day period provided for acceptance of the MBI petition.

ADDRESSES: Fifteen copies of written comments or a request for a public hearing should be submitted to: Economic Regulatory Administration, Case Control Unit (Fuel Use Act), Box 4629, Room 3214, 2000 M Street, NW., Washington, D.C. 20461.

Docket Number ERA–FC–81–008 should be printed on the outside of the envelope and on the document contained therein.

FOR FURTHER INFORMATION CONTACT:

Ellen Russell, Case Manager, New MFBI Branch, Office of Fuels Conversion, Economic Regulatory Administration, Department of Energy, 2000 M Street, NW., Room 3128, Washington, D.C. 20461, Phone (202) 653–4477.

I. Dow Davis, IV, Office of General Counsel, Department of Energy, Forrestal Building, Room 6B–178, 1000 Independence Avenue, SW., Washington, D.C. 20485, Phone (202) 252–2967.

SUPPLEMENTARY INFORMATION: MBI is undertaking a major expansion of its Pine Hill complex in Pine Hill, Alabama. This expansion will include the installation of one new recovery boiler designed to burn black liquor (an alternate fuel), a new paper machine, modification of the existing paper machine to increase production, a new continuous digester for cooking hardwood chips, a post consumer waste pulping system, and the conversion of the facility's existing recovery boiler to burn pulverized coal and wood waste. Also planned is the installation of a new turbine generator and modification of fuel delivery, storage and handling facilities.

This plant expansion increases the overall requirement for process steam that will be accommodated by the conversion of the existing recovery boiler to coal and wood waste with a design heat input rate of 500,000 pounds of steam per hour. The conversion of this boiler cannot begin until the new recovery boiler has been installed and is reliably operating. At that time the rented package boiler(s) would be placed in service to supply the 6-month (or as much as 10-month) shortfall in steaming capacity due to the conversion down time which would require approximately 254 million Btus per hour heat input. MBI's consulting engineers have determined from a survey of major boiler manufacturers that package boilers of the design size and pressure needed are not commercially available to fire coal or other alternate fuels or mixtures of coal and fossil fuels.

MBI has provided, pursuant to 10 CFR 503.25(c), the requisite compliance plan and conservation measures.

ERA hereby gives notice that MBI's petition for a temporary public interest exemption for one or two (depending upon availability) package boilers is complete as filed and is accepted. Pursuant to 10 CFR 501.3(d), acceptance of a petition and its supporting documents does not constitute an approval of an exemption, nor does it foreclose ERA from requesting further information during the course of the proceeding. Failure to provide any requested additional information could ultimately result in the denial of the request for an exemption.

Tentative Staff Analysis: The ERA staff has examined the aforementioned demonstrations made by MBI in its petition, and other information contained therein, and has determined that the petition fulfills the requirements of 10 CFR 503.25. Accordingly, the ERA staff has completed a Tentative Staff Analysis which tentatively recommends that an order be issued which would grant MBI the requested temporary public interest exemption for its planned rented boiler(s) not to exceed 10 months. This exemption can however, be extended upon approval of ERA for a period not to exceed five years.

Reporting Requirements: Under the ERA staff proposal, MBI must notify ERA when the package boiler(s) are placed in service, the date the units are removed from service, and the total fuel consumption of the unit(s) for the duration of their use. Such notifications shall be executed by a duly authorized representative of MBI. Cite OFC Case No. 65029–9202–01–11 on each document and send to: Economic Regulatory Administration, Case Control Unit (Fuel Use Act), Attn: OFC Case No. 65029–9202–01–11, Box 4629, Room 3214, 2000 M Street NW., Washington, D.C. 20461.

This Tentative Staff Analysis does not constitute a decision by ERA to grant the requested exemption. Such a decision will be made in accordance with 10 CFR 501.68 on the basis of the entire record of this proceeding, including any comments received on this Tentative Staff Analysis.

The public file containing documents on this proceeding, supporting materials and the Tentative Staff Analysis is available for inspection upon request at ERA, Room B–110, 2000 M Street, NW., Washington, D.C., Monday–Friday, 8:00 a.m.–4:30 p.m.

Issued in Washington, D.C., on May 30, 1981.

Robert I. Davies,

Director, Office of Fuels Conversion, Economic Regulatory Administration.

BILLING CODE 6450-01-M

[Docket No. ERA–FC–81–010; OFC Case Nos. 56353-9016-01-12, 56353-9016-02-12]

Phillips Petroleum Company; Petition for Order Exempting Major Fuel Burning Installation

AGENCY: Economic Regulatory Administration, DOE.

ACTION: Notice of acceptance of petition for exemption from the prohibitions of the Powerplant and Industrial Fuel Use Act of 1978.

SUMMARY: On April 9, 1981, Phillips Petroleum Company (Phillips) filed a petition with the Economic Regulatory Administration (ERA) of the Department of Energy (DOE) for an order exempting two new major fuel burning installations (MFBI's) from the provisions of the Powerplant and Industrial Fuel Use Act of 1978, (42 U.S.C. 8301 et seq.) (FUA or the Act), which prohibit the use of petroleum and natural gas as a primary energy source in certain new MFBI's unless an exemption for such use has been granted by DOE. Pertinent criteria and procedures for petitioning for an exemption from the prohibitions of FUA are contained in 10 CFR Parts 500 and 503 published on June 6, 1980, at 45 FR 38276 and 38302 respectively.

Phillips is seeking permanent exemptions to burn natural gas in a mixture with regenerator effluent gases

(containing carbon monoxide, CO) in two field-erected CO boilers to be constructed at its Borger, Texas refinery. Eligibility and evidentiary requirements governing the use of natural gas in a mixture with alternate fuels, as authorized under section 212(d) of FUA, are set forth at 10 CFR 503.38. Phillips has petitioned for a permanent exemption from the prohibitions of Title II of FUA under 10 CFR 503.38 based upon the use of a fuels mixture containing approximately 81 percent natural gas. ERA's decision in this proceeding will determine whether Phillips will be granted the requested permanent exemptions to use natural as in a mixture with regenerator effluent gases in which the amount of natural gas used in the new MFBIs will be approximately 81 percent of the total annual Btu heat input of the primary energy sources for CO Boilers 29 and 40.

ERA has determined that Phillips' petition is complete and is accepted as filed in accordance with 10 CFR 501.3(d). A review of the petition is provided in the SUPPLEMENTARY INFORMATION section below.

As provided for in section 701 (c) and (d) of FUA and 10 CFR 501.63 and 501.34(b), interested persons are invited to submit written comments on Phillips' petition and any interested person may submit a written request that ERA convene a public hearing on the exemption petition. Any hearing request must include a description of the interest in the issue or issues involved and an outline of the anticipated content of the presentations.

DATES: Written comments on the acceptance of Phillip's petition for exemption are due on or before July 24, 1981. Any request for public hearing must also be made within the same 45-day period.

ADDRESSES: Fifteen copies of written comments or a request for a public hearing should be submitted to: Economic Regulatory Administration, Case Control Unit (Fuel Use Act), Box 4629, Room 3214, 2000 M Street, NW, Washington, D.C. 20461.

Docket No. ERA–FC–81–10 should be printed on the outside of the envelope and on the document contained therein.

FOR FURTHER INFORMATION CONTACT:

Jack Vandenberg, Office of Public Information, Economic Regulatory Administration, Department of Energy, 2000 M Street, N.W., Room B–110, Washington, D.C. 20461 Phone (202) 653–4055;

Ellen Russell, Case Manager, New MFBI Branch, Office of Fuels Conversion, Economic Regulatory Administration, Department of Energy, 2000 M Street, NW., Room 3128, Washington, D.C. 20461 Phone (202) 653–4477;

Marilyn Ross, Office of the General Counsel, Department of Energy, Forrestal Building, Room 6B–178, 1000 Independence Avenue, S.W., Washington, D.C. 20585 Phone (202) 252–2967.

SUPPLEMENTARY INFORMATION: The MFBI's for which Phillips has requested the permanent fuels mixture exemptions are field-erected boilers having a design heat input rate of 497 million Btu's per hour for CO Boiler 29 and 500 million Btu's per hour for CO Boiler 40, a steam generating capacity of 350,000 pounds per hour each, and are designed to burn a mixture of regenerator effluent gases (containing carbon monoxide, CO) and natural gas. CO Boiler 29 will be located at the Borger, Texas refinery's Fluid Catalytic Cracking (FCC) unit 29: CO Boiler 40 will be located at FCC unit 40.

There are currently no CO boilers at the Borger facility. Phillips asserts in their petition that the installation of CO Boilers 29 and 40 in addition to increasing motive power, will reduce air pollution emissions by approximately 140,000 tons per year of carbon monoxide while reducing the overall natural gas consumption, as a boiler fuel, by 6.4% (the equivalent 178,000 barrels per year) for the total refinery.

To qualify for a permanent fuels mixture exemption in accordance with 10 CFR 503.38, a petitioner must demonstrate, to the satisfaction of ERA that:

(1) he proposes to use a mixture of natural gas or petroleum and an alternate fuel as a primary energy source; and

(2) the amount of petroleum or natural gas proposed for use in the mixture will not exceed the minimum percentage of the total annual Btu heat input of the primary energy sources needed to maintain operational reliability of the unit consistent with maintaining a reasonable level of fuel efficiency.

In addressing the eligibility and evidentiary requirements in 10 CFR 503.38 (a) and (c), Phillips states that it will be using FCC unit regenerator effluent gases as the primary energy source for CO Boilers 29 and 40. The company asserts that the regenerator effluent gases must be used in a mixture to maintain a combustion zone temperature high enough to sustain combustion of the CO.

Phillips has included as part of its petition the design specifications for CO Boilers 29 and 40, an engineering assessment of the proportions of natural gas needed to maintain operational reliability and a reasonable level of fuel efficiency, and an environmental impact analysis.

ERA hereby gives notice that Phillip's petition for permanent fuels mixtures exemptions for CO Boilers 29 and 40 have been determined to be complete as filed and are accepted. Pursuant to 10 CFR 501.3(d), acceptance of a petition and its supporting documents does not consitute an approval of an exemption, nor does it foreclose ERA from requesting further information during the course of the proceeding. Failure to provide any requested additional information could ultimately result in the denial of the request for an exemption.

The public file containing documents on this proceeding is available for inspection upon request at ERA, Room B–110, 2000 M Street, NW, Washington, D.C., Monday–Friday, 8:00 a.m.–4:30 p.m.

Issued in Washington, D.C. on May 30, 1981.

Robert L. Davies,

Director Office of Fuels Conversion, Economic Regulatory Administration.

BILLING CODE 6450–01–M

Federal Energy Regulatory Commission

[Project No. 4570–000]

City of Montrose, Colo.; Notice of Application for Preliminary Permit

June 1, 1981.

Take notice that the City of Montrose, Colorado (Applicant) filed on April 21, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. §§ 791(a)–825(r)] for proposed Project No. 4570 to be known as South Canal (Sites 2, 5, and 7) Project located on the South Canal in Montrose County, Colorado. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: City of Montrose, Colorado, South 1st & Uncompahgre, P.O. Box 790, Montrose, Colorado 81402 and Mr. Jim Hokit, Uncompahgre Valley Water Users Association, 601 North Park—P.O. Box 69, Montrose, Colorado 81402. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize the Water and Power Resources Service's (WPRS) South Canal and would consist of new

project facilities developed at three sites.

Site 2, located at South Canal Station 72 + 50, would consist of: (1) a radial gated intake structure with trashracks; (2) a 12-foot diameter penstock, 200 feet long; (3) a powerhouse with installed capacity of 600 kW; (4) a transmission line 1.25 miles long; (5) a tailrace; and (6) other appurtenances.

Site 5, located at South Canal Station 233 + 30, would consist of: (1) a trashrack and radial gated intake structure; (2) an 11-foot diameter penstock, 470 feet long; (3) a powerhouse with an installed capacity of 450 kW; (4) a transmission line 0.40 miles long; (5) a tailrace; and (6) other appurtenances.

Site 7, located at South Canal Station 472 + 00, would consist of: (1) a radial gated intake structure with trashrack; (2) a 10-foot diameter penstock, 600 feet long; (3) a powerhouse with an installed capacity of 900 kW; (4) a transmission line 0.35 miles long; (5) a tailrace; and (6) other appurtenances.

The Applicant estimates that the average annual energy output would be 4,750,000 kWh at Site 2, 3,960,000 kWh at Site 5, and 7,140,000 kWh at Site 7.

Purpose of Project—Project energy would be sold to the Colorado-Ute Electric Association.

Proposed Scope and Cost of Studies Under Permit—Applicant seeks issuance of a preliminary permit for a period of 36 months, during which time it would perform hydraulic, construction, economic, environmental, historic, and recreational studies, and if the proposed project is determined feasible, prepare an application for an FERC license. Applicant estimates cost of studies under permit would not exceed $45,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before June 25, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than August 24, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before July 15, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4570. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-17008 Filed 6-8-81, 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4569-000]

City of Montrose, Colo.; Notice of Application for Preliminary Permit

June 1, 1981.

Take notice that the City of Montrose, Colorado (Applicant) filed on April 21, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 4569 to be known as Shavano Falls Project located on the M & D Canal, 6 miles west of Montrose, in Montrose County, Colorado. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: City of Montrose, Colorado, South 1st & Uncompahgre, P.O. Box 790, Montrose, Colorado 81402 and Uncompahgre Valley Water Users Association, 601 North Park—P.O. Box 69, Montrose, Colorado 81402. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize the existing Water and Power Resources Service's Montrose and Delta Diversion Dam and Canal and would consist of new project works including: (1) a concrete intake structure; (2) a 4-foot diameter steel penstock, 700 feet long; (3) a powerhouse with an installed capacity of 2,300 kW; (4) a transmission line 4.8 miles long; (5) a tailrace with diversion gates; and (6) other appurtenances. The Applicant estimates that the average annual energy output would be 13,250,000 kWh.

Purpose of Project—Project energy would be sold to the Colorado-Ute Electric Association.

Proposed Scope and Cost of Studies under Permit—Applicant seeks issuance of a preliminary permit for a period of 36 months, during which time it would perform hydraulic, construction, economic, environmental, historic, and

recreational studies, and if the proposed project is determined feasible prepare an application for an FERC license. Applicant estimates cost of studies under permit would not exceed $15,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to Gregory Wilcox's Shavano Falls Project No. 4024 filed on January 15, 1981, under 18 CFR (1980). Anyone desiring to file a competing application must submit to the Commission, on or before June 25, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than August 24, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before July 15, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4569. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-17009 Filed 6-8-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4577-000]

Commonwealth Edison Co., Illinois; Notice of Application for Preliminary Permit

June 1, 1981.

Take notice that Commonwealth Edison Company (Applicant) filed on April 23, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. §§ 791(a)-825(r)] for proposed Project No. 4577 to be known as the Brandon Road Lock and Dam located on the Illinois River in Will County, Illinois. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Harlan Dellsy, Commonwealth Edison Company, P. O. Box 767, Chicago, Illinois 60690. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize the existing U. S. Army Corps of Engineers' Brandon Road Lock and Dam. The proposed project would consist of: (1) a proposed powerhouse containing an installed generating capacity of 15 MW; and (2) appurtenant facilities. The project would be located on Federal lands.

And Applicant estimates that the average annual energy output would be 70 Gwh.

Purpose of Project—The Applicant proposes to market the power output of the project to their customers.

Proposed Scope and Cost of Studies under Permit—The Applicant seeks issuance of a preliminary permit for a period of 24 months, during which time the Applicant would accomplish hydrological, engineering, environmental, and economic feasibility studies on the project and prepare an application for FERC license. Applicant estimates the cost of the feasibility study would be about $41,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit commens on the described application for prelimnary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal requet for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to Mitchell Energy Company Project No. 3567 filed on October 14, 1981, under 18 C.F.R. (1980), and, therefore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 C.F.R. § 1.8 or § 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any coments, protest, or petition to intervene must be received on or before June 30, 1981.

Filing and Service or Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made a response to this notice of application for preliminary permit for Project No. 4577. Any comments, protests, or peitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capital Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Divison of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Room 208 RB Building, Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-17010 Filed 6-8-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. GP81-24]

Hawthorne Oil & Gas Corp., et al.; Notice of Petition for Declaratory Order

June 3, 1981.

On May 6, 1981, by their legal counsel, Hawthorne Oil & Gas Corporation, William B. Burkenroad, Jr., Arcade Enterprises, Inc., Republic Production Company of Texas (all hereinafter collectively referred to as "Hawthorne"), Conoco Inc. ("Conoco"), and Louisiana Gas System Inc. ("LGS Inc.") pursuant to Section 1.8(c) of the Commission's Rules of Practice and Procedure and the Administrative Procedure Act, 5 U.S.C. § 554(e), petition the Commission to issue a declaratory order confirming that a good faith settlement, with court approval, of a state court lawsuit involving the conflicting interpretations of an intrastate gas sales contract pricing clause, subject to Section 105 of the Natural Gas Policy Act, (NGPA), 15 U.S.C. § 3315, is sufficient to meet the Commission's rulings that such controversies should be litigated and decided in state court and not before the Commission.

Petitioners state that Hawthorne produces natural gas from leases which it owns as Lessee in Southwest Gueydan Field, Vermilion Parish, Louisiana. Such gas is sold to LGS Inc. (assignee of Conoco, formerly Continental Oil Company) pursuant to a gas sales contract dated June 1, 1971 (exhibit A to this Petition).

Gas sold by Hawthorne to LGS Inc. and its predecessor Conoco was and is transported and resold only in intrastate commerce within the State of Louisiana. The transmission system of LHS Inc. and its predecessor Conoco has not been and is not interconnected to any interstate natural gas transmission system subject to Commission jurisdiction under the Natural Gas Act. Sales by LGS Inc. and its predecessor Conoco have been and are only in intrastate commerce.

Therefore, Hawthorne's sales of natural gas to LGS Inc. and its predecessor Conoco, have not been and are not subject to the Commission's jurisdiction under the Natural Gas Act. However, on and after December 1, 1978, the gas sales contract has been subject to the provisions of Section 105 of the Natural Gas Policy Act and the Commission's Regulations thereunder.

A controversy over the interpretation of a pricing provision in the gas sales contract existed between the parties prior to enactment of the Natural Gas Policy Act. The Controversy also now extends to the periods on and after December 1, 1978, during which the Natural Gas Policy Act was and is applicable to the gas sales contract. That controversy is the subject of a suit brought by Hawthorne against LGS Inc., and its predecessor Conoco, which is now pending in the 14th Judicial District Court of the State of Louisiana, Calcasieu Parish under Docket No. 80-642.

All of the parties to that suit now desire to compromise and settle that lawsuit, subject to approval by the state court, and terminate the litigation between them.

Petitioners also state that it is the intent of the parties to submit that Agreement to the state court for approval by judgment, and, after such approval by judgment, implement the Agreement by execution of a Memorandum of Understanding and by pricing the natural gas sold and delivered on and after December 1, 1978, in accordance with the provisions of that Memorandum as long as the Natural Gas Policy Act applies during the remaining term of the contract.

The contract at issue contains what may be generally described as an "FPC clause." Under section 105(b)(1) of the NGPA, a seller may collect the lower of the price under the terms of the contract in effect on November 9, 1978, or the section 102 rate. Pursuant to the settlement, Hawthorne would generally collect a rate equal to the section 103 rate for the periods after November 30, 1978 until expiration of the term of the contract on May 13, 1983.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 23, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-17011 Filed 6-8-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. GP81-22-000]

Marathon Oil Co.; Notice of Petition for Declaratory Order

June 2, 1981.

Take notice that on April 17, 1981, Marathon Oil Company, (Marathon) 539 South Main Street, Findlay, Ohio, 45840, filed with Federal Energy Regulatory Commission (Commission) a Petition for Declaratory Order pursuant to § 1.7 of the Commission's Rules of Practice and Procedure (18 CFR 1.7). Marathon requests that the Commission determine the maximum lawful price under section

105 of the Natural Gas Policy Act of 1978 (NGPA) for sales of gas under an existing intrastate contract which provides compensation for a basic contract rate which is less than the section 102 maximum lawful rate.

Specifically, Marathon states it is a major part-interest owner and operator of oil and gas leases in an unitized area known as the South Coles Levee Unit (SCLU) which covers all or parts of section 2, 3, 4, 5, 8, 9, 10, 11, 12, 13, 14 and 15 of T31S, R25E, Kern County California. Marathon asserts the SCLU gas sales are subject to a 30-year Agreement dated September 1, 1964 with Pacific Lighting Gas Supply Company (now Pacific Lighting Service Company) (PacLight). Marathon alleges the contract provided that PacLight is to pay Marathon 120 percent or 150 percent, depending on the amounts of gas delivered, of the border price (basic contract price) during winter months. These winter rates allegedly exceed the section 105(b)(1) rate. This arrangement, Marathon further states, was developed to provide a supply of gas to help alleviate the seasonal load demand on PacLight's system.

Marathon requests the Commission to make a determination that the border price is the measure for determining the maximum lawful price and that the percentage payment for providing peak winter period delivery capability can be collected without being in violation of the NGPA.

Any person desiring to be heard or to protest this petition should, on or before July 9, 1981, file with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with the requirements of the Commission's Rules of Practice and Procedures (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered, but will not make the protestants parties to the proceeding. Any person wishing to become a party to the proceeding or to participate as a party in any hearing must file a petition to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ST80-110-001]

Michigan Gas Storage Co.; Notice of Extension Report

June 3, 1981.

Take notice that on April 17, 1981, Michigan Gas Storage Company (Michigan Gas), 212 West Michigan Avenue, Jackson, Michigan 49201, filed in Docket No. ST80-110-001 an extension report pursuant to Section 284.106 of the Commission's Regulations, reporting the extension of transportation of natural gas for and on behalf of Southeastern Michigan Gas Company (Southeastern), all as more fully set forth in the extension report which is on file with the Commission and open for public inspection.

Michigan Gas states that the subject transportation services are rendered pursuant to a three-party agreement, dated July 16, 1979, as amended, and that the parties to such agreement are Michigan Gas, Southeastern, and Consumers Power Company (Consumers Power). Michigan Gas says further that its transportation services under the subject agreement commenced on December 12, 1979 and the agreement will terminate on July 16, 1981 unless the extension herein proposed is allowed to take effect, in which event the agreement would be extended through July 16, 1983.

According to Michigan Gas, the volumes of natural gas transported by it under the proposed extension are estimated to continue at 2,400 Mcf per day and would likely total approximately 864,000 Mcf during such extended period.

It is stated that the purpose of the subject agreement is to increase Southeastern's gas supplies in those parts of its service area located in Michigan's Sanilac and Tuscola Counties while avoiding the need for any significant investment by Southeastern in additional facilities.

According to Michigan Gas, the rate charged by it for the transportation services herein described was 7.5 cents per Mcf, but would rise to 10.7 cents per Mcf under the proposed extension.

Any person desiring to be heard or to make any protest with reference to said extension report should on or before June 23, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-C

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" before the section code. Estimated annual production (PROD) is in million cubic feet (MMCF). An (*) before the Control (JD) number denotes additional purchasers listed at the end of the notice.

The applications for determination are available for inspection except to the extent such material is confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol St., Washington, D.C. Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 275.204, file a protest with the Commission within fifteen days after publication of notice in the **Federal Register.**

Categories within each NGPA section are indicated by the following codes:

Section 102–1: New OCS lease
102–2: New well (2.5 mile rule)
102–3: New well (1000 ft rule)
102–4: New onshore reservoir
102–5: New reservoir on old OCS lease
Section 107–DP: 15,000 feet or deeper
107–GB: Geopressured brine
107–CS: Coal seams
107–DV: Devonian shale
107–PE: Production enhancement
107–TF: New tight formation
107–RT: Recompletion tight formation
Section 108: Stripper well
108–SA: Seasonally affected
108–ER: Enhanced recovery
108–PB: Pressure buildup

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. QF81-32-000]

Alabama River Pulp Co.; Application for Commission Certification of Qualifying Status of a Cogeneration Facility

June 4, 1981.

On May 12, 1981, the Alabama River Pulp Company of Clairborne Mill, Perdu Hill, Alabama, filed with the Federal Energy Regulatory Commission (Commission) an application for certification as a qualifying cogeneration facility pursuant to section 292.207 of the Commission's rules.

The facility, installed in May, 1977, is located in Monroe County, Alabama. It is a topping-cycle cogeneration facility that uses biomass as its primary energy source. The facility has an installed capacity of 48 megawatts. No electric utility, electric utility holding company or any combination thereof has any ownership interest in the facility.

Any person desiring to be heard or objecting to the granting qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-17040 Filed 6-8-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP81-283-001]

Alabama-Tennessee Natural Gas Co.; Amendment to Application

June 3, 1981.

Take notice that on May 11, 1981, Alabama-Tennessee Natural Gas Company (Applicant), P.O. Box 918, Florence, Alabama 35631, filed in Docket No. CP81-283-001 an amendment to its pending application in said docket for a certificate of public convenience and necessity pursuant to Section 7(c) of the Natural Gas Act. The application requests authorization to render natural gas service to public Service Electric and Gas Company (Public Service). The gas was proposed to be used to displace oil for the generation of electricity. The instant amendment states that Public Service now proposes to use the gas for its system supply for resale and that the gas would be transported on behalf of Public Service by Texas Eastern Transmission Corporation pursuant to the provisions of Section 311(a)(1) of the Natural Gas Policy Act of 1978. Applicant's proposals are more fully set forth in the amendment which is on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before June 23, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. Persons having heretofore filed need not do so again.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-17062 Filed 6-8-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. ER80-508]

Boston Edison Co.; Compliance Filing

June 2, 1981.

Take notice that on May 19, 1981, Boston Edison Company submitted a compliance filing in the above-captioned proceeding pursuant to the Commission's letter order of May 1, 1981.

The compliance report advises the Commission that on May 15, 1981, Edison paid refunds to the Town of Reading for amounts collected under the Contract Demand Tariff. Edison states that the refund applies only to the first month of service at the higher rate.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file

with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-17063 Filed 6-8-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. ER81-490-000]

Boston Edison Co.; Filing

June 4, 1981.

The filing Company submits the following:

Take notice that Boston Edison Company, on May 26, 1981 tendered for filing a proposed initial rate schedule consisting of a contract for the sale of unit capacity to the Taunton (Massachusetts) Municipal Lighting Plant. The proposed effective date of the contract is February 21, 1981.

Copies of the filing were served on the Taunton Municipal Lighting Plant and the Massachusetts Department of Public Utilities.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

Boston Edison Co.; Filing

June 4, 1981.

The filing Company submits the following:

Take notice that Boston Edison Company, on May 26, 1981 tendered for filing a proposed initial rate schedule consisting of a contract for the sale of unit capacity to the Taunton (Massachusetts) Municipal Lighting Plant.

Copies of the filing were served on the Taunton Municipal lighting plant and the Massachusetts Department of Public Utilities.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commissions's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. ER81-489-000]

Central Hudson Gas & Electric Corp.; Filing

June 4, 1981.

The filing Company submits the following:

Take notice that Central Hudson Gas & Electric Corporation (Central Hudson) on May 26, 1981 tendered for filing as a rate schedule an executed agreement dated May 18, 1981 between Central Hudson and Philadelphia Electric Company. The proposed rate schedule provides for the sale of firm capability

and associated energy by Central Hudson.

The rate schedule provides for a capability charge of $100 per megawatt per day of capability made available by Central Hudson and an energy charge equal to Central Hudson's incremental steam electric generating costs, including operation and maintenance costs and the incremental cost of transmission losses.

Central Hudson requests waiver of the notice requirements of § 35.3 of the Commission's Regulations so that the proposed rate schedule can be made effective on May 18, 1981 in accordance with the terms thereof.

Copies of the filing by Central Hudson were served upon Philadelphia Electric Company and the Public Service Commission of New York.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6450-85-M

[Docket No. RE81-117-000]

City of Dalton, Ga.; Application for Exemption

June 3, 1981.

Take notice that the City of Dalton, Georgia (Dalton) on April 29, 1981, filed an application for exemption from certain requirements of Part 290 of the Commission's Regulations concerning collection and reporting of cost of service information under Section 133 of the Public Utility Regulatory Policies Act, Order No. 48 (44 FR 58687, October 11, 1979). Exemption is sought from the requirements to file on or before June 30, 1982, information on the costs of providing electric service as specified in Subpart D.

In its application for exemption, Dalton states that it should not be required to file the specified data for the following reasons:

Dalton Utilities entered into a joint venture for power production with the Georgia Power Company, the Ogelthorpe Power Corporation, and Municipal Electric Authority of Georgia (a group of municipal power systems) in 1977. This group has done joint load research for the purpose of fulfilling the reporting requirements of PURPA. Data reported by the Georgia Power Company provides the basis for an exemption for Dalton from the requirement to separately report such data.

Copies of the application for exemption are on file with the Commission and are available for public inspection. Any person desiring to present written views, arguments, or other comments on the application for exemption should file such information with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before 45 days following the date this notice is published in the **Federal Register**. Within that 45-day period such person must also serve a copy of such comments on: City of Dalton—Water, Light & Sinking Fund Commission, Attention: Mr. V. D. Parrott, Jr., President, P.O. Box 869, Dalton, Georgia 30720.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. QF81-28-000]

Clark University; Application for Commission Certification of Qualifying Status of a Cogeneration Facility

June 4, 1981.

On April 27, 1981, Clark University of Worcester, Massachusetts, filed with the Federal Energy Regulatory Commission an application pursuant to section 292.207 of the Commission's rules.

The facility is a dual-fuel, topping-cycle cogeneration facility to be located at the applicant's campus in Worcestor, Massachusetts. The primary energy source for the facility will be natural gas. The power production capacity of the facility is 18 megawatts at an 80 percent power factor. The facility will provide heat and hot water to various buildings on the campus and all of the applicant's electrical needs. No portion of the facility will be owned by an electric utility, electric utility holding company, or any combination thereof.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. CP81-317-000]

Columbia Gas Transmission Corp.; Application

May 22, 1981.

Take notice that on May 4, 1981, Columbia Gas Transmission Corporation (Columbia Gas), 1700 MacCorkle Avenue SE., Charleston, West Virginia 25314, filed in Docket No. CP81-317-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of an additional

compressor unit at its Seneca Compressor Station (Seneca) in Pendleton County, West Virginia, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Columbia Gas requests authorization to construct and operate a 13,750 horsepower gas turbine driver-centrifugal compressor unit at Seneca. Columbia Gas states that Seneca is located at a critical point on Columbia Gas' B System which partially supplies its Eastern Market Area, including the Washington-Baltimore Area, and that it is essential that this station have a high degree of reliability to permit operation at a high load factor during the winter period. Columbia Gas indicates that during winter/day design operations it would use the proposed 13,750 horsepower unit in firm service and the existing Seneca units, which consist of one 6,200 and two 3,165 horsepower units, in standby service.

Columbia Gas states that it would purchase a surplus GE Frame 3 turbine compressor unit from Columbia Gulf Transmission Company (Columbia Gulf), an affiliate, which can be upgraded to 13,750 horsepower. Such unit is currently at Columbia Gulf's Stanton Compressor Station and that the abandonment of said unit is currently pending before the Commission in Docket No. CP81-161-000, it is stated. Columbia Gas states that it also intends to purchase a surplus auxiliary equipment at its Seneca Compressor Station.

The application states that on February 26, 1981, a failure occurred in the regenerative unit of the existing 6,200 horsepower Seneca compressor unit, and that it has been estimated that this unit, which was installed in 1953, cannot be made operational until approximately November 1, 1981. Columbia Gas contends that without the availability of this unit, it would experience an approximate 113,000 Mcf per day reduction in the capability of the B System on a design day during the 1981-82 winter period. Additionally, other major accessory components of the existing 6,200 horsepower units are obsolete and efforts to keep the unit in operating condition have required repairs using material not specifically designed for the application, it is said. It is stated that a failure in one of the major components could render the compressor unit inoperable for periods of months, up to two years. The two existing 3,165 horsepower compressor units at Seneca are light duty Allison units primarily installed for peaking service, it is said.

Columbia Gas indicates that it intends to make every effort to complete installation of the Stanton unit at Seneca by November 1, 1980, in order to assure design day capabilities of the B system during the 1981-82 winter period.

Columbia Gas indicates that it would purchase the proposed facility from Columbia Gulf at its original cost less depreciation for an estimated net out-of-pocket cost of $861,831. The estimated total capital cost for installing and upgrading the proposed 13,750 horsepower compressor unit at Seneca would be $7,190,000 which cost would be financed from internally generated funds, Columbia Gas states.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 11, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ER81-476-000]

Duke Power Co.; Filing

June 4, 1981.

The filing Company submits the following:

Take notice that Duke Power Company (Duke Power) tendered for filing on May 21, 1981 a supplement to the Company's Electric Power Contract with Blue Ridge Electric Cooperative, Inc. Duke Power states that this contract is on file with the Commission and has been designated Duke Power Company Rate Schedule FERC No. 142.

Duke Power further states that the Company's contract supplement, made at the request of the customer and with agreement obtained from the customer, provides for the following increase in designated demand: Delivery Point No. 13 from 3,300 KW to 6,000 KW.

Duke Power indicates that this supplement also includes an estimate of sales and revenue for twelve months immediately preceding and for the twelve months immediately succeeding the effective date. Duke Power proposes an effective date of July 20, 1981.

Accoding to Duke Power copies of this filing were mailed to Blue Ridge Electric Cooperative, Inc., and the South Carolina Public Service Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6450-85-M

[Docket No. ER81-475-000]

Florida Power Corp.; Filing

June 4, 1981.

The filing Company submits the following:

Take notice that on May 21, 1981, Florida Power Corporation (Florida Power) tendered for filing a revision to

the daily capacity charge for its scheduled interchange service to Florida Power & Light Company, Tampa Electric Company, the Orlando Utilities Commission, the Sebring Utilities Commission, the Jacksonville Electric Authority, and the Cities of Gainesville, Kissimmee, St. Cloud and Lakeland, Florida under interconnection agreements with each of these utilities. According to Florida Power, the revised charge of $82.66 per MW per day is based on 1980 data and is derived according to the same method shown in cost support schedules submitted with the interconnection agreements. According to Florida Power, the present daily capacity charge based on 1979 data is $73.45 per MW per day.

Florida Power requests that the revised daily capacity charge be made effective on May 1, 1981, and requests waiver of the notice requirement.

According to Florida Power, the filing has been served on each of the above-named utilities and the Florida Public Service Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6450-85-M

[Docket No. ER81-467-000]

Indiana & Michigan Electric Co.; Filing

June 3, 1981.

The filing company submits the following.

Take notice that American Electric Power Service Corporation (AEP) on May 18, 1981 tendered for filing on behalf of its affiliate Indiana & Michigan Electric Company (I&M) Modification No. 8, dated, May 1, 1981, to the Agreement, dated January 2, 1977, between The City of Richmond, Indiana and Indiana & Michigan Electric Company, I&M's Rate Schedule FERC No. 70.

Section 1 of Modification No. 8 provides for an increase in the demand charge for Short Term Power from $0.85 to $1.05 per kilowatt per week. This schedule proposed to become effective May 1, 1981.

Applicant states that since the use of Short Term Power cannot be accurately estimated, for the twelve-month period succeeding the date of filing, it is impossible to estimate the increase in revenue resulting from its modification for such period. Applicant's Appendix V which was included with the filing of this modification, demonstrates that the increase in revenue which would have resulted had the modification been in effect during the twelve-month period ending December 1980 would have been $3,000.00 (i.e., from $15,676.10 to $18,676.10) for when Indiana & Michigan Electric Company supplied Short Term Energy to Richmond Power & Light and $60,452.38 (i.e., from $1,186,612.20 to $1,247,064.58) for when Richmond Power & Light supplied Short Term Energy to Indiana & Michigan Electric Company.

Copies of the filing were served upon the City of Richmond, Indiana, the Public Service Commission of Indiana and the Michigan Public Service Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 N. Capitol Street, Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protest should be filed on or before June 18, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

BILLING CODE 6450-85-M

[Docket No. ER81-482-000]

Kansas Gas & Electric Co.; Filing

June 3, 1981.

The filing Company submits the following:

Take notice that Kansas Gas and Electric Company, on May 22, 1981 tendered for filing a proposed change in its FPC Electric Service Tariff No. 137. The proposed Amendment changes the minimum and maximum amounts of power.

The Amendment is necessary because the present demands have decreased due to customer load reduction.

Copies of this filing were served upon The Butler Rural Electric Cooperative Association, Inc.

Any person desiring to be heard or to protest said Application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commissions's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6450-85-M

[Docket No. SA81-40]

B. H. Keyes; Application for Staff Adjustment

June 3, 1981.

Take notice that on May 4, 1981, B. H. Keyes filed with the Commission an application for an adjustment from the Commission's regulations pursuant to section 502(c) of the Natural Gas Policy Act of 1978 (NGPA), 15 U.S.C. 3301 et seq., and § 1.41 of the Commission's Rules of Practice and Procedure.

The applicant seeks an adjustment from § 271.804(c) of the Commission's regulations, which provides that in seeking a well eligibility determination under section 108 of the NGPA, the application must be based on a 90-day production period which falls entirely within the 180 days preceding the date the application was filed.

In support of his request, the applicant has stated the following facts. B. H. Keyes operates the Yockey No. 2 Well located in San Juan County, New Mexico. The well was completed for production in 1958, and produced into El Paso Natural Gas Company's gathering system from 1959 until December 1975. In December, 1975, the well stopped producing gas in measurable amounts and was disconnected from the pipeline on June 28, 1978. Several attempts were made prior to disconnection to cause production from the well by pressure build-up, but still no production was measured. Because the well was disconnected in June of 1978, the applicant asserts that it was not capable of production during the 180 days preceding the application, as would be required by § 271.804(c). Accordingly, the applicant requests that he be allowed to use a 90-day production period which falls within the last 180 days during which the well produced into the pipeline, in 1975.

The procedures applicable to the conduct of this adjustment proceeding are found in § 1.41 of the Commission's regulations.

Any person desiring to participate in this proceeding shall file a petition to intervene in accordance with § 1.41(e) of the Commission's regulations. All petitions to intervene must be filed on or before June 24, 1981.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. QF81-27-000]

Koppers Co., Inc.; Application for Commission Certification of Qualifying Status as a Cogeneration Facility

June 4, 1981.

On May 11, 1981, the Koppers Company, Inc., of Pittsburgh, Pennsylvania, filed with the Federal Energy Regulatory Commission (Commission) a complete application to be certified as a qualifying congeneration facility.

The facility will be a topping-cycle cogeneration facility located at Tie Plant, Mississippi. The primary energy source of the facility is wood waste from the plant and nearby sawmills. No oil or natural gas will be used. Projected power generation is in the range from 500 to 750 kilowatts with extraction steam for processing in the range from 11,000 lb/hr. (out of 20,000 lb/hr.) to 6,000 lb/yr. (out of 20,000 lb/yr.). No electric utility, electric utility holding company or any combination thereof has more than a 50 percent ownership interest in the facility.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed on or before July 9, 1981 and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. RA81-52-000]

Laketon Asphalt Refining, Inc.; Filing of Petition for Review

June 3, 1981.

Take notice that Hobart Corporation Inc. on May 22, 1981, filed a Petition for Review under 42 U.S.C. section 7194(b) (1977 Supp.) from an order of the Secretary of Energy (Secretary).

Copies of the petition for review have been served on the Secretary and all participants in prior proceedings before the Secretary.

Any person who participated in the prior proceedings before the Secretary may be a participant in the proceeding before the Commission without filing a petition to intervene. However, any such person wishing to be a participant is requested to file a notice of participation on or before June 18, 1981, with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. Any other person who was denied the opportunity to participate in the prior proceedings before the Secretary or who is aggrieved or adversely affected by the contested order, and who wishes to be a

participant in the Commission proceeding, must file a petition to intervene on June 18, 1981, accordance with the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.40(e)(3)).

A notice of participation or petition to intervene filed with the Commission must also be served on the parties of record in this proceeding and on the Secretary of Energy through John McKenna, Office of General Counsel, Department of Energy, Room 6H–025, 1000 Independence Avenue, SW., Washington, D.C. 20585.

Copies of the petition for review are on file with the Commission and are available for public inspection at Room 1000, 825 North Capitol St., NE., Washington, D.C. 20426.

BILLING CODE 6450–85–M

[Docket No. ST81–256–000]

Louisiana Intrastate Gas Corp.; Application for Approval of Rates

June 3, 1981.

Take notice that on May 4, 1981, Louisiana Intrastate Gas Corporation (LIG), P.O. Box 1352, Alexandria, Louisiana 71301, filed in Docket No. ST81–256–000 an application pursuant to § 284.123(b)(2) of the Commission's Regulations for approval of rates charged for transporting natural gas for Southern Natural Gas Company (Southern), all as more fully set forth in the application which is on file with the Commission and open for public inspection.

LIG states that it has entered into a transportation agreement with Southern, dated February 10, 1981, whereby it would provide a transportation service for Southern for a two-year period. It is further stated that under the agreement, LIG is to accept gas from Southern for its account at specified points of interconnection and redeliver thermally equivalent volumes to Southern less gas consumed as compressor fuel, company use and unaccounted for gas.

LIG says that the transportation service would be provided for a fee of 20.0 cents for each million Btu redelivered by LIG to Southern. Further, LIG states that the gas to be transported hereunder is owned by Southern and that Southern is receiving such natural gas into its own facilities through a further transportation arrangement with Sugar Bowl Gas Corporation and that such gas is for Southern's system supply for resale.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 23, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition

to intervene in accordance with the Commission's Rules.

BILLING CODE 6450-85-M

[Docket No. ER81-474-000]

Metropolitan Edison Co.; Filing

June 4, 1981.

The filing Company submits the following:

Take notice that on May 21, 1981, Metropolitan Edison Company (ME), on behalf of the signatories to the Susquehanna-Eastern 500 kV Transmission System Agreement (S-E Agreement) filed new Schedules 11.01 and 12.01 supplementing the S-E Agreement which is on file with the Commission, to become effective on March 23, 1981. ME states that the parties to this agreement are:

Atlantic City Electric Company
Delmarva Power & Light Company
Metropolitan Edison Company
Pennsylvania Power & Light Company
Philadelphia Electric Company
Public Service Electric & Gas Company
UGI Corporation

ME states that all of the parties to the S-E Agreement have approved the new Schedules and the filing by ME.

ME states that the new schedules set forth methods and procedures for determining use, use entitlements, and charges for use of the S-E Transmission System for uses other than those specified in Section 3.1 of the S-E Agreement, by either signatories or non-signatories; and for allocating payments among the signatories. There is no provision for any change in the monthly rate for excess of investment responsibility previously filed.

ME states that this filing has been sent to the Regulatory Commissions of Pennsylvania, New Jersey, Maryland, Delaware and Virgina for their information.

Any person desiring to be heard or protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6450-85-M

[Project No. 3739-000]

Mitchell Energy Co., Inc.; Application for Preliminary Permit

June 1, 1981.

Take notice that Mitchell Energy Company, Inc. (Applicant) filed on November 12, 1980, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. Section 791(a)-825(r)] for proposed Project No. 3739 to be known as Calamus Dam Hydroelectric Project located at the United States Water and Power Resources Service's Calamus Dam on the Calamus River, in Loup County, near Burwell, Nebraska. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Mitchell L. Dong, President, Mitchell Energy Company, Inc., 173 Commonwealth Avenue, Boston, Massachusetts 02116. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize a United States Water and Power Resources Service's dam. Project No. 3739 would consist of: (1) a proposed powerhouse located just below the dam near the river outlet works, and having an estimated generating capacity of 1.6 MW; (2) proposed transmission lines; and (3) appurtenant facilities. The proposed project is located on Federal lands.

The Applicant estimates that the average annual energy output would be 4,205,000 kWh.

Purpose of Project—Applicant plans to sell the generated output of energy to the Nebraska Public Power District or other local utilities.

Proposed Scope and Cost of Studies Under Permit—The Applicant seeks issuance of a preliminary permit for a 36 month time period. Within the 36 month time period, the Applicant intends to conduct engineering, environmental, and legal examinations. The total cost of the proposed examinations in $50,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the enginering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications.—Anyone desiring to file a competing application must submit to the Commission, on or before August 10, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than October 9, 1981. A notice of intent must conform with the requirements of 18 CFR § 4.33(b) and (c) (1980). A competing application must conform with the requirements of 18 CFR § 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and

Procedure, 18 CFR § 1.8 or § 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before August 10, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 3739. Any comments, notices of intent, competing applications protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, NW., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ER81-488-000]

Montana Power Co.; Filing

June 4, 1981.

The filing company submits the following:

Take notice that The Montana Power Company (Montana) on May 26, 1981, tendered for filing in accordance with Section 35 of the Commission's regulations, a Letter Agreement with Puget Sound Power & Light Company (Puget). Montana states that this Letter Agreement provides for the sale of firm energy between Montana and Puget.

Montana indicates that the proposed Letter Agreement increased revenues from jurisdictional sales by $552,200.00 based upon energy delivered from September 3, 1980 through September 30, 1980. Montana states that the rate for firm energy under this Letter Agreement was negotiated.

An effective date of September 3, 1980, is proposed and waiver of the Commission's requirements is therefore requested.

In addition, Montana also tendered for filing a Notice of Cancellation of an Agreement for the sale of firm energy between Montana and Puget. Montana states this agreement has expired as of its own terms and has not been renewed.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6450-85-M

[Docket No. ER81-487-000]

Montana Power Co.; Filing

June 3, 1981.

The filing Company submits the following:

Take notice that The Montana Power Company (Montana) on May 26, 1981, tendered for filing in accordance with Section 35 of the Commission's regulations, a Letter Agreement with the Southern California Edison Company (Edison). Montana states that this Letter Agreement provides for the sale of firm energy between Montana and Edison.

Montana indicates that the proposed Letter Agreement increased revenues from jurisdictional sales by $3,655,359.09, based upon energy delivered from September 15, 1980 through December 30, 1980. Montana states that the rate for firm energy under this Letter Agreement was negotiated.

An effective date of September 15, 1980, is proposed and waiver of the Commission's notice requirements is therefore requested.

In addition, Montana also tendered for filing a Notice of Cancellation of an Agreement for the sale of firm energy between Montana and Edison. Montana states that this agreement has expired as of its own terms and has not been renewed.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8, 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene.

[Docket No. QF81-23-000]

New England Alternate Fuels, Inc.; Application for Commission Certification of Qualifying Status of a Small Power Production Facility

June 4, 1981.

On May 6, 1981, New England Alternate Fuels, Inc., of Brattleboro, Vermont, filed with the Federal Energy Regulatory Commission (Commission) a completed application of be certified as a qualifying small power production facility pursuant to section 292.207 of the Commission's rules.

The facility will be a small power production unit when a hourly output of approximately 2.5 megawatts. The facility will consist of a processing stage which will prepare fuel from railroad tiestubs, pallets, dry sawdust, light industrial and municipal waste fraction and miscellaneous other combustible waste materials. The primary energy source of the facility will be waste. Power production will be accomplished through the use of a steam turbine driven generator. No electric utility, electric utility holding company or any combination thereof will have any ownership interest in the facility.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER81-481-000]

Niagara Mohawk Power Corp.; Filing

June 4, 1981.

The filing Company submits the following:

Take notice that Niagara Mohawk Power Corporation (Niagara), on May 26, 1981, tendered for filing as a rate schedule, an agreement between Niagara and Long Island Lighting Co. (LILCO) dated August 28, 1980.

Niagara presently has on file an agreement with LILCO dated February 14, 1975 and amended April 12, 1977. This agreement is designated as Niagara Mohawk Power Corporation Rate Schedule F.E.R.C. No. 91 with Supplement 1. The new agreement is being transmitted as a supplement to the existing agreement.

This supplement revises the transmission rate for transmitting Fitzpatrick power and energy from the Power Authority of the State of New York to Long Island as provided for in the terms of the original agreement. Niagara requests waiver of the Commission's prior notice requirements in order to allow said agreement to become effective as of September 1, 1980.

Copies of the filing were served upon Long Island Lighting Company and the Public Service Commission of the State of New York.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6450-85-M

[Docket No. ER81-493-000]

Northern States Power Co.; Filing

June 4, 1981.

The filing Company submits the following:

Take notice that Northern States Power Company, on May 26, 1981 tendered for filing the Municipal Transmission Service Agreement, dated April 30, 1981, with the City of St. James.

Northern States agrees to provide transmission service to the City of St. James to deliver the City's purchase of both WAPA power and energy and power and energy purchases from an Alternative Supplier.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[GP81-31-000]

P and S Oil and Gas Corp.; Petition to Vacate Final Well Category Determination and Request for Withdrawal

Issued: June 3, 1981.

In the matter of State of West Virginia Section 108 NGPA Determination P & S Oil and Gas Corporation Dickerson Well No. 7 JD No. 80-15958.

On March 23, 1981, the West Virginia Department of Mines, Office of Oil and Gas (West Virginia) filed with the Federal Energy Regulatory Commission (Commission) a petition to vacate and permit withdrawal of the final well

category determination for the P&S Oil and Gas Corporation (P&S) Dickerson Well No. 7 pursuant to the Commission's authority under the Natural Gas Policy Act of 1978 (NGPA), 15 U.S.C. Sections 3301–3432 (Supp. II 1978). West Virginia made an affirmative determination that the subject well qualifies as a stripper well under section 108 of the NGPA and that the determination became final on April 14, 1980, 45 days after the Commission received notice pursuant to Section 275.202(a) of the Commission's regulations.

Subsequent to the time that the determination became final, the Commission staff conducted an audit of P&S's stripper well filings. Staff found that the Dickerson Well No. 7, of three wells connected by one meter, has been plugged prior to filing and does not meet section 108 standards. The other two wells continue to qualify. As a result of this audit, P&S requested that West Virginia withdraw its final well category determination. West Virginia forwarded that request to the Commission.

Any person desiring to be heard or to protest this petition should on or before July 9, 1981 file with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, a protest or a petition to intervene in accordance with Section 1.8 or 1.10 of the Commission's Rules of Practice and Procedure. All protests filed with the Commission will be considered but will not make the protestants parties to the proceeding. Any person wishing to become a party to the proceeding or to participate as a party in any hearing must file a petition to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81–17037 Filed 6–8–81; 8:45 am]

BILLING CODE 6450–05–M

[Docket No. SA81–29–000]

Phillips Petroleum Co.; Application for Staff Adjustment Pursuant to Section 502(c) of the NGPA

June 2, 1981.

Take notice that on April 20, 1981, Phillips Petroleum Company (Phillips) filed with the Federal Energy Regulatory Commission (Commission) an application for an adjustment under section 502(c) of the Natural Gas Policy Act of 1978 (NGPA) and § 1.41 of the Commission's Rules of Practice and Procedure. Phillips seeks a waiver of § 154.94(h)(2)(iii) of the Commission's regulations, wherein sellers of natural gas are required to file a rate change for gas production qualifying as NGPA section 108 gas within the thirty days after the well category determination becomes final.

Specifically, Phillips states that the Northern Natural Gas Company purchases the gas produced from the Jeffs Nos. 1 and 2 wells located in Reagan County, Texas and operated by Phillips. Phillips states that it filed for and received affirmative section 108 stripper well determinations from the appropriate jurisdictional agency. Phillips further states that the Commission acknowledged receipt of the well category determinations in the **Federal Register** and that the determinations became final on January 16, 1981 and March 16, 1981, respectively. Because of clerical oversight, however, Phillips claims that it failed to make the rate change filing required by § 154.94(h)(2)(iii) within the thirty days of the date of final determination.

Phillips states that it has incurred a loss of approximately $9,580 through April 22, 1981, as a result of its failure to make the timely rate change filing. Such loss will allegedly continue until the current rate change filing is effective. Phillips, therefore, requests that the rate change filing attached to its application be accepted to become effective on January 16, 1981 as though timely filed.

The procedures applicable to the conduct of this adjustment proceeding are found in § 1.41 of the Commission's Rules of Practice and Procedure (44 FR 18961, March 30, 1979) as amended.

Any person desiring to participate in this adjustment proceeding shall file a petition to intervene in accordance with the provisions of § 1.41. All petitions to intervene must be filed on or before June 24, 1981.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450–85–M

[Docket No. SA81–30–000]

Phillips Petroleum Co.; Application for Staff Adjustment Pursuant to Section 502(c) of the NGPA

June 2, 1981.

Take notice that on April 24, 1981, Phillips Petroleum Company (Phillips) filed with the Federal Energy Regulatory Commission (Commission) an application for an adjustment under section 502(c) of the Natural Gas Policy Act of 1978 (NGPA) and § 1.41 of the Commission's Rules of Practice and Procedure. Phillips seeks a waiver of § 154.94(h)(2)(iii) of the Commission's regulation, wherein sellers of natural gas are required to file a rate change for gas production qualifying as NGPA section 102(d) gas within the thirty days after the well category determination becomes final.

Specifically, Phillips states that the Transcontinental Gas Pipe Line Corporation purchases the gas produced from the OCSA–33S #18–D, OCS–33 #8, and the OCS–0333 #8–B wells. Phillips owns a nonoperating interest in these wells, which are operated by the Kerr-McGee Corporation (Kerr-McGee). Kerr-McGee filed for and received affirmative section 102(d) determinations from the United States Geological Survey. Phillips states that the Commission acknowledged receipt of the well category determinations in the **Federal Register** and that the determinations become final after 45 days. Phillips states that as a non-operating working interest owner, its name did not appear in the notices published in the **Federal Register**. As a result, Phillips claims it only recently learned of the well determinations made with respect to the wells in question, and consequently failed to make the rate change filing required by § 154.94(h)(2)(iii) within the thirty days of the date of final determination. Phillips states that it has incurred a loss of approximately $109,508 through March 31, 1981. Such loss will allegedly continue until the current rate change filing is effective. Phillips, therefore, requests that the rate change filing attached to its application be accepted to become effective on January 4, 1980 as though timely filed.

The procedures applicable to the conduct of this adjustment proceeding are found in § 1.41 of the Commission's Rules of Practice and Procedure (44 FR 18961, March 30, 1979) as amended.

Any person desiring to participate in this adjustment proceeding shall file a petition to intervene in accordance with the provisions of § 1.41. All petitions to intervene must be filed on or before June 24, 1981.

Kenneth F. Plumb,

Secretary.

[Docket No. SA81–32–000]

Phillips Petroleum Co.; Application for Staff Adjustment Pursuant to Section 502(c) of the NGPA

June 2, 1981.

Take notice that on May 4, 1981,

Phillips Petroleum Company (Phillips) filed with the Federal Energy Regulatory Commission (Commission) an application for an adjustment under section 502(c) of the Natural Gas Policy Act and § 1.41 of the Commission's Rules of Practice and Procedure. Phillips seeks a waiver of § 154.94(h)(2)(iii) of the Commission's regulations, wherein sellers of natural gas are required to file a rate change for gas production qualifying as NGPA section 108 stripper well gas within the thirty days after the well category determination becomes final.

Specifically, Phillips states that the Cities Service Gas Company purchases the gas produced from the Eakins #1 well. Phillips owns a nonoperating interest in the well, which is operated by the Texas Oil & Gas Company (TXO). TXO filed for and received an affirmative section 108 determination from the appropriate jurisdictional agency. Phillips states that the Commission acknowledged receipt of the well category determination in the **Federal Register** and that the determination became final after 45 days. Phillips states that a nonoperating working interest owner, its name did not appear in the notices published in the **Federal Register**. As a result, Phillips claims it only recently learned of the well determination made with respect to the wells in question and, consequently failed to make the rate change filing required by § 14.94(h)(2)(iii) within the thirty days of the date of final determination. Phillips states that it has incurred a loss of approximately $2,370 through April 22, 1981. Such loss will allegedly continue until the current rate change filing is effective. Phillips, therefore, requests that the rate change filing attached to its application be accepted to become effective on March 5, 1981, as though timely filed.

The procedures applicable to the conduct of this adjustment proceeding are found in § 1.41 of the Commission's Rules of Practice and Procedure (44 FR 18961, March 30, 1979) as amended.

Any person desiring to participate in this adjustment proceeding shall file a petition to intervene in accordance with the provisions of § 1.41. All petitions to intervene must be filed on or before June 24, 1981.

Phillips Petroleum Co.; Application for Staff Adjustment Pursuant to Section 502(c) of the NGPA

June 2, 1981.

Take notice that on April 20, 1981, Phillips Petroleum Company (Phillips) filed with the Federal Energy Regulatory Commission (Commission) an application for an adjustment under section 502(c) of the Natural Gas Policy Act (NGPA) and § 1.41 of the Commission's Rules of Practice and Procedure. Phillips seeks a waiver of § 154.94(h)(2)(iii) of the Commission's regulations, wherein sellers of natural gas are required to file a rate change for gas production qualifying as NGPA section 108 gas within the thirty days after the well category determination becomes final.

Specifically, Phillips states that the Panhandle Eastern Pipeline Company purchases the gas produced from the Thoreson No. 1 well, located in Texas County, Oklahoma. Phillips owns a nonoperating interest in the well, which is operated by the Ferguson Oil Company. (Ferguson). Ferguson filed for and received an affirmative section 108 determination from the appropriate jurisdictional agency. Phillips states that the Commission acknowledged receipt of the well category determination in the **Federal Register** and that the determination became final after 45 days. Phillips states that as a nonoperating working interest owner, its name did not appear in the notices published in the **Federal Register**. As a result, Phillips claims it only recently learned of the well determination made with respect to the wells in question, and consequently failed to make the rate change filing required by § 154.94(h)(2)(iii) within the thirty days of the date of final determination. Phillips claims that it will incur a substantial loss which will allegedly continue until the current rate change filing is effective. Phillips, therefore, requests that the rate change filing attached to its application be accepted to become effective on February 12, 1980, as though timely filed.

The procedures applicable to the conduct of this adjustment proceeding are found in § 1.41 of the Commission's Rules of Practice and Procedure (44 FR 18961, March 30, 1979) as amended.

BILLING CODE 6450-85-M

[Docket No. QF81-19-001]

Resource Recovery (Dade County), Inc.; Request for a Declaratory Order

June 3, 1981.

On May 7, 1981, Florida Power and Light Company (FP&L) filed with the Federal Energy Regulatory Commission (Commission) a petition for a declaratory order pursuant to § 1.7(c) of the Commission's rules.

On March 13, 1981, Resource Recovery (Dade County), Inc. (RRD), filed a Notice of Qualification as a Small Power Production Facility in Docket No. QF81-19-000 pursuant to section 292.207(a) of the Commission's rules.

FP&L requests the Commission to issue a declaratory order contradicting RRD's Notice that it is a qualifying small power production facility. FP&L's petition is based on three assertions. First, FP&L assets that RRD repudiated a purchase contract with Dade County, in order to exploit the Commission's regulations and gain windfall revenues. Thus, FP&L argues that the facility is not a qualifying small power production facility because of the contractual relationships among the parties.

Second, FP&L asserts that the public interests requires that the Commission not permit RRD to classify itself as a qualifying small power production facility. This claim is also based on the contractual relationship of the parties and the assertion that qualifying status is not necessary to encourage small power production in this instance.

Finally, FP&L contests RRD's Notice of Qualifying Status as a Small Power Production Facility on the grounds that RRD does not have standing to give such notice because it does not have legal title to the facility.

Any person desiring to be heard on this matter should file a petition to intervene with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with section 1.8 of the Commission's rules. All such petitions must be filed on or before July 9, 1981 and must be served on the Applicant. Copies of this filing are on file with the Commission and are available for public inspection.

Southern California Edison Co.; Filing

June 4, 1981.

The filing Company submits the following:

Take notice that on May 26, 1981, Southern California Edison Company (Edison) tendered for filing a Letter Agreement with Eugene Water & Electric Board (EWEB) which sets forth the terms and conditions for the purchase and/or storage and return energy between EWEB and Edison.

Edison requests waiver of the Commission's prior notice requirements and an effective date of November 7, 1980 for this agreement.

Copies of this filing were served upon the Public Utilities Commisison of the State of California, and Eugene Water and Electric Board.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER81-485-000]

Southern California Edison Co.; Filing

June 4, 1981.

The filing Company submits the following:

Take notice that on May 26, 1981, Southern California Edison Company (Edison) tendered for filing rate schedules in the following Agreements which have been executed by Edison and Arizona Electric Power Cooperative, Inc. (AEPCO).

1. Edison-AEPCO Firm Transmission Service Agreement
2. Edison-AEPCO Load Control Agreement
3. Agreement for Emergency Services

The Agreements set forth the terms and conditions under which (i) Edison will make firm transmission service available to AEPCO from Mead Substation in Southeastern Nevada to Mountain Center Substation near Palm Springs, California, (ii) the electrical capacity and energy requirements of Anza Electric Cooperative, Inc. will be integrated and dispatched by AEPCO, and (iii) reciprocal emergency service between Edison and AEPCO will be made available.

Edison requests waiver of the Commission's prior notice requirement and an effective date no later than July 1, 1981 for these rate schedules.

Copies of this filing were served upon the Public Utilities Commission of the State of California and Arizona Electric Power Cooperative, Inc.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 N. Capitol Street, NE, Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. BILLING CODE 6450-85-M

[Docket No. RP80-133-001, et al.]

Texas Eastern Transmission Corp.; Proposed Changes in FERC Gas Tariff

June 1, 1981.

Take notice that Texas Eastern Transmission Corporation (Texas Eastern) on May 18, 1981, tendered for filing as part of its FERC Gas Tariff, Fourth Revised Volume No. 1, the following sheets:

Fourth Revised Sheet No. 11
Original Sheet No. 11A

The above sheets are being filed pursuant to Article II, Future Refunds, of the Stipulation and Agreement in Docket

No. RP80-133-001, *et al.*, approved by Commission order dated April 3, 1981. Article II provides specifically for the filing of the above tariff sheets which were attached to the Stipulation and Agreement as Exhibit A.

Pursuant to the requirements of the Stipulation and Agreement, the proposed effective date of the above tariff sheets is the effective date of the Stipulation and Agreement, which is May 3, 1981. In its order dated April 3, 1981, the Commission waived compliance with any of its regulations necessary to effectuate the provisions of the Stipulation and Agreement, which would include the May 3, 1981, effective date for the above tariff sheets.

Copies of the filing were served on Texas Eastern's jurisdictional customers and interest state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street N.E., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commissions's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 16, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Texas Gas Pipe Line Corp.; Tariff Sheet Filing

June 1, 1981.

Take notice that on May 18, 1981, Texas Gas Pipe Line Corporation, pursuant to § 154.38 of the Commission Regulations under the Natural Gas Act, filed a fifth Revised Sheet No. 4a to its FERC Gas Tariff, Second Revised Volume No. 1. Texas Gas states that the filed Tariff Sheets relate to the Unrecovered Purchased Gas Cost Account of the Purchased Gas Adjustment Provision contained in Section 12 and the Incremental Pricing Surcharge Provision contained in Section 13 of the General Terms and Conditions of the Tariff. More specifically, Fifth Revised Sheet No. 4a reflects a net increase under that currently being collected to 25.30¢ per Mcf (at 14.65 psia) to be effective June 1, 1981.

Any person desiring to be heard and to make any protest with reference to said filing should on or before June 16, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protest in accordance with the Commission's rule of practice and procedure (18 CFR 1.8, or 1.10). All protests filed with the Commission will be considered by it but will not serve to make the protestants parties to the proceeding. Persons wishing to become a parties to the proceeding or to participate as a party in any hearing must file petitions to intervene in accordance with the Commission's rules. Texas Gas' Tariff filing is on file with the Commission and available for public inspection.

June 3, 1981.

Take notice that on May 13, 1981, the Utah Power & Light Company (UP&L), filed with the Commission a Refund Report applicable to the Mexican Hat Association for all amounts collected subject to refund under FERC Docket No. ER79-121 for the period September 11, 1979 to February 29, 1980, including interest.

Any person desiring to be heard or to protest said compliance filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 26, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. RP81-60-000]

Valero Interstate Transmission Co; Order Accepting for Filing and Suspending Proposed Rate Schedules, Rejecting Proposed PGA Revisions, Initiating Hearing and Establishing Procedures

Issued: May 29, 1981.

On April 30, 1981, Valero Interstate Transmission Company [1] (VITCO) filed in Docket No. RP81-60-000 a notice of rate changes under its FERC Gas Rate Schedule Nos. 1, 2 and 14 and under its Transportation Rate Schedule No. T-1. [2] The proposed rate changes reflect an increase in VITCO's gathering charge from 23.69 cent/Mcf to 27.04 cent/Mcf, resulting in a dollar increase in jurisdictional revenues of $2,430,687 annually. The proposed rate changes are based on a 12-month base period ending December 31, 1980, adjusted for known and measurable changes through the nine-months ending September 30, 1981. VITCO requests that the proposed rate changes be made effective, without suspension, on June 1, 1981.

VITCO states that the proposed rate increase is necessary to offset declining natural gas production from dedicated reserves, to increase rate of return and to recover increases in virtually all components of its cost of service. VITCO claims a need for a 13.66 percent overall rate of return yielding 18.00 percent return on common equity on VITCO's capitalization, 62.5 percent of which is common equity capital. Included in cost of service are an increased depreciation rate, increased operation and maintenance expenses, changed volumes and related gas supply expenses and treatment of transportation of liquids and liquefiables. Additionally, VITCO's filed cost of service contains a "provision for attrition allowance" of $197,800 to 1.69% of its claimed rate base. No explanation of this proposed allowance is provided in the filing.

In addition to the general rate increase filing, VITCO has filed for purchased gas cost adjustments under the provisions of its PGA clause in Docket No. TA81-2-56-000.[3] If the general rate increase, which also embodies a purchases gas adjustment, is suspended, VITCO then requests that the PGA increase be considered as a separate filing. Since, as set forth below, the general rate increase is being suspended for five months, the proposed purchased gas cost adjustment will be considered as a separate filing.

In conjunction with the general rate increase, VITCO has proposed to modify its PGA clause to reflect natural gas lost and unaccounted for and company-used gas. VITCO also proposes to include a provision to permit the recovery of costs incurred to transport off-system gas supplies to VITCO's system, as provided in the settlement agreement in Docket No. RP78-58.

Public notice of the filing was issued May 13, 1981, providing for protests or petitions to intervene to be filed on or before May 20, 1981. Petitions were filed by the parties listed in Appendix A. Having demonstrated an interest in this proceeding warranting their participation, the petitioners are granted intervention.

Based on a review of VITCO's general rate filing the Commission finds that the proposed rate changes have not not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or otherwise unlawful. Accordingly, we will accept the revised tariff sheets for filing, and suspend their effectiveness, subject to refund, and to the conditions set forth below.

[1] Valero Interstate Transmission Company (VITCO), a wholly-owned subsidiary of Valero Energy Corporation, is engaged in the gathering, transportation, and sale of natural gas produced from fields located in South Texas. VITCO sells gas to Transcontinental Gas Pipe Line Corporation, Natural Gas Pipeline Company of America and El Paso Natural Gas Company for interstate transportation and resale. Additionally, VITCO transports gas for certain producers to Mobil Oil Corporation's LaGloria Gas Processing Plan where liquids are extracted.

[2] The rate schedules subject to this rate filing include: FERC Gas Rate Schedules No. 1, Supplement No. 32; No. 2, Supplement No. 110; No. 14, Supplement No. 2 and Transportation Rate Schedule T-1, the tariff for service under certification issued in Docket No. CP79-458.

[3] The alternative rate schedules are designated FERC Gas Rate Schedules No. 1, Supplement No. 31; No. 2, Supplement No. 109; No. 14, Supplement No. 1.

In a number of suspension orders, [1] the Commission has addressed the considerations underlying its policy regarding rate suspensions. For the reasons given there, we have concluded that rate filing should generally be suspended for the maximum period permitted by statute where the preliminary study leads the Commission to believe that the filing may be unjust or unreasonable or that it may run afoul of other statutory standards. We have acknowledged, however, that shorter suspensions may be warranted in circumstances where suspension for the maximum period may lead to harsh and inequitable results. No such circumstances have been presented here with respect to the tariff sheets for the VITCO system. Accordingly, subject to the conditions specified below, we shall suspend the VITCO tariff sheets for a period of five months permitting such rates to become effective, subject to refund thereafter, on November 1, 1981.

VITCO's proposal to modify its PGA clause to include costs of gas lost and unaccounted for, company-used gas and transportation by others is prescribed by § 154.38(d)(3) of the regulations. Accordingly, we shall require VITCO to file revised tariff sheets reflecting elimination of these rate adjustment provisions. The proposed revisions will, however, be treated as a proposal under Section 154.52 of the regulations and be considered an issue in this proceeding for possible prospective application.

The Commission Orders

(A) Pursuant to the authority of the Natural Gas Act, particularly Sections 4, 5 and 15 thereof, and the Commission's rules and regulations, an public hearing shall be held concerning the lawfullness of the revised rates proposed by VITCO.

(B) Pending hearing and decision, and subject to the conditions of the ordering pargaraphs below and those described in the body of this order, VITCO's proposed rate changes under FERC Gas Rate Schedule No. 1, Supplement No. 32, FERC Gas Rate Schedule No. 2, Supplement No. 110, FERC Gas Rate Schedule No. 14, Supplement No. 2, and under FERC Transportation Rate Schedule No. T-1 are accepted for filing and suspended for five months until November 1, 1981, subject to refund, and subject to the conditions set forth below.

(C) On or before October 1, 1981, VITCO shall file revised tariff sheets reflecting elimination of the rate adjustment provisions discussed in the body of the order. However, these proposals shall be an issue in this proceeding.

(D) Staff shall be required to serve top sheets on or before September 1, 1981.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (18 CFR 3.5(d)), shall convene a prehearing conference in this proceeding to be held within 10 days after the service to top sheets in a hearing room of the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. The Presiding Administrative Law Judge is authorized to establish such further procedural dates as may be necessary and to conduct further proceedings in accordance with this order and the Rules of Practice and Procedure.

(F) The petitions to intervene listed in Appendix A to this order shall be permitted to intervene in this proceeding subject to the Commission's Rules and Regulations; *Provided, however,* That the participation of such intervenors shall be limited to matters affecting asserted rights and interests specificaly set out in the petitions to intervene; and *Provided, Further,* that the admission of such intervenors shall not be construed as recognition that they might be aggrieved by any order entered in this proceeding.

By the Commission.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[1] *E.g., Valley Gas Transmission, Inc.*, Docket No. RP80-98 (August 22, 1980) (one day suspension); *Great Lakes Gas Transmission Company*, Docket No. RP80-134 (September 24, 1980)(five month suspension).

[Docket No. TA81-2-52-002 (PGA81-2)]

Western Gas Interstate Co.; PGA Rate Adjustment (Revised)

June 1, 1981.

Take notice that on May 18, 1981, Western Gas Interstate Company ("Western") filed herein a revised Seventeenth Revised Sheet No. 3A to its FERC Gas Tariff, Original Volume No. 1. Said tariff sheet is proposed to become effective May 1, 1981.

The above described tariff sheet reflects a net decrease from those rates tendered for filing on March 31, 1981 of 9.47¢ per Mcf for Rate Schedule G-N, 2.55¢ per Mcf for Rate Schedule G-R, and 4.30¢ per Mcf for Rate Schedule G-S.

Western states that Commission's order dated May 4, 1981 conditionally accepted the PGA rate adjustment filed by Western on March 31, 1981, subject to the filing of revised rates within fifteen days of the issuance of said order to reflect the adjustments detailed in such order.

Western states that copies of this filing were served upon Western's transmission system customers and the interested state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426 in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 16, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-17004 Filed 6-8-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4537-000]

Wisconsin Public Power Inc. System; Application for Preliminary Permit

June 1, 1981

Take notice that Wisconsin Public Power Incorporated System (Applicant) filed on April 15, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. §§ 791(a)-825(r)] for proposed Project No. 4537 to be known as Mississippi River Lock and Dam No. 5A located on Mississippi River in Winona County, Minnesota. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Wisconsin Public Power Incorporated System, c/o Mr. Richard L. Olson, P.O. Box 927, Madison, Wisconsin 53701. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) a proposed powerhouse containing generating units having a total installed capacity of 5,962 kW; (2) proposed 69-kV transmission lines; and (3) appurtenant facilities. Applicant would utilize an existing dam owned by the U.S. Army Corps of Engineers, and the Applicant's facilities would be located mostly on U.S. lands. The Applicant estimates that the average annual energy output would be 30,972 MWh.

Purpose of Project—Energy produced at the project would be marketed to the municipal members of the Applicant.

Proposed Scope and Cost of Studies under Permit—Applicant seeks issuance of a preliminary permit for a period of 24 months. During this time studies would be conducted to determine the engineering, economic, and environmental feasibility of the project, along with consulting Federal, State, and local agencies concerning the environmental effects of the project, in addition to preparing an FERC application for license. Applicant estimates the cost of the studies would be $52,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to Continental Hydro Corporation Project No. 3641 filed on November 3, 1980, under 18 CFR § 4.33 (1980), and, therefore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR § 1.8 or § 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before July 1, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4537. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to : Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Room 208 RB Building, Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-17019 Filed 6-8-81; 8:45 am]

BILLING CODE 6450-85-M

ENVIRONMENTAL PROTECTION AGENCY

[PP 9G2211/T303; PH-FRL-1848-4]

American Cyanamid Co.; Extension of Temporary Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: A temporary tolerance has been extended for the insecticide (±)cyano(3-phenoxyphenyl)methyl(+)-4-difluoromethoxy)-alpha-(1-methylethyl)benzeneacetate in or on the raw agricultural commodity cottonseed at 0.1 part per million.

DATE: This temporary tolerance expires April 10, 1982.

FOR FURTHER INFORMATION CONTACT: Franklin D. R. Gee, Product Manager (PM) 17, Registeration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 401, CM #2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703-557-7028).

SUPPLEMENTARY INFORMATION: EPA issued a notice that published in the **Federal Register** of August 12, 1980 (45 FR 53568) that American Cyanamid Co., P.O. Box 400, Princeton, NJ 08540, had submitted pesticide petition 9G2211 to the EPA requesting that a temporary tolerance be established for the insecticide (±)cyano(3-phenoxyphenyl)methyl(+)-4-difluoromethoxy)-alpha-(1-methylethyl)benzeneacetate in or on the raw agricultural commodity cottonseed at 0.1 part per million.

American Cyanamid Co., has requested a one-year extension of the temporary tolerance to permit the continued marketing of the above raw agricultural commodity when treated in accordance with an experimental use permit which is being extended under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended (92 Stat. 819; 7 U.S.C. 136).

The scientific data reported and other relevant material have been evaluated, and it has been determined that extension of the temporary tolerance will protect the public health. The temporary tolerance is being extended on the condition that the pesticide be used with the following provisions:

1. The total amount of the pesticide to be used will not exceed the amount authorized in the experimental use permit.

2. American Cyanamid Co. will immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The firm will also keep records of production, distribution, and performance, and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

This temporary tolerance expires April 10, 1982. Residues remaining in or on the raw agricultural commodity after the expiration date will not be considered actionable if the pesticide is legally applied during the term of and in accordance with the provisions of the experimental use permit and temporary tolerance.

This temporary tolerance may be revoked if the experimental use permit is revoked or if any scientific data or experience with this pesticide indicates that such revocation is necessary to protect the public health.

As required by Executive Order 12291, EPA has determined that this temporary tolerance regulation is not a "Major" rule and therefore does not require a Regulatory Impact Analysis. In addition,

the Office of Management and Budget (OMB) has exempted this temporary tolerance from the OMB review requirement of Executive Order 12291, pursuant to section 8(b) of that Order.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-534, 94 Stat. 1164, 5 U.S.C. 601-612) the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have significant economic impact on a substantial number of small entities. A certification statement to this effect was publish in the **Federal Register** of May 4, 1981 (46 FR 24950).

(Sec. 408(j), 68 Stat. 516 (21 U.S.C. 346a(j)))

Dated: June 1, 1981.

Douglas D. Campt,

Director, Registration Division, Office Pesticide Programs.

BILLING CODE 6560-32-M

[PF-227; PH-FRL-1848-3]

Certain Pesticide Chemicals; Filing of Pesticide, Food, and Feed Additive Petitions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces that certain companies have filed pesticide, food, and feed additive petitions for certain pesticides in or on certain raw agricultural commodities, food, and feed items.

ADDRESS: Written comments to the product manager cited in each specific petition at the address below: Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St. SW., Washington, D.C. 20460.

Written comments may be submitted while a petition is pending before the agency. The comments are to be identified by the document control number "[PF-227]" and the specific petition number. All written comments filed pursuant to this notice will be available for public inspection in the product manager's office from 8:00 a.m to 4:00 p.m., Monday through Friday, except legal holidays.

FOR FURTHER INFORMATION CONTACT: The designated product manager cited in each specific petition at the telephone number provided.

SUPPLEMENTARY INFORMATION: EPA gives notice that the following pesticide petition, food and feed additive petitions have been submitted to the agency to establish tolerances on certain raw agricultural commodities and food and feed additive regulations in or on certain food and feed items, in accordance with the Federal Food, Drug, and Cosmetic Act. The analytical method for determining residues, where required, is given in each specific petition.

FAP 1H5288. FMC Corp., Agricultural Chemical Group, 2000 Market St., Philadelphia, PA 19103, proposes that 21 CFR Part 193 be amended by establishing a food additive regulation permitting residues of the insecticide carbofuran (2,3-dihydro-2,2-dimethyl-7-benzofuranyl-*N*-methylcarbamate), its carbamate metabolite, 2,3-dihydro-2,2-dimethyl-3-hydroxy-7-benzofluranyl-*N*-methylcarbamate, and the phenolic metabolites 2,3-dihydro-2,2-dimethyl-7-benzofuranol, 2,3-dihydro-2,2-dimethyl-3-oxo-7-benzofuranol and 2,3-dihydro-2,2-dimethyl-3, 7-benzofurandiol on raisins at 2.0 part per million (ppm). (PM 12, Jay S. Ellenberger, 703-557-7024.)

FAP 1H5288. FMC Corp., Agricultural Chemical Group, Philadelphia, PA 19103, proposes that 21 CFR Part 561 be amended by establishing a feed additive regulation permitting residues of the insecticide carobofuran, (2,3-dihydro-2,2-dimethyl-7-benzofuranyl-*N*-methylcarbamate), its carbamate metabolite 2,3-dihydro-2,2-dimethyl-3-hydroxy-7-benzofluranyl-*N*-methylcarbamate, and the phenolic metabolites 2,3-dihydro-2,2-dimethyl-7-benzofuranol, 2,3-dihydro-2,2-dimethyl-3-oxo-7-benzofuranol and 2,3-dihydro-2,2-dimethyl-3,7-benzofurandiol on raisin waste at 3.0 ppm and dried grape pomace at 2.0 ppm. (PM 12, Jay S. Ellenberger, 703-557-7024.)

PP 1F2495. Ciba Geigy Corp., PO Box 11422, Greensboro, NC 27409, proposes to amend 40 CFR Part 180 be establishing tolerances for residues of the herbicide metolacher [2-chloro-*N*-2-ethyl-6-methylphenyl)-*N*-(2-methoxy-1-methylethyl)acetamide and its metabolites determined as 2-[(2-ethyl-6-methylphenyl)-amino]-1-propanol and 4-(2-ethyl-6-methylphenyl)-2-hydroxy-5-methyl-3-morpholinone, each expressed as the parent compound in or on raw agricultural commodity seed and pod vegetables at 0.3 ppm. The proposed analytical method for determining residues is gas chromatography. (PM 23, Richard F. Mountfort, 703-557-7070.)

(Sec. 408(d)(1), 68 Stat. 512 (7 U.S.C. 136); 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348))

Dated: May 28, 1981.

Douglas D. Campt,

Director, Registration Division, Office of Pesticide Programs.

[FR Doc. 81-17087 Filed 6-8-81; 8:45 am]

BILLING CODE 6560-32-M

[PF-229, PH-FRL-1848-2]

Ciba-Geigy Corp.; Filing of Pesticide and Feed Additive Petitions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces that Ciba-Geigy Corp., has filed a pesticide petition and a feed additive petition for the combined residues of metalaxyl and its metabolites in or on certain raw agricultural commodities and feed items.

ADDRESS: Written comments to: Henry M. Jacoby, Product Manager (PM) 21, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460.

Written comments may be submitted while a petition is pending before the agency. The comments are to be identified by the document control number "[PF-229]" and the specific petition number. All written comments filed pursuant to this notice will be available for public inspection in the product manager's office from 8:00 a.m. to 4:00 p.m., Monday through Friday, except legal holidays.

SUPPLEMENTARY INFORMATION: EPA gives notice that Ciba-Geigy Corp., P.O. Box 11422, Greensboro, NC 27409, has submitted a pesticide petition and a feed additive petition to the EPA proposing the establishment of tolerances and a feed additive regulation permitting the combined residues of the fungicide metalaxyl [*N*-2,6-dimethylphenyl)-*N*-(methoxyacetyl) alanine methyl ester] and its metabolites containing the 2,6-dimethylaniline moiety, each expressed as methalaxyl in or on certain raw agricultural commodities and feed items, in accordance with the Federal Food, Drug, and Cosmetic Act. The analytical method for determining residues, where required, is given in each specific petition.

FAP 1H5299. Proposes that 21 CFR Part 561 be amended by establishing a feed additive regulation for the combined residues of the fungicide metalaxyl [*N*-2,6-dimethylphenyl)-*N*-(methoxyacetyl) alanine methyl ester] and its metabolites containing the 2,6-dimethylaniline moiety, each expressed as methalaxyl in or on dry tomato pomace at 16 parts per million (ppm);

wet tomato pomace at 4 ppm; processed tomato products at 3 ppm; and soybean hulls at 1 ppm; soybean meal at 1 ppm; and soybean soapstock at 1 ppm.

PP 1F2500. Proposes that 40 CFR Part 180 be amended by establishing tolerances for the combined residues of the fungicide metalaxyl [*N*-(2,6-dimethylphenyl)-*N*-(methoxyacetyl) alanine methyl ester] and its metabolites containing the 2,6-dimethylaniline moiety, each expressed as metalaxyl in or on the following raw agricultural commodities: spinach at 10 ppm; soybean forage and fodder at 7 ppm; green onions at 5 ppm; wheat forage and straw at 2 ppm; tomatoes at 1 ppm; dry bulb onions at 1 ppm; kidney or cattle, goats, hogs, horses, poultry, and sheep at 1.0 ppm; broccoli at 0.6 ppm; cabbage at 0.6 ppm; cauliflower at 0.6 ppm; cucumbers, head lettuce, potatotes, and soybean grain at 0.5 ppm; melons at 0.3 ppm; liver of cattle, goats, hogs, horses, poultry, and sheep at 0.3 ppm; wheat grain at 0.2 ppm; cottonseed at 0.1 ppm; eggs and meat of poultry (excluding liver and kidney) at 0.05 ppm; meat, fat, and meat byproducts (excluding liver and kidney) of cattle, goats, hogs, horses, poultry, and sheep at 0.05 ppm; and milk at 0.02 ppm. The proposed analytical method for determining residues is by gas chromatography with flame ionization detector or mass spectrometry.

(Sec. 408(d)(1), 68 Stat. 512 (7 U.S.C. 136); 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348))

Dated: May 28, 1981.

Douglas D. Campt,

Director, Registration Division, Office of Pesticide Programs.

[FR Doc. 81-17088 Filed 6-8-81; 8:45 am]

BILLING CODE 6560-32-M

[OPTS-50027A; TSH-FRL-1847-7]

2-Naphthalenamine; Removal From the TSCA Inventory

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA, in reviewing the chemical substances included on the Toxic Substances Control Act (TSCA) Inventory, has concluded that the chemical substance known as 2-naphthalenamine (Chemical Abstracts Service Registry Number 91-59-8) was incorrectly reported. A notice appeared in the **Federal Register** of February 6, 1981 (46 FR 11356) announcing EPA's intent to remove the substance from the Inventory. EPA has determined that there is no on-going manufacture, importation or processing of this substance and the substance 2-naphthalenamine is considered to be not on the Inventory.

DATE: Effective on June 9, 1981.

FOR FURTHER INFORMATION CONTACT: John B. Ritch, Jr., Director, Industry Assistance Office (TS-799), Office of Toxic Substances, Environmental Protection Agency, Rm. 511B, 401 M St., SW., Washington, D.C. 20460, Toll-free: (800-424-9065), In Washington, D.C.: (554-1404), Outside the USA: (Operator-202-554-1404).

SUPPLEMENTARY INFORMATION: EPA announced in the **Federal Register** of February 6, 1981, its intent to remove from the TSCA Chemical Substances Inventory the chemical substance 2-naphthalenamine (Chemical Abstracts Service Registry Number 91-59-8) which is also known as 2-naphthlamine, *beta*-naphthylamine, *beta*-naphthalenamine, or 2-aminonaphthalene. This action was taken after an EPA investigation which indicated that the substance had originally been reported by only one firm, an importer, that later advised EPA that it had not imported the substance, i.e., the substance had been erroneously reported in place of a different substance. The investigation was initiated by EPA in response to a citizen's petition under section 21 of TSCA, requesting the Agency to take action to control the manufacture, importation or processing of 2-naphthalenamine which is a known human carcinogen.

In the February 6, 1981 **Federal Register** notice, EPA solicited public comment on its intent to remove 2-naphthalenamine from the TSCA Inventory. EPA was especially interested in receiving comments from those firms or persons who had manufactured, imported or processed the substance during the period of January 1, 1975 through February 6, 1981. During the 30-day comment period following the publication of the February 6, 1981 notice, the Agency received only one comment. The firm which submitted the comment did not identify itself as a manufacturer, importer or processor of 2-naphthalenamine, and did not express concern with the Agency's announced intent to remove the substance from the Inventory. The company did comment on the general procedures that the Agency should use to remove substances from the Inventory. The Agency is considering general policies and procedures for removal of substances from the Inventory. Those policies and procedures will be published in the future and comments such as those made by the company will be considered in establishing the policies and procedures.

With respect to 2-naphthalenamine, EPA has concluded that (1) the original Inventory report was incorrectly submitted, i.e., there was no manufacture or importation of this substance between January 1, 1975 and December 31, 1977, and (2) there has been no on-going manufacture, importation or processing of this substance since January 1, 1978.

Accordingly, with the publication of this notice of disposition, the substance known as 2-naphthalenamine is considered to be not on the TSCA Inventory—the presence of its name and synonyms in previously published versions of the Inventory notwithstanding. Effective with the publication of this notice, any person who intends to manufacture, import or process 2-naphthalenamine must comply with the premanufacture notification requirements under section 5 of TSCA.

Dated: June 1, 1981.

Edwin H. Clark II,

Acting Assistant Administrator for Pesticides and Toxic Substances.

BILLING CODE 6560-31-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

[Docket FEMA-REP-4-MS-1]

Mississippi Radiological Emergency Response Plan for Plant Grand Gulf

AGENCY: Federal Emergency Management Agency.

ACTION: Notice of Receipt of Plan.

SUMMARY: For continued operation of nuclear power plants, the Nuclear Regulatory Commission requires approved licensee and State and local governments' radiological emergency response plans. Since FEMA has responsibility for reviewing the State and local government plans, the State of Mississippi has submitted its radiological emergency plans to the FEMA Regional office. These plans support nuclear power plants which impact on Mississippi and include those of local governments near the Mississippi Power and Light company's Grand Gulf Nuclear Station located in Claiborne County, Mississippi.

DATE PLANS RECEIVED: May 26, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Harris M. Pope, Acting Regional Director, FEMA Region IV, 1375 Peachtree Street, NE., Atlanta, Georgia 30309, (404) 881-2400 or (912) 226-1761.

Notice

In support of the Federal requirement for emergency response plans, FEMA has proposed a Rule describing its procedures for review and approval of State and local government's radiological emergency response plans. Pursuant to this proposed FEMA Rule (44 CFR 350.8), "Review and Approval of State Radiological Emergency Plans and Preparedness," 45 FR 42341, the State Radiological Emergency Response Plan for the State of Mississippi was received by the Federal Emergency Management Agency Region IV Office.

Included are plans for local governments which are wholly or partially within the plume exposure pathway emergency planning zones of the nuclear plants. For the Grand Gulf Nuclear Station, plans are included for Claiborne County.

Copies of the Plan are available for review at the FEMA Region IV Office, or they will be made available upon request in accordance with the fee schedule for FEMA Freedom of Information Act requests, as set out in subpart C of 44 CFR Part 5. There are 585 pages in the document; reproduction fees are $.10 a page payable with the request for copy.

Comments on the Plan may be submitted in writing to Mr. Harris M. Pope, Acting Regional Director, at the above address on or before July 9, 1981.

FEMA proposed Rule 44 CFR 350.10 also calls for a public meeting prior to approval of the plans. Details of this meeting will be announced in The Vicksburg Evening Post and the Clarion Ledger at least two weeks prior to the scheduled meeting. Local radio and television stations will be requested to announce the meeting.

Harris M. Pope,

Acting Regional Director.

May 27, 1981.

[FEMA 640-DR]

Montana; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency.

ACTION: Notice.

SUMMARY: This is a Notice of the Presidential declaration of a major disaster for the State of Montana (FEMA-640-DR), dated May 27, 1981, and related determinations.

DATED: May 27, 1981.

FOR FURTHER INFORMATION CONTACT:

Sewall H. E. Johnson, Disaster Response and Recovery, Federal Emergency Management Agency, Washington, D.C. 20472, (202) 634-7800.

Notice

Pursuant to the authority vested in the Director of the Federal Emergency Management Agency by the President under Executive Order 12148 effective July 15, 1979, and delegated to me by the Director under Federal Emergency Management Agency Delegation of Authority, and by virtue of the Act of May 22, 1974, entitled "Disaster Relief Act of 1974" (88 Stat. 143); notice is hereby given that, in a letter of May 27, 1981, the President declared a major disaster as follows:

> I have determined that the damage in certain areas of the State of Montana resulting from severe storms and flooding beginning on or about May 19, 1981, is of sufficient severity and magnitude to warrant a major-disaster declaration under Pub. L. 93-288. I therefore declare that such a major disaster exists in the State of Montana.
>
> In order to provide Federal assistance, you are hereby authorized to allocate, from funds available for these purposes, such amounts as you find necessary for Federal disaster assistance and administrative expenses. Consistent with the requirement that Federal assistance be supplemental, the Federal funds under Pub. L. 93-288 will be limited to 75 percent of all eligible public assistance in designated areas except for technical assistance which will be funded at 100 percent.
>
> The time period prescribed for the implementation of Section 313(a), Priority to Certain Applications for Public Facility and Public Housing assistance, shall be for a period not to exceed six months after the date of this declaration.
>
> Notice is hereby given that pursuant to the authority vested in the Director of Federal Emergency Management Agency under Executive Order 12148, and delegated to me by the Director under Federal Emergency Management Agency Delegation of Authority, I hereby appoint Mr. John D. Swanson of the Federal Emergency Management Agency to act as the Federal Coordinating Officer for this declared major disaster.
>
> I do hereby determine the following areas of the State of Montana to have been affected adversely by this declared major disaster:
>
> For Individual Assistance and Public Assistance the Counties of:
>
> Broadwater, Cascade, Gallatin, Granite, Jefferson, Lewis and Clark, Meagher, Missoula, Powell, Silver Bow

(Catalog of Federal Domestic Assistance No. 83.300, Disaster Assistance)

Thomas R. Casey,

Acting Associate Director, Disaster Response and Recovery, Federal Emergency Management Agency.

FEDERAL HOME LOAN BANK BOARD

[No. AC-123]

First Federal Savings and Loan Association of Front Royal; Approval of Post-Approval Amendment of Conversion Application; Notice of Final Action

Notice is hereby given that on May 26, 1981, the Federal Home Loan Bank Board ("Board"), as operating head of the Federal Savings and Loan Insurance Corporation ("FSLIC"), through the exercise of delegated authority, approved an amendment to the application of First Federal Savings and Loan Association of Front Royal, Front Royal, Virginia ("Association"), providing that the aggregate price of the stock to be sold in the conversion of the Association shall be not less than $663,000 nor more than $897,000. The conversion application of the Association was approved on March 13, 1981, by Board Resolution 81-148, which Resolution required that the conversion stock be sold for an aggregate price within a range from $780,000 to $1,040,000. Copies of the application and amendments thereto are available for inspection at the Office of the Secretary of FSLIC, 1700 G Street NW., Washington, D.C. 20552, and at the Office of the Supervisory Agent of FSLIC at the Federal Home Loan Bank of Atlanta, 260 Peachtree Street NW., 10th Floor, Atlanta, Georgia 30303.

Dated: June 2, 1981.

By the Federal Home Loan Bank Board.

J. J. Finn,

Secretary.

FEDERAL MARITIME COMMISSION

Barber-Blue Sea Line/East Asiatic Company Limited Sailing Agreement; Cancellation

Filing Party: Wade S. Hooker, Jr., Esquire, Burlingham Underwood & Lord, One Battery Park Plaza, New York, New York 10004.

Agreement No. 10272.

Summary: On June 1, 1981, the Commission received notice of the termination of the participation of Barber-Blue Sea Line and The East Asiatic Company Limited in Agreement No. 10272. The agreement will be cancelled effective July 1, 1981, as set forth in the parties' notice to the Commission.

Dated: June 3, 1981.

By Order of the Federal Maritime Commission.

Joseph C. Polking,

Acting Secretary.

[FR Doc. 81-10951 Filed 6-8-81; 8:45 am]

BILLING CODE 6730-01-M

Notice of Agreements Filed

The Federal Maritime Commission hereby gives notice that the following agreements have been filed with the Comm. ssion for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of each of the agreements and the justifications offered therefor at the Washington Office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10218; or may inspect the agreements at the Field Offices located at New York, N.Y.; New Orleans, Louisiana; San Francisco, California; Chicago, Illinois; and San Juan, Puerto Rico. Interested parties may submit comments on each agreement, including requests for hearing, to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before in which this notice appears. Comments should include facts and arguments concerning the approval, modification, or disapproval of the proposed agreement. Comments shall discuss with particularity allegations that the agreement is unjustly discriminatory or unfair as between carriers, shippers, exporters, importers, or ports, or between exporters from the United States and their foreign competitors, or operators to the detriment of the commerce of the United States, or is contrary to the public interest, or is in violation of the Act.

A copy of any comments should also be forwarded to the party filing the agreements and the statement should indica'e that this has been done.

Agreement No. T-3900-1.

Filing party: Mr. David Ainsworth, Assistant General Counsel, American President Lines, Ltd., 1950 Franklin Street, Oakland, California 94612.

Summary: Agreement No. T-3900-1, between Encinal Terminals (Encinal) and Eagle Services, Ltd. (Eagle), modifies the basic agreement between the parties which provides for the lease of a container crane and the area at Encinal Terminals which are used as a container facility at Alameda, California. The purpose of the modification is to amend certain provisions of the lease pertaining to the extent and time of completion of certain improvements to be constructed by Encinal Terminals, and for liquidated damages for delay, other specified contingencies related thereto, and the addition to and withdrawal of certain parcels from the terminal premises at the option of Encinal. Agreement No. T-3900-1 also amends the provisions of the lease on an interim basis for five years. These provide for an increase in the minimum rental obligation of Eagle and for other revisions of the compensation arrangements applicable to prospective preferential and secondary users of the leased premises. The interim amendments provide for Eagle to pay future increases in real property taxes on the leased premises. The agreement will become effective on the first day of the first month following approval by the Commission. Eagle has the option of terminating the lease amendments prior to the end of the five-year period. Upon termination the permanent lease shall again become effective. Except as provided, the terms and conditions of the basic agreement will remain in effect.

Agreement No. T-3975.

Filing party: Timothy Trushel, Esquire, Kominers, Fort, Schlefer & Boyer, 1776 F Street, NW., Washington, D.C. 20006.

Summary: Agreement No. T-3975, between the Port of Longview (Port) and Continental Grain Company (Continental), provides for the lease by Port to Continental of certain premises in the Port of Longview, Washington, for use as a public marine terminal for handling, storing and shipping bulk commodities. As compensation, Continental will pay Port a monthly rental based on tonnage of cargo handled and prevailing local wharfage rates, with an annual minimum rental of $100,000. The term of the lease is for five years, with two additional five-year renewal options.

Agreement No. 2744-45.

Filing party: Nathan J. Bayer, Exquire, Freehill, Hogan & Mahar, 21 West Street, New York, New York 10006.

Summary: Agreement No. 2744-45 would modify the Atlantic and Gulf/West Coast of South America Conference's basic agreement to provide that, (1) the members may agree upon the amount of brokerage and compensation payable to freight forwarders and the conditions of payment pursuant to applicable law and as set forth in the Conference tariffs; (2) notice of cancellation of a meeting shall be given at least one business day prior to a meeting; and (3) a vote of two-thirds of the members present is required to alter the amounts of brokerage or compensation payable to freight forwarders and the conditions of its payment.

Agreement No. 5660-31.

Filing party: Marc J. Fink, Esq., Billig, Sher & Jones, P.C., 2033 K Street, N.W., Washington, D.C. 20006.

Summary: Agreement No. 5660-31, entered into by the member lines of the Marseilles/North Atlantic U.S.A. Freight Conference, would amend the scope of the basic agreement to include inland points in the United States.

Agreement No. 9355-9.

Filing party: Howard A. Levy, Esquire, Suite 727, 17 Battery Place, New York, New York 10004.

Summary: Agreement No. 9355-9 modifies the Atlantic & Gulf American-Flag Berth Operators Agreement to provide that future modifications thereto may be filed by the Agreement Secretary or Legal Counsel on behalf of the member lines and when so directed by them.

Agreement No. 9988-12.

Filing party: Howard A. Levy, Ms. Patricia E. Byrne, 17 Battery Place, Suite 727, New York, New York 10004.

Summary: Agreement No. 9988-12 modifies the basic agreement of the Continental-U.S. Gulf Freight Association by authorizing the Conference Chairman, Secretary or Counsel to execute agreement modifications on behalf of conference members.

Agreement No. 10051-5.

Filing party: Howard A. Levy, Esquire, Suite 727, 17 Battery Place, New York, New York 10004.

Summary: Agreement No. 10051-5, among the parties to the Mediterranean Force Majeure Agreement, amends that agreement to provide for the filing of future modifications by the Agreement Coordinator or Agreement Counsel on behalf of the member lines and at their direction.

Agreement No. 10118-6.

Filing party: Howard A. Levy, Esquire, Suite 727, 17 Battery Place, New York, New York 10004.

Summary: Agreement No. 10118-6, among the members of the Atlantic Steamship Energy Conservation Agreement, modifies Article VII of the Agreement to allow that future amendments agreed upon by the parties may be executed by the Agreement

Coordinator, on behalf of the parties and at their direction.

Agreement No. 10421.

Filing party: Gary R. Edwards, Esquire, Ragan & Mason, 900 Seventeenth Street NW., Washington, D.C. 20006.

Summary: Agreement No. 10421 is a Cooperative Working Agreement between Pan American Mail Lane (PAML) and Linea Naviera Panatlantica, S.A. (LINAPA) which provides that each party will appoint Chester, Blackburn & Roder, Inc., as general agent for the performance of all management functions necessary for the operations of its ocean liner freight services in the foreign commerce of the United States.

PAML and LINAPA will each operate its liner freight service under the trade name of "Pan Atlantic Lines." Each carrier will issue its own bills of lading and will file and maintain its own tariffs, indicating that it is doing business as Pan Atlantic Lines.

The term of the agreement is without fixed limit.

By order of the Federal Maritime Commission.

Dated: June 3, 1981.

Joseph C. Polking,

Acting Secretary.

FEDERAL TRADE COMMISSION

"Tar", Nicotine and Carbon Monoxide Content of the Smoke of 187 Varieties of Cigarettes; Correction

AGENCY: Federal Trade Commission.

ACTION: Correction.

SUMMARY: This document corrects a Commission document previously published in the **Federal Register** on Thursday, May 28, 1981. The table of "Tar", Nocotine and Carbon Monoxide Content of One-Hundred Eighty Seven (187) Varieties of Domestic Cigarettes contained two typographical errors.

DATE: These corrections are effective on June 9, 1981.

FOR FURTHER INFORMATION CONTACT: Gregory E. Hales, FTC-SSR. Washington, D.C. 20580. (202) 724-1185.

SUPPLEMENTARY INFORMATION: In FR Doc. 81-15726, appearing in the **Federal Register** issue for Thursday, May 28, 1981, 46 FR 28747, in the table on page 28749, the following corrections should be made:

The fourth line from the top should read:

Brand	Type
Arctic Lights	King size, filter, menthol

The ninth line from the bottom should read:

Brand	Type	Tar
Golden Lights 100's	100mm, filter	8

Early Termination of the Waiting Period of the Premerger Notification Rules

AGENCY: Federal Trade Commission.

ACTION: Granting of request for early termination of the waiting period of the premerger notification rules.

SUMMARY: Roxboro Investments Ltd. is granted early termination of the waiting period provided by law and the premerger notification rules with respect to the proposed acquisition of certain voting securities of Clarion Capital Corp. The grant was made by the Federal Trade Commission and the Assistant Attorney General in charge of the Antitrust Division of the Department of Justice in response to a request for early termination submitted by Roxboro. Neither agency intends to take any action with respect to this acquisition during the waiting period.

EFFECTIVE DATE: May 20, 1981.

FOR FURTHER INFORMATION CONTACT: Roberta Baruch, Senior Attorney, Premerger Notification Office, Bureau of Competition, Room 303, Federal Trade Commission, Washington, D.C. 20580, (202) 523-3894.

SUPPLEMENTARY INFORMATION: Section 7A of the Clayton Act, 15 U.S.C. 18a, as added by Title II of the Hart-Scott-Rodino Antitrust Improvements Act of 1976, requires persons contemplating certain mergers or acquisitions to give the Commission and Assistant Attorney General advance notice and to wait designated periods before consummation of such plans. Section 7A(b)(2) of the Act permits the agencies, in individual cases, to terminate this waiting period prior to its expiration and requires that notice of this action be published in the **Federal Register**.

Food and Drug Administration

Consumer Participation; Open Meeting

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) announces a forthcoming consumer exchange meeting to be chaired by Loren Y. Johnson, District Director, Philadelphia District Office.

DATE: The meeting will be held at 9 a.m., Thursday, June 25, 1981.

ADDRESS: The meeting will be held at the William H. Green Bldg., Rm. 3306–3310, 6th and Arch Sts., Philadelphia, PA 19106.

FOR FURTHER INFORMATION CONTACT: Theresa A. Young, Consumer Affairs Technician, Food and Drug Administration, 2d and Chestnut St., Philadelphia, PA 19106, 215–597–0837.

SUPPLEMENTARY INFORMATION: The purpose of this meeting is to encourage dialogue between consumers and FDA officials, to identify and set priorities for current and future health concerns, to enhance understanding and exchange information between local consumers and FDA's Philadelphia District Office, and to contribute to the agency's policymaking decisions on vital issues.

Dated: June 1, 1981.

BILLING CODE 4110-03-M

[Docket No. 81D-0150]

Investigation of Drugs in Humans; Availability of Clinical Guidelines

AGENCY: Food and Drug Administration.

ACTION: Notice

SUMMARY: The Food and Drug Administration (FDA) announces the availability of clinical guidelines entitled "Guidelines for the Clinical Evaluation of Antineoplastic Drugs." The guidelines are intended to inform interested persons of what the agency's Bureau of Drugs (the Bureau) views as acceptable procedures and standards for conducting clinical investigations for this class of drugs.

ADDRESS: Written comments to the Dockets Management Branch (formerly the Hearing Clerk's office) (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Roger Gregorio, Bureau of Drugs (HFD-102), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-4330 .

SUPPLEMENTARY INFORMATION: FDA is making available guidelines on the investigation of drugs in humans. The guidelines have been prepared by the Bureau of Drugs with assistance from FDA scientific advisory committees and other consultants to the agency. The guidelines contain current acceptable approaches to the study of a specific class of investigational drugs in humans.

This notice is issued under § 10.90(b) (21 CFR 10.90b)), which provides for the use of guidelines to outline procedures or standards of general applicability that are acceptable to FDA for a subject matter that falls within the laws administered by FDA. Although these guidelines are not a legal requirement, a person may be assured that in following an agency guideline(s) the procedures and standards will be acceptable to FDA. A person may also choose to use alternative procedures or standards for which there is scientific rationale even though they are not provided for in the guideline(s). A person who chooses to use procedures or standards not in the guideline(s) may discuss the matter further with the agency to prevent an expenditure of money and effort on work that FDA may later determine to be unacceptable.

The guidelines document subject to this notice is as follows:

HHS (FDA) No	Guideline title	GPO stock No	Cost
81-3112	Guidelines for the Clinical Evaluation of Antineoplastic Drugs	017-012-00294-3	$1.50

Copies of these guidelines can be bought from the Superintendent of Documents, U.S. Government Printing Office (GPO), Washington DC 20402, at the cost listed above for the document. Orders for copies must include the GPO stock number which is also listed.

Interested persons may submit written comments on these guidelines to the Dockets Management Branch (HFA-305), Food and Drug Administration (address above). Such comments will be considered in determining whether further amendments to, or revisions of, the guidelines are warranted. Comments should be in four copies (except that individuals may submit single copies), identified with the docket number found in brackets in the heading of this document. The guidelines document and received comments may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

Dated: May 29, 1981.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4110-03-M

[Docket No. 81F-0157]

Ralston Purina Co; Selenium

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) announces that the Ralston Purina Co. has filed a petition proposing that the regulations be amended to provide for the safe use of selenium in prestarter and starter rations for swine at a level not to exceed 0.3 part per million in complete feed.

FOR FURTHER INFORMATION CONTACT: Jack C. Taylor, Bureau of Veterinary Medicine (HFV-136), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-5247.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21U.S.C. 348(b)(5))), notice is given that a food additive petition (FAP-2185) has been filed by the Ralston Purina Co., Checkerboard Square, St. Louis, MO 63188, proposing that § 573.920 *Selenium* (21 CFR 573.920) be amended to provide for the safe use of 0.3 part per million selenium as a nutrient in prestarter and starter rations for swine.

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the **Federal Register** in accordance with 21 CFR 25.40(c) (proposed December 11, 1979; 44 FR 71742).

Dated: June 1, 1981.

Gerald B. Guest,

Acting Director, Bureau of Veterinary Medicine.

[Docket No. 81N-0131]

Chest X-Ray Referral Criteria Panel Draft Report; Availability

AGENCY: Food and Drug Administration.

ACTION: Notice of availability.

SUMMARY: The Food and Drug Administration (FDA) announces the availablity of a draft report, "Chest X-Ray Referral Criteria Panel Draft Report, No. 1: Selected Screening Uses of the Chest X-Ray Examination" developed by a panel of physicians on the utility of selected chest x-ray screening examinations. This notice also describes FDA's planned procedures to facilitate the development and testing of referral criteria for medical radiological examinations.

DATE: Comments by September 8, 1981.

ADDRESSES: Requests for single copies of the draft report should be made in writing to the Bureau of Radiological Health (HFX-76), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857. Written comments to the Dockets Management Branch (formerly the Hearing Clerk's office) (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Jay A. Rachlin, Bureau of Radiological Health (HFX-76), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-4600.

SUPPLEMENTARY INFORMATION: Through the Bureau of Radiological Health, FDA conducts and supports research and training to minimize unproductive radiation exposure from diagnostic radiological examinations (including nuclear medicine procedures). One possible source of unproductive

radiation exposure is radiological examinations that are not likely to affect patient management. To minimize requests for ineffective examinations, a referring physician needs up-to-date information about when a given radiological study is likely to provide needed diagnostic data. This information can take the form of decision guidelines based on patient signs, symptoms, or history and is commonly known as "referral criteria."

To assist in making this type of information available, FDA is facilitating the development, testing, and use of referral criteria for diagnostic radiological procedures. The agency believes that such information about the utility of radiological procedures can (1) assist physicians in using limited health-care and diagnostic radiological resources more effectively, and (2) help minimize unnecessary radiation exposure to the population.

Chest X-Ray Referral Criteria Panel Report

In its role as a facilitator, FDA has provided logistical support to a panel of physician experts in chest radiography to review the uses of chest x-ray examinations and to develop recommendations to help minimize unnecessary radiation exposure associated with chest x-ray examinations. The Chest X-Ray Referral Criteria Panel has prepared a draft report, "Selected Screening Uses of the Chest X-Ray Examination," which the agency is making available for comment.

The principal task of the panel has been critical assessment of the efficacy of chest x-ray screening examinations, many of which are performed in the absence of other medical evaluation such as clinical history, physical examination, or other diagnostic tests. An extensive review of the literature indicated an extremely low yield, from current practices, both of previously undiagnosed disease and of resulting patient benefit.

Because of the varied use of the chest x-ray examination, the panel established a number of working groups to examine separately the different screening applications of the chest x-ray examination. This first panel report examines and contains draft referral criteria statements for five of these applications: mandated routine screening examinations, routine prenatal examinations, routine hospital admission examinations, examinations for tuberculosis detection and control, and routine examinations in occupational medicine. The report also includes a general preamble to referral criteria for chest x-ray examinations, a list of the panel members, and an FDA annotated bibliography of the medical literature which formed the scientific basis for the referral criteria statements.

Additional reports of the Chest X-Ray Referral Criteria Panel may be developed later. A notice of availability of any such report will be published in the **Federal Register** when the report becomes available.

Background

During hearings held in July 1978, by a subcommittee of the House of Representatives on the issue of Health effects from exposure to low-level ionizing radiation, including medical and dental radiation, several physicians described their efforts to reduce possible overutilization of x-ray examinations by establishing and testing referral criteria. The subcommittee became convinced that physicians' use of referral criteria could lead to the best use of radiological resources and, at the same time, reduce radiation exposure.

The National Conference on Referral Criteria for X-Ray Examinations (Ref. *1*) was subsequently convened on October 25–27, 1978, in Washington, D.C. (see the **Federal Register** of October 6, 1978; 43 FR 46376). It provided a forum for the exchange of ideas and for the discussion of current medical x-ray referral criteria projects. Participants included individual clinicians, representatives of health-related government agencies, and State health departments, various medical specialists, insurance company representatives, lawyers, and consumers. The National Conference also provided participants an opportunity to discuss the causes of medical x-ray overutilization.

Workshop sessions were held to address specific issues and to formulate plans whereby the government and the private sector could work together to provide solutions. One workshop developed several recommendations concerning the benefits and use of referral criteria. These recommendations, endorsed by the National Conference participants, are summarized as follows:

1. Referral criteria could help to make the best use of x-ray examinations in medical practice and would result in lower radiation exposure to the public and more efficient utilization of limited radiological resources.

2. Referral criteria should be developed by members of the medical profession with the government acting as a facilitator. Small panels of experts representing various relevant medical and scientific disciplines should be convened to evaluate the literature and draft referral criteria.

3. Referral criteria should be developed on sound scientific bases and thoroughly tested in diverse clinical settings.

4. Ways should be provided for changing referral criteria when medical practices and perceptions change.

5. Radiologists should have a central role in the development of referral criteria for diagnostic x-ray examinations.

6. Referral criteria need to be voluntary so that physicians can adjust their referral decisions to unique patient circumstances and to changing medical knowledge and practices.

The agency agrees with the recommendations of National Conference participants and intends to participate by acting as a facilitator in the development, dissemination, and evaluation of referral criteria.

Method of Development

Determining with reasonable certainty whether or not a particular radiological examination will provide needed diagnostic information under particular circumstances usually can be accomplished only after considerable clinical evidence has been accumulated on many patients. In addition, even if a determination of efficacy is made in one clinical setting, the results may not be directly applicable in others. Therefore, FDA proposes that referral criteria be developed on the basis of the soundest possible science after the widest professional and public participation. The agency believes that the following strategy embodies these principles:

1. FDA intends to support, through contracts and grants, research on the utility of various diagnostic examinations, to aid in establishing scientific bases for referral criteria.

2. FDA will provide logistical support through a contractor for the convening of small panels of clinical and scientific experts to formulate draft referral criteria or statements on use for various diagnostic radiological examinations. This support will be based on FDA asessment of the literature, research results, advice from its Medical Radiation Advisory Committee, and recommendations from scientific and professional organizations. The agency will make the following available to the public through notices of availability published in the **Federal Register**: (1) reports of panel deliberations; (2) draft referral criteria or other efficacy information developed by the panels; (3) background; and (4) rationale for the criteria. Notices advertising these

reports and soliciting comments will also be published in the bulletins of relevant cooperating professional, scientific, and government organizations.

3. Consistent with the recommendation of National Conference participants that radiologists should have a central role in the development of referral criteria, the American College of Radiology (ACR), through its Radiation Advisory Committee, has volunteered to coordinate the professional review of draft referral criteria. ACR will distribute draft referral criteria for review to appropriate professional societies and will assemble and submit to FDA received comments. FDA, in turn, will send these comments, together with comments from other sources, such as individuals corresponding directly with the agency, to the referral criteria panels for their consideration.

4. FDA will endeavor to support clinical trials and demonstration projects if they appear advisable. According to agency policy, the study design of any such clinical trial or demonstration project will be reviewed, with particular emphasis on protection afforded human subjects.

5. The results of any clinical trials, together with review comments and other relevant material, will be referred back to the panel for development of a revised referral criteria report. FDA will announce the availability of any revised report through a notice in the **Federal Register.**

6. FDA will incorporate referral criteria into its education programs for the health professions, for example, in techical reports, which can be used by medical schools in training physicians, by professional societies for continuing education, and by individual physicians as reference sources for their practices (see, e.g., Ref. *2*). The criteria will not, however, be issued as regulations or even formal recommendations: FDA's role will be that of a facilitator.

The agency believes that developing and implementing referral criteria through a voluntary educational approach will modify medical practice by reducing the number of unnecessary radiological examination orders. Evidence that educational efforts help reduce unnecessary x-ray examinations is already available from small-scale projects performed by individual institutions and by Professional Standards Review Organizations.

7. As referral criteria are incorporated into clinical practice and experience with their use develops, FDA will solicit comments from the public, individual health professionals, and other appropriate groups regarding the usefulness of, and recommended changes to, the criteria. Based on such comments, further research, and pertinent information in the clinical and scientific literature, the agency will cooperate with the relevant professions to ensure that referral criteria reflect the current state of clinical and scientific knowledge.

Public Participation

The agency believes that referral criteria will be accepted and used only if there is a broad consensus among professionals as to the scientific bases and usefulness of the criteria. Therefore, in addition to relying on individual clinicians and professional organizations to participate in developing the criteria and in distributing and reviewing draft documents, to encourage public participation FDA will periodically publish in the **Federal Register** notices of availability of referral criteria documents. It will particularly solicit comments when a panel develops a draft report, but there will also be an opportunity to comment on the final reports when their availability is announced in the **Federal Register.** Those who respond to these notices or who comment on particular referral criteria will be kept informed through periodic mailing of revised and new drafts, final documents, and technical reports. Furthermore, FDA will maintain a list of respondents to this and related announcements as a mailing list for future panel reports and other significant referral criteria documents.

An additional opportunity for public participation in the development of referral criteria will be provided at the referral criteria panel meetings. FDA will assist the panels by publishing notices of these meetings in the **Federal Register** (see, e.g., the notice of the meeting of the Chest X-Ray Referral Criteria Panel, 46 FR 17888; March 20, 1981). The notice will include an agenda identifying open sessions and the topics of discussion. Interested persons will have the opportunity to submit written data and views to the panels or to request time for oral presentation during the open sessions. Reports of panel meetings will contain minutes of the open sessions, copies of written data and views submitted to the panels in open sessions, and summaries of and closed sessions. The reports will be rewarded to the Dockets Management Branch for public display.

References

The following information has been placed in the Dockets Management Branch (address above) and may be seen by interested persons from 9 a.m. to 4 p.m., Monday through Friday.

1. U.S. Department of Health, Education, and Welfare, Public Health Service, Food and Drug Administration, Bureau of Radiological Health, "The National Conference on Referral Criteria for X-Ray Examinations," October 25–27, 1978, HEW Publication (FDA) 79–8083, April 1979.

2. U.S. Department of Health and Human Services, Public Health Service, Food and Drug Administration, Bureau of Radiological Health, "The Selection of Patients for X-Ray Examinations: The Pelvimetry Examination," HHS Publication (FDA) 80–8128, September 1980.

The agency invites and encourages additional data and comment on the Chest X-Ray Referral Criteria Panel Draft Report No. 1, single copies of which are available from the Bureau of Radiological Health at the above address. Interested persons may, on or before September 8, 1981, submit written comments on the report to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857. Comments should be in four copies (except that individuals may submit single copies) identified with the docket number found in brackets in the heading of this document. FDA will refer any such comments to the panel for consideration in developing a final report. The draft report and received comments may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

Dated: May 28, 1981.

[Docket No. 81M–0108]

Intermedics, Inc., Premarket Approval of Cyberlith™ IV Model 259–01 Programmable A–V Sequential Pulse Generator and Series 522 Programmer

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) announces its approval of the application for premarket approval under the Medical Device Amendments of 1976 of the CyberLith™ IV Model 259–01 Programmable A–V Sequential Pulse Generator and Series 522 Programmer sponsored by Intermedics, Inc., Freeport, TX 77541. After reviewing the recommendation of the Circulatory Systems Devices Panel, FDA notified the

sponsor that the application was approved because the device has been shown to be safe and effective for use as recommended in the submitted labeling.

DATE: Petitions for administrative review by July 9, 1981.

ADDRESS: Requests for copies of the summary of safety and effectiveness data and petitions for administrative review may be sent to the Dockets Management Branch (formerly the Hearing Clerk's office) (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Henry A. Goldstein, Bureau of Medical Devices (HFK–402), Food and Drug Administration, 8757 Georgia Ave., Silver Springs, MD 20910, 301–427–7445.

SUPPLEMENTARY INFORMATION: On April 18, 1980, Intermedics, Inc., Freeport, TX, submitted to FDA an application for premarket approval of the CyberLith™ IV Model 259–01 Programmable A–V Sequential Pulse Generator and Series 522 Programmer. The application was reviewed by the Circulatory Systems Devices Panel, and FDA advisory committee, which recommended approval of the application. On March 6, 1981, FDA approved the application by a letter to the sponsor from the Acting Director of the Bureau of Medical Devices.

A summary of the safety and effectiveness data on which FDA's approval is based is on file in the Dockets Management Branch (address above) and is available upon request from that office. Requests should be identified with the name of the device and the docket number found in brackets in the heading of this document.

Opportunity for Administrative Review

Section 515(d)(3) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360e(d)(3)) authorizes any interested person to petition under section 515(g) of the act (21 U.S.C. 360e(g)) for administrative review of FDA's decision to approve this application. A petitioner may request either a formal hearing under Part 12 (21 CFR Part 12) of FDA's administrative practices and procedures regulations or a review of the application and of FDA's action by an independant advisory committee of experts. A petition is to be in the form of a petition for reconsideration of FDA action under § 10.33(b) (21 CFR 10.33(b)). A petitioner shall identify the form of review requested (hearing or independent advisory committee) and shall submit with the petition supporting data and information showing that there is a genuine and substantial issue of material fact for resolution through administrative review. After reviewing the petition, FDA will decide whether to grant or deny the petition and will publish a notice of its decision in the **Federal Register**. If FDA grants the petition, the notice will state the issue to be reviewed, the form of review to be used, the persons who may participate in the review, the time and place where the review will occur, and other details.

Petitioners may, at any time on or before July 9, 1981, file with the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, four copies of each petition and supporting data and information, identified with the name of the device and the docket number found in brackets in the heading of this document. Received petitions may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: June 2, 1981.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4110–03–M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Availability of a Draft Environmental Impact Statement on the Proposed Conservation of Bottomland Hardwood Habitat Known as Reeves Bottom in Dunklin County, Mo.

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: This Notice advises the public that a draft environmental impact statement (DEIS) on the proposed conservation of bottomland hardwood habitat known as Reeves Bottom in Dunklin County, Missouri, will be available for public review by June 5, 1981, and comments and suggestions are hereby requested.

The DEIS considers environmental and other effects of conserving approximately 2,300 acres of bottomland hardwood habitat that has significant value to winteing waterfowl and other species of wildlife. The statement evaluates the impacts of several alternatives for preserving these lands. Five alternatives are considered including the Fish and Wildlife Service's preferred alternative, a combination of fee title and easement acquisition by Federal and State agencies.

DATE: Written comments must be received by August 17, 1981, in order to be included in the final environmental impact statement.

ADDRESS: Written comments should be addressed to: Mr. Gary L. Hickman, Area Manager, U.S. Fish and Wildlife Service, 200 East Pascagoula Street, Suite 300, Jackson, Mississippi 39201.

FOR FURTHER INFORMATION CONTACT: Robert M. Dawson, Land Acquisition Supervisor, U.S. Fish and Wildlife Service, 200 East Pascagoula Street, Suite 300, Jackson, Mississippi 39201. Telephone (Commercial) 601/960–4900 or (FTS) 490–4900.

Individuals who want copies of the DEIS for review should immediately contact the above individual. Copies will be sent to all agencies, organizations, and individuals who participated in the scoping process and to all others who have already requested copies.

SUPPLEMENTAL INFORMATION: The U.S. Department of the Interior, Fish and Wildlife Service (FWS) proposes to conserve, through a combination of State/Federal fee title and easement acquisition, approximately 2,300 acres of bottomland hardwood habitat in Dunklin County, Missouri. This area, referred to as Reeves Bottom, is locally known as Hornersville Swamp and is located in the extreme southeastern portion of the state. The primary purpose of the proposed action is the conservation of habitat that has been identified by the FWS as being significantly important to wintering waterfowl, particularly mallards, in the Lower Mississippi River Delta. Nationally, there are 33 priority categories of waterfowl habitat identified by the FWS within the United States. The bottomland hardwoods of the Lower Mississippi River Delta have been assigned a number 7 national priority.

To obtain input from the public on the Reeves Bottom conservation proposal, public meetings were held in Hornersville, Missouri, and Manila, Arkansas, during June 1980. To date, the response of State and local officials and the general public has been overwhelmingly in favor of the area being preserved. The principal concerns voiced at the meetings were: (1) Need for natural resource protection and enhancement on the area, (2) availability of the area for a wide range of public uses, including hunting, (3) concern over excessive drainage, and (4) the need for better water level management.

The Service has considered a range of alternatives for the conservation of Reeves Bottom. Before selecting State/

Federal fee title and easement acquisition as the preferred alternative, the following alternatives were considered: (1) No Action (Reliance on Zoning and/or Existing Legislation); (2) Fee Title Acquisition by the U.S. Fish and Wildlife Service; (3) Conservation by Easement and/or Lease Only; and (4) Fee Acquisition by the U.S. Army Corps of Engineers. All alternatives were considered in light of the degree of resource protection and enhancement offered, environmental consequences, costs involved, and consistency with FWS land acquisition policy. Funding for any land acquired by the FWS would come from the Migratory Bird Conservation Account (MBCA) which is derived from the sale of migratory bird hunting stamps.

The preferred alternative, Federal/State Fee Title and Easement Acquisition, recommends that the protection and conservation of Reeves Bottom be accomplished cooperatively between the Missouri Department of Conservation, the U.S. Army Corps of Engineers (COE), and the FWS, using a combination of fee title and easement acquisition. This approach is fully consistent with the above mentioned criteria for evaluation of alternatives.

Alternative 2, the No Action Alternative, includes reliance on zoning and/or existing legislation. This alternative would not meet FWS's habitat preservation objective and would allow current land use changes in the area to continue unabated. This action would be to the detriment of the area's wildlife and other natural resources.

Alternative 3, Fee Title Acquisition by the U.S. Fish and Wildlife Service, would entail fee title acquisition of the entire project area by the FWS. While this alternative would be in harmony with FWS's habitat preservation objectives, it would not be fully consistent with Service land acquisition policy which states that fee acquisition will be recommended only when other means of achieving program goals and objectives are not appropriate, available, or effective.

Alternative 4, Conservation by Easement and/or Lease Only, calls for the FWS to acquire easements and/or leases at Reeves Bottom as a means of protecting and conserving this area. This alternative was not selected because of landowner desires, the uncertainty of contract (lease) renewals, cost ineffectivness, and lack of long-term habitat conservation assurance.

Alternative 5 is Fee Title Acquisition by the U.S. Army Corps of Engineers. Under this alternative, the Memphis District of the Corps of Engineers would purchase the entire Reeves Bottom project area as an environmental quality feature of its St. Francis River Basin Project. This alternative was not considered viable since implementation would significantly increase the cost of the Corps of Engineers project.

Other Government agencies and several members of the general public contributed to the planning and evaluation of the proposal and to the preparation of this draft environmetal impact statement. A Notice of Intent to prepare an environmental impact statement (EIS) was published on February 20, 1980, in Vol. 45, No. 35 of the **Federal Register**.

Scoping for this DEIS included two public meetings to obtain suggestions and information from agencies, organizations, and the general public on the scope of issues to be addressed in the DEIS. These meetings were held at Honersville, Missouri, on June 2, 1980, and at Manila, Arkansas on June 3, 1980. Forty people attended the first meeting, and a formal statement of support for FWS conservation efforts was presented by the Missouri Department of Conservation. Nine persons attended the second meeting, and statements of support were given by the Northeast Arkansas Audubon Society and the Mississippi County (Arkansas) Wildlife Association. The comments, issues, and concerns expressed during the scoping process were considered in the proparation of this statement.

All agencies, organizations, and individuals are urged to provide comments and suggestions for improving this DEIS as soon as possible. All comments received by the dates given above will be considered in preparation of the final EIS on this proposed action.

Dated: June 1, 1981.

Walter O. Stieglitz,

Regional Director, Fish and Wildlife Service.

Geological Survey

Oil and Gas and Sulphur Operations in the Outer Continental Shelf

AGENCY: Geological Survey, Interior.

ACTION: Notice of the Receipt of a Proposed Development and Production Plan.

SUMMARY: Notice is hereby given that Amoco Production Company has submitted a Development and Production Plan describing the activities it proposes to conduct on Lease OCS 0829, Block 219, Ship Shoal Area, offshore Louisiana.

The purpose of this Notice is to inform the public, pursuant to Section 25 of the OCS Lands Act Amendments of 1978, that the Geological Survey is considering approval of the Plan and that it is available for public review at the offices of the Conservation Manager, Gulf of Mexico OCS Region, U.S. Geological Survey, 3301 North Causeway Blvd., Room 147, Metairie, Louisiana 70002.

FOR FURTHER INFORMATION CONTACT: U.S. Geological Survey, Public Records, Room 147, open weekdays 9 a.m. to 3:30 p.m., 3301 North Causeway Blvd., Metairie, Louisiana 70002, Phone (504) 837-4720, Ext. 226.

SUPPLEMENTARY INFORMATION: Revised rules governing practices and procedures under which the U.S. Geological Survey makes information contained in Development and Production Plans available to affected States, executives of affected local governments, and other interested parties became effective December 13, 1979 (44 FR 53685). Those practicers and procedures are set out in a revised § 250.34 of Title 30 of the Code of Federal Regulations.

Dated: June 1, 1981.

BILLING CODE 4310-03-M

Bureau of Land Management

New Mexico; Southeast Oklahoma Management Framework Plan—Underground Minable Coal Reserves

AGENCY: Bureau of Land Management; Interior.

ACTION: Notice of Decision on the Amendment of Southeast Oklahoma Management Framework Plan.

SUMMARY: This notice is to advise the public that the District Manager, Albuquerque District, Bureau of Land Management, has issued three decisions on the amendment of the Southeast Oklahoma Management Framework Plan (MEP). The amendment decisions designated underground minable reserves of the Rock Island and Spiro-Bokoshe areas as suitable for further leasing consideration. A third decision designated surface minable area M1A–39 as unavailable for further leasing consideration. The State Director of New Mexico has concurred with the decisions.

SUPPLEMENTARY INFORMATION: The District Manager, Albuquerque District, Bureau of Land Management, has issued three decisions on the amendment of the Southeast Oklahoma Management Framework Plan (MFP), in response to direction received from the Regional Coal Team for the Western Interior Federal Coal Production Region, Oklahoma Subregion. The MFP amendment incorporated underground minable federal coal reserves, having a high or medium potential for development, into the land use planning process. Two amendment decisions designated underground minable reserves of the Rock Island and Spiro-Bokoshe areas as suitable for further leasing consideration. The amendment also incorporated surface minable reserves (area M1A–39) adjacent to underground reserves of the Spiro-Bokoshe area that were not previously included in the MFP. The third amendment decision designated area M1A–39 as unavailable for futher leasing consideration. The State Director of New Mexico has concurred with the decisions.

The amendment areas are located in LeFlore County, Oklahoma and include portions of the following described townships:

Indian Meridian, Oklahoma

T. 8 N., R. 24, 25, 26, and 27 E.
T. 9 N., R. 24, 25, and 26 E.

Copies of the Decision Document and Final Environmental Assessment are available for public review in the New Mexico State Office, U.S. Post Office and Federal Building, Santa Fe, New Mexico; at the Albuquerque District Office, 3550 Pan American Freeway, NE, Albuquerque, New Mexico; or at the Oklahoma Resource Area Office, 200 NW Fifth Street, Room 548, Oklahoma City, Oklahoma, during regular office hours. Individual copies of the document are available from the Oklahoma Area Manager, Bureau of Land Management, 200 NW Fifth Street, Room 548, Oklahoma City, Oklahoma 73102, telephone (405) 231–4481.

Any person who participated in the planning process and who has an interest which may be adversely affected by approval of the MFP amendment may file a protest on or before July 9, 1981. A protest may raise only those issues which were submitted for the record to the District Manager during the planning process. The protest shall be in writing and shall be filed with the State Director, Bureau of Land Management, New Mexico State Office, P.O. Box 1449, Santa Fe, New Mexico 87501. The protest shall contain the name, mailing address, telephone number and interest of the person filling the protest; a statement of the issue or issues being protested; a statement of the part of the amendment being protested; a copy of all documents addressing the issue or issues that were submitted during the amendment process by the protesting party or an indication of the date the issue or issues were discussed for the record; and a short, concise statement explaining why the District Manager's decision was wrong.

Implementation of the decision will begin no sooner than July 9, 1981, or upon resolution of any protest received by the State Director.

L. Paul Applegate,

District Manager.

Northern Idaho Grazing Management, Draft Environmental Impact Statement; DEIS Availability

AGENCY: Bureau of Land Management, Interior.

ACTION: Public comment period on Northern Idaho Grazing DEIS.

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental impact statement for a proposed grazing management for the Coeur d'Alene District in northern Idaho. Approximately 121,000 acres of public lands are involved. Copies of the draft environmental impact statement are available for inspection at the following locations:

Coeur d'Alene District, Bureau of Land Management, 1808 North Third, Coeur d'Alene, Idaho 83814. Telephone: (208) 667–2561 (Ext. 356).

Cottonwood Resource Area Headquarters, Bureau of Land Management, Route 3, Box 181, Cottonwood, Idaho 83522. Telephone: (208) 962–3245.

Idaho State Office, Bureau of Land Management, Federal Building, 500 W. Fort Street, Boise, Idaho 83724. Telephone: (208) 334–1770.

Public Affairs, Bureau of Land Management, Interior Building, 18th and C Street, NW., Washington, D.C. 20240.

A limited number of single copies may be obtained from the Idaho State Director, the Coeur d'Alene District Manager, or the Cottonwood Resource Area Manager, Bureau of Land Management, at the address noted above.

Notice is hereby given that the draft environmental impact statement is available for public review and comment. The Department of the Interior invites written comments on the adequacy of the draft statement.

DATE: July 27, 1981—Deadline for receiving written comments.

ADDRESS: Written comments on the Draft EIS should be sent to: Northern Idaho Grazing EIS, Cottonwood Resource Area Headquarters, Route 3, Box 181, Cottonwood, Idaho 83522.

FOR FURTHER INFORMATION CONTACT: Dick Todd or Richard Harms, Bureau of Land Management, Cottonwood Resource Area Headquarters, (208) 962–3245.

Dated: June 2, 1981.

T. G. Bingham,

Acting State Director, Idaho.

[W-0317252]

Wyoming; Proposed Continuation of Withdrawal

The Bureau of Land Management, U.S. Department of Interior proposes to continue the existing withdrawal of the following public lands made by Public Land Order No. 3976 of April 4, 1966, for a 20-year period pursuant to Section 204 of the Federal Land Policy and Management Act of October 21, 1976 (90 Stat. 2751; 43 U.S.C. 1714):

Sixth Principal Meridian, Wyoming

T. 21 N., R. 87 W.

The tract of land beginning at a point located 1,344.9 feet due south of the N¼ cor., sec. 20, T. 21 N., R. 87 W. bearing due west 577.1 feet; thence S. 59°30′ W. 696.3 feet; thence on the arc of a curve to the left, radius 1785; 124.6 feet; thence S. 55°30′ W. 72.0 feet; thence, on the arc of a curve to the left, whose back tangent bears S. 64°30′ W., radius 5560.0 feet, 1165.0 feet; thence S. 87°56′ E., 188.2 feet; thence due north 631.7 feet to the point of beginning.

The area described contains 13.3 acres in Carbon County, Wyoming.

The purpose of the withdrawal is a Bureau of Land Management administrative site. The withdrawal closed the described lands to all forms of appropriation under the public land laws including the mining laws, but not to leasing under the mineral leasing laws. No change in the segregative effect or use of the land would be effected by the continuation.

Comments, suggestions, or objections to this proposed withdrawal continuation must be submitted in writing to the undersigned authorized officer of the Bureau of Land Management, on or before June 12, 1981.

Notice is hereby given that an opportunity for a public hearing is afforded in connection with the proposed withdrawal continuation. All interested persons who desire to be heard on the proposal must submit a written request for a hearing to the undersigned before July 17, 1981. Upon determination by the State Director, Bureau of Land Management, that a public hearing will be held, a notice will be published in the **Federal Register** giving the time and place of such hearing. Public hearings are scheduled and conducted in accordance with the BLM Manual, Section 2351.16B.

The authorized officer of the Bureau of Land Management will make necessary investigations to determine the existing and potential demands for the land and its reources and review the withdrawal rejustification to insure that continuation would be consistent with the statutory objectives of the programs for which the land is dedicated. He will also prepare a report for consideration by the Secretary of the Interior, the President, and Congress, who will determine whether or not the withdrawal will be continued and, if so, for how long. The final determination on the continuation of the withdrawal will be published in the **Federal Register**. The existing withdrawal will continue until such final determination is made.

All communications in connection with this proposed withdrawal continution should be sent to the undersigned officer, Bureau of Land Management, U.S. Department of the Interior, P.O. Box 1828, 2515 Warren Avenue, Cheyenne, Wyoming 82001.

Harold G. Stinchcomb,

Chief, Branch of Lands and Minerals Operations.

BILLING CODE 4310-84-M

Bureau of Reclamation

Contract Negotiations With the Pathfinder Irrigation District; Intent To Negotiate a Repayment Contract

The Department of the Interior, through the Bureau of Reclamation, intends to initiate negotiations for an emergency loan repayment contract with the Pathfinder Irrigation District, Mitchell, Nebraska.

The district is a part of the Interstate Division of the North Platte Project located in southeastern Wyoming and western Nebraska along the North Platte River. Originally, the project was western Nebraska along the North Platte River. Originally, the project was authorized as the Sweetwater Project by the Secretary of the Interior on March 14, 1903, under the Reclamation Act of 1902 (32 Stat. 388), and later approved by the President on January 5, 1911. The Interstate Division is composed of the project lands in Wyoming and Nebraska on the north side of the North Platte River served by the Interstate Canal. The district operates and maintains the project works below station No. 2 of the Interstate Canal, including the Interstate Canal, laterals, drainage system, Lake Minatare, and Lake Alice.

The proposed repayment contract will provide for repayment by the district of up to $475,000 advanced to the district as an emergency loan. The funds were needed by the district for emergency repair of a sinkhole and void on the downstream face of the Lake Alice Dam No. 1.

All meetings scheduled by the Bureau with the district for the purpose of

discussing terms and conditions of the proposed repayment contract shall be open to the general public as observers. Advance notice of meetings shall be furnished only to those parties having previously furnished a written request for such notice at least 1 week prior to any meeting. Requests should be addressed to the Regional Director, Bureau of Reclamation, Attention: LM-440, P.O. Box 25247, Denver, Colorado 80225. All written correspondence concerning the proposed contract shall be made available to the general public pursuant to the terms and procedures of the Freedom of Information Act (80 Stat. 383), as amended.

The public is invited to submit written comments on the form of the proposed contract not later than 30 days after the completed contract draft is declared to be available to the public. Unless significant public interest in the proposed contract is demonstrated in response to this notice, the availability of the negotiated draft contract will not be published or made the subject of a public hearing.

For further information on scheduled contract negotiating sessions and copies of the proposed contract form, please contact Messrs. Robin D. McKinley or Buddy J. Smith, Repayment Branch, at the above address: telephone (303) 234-3327 or 234-6562.

Dated: June 3, 1981.

Clifford L. Barrett,

Assistant Commissioner, Bureau of Reclamation.

BILLING CODE 4310-09-M

INTERSTATE COMMERCE COMMISSION

[Ex Parte No. 387 (SUB-NO. 34)]

Chicago & North Western Transportation Co., Exemption for Contract Tariff ICC-CNW-C-0002

AGENCY: Interstate Commerce Commission.

ACTION: Notice of provisional exemption.

SUMMARY: Petitioner is granted a provisional exemption under 49 U.S.C. 10505 from the notice requirements of 49 U.S.C. 10713(e). Its previously filed contract tariff will become effective on one day's notice. This exemption may be revoked if protests are filed within 15 days of publication in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Richard B. Felder or Jane F. Mackall, (202) 275-7656.

SUPPLEMENTARY INFORMATION: Chicago and North Western Transportation Company (C&NW) filed a petition on May 21, 1981, seeking an exemption under 49 U.S.C. 10505 from the statutory notice provisions of 49 U.S.C. 10713(e). It requests that we advance the effective date of its contemporaneously filed contract tariff ICC-CNW-C-0002, now June 25, 1981, so that the effective date would be on one day's notice.

The contract covers the transportation by C&NW of roofing granules for the Minnesota Mining & Manufacturing Company (3M). This shipper operates a plant at Havelock, Ontario, Canada which manufactures these granules. Because this plant has recently been struck by its employees, 3M must supply its Canadian customers from its Wausau, WI, plant during the course of the strike. The need for these Canadian shipments from Wausau has led 3M to seek an advancement of the original effective date of its contract with C&NW.

Under 49 U.S.C. 10713(e), contracts must be filed on not less than 30 nor more than 60 days' notice. There is no provision for waiving this requirement. Cf. former section 10762(d)(1). However, the Commission has granted relief under our section 10505 exemption authority in exceptional situations.

We believe the strike at 3M's Ontario plant constitutes such an exceptional situation, and the petition will be granted. A denial of the petition could preclude 3M from responding efficiently to customer requirements during the course of the Havelock strike. There is no indication that C&NW's obligation to provide service to other shippers will be impaired by its performance under the contract. In these circumstances, authorization of a provisional exemption is warranted, and C&NW's contract tariff ICC-CNW-C-0002 may become effective on one day's notice.

We will apply the following conditions which have been imposed in similar exemption proceedings:

If the Commission permits the contract to become effective on one day's notice, this fact neither shall be construed to mean that this is a Commission approved contract for purposes of 49 U.S.C. 10713(g) nor shall it serve to deprive the Commission of jurisdiction to institute a proceeding on its own initiative or on complaint, to review this contract and to disapprove it.

Subject to compliance with these conditions, under 49 U.S.C. 10505(a) we find that the 30 day notice requirement in these instances is not necessary to carry out the transportation policy of 49 U.S.C. 10101a and is not needed to protect shippers from abuse of market power. Further, we will consider revoking these exemptions under 49 U.S.C. 10505(c) if protests are filed within 15 days of publication in the **Federal Register**.

This action will not significantly affect the quality of the human environment or the conservation of energy resources. (49 U.S.C. 10505).

Dated: June 3, 1981.

By the Commission, Division 2, Commissioners Gresham, Trantum, and Alexis. Commissioner Alexis dissented in part with a separate expression.

Agatha L. Mergenovich,

Secretary.

Commissioner Alexis, dissenting in part:

I find that no exceptional or emergency situation exists which warrants an exemption under Section 10505. The carrier is not prevented from making these movements under existing common carrier tariffs or seeking special permission to file a tariff on short notice if no applicable tariffs are on file.

BILLING CODE 7035-01-M

[Permanent Authority Volume No. OP1-165]

Republications of Grants of Operating Rights Authority Prior to Certification

The following grants of operating rights authorities are republished by order of the Commission to indicate a broadened grant of authority over that previously noticed in the **Federal Register**.

An original and one copy of opposing verified statements must be filed with the Commission within 45 days after the date of this **Federal Register** notice. Applicant may file a verified statement in rebuttal within 60 days. Such pleadings shall comply with 49 CFR 1100.247 (renumbered 1100.251) addressing specifically the issues) indicated as the purpose for republication. Special Rule 247 (renumbered 251) was published in the **Federal Register** of July 3, 1980, at 45 FR 45539.

MC 730 (Sub-497F) (republication), filed March 11, 1980, published in **Federal Register** of June 26, 1980, and republished this issue. Applicant: PACIFIC INTERMOUNTAIN EXPRESS CO., P.O. Box 8004, Walnut Creek, CA 94596. Representative: R. N. Colledge (same address as applicant). A decision by the Commission, Review Board 1, Decided March 27, 1981, served April 7, 1981, finds that applicant is authorized to operate as a *common carrier*, by motor vehicle in interstate or foreign commerce, over irregular routes, transporting *chemicals and petroleum*

products, in bulk, in tank vehicles, (1) from the facilities of Shell Chemical Co. and Shell Oil Co., in Harris County, TX, and at or near Geismar and Norco, LA, to points in the United States (except Alaska and Hawaii), and (2) from points in the United States (except Alaska and Hawaii), to the facilities of Shell Chemical Co. and Shell Oil Co., located in Louisiana and Texas. Applicant is fit, willing, and able properly to perform the granted service and to conform to statutory and administrative requirements. The purpose of this republication is *expanded origin point of Harris County, TX.*

By the Commission.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

[Permanent Authority Decisions Volume No. 96]

Restriction Removals; Decision-Notice

Decided: June 4, 1981.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR 1137. Part 1137 was published in the **Federal Register** of December 31, 1980, at 45 FR 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Restriction Removal Board, Members Sporn, Alspaugh, and Shaffer.

Agatha L. Mergenovich,

Secretary.

MC 547 (Sub-6)X, filed May 27, 1981. Applicant: WALL TRUCK LINE, INC., 105 North Olive, Holden, MO 64040. Representative: Tom B. Kretsinger, 20 East Franklin, P.O. Box 258, Liberty, MO 64068. Applicant seeks to remove restrictions in its lead certificate to (1) broaden the commodity descriptions from (a) general commodities (with exceptions) to "general commodities (except classes A and B explosives)" in its regular route portion of its authority; (b) iron and steel articles and prefabricated parts used in the manufacture and sale of agricultural implements to "metal and metal products" in the irregular route portion of its authority, (2) delete an "in containers" restriction in its regular route portion of its authority to transport sand, lumber, feed, meats, oil and grease; (3) broaden cities and/or off-route points to counties: the off-route point of Holden, MO, to Johnson County, MO; Ottawa, KS, to Franklin County, KS; (4) authorize service to all intermediate points along described regular routes between MO and KS; (5) delete restriction limiting service to the pick-up and delivery of livestock at off-route points in the regular route portion of its authority to tranport general commodities; (6) authorize radial service in place of one-way authority between various points in MO and KS in the irregular route portion to transport livestock.

MC 7840 (Sub-42)X, filed May 5, 1981. Applicant: ST. LAWRENCE FREIGHTWAYS, INC., 650 Cooper Street, Watertown, NY 13601. Representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 11th Street, NW., Washington, DC 20001. Applicant seeks to remove restrictions in its Sub-Nos. 1 and 36F certificates and (1) broaden the commodity description from general commodities (with exceptions) to "general commodities (except classes A and B explosives), in Sub-No. 1 (part 1); to "pulp, paper and related products" from paper boxes, in Sub-No. 1 (part 4); paper and paper products, in Sub-No. 1 (part 5); and paper chip board, in Sub-No. 1 (part 6); from paper-mill rollers to "machinery", in Sub-No. 1 (part 8) and from (a) railway brakes, power pumps, castings, steel racks, and agricultural implements, (b) parts and accessories for the commodities named in (a) above and (c) materials, equipment, and supplies used in the manufacture and distribution of the commodities named in (a) and (b) above to "machinery and transportation equipment", in Sub-No. 36F, (2) broaden the territorial application by Substituting county-wide authority for city wide authority as follows: in paragraph 4, Lewis County, NY for Castorland, NY, Erie County for Erie, PA, Middlesex and Somerset Counties for New Brunswick and Bound Brook, NJ; in paragraph 5, Jefferson County for Carthage, NY, Worcester County for Baldwinville and Brookfield, MA; Cheshire for Ashuelot, NH; in paragraph 6, Jefferson County for West Carthage, NY, Caledonia, Chittenden, Orange, and Windham Counties for East Ryegate, Burlington, Wells River, and Putney, Vermont, and Cheshire and Hillsboro Counties, NH for Hinsdale, East Jaffrey, and Bennington, NH; in paragraph 8, Jefferson County for Carthage, NY and Chester County, for Downingtown, PA; (3) authorize radial service in lieu of existing one-way authority as follows: in paragraph 2, between St. Lawrence and Erie Counties, NY; in paragraph 3 between Erie and Franklin Counties, NY; in paragraph 4, between Lewis County, NY, and New York, NY, Erie County, PA, and Middlesex and Somerset Counties and Newark, NJ; in paragraph 5, between Jefferson County, NY and specified points and counties in Massachusetts and New Hampshire; in paragraph 6, between Jefferson County, NY, and specified points and counties in MA, NH, and VT; in paragraph 8, between Jefferson County, NY and New York, and Chester, PA; and (4) remove the AK and HI exception, in Sub-No. 36F.

MC 18459 (Sub-16)X, filed May 22, 1981. Applicant: BRITTON MOTOR SERVICE, INC., 740 Westminster Street, St. Paul, MN 55101. Representative: Robert D. Gisvold, 1600 TCF Tower, Minneapolis, MN 55402. Applicant seeks to remove restrictions in its Sub-Nos. 10F and 12F certificates to (1) broaden the commodity descriptions from iron and steel articles, materials, equipment and supplies to "metal products" in each certificate; (2) remove the "except commodities in bulk" restriction in Sub-No. 10F; (3) eliminate the facilities limitation from St. Paul, MN, to Minneapolis-St. Paul, MN, in Sub-No. 10F, and from Monroe to Monroe County, MI, in Sub-No. 12F; (4) change one-way to radial authority between Minneapolis-St. Paul, and, points in the U.S., in Sub-No. 10F; and Monroe County, MI, and, points in the U.S., in Sub-No. 12F; and (5) remove the restriction against transportation to points in AK and HI in Sub-No. 10F and 12F.

MC 52460 (Sub-330)X, filed May 15, 1981. Applicant: ELLEX TRANSPORTATION, INC., P.O. Box 9637, Tulsa, OK 74107. Representative: William P. Parker, 141 N.E. 38th Terrace, Oklahoma City, OK 73105. Applicant seeks to remove restrictions in its Sub-Nos. 3, 84, 134, 141, 152, 155, 161, 162, 165, 166, 178, 192, 199, 201, 203, 204F, 210F, 211F, 212F, 213F, 217F, 218F, 221F, 225F, 232F, 235F, 236F, 237F, 245F, 247F, 249F, 251F, 256F, 258F, 260F, 261F, 266F, 270F, 271F, 275F, 277F, 278F, 279F, 280F, 282F, 283F, 284F, 286F, 287F, 290F, 292F, 295F, 300F, 301F and 306F certificates to (1) broaden the commodity descriptions from meat and packing house products, rice, canned goods, vinegar, and grape juice, hot sauces and chili peppers, malt beverages, unfrozen canned goods, foodstuffs, frozen foods, canned and preserved foodstuffs, candy, tallow, coffee and coffee products, frozen, canned and chilled citrus products, and beverages, pet foods and animal feeds, peanut butter and peanut butter packing supplies, non-alcoholic mixes and juices, to "food and related products" in each certificate except Sub-Nos. 212F, 232F, and 235F; (2) eliminate the facilities limitations in Sub-Nos. 84, 152, 155, 161, 166, 178, 199, 201, 203, 204F, 211F, 212F, 213F 217F, 218F, 225F, 232F, 236F, 237F, 249F, 251F, 256F, 260F, 261F, 270F, 271F, 278F, 280F, 283F, 287F, 290F, 292F, 300F and 301F; (3) replace specific point or facilities authority with county-wide or city-wide authority as follows: Fort Smith with Sebastian County, AR in Sub-No. 3; Kansas with Delaware County, OK in Sub-No. 84; Memphis with Shelby County, TN in Sub-No. 134, Lamar, MO with Barton County, MO; Memphis, TN with Shelby County, TN, Blytheville, Newort, Paragould and Helena, AR with Mississippi, Jackson, Phillips and Greene Counties, AR, and Franklin with St. Mary Parish, LA in Sub-No. 141; facilities at Amarillo with Potter and Randall Counties, TX in Sub-No. 152; facilities at Cactus with Moore County, TX in Sub-No. 155; facilities at Roswell with Chaves County, NM in Sub-No. 161; Enid, Ponca City and Poteau with Garfield, Kay and LeFlores Counties, OK, Memphis with Shelby County, TN, and Alamosa with Alamosa County, CO in Sub-No. 162; Golden with Jefferson County, CO, Belleville with St. Clair County, IL and Hannibal with Marion and Ralls Counties, MO in Sub-No. 165; facilities at Crete with Saline County, NE in Sub-No. 166; facilities at Perry with Houston County, GA in Sub-No. 178; Belledeau and St. Francisville with Avoiyelles and West Feliciana Parishes, LA in Sub-No. 192; facilities at Murfreesboro with Rutherford County, TN in Sub-No. 201; facilities at Troy with Pike County, AL in Sub-No. 203; facilities at Carrollton, Marshall, Macon and Moberly with Carroll, Saline, Macon and Randolph Counties, MO in Sub-No. 204; Chickasha with Grady County, OK in Sub-No 210; Dodge City with Ford County, KS in Sub-No. 211; facilities at Garland with Dallas, TX in Sub-No. 212; facilities at Greenville with Washington County, MS in Sub-No. 213; facilities at Lakeland with Polk County, FL in Sub-No. 217; facilities at Forest with Scott County, MS in Sub-No. 218; facilities at Russellville and Searcy with Pope and White Counties, AR in Sub-No. 221; facilities at Cleveland with Bradley County, TN in Sub-No. 225; facilities at St. Louis, MO with St. Louis, MO in Sub-No. 232; facilities at Bentonville, Fort Smith and Searcy With Benton, Sebastian, Crawford and White Counties, AR in Sub-No. 235; facilities at Dodge City with Ford County, KS in Sub-No. 236; facilities at Iowa City and Muscatine with Johnson and Muscatine Counties, IA in Sub-No. 237; Covington with Tipton County, TN in Sub-No. 245; facilities at Emporia with Lyon County, KS in Sub-No. 249; facilities at Sherman with Grayson County, TX in Sub-No. 251; facilities at New Orleans with New Orleans, LA in Sub-Nos. 256 and 260; facilities at Oak Grove with West Carroll Parrish, LA, and Moorhead with Sunflour County, MS in Sub-No. 261; facilities at Lake Wales with Polk County, FL in Sub-No. 266; facilities at Emporia and Wichita with Lyon and Sedgwick Counties, KS in Sub-No. 270; facilities at El Paso with El Paso County, TX in Sub-No. 271; facilities at Arkansas City with Cowley County, KS and Roswell with Chaves County, NM in Sub-No. 277; facilities at Hialeah with Dade County, FL in Sub-No. 278; facilities at Avery Island with Iberia Parrish, LA and Collinsville with Madison County, IL in Sub-No. 279; facilities at Holcomb with Finney County, KS in Sub-No. 280; Montezuma with Macon County, GA in Sub-No. 283; facilities at Palestine with Anderson County, TX in Sub-No. 286, facilities at Memphis with Shelby County, TN in Sub-No. 287; Stilwell with Adair County, OK in Sub-No. 290; facilities at Liberal with Seward County, KS in Sub-No. 292F; facilities at Corona with Riverside County, CA, and Byhalia with Marshall County, MS in Sub-No. 300F; and facilities at Great Bend, Topeka and Wichita with Barton, Sedgwick and Shawnee Counties, KS in Sub-No. 301F. (4) change one-way to radial authority between numerous points throughout the U.S.; (5) remove the following restrictions against commodities "bottles, in packages and containers" in Sub-No. 84, "in containers" in Sub-Nos. 141, 165, 203 and 278F, "except hides and commodities in bulk" in Sub-Nos. 152, 155, 161, 166, 211F, 236F, 270F, 280F, 292F, and 301F, "in bulk, in vehicles equipped with mechanical refrigeration" in Sub-Nos. 199, 212F, 217F, 221F, and 225F, "in tank vehicles" in Sub-Nos. 155, 211F, 212F, 217F, and 225F, "except hides and liquid commodities" in Sub-No. 284F, and "originating at and destined to" in Sub-Nos. 84, 152, 155, 161, 166, 199, 201, 211F, 212F, 217F, 218F, 225F, 232F, 236F, 237F, 249F, 271F, and 290F.

MC 101053 (Sub-12)X, filed May 26, 1981. Applicant: DRY BULK TRANSPORT, INC., R.D. #4, Marietta, OH 45750. Representative: Michael Spurlock, 275 E. State St., Columbus, OH 43215. Applicant seeks to remove restrictions in its lead and Sub-No. 11F certificates to (1) broaden the commodity descriptions to (a) "commodities in bulk, ores and minerals, coal and coal products, and clay, concrete, glass or stone products" from Coal, cinders, slag, soil (earth or marl), gravel, slate stone (Unglazed and unmanufactured), bituminous concrete, ores, in bulk, sand (other than asbestos, bird, iron, monazite, processed or tobacco sand), and salt in bulk, in the lead (part 1); (b) "commodities in bulk" from coal, in bulk, in dump trucks, in the lead (part 2), coal in the lead (part 3) and lime, in bulk, in Sub-No. 11F; (2) replace Maysville, KY and Poterfield, OH, with Mason County, KY and Washington County, OH, in Sub-No. 11F; (3) eliminate "within 50 miles and beyond 50 miles of Weirton, WV, in the lead; and (4) replace one-way with radial authority between (a) Washington, Morgan, and Noble Counties, OH and Pleasants and Wood Counties, WV, in the lead (parts 1 and 2) and (b) Mason County, KY and Washington County, OH and IL, IN, OH, PA, WV, and MI, in the Sub-No. 11F.

MC 106920 (Sub-133)X, filed May 15, 1981. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, OH 45869. Representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 Eleventh Street, NW., Washington, DC 20001. Applicant seeks to remove restrictions in its Sub-No. 98F certificate to (1) broaden the territorial description from city-wide authority to county-wide authority: (a) Dorsey, MD, to Howard County, MD, (b) Lyons, IL, to Cook County, IL, and (c) Kansas City, KS, to Kansas City, KS–MO commercial zone; and (2) eliminate the "originating at or destined to" restriction.

MC 109136 (Sub-48)X, filed May 15, 1981. Applicant: ORIOLE CHEMICAL CARRIERS, INC., 1740 E. Joppa Road, Baltimore, MD 21234. Representative: Maxwell A. Howell, 1100 Investment Bldg., 1511 K St., NW., Washington, DC 20005. Applicant seeks to remove restrictions in its Sub-Nos. 30 and 46 permits to (1) broaden the commodity descriptions to (a) "plastic and plastic materials" from synthetic plastics, dry, in bulk, in tank or hopper vehicles, in Sub-No. 30, and (b) "chemicals and related products" from liquid sodium silicate, in bulk, in Sub-No. 46; (2) eliminate the plantsite restriction, in Sub-No. 30; and (3) broaden the territorial description to "between points in the U.S.," under continuing contract(s) with named shippers, in both permits.

MC 109692 (Sub-89)X, filed May 13, 1981. Applicant: GRAIN BELT TRANSPORTATION COMPANY, 1401 Fairfax Trafficway, Bldg. D., Suite 315, Kansas City, KS 66115. Representative: Warren H. Sapp, P.O. Box 30010, Kansas City, MO 64112. Applicant seeks to remove restrictions in its lead and Sub-Nos. 13, 14, 15, 16, 18, 20, 21, 22, 24, 25, 33, 35, 36, 37, 39, 40, 43, 45, 47, 50, 51, 52, 54F, 62F, 63F, 64F, 65F, 69F, 70F, 71F, 72F, 73F, 74F, 75F, 76F, 81F, and 88F, certificates and E1, E2, E3, E4, E5, E6, E7, E8, E9, E10, E11, E12, E13, E14, E15, E16, and E17 letter notices to broaden the commodity descriptions to (1) "farm products" from hides and wood, in the lead (part a); seeds in the lead (part k); and hides in Sub-No. 81F; (2) "food and related products" from malt beverages, and empty malt beverage containers, in the lead (parts b and c); feed in Sub-No. 13 (part g); canned goods and groceries, in Sub-No. 13 (part t); cheese and empty cheddar boxes and returned and processed cheese, in Sub-No. 22 (parts c and d); and animal feeds and feed ingredients, in Sub-No. 51; (3) "general commodities (except classes A and B explosives)" from general commodities (with exceptions), in the lead (parts d, e, t, and u), Sub-Nos. 13 (part b), 76F, E1, E2, E3, E4, E5, E6, E7, E8, E9, E10, E11, E12, E13, E14, E15, E16, and E17; (4) "chemicals and related products" from salt, in the lead (part f) and Sub-Nos. 13 (part h) and 16; chemicals and insecticides, in the lead (part i); anti-freeze solutions, in the lead (part j); dry fertilizer, dry fertilizer materials, dry fertilizer ingredients, dry urea, and dry urea products, in Sub-No. 21; and chemicals and preservatives, in Sub-No. 33 (part b); (5) "metal products and waste and scrap materials not identified by industry producing" from scrap iron, metal, and rags, in the lead (part g); (6) "machinery and household goods" from farm implements and machinery, contractors machinery and equipment, and emigrant movables, in the lead (part n); (7) "building materials and metal products" from building materials, including road building materials, structural steel and tanks, in the lead (part o); (8) "farm products, machinery, food and related products and household goods" from grain, feed, emigrant movables, agricultural implements, farm supplies, and seed, in the lead (part q); (9) "metal products, Mercer commodities and machinery" from oil field supplies, construction iron, metal and steel articles and supplies, heavy machinery, and iron and steel pipe, in the lead (part p); (10) "machinery and metal products" from combines and parts thereof, in the lead (part r); windrowers and parts thereof, in the lead (part s); butcher shop equipment, farm machinery and parts, and road building machinery and parts, in the lead (part u); farm machinery and parts, and road building machinery and parts, in Sub-No. 14; irrigation systems, pipe and tubing, lighting and signal poles, and transmission poles, in Sub-No. 45 (part 1); irrigation systems and parts and accessories for irrigation systems, in Sub-No. 52 (part 1(a)); used irrigation systems, and equipment, materials and supplies used in the installation, in Sub-No. 52 (part 3); tractors and farm, industrial, construction and excavating machinery and parts, attachments, and accessories, in Sub-No. 63F; and agricultural machinery, and agricultural implements and parts and accessories and industrial machinery, construction machinery and equipment, parts, and accessories, in Sub-No. 73F; and pipe tubing, light poles, mast arms, brackets, bases and transmission poles and material, equipment and supplies, in Sub-No. 52 (parts 1 (b) and (c) and 2); pipe, couplings, pilings, well casings, well screens and tubing and material, equipment and supplies, in Sub-No. 72F; (11) "farm products, coal and coal products, and building materials" from feed, coal, tankage, grain, and building materials, in the lead (part v); (12) "such commodities as are used or dealt in by undertakers and funeral parlors" from undertaker's supplies, in the lead (part w); (13) "machinery, building materials and farm products" from agricultural machinery, building and fencing materials, feed, grain, twine, and seed, in Sub-No. 13 (part f), (14) "waste or scrap materials not identified by industry producing" from waste paper and junk, in Sub-No. 13 (part i); junk, in Sub-No. 13 (part r); and aluminum slag, in Sub-No. 35; (15) "furniture and fixtures" from furniture, in Sub-No. 13 (part j); (16) "farm products and food and related products" from eggs, empty egg containers and egg case materials, in Sub-No. 13 (parts k and l); (17) "petroleum, natural gas and their products, building materials, pulp, paper and related products, machinery, and transportation equipment" from petroleum products, fiber board boxes, brooders, chicken hatchery supplies, compressed gas, building materials, automobile tires, and tubes, and gasoline tanks and pumps, in Sub-No. 13 (part m); (18) "machinery and waste or scrap materials not identified by industry producing" from junk, gasoline tanks and pumps, and empty containers for producing compressed gas and petroleum products, in Sub-No. 13 (part n); (19) "pulp, paper and related products" from paper, and paper products and such commodities as are dealt in by retail grocery and food business houses" from paper, and paper products, and such commodities as are dealt in by retail grocery and food business houses, in Sub-No. 13 (part o); (20) "metal products and twine" from binder twine, fencing materials, bale ties, and baling wire and iron roofing, in Sub-No. 13 (part p); (21) "twine" from binder twine, in Sub-No. 13 (part q); (22) "Mercer commodities and machinery, and equipment, materials and supplies used in or in connection with construction, operation, repair, servicing, maintenance and dismantling of pipe lines, including the stringing and picking up thereof" from machinery, equipment, materials, and supplies used in or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and byproducts, and machinery, equipment, materials, and supplies used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, inlcuding the stringing and picking up thereof, in Sub-No. 15; (23) "machinery" from combines, in Sub-No. 18; agricultural combines, in Sub-No. 20; fertilizer spreaders, sprayers and ammonia applicating equipment, in Sub-No. 43; and used irrigation systems, in Sub-No. 45 (part 3); (24) "chemicals and related products and building materials" form fertilizer and corrugated roofing, in Sub-No. 22 (part a); (25) "metal products, farm products, pulp, paper and related products, chemicals and related products, food and related products, and lumber and wood products" from seed, feed, wire, roofing materials, moulding,

and nails, and creamery supplies, viz: neutralizers, washing powder, tubs, barrels and fibre boxes, in Sub-No. 22 (part e); (26) "building materials" from prefabricated buildings, knocked down or in sections, in Sub-No. 22 (part f); roofing and roofing materials and supplies, in Sub-No. 39; pipe, (except iron and steel pipe), in Sub-No. 40; gypsum, gypsum products, and building materials, in Sub-No. 47; building materials and insulating materials, in Sub-No. 50; roofing and roofing materials and equipment supplies used in the installation and distribution, in Sub-Nos. 69F; and roofing and roofing materials, in Sub-No. 70F and 71F; (27) "metal products" from iron and steel and iron and steel articles, in Sub-No. 24; iron and steel articles, in Sub-Nos. 36, 54F, 62F, and 75F; equipment, materials, and supplies used in the manufacture of irrigation systems, in Sub-No. 45 (part 2); and fabricated metal products, in Sub-No. 74F; (28) "clay, concrete, glass or stone products" from clay and clay products, in Sub-No. 25; (29) "lumber and wood products" from lumber and lumber products, posts, poles and timber in Sub-No. 33; lumber and wood products, in Sub-No. 65F; and lumber products, wood products and forest products, in Sub-No. 88F; and (30 "machinery, building materials, and metal products" from solar energy heating and cooling systems, woodburning heating and appliances, and materials, equipment and supplies, in Sub-No. 64F. Applicant also seeks to (1) eliminate "except commodities in bulk", "pick-up only", "except in dump vehicles", "in bulk or package", "delivery only", "in truckload", "in bags", against tank vehicles" and "except AK and HI" restrictions wherever they appear in the above Sub-numbered authorities; (2) remove the originating at restrictions in Sub-Nos. 50, 54F, 62F, 70F, 72F, 73F, and 81F; (3) eliminate the facilities limitations in Sub-Nos. 24, 37, 40, 43, 45, 47, 50, 51, 52, 54F, 62F, 63F, 64F, 65F, 69F, 70F, 71F, 72F, 74F, 75F, and 81F; (3) replace cities with authority to serve the county as follows: Kanapolis, Agenda, Burr, Hollis, Linn, Maryville, Phillipsburg, Republic, Salina, Simpson, Wayne, Woodston, Stockton, Overland Park, (irregular route) and Glasco with Ellsworth, Republic, Cloud, Washington, Marshall, Phillips, Saline, Mitchell, Johnson, and Rooks Counties, KS, Lanham with Gage County, NE, points in NE within 15 miles of Lanham, NE, with Jefferson County, NE, points in KS within 15 miles of Lanham, NE, with Marshall and Washington Counties, KS and Kansas City, Independence, Martin City, and Lees Summit with Jackson County, MO, in the lead; Lyons, Hutchinson, Winfield, Iola, Humboldt, Chanute, Arkansas City, and Great Bend with Rice, Reno, Cowley, Allen, Neosha and Barton Counties, KS, in Sub-No. 13; St. Joseph with Buchanan County, MO, in the lead and Sub-No. 13; Wichita with Sedgwick County, KS, in Sub-Nos. 13, 14, and 33; Kanapolis with Ellsworth County, KS, in Sub-No. 16; Independence with Jackson County, MO, in Sub-No. 18; South Mound and Erie with Neosho County, KS, and Springfield with Greene County, MO, in Sub-No. 22; Pittsburg with Crawford County, KS, in Sub-Nos. 25 and 51; Hugo with Choctaw County, OK, in Sub-No. 33; Jones Mill, Magnolia, Arkdelphia, Russellville and Newport with Hot Springs, Columbia, Clark, Pope, and Jackson Counties, AR, and Rockwall and Plano with Rockwall and Collin Counties, TX in Sub-No. 35; Norfolk with Madison County, NE, in Sub-Nos. 36, 62F, and 75F; Springfield with Sangamon County, IL, in Sub-No. 40; Lenox with Taylor County, IA, in Sub-No. 43; Valley with Douglas County, NE, in Sub-Nos. 45, 52, 64F, and 72F; Southard with Blaine County, OK, in Sub-No. 47; Sterling with Whiteside County, IL, in Sub-No. 54F; Burlington with Des Moines County, IA, in Sub-No. 63F; West Memphis with Crittenden County, AR, in Sub-No. 65F; Little Rock with Pulaski County, AR, in Sub-No. 69F; Lubbock with Lubbock County, TX, Pueblo with Pueblo County, CO, and Long Beach with Los Angeles County, CA, in Sub-No. 72F; Franklin Park with Cook County, IL in Sub-No. 74F; and Dakota City with Dokota County, NE, Dension with Crowford County IA, and Emporia with Lyon County, KS, in Sub-No. 81F; (4) allow service at all intermediate points, in the lead (parts a, b, c, d, and e) and Sub-No. 13 (part b) and (5) change its one-way regular route authority to two-way authority, in the lead and Sub-No. 13 and its one-way irregular route authority to radial authority, wherever it exists in the above named sub-numbers.

MC 114098 (Sub-55)X, filed February 25, 1981, published in the **Federal Register** of March 17, 1981, is republished as follows: Applicant: LOWTHER TRUCKING COMPANY, INC., P.O. Box 3117 C.R.S., Rock Hill, SC 29730. Representative: Lawrence E. Lindeman, 1032 Pennsylvania Bldg., Pennsylvania Ave. and 13th St., N.W., Washington, DC 20004. Applicant seeks to remove restrictions in its Sub-Nos. 3, 49F, 50F, 51F and 52F certificates to (1) broaden the commodity description from hulled cottonseed and ground cottonseed flakes to "food and related products", from fertilizer "chemicals and related products," from building or roofing slabs (made of Portland cement with wood fibre or wood chips aggregate), and composition boards and sheets (not including wall boarding or insulation boarding) to "building materials," and from hardboard to "lumber and wood products" in Sub-No. 3; from lumber to "lumber and wood products" in Sub-Nos. 49F, 51F, and 52F; from iron and steel articles to "metal products" in Sub-No. 50 and 52F; (2) remove the in bulk, and in tank and hopper-type vehicles and in bags, and no flat-bed trailers restriction in Sub-No. 3; (3) replace specified cities with county-wide authority, from Black Mountain, and Charlotte, NC to Buncombe, and Mecklenburg Counties, NC, from Conway, NC, and points within 10 miles thereof to Northampton and Hertford Counties, NC, and Southampton County, VA, from Augusta, GA to Richmond and Columbia Counties, GA, and Aiken and Edgefield Counties, SC, from Spartanburg, SC to Spartanburg County, SC, and from Newark, OH, to Hicking County, OH in Sub-No. 3; (4) replace one-way authority with radial authority between Mecklenburg, NC, and, Richmond, GA, Spartanburg County, SC, and, points in NC, Richmond, VA, and, points in 12 named States and a described portion of TN, Northampton and Herford Counties, NC, and Southampton County, VA, and, 11 named States, AR (except Benton, AR) and a described portion of TN, Hicking County, OH, and, points in WV in part (A) of Sub-No. 3, between (a) Buncombe County, NC and points in SC, KY, and described portions of TN, NY, and PA, in part B of Sub-No. 3; between Goergetown County, SC, and, points in NC, SC, and VA in Sub-No. 49F; between (1) Georgetown County, SC, and, points in GA, MD, and TN, and (2) points in SC, and, points in NC in Sub-No. 51F; and between (1) Clarendon County, SC, and points in 5 States, and (2) between Surry County, NC, and points in SC in Sub-No. 52F. The purpose of this republication is to give notice of the broadening Sub-No. 52F, and authority to serve all counties in the Augusta, GA, commercial zone and all counties touching points within 10 miles of Conway, NC.

MC 124170 (Sub-166)X, filed May 18, 1981. Applicant: FROSTWAYS, INC., 3000 Chrysler Service Drive, Detroit, MI 48207. Representative: William J. Boyd, 2021 Midwest Road, Suite 205, Oak Brook, IL 60521. Applicant seeks to remove restrictions in its Sub-No. 160 certificate to broaden the commodity description from meats, packing-house

products, and commodities used by packing houses to "food and related products".

MC 128639 (Sub-16)X, filed May 21, 1981. Applicant: CURRIER TRUCKING CORPORATION, Berlin-Gorham Road, Gorham, NH 03581. Representative: Frank J. Weiner, 15 Court Square, Boston, MA 02108. Applicant seeks to remove the restrictions in its lead and Sub-Nos. 8, 10, 11, 12, and 14 certificates to (1) broaden the commodity descriptions to: (a) "lumber and wood products" from wood chips, sawdust, wood residuals, wood slabs, and wood flour, in the lead, and Sub-Nos. 8, 10, 12, and 14; (b) "pulp, paper, and related products" from wood pulp, paper, and paper products in the lead, and Sub-Nos. 11 and 14, (c) "furniture and fixtures and metal products", from towel cabinets and towel dispensers in Sub-No. 14 and; (d) "waste or scrap materials", from waste paper in Sub-No. 14; (2) remove the in-bulk restriction in lead and Sub-Nos. 8 and 10; (3) replace city-wide (Berlin and Gorham, NH) with county-wide authority (Coos County, NH), in the lead and Sub-Nos. 11 and 14; and (4) replace one-way with radial authority in the lead and Sub-Nos. 8, 12, and 14.

MC 129742 (Sub-15)X, filed May 20, 1981. Applicant: PUROLATOR COURIER LTD., Valhalla Executive Center, 304 The East Mall, Islington, Ontario, Canada M9B 6C7. Representative: Peter A. Greene, 1920 N Street, N.W., Suite 700, Washington, DC 20036. Applicant seeks to remove restrictions in its (Sub–Nos. 9, 11F and 12F) certificates to (1) eliminate exceptions to general commodities except "classes A and B explosives"; (2) eliminate size and weight restrictions; and (3) replace authority to serve specific ports of entry in certain States on the United States—Canada boundary line with the authority to serve any ports of entry in NY, MI, VT, ME, MN, and ND.

MC 135953 (Sub-22)X, filed May 20, 1981. Applicant: CHEROKEE LINES, INC., P.O. Box 152, Cushing, OK 74023. Representative: Donald L. Stern, Suite 610, 7171 Mercy Road, Omaha, NE 68106. Applicant seeks removal of restrictions to (A) broaden the commodity descriptions to: "food and related products" in its No. MC–143103 (Sub–Nos. 1, 8F, and 19) permits, from cured and preserved meats in packages, from confectionery (except in bulk), and from meats, meat products and by-products, dairy products, articles distributed by meat-packing houses, and such commodities as are used by meat packers in the conduct of their business when destined to and for use by meat packers; and to "such commodities as are dealt in or used by manufacturers of animal feed and feed ingredients" in its Sub-No. 5F permit, from animal feed, ingredients, additives, materials and supplies used in the manufacture and distribution of animal feed (except in bulk; and (B) broaden the territorial descriptions in Sub–Nos. 1, 5, and 8 to authorize service between points in the U.S., under continuing contract(s) with named shippers.

MC 136635 (Sub-60)X, filed May 13, 1981, previously noticed in the **Federal Register** of June 1, 1981, republished as corrected this issue. Applicant: WHITEFORD TRUCK LINES, INC., 640 W. Ireland Road, South Bend, IN 46680. Representative: Donald W. Smith, P.O. Box 40248, Indianapolis, IN 46240. Applicant seeks to remove restrictions in its MC–138479 and Sub-No. 1 permit acquired in MC–F–13672 to (1) broaden the commodity description from vinyl skirting, vinyl siding, asphalt siding and steel siding and materials, and supplies (except in bulk) to "building materials, and materials, equipment and supplies used in the manufacture and distribution of building materials" in each permit; and (2) broaden the territorial description to between points in the U.S. under continuing contract(s) with a named shipper, in each permit. The purpose of this republication is to show the correct MC number to be MC–136635 (Sub–60)X in lieu of MC–136635 (Sub–59)X.

MC 138308 (Sub-142)X, filed May 22, 1981. Applicant: KLM, INC., P.O. Box 6098, Jackson, MS 39208. Representative: Donald B. Morrison, P.O. Box 22628, Jackson, MS 39205. Applicant seeks to remove restrictions in its Sub–No. 109F certificate to: (1) broaden the commodity description to "such commodities as are dealt in or used by retail, wholesale, discount, or variety stores" from such commodities as are dealt in our used by retail, wholesale, discount, or variety stores (except commodities in bulk and foodstuffs); (2) change its one-way authority to radial authority between points in AL, FL, GA, LA, MS, and TX, on the one hand, and, on the other, points in the U.S.; and, (3) eliminate the except AK and HI restriction.

MC 138732 (Sub-32)X, filed May 14, 1981. Applicant: OSTERKAMP TRUCKING, INC., P.O. Box 5546, Orange, CA 92667. Representative: Steven K. Kuhlmann, 2600 Energy Center, 717 17th Street, Denver, CO 80202. Applicant seeks to remove restrictions in its No. MC 138732 (Sub-No. 2, 12, 16F, 20F and 31) certificates and its No. MC 133928 Sub-No. 15 and 18 permits to (1) broaden its commodity description from paper and paper products, and glass containers and materials, equipment and supplies used in the manufacturing and distribution of paper, paper products and glass containers to "pulp, paper, and related products; clay, concrete, glass or stone products; and containers" in Sub-No. 12; from agricultural field equipment and harvesting equipment, parts therefore, and materials and supplies used in the harvesting, cultivating and distribution of agricultural commodities to "machinery; those commodities which because of their size and weight require special handling or equipment; and equipment, materials and supplies used in the harvesting, cultivating and distributing of agricultural commodities" in Sub-No. 2; from in Sub-No. 16 bentonite clay and lignite coal, and in Sub-No. 20 from bentonite clay, lignite coal, and water impedance boards to "Mercer and earth drilling commodities; coal and coal products; clay, concrete, glass or stone products; and building materials"; and from pipe (except iron and steel pipe) and iron and steel articles, and aluminum and aluminum articles to "metal products", in Sub-No. 31F Parts (3) and (4); from wood fibreboard and accessories, soil amendments, lumber, lumber products, and bark to "such commodities as are dealt in by manufacturers, producers and distributors of building materials and lumber or wood products" in Sub-Nos. 15 and 18; (2) remove the restrictions against the transportation of commodities in bulk, in tank vehicles, liquid caustic soda in bulk, and soda ash in Sub-Nos. 12 and 31; (3) replace its city with County-wide authority in Sub-No. 20, Upton, WY with Weston County, WY; (4) remove the facilities restrictions contained in its Sub-Nos. 16 and 20; (5) change its one-way to radial authority in Sub-Nos. 16 and 20 between specified counties in MT, ND, SD, and WY and points in several Western States; and (6) authorize service between points in the United States under contract with named shippers in Sub-Nos. 15 and 18 permits.

MC 142905 (Sub-14)X, filed May 19, 1981. Applicant: PETROLEUM TRANSPORTATION CORPORATION, 9717 E. 42nd Street, Tulsa, OK 74145. Representative: Thomas N. Willess, 1000 Sixteenth Street, N.W., Suite 502, Solar Building, Washington, DC 20036. Applicant seeks to remove restrictions in its lead and Sub-Nos. 4F, 5F, 9F, 10F, and 13F certificates to (1) broaden the commodity description from (a) anhydrous ammonia, nitrogen fertilizer solutions, and urea liquor to "petroleum, products, animal feeds, and agriculture

fertilizer and ingredients" in the lead: (b) anhydrous ammonia and liquid fertilizer (except anhydrous ammonia) to "petroleum products and agriculture fertilizers and ingredients" in Sub-No. 4F, and "agriculture fertilizers and ingredients" in Sub-No. 5F; and (c) diesel fuel, liquefied petroleum gas, and natural gaosline to "petroleum products" in Sub-No. 9F, 10F and 13F; (2) eliminate the facilities limitations in the lead and Sub-No. 5F; (3) change city to county-wide authority from Woodward to Woodward County, OK, in the lead; Hoag to Gage County, NE, in Sub-No. 4F; Verdigris to Rogers County, OK, in Sub-No. 5F; Arkansas City to Cowley County, KS, in Sub-No. 9F; and Conway, Hutchinson and Little River to McPherson, Reno, and Rice Counties, KS, in Sub-No. 10F; and (4) authorize radial for one-way authority between points in the central portion of the U.S.

MC 143876 (Sub-3)X, filed May 19, 1981. Applicant: CURLY'S DELIVERY SERVICE, INC., P.O. Box 2207, Cedar Rapids Iowa 52406. Representative: J. L. Kazimour (same address as applicant). Applicant seeks to remove restrictions from its Sub-No. 2F certificate to: (1) remove the "except commodities in bulk, and those requiring special equipment" exceptions from its general commodities authority; (2) remove the facilities limitations at (a) Arcadia, Bakersfield, Chico, Chula Vista, Clovis El Cajon, Escondido, Fairfield, Fremont, Fresno, Modesto, Pacific Grove, Reeding, Sacramento, San Diego, Santa Maria and Visalia, CA, (b) Cedar Rapids, Davenport, Des Moines, Dubuque, Sioux City, and Waterloo, IA (c) Moline, Peoria, and Rockford, IL, (d) Indianapolis, IN, (e) Topeka and Wichita, KS, (f) Lincoln and Omaha, NE, (g) Las Vegas and Reno, NV, (h) New York, NY, (i) Tulsa, OK, (j) Chattanooga, Knoxville, Memphis, and Nashville, TN, (k) Beaumont, Brownsville, Bryan, Corpus Christi, El Paso, Galveston, Laredo, McAllen, Odessa, and Texarkana, TX, and (l) Charleston, WV, and replace with County-wide authority as follows: Los Angeles, Kern, Butte, San Diego, Frenso, Solano, Alameda, Stanislaus, Monterey, Shasta, Sacramento, Obispo, Santa Barbara and Tulare Counties, CA; Linn, Scott, Polk, Dubuque, Woodbury and Blackhawk Counties, IA; Rock Island, Henry, Peoria and Winnebago Counties, IL; Hendricks and Hancock Counties, IN; Shawanee and Sedgwick Counties, KS; Lancaster and Douglas Counties, NE; Clark and Washoe Counties, NV; New York, NY; Wagoner, Rogers, Tulsa, Pawnee Osage, and Creek Counties, OK; Marion, Hamilton, Anders, Knox, Shelby and Davidson Counties, TN; Orange, Cameron, Brazos, San Patricio, El Paso, Galveston, Webb, Hidalgo, Ector and Bowie Counties, TX; and Kanawha County, WV; and (3) remove the AK and HI exceptions.

MC 144323 (Sub-8)X, filed May 18, 1981. Applicant: RICHARD P. CHARAPATA, d.b.a. CHARAPATA TRUCKING, N30 W26466 Peterson Drive, Pewaukee, WI 53072. Representative: Daniel R. Dineen, 710 North Plankinton Ave., Milwaukee, WI 53203. Applicant seeks to remove restrictions in its Sub-Nos. 1F, 2F, 5F, 6F, and 7F permits to (1) broaden the commodity descriptions from (a) steel wire and steel rods to "metal products", in Sub-No. 1F, (b) meats to "food and related products", in Sub-No. 2F, (c) magazines, books, periodicals and newspapers to "printed matter", in Sub-No. 5F, (d) polyethylene film and sheeting to "rubber and plastic products", in Sub-No. 6F, and (e) meats, meat products, and meat by-products, and articles distributed by meat-packing houses (except hides and commodities in bulk) to "food and related products", in Sub-No. 7F; and (2) broaden the territorial description to "between points in the U.S.," under continuing contract(s) with named shippers, in all permits.

MC 145059 (Sub-8)X, filed May 26, 1981. Applicant: SPINELLI BROS. TRUCKING, INC., 55 South Wade Blvd., Millville, NJ 08332. Representative: Robert B. Pepper, 168 Woodbridge Ave., Highland Park, NJ 08904. Applicant seeks to remove restrictions in its Sub-No. 1F certificate to (1) broaden its commodity description from glass tableware, to "clay, concrete, glass or stone products"; and (2) replace city with county-wide authority and authorize radial service between points in Cumberland County, NJ (Millville), (NJ), and, points in AZ, CA, OR, UT, and WA.

MC 145380 (Sub-2)X, filed May 18, 1981. Applicant: CALIFORNIA-PACIFIC FREIGHT, INC., P.O. Box 7266, Los Angeles, CA 90022. Representative: Dean McCormick (same as applicant). Applicant seeks to remove restrictions in its Sub-No. 1F certificate to eliminate the restriction limiting service to the transportation of traffic moving on freight forwarders bills of lading.

MC 145423 (Sub-7)X, filed May 15, 1981. Applicant: C. VAN BOXELL TRANSPORTATION, INC., 763 South Oakwood, Detroit, MI 48217. Representative: William B. Elmer, 624 Third Street, Traverse City, MI 49684. Applicant seeks to remove restrictions in it lead certificate to (1) broaden the commodity description from coal tar and coal tar products, in bulk, in tank vehicles, to "chemicals and related products"; (2) broaden the territorial description from city-wide authority to county-wide authority: Detroit, MI, to Wayne, Macomb, Oakland, Washtenaw, and Monroe Counties, MI; and (3) authorize radial authority to replace existing one-way service between the above named counties, and, points in IL, IN, NJ, NY, OH, PA and WI.

MC 147131 (Sub-7)X, filed June 1, 1981. Applicant: KENNAMER BROTHERS, INC., P.O. Box 866, Grant, AL 35747. Representative: Donald B. Sweeney, Jr., 512 Massey Building, Birmingham, AL 35203. Applicant seeks to remove restrictions in its lead and Sub-Nos. 4F, 5F and 6F certificates to (1) broaden the commodity descriptions from meats, meat products, meat by-products, articles distributed by meat-packing houses, and dairy products to "food and related products" in all the above authority; (2) delete commodity restrictions such as "except in bulk, in tank, hides" in all authority; (3) delete plantsite restrictions in all the above authority; (4) remove "originating at or destined to" restrictions in Sub-Nos. 4, 5 and 6; (5) broaden cities to counties: Austin, Owatonna, and Albert Lea, MN, with Mower, Steele, and Freeborn Counties, MN, in the lead; Albert Lea, MN, with Freeborn County, MN; Monmouth and Peoria, IL, with Warren and Peoria Counties, IL; Des Moines, Cherokee, and Cedar Rapids, IA, with Polk, Cherokee, and Linn Counties, IA, in Sub-No. 5; Logansport, IN, with Cass County, IN; Marshall, MO, with Saline County, MO, and Omaha, NE, with Douglas and Sarpy Counties, NE in Sub-No. 6, and (6) authorize radial authority in lieu of existing one-way authority between the counties named above and points in eastern and mid-western States in the above authority.

[FR Doc. 81-16985 Filed 6-8-81; 8:45 am]

BILLING CODE 7035-01-M

Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule 251 of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** on December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 F.R. 80109.

Persons wishing to oppose an application must follow the rules under

49 CFR 1100.252. Applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we fine, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulation. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OPY–4–179

Decided: June 2, 1981.

By the Commission, Review Board 2, Members Carleton, Fisher and Williams.

MC 149416, filed May 21, 1981. Applicant: R. J. MOSUR d.b.a. R.J. MOSUR & SON, P.O. Box 244, Menominee, MI 49858. Representative: Daniel R. Dineen, 710 No. Plankinton Ave., Milwaukee, WI 53203 (414) 278–7410. Transporting *food and other edible products and byproducts* intended for human consumption (except alcoholic beverages and drugs), *agricultural limestone and fertilizers, and other soil conditioners*, by the owner of the motor vehicle in such vehicle, between points in the U.S.

Volume No. OPY–4–180

Decided: June 2, 1981.

By the Commission, Review Board Number 2, Members Carleton, Fisher and Williams.

MC 151747(Sub-5), filed May 20, 1981. Applicant: WALTER BROTHERS TRUCKING, INC., 1266 No. Franklin St., Chambersburg, PA 17201. Representative: Barry Weintraub, Suite 800, 8133 Leesburg Pike, Vienna, VA 22180 (703) 442–8330. Transporting, for or on behalf of the United States Government, *general commodities* (except used household goods, hazardous or secret materials, and sensitive weapons and munitions), between points in the U.S.

Correction

In FR Doc 81–13050, published at page 24325, on Thursday, April 30, 1981, on page 24327, in the third column, in the second paragraph "MC 118537 (Sub-25)", in the fourteeth line, "IL, IN" should be corrected to read "IL, IA, IN".

BILLING CODE 1505–01–M

Motor Carrier; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of these applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OP1–164

Decided: June 1, 1981.

By the Commission, Review Board No. 1, Members Parker, Chandler, and Fortier. Member Fortier not participating in part.

MC 7840 (Sub-No. 43), filed May 26, 1981. Applicant: ST. LAWRENCE FREIGHTWAYS, INC., 650 Cooper St., Watertown, NY 13601. Representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 Eleventh St., NW., Washington, DC 20001, (202) 628–9243. INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Agency for International Development

[Redelegation of Authority No. 40.10 (Revised)]

Asia Mission Directors, et al.; Redelegation of Authority Regarding Waivers of Source, Origin, and Nationality for Procurement

Pursuant to the authority delegated to me by Delegation of authority No. 40 dated March 5, 1978 from the Deputy Administrator, I hereby redelegate to the Directors of A.I.D. Missions in Asia under my authority, to A.I.D. Representatives under my authority, to the Director of the Office of Project Development, Bureau for Asia, and to any duly designated person performing the functions of any such Mission Director, A.I.D. Representative, or Office Director in an acting capacity, the authority, after appropriate consultation with A.I.D. technical personnel and legal officers, to waive source, origin of nationality requirements with respect to the procurement of goods and services, other than transportation services, in cases in which the cost does not exceed $250,000 as set out in Delegation of Authority No. 40, *Provided however,* That authority to waive source and origin requirements for motor vehicle procurement, which waivers shall not exceed $25,000 for any one transaction, is redelegated only to Mission Directors, to the Director of the Office of Project Development, Bureau for Asia, and to any duly designated person performing the functions of such Mission Director or Office Director in an acting capacity, and *Provided further,* That A.I.D. Representatives may exercise the authority provided in this redelegation only for transactions which do not exceed $100,000.

The authority redelegated above may not be further redelegated.

All redelegations heretofore issued by me with regard to the authority to issue waivers for source, origin and nationality for procurement are hereby revoked to the extent such prior redelegations are inconsistent with this redelegation. This redelegation shall not be construed to affect the validity of any waiver or redelegation granted by a properly authorized official prior to the effective date of this redelegation, and any such waiver shall continue in effect unless modified or revoked by an official to whom such authority has been delegated by this redelegation.

This redelegation of authority shall be effective immediately.

Dated: July 23, 1981.

John H. Sullivan,

Assistant Administrator, Bureau for Asia.

BILLING CODE 4710-02-M

JOINT BOARD FOR THE ENROLLMENT OF ACTUARIES

Advisory Committee on Actuarial Examinations; Meeting

Notice is hereby given that the Advisory Committee on Actuarial Examinations will meet in Room 4121, Department of the Treasury, 15th Street and Pennsylvania Avenue, Washington, D.C. on June 29, 1981 beginning at 9:30 a.m. and in Room 4426, Department of the Treasury on June 30, 1981 beginning at 9:00 a.m.

The purpose of the meeting is to discuss the format for the preparation and presentation of examination questions by the examination writing committees to the Advisory Committee, the topics and questions which may be recommended for inclusion on the Joint Board's examinations in actuarial mathematics and methodology referred to in Title 29 U.S. Code, section 1242(a)(1)(B) and the minimum acceptable pass score for the May 1981 examination.

A determination as required by section 10(d) of the Federal Advisory Committee Act (Pub. L. 92-463) has been made that the portion of the meeting dealing with discussion of questions which may appear on the Joint Board's examinations and the minimum acceptable pass score will fall within the exceptions to the open meeting requirement set forth in Title 5 U.S. Code, section 552b(c)(9)(B), and that the public interest requires that such portion be closed to public participation.

The portion of the meeting dealing with the format for the preparation and presentation of examination questions by the examination writing committees to the Advisory Committee will begin at 9:30 a.m. on June 29 and will last no later than 3:00 p.m. on June 29. This portion of the meeting will be open to the public as space is available. Time permitting, after discussion of the topic by Committee members, interested persons may make statements germane to this subject. Persons wishing to make oral statements should advise the Committee Management Officer in writing by June 22, 1981, to aid in scheduling the time available and should submit the written text, or at a minimum, an outline of comments they propose to make orally. Such comments will be limited to ten minutes in length.

Any interested person also may file a written statement for consideration by the Committee by sending it to the Committee Management Officer. Statements should be mailed to Mr. Leslie S. Shapiro, Joint Board for the Enrollment of Actuaries, c/o U.S. Department of the Treasury, Washington, D.C. 20220.

Dated: June 4, 1981.

Leslie S. Shapiro,

Advisory Committee Management Officer, Joint Board for the Enrollment of Actuaries.

DEPARTMENT OF JUSTICE

National Institute of Justice

Graduate Research Fellowship Program; Grants Solicitation

The National Institute of Justice announces a competitive Graduate Research Fellowship Program to provide a limited number of Fellowships which will be awarded to doctoral candidates, through sponsoring institutions, to support students engaged in the research and writing of a doctoral dissertation in the area of criminal justice. Applicants must have completed all dissertation of internship prior to awarding of the grant.

There will be two cycles of the Graduate Research Fellowship program during Fiscal Year 1982. Submissions postmarked on or before October 31, 1981 will be considered submissions to the first cycle, and those postmarked after October 31, 1981 and before March 2, 1982 will be considered submissions to the second cycle. A number of grants will be awarded. The maximum award for each grant is $11,000, which provides a stipend for the student, allowance for dependents, major project costs and certain university fees.

Additional information and copies of the announcment may be obtained by sending a self-addressed mailing label to:

Solicitation—Graduate Research Fellowship Program, National Criminal Justice Reference Service, Box 6000, Rockville, Maryland 20850

Dated: May 15, 1981.

Harry M. Bratt,

Acting Director, National Institute of Justice.

BILLING CODE 4410-18-M

DEPARTMENT OF LABOR

Employment and Training Administration

Labor Surplus Area Classifications Under Executive Orders 12073 and 10582; Annual List of Labor Surplus Areas

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice.

SUMMARY: The purpose of this notice is to announce the annual list of labor surplus areas, effective June 1, 1981.

FOR FURTHER INFORMATION: Contact James W. Higgins, Assistant Chief, Division of Labor Market Information, 601 D Street, NW. (Attention: TPPL), Washington, D.C. 20213 (202–376–7192).

SUPPLEMENTARY INFORMATION: The areas described below have been classified by the Assistant Secretary of Labor for Employment and Training as labor surplus areas for purposes of Executive Orders 12073 and 10582 pursuant to 20 CFR Part 654. The areas were so classified on the basis of the criteria set forth in 20 CFR 654.5 and placed on the "Listing of Eligible Labor Surplus Areas" for June 1, 1981 through May 31, 1982, effective June 1, 1981.

Executive Order 12073 requires executive agencies to emphasize procurement set-asides in labor surplus areas. The Secretary of Labor is responsible under this Order for classifying and designating areas which are labor surplus areas. Under Executive Order 10582, executive agencies may reject bids or offers of foreign materials in favor of the lowest offer by a domestic supplier, provided that the domestic supplier undertakes to produce substantially all of the materials in areas of substantial unemployment, as defined by the Secretary of Labor. Areas of substantial unemployment are defined by Department of Labor regulations as labor surplus areas at 20 CFR 654.13.

The Department's labor surplus area classification procedures are set forth at 20 CFR Part 654. The regulations require that the Assistant Secretary for Employment and Training classify labor surplus areas and publish the labor surplus areas together with corresponding geographic descriptions. Accordingly, the following list of labor surplus areas is published for the use of all Federal departments and agencies in directing procurement activity and locating new plants or facilities.

Signed at Washington, D.C. on June 4, 1981.

Albert Angrisani,

Assistant Secretary of Labor.

Labor Surplus Areas Eligible for Federal Procurement Preference From June 11, 1981 through May 31, 1982

Eligible labor surplus areas	Political jurisdictions included
Alabama	
Autauga County	Autauga County.

BILLING CODE 4510-30-M

Mine Safety and Health Administration

[Docket No. M-81-23-M]

Cobb Resources Corp.; Petition for Modification of Application of Mandatory Safety Standard

Cobb Resources Corporation, 313 Washington, S.E., Albuquerque, New Mexico 87108 has filed a petition to modify the application of 30 CFR 57.4-43 (fire protection) to its London Mine located in Park County, Colorado. The petition is filed under section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that buildings within 100 feet of mine openings that are designated escapeways in exhaust air shall be constructed of fire resistant materials.

2. The London Water Tunnel has a portal of steel and concrete which extends 100 feet into the workings. Approximately 71 feet from the outward end of this structure is the mine shop/maintenance building which contains a compressor, maintenance equipment and the miners' changing room. The building is constructed of plyboard nailed to wooden studs and has been painted with fire-resistant paint.

3. The tunnel is not a designated escapeway; it is a normal exit in exhaust air.

4. Petitioner states that the 71 feet between the normal exit portal and the building painted with fire-resistant paint, in addition to the first 100 feet inside the portal being constructed of steel and concrete, warrant a modification of the standard. Petitioner further states that the safety of the miners would in no way be diminished by a modification.

Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before July 9, 1981. Copies of the petition are available for inspection at that address.

Dated: June 3, 1981.

Frank A. White,

Director, Office of Standards, Regulations and Variances

[FR Doc. 81-16996 Filed 6-8-81: 8:45 am]

BILLING CODE 4510-43-M

Proposed Acquisition of Mine Emergency Operations Center—Hopewell Township, Beaver County, Determination That Environmental Assessment Is Not Necessary and Finding of No Significant Impact on the Environment

AGENCY: Mine Safety and Health Administration, Department of Labor (MSHA).

ACTION: Notice—Determination that environmental assessment is not necessary and that action will have no significant impact on the environment.

SUMMARY: The purpose of this notice is to announce a determination by MSHA under the National Environmental Policy Act (NEPA), and Council on Environmental Quality (CEQ) and DOL regulations implementing NEPA, that the planned acquisition by purchase of the property housing the MSHA Mine Emergency Operations Center in Hopewell Township, Beaver County, Pennsylvania, does not constitute the type of real property action which requires the preparation of an environmental assessment and, accordingly, that an environmental assessment will not be prepared. MSHA has determined that because no change in the use of the property is contemplated, the proposed action will have no significant impact on the environment.

FOR FURTHER INFORMATION CONTACT: Roy L. Bernard, Director of Technical Support, MSHA, Room 917, Ballston Tower No. 3, 4015 Wilson boulevard, Arlington, VA 22203, telephone 703-235-1580.

SUPPLEMENTARY INFORMATION: In accordance with NEPA, and CEQ and DOL regulations, MSHA has examined the possible environmental impact of its planned acquisition of the Mine Emergency Operations Center. The facility to be acquired consists of a building situated on six acres of land located in the Hopewell Township Industrial Park, Hopewell Township, Beaver County, Pennsylvania. Acquisition of the property is authorized by the bill providing for appropriations for the Departments of Labor, Health and Human Services, and Education, and related agencies for fiscal year 1981, H.R. 7998 (passed by the House of Representatives on August 27, 1980), as adopted by H.J. Res. 644, Pub. L. 95-536, December 16, 1980.

The DOL regulation implementing NEPA, at 29 CFR § 110.10(B), provides, in pertinent part, that actions involving the purchase of property in connection with the establishment or substantial

alteration of a Job Corps center, or any similar Job Corps facility, or other property actions of a similar character by another agency, will normally require the preparation of an environmental assessment prior to determining whether either a finding of no significant impact or an environmental impact statement must be prepared. MSHA's planned acquisition of the Mine Emergency Operations Center, however, does not constitute either the establishment or substantial alteration of a facility. The facility to be purchased already houses the agency's mine emergency operations where equipment used by MSHA in rescue and recovery work in the event of a mine emergency or disaster is stored and maintained. The building consists of a warehouse/garage area, a maintenance/storage area, and an office area. The facility has been leased for this purpose for approximately three years and no change in the nature of the activities carried out at the facility is planned. Some renovation and repair of the building is contemplated after acquisition, but this work will not result in any expansion or substantial alteration of the existing facility. Accordingly, MSHA has determined that an environmental assessment is not necessary and that the proposed action will have no significant impact on the environment.

Dated: May 29, 1981.

Thomas J. Shepich,

Acting Deputy Assistant Secretary for Mine Safety and Health.

BILLING CODE 4510-43-M

[Docket No. M-81-21-M]

Noranda Mining, Inc.; Petition for Modification of Application of Mandatory Safety Standard

Noranda Mining, Inc., P.O. Box 1450, Park City, Utah 84060 has filed a petition to modify the application of 30 CFR 57.19-125 (hoist ropes; requirements) to its Ontario Project located in Summit County, Utah. The petition is filed under section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follow:

1. The petition concerns the requirement that hoist ropes wound in multiple layers have a length cut off at the drum end at least three times during the anticipated life of the rope.

2. Petitioner is currently using a #6 Welman Seaver Morgan hoist, manufactured in 1917 and powered by a 250 hp G. E. motor. It is a reel type, using a ⅝ inch by 5 inch flat cable.

3. As an alternative method, petitioner proposes to use this reel-type flat hoist rope without cutting off lengths at the drum, as would be done on a round hoist rope, because the wear point of the cable changes with each wrap, depending on the load weight.

4. Petitioner states that cutting the drum end of the cable would not affect the wear point and requests a modification of the standard.

Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before (insert date 30 days from publication in the **Federal Register**). Copies of the petition are available for inspection at that address.

BILLING CODE 4510-43-M

Pension and Welfare Benefit Programs

[Application No. D-1563]

Proposed Exemption for Certain Transactions Involving the Misener Profit Sharing Plan and Gulf Foundation, Inc. Profit Sharing Plan, St. Petersburg, Florida

AGENCY: Department of Labor.

ACTION: Notice of Proposed Exemption.

SUMMARY: This document contains a notice of pendency before the Department of Labor (the Department) of a proposed exemption from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and the Internal Revenue Code of 1954 (the Code). The proposed exemption would exempt: (1) the leasing of barges and tugboats by the Misener Barge and Boat Rental, Inc. (MB&B, a corporation wholly owned by the Misener Profit Sharing Trust (MPT, a commingled investment trust)) to Misener Marine Construction (MMC, the sponsoring employer); (2) the servicing of MB&B barges and tugboats by MMC and Misener Industries Inc. (MIC, a corporation wholly owned by MMC); (3) the purchase of barges by MB&B from MIC; (4) the guarantee by MMC of loans made to MB&B by unrelated lending institutions; (5) the exchange of MB&B stock for MMC stock of comparable value; and (6) the cash sale of a parcel of real estate (the Real Estate) by the MPT to Mary Jane Misener a party in interest with respect to the MPT. The proposed exemption, if granted, would affect MB&B, MIC, MMC, MPT, participants and beneficiaries of those profit sharing plans participating the MPT and certain other persons participating in the transactions.

EFFECTIVE DATE: If the proposed exemption is granted, the exemption will be effective from: (1) January 1, 1975 until the date of the stock exchange between MB&B and MMC for the leasing of the MB&B barge and tugboat fleet; (2) from January 1, 1975 until October 31, 1978 for the servicing of the MB&B barge and tugboat fleet; (3) from March 20, 1976 until May 23, 1977 for the purchase of barges from MIC; (4) from February 27, 1976 and prospectively for the guarantees of MMC; and (5) from the date the exemption grant is published in the **Federal Register** for the exchange of MB&B and MMC stock and sale of the Real Estate.

DATES: Written comments and requests for a public hearing must be received by the Department on or before July 20, 1981.

ADDRESS: All written comments and requests for a hearing (at least three copies) should be sent to the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20216, Attention: Application No. D-1563. The application for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue, N.W., Washington, D.C. 20216.

FOR FURTHER INFORMATION CONTACT: Mr. Paul R. Antsen of the Department, telephone (202) 523-6915. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Notice is hereby given of the pendency before the Department of an application for exemption from the restrictions of section 406(a), 406 (b)(1) and (b)(2) of the Act and from the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code. The proposed exemption was requested in an application filed by counsel for MMC, pursuant to section 408(a) of the Act and section 4975(c)(2) of the Code, and in accordance with procedures set

forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, this notice of pendency is issued solely by the Department.

Summary of Facts and Representations

The application contains representations with regard to the proposed exemption which are summarized below. Interested persons are referred to the application on file with the Department for the complete representations of the applicant.

Description of the parties

1. MMC is a closely held corporation the stock of which is owned primarily (seventy (70) percent), by Richard H. Misener (Misener) and his wife (Mary Jane Misener), the balance of the stock is owned by five other officers of MMC. MMC is in the marine construction business and has been involved in a wide range of projects including construction of seawalls, marinas, docking facilities, piers and bridges, installation of foundation pilings, laying of underwater cable and participation in pipeline construction. MMC has been in business in the Florida gulf coast area since 1945. It employs, on a controlled group basis, approximately 700 employees. As of its fiscal year ending October 31, 1980, MMC and its affiliates had combined gross sales of almost $75 million. During the same time period MMC had a before tax income of $1,939,993.

2. MMC is affiliated with two other companies—Gulf Foundation, Inc. (Gulf) and MIC. Gulf, a closely held corporation the stock of which is owned by the same individuals who own MMC, engages in various types of marine construction projects similar to MMC. Unlike MMC, Gulf employs union labor; however, the company's union employees are excluded from the Gulf employee benefit plans. MIC was incorporated in 1975 to construct barges for commercial use and has its plant facility in Tampa, Florida.

3. Gulf maintains its own profit sharing plan (the Gulf Plan) with approximately twelve (12) participants in a separate trust although the assets are commingled for investment purposes in the MPT. Employees of both MMC and MIC participate in the Misener Profit Sharing Plan (the Misener Plan). The Misener Plan has approximately two hundred seventy two (272) participants as of the plan year which ended October 31, 1980. The Misener Plan assets are held in a trust managed by three individual trustees (the Trustees): Misener (the President and Chairman of the Board of MMC), Violet O'Brien (O'Brien—Treasurer of MMC and Administrative Secretary to Misener) and John C. Dew, Esquire. Like the assets of the Gulf Plan, the Misener Plan assets have been commingled for investment purposes in the MPT. The Trustees also exercise investment responsibility over the assets of the MPT. As of October 31, 1980, MPT had total assets of $5,359,599. In addition to the Misener Plan, MMC also maintains a non-contributory pension plan containing $1.7 million in assets which is not involved in any of the transactions described in this exemption request.

Retroactive Transactions

1. Initially, the MPT was invested in common stock of unrelated companies and real estate. After several years of unsatisfactory investment performance, the Trustees decided to invest assets in a type of property in which they felt they had a special expertise—namely, barges and tugboats. The Trustees deemed that the purchase and leasing of such vessels would be a profitable investment. Barges serve as floating platforms upon which cranes, drilling equipment and various other types of heavy construction equipment can be positioned to do their work at sea. Tugboats are essentail to marine construction inasmuch as barges are not self-propelled and must be towed to work site locations. Thus, wherever there is a need for a barge there will usually be a need for a tugboat. The applicant represents that both types of vessels are rugged and durable with relatively long lives and hold their value extremely well.

2. On November 5, 1970, the Trustees incorporated MB&B. Such incorporation was accomplished based on advice of counsel to insulate MPT from liability based on activities of the barge and tugboat fleet. The capital for the new corporation was acquired from the MPT in exchange for all issued and outstanding stock of MB&B. The sole capitalization of MB&B by MPT in November of 1970 was in the amount of $29,750, at a time when MPT assets were valued in excess of $233,000. Subsequently, all additional capital needed in the operation of MB&B came from debt financing and profits of MB&B. Since its inception the directors of MB&B (the Directors) have included: Misener, O'Brien and Mr. Stanley A. Heaton (Heaton—the Executive Vice-President of MMC). Except for its officers/directors, whose duties are entirely ministerial, MB&B has no employees, nor does it occupy any office space. Since its formation MB&B has been engaged in the business of leasing barges and tugboats for work on marine construction projects. The only assets of MB&B have been its fleet of barges and tugboats which currently number fourteen and four respectively. The value of the MB&B stock held by the MPT is based on the sale value of the barge and tugboat fleet. As of October 31, 1980, the MB&B stock was valued at approximately $2.6 million, an amount that represents forty-nine (49) percent of the MPT total assets. Since its inception, the MB&B barge and tugboat fleet has been leased almost exclusively to MMC and Gulf for periods of time ranging from a few days to one year. The applicant submits that the rates charged MMC and Gulf were at all times fair and reasonable and that they were not less than the rates which MB&B would have charged unrelated parties. The applicants have demonstrated that the rental rates charged MMC and its affiliates were at least market rates for the barge and tugboat rental industry. The applicant has further represented that annually the Directors evaluated and established rates for their equipment based on known rental rates of competitive leasing companies.

3. Additionally, MB&B barges and tugboats had to be regularly serviced so as to assure their sea-worthiness and their ability to perform their designated functions. From a time predating the Act until October 31, 1978, MMC, and to a lesser extent MIC, provided a portion of the service and maintenance work for the MB&B fleet. The applicants represent that the fees charged MB&B for such work were at all times fair and reasonable in that they were the same rates charged to others for similar services. The applicants documented that MB&B received more favorable rates for similar services than would otherwise be available from an unrelated party in the local area.

4. Originally MB&B purchased its barges and tugboats from companies unrelated to the MMC controlled group. However, when MIC was established in August of 1975 the Directors sought to make acquisitions from MIC where they could be assured that MB&B would pay no more for any barge acquisition than it would have paid had they been acquired from unrelated parties. From the date of its incorporation until October of 1980, MIC had constructed for sale fifty-eight (58) barges. Between the dates March 20, 1976 and May 23, 1977, MB&B purchased six barges from MIC. In each instance the Directors took steps to ensure that

MB&B obtained the most favorable rate available for such transactions. Such steps included competitive bidding, purchases on a fixed cost basis and preferential prices based on flexibility in delivery dates and early placement of orders. The combined sale price for these barge acquisitions was $2,928,803.

5. All barge acquisitions were debt financed through local banking institutions with the barges serving as collateral for the loans. Two early barge acquisitions represented more than thirty-five (35) percent of MB&B's total acquisition expense. In both cases, long term notes were executed by MB&B with Exchange National Bank of Tampa (Exchange) to finance the acquisition of the vessels. MMC signed as guarantor on both notes obligating itself for the repayment for all indebtedness, obligations or liabilities incurred by MB&B for the purchase of barges up to $1.5 million. The issuance of this guarantee permitted Exchange to extend the credit to MB&B. These notes are still outstanding and MMC continues as guarantor. When MB&B made a major tugboat acquisition financed through Commercial Credit Industrial Corporation, MMC again guaranteed the note. This latter note was paid in full by MB&B during its fiscal year ending October 31, 1979. MMC did not receive any fee or other form of compensation for acting as guarantor. It agreed to guarantee the notes solely to further the interest of MB&B which in turn furthered the interest of MPT and the participating plans. By interposing its own capital and assets between a creditor and MPT the applicant suggests such conduct served to protect the assets of the MPT.

6. The MPT Trustees permitted MB&B to engage in the above described transactions with MMC and related companies based upon the advice of counsel that the transactions entered into by MB&B were not to be considered transactions of the MPT. Therefore, when the fiduciary responsibility provisions of the Act become effective in January of 1975, the MPT Trustees believed that the transactions were not prohibited transactions. While the MPT Trustees did not operate the MB&B with the prohibited transaction provisions of the Act in mind, they nevertheless, took those steps necessary in an ordinary business setting to assure themselves that their decisions were based on the best interests of those plans participating in the MPT and their respective participants and beneficiaries.

The Trustees of the MPT became aware of the existence of possible prohibited transactions through an attorney retained by Misener for estate planning purposes in late October of 1978. As soon as the possibility of prohibited transaction violations became known, the sales and servicing arrangements between MB&B and MMC or related companies were immediately terminated. However, the Directors determined that it would not be in the best interests of the MPT to discontinue the leasing arrangements with MMC because alternative leasing arrangements were uncertain and the Directors were concerned about the loss of rental income should the barges or tugboats sit idle for any period of time. In an effort to reduce the level of dependence between MB&B and the MMC controlled group, the Directors advertised the availability for lease of the MB&B fleet in trade publications but continued the existing leasing practices. Some unrelated third party rentals have been arranged as a result of these efforts. In addition, Trustees took steps to disclose to the Department the possible violations. On February 5, 1979 the Trustees noted the possible violations on the required annual financial filing of the MPT (Form 5500 filed with the Department and the Internal Revenue Service) and stated that an exemption application under section 408(a) of the Act and section 4975(c)(2) of the Code was being prepared. An application for exemption was subsequently filed on October 5, 1979. All legal fees resulting from the preparation and representation of MPT and the other parties in conjunction with the exemption application have been paid by MMC.

7. On July 18, 1975, MPT acquired the Real Estate from an unrelated party for $599,500. The Real Estate consists of twenty two (22) acres of waterfront property located in the Tampa Bay area. The Trustees entered into a ten (10) year net lease with MMC on August 1, 1975. MMC simultaneously sublet a portion of the Real Estate to MIC. Thereafter, the Real Estate was developed by MMC and MIC so that it could be used as the permanent site for MIC's barge fabrication business. In addition to the structures placed on the Real Estate, MMC also improved the property by the construction of a concrete seawall and a steel sheet pile bulkhead. MMC treated the seawall and bulkhead—valued at almost $335,000—as a contribution to the Misener Plan. The substantial improvements to the Real Estate prompted the Trustees to execute new leases based upon the increased value of the Real Estate. The Trustees agreed to lease twenty five (25) percent of the property to MMC for a ten year period beginning November 1, 1977. The Trustees leased the balance of the Real Estate to MIC, also for a ten year period beginning November 1, 1977. As of October 31, 1980, the Real Estate was valued at $1,054,000, a figure representing twenty (20) percent of MPT assets.

Prospective Transactions

1. With respect to the continuation of leasing arrangements of barges and tugboats between MB&B and the MMC controlled group, the Trustees originally sought administrative relief to continue the leasing arrangement because MB&B profitability had been primarily based on its relationship to MMC to ensure full utilization of its fleet. Absent an exemption or less the loss of MMC business can be made up by leasing barges to third parties, the profitability of MB&B's leasing business will suffer a loss to the detriment of the participating plans in the MPT and their participants and beneficiaries. Northern Trust Company (Northern), a party independent of and unrelated to MMC, has reviewed the options available to MPT and stated that an exchange by the MPT of its entire stockholding interest in MB&B for voting common stock of MMC of equal value would be the most appropriate resolution of the current leasing arrangement. Northern has stated that such a transaction would be in the interests of the affected plans and their participants and beneficiaries. While recognizing that no market exists for either stock, Northern stated that the transaction, through not improving the liquidity of the MPT, benefits the MPT by providing it with voting shares of a larger, more widely held enterprise. To assure that full value is received by the MPT, independent appraisers have been engaged by the MPT Trustees to determine the fair market value of both MB&B and MMC stock. No commissions for the exchange will be charged to the MPT and all appraisal fees will be paid by MMC. It is further understood that such an exchange, which will result in the MPT acquiring qualifying employer securities, will not result in the participating profit sharing plans exceeding that amount of such securities authorized by the respective plan documents. MMC has represented that the stock exchange will be consummated within sixty (60) days of the date a final grant of the exemption is published in the **Federal Register.**

2. In an effort to correct the prohibited transaction lease involving the Real Estate, the MPT Trustees propose a cash sale of the Real Estate to Mary Jane Misener, a party in interest with respect

V46/110 JE9 81 UMI

to both plans participating in the MPT. The sale price for the Real Estate will be the highest value of the property as individually determined by two qualified independent real estate appraisers. This decision to sell the Real Estate has been based on a statement by Northern. Inasmuch as a cash sale for fair market value will inprove MPT liquidity and provide the trustees with the opportunity to diversify the investments of MPT, it was Northern's opinion that such a sale would be in the interests of the plans participating in the MPT and their participants and beneficiaries. There will be no real estate commission charged to the MPT in connection with the sale transaction.

Scope of Proposed Exemption

1 The applicants seek exemptive relief for all prior transactions which include: (1) the leasing of both the barges and tugboats to the MMC controlled group; (2) the servicing of the barge and tugboat fleet by both MMC and MIC; (3) the purchase of barges from MIC; (4) a guarantee of the debt financing by MMC; (5) the leasing of the Real Estate to both MMC and MIC; and (6) the contributions in kind of improvements to the Real Estate. The applicants are also seeking prospective relief to permit the exchange of the MB&B stock for MMC of equal value and for the sale of the Real Estate to Mary Jane Misener for cash. The Department has determined that, based on the record which has been developed, it is able to propose relief for only those retroactive transactions involving MB&B and both prospective transactions. The Department has decided not to propose an exemption for the transactions involving the leasing of the Real Estate by MPT to both MMC and MIC and the contributions in kind of improvements to the Real Estate to the Misener Plan.

2. In summary, the applicant represents that the statutory criteria contained in section 408(a) of the Act have been satisfied as follows:

a. With respect to the retroactive transactions involving MBB—

(1) The transactions between MB&B and the MMC controlled group commenced several yeares prior to the pasage of the Act and constituted an established practice. These transactions were engaged in subsequent to that date only because counsel had advised the Trustees that transactions of MB&B were not transactions of MPT;

(2) The original and sole commitment of MPT to the MB&B corporate venture was approximately twelve (12) percent of MPT assets in 1970;

(3) The violations were voluntarily disclosed by the MPT Trustees when brought to their attention. Thereupon, the MPT trustees immediately terminated all transactions other than those the termination of which would have had a detrimental impact on the operation of MB&B;

(4) The barge and tugboat leasing activities between MB&B and the MMC controlled group were operated in such a way as to ensure that MB&B rates were competitive with leases of similar equipment by unrelated parties;

(5) Purchases of services and equipment from the MMC controlled group were made only where the Directors were assured that MB&B could not have obtained a more favorable price on the open market from an unrelated party;

(6) MMC offered its corporate guarantee to protect MB&B from loss should the rental income generated through the leasing activities not be sufficient to service certain of its debt financed purchases; and

(7) Based on their experience in and knowledge of the marine construction industry, the MPT Trustees believed that the business relationships with the MCC controlled group were operated in a manner that was protective and in the best interests of the MPT participants.

b. With respect to the prospective exchange of stock—

(1) It will be a one time transaction which will result in the MPT holding qualifying employer securities in accordance with the plan documents of those plans participating in the MPT;

(2) The exchange of stock will be based on the values of the respective corporations as determined by qualified independent appraisals;

(3) All costs of appraisals or other expenses incidental to the transfer will be paid by MMC; and

(4) The Trustees have obtained a statement from an independent fiduciary that such a transaction would be in the interests of the MPT participating plans and their participants and beneficiaries.

c. With respect to the prospective sale of the Real Estate—

(1) It will be a one time transaction for cash;

(2) It will allow the MPT to sell the Real Estate for a profit at a price determined by the higher of two independent appraisals;

(3) The MPT will not be required to pay any real estate commissions incidental to the sale; and

(4) The Trustees have obtained a statement from an independent fiduciary that such a transaction would be in the interests of the MPT participating plans and their participants and beneficiaries.

Notice to Interested Persons

On or before June 19, 1981 notice of the proposed exemption will be provided to all active participants of both the Misener Plan and the Gulf Plan. The notice will be posted prominently on employee bulletin boards at all operating locations. Field personnel will be notified by direct mailings. Such notice shall contain a copy of the notice of pendency as published in the **Federal Register** and inform the interested persons of their right to comment and their right to request a hearing within the period set forth in the notice of pendency.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) The proposed exemption, if granted, will not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code;

(3) Before an exemption may be granted under section 408(a) of the Act and section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan; and

(4) The proposed exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of

whether the transaction is in fact a prohibited transaction.

Written Comments and Hearing Requests

All interested persons are invited to submit written comments or requests for a hearing on the pending exemption to the address above, within the time period set forth above. All comments will be made a part of the record. Comments and requests for a hearing should state the reasons for the writer's interest in the pending exemption. Comments received will be available for public inspection with the application for exemption at the address set forth above.

Proposed Exemption

Based on the facts and representations set forth in the application, the Department is considering granting the requested exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). If the exemption is granted, the restrictions of section 406(a), 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply to the following transactions for the time periods as noted:

1. Retroactive Relief for—

a. The servicing of the MB&B barge and tugboat fleet by MMC and MIC from January 1, 1975 until October 31, 1978; and

b. The purchase by MB&B of barges from MIC between March 20, 1976 and May 23, 1977,

provided the terms and conditions of the above described transactions have at all times been at least as favorable to the plans participating in the MPT as those they could have secured from unrelated third parties.

2. Retroactive and Prospective Relief for—

a. The leasing by MB&B of its barge and tugboat fleet to MMC and related companies from January 1, 1975 until the date of the stock exchange between MBB and MMC, provided that the terms and conditions of the leasing arrangements at all times have and will continue to be at least as favorable to the plans participating in the MPT as those they could have secured from unrelated third parties; and

b. The guarantee by MMC of loans made to MB&B by unrelated lending institutions from February 27, 1976 and continuing beyond the date this exemption grant is published in the **Federal Register** until MMC is released by such lending institutions; and

3. Prospective Relief for—

a. The exchange of all MB&B stock for shares of MMC stock within sixty (60) days after the effective date of the exemption; and

b. The cash sale of the Real Estate to Mary Jane Misener;

provided that the terms and conditions of the sale and exchange are at least as favorable to those plans participating in the MPT as similar transactions with an unrelated third party would be.

The proposed exemption, if granted, will be subject to the express conditions that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to the exemption.

Signed at Washington, D.C., this 4th day of June, 1981.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor.

BILLING CODE 4510-29-M

NUCLEAR REGULATORY COMMISSION

[Byproduct Material License No. 12-03681-01 EA-81-14]

Burnside Steel Foundry Co.; Rescission of Order Imposing Civil Monetary Penalties

I

Burnside Steel Foundry Company, Chicago, Illinois (the "licensee") was the holder of Byproduct Material License No. 12–03681–01 (the "license") issued by the Nuclear Regulatory Commission (the "Commission") which authorized the licensee to perform industrial radiography at 1300 East 92nd Street, Chicago, Illinois, in accordance with the conditions specified therein. The license was originally issued on June 19, 1958 and had been amended periodically since. The license was terminated on May 22, 1981.

II

A routine inspection was conducted of licensed activities under the license on October 1, 1980. The inspection showed the existence of a number of apparent items of noncompliance. This finding resulted in the issuance on February 2, 1981, of a Notice of Violation and Proposed Imposition of Civil Penalties.

III

By letter dated February 19, 1981, the licensee responded to the Notice of Violation and Proposed Imposition of Civil Penalties. In the February 19, 1981 response the licensee denied four of the apparent items of noncompliance, admitted the three remaining items, and stated the three admitted deficiencies had been corrected.

IV

Upon consideration of the answers received in the licensee's February 19, 1981 letter it was determined that the penalties proposed for the items of noncompliance designated in the Notice of Violation should be imposed except for Item 4. Accordingly, on April 1, 1981, an Order Imposing Civil Monetary Penalties in the cumulative amount of Two Thousand One Hundred Fifty Dollars was issued.

By letter dated April 7, 1981, the licensee responded to the Order Imposing Civil Monetary Penalties. In the April 7, 1981 response the licensee stated all radiography operations at Burnside Steel had ceased, the two cobalt-60 sealed sources had been disposed of and that it would request termination of its license. In response to the licensee's request, the Office of Nuclear Material Safety and Safeguards terminated License No. 12–003681–01 on May 22, 1981.

Accordingly, under the circumstances of this case, the Order Imposing Civil Monetary Penalties, dated April 1, 1981, is hereby rescinded.

Effective Date: June 2, 1981, Bethesda, Maryland.

For the Nuclear Regulatory Commission.

Victor Stello, Jr.,

Director, Office of Inspection and Enforcement.

BILLING CODE 7590-01-M

[Docket No. 50-237]

Commonwealth Edison Co.; Issuance of Amendment to Provisional Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 61 to Provisional Operating License No. DPR–19, issued to Commonwealth Edison Company, which amended the license for operation of the Dresden Nuclear Power Station, Unit No. 2, located in Grundy County, Illinois.

The amendment is effective as of the date of issuance.

The amendment authorizes operation of Dresden Unit No. 2 for four weeks with one recirculation loop out of service. The amendment adds 8 license conditions requiring a power level reduction and reduced safety system settings to provide an equivalent level of safety for operation with one recirculation loop out of service.

The application for amendment complies with the standards and requirements of the atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of the amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of the amendment.

For further details with respect to this action, see (1) the application for amendment dated May 24, 1981 as supplemented on May 27, 1981, (2) Amendment No. 61 to Provisional Operating License No. DPR–19 and (3) The Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., and at the Morris Public Library, 604 Liberty Street, Morris, Illinois. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 1st day of June, 1981.

For the Nuclear Regulatory Commission.

Dennis M. Crutchfield,

Chief, Operating Reactors Branch No. 5, Division of Licensing.

BILLING CODE 7590–01–M

[Docket No. 50–335]

Florida Power & Light Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 40 to Facility Operating License No. DPR–67, issued to Florida Power & Light Company (the licensee), which revised the Technical Specifications for operation of the St. Lucie Plant, Unit No. 1 (the facility), located in St. Lucie County, Florida. The amendment is effective as of its date of issuance.

The amendment changes the Technical Specifications to clarify the term "OPERABLE" as it applies to single failure criterion for safety systems and modifies the decay time of spent fuel required for movement of the spent fuel cask, based on correction of a previous analysis error.

The applications for the amendment comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appriaisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the applications for amendment dated June 20 and October 16, 1980, (2) Amendment No. 40 to License No. DPR–67, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Indian River Junior College Library, 3209 Virginia Avenue, Ft. Pierce, Florida. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland this 28th day of May 1981.

For the Nuclear Regulatory Commission.

Robert A Clark,

Chief, Operating Reactors Branch No. 3, Division of Licensing.

BILLING CODE 7590–01–M

[Docket No. STN 50–482 OL]

Kansas Gas & Electric Co., et al. (Wolf Creek Generating Station, Unit 1); Hearing

June 3, 1981.

On December 18, 1980, the Nuclear Regulatory Commission published in the **Federal Register** (45 FR 83360) a notice of an opportunity for a hearing on the application of the Kansas Gas and Electric Co., et al., for an operating license at Wolf Creek Generating Station, Unit 1, in Coffey County, Kansas.

Timely requests for a hearing and intervention have been received from Wanda Christy, Mary Ellen Salava and Kansas for a Sensible Energy (KASE) and contentions submitted by the petitioners have been approved by the Board. The petitions of Francis Blaufuss and the Missouri-Kansas Section of the American Nuclear Society to intervene have been denied. The request of the Missouri Public Service Commission and the Kansas Corporation Commission to participate as an interested State agency are approved.

A hearing will be conducted in this proceeding. At the appropriate time the Board will hold a prehearing conference pursuant to 10 CFR 2.752. The Board is invited to attend any prehearing conference as well as the evidentiary hearing. In accordance with the rules, any person not a party to the proceeding, will be permitted to make a limited appearance statement at any session. Persons desiring to make a limited appearance statement are requested to inform the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

For further details on any matters involved in this proceeding, including Orders of this Board, contact either the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20555, or the Coffey County Courthouse, Burlington, Kansas 66839.

As they become available, the following documents will be placed in the above locations:

The Safety Evaluation Report

The draft and final environmental statements

The report of the Advisory Committee on Reactor Safeguards

The proposed facility operating license

The technical specifications to be attached to the license

Dated at Bethesda, Maryland this 3rd day of June 1981.

For the Atomic Safety and Licensing Board.
James P. Gleason,
Chairman, Administrative Judge.
[FR Doc. 81-17093 Filed 6-8-81; 8:45 am]
BILLING CODE 7590-01-M

[Docket No. 50-289]

Metropolitan Edison Co. Jersey Central Power & Light Co., and Pennsylvania Electric Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 67 to Facility Operating License No. DPR-50, issued to Metropolitan Edison Company, Jersey Central Power and Light Company, and Pennsylvania Electric Company (the licensees), which revised Technical Specifications for operation of the Three Mile Island Nuclear Station, Unit No. 1 (the facility) located in Dauphin County, Pennsylvania. The amendment is effective as of its date of issuance.

The amendment revises the Technical Specifications for the facility to permit hot functional testing without requiring carbon analysis of the carbon filters for the control building emergency ventilation system and the reactor building purge exhaust system. This amendment is applicable only during the hot functional testing period which is part of the restart program and the carbon filters will be analyzed and replaced prior to reactor startup following any unusual activities (i.e., major construction or painting) which could degrade the filters.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated April 24, 1981, (2) Amendment No. 67 to License No. DPR-50, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555, and at the Government Publications Section, State Library of Pennsylvania, Education Building, Commonwealth and Walnut Streets, Harrisburg, Pennsylvania 17126. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 1st day of June 1981.

For the Nuclear Regulatory Commission.
John F. Stolz,
Chief, Operating Reactors Branch No. 4, Division of Licensing.
[FR Doc. 81-17094 Filed 6-8-81; 8:45 am]
BILLING CODE 7590-01-M

[Docket No. 50-220]

Niagara Mohawk Power Corp.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 45 to Facility Operating License No. DPR-63 to Niagara Mohawk Power Corporation (the licensee) which revised the Technical Specifications for operation of the Nine Mile Point Nuclear Station, Unit No. 1 (the facility) located in Oswego County, New York. The amendment is effective as of its date of issuance.

The amendment revises the Technical Specifications to approve the instrumentation scale changes necessary to provide a common reactor reference level.

The application for the amendment coplies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission rules and regulations in 10 CFR Chapter I which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated August 5, 1980, (2) Amendment No. 45 to License No. DPR-63, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Penfield Library, State University College at Oswego, Oswego, New York 13126. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland this 1st day of June 1981.

For the Nuclear Regulatory Commission.

BILLING CODE 7590-01-M

[Docket No. 50-395]

South Carolina Electric & Gas Co.; Availability of Final Environmental Statement for the Virgil C. Summer Nuclear Station, Unit No. 1

Pursuant to the National Environmental Policy Act of 1969 and the United States Nuclear Regulatory Commission's regulations in 10 CFR Part 51, notice is hereby given that the Final Environmental Statement prepared by the Commission's Office of Nuclear Reactor Regulation, related to the proposed operation of the Virgil C. Summer Nuclear Station, Unit No. 1, located in Fairfield County, South Carolina, is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C., and in the Richland County Public Library, 1400 Sumter Street, Columbia, South Carolina 29201. The Final Environmental Statement is also being made available at the State Clearinghouse, Office of the State Auditor, P.O. Box 11333, Columbia, South Carolina 29211, and at the Central Midlands Regional Planning Council, 800 Dutch Square Boulevard, Columbia, South Carolina 29210.

The notice of availability of the Draft Environmental Statement for the Virgil C. Summer Nuclear Station, Unit 1 and requests for comments from interested persons was published in the **Federal Register** on July 9, 1979 (44 FR 40130). A notice of availability of a Supplement to the Draft Environmental Statement and request for comments was published in the **Federal Register** on November 14, 1980 (45 FR 75399). The comments received from Federal, State, and local

V 46 / 110 / J E 9 8 1 UMI

agencies, and interested members of the public have been included as appendices in the Final Environmental Statement.

Copies of the Final Environmental Statement (Document No. NUREG–0719) may be purchased, at current rates, from the National Technical Information Service, Department of Commerce, 5285 Port Royal Road, Springfield, Virginia 22161, and from the Sales Office, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

Dated at Bethesda, Maryland, this 1st day of June, 1981.

For the Nuclear Regulatory Commission.

B. J. Youngblood,

Chief, Licensing Branch No. 1, Division of Licensing.

BILLING CODE 7590-01-M

[License Nos. DPR-33, DPR-52, DPR-68; EA 81-30]

Tennessee Valley Authority (Browns Ferry Plant); Order Imposing Civil Monetary Penalties

I

Tennessee Valley Authority, 500A Chestnut Street Tower II, Chattanooga, TN 37401, (the "licensee") is the holder of License Nos. DPR–33, DPR–52 and DPR–68 (the "licenses") issued by the Nuclear Regulatory Commission (the "Commission"). License Nos. DPR–33, DPR–52 and DPR–68 authorize operation of the Browns Ferry Nuclear Plant in Limestone County, Alabama, under certain specified conditions and are due to expire on May 10, 2007, May 10, 2007, and July 31, 2008, respectively.

II

An inspection of the licensee's activities under the license was conducted on January 6–9 and 20–23, 1981, at the Browns Ferry Nuclear Plant in Limestone County, Alabama. As a result of this inspection, it appears that the licensee has not conducted its activities in full compliance with conditions of its licenses and with the requirements of NRC regulations. A written Notice of Violation and Proposed Imposition of Civil Penalities was served upon the licensee by letter dated March 20, 1981. The Notice stated the nature of the violations, the provisions of Nuclear Regulatory Commission regulations and license conditions which the licensee had violated, and the amount of civil penalties proposed for each violation. An answer dated April 3, 1981, to the Notice of Violation and Proposed Imposition of Civil Penalties was received from the licensee.

III

Upon consideration of the answers received and the statements of fact, explanation, and argument for mitigation of the proposed civil penalties, as set forth in the Appendix to this Order, the Director of the Office of Inspection and Enforcement determined that the penalties proposed for the violations designated in the Notice of Violation and Proposed Imposition of Civil Penalties should be imposed, except for Item C. Item C and its proposed civil penalty of $5,000 have been withdrawn.

IV

In view of the foregoing and pursuant to Section 234 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2282, Pub. L. 96–295), and 10 CFR 2.205, it is hereby ordered that: The licensee pay civil penalties in the total amount of Forty-Five Thousand Dollars ($45,000) within thirty days of the date of this Order, by check, draft, or money order, payable to the Treasurer of the United States and mailed to the Director of the office of Inspection and Enforcement.

V

The licensee may, within thirty days of the date of this Order, request a hearing. A request for a hearing shall be addressed to the Director, Office of Inspection and Enforcement, U.S.N.R.C., Washington, D.C. 20555. A copy of the hearing request shall also be sent to the Executive Legal Director, U.S.N.R.C., Washington, D.C. 20555. If a hearing is requested, the Commission will issue an Order designating the time and place of hearing. Upon failure of the licensee to request a hearing within thirty days of the date of this Order, the provisions of this Order shall be effective without further proeedings and, if payment has not been made by that time, the matter may be referred to the Attorney General for collection.

VI

In the event the licensee requests a hearing as provided above, the issues to be considered at such hearing shall be:

(a) whether the licensee violated NRC regulations and license conditions as set forth in the Notice of Violation and Proposed Imposition of Civil Penalties, as modified in the Appendix to this Order; and,

(b) whether, on the basis of such violations, this Order should be sustained.

Dated at Bethesda, Maryland this 3rd day of June 1981.

For the Nuclear Regulatory Commission.

Victor Stello, Jr.,

Director, Office of Inspection and Enforcement.

Appendix—Evaluation and Conculsion

Each violation and associated civil penalty identified in the Notice of Violation and Proposed Imposition of Civil Penalties dated March 20, 1981, is restated and the Office of Inspection and Enforcement's evaluation and conclusion regarding the licensee's response to each item is presented. With the exception of items C and G the licensee admits the violations. The licensee asks, however, that the penalties for the admitted violations be mitigated by remission of the 25% increase over the base value civil penalty shown in Table 1 of the Interim Enforcement Policy. An evaluation of the licensee's arguments in support of mitigation is set forth at the end of this Appendix.

Statement of Noncompliance

A. Facility Operating License paragraph 2.D. (1)(b) for Units 1 and 2 and paragraph 2.E(2)(b) for Unit 3 require the licensee to install automatic pre-action sprinkler systems in all areas of the plant required for safe shutdown by the end of the first refueling outage of any of the plant units after August 20, 1976. Unit 1 completed the first refueling outage on January 15, 1978. Areas requiring automatic pre-action sprinkler systems were identified in Part X, Section A of TVA's document "Browns Ferry Nuclear Plant Design Changes for the Recovery From the Fire of March 22, 1975", which included the electrical cable area for the RHR service water pumps at the in take pumping structure.

Contrary to the above, an automatic pre-action sprinkler system has not been installed in the intake pumping station.

This is a Severity Level III Violation (Supplement I.C.2).

Civil Penalty—$21,000.

Evaluation of Licensee Response

The licensee admits the violation. The licensee explains the failure to provide an automatic sprinkler system as an oversight. Once this oversight was detected, a continuous fire watch was established in the intake pumping station and was maintained until the sprinkler system was installed. The licensee now states that the sprinkler system is installed and tested.

Conclusion

The item as stated is a violation. The information provided by the licensee

does not provide a basis for remission or mitigation of the proposed penalty.

Statement of Noncompliance

B. Facility Operating License Paragraphs 2.D(1)(e) for Units 1 and 2 and 2.E(2)(e) for Unit 3 require fire protection features of the emergency battery room complex to be changed to do one of the following: (1) provide a total fire rated barrier enclosure of the facility battery room complex that exceeds the fire load contained in the room; (2) reduce the fire load to be within the fire barrier capability of 1½ hours; or (3) provide a remote manual actuated sprinkler system in each room and provide the 1½ hours fire barrier separation. This change was required to be completed prior to the end of the first refueling outage. Unit 1 completed the first refueling outage on January 15, 1978.

Contrary to the above, the fire protection features provided for the battery rooms do not meet one of the three required modifications. TVA selected modification item 3 and provided a sprinkler system for each emergency battery room; however, a 1½ hour fire barrier was not provided. Ventilation ducts penetrate each battery room and are not equipped with fire dampers at each penetration. This voids the fire resistant rating of each enclosure.

This is a Severity Level III Violation (Supplement I.C.2).

Civil Penalty—$8,000.

Evaluation of Licensee Response

The licensee admits the violation, but states that only the ventilation ducts which penetrate the battery rooms for Units 2 and 3 are not equipped with fire dampers. The fire barrier separation philosophy applied by the licensee in the design of the plant was to prevent a single fire from causing the loss of more than one battery room complex. Since battery rooms 2 and 3 are separated by a distance of approximately 193 feet, the licensee states that a single fire probably would not cause the loss of both battery rooms.

NRC guidelines and general industry practice encourage utilization of fire barriers to protect safety related components from a fire involving either the redundant component or other areas of the plant. The NFPA criteria for ventilation system (NFPA–90A, Air Conditioning Systems and NFPA–91, Blower and Exhaust Systems) require ducts passing through fire barriers to be equipped with fire dampers of a fire resistant rating equivalent to the barrier. The licensee's present battery rooms do not meet these criteria. The licensee is required to have battery rooms with 1½ hour-rated fire barriers. Physical separation of battery rooms does not relieve the licensee of this requirement.

Conclusion

The item as stated is a violation. The information provided by the licensee does not provide a basis for remission or mitigation of the proposed penalty.

Statement of Noncompliance

C. Facility Operating License paragraphs 2.D(1)(c) and 2.D(1)(d) for Units 1 and 2 and paragraphs 2.E(2)(c) and 2.E(20)(d) for Unit 3 require a manual dry pipe sprinkler system for the cable spreading rooms and an automatic actuated carbon dioxide system for the cable spreading rooms.

Contrary to the above, the cable spreading rooms' dry pipe sprinkler systems are automatic operation and the carbon dioxide systems are manual in operation. A license change to describe the current operation of the fire suppression systems for the cable spreading rooms has not been obtained.

This is a Severity Level III Violation (Supplement I.C.2).

Civil Penalty—$5,000.

Evaluation of Licensee Response

The licensee does not agree that this represents a violation. The licensee changed the method of actuation for the cable spreading rooms fire suppression systems based on recommendations from the NRC. The NRC was advised by letter dated April 20, 1978, that these changes were to be completed by April 30, 1978. The licensee considers that the NRC was given sufficient notification to amend the license.

While only the NRC can modify the conditions of a license, the licensee bears the responsibility of compliance with existing license conditions and the responsibility to seek amendments to its license when other conditions may be preferable to existing requirements. The provision in question was a specific condition of the Browns Ferry licenses, and the licensee was not authorized, therefore, to change the arrangement of the fire suppression systems prior to obtaining a license amendment.

The licensee has now sought an amendment to its license. Under the circumstances of this matter, the violation and the associated civil penalty have been withdrawn.

Conclusion

The violation has been withdrawn.

Statement of Noncompliance

D. Technical Specification 3.11.B requires that a continuous fire watch be established in the cable spreading rooms and a patrolling fire watch be established to make hourly checks of other (CO_2) protected locations whenever the CO_2 fire protection system is lost.

Contrary to the above, the fire watches for the cable spreading rooms were conducted intermittently and the patrolling fire watch did not enter the auxiliary instrument rooms for hourly checks for all three units when the CO_2 system was out of service on October 5, 1980 between 7:12 p.m. and 9:00 p.m.

This is a Severity Level III Violation (Supplement I.C.2). A similar item was identified in Inspection Report 50–259/80–34.

Civil Penalty—$5,000.

Evaluation of Licensee Response

The licensee admits the violation, but states that the violation occurred on October 15, 1980, rather than on October 5, 1980, as stated in the Notice. The licensee posted fire watches in the area lacking carbon dioxide protection, but failed to instruct the watches to enter the individual rooms as required by the Technical Specifications.

Conclusion

The item is corrected to indicate that the violation occurred on October 15, 1980. The information provided by the licensee does not provide a basis for remission or mitigation of the proposed penalty.

Statement of Noncompliance

E. Technical Specification Section 4.11.A.1.b requires each high pressure fire protection system pump to be tested for operability once per month.

Contrary to the above, fire pump No. A was not tested for operability during October 1980.

This is a Severity Level III Violation (Supplement I.C.2).

Civil Penalty—$2,000.

Evaluation of Licensee Response

The licensee admits the violation. This violation was due to operations personnel testing the diesel-driven fire pump twice during October 1980 while failing to test fire pump A.

Conclusion

This item as stated is a violation. The information provided by the licensee does not provide a basis for remission or mitigation of the proposed penalty.

Statement of Noncompliance

F. Technical Specification Section 6.3.A.10 requires written procedures covering the fire protection and

prevention program to be prepared, approved and adhered to.

1. TVA Browns Ferry Emergency Plan—Fire, Explosion and Natural Disaster Plan, Section 11 requires each operating crew to participate in a fire drill at least once per three months.

Contrary to the above, each operating crew did not participate in a fire drill at least once per three months as required during 1980. The 1980 drill participation was: Group 1—two; Group 2—one; Group 3—one; Group 4—two; Group 5—one.

This is a Severity Level III Violation (Supplement I.2.C).

Civil Penalty—$3.000.

Evaluation of Licensee Response

The licensee admits the violation. The fire drills were not scheduled as required. However, each crew did participate in some drills during the year and three of the five crews did participate in at least a drill or a fire response during each quarter of 1980.

Conclusion

This item as stated is a violation. The information provided by the licensee does not provide a basis for remission or mitigation of the proposed penalty.

Statement of Noncompliance

F. Technical Specification Section 6.3.A.10 requires written procedures covering the fire protection and prevention program to be prepared, approved, and adhered to.

2. TVA procedure MMI–75, Installation and Repair of Penetration and Fire Stops, Section 6.4.8 limits the maximum number of uncoated (not coated with "Flamemastic" fire resistance material) electrical cables within a cable tray to ten.

Contrary to the above, over ten uncoated electrical cables are installed in cable trays in all three units.

This is a Severity Level III Violation (Supplement I.C.2).

Civil Penalty—$2.000.

Evaluation of Licensee Response

The licensee admits the violation. The licensee attributes this violation to the large number of NRC-required modifications and the tight schedule required for completion of these modifications. The number of cables which should be left uncoated within a cable tray apparently does not exist in either an NRC guideline or an industry standard. The limit of 10 uncoated cables was selected by TVA for administrative control. The cables used at Browns Ferry during the construction of the plant were combustible; however, most of the cables utilized in recent years contain a fire retardant outer jacket.

The licensee is required by the Technical Specifications to develop and implement procedures to which it can adhere. If a limitation to 10-cables per tray is overly restrictive, the procedures should have been revised if such a revision would be consistent with public health and safety. When a licensee promulgates procedures, the NRC expects the licensee to adhere to them.

Conclusion

This item as stated is a violation. The information provided by the licensee does not provide a sufficient basis for remission or mitigation of the proposed penalty.

Statement of Noncompliance

G. Technical Specifications Section 3.11.F states "If it becomes necessary to breach a fire stop, an attendant shall be posted on each side of an open penetration until work is completed and the penetration is resealed." The required attendant was not posted in each of the following examples:

1. The fire door (door No. 632) separating the Unit 1 electrical shutdown board rooms is a fire stop and must be maintained in the closed position.

Contrary to the above, door No. 632 was found open due to an inoperative door closer on January 21, 1981 and the required attendants were not posted.

This is a Severity Level III Violation (Supplement I.C.2).

Civil Penalty—$2,000.

2. The fire stops separating the Unit 3 electrical shutdown board rooms include door Nos. 655 and 656 which are required to be maintained in the closed position.

Contrary to the above, door Nos. 655 and 656 were found blocked and wedged in the open position on January 21, 1981 and the required attendants were not posted.

This is a Severity Level III Violation (Supplement I.C.2).

Civil Penalty—$2.000.

Evaluation of Licensee Response

The licensee denies that this situation is a violation of Technical Specification 3.11.F, but acknowledges that this item was a deviation from industry standards and good operating practice. The licensee notes that it has implemented the requirements of 10 CFR Part 50, App. R, on inspection of fire doors, and requests mitigation on this basis as well.

Devices installed or provided in fire barrier penetrations to restrict the spread of fire and smoke such as fire doors are fire stops; therefore, these fire doors are penetrations which require posting under the conditions of the Technical Specifications. While new regulation may indicate specific requirements for operation and surveillance of fire doors, the licensee is still expected to conform with existing requirements that may cover the same equipment.

Conclusion

The item as stated is a violation. The information provided by the licensee does not provide a basis for remission or mitigation of the proposed penalty.

Evaluation and Conclusion With Respect to the Licensee's Arguments in Support of Mitigation

In accordance with the Interim Enforcement Policy, 45 FR 66754 (Oct. 7, 1980), a base penalty of $40,000 was assessed for the violations set forth in the Notice of Violation and Proposed Imposition of Civil Penalties. This base penalty was increased by 25% to $50,000, because TVA could have reasonably been expected to take effective measures to prevent these violations. In its answer to the Notice, the licensee gives the following basic reasons why the 25% increase is not warranted:

(1) The violations did not represent a significant programmatic breakdown in the licensee's fire protection program;

(2) The violations were isolated occurrences and were not willful and, therefore, do not reflect bad faith on the part of the licensee (see particularly responses to items A, E & F.2);

(3) No significant degradation of fire protection systems occurred as a result of the individual violations (see particularly responses to items B, D, E, F.1, & F.2); and

(4) The licensee took prompt corrective action (see particularly responses to items A, D, & G).

The NRC recognizes that the violations were not willful and were not the result of "bad faith" on the part of the licensee. Had these elements been present, it is likely that penalties at the statutory maximum would have been proposed and the concurrent issuance of orders would have been considered. Although no individual violation defeated the entire fire protection system, this factor was taken into account in our categorization of the entire list of violations at Severity Level III. The violations are still, in our view, significant because they reflect a partial degradation of the fire protection systems or a reduction in the confidence that equipment and personnel will be maintained and function as required.

While the licensee has taken prompt corrective action for the violations, such action is always required and does not serve as a basis for mitigating the penalties proposed here.

As a result of the 1975 fire at Browns Ferry, TVA should have been acutely aware of the importance of assuring that an adequate fire protection program was implemented at its nuclear plants. Even though TVA satisfied many of these requirements, the number of violations identified during the inspection indicate that TVA management did not exercise sufficient control over the fire protection program. TVA could have been reasonably expected to take effective measures to prevent the types of violations that were identified. The 25% increase over the base value civil penalty is appropriate owing to TVA's prior knowledge of the importance of meeting all fire protection requirements. Therefore, mitigation by remission of the 25% increase, as TVA requests, is not warranted.

BILLING CODE 7590-01-M

[Docket Nos. 50-280 and 50-281]

Virgina Electric & Power Co., Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 68 to Facility Operating License No. DPR-32 and Amendment No. 68 to Facility Operating License No. DPR-37 issued to Virginia Electric & Power Company (the licensee), which revised Technical Specifications for operations of the Surry Power Station, Unit Nos. 1 and 2, respectively, (the facilities), located in Surry County, Virginia. The amendments are effective as of the date of issuance.

These amendments revise the Technical Specifications to delete reference to the proposed Appendix J to 10 CFR Part 50 and clarify the requirement for testing the personnel air lock.

The application for the amendment complies with the standards and requirements of the Atomic Energy of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since these amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of these amendments.

For further details with respect to this action, see (1) the application for amendments dated September 22, 1978, as supplemented January 9 and September 24, 1979, (2) Amendment Nos. 68 and 68 to License Nos. DPR-32 and DPR-37, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Swem Library, College of William and Mary, Williamsburg, Virginia 23185. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 19th day of May, 1981.

For the Nuclear Regulatory Commission.

Steven A. Varga,

Chief, Operating Reactor Branch No. 1, Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 50-338]

Virginia Electric & Power Co.; Issuance of Amendment To Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 31 to Facility Operating License No. NPF-4 issued to the Virginia Electric & Power Company (the licensee) for operation of the North Anna Power Station, Unit No. 1 (the facility) located in Louisa County, Virginia.

The amendment is administrative in nature in that it provides revised, retyped and renumbered pages to the license to facilitate ease in identifying current license conditions.

The amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of this amendment.

For further details with respect to this action see (1) Amendment No. 31 to License No. NPF-4 and (2) the Commission's related Safety Evaluation. These items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555 and at the Board of Supervisor's Office, Louisa County Courthouse, Louisa, Virginia 23093 and at the Alderman Library, Manuscripts Department, University of Virginia, Charlottesville, Virginia 22901. A copy of these items may be obtained upon request to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland this 28th day of May 1981.

For the Nuclear Regulatory Commission

Robert A. Clark,

Chief, Operating Reactors Branch No. 3, Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 414A]

Duke Power Co.; Receipt of Additional Antitrust Information; Time for Submission of Views on Antitrust Matters

Duke Power Company, pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, has filed information requested by the Attorney General for Antitrust Review as required by 10 CFR Part 50, Appendix L. This information concerns a proposed additional ownership participant, the Piedmont Municipal Power Agency, for the Catawba Nuclear Station, Unit 2. The current holders of the construction permit are Duke Power Company and North Carolina Municipal Power Agency Number 1.

The information was filed in connection with the application by Duke Power Company for construction permits and operating licenses for two pressurized water reactors. Construction was authorized on August 7, 1975 at the Catawba site located in York County,

South Carolina. Although the Catawba facilities consist of two nuclear power plants, the proposed action affects only Catawba Nuclear Station, Unit 2.

The original application was dated November 10, 1972. The Notice of Receipt of Application for Construction Permits and Facility Licenses and availability of Applicant's Environmental Report; Time for Submission of Views on Antitrust Matters was published in the **Federal Register** on December 7, 1972 (37 FR 26053). Previously, the Notice of Hearing had been published in the **Federal Register** on December 1, 1972 (37 FR 25560).

A copy of the above documents are available for public examination and copying for a fee at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555 and at the York County Library, 325 South Oakland Avenue, Rock Hill, South Carolina.

Any person who wishes to have his views on the antitrust matters with respect to the Piedmont Municipal Power Agency presented to the Attorney General for consideration or who desires additional information regarding the matters covered by this notice, should submit such views or requests for additional information to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Chief, Utility Finance Branch, Office of Nuclear Reactor Regulation, on or before July 21, 1981.

Dated at Bethesda, Md., this 8th day of May 1981.

For the Nuclear Regulatory Commission.

E. Adensam,

Acting Chief, Licensing Branch No. 4, Division of Licensing.

BILLING CODE 7590-01-M

PRESIDENTIAL FEDERALISM ADVISORY COMMITTEE

Open Meeting

June 8, 1981.

The Presidential Federalism Advisory Committee will meet on Tuesday, June 23, 1981, from 9:00 a.m. to 12:00 p.m. at the Departmental Auditorium on Constitution Avenue, between 12th and 14th Streets.

The Committee was established by Executive Order 12303 on April 8, 1981. The Chairman of the Committee is U.S. Senator Paul Laxalt. The Committee is composed of members from among private citizens of the United States, public officials from state and local governments, and members of the Legislative and Executive branches of the federal government who shall be appointed by the President. The members serve at the pleasure of the President.

The Committee shall advise the President with respect to the objectives and conduct of the overall federalism policy of the United States.

The Committee will discuss issue clusters in the following areas: (1) federalism and the return of authority and responsibility to state and local governments; (2) land and water issues; (3) housing and urban development; (4) education policy; (5) transportation; and (6) health and human services.

The meeting will be open to public observation. Written comments or statements may be submitted at any time before or after the meeting and should be related to the substantive matters identified above. Approximately 100 seats will be available for the public on a first come, first served basis. The committee meeting will be recorded and the transcript may be examined in the Committee's Office at the Old Executive Office Building, Room 122, 17th and Pennsylvania Avenue, NW., Washington, D.C.

Because of the need to obtain input on the President's federalism initiatives at the earliest possible date, less than 15 days' notice is being given.

For further information, contact Rick Neal at (202) 456-7150.

Richard S. Williamson,

Assistant to the President.

BILLING CODE 3195-01-M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-17835; File No. SR-NESDTC-81-1]

New England Securities Depository Trust Co.; Temporary Increase on All New England Securities Depository Trust Company Billings to Participants

Comments requested on or before July 1, 1981. Pursuant to Section 19(b) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on May 11, 1981 the New England Securities Depository Trust Company filed with the Securities and Exchange Commission the proposed change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Text of Proposed Rule Change

The New England Securities Depository Trust Company will impose a temporary 15% increase on all billings to participants effective for the period May 1, 1981, through September 30, 1981.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of and Statutory Basis for, the Proposed Rule Change

(a) The purpose of the proposed temporary 15 percent increase on all New England Securities Depository Trust Company billings to participants was necessitated by increased costs in communications, data processing, leasehold, and personnel. The 15 percent, while temporary in nature, would assist the Depository to cover expenses and would allow the time required to complete a detailed study of all income and expenses prior to the next fiscal year beginning October 1, 1981.

(b) The proposed rule is consistent with the requirements of the Securities Exchange Act of 1934 and the rules and regulations thereunder applying to the New England Securities Depository Trust Company because it represents an equitable allocation of reasonable fees and other charges among its participants. It would also insure prompt and accurate clearance and settlement of security transactions and fosters cooperation and coordination among others engaged in the clearance and settlement of security transactions by making the Depository more competitive.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The proposed temporary increase was adopted to reflect increased inflation and operational costs while ensuring an efficient system for the settlement of trades and the safekeeping of assets. Since the above-stated economic factors are not unique to the New England Securities Depository Trust Company, it

is believed that no burdens have been placed on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others.

Comments have neither been solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and the Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3) of the Securities Exchange Act of 1934 and subparagraph (e) of Securities Exchange Act Rule 19b–4. At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors or otherwise in furtherance of the purpose of the Securities Exchange Act of 1934.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed change that are filed with the Commission, and all written communications relating to the proposed change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 1100 L Street NW., Washington, D.C.

Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted on or before July 1, 1981.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: June 3, 1981.

George A. Fitzsimmons,

Secretary.

[FR Doc. 81–17110 Filed 6–8–81: 8:45 am]

BILLING CODE 8010–01–M

[Release No. 17834 File No. SIPC–81–1]

Securities Investor Protection Corp., Filing of Proposed Rule Change and Order Approving Proposed Rule Change

June 3, 1981.

Pursuant to Section 3(e)(2) of the Securities Investor Protection Act of 1970, as amended, 15 U.S.C. 78(ccc)(e)(2) (the "SIPA Act"), notice is hereby given that on May 7, 1981, the Securities Investor Protection Corporation, 900 17th Street, NW, Washington D.C. 20006, filed with the Commission copies of a proposed rule change making technical conforming changes to SIPC Rules 100(a) and 300(a) [17 CFR 300.100(a) and 300(a)] which are necessitated by the Bankruptcy Reform Act of 1978.

Interested persons are invited to submit written data, views and arguments concerning the submission on or before July 1, 1981. Persons desiring to make written comments should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, 500 North Capitol Street, Washington, DC 20549. Reference should be made to File No. SIPC–81–1.

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change which are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those which may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying at the Commission's Public Reference Room, 1100 L Street, NW, Washington, D.C.

The Commission finds that the proposed rule change is in the public interest and is consistent with the purposes of the SIPA Act. The Commission further finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice of filing thereof. The proposed rule change is technical in nature and is necessitated by operation of law through the enactment of the Bankruptcy Reform Act of 1978.

It is therefore ordered, pursuant to Section 3(e)(2) of the SIPA Act, that the proposed rule change referenced above be, and it hereby is, approved.

By the Commission.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010–01–M

[Release No. 34-17834; File No. SR-CBOE-81-4]

Chicago Board Options Exchange, Inc.; Securities Accounts and Orders of Marketmakers

Comments Requested on or Before July 1, 1981.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on May 22, 1981, the Chicago Board Options Exchange, Incorporated filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Additions are italicized; deletions are in brackets.

Securities Accounts and Orders of Marketmakers

Rule 8.9 (a) through (c) No change.

. . . Interpretations and Policies:

.01 [.02 In order to establish a joint account which acts in the capacity of a Market-Maker, there may not be more than two participants of which at least one shall be an individual who is registered as a Market-Maker. If the other participant in such joint account is to be a member organization, it shall either (a) have a registered Market-Maker register his membership for the organization, (b) have a nominee of the organization who is a registered Market-Maker or (c) be a clearing member which clears and carries such joint account. All references herein to individuals registered as Market-Makers shall mean those having appointments under Rule 8.7(b). Member organizations meeting the requirements of (a) and (b) above who participate in joint accounts shall be deemed to be registered as Market-Makers for the purpose of transactions in such accounts.] *A participant in a joint account must be either (i) a Market-Maker having an appointment under Rule 8.7(b) or (ii) a clearing member which carries the joint account. A Market-Maker may participate in a joint account on behalf of a member organization with which he is associated. Market-Makers participating in a joint account may be associated with the same member organization.*

.02 [.03] Each particpant in a joint account must [:]

[(a)] file with the [Department of Compliance] *Membership Department* and thereafter keep current a complete application on such form as is prescribed by the Exchange [;].

[(b) be registered in accordance with the provisions of Section 15(a)(i) of the Securities Exchange Act of 1934.]

Upon determination by the [Compliance Department] *Membership Department* not to disapprove a joint account, notice will be promply mailed to all Exchange members.

.03 [.04 The following formulae will be used in apportioning contract volume among participants in a joint account under Exchange Rules:

(a)] For purposes of evaluating Market-Maker performance in accordance with Rule 8.7, [all contract volume from] *trading activity in* the joint account shall be [assigned] *credited* to *the* participant [s based upon their profit and loss participation in the joint account as shown on the joint account application. Notwithstanding this, however, where only one participant is an individual Market-Maker, he shall be assigned all of the volume in the joint account] *initiating each transaction.*

[(b) For purposes of determining continued eligibility under Rule 8.3.02(1) for Supplemental Appointment only, if ■ participant in the joint account also acts as a Floor Broker, contracts in any Market-Maker joint account in which said Floor Broker participates shall be assigned to him in accordance with the formula set forth in (a) above and shall be aggregated with contracts executed as a Market-Maker which are cleared through any individual trading account of such Floor Broker. If the number of contracts executed as a Floor Broker on a quarterly basis do not exceed the total number of contracts executed as a Market-Maker, such participant will be required to obtain a Prinicipal Appointment.]

[(c) For purposes of assessing positions under Rule 4.11 and exercises under Rule 4.12, the following presumptions shall apply (lacking any other information regarding "inconcert" activity):

(i) A Market-Maker's position and exercises in his own trading account shall be aggregated with all of the positions in or exercises for any joint account in which he participates to determine whether or not the Market-Maker is in violation of Rule 4.11 and 4.12.

(ii) Positions in and exercises for a joint account shall be aggregated with the positions and exercises of each participant in the joint account to determine whether or not the joint account is in violation of Rule 4.11.

(iii) If one of the participants is a member organization, positions and exercises of the nominees of (and those registered for) the member organization (who are not also registered broker/dealers trading for their own account) must be aggregated in (i) and (ii) above.

.04 [.01] Each participant in [such] ■ joint account *and each member organization with which a participant is associated* shall be jointly and severally responsible for assuring that the account complies with the provisions of the Exchange Constitution, Rules and Interpretations thereof.

.05 To compute the positions or exercises attributable to each participant in a joint account for purposes of determining compliance with Rules 4.11 and 4.12, positions or exercises in the joint account shall be aggregated with all positions or exercises in options covering the same underlying security which any participant or any member organization associated with a participant holds or controls or is obligated in respect of.

[.05 Participants in the joint account may execute transactions with one another but shall not execute transactions with the joint account either as Floor Broker or Market-Maker.]

.06 No participant in a joint account shall effect a transaction, either for his own account or for the joint account, with another member acting on behalf of the joint account.

.07 [.06] No change.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below and is set forth in sections (A), (B), and (C) below.

(A) Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

The proposed change to Rule 8.9 will allow an organization with which more than one market-maker is associated to form a single account in which all

transactions of the associated market-makers will be cleared and, for purposes of position limits, will be aggregated and netted. The proposed change also will allow multiple independent market-makers and/or market-makers associated with different organizations to form such joint market-making accounts. The proposed change, by permitting the establishment of group accounts among more than two market-makers, is designed to permit more effective utilization of capital by Exchange members engaged in market-making functions and thereby to enhance the quality of Exchange markets.

The requirement that joint-account participants be registered with the SEC as broker/dealers is eliminated from Rule 8.9. Under the present Rule participants can include member organizations; under the proposed Rule the only type of member organization that can participate in a joint account is the clearing member that carries the joint account. Nominees of member organizations who are market-makers with an appointment under Rule 8.7(b) can participate in a joint account under the proposed Rule. If they do not trade for their own account, nominees of member organizations do not have to be registered as broker/dealers. Therefore, the registration requirement has been eliminated from Rule 8.9. It should be noted that broker/dealer registration is required by Rules 3.2 and 3.3 for individuals and organizations owning a membership or memberships.

For purposes of surveillance and market-maker evaluation, the ability to identify each joint-account participant effecting a transaction will be maintained. Because the quality of Exchange markets will be enhanced without any diminution of surveillance capabilities, the proposed change is consistent with section 6(b)(5) of the Securities Exchange Act of 1934, which is the statutory basis for this proposed rule change.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe the proposed rule change will impose any burden on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

No comments on the proposed rule change were solicited or were received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) by order approve such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying the Commission's Public Reference Section, 1100 L Street, NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted within 21 days after the date of this publication.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

DEPARTMENT OF STATE

[Public Notice 760]

Participation of Private-Sector Representatives on U.S. Delegations

As announced in Public Notice No. 623 (43 FR 37783), August 24, 1978, the Department is submitting its May 1981 list of U.S. accredited Delegations which included private-sector representatives.

Publication of this list is required by Article IV(c)(4) of the guidelines published in the **Federal Register** on August 24, 1978.

Dated: June 2, 1981.

John W. Kimball,

Director, Office of International Conferences.

United States Delegation to the International Natural Rubber Council Commodities, Kuala Lumpur, May 25–29, 1981

Representative

James C. Todd, Chief, Industrial and Strategic Materials, Bureau of Economic and Business Affairs, Department of State

Alternate Representative

Fred W. Siesseger, Director, Resources Policy Division, Department of Commerce

Adviser

James McGlinchey, American Embassy, Kuala Lumpur

Private Sector Advisers

Howard G. Chapel, Managing Director, Goodyear Orient Private, Ltd., Republic of Singapore

Charles T. Smith, Managing Director, Firestone Singapore Private, Ltd., Republic of Singapore

United States Delegation to the International Rubber Council, Interim Committee Commodities, Kuala Lumpur, May 19–22, 1981

Representative

Fred W. Siesseger, Director, Resources Policy Division, Department of Commerce

Alternate Representative

James C. Todd, Chief, Industrial and Strategic Materials, Bureau of Economic and Business Affairs, Department of State

Adviser

James McGlinchey, American Embassy, Kuala Lumpur

Private Sector advisers

Howard G. Chapel, Managing Director, Goodyear Orient Private, Ltd., Republic of Singapore

Charles T. Smith, Managing Director, Firestone Singapore Private, Ltd., Republic of Singapore

United States Delegation to the Steering Committee on Uranium Resources and Working Party on Uranium Resources, Nuclear Energy Agency/International Atomic Energy Agency (NEA/IAEA) Organization for Economic Cooperation and Development (OECD), Paris, May 19–21, 1981

Representative

John Patterson, Program Manager, Uranium Resources, Department of Energy

Adviser

Eleanor Steinberg, Bureau of Oceans and International Environment and Scientific Affairs, Department of State

Private Sector Adviser

Robert Nininger, Rockvile, Maryland

United States Delegation to the 26th Session, Subcommittee on Subdivision, Stability and Load Lines, Intergovernmental Maritime Consultative Organization (IMCO), London, May 18–22, 1981

Representative

William A. Cleary, Jr., Chief, Ship Characteristics Branch, Office of Merchant Marine Safety, United States Coast Guard, Department of Transportation

Alternate Representative

Kevin A. Feeney, LCDR, USCG, Ship Characteristics Branch, Office of Merchant Marine Safety, United States Coast Guard, Department of Transportation

Advisers

Ronald E. Angermuller, Director of Admeasurement, Panama Canal Commission
Joseph T. Lewis, Chief, Admeasurement Branch, Office of Merchant Marine Safety, United States Coast Guard, Department of Transportation

Private Sector Advisers

Edward H. Middleton, Technical Advisor, Maritime Institute for Research and Industrial Development, Washington, D.C.
Thomas F. Robinson, General Manager, Technical Services; Bethlehem Steel Corporation, Sparrows Point, Maryland

United States Delegation to the International Sugar Organization, Council Commodities, London, May 18–22, 1981

Representative

Rollinde Prager, Office of the U.S. Trade Representative, Executive Office of the President

Alternate Representative

Paul Pilkauskas, American Embassy, London

Advisers

John Barcas, Tropical Products Division, Bureau of Economic and Business Affairs, Department of State
Frank Padavano, Horticultural and Tropical Products Division, Department of Agriculture

Private Sector Advisers

Richard Blake, Executive Vice President, American Sugarbeet Growers Association, Washington, D.C.; May 18–19
David Carter, President, U.S. Beet Sugar Association, Washington, D.C.; May 28–19
Horace Godfrey, Vice President, Florida Sugar Cane League, Washington, D.C.; May 20–22
Harold Jenkins, Director, Raw Materials Division, Nabisco, Inc., East Hanover, New Jersey; May 18–19
Nicholas Kominus, President, U.S. Cane Sugar Refiners Association, Washington, D.C.; May 20–22
Eiler Ravnholt, Vice President, Hawaiian Sugar Planters Association, Washington, D.C.; May 20–22
Don Wallace, President, Don Wallace Associates, Washington, D.C.; May 18–19

United States Delegation to the 23rd Session, Subcommittee on Radio Communications of the Intergovernmental Maritime Consultative Organization (IMCO), London, May 11–15, 1981

Representative

Leonard V. Dorrian, Commander, USCG, Chief, Telecommunications Management Division, United States Coast Guard, Department of Transportation

Alternate Representative

Richard F. Carlson, Lt. Commander, USCG, Chief, Systems Development and Technology Branch, United States Coast Guard, Department of Transportation

Advisers

Gordon F. Hempton, Captain, USCG (Ret), Special Assistant, Private Radio Bureau, Federal Communications Commission
Earl J. Holliman, Chief, Frequency Management Staff, United States Coast Guard, Department of Transportation
Robert C. McIntyre, Engineer, Federal Communications Commission
Lawrence M. Palmer, International Staff, Federal Communications Commission
Thomas Walsh, National Telecommunications and Information Administration, Department of Commerce

Private Sector Advisers

M. Harvey Strichartz, American Radio Association, AFL–CIO, New York, New York
Kenneth P. Wenthen, Maritime Services Committee, New York, New York

United States Delegation to the Study Group I of the International Telecommunications Union (ITU/CCITT), Geneva, May 11–13, 1981

Representative

Earl S. Barbely, Federal Communications Commission, Washington, D.C.

Private Sector Advisers

Howard Briley, Communications Satellite Corporation, Washington, D.C.
John Costello, Graphnet, Inc., Englewood, New Jersey
Vincent LaScala, ITT World Communications, New York, New York
George McGuire, Western Union Telegraph Company, New York, New York
Joseph Mendres, Western Union International, Inc., New York, New York
Philip Onstad, Control Data Corporation, Greenwich, Connecticut
Dennis O'Shea, IBM Corporation, Armonk, New York
Gary Rosch, Attorney, Washington, D.C.
Robert Saunders, American Telephone and Telegraph Company, Basking Ridge, New Jersey

United States Delegation to the Steel Committee, Working Party Organization for Economic Cooperation and Development (OECD), Paris, May 11–12, 1981

Representative

John D. Darroch, Director, Office of Basic Industries, Department of Commerce

Advisers

Diane Cook, Office of International Trade, Department of Treasury
Dennis Finnerty, Assistant Chief, Special Trade Activities Division, Bureau of Economic and Business Affairs, Department of State
Joseph Papovich, Office of Foreign Economic Policy, Department of Labor

Private Sector Advisers

Frank Fenton, Vice President, American Iron and Steel Institute, Washington, D.C.
Peter Mulloney, Vice President, United States Steel Company, Pittsburgh, Pennsylvania
Jack Sheehan, Director, Legislative Department, United Steelworkers of America, Washington, D.C.
David Sobel, President, Interstate Steel Company, Des Plaines, Illinois

United States Delegation to the Meeting of the Facilitation Committee of the World Tourism Organization (WTO), Madrid, May 6–9, 1981

Representative

Jean O'Brien, Senior Policy Analyst, United States Travel Service, Department of Commerce

Private Sector Adviser

James Gorson, Facilitation Manager, Air Transport Association of America, Washington, D.C.

United States Delegation to the Seventh Session of the Administrative and Legal Committee of the Union for the Protection of New Plant Varieties (UPOV), Geneva, May 6–8, 1981

Representative

Stanley D. Schlosser, Office of Legislation and International Affairs, U.S. Patent and Trademark Office, Department of Commerce

Private Sector Adviser

Sidney B. Williams, Patent Attorney, Upjohn Company, Kalamazoo, Michigan

United States Delegation to the Working Group on Privileges and Immunities Protocol of the International Maritime Satellite Organization (INMARSAT), London, May 5–19, 1981

Representative

Horace F. Shamwell, Jr., Deputy Assistant Legal Adviser for Management, Office of the Legal Adviser, Department of State

Adviser

Samuel C. Keiter, U.S. Embassy, London

Private Sector Adviser

Robert D. Bourne, Communications Satellite Corporation, Washington, D.C.

United States Delegation to the Committee on International Investment and Multinational Enterprises (CIME), Working Group on Accounting Standards, Organization for Economic Cooperation and Development (OECD), Paris, May 5–7, 1981

Representative

Clarence Staubs, Office of the Chief Accountant, Securities and Exchange Commission

Private Sector Adviser

Richard D. Fitzgerald, Vice Chairman, Price Waterhouse International, New York, New York

United States Delegation to the Committee on the Challenges of Modern Society (CCMS) of the North Atlantic Treaty Organization, Brussels, May 5–6, 1981

Representative

The Honorable Darrell M. Trent, Deputy Secretary, Department of Transportation

Advisers

Harry C. Blaney III, Economic Adviser, U.S. Mission NATO
Margaret E. Brown, U.S. Coordinator for NATO/CCMS Activities, Environmental Protection Agency
David Fagan, Office of Solid Waste, Environmental Protection Agency
William R. Gemma, Associate Administrator for International Health Affairs, Department of Health and Human Services
F. Allen Harris, Director, Office of International Activities, Environmental Protection Agency
Terry Marie Levinson, Office of Advanced Conservation Technologies, Department of Energy
William A. Moffitt, CCMS Officer, Bureau of European Affairs, Department of State
John Schafer, Science and Education Administration, Department of Agriculture
Richard F. Walsh, Director, Office of Economics and Public Investment and Assistant to the Deputy Secretary, Department of Transportation
Patricia A. Woodring, CCMS Officer, U.S. Mission NATO

Private Sector Adviser

George Ball, Contract Manager, Monsanto Research Corporation, Dayton, Ohio

United States Delegation to the Sixth Preparatory Meeting on Cotton, United Nations Conference on Trade and Development (UNCTAD), Geneva, April 27–May 1, 1981

Representative

Frederick L. McEldowney, Office of the United States Trade Representative, Geneva

Alternate Representative

John Barcas, Tropical Products Division, Bureau of Economic and Business Affairs, Department of State

Adviser

Gordon H. Lloyd, Tobacco and Cotton Division, Foreign Agricultural Service, Department of Agriculture

Private Sector Advisers

Carl C. Campbell, National Cotton Council of America, Washington D.C.
Peter E. Hirschfeld, First Vice President, American Cotton Shippers Association, Dallas, Texas
Carl J. Maneri, Chairman, Board of Governors, New York Cotton Exchange, New York, New York

United States Delegation to the Meeting of Study Group VII of the International Telecommunications Union (ITU/CCITT), Kyoto, Japan, April 23 to May 1, 1981

Representative

Thijs de Haas, National Telecommunications and Information Administration, Department of Commerce, Boulder, Colorado

Adviser

Eric L. Scace, Institute for Computer Sciences and Technology, National Bureau of Standards, Washington D.C.

Private Sector Advisers

Edmond J. Blauston, ITT World Communications, New York, New York
L. L. Butler, IBM Corporation Armonk, New York
Thomas Chin, Western Union International, New York, New York
Jerrold S. Foley, Burroughs Corporation, Detroit, Michigan
Harold Folts, National Communications System, Arlington, Virginia
Margaret Karp, GTE Telenet, Vienna, Virginia
Claude C. Kleckner, American Telephone and Telegraph Company, Basking Ridge, New Jersey

United States Delegation to the Aerodromes, Air Routes and Ground Aids (ADS) Divisional Meeting, International Civil Aviation Organization (ICAO), Montreal, April 22 to May 15, 1981

Representative

James W. Bushee, Chief, Design and Operations Criteria Division, Office of Airport Standards, Federal Aviation Administration

Alternate Representative

Luigi Iori, Group Leader, Design Standards Group, Office of Airport Standards, Federal Aviation Administration

Advisers

Robert Bates, Group Leader, NAVAIDS, Office of Airport Standards, Federal Aviation Administration
Walter M. Frucht, Civil Engineer, Office of Airport Standards, Federal Aviation Administration
Bertrand Ruggles, Airport Safety Specialist, Office of Airport Standards, Federal Aviation Administration
Leslie Vipond, Operations and Safety Specialist, Office of Airport Standards, Federal Aviation Administration

Private Sector Advisers

Edwin W. Abbott, Manager, Operational Facility Requirements, Air Transport Association, Washington D.C.
Jerry Fitzgerald, Manager, Aeronautical Service Division, John F. Kennedy Airport, Port Authority of New York and New Jersey

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

TIME AND DATE: 9:30 a.m. (eastern time), Wednesday, June 10, 1981.

PLACE: Commission Conference Room, 5240, fifth floor, Columbia Plaza Office Building, 2401 E Street NW, Washington, D.C. 20506.

STATUS: Part will be open to the public and part will be closed to the public.

MATTERS TO BE CONSIDERED: Open:

1. Freedom of Information Act Appeal No. 81-04-FOIA-019-MK, concerning a request for certain documents from a charge file.
2. Request for approval of OIC's Publication, "A Bibliography of Federal Equal Employment Information Materials."
3. A report on Commission Operations by the Executive Director.

Closed to the public:

Litigation Authorization; General Counsel Recommendations.

Note.—Any matter not discussed or concluded may be carried over to a later meeting.

CONTACT PERSON FOR MORE INFORMATION: Treva I. McCall Executive Officer, Executive Secretariat, at (202) 634-6748.

NUCLEAR REGULATORY COMMISSION.

DATE: Week of June 8, 1981 (revised).

PLACE: Commissioners' Conference Room, 1717 H Street, N.W., Washington, D.C.

STATUS: Open/closed.

MATTERS TO BE CONSIDERED: Monday, June 10:

1 p.m.
1. Discussion and Vote on GPU Federal Tort Claim—Draft Decision (approximately 1 hour—closed meeting/ final portion may be open) (continued from affirmation session of June 4)

Tuesday, June 9:

10 a.m.
1. Briefing on McGuire Operating License (approximately 1 hour, public meeting) (as announced)
2. Discussion of McGuire Operating License (closed meeting) (as announced)

2 p.m.
1. Discussion and Vote on Operating License for Sequoyah—2 (public meeting) (continued from June 4)

Wednesday, June 10:

2 p.m.
1. Briefing on Comments on EPA-Proposed Guidance for Occupational Exposures (public meeting) (as announced)

Thursday, June 11:

10 a.m.
1. Discussion and Possible Vote on 10 CFR 60, Disposal of High-Level Wastes in Geologic Repositories: Technical Criteria (public meeting)

2 p.m.
1. Briefing on Pressurized Thermal Shock (approximately 1½ hours, public meeting)
2. Affirmation/Discussion Session (public meeting)

Items to be affirmed and/or discussed:
a. Significant Changes Decision in Summer Antitrust Matter
b. Publication of Guidelines for Mgmt. of Agreement State Radiation Control Programs
c. Reporting of Changes to Quality Assurance Programs
d. Commission Review of ALAB-603, St. Lucie (delayed from June 4)
e. Motion for a Stay of Certain Aspects of Final Rule on Fire Protection for Operating Nuclear Power Plants (delayed from June 4)

ADDITIONAL INFORMATION: Affirmation of Potential Litigation over Possible *In Camera* Hearings in Houston Lighting & Power Co., scheduled for June 4, has been cancelled. Affirmation/Discussion Session scheduled for June 4—Portion closed. Discussion of Revised Licensing Procedures, announced for June 9, has been cancelled.

AUTOMATIC TELEPHONE ANSWERING SERVICE FOR UPDATE: (202) 634-1498. Those planning to attend a meeting should reverify the status on the day of the meeting.

CONTACT PERSON FOR MORE INFORMATION: Gary Gilbert (202) 634-1410.

Part II

Department of Agriculture

Agricultural Marketing Service

Marketing Transactions; Proposed Rulemaking

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 102

Marketing Transactions; Proposed Rulemaking

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rulemaking.

SUMMARY: This action defines by regulation the various storing and marketing transactions which can develop from transaction involving deposited grain in the operation of a licensed grain warehouse and which are subject to the terms and provisions of the United States Warehouse Act. The action further provides for bonding to support certain transactions for deposited grain which warehousemen may have involving the marketing, handling, and shipping of producer-owned grain other than as storage. Also, modest increases in the amount of bond, in the minimum bond requirements, and in minimum net asset requirements for regular storage transactions are specified. Interested persons are invited to submit written comments on the proposed regulations.

DATE: Written comments should be filed not later than August 10, 1981.

ADDRESS: Comments should be filed in triplicate with the Hearing Clerk, U.S. Department of Agriculture, 14th & Independence Avenue, S.W., Washington, D.C. 20250, where they will be available for public inspection during regular business hours.

FOR FURTHER INFORMATION CONTACT: Dr. Orval Kerchner, Chief, Warehouse Development Branch, Warehouse Division, Agricultural Marketing Service, Department of Agriculture, Washington, D.C. 20250 (202–447–3616).

SUPPLEMENTARY INFORMATION: Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that the Agricultural Marketing Service (AMS), pursuant to the authority conferred by section 28 of the U.S. Warehouse Act (7 U.S.C 268, hereinafter the "Warehouse Act"), is amending the warehouse regulations for the storage of grain appearing in Part 102 of Subchapter E of Chapter 1 in Title 7 of the Code of Federal Regulations (7 CFR Part 102).

The U.S. Warehouse Act was passed by Congress in 1916. The Act provides for the licensing of such warehousemen as may apply to the Secretary of Agriculture, and (1) meet departmental standards, (2) agree to abide by the law and the regulations thereunder, and (3) who are, in his discretion, proper warehousemen within the intent of the law for the storage of agricultural products.

The primary objectives of the U.S. Warehouse Act are to: (1) protect producers and others who store their property in public warehouses; (2) assure the integrity of warehouse receipts as documents of title to be used as collateral for loans, and to facilitate trading in interstate commerce of agricultural commodities; and (3) set and maintain a standard for sound warehouse operations.

A warehouse receipt is acceptable only when it has integrity. Integrity means that the original depositor or a subsequent holder of a receipt must have reasonable assurance that the product covered by the warehouse receipt will be returned upon surrender of the receipt and a valid request for delivery. Failing to receive return of the product, the depositor of holder of the receipt must have the further assurance that the warehouseman is able to pay him for this breach of contract. Existing regulations deal adequately with the warehouseman's obligations and duties as a storer of grain.

Most, if not all, licensed warehousemen also operate a grain maketing business buying grain from producers through the same facilities used for the storage of grain. As grain is received over the scale, the perfect situation would be that it is either deposited for storage with a warehouse receipt demanded and issued or sold with payment demanded and made. However, often the grain's status is not declared by the owner as delivered; or it is deposited for storage with no receipt demanded or issued; or it is sold and payment not demanded or made. The sale or other disposition of grain deposited in a licensed warehouse leads to a full marketing relationship between the depositor and the warehouseman.

The usual marketing relationships have been complicated by another kind of transaction commonly known as price later or deferred pricing or delayed price grain. Such a transaction may be described as a sales contract that constitutes a bonafide sale and change of ownership from the seller to buyer, but which permits the seller to fix the price of the grain at a later date at a pre-agreed formula for determining such price. The seller may continue to have some control of the pricing of his grain but has no physical claim. Generally, no advance payment is made to the seller. The buyer has only a grain payable position with the seller. The seller has only a money receivable position, a common creditor status.

The business of storing and marketing often becomes inseparable and likewise the funds available to the total business often cannot be segregated. These situations create continuous, dual and at times uncertain obligations.

Consequently, there are risks for producers who sell deposited grain as well as for producers who store such grain. It therefore becomes consistent with objectives of the Act to define the various marketing transactions of a licensed grain warehouseman which are the regulatory concern of the Secretary under terms of the Act. A warehouseman engaging or about to engage in marketing activities with or on behalf of producers must give an initial notice to the Secretary and thereafter provide bond to protect such producers, failure to do so will be cause for suspension of license.

A sound warehouse operation must originate from a sound financial base and depositors in licensed warehouses must be assured that they will have some financial protection if a warehouseman's financial base worsens. The bonding requirements specified in these regulations to support a warehouseman's marketing transactions and the increases indicated in amount of the bond, in minimum bond requirements, and in minimum net asset requirements, are justified in order to maintain the acceptability and integrity of the Federal warehouse receipt; to protect a depositor's interest in commodities deposited in licensed warehouses; and to continue a sound system of warehouses for storage of agricultural commodities.

These actions will affect most grain warehousemen now licensed under the Act and those who may in the future decide to apply for license. The regulations defining the various storing and marketing transactions involving deposited grain generally conform to situations which already exist and it is contemplated that any new "procedures and requirements approved by the Secretary" shall only be those which are already recognized as good business practices. The proposed actions will enhance the security offered by licensed warehousemen to depositors and producers.

The economic impact on small entities is negligible. Operating under the Act is a voluntary election on the part of grain warehousemen. There presently are 1,835 grain warehouses licensed under the Act. This represents about 18 percent of the estimated 10,000 grain warehouses in the United States. Of

these 1,835 licensed grain warehouses, 1,767 or 96.3 percent have a minimum net asset position exceeding that required; and 1,810 or 98.6 percent already are furnishing a bond in excess of the minimum required by these regulations. Any burden resulting from these regulations may cause some warehousemen now licensed to terminate their licenses and some persons who might have applied not to do so.

The regulations, therefore, are proposed to be amended as follows:

1. Section 102.2 (l) and (n) (7 CFR 102.2 (l) and (n)) are revised and a new (w) (x) and (y) are added as follows:

§ 102.2 Terms defined.

* * * * *

(l) Warehouse—Unless the context otherwise clearly indicates, any building, structure, or other protected enclosure licensed or to be licensed under the Act, in which grain is or may be deposited for storage, marketing, handling, shipping, or other dispostion.

(n) Warehouseman—Any person lawfully engaged in the business of receiving grain for storage, or who sells, handles, ships or otherwise markets deposited grain and who holds an effective warehouseman's license under the Act.

* * * * *

(w) Deposit—A lot or parcel of grain received into a warehouse licensed under the Act for storage, marketing, handling, shipping, or other disposition.

(x) Depositor—A person making or who has made delivery of grain to a warehouse licensed under the Act for storage, marketing, handling, shipping or other disposition and/or who holds a warehouse receipt, contract or other documentation of such delivery.

(y) Producer—A depositor who also is the landowner, landlord or tenant involved in the production of the grain being deposited.

2. Section 102.6(a) is revised to read as follows:

§ 102.6 Net assets.

(a) Each warehouseman conducting a warehouse licensed, or for which application for a license has been made, under the regulations in this part, shall have and maintain above all exemptions and liabilities, total net assets liable for the payment of any indebtedness arising from the conduct of the warehouse in the amount of at least 20 cents per bushel for the maximum number of bushels of grain that his warehouse could accommodate when stored in the manner customary to the warehouse as determined by the Administrator: PROVIDED, That no person may be licensed as a warehouseman under the regulations in this part unless he has allowable net assets of at least $25,000: AND PROVIDED FURTHER, That any deficiency in net assets required above this $25,000 minimum may be supplied by an increase in the amount of the warehouseman's bond in accordance with section 102.14(a). In determining total net assets, credit may be given for insurable property such as buildings, machinery, equipment, and merchandise inventory, only to the extent that such property is protected by insurance against loss or damage by fire. Such insurance policies shall be in the form of lawful policies issued by one or more insurance companies authorized to do such business and subject to service of process in suits brought in the State in which the warehouse is located.

§ 102.7 [Amended]

3. Section 102.7 is amended by changing "$10,000.00" to "$25,000.00."

§ 102.9 [Amended]

4. Section 102.9(a) is amended by changing "$10,000.00" to "$25,000.00."

5. Section 102.14 is revised to read as follows:

§ 102.14 Amounts of bond; additional amounts.

(a) The amount of bond to be furnished for each warehouse under the regulations in this part shall be fixed at a rate of 20 cents per bushel of licensed capacity: PROVIDED, That in any case the amount of bond shall not be less than $25,000 or more than $500,000, except as prescribed herein and in paragraph (b) of this section. The licensed capacity shall be the maximum number of bushels of grain that the warehouse could accommodate as determined under § 102.6(a). In case of a deficiency in net assets above the $25,000 minimum required under § 102.6, there shall be added to the amount of bond an amount equal to such deficiency. In any other case in which the Secretary, or his designated representative, finds that conditions exist which warrant requiring additional bond, there shall be added to the amount of bond as determined under the other provisions of this section, a further amount to meet such conditions.

(b) A warehouseman who contracts with producers to buy, sell, handle, ship, or otherwise market their deposited grain shall give notice to the Secretary prior to first engaging in such activity and there shall be added to the amount of bond determined in accordance with paragraph (a) of this section an amount equal to 10 cents per bushel of licensed capacity, provided that such addition for this purpose shall not be less than $25,000 nor more than $250,000 in any case. Such increased amount of bond shall be solely for the benefit of producers who contract with the warehouseman to sell, handle, ship or otherwise market their grain in accordance with § 102.44 (b) hereof. Failure to give such notice or to provide such additional bond shall be grounds for suspension of the warehouse license.

(c) In case a warehouseman is licensed or is applying for licenses to operate two or more warehouses in the same State he may give a single bond meeting the requirements of the Act and the regulations in this part to cover all his warehouses within the State. In such case the warehouses to be covered by the bond shall be deemed to be one warehouse only for purposes of determining the amount of bond required under paragraphs (a) and (b) of this section.

6. Section 102.30 is revised to read as follows:

§ 102.30 Receipts for deposited grain.

(a) Receipts or other documentation indicating delivery to the warehouse must be issued for all grain deposited in a warehouse.

(b) Receipts need not be issued against nonstorage grain, but each warehouseman shall keep accurate records of the weights, kinds, and grades of all lots of nonstorage grain received into and delivered from his warehouse. Whenever the purpose for which any lot of nonstorage grain was received into a warehouse is changed so that its approximate delivery period from the warehouse becomes indeterminate, receipts shall be issued to cover such grain. Records required under this section with respect to nonstorage grain shall be retained, as a part of the records of the warehouse, for a period of one year after December 31 of the year in which the lot of nonstorage grain is delivered from the warehouse.

(c) Accurate records shall be maintained by the warehouseman for grain which the warehouseman moves direct from the producer to a terminal processor, river, or other point of delivery and which does not enter or is not handled through the licensed facility as well as for any nonstorage grain placed in temporary and nonlicensed areas.

7. Section 102.44 is revised to read as follows:

§ 102.44 Grain deposits.

(a) All grain received into a licensed warehouse is deemed to be deposited

subject to U.S. Warehouse Act and the terms and regulations applicable thereunder. Whoever deposits grain shall receive from the warehouseman a warehouse receipt or other documentation evidencing such deposit. The receiving, documentation, recording, marketing, handling, disposition, and protection of such grain including proceeds therefrom shall be in accordance with procedures and requirements approved by the Secretary and consistent with conditions existing at the warehouse where such grain is deposited.

(b) Persons, including producers, who store grain with the warehouseman and who fail to have such grain or any part thereof returned to them shall have access to the bond provided for in § 102.14(a) and (c); producers who sell their deposited grain or contract with the warehouseman to be their agent to handle, ship or otherwise market the grain deposited and who do not receive full payment for their grain in accordance with such sales agreement or contract shall have access only to the increased amount of the bond provided for in section 102.14(b) and (c). All claims against either part of the bond shall be without preference and on a pro-rata basis.

(c) Except as provided in § 102.27 each warehouseman shall accept all storage and nonstorage grain and shall deliver out all storage and nonstorage grain, other than specially binned grain, in accordance with the grades of such grain as determined by a person duly licensed to inspect and grade such grain and to certificate the grade thereof and in accordance with the weights of such grain as determined by a person duly licensed to weigh such grain and to certificate the weight thereof, under the Act, and the regulations in this part; or if an appeal from the determination of an inspector has been taken, such grain shall be accepted for and delivered out of storage in accordance with the grades as finally determined in such appeal.

This proposal has been reviewed under the USDA criteria established to implement Executive Order 12291, "Federal Regulation." A determination has been made that this action should be classified as non-major under those criteria. Licensed grain warehousemen already engage in the marketing transactions which are regulated herein. Grain warehouses operating under the Act (and the proposed regulations apply only to such warehouses) generally have records and use procedures which are adequate to meet the new requirements; and any added burden in this respect would fall only on the Department in having to examine and develop information from such records.

The Administrator of Agricultural Marketing Service has determined that this action will not have a significant economic impact on a substantial number of small entities becaue of the proposed increase in the amount of bond, in the minimum bond requirements and in minimum net asset requirements. While there are some 1,835 licensed grain warehouses, 53% (972) of which could conceivably be termed small entities (total capacity of less than 1,000,000 bushels) only a small number, 68 or 3.7% have a net asset position below that to be required and only 25 or 1.4% are furnishing bond less than that to be required.

Done at Washington, D.C., June 3, 1981.

William T. Manley,

Deputy Administrator, Marketing Program Operations.

Highlights

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $75.00 per year, or $45.00 for six months, payable in advance. The charge for individual copies is $1.00 for each issue, or $1.00 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

30651 **Copyright** Library of Congress/Copyright Office terminates rulemaking proceedings on registration of claims to copyright in the graphic elements in book designs and other printed publications.

Rules and Regulations

Federal Register
Vol. 46, No. 111
Wednesday, June 10, 1981

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF COMMERCE

International Trade Administration

15 CFR Part 373

Policy Concerning Reexport Under a Distribution License

AGENCY: Office of Export Administration, International Trade Administration, Commerce.

ACTION: Final rule.

SUMMARY: The Export Administration Regulations are revised to reduce documentation for reexports under a Distribution License (see paragraph 373.3(i)(3) of the Regulations) to require only the same supporting documents that are required with individual requests to reexport. This reduction will make the documentation requirements for reexports under a Distribution License consistent with other forms of reexport authorization. Up to this time, a reexporter of commodities originally shipped under a Distribution License has been required to supply more documentation than a reexporter of commodities furnished under an individual validated license. This revision lessens the burden on the reexporter, thus facilitating resale of U.S. commodities.

DATE: Effective June 10, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Archie Andrews, Director, Exporters' Service Staff, Office of Export Administration, Department of Commerce, Washington, D.C. 20230 (Telephone: (202) 377–5247 or 377–4811).

SUPPLEMENTARY INFORMATION:

Rulemaking Requirements

Section 13(a) of the Export Administration of 1979 ("the Act") exempts regulations promulgated thereunder from the public participation in rulemaking procedures of the Administrative Procedure Act. Section 13(b) of the Act, which expresses the intent of Congress that to the extent practicable "regulations imposing controls on exports" be published in proposed form, is not applicable because these regulations do not impose new controls on exports. Therefore, this regulation is issued in final form. Although there is no formal comment period, public comments on this regulation are welcome on a continuing basis.

This rule does not impose a burden under the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.* This rule is not a major rule within the meaning of section 1(b) of Executive Order 12291 (46 FR 12193, February 19, 1981), "Federal Regulation."

Accordingly, Part 373 of the Export Administration Regulations (15 CFR Part 373) is amended as follows:

1. Section 373.3(i)(3) is revised to read as follows:

§ 373.3 Distribution license.

* * * * *

(i) * * *

(3) Request for specific reexport authorization. A request for specific authorization for any reexport under a Distribution License that is not authorized by the provisions of § 373.3(i)(1) or (2) above, shall be submitted on a Form ITA–699P, Request to Dispose of Commodities or Technical Data Previously Exported, or by letter, to the Office of Export Administration (Room 1617M). (See § 374.3.) Each request shall be supported by any document that is required for an individual reexport request under the provisions of § 374.3(c).

(Sections 5, 13, 15, and 21, Pub. L. 96–72, 93 Stat. 503, 50 U.S.C. app. § 2401 *et seq.*; Executive Order No. 12214 (45 FR 29783, May 6, 1980); Department Organization Order 10–3 (45 FR 6141, January 25, 1980); International Trade Administration Organization and Function Orders 41–1 (45 FR 11862, February 22, 1980) and 41–4 (45 FR 65003, October 1, 1980))

Dated: June 5, 1981.

William V. Skidmore,

Director, Office of Export Administration, International Trade Administration.

[FR Doc. 81–17151 Filed 6–9–81; 8:45 am]

BILLING CODE 3510–25–M

POSTAL SERVICE

39 CFR Part 601

Procurement of Property and Services; Amendments to Postal Contracting Manual

AGENCY: Postal Service.

ACTION: Amendments to the Postal Contracting Manual.

SUMMARY: The Postal Service hereby announces several revisions of section 19 of the Postal Contracting Manual, which deals with mail transportation contracts.

EFFECTIVE DATE: May 10, 1981.

FOR FURTHER INFORMATION CONTACT: Eugene A. Keller, (202) 245–4818.

SUPPLEMENTARY INFORMATION: The Postal Contracting Manual, which has been incorporated by reference in the Code of Federal Regulations (See 39 CFR 601.100) has been amended by the issuance of PCM Circular No. 81–3, Revised, dated May 10, 1981.

In accordance with 39 CFR 601.105, notice of these changes is hereby published in the **Federal Register** and the text of the changes is filed with the Director, Office of the Federal Register. Subscribers to the Basic Manual will receive these amendments from the Postal Service. (For other availability of the Postal Contracting Manual, see 39 CFR 601.104.)

Explanation of these amendments to the Postal Contracting Manual follows:

Explanation:

Section 19 is amended

- To delete section 19–503.97 which prescribes certain restrictions regarding American flag preference in procurement of water transportation service;
- To permit renewal of certificated air carrier and uncertificated air route contracts; and
- To permit minor service changes to certificated air carrier contracts.

(5 U.S.C. 552(a), 39 U.S.C. 401, 404, 410, 411)

W. Allen Sanders,

Associate General Counsel, General Law and Administration.

[FR Doc. 81–17227 Filed 6–9–81; 8:45 am]

BILLING CODE 7710–12–M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 122, 264, and 265

[SWH-FRL-1850-7]

Standards Applicable to Owners and Operators of Hazardous Waste Treatment, Storage and Disposal Facilities

AGENCY: Environmental Protection Agency (EPA)

ACTION: Interim rule.

SUMMARY: On January 12, 1981, the Environmental Protection Agency issued an interim final regulation which established financial responsibility requirements applicable to owners and operators of hazardous waste treatment, storage and disposal facilities. The regulation included a requirement that those owners and operators maintain liability coverage of certain types and amounts during the operating lives of the facilities (40 CFR 264.147 and 40 CFR 265.147). The Agency announces that it will conduct meetings with interested persons of groups in response to comments regarding the liability coverage requirements.

DATES: The effective date for the regulations covered by this notice is October 13, 1981. EPA expects that it may hold meetings until June 16, 1981.

FOR FURTHER INFORMATION CONTACT: George A. Garland, Chief, Economic and Policy Analysis Branch, Hazardous and Industrial Waste Division, Office of Solid Waste (WH-565), 401 M Street, SW., Washington, D.C. 20460, (202) 755-9190.

SUPPLEMENTARY INFORMATION: On January 12, 1981 (46 FR 2802), EPA promulgated interim final regulations under the Resource Conservation and Recovery Act of 1976. These regulations included, as part of the interim status and general standard financial responsibility requirements, requirements for owners and operators of hazardous waste management facilities to insure coverage for claims arising from accidents at their facilities.

The Agency extended the original March 13, 1981, deadline for comments on these regulations to March 27, 1981. Many of the comments received concerned the liability coverage requirement. Based upon those comments, EPA believes that meetings with representatives of the insurance industry and other persons interested in the liability requirement are necessary. In fact, the Agency held such a meeting on May 29, 1981, and expects that it may hold additional meetings until June 16, 1981. The Agency will prepare memoranda summarizing the issues discussed at each meeting as well as all significant information which is brought to the Agency's attention. The memoranda will be made available to the public by being placed promptly in the public docket for Section 3004, Parts 264 and 265 of the RCRA regulations.

The public docket is available for inspection and copying in Room 2711, U.S. Environmental Protection Agency, 401 M Street, SW., Washington, D.C., and is open for viewing from 9:00 a.m. to 4:00 p.m., Monday through Friday, excluding holidays. The Agency invites all interested persons to review the memoranda and present any appropriate responses.

Dated: June 8, 1981.

James N. Smith,

Acting Assistant Administrator for Water and Waste Management.

[FR Doc. 81-17360 Filed 6-9-81; 8:45 am]

BILLING CODE 6560-30-M

40 CFR Part 180

[PP OF2400/R331; PH-FRL-1849-2]

Tolerances and Exemptions From Tolerances for Pesticide Chemicals in or on Raw Agricultural Commodities: "Hirsutella Thompsonii"

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes an exemption from the requirement of a tolerance for residues of *Hirsutella thompsonii* ABG-6065 fungus mycoacaricide under 40 CFR 180.1001(c) when applied to growing crops or to raw agricultural commodities after harvest for control of: the citrus rust mite; the blueberry mite; and the Bermuda turf mite. This regulation was requested by Abbott Laboratories. This regulation eliminates the need to establish a maximum permissible level for residues of *Hirsutella thompsonii*.

EFFECTIVE DATE: Effective on June 10, 1981.

ADDRESS: Written objections may be submitted to the: Hearing Clerk, Environmental Protection Agency, Rm. M-3708 (A-110), 401 M St. SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Franklin D. R. Gee, Product Manager (PM) 17, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 401, CM No. 2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703-557-7028).

SUPPLEMENTARY INFORMATION: EPA issued a notice published in the **Federal Register** of May 11, 1981 (46 FR 26168) that Abbott Laboratories, Chemical and Agricultural Products Division, N. Chicago, IL 60064, had filed a pesticide petition (PP OF2400) with the EPA. This petition proposed that an exemption from the requirement of tolerance be established for residues of the Mycoacaricide Wettable Powder *Hirsutella thompsonii* for use in or on all growing crops or to raw agricultural commodities after harvest, for control of: the citrus rust mite, the blueberry mite, and the Bermuda turf mite. No comments or request for referral to an advisory committee were received in response to this notice of filing.

The data submitted or referenced in this petition, as well as all other relevant material have been evaluated. The toxicological data considered in support of the proposed exemption from the requirement of a tolerance included: acute oral toxicity and pathogenicity studies; an eye irritation study; primary skin irritation study; and acute dermal toxicity study; and acute inhalation toxicity and pathogenicity studies. There were no adverse effects indicated in the above data reviews.

Data submitted by Abbott Laboratories were:

1. Acute safety and infectivity of *Hirsutella thompsonii* applied to the abraded epidermis of the domestic rabbit.
2. Acute safety and infectivity of *Hirsutella thompsonii* administered orally to rats.
3. Acute ocular safety and infectivity of *Hirsutella thompsonii* administered to rabbits;
4. Acute safety and infectivity of *Hirsutella thompsonii* administered to rats by intratracheal instillation;
5. Mycotoxin screen;
6. Combined acute dermal toxicity and primary dermal irritation of MYCAR in rabbits;
7. Acute oral toxicity and infectivity of MYCAR in rats; and
8. Primary ocular irritation of MYCAR in rabbits.

The agency is currently in the process of promulgating proposed guidelines for the registration of biorational pesticides (i.e., Biochemical and Microbial Pest Control Agents). These guidelines would establish the standards for testing and the requirements for data submission to support the registration of biorational pesticides. The agency expects that the proposed guidelines will be published in the **Federal Register** in late summer of 1981.

No adverse effects were indicated by the test data submitted, and hence no additional toxicity and infectivity data will be necessary for the intended uses.

Any person adversely affected by this regulation may, on or before July 10, 1981, file written objections with the Hearing Clerk, Environmental Protection Agency, Rm. M–3708, (A–110), 401 M St. SW., Washington, D.C. 20460. Such objections must be submitted in quintuplicate and specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

As required by Executive Order 12291, EPA has determined that this rule is not a "Major" rule and therefore does not require a Regulatory Impact Analysis. In addition, the Office of Management and Budget (OMB) has exempted this regulation from the OMB review requirement of Executive Order 12291, pursuant to section 8(b) of that Order.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96–534, 94 Stat. 1164, 5 U.S.C. 601–612), the Administrator has determined that the regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (46 FR 24950).

Effective on June 10, 1981.

(Sec. 408(d)(2), 68 Stat. 512 (21 U.S.C. 346a(d)(2)))

Dated: June 2, 1981.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

Therefore, Subpart D of 40 CFR Part 180 is amended by adding § 180.1061 to read as follows:

§ 180.1061 Hirsutella thompsonii; exemption from the requirement of a tolerance.

An exemption from the requirement of a tolerance is established for *Hirsutella thompsonii* when applied to all raw agricultural commodities (postharvest) to control the citrus rust mite, the blueberry mite, and the Bermuda turf mite.

[FR Doc. 81–17185 Filed 6–9–81; 8:45 am]

BILLING CODE 6560–32–M

40 CFR Part 413

[WH–FRL–1827–6]

Electroplating Point Source Category; Effluent Limitations Guidelines

AGENCY: Environmental Protection Agency.

ACTION: Correction to final amendments.

SUMMARY: This document corrects the final amendments to the Electroplating pretreatment standards for existing sources that appeared in the **Federal Register** on Wednesday, January 28, 1981, (46 FR 9462).

DATE: This correction is effective June 10, 1981.

FOR FURTHER INFORMATION CONTACT: Frank H. Hund, Effluent Guidelines Division (WH–552), Environmental Protection Agency, 401 M Street SW, Washington, D.C. 20460, (202) 426–2582.

SUPPLEMENTARY INFORMATION: Amendments to the Electroplating pretreatment standards for existing sources were proposed on July 3, 1980, (45 FR 45322) and promulgated in final form on January 28, 1981, (46 FR 9462).

The effective date of these amendments was deferred until March 30, 1981, consistent with the President's memorandum of January 29, 1981. (See 46 FR 11972, Feb. 12, 1981). Today's notice corrects § 413.14 by deleting one phrase and adding another and a subsequent paragraph. The opening paragraph in § 413.14 and paragraph (a) should be identical to the opening paragraph and paragraph (a) in §§ 413.24, 413.44, 413.54, 413.64, 413.74 and 413.84. The phrase to be substituted and the paragraph to be added were inadvertently omitted from the January 28, 1981 notice.

In addition, today's notice corrects portions of the preamble published January 28, 1981, by publishing a recent letter from the Acting Administrator to counsel for the National Association of Metal Finishers (NAMF) and the Institute for Interconnecting and Packaging Electronic Circuits (IIPEC) concerning the Agency's plans for future regulation of the job shop and printed circuit board manufacturing segments of the electroplating industry. Although this letter was written in the context of litigation betweeen NAMF, IIPEC and EPA, the Agency believes that the contents of the letter are of general interest to the public and, accordingly, are appropriately published with this correction notice.

In brief, the letter states that the Agency does not intend to apply more stringent limitations to job shops and printed circuit board manufacturers covered by the existing electroplating pretreatment standards. The letter also states that the Agency presently intends to propose a limitation on the dumping of toxic organic solvents by all electroplaters, including jobs shops and printed circuit board manufacturers. The entire text of the letter is published below.

Executive Order 12291

Under Executive Order 12291, EPA must judge whether a regulation is "Major" and therefore subject to the requirement of a Regulatory Impact Analysis. This correction notice is not major because it has no effect on the economy, will not increase costs for consumers, individual industries, government agencies or geographic regions and has no adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Letter from EPA to NAMF

Theodore L. Garrett, Esq. Covington & Burling, 888 Sixteenth Street, NW, Washington, D.C. 20006

Edward H. Hatton, Esq. Jenner & Block, One IBM Plaza, Suite 4400, Chicago, Illinois 60611

Re: National Association of Metal Finishers, et al., v. EPA, No. 79–2256; The Institute for Interconnecting and Packaging Electronic Circuits v. EPA, No. 79–2443.

Dear Messrs. Garrett and Hatton: The purpose of this letter is to resolve the uncertainty with respect to EPA's intention to impose more stringent pretreatment standards on the job sector of the electroplating industry and the printed circuit board manufacturers. This uncertainty arose from the preamble discussion contained in the January 28, 1981, final amendments to the electroplating pretreatment standards (40 CFR Part 413, 46 Fed. Reg. 9462). After considerable deliberation within the Agency, we have concluded that we will not impose more stringent limitations. A detailed discussion of the relevant issues follows.

As you know, the Settlement Agreement in the above-captioned cases provided that if EPA published, *inter alia*, a promise not to impose more stringent limitations on the job shop and printed circuit board segments of the industry, then the National Association of Metal Finishers (NAMF) and the Institute for Interconnecting and

Packaging Electronic Circuits (IIPEC) would dismiss their appeals of the electroplating regulations. The language required by the agreement was as follows:

> Therefore, EPA does not plan to develop more stringent new pretreatment standards for the job shop metal finishing segment in the next several years. Nor does EPA plan to develop in the next several years more stringent standards for the independent printed circuit board segment where significant economic vulnerability also exists.

This preamble discussion was proposed on July 3, 1980 (45 FR 45322) consistent with the terms of the Settlement Agreement.

The final amendments, however, differed from the language in the Settlement Agreement. Instead of promising not to impose more stringent standards for these segments of the industry, EPA stated that "it is unlikely that EPA will impose standards on job shops or printed circuit board manufacturers based on more advanced technology than that forming the basis for today's pretreatment standards." (46 FR 9464.) In other words, the Agency was unwilling to predict that the numerical standards would remain the same but was willing to predict that no additional technologies would be required in future regulations.

The Agency's uncertainty arose from incoming data concerning the next round of rulemaking for electroplaters. These future regulations, called "Metal Finishing" standards and limitations, will include the processes currently regulated by the electroplating standards, as well as additional processes. The metal finishing regulations will apply to both direct and indirect discharges. However, as we stated in the January 28 preamble, as work continued on the metal finishing regulations, the Agency might have had to reconcile the electroplating standards with the metal finishing standards. This uncertainty prevented the agency from promising not to impose more stringent limitations on job shops or printed circuit board manufacturers in the next round of rulemaking.

In addition, as we stated in the January 28 preamble, the Agency was in the process of considering limitations on the discharge of toxic organics by the industry. Preliminary investigations indicated that toxic organics could be controlled through best management practices with little economic impact on the industry, and the Agency was unwilling to rule out such controls for job shops and printed circuit board manufacturers.

Since the publication of the final amendments, the Agency has reviewed the data supporting the new metal finishing regulations. We have concluded that it would be unwise to apply more stringent limitations to the job shops and printed circuit board manufacturers covered by the existing pretreatment standards since we have completed the rulemaking to establish these standards and have reached a Settlement Agreement which provides certainty for your clients and avoids the need for further litigation. Accordingly, EPA does not plan to develop more stringent pretreatment standards in the next several years for the job shop and printed circuit board manufacturers covered by the existing regulation.

The Agency is still considering how to control the discharge of toxic organic solvents by the industry. We presently intend to propose a limitation on the dumping of toxic organic solvents by all electroplaters, including job shops and printed circuit board manufacturers. This additional control should result in very low cost to the industry, and, in fact, is predicted in many cases to result in cost savings due to the reclamation value of spent solvents. The limitation would take the form of a pretreatment standard for total toxic organics ("TTO"). As an alternative to monitoring for these organics, the plant operator or owner would be permitted to certify that toxic organic solvents are not being dumped into the plant's wastewater. Such certification would obviate the need for monitoring, including monitoring for other toxic organics that might come from sources other than the solvents.

We believe that this requirement is not only cost effective but in most cases will be of financial benefit to the industry. Since we do not anticipate an economic impact from this requirement, we believe it is consistent with the Settlement Agreement. The Agency welcomes your clients' views on such an approach. Moreover, the use of solvents is limited to those plants with solvent degreasing operations. These plants are estimated to be only 24 percent of the job shop sector. Of this 24 percent approximately 73 percent already reclaim their solvents, with the result that only 6.5 percent of job shops would have to alter their current practices. In addition, reclamation would prevent the discharge of 3.2 million pounds per year of toxic organics by this small segment of the job shop sector. We would be especially interested in any information they might have on the costs of solvent reclamation. If EPA formally proposes such a regulation, your clients will, of course, have every opportunity to participate in the rulemaking.

I hope this letter fully clarifies the Agency's current position and reassures your clients that EPA intends to comply with the terms of the Settlement Agreement.

Sincerely,

Walter C. Barber, Jr.,

Acting Administrator.

cc: Ellen Maldonado, Esq., Office of General Counsel

Nancy J. Marvel, Esq., Land & Natural Resources Division, Department of Justice, Washington, D.C. 20530.

Accordingly, EPA is correcting 40 CFR 413.14 as follows:

§ 413.14 Pretreatment standards for existing sources.

Except as provided in 40 CFR 403.7 and 40 CFR 403.13, any existing source subject to this subpart which introduces pollutants into a publicly owned treatment works must comply with 40 CFR Part 403 and achieve the following pretreatment standards for existing sources (PSES):

(a) No user introducing wastewater pollutants into a publicly owned treatment works under the provisions of this subpart shall augment the use of process wastewater or otherwise dilute the wastewater as a partial or total substitute for adequate treatment to achieve compliance with this standard.

Dated: May 27, 1981.

James N. Smith,

Acting Assistant Administrator for Water and Waste Management.

[FR Doc. 81-17171 Filed 6-9-81; 8:45 am]

BILLING CODE 6560-29-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 64

[Docket No. FEMA 6076]

List of Communities Eligible for the Sale of Insurance Under the National Flood Insurance Program

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Final rule.

SUMMARY: This rule lists communities participating in the National Flood Insurance Program (NFIP). These communities have applied to the program and have agreed to enact certain flood plain management measures. The communities' participation in the program authorizes the sale of flood insurance to owners of property located in the communities listed.

EFFECTIVE DATE: The date listed in the fifth column of the table.

ADDRESSES: Flood insurance policies for property located in the communities listed can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurance Program (NFIP) at: P.O. Box 34294, Bethesda, Maryland 20034, Phone: (800) 638–6620.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, National Flood Insurance Program, (202) 755–5585 or EDS Toll Free Line 800–638–6620 for Continental U.S. (except Maryland); 800–638–6831 for Alaska, Hawaii, Puerto Rico, and the Virgin Islands; and 800–492–6605 for Maryland, Room 5270, 451 Seventh Street, SW., Washington, DC 20410.

SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP), enables property owners to pruchase flood insurance at rates made reasonable through a Federal subsidy. In return, communities agree to adopt and administer local flood plain management measures aimed at protecting lives and new construction from future flooding. Since the communities on the attached list have recently entered the NFIP, subsidized flood insurance is now available for property in the community.

In addition, the Federal Insurance Administrator has identified the special flood hazard areas in some of these communities by publishing a Flood Hazard Boundary Map. The date of the flood map, if one has been published, is indicated in the sixth column of the table. In the communities listed where a flood map has been published, Section 102 of the Flood Disaster Protection Act of 1973, as amended, requires the purchase of flood insurance as a condition of Federal or federally related financial assistance for acquisition or construction of buildings in the special flood hazard area shown on the map.

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553 (b) are impracticable and unnecessary.

The Catalog of Domestic Assistance Number for this program is 83.100 "Flood Insurance." This program is subject to procedures set out in OMB Circular A–95.

In each entry, a complete chronology of effective dates appears for each listed community. The entry reads as follows:

Section 64.6 is amended by adding in alphabetical sequence new entries to the table

§ 64.6 List of eligible communities.

State and county	Location	Community No.	Effective date of authorization of sale of flood insurance for area	Hazard area identified
Ohio: Stark	East Sparta, village of	390655	750630 emergency, 810501 regular.	740405

BILLING CODE 6718-03-M

44 CFR Part 67

National Flood Insurance Program; Final Flood Elevation Determinations

AGENCY: Federal Insurance Administration, FIA.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in the nation.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required either to adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATE: The date of issuance of the Flood Insurance Rate Map (FIRM), showing base (100-year) flood elevations, for the community.

ADDRESS: See table below.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, National Flood Insurance Program, (202) 755-5585, Federal Emergency Management Agency, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the final determination of flood elevations for each community listed.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 44 CFR Part 67). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 44 CFR Part 60.

The final base (100-year) flood elevations for selected locations are:

Final Base (100-year) Flood Elevations

State	City/town/county (Docket No.)	Source of flooding	Location	#Depth in feet above ground. *Elevation in feet (NGVD)
California	Gonzales (City), Monterey County (FEMA-5979)	Gonzales Slough	At intersection of Gonzales Slough and 5th Street	*135
		East Branch Gonzales Slough	20 Feet Downstream of the intersection of U.S. Highway 101 (South Bound Lane) and East Branch Gonzales Slough.	*145
	Maps available for inspection at City Hall, Gonzales, California.			
California	Yreka (City), Siskiyou County (FEMA-5979)	Yreka Creek	Montague Road over the channel	*2,571
			North edge of Raymond Street over the channel	*2,608
			South edge of Sharps Road over the channel	*2,684
			Intersection of South Main Street and West Oberlin Road.	#1
		Mumbug Gulch	East edge of Third Street over the channel	*2,590
			Intersection of Hearn Street and West Street	*2,641
		Greenhorn Creek	West edge of South Main Street over the channel	*2,685
			At the intersection of Greenhorn Road and South Main Street.	#1
	Maps available for inspection at Planning & Building Office, 701 4th Street, Yreka, California.			
Florida	Pasco County (Unincorporated Areas) (FEMA-5978)	Gulf of Mexico	Intersection of Dartmouth Avenue and Kenwood Drive	*12
			Intersection of Parkway Boulevard and Westwood Drive.	*13
		Anclote River	Intersection of River and Seven Springs Boulevard	*20
			Intersection of River and State Highway 54	*29
		Duck Slough	250 Feet Downstream of Intersection of Slough and Seven Spring Boulevard.	*15
		Hillsborough River	100 Feet Upstream of Intersection of River and Old Crystal Spring Road.	*61
		Pithlachascotee River	Intersection of River and Rowan Road	*11
			Intersection of River and DeCubellis Drive	*21
		Withlacoochee River	Intersection of River and State Highway 575	*72
			Intersection of Roosevelt, Canal, and Wilson Streets	*78
	Maps available for inspection at Pasco County Courthouse, 4025 Moonlake Road, New Port Richey, Florida 33552.			
Massachusetts	Hanson, Town, Plymouth County (Docket No. FEMA-5955)	Indian Head River	Downstream Corporate Limits	*26
			Downstream of State Street	*33

BILLING CODE 6718-03-M

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1033

[Amend. No. 1 to Eighteenth Revised Service Order No. 1473]

Various Railroads Authorized To Use Tracks and/or Facilities of the Chicago, Rock Island and Pacific Railroad Co., Debtor, (William M. Gibbons, Trustee)

AGENCY: Interstate Commerce Commission.

ACTION: Amendment No. 1 to Eighteenth Revised Service Order No. 1473.

SUMMARY: Eighteenth Revised Service Order No. 1473 authorized various railroads to use tracks and/or facilities of Chicago, Rock Island and Pacific Railroad Company, Debtor (William M. Gibbons, Trustee). The provisions of this order are extended for an additional ninety (90) days, and shall expire 11:59 p.m., September 30, 1981.

EFFECTIVE: 12:01 a.m., June 6, 1981, and continuing in effect until 11:59 p.m., September 30, 1981, unless modified, amended or vacated by order of this Commission.

FOR FURTHER INFORMATION CONTACT:

M. F. Clemens, Jr. (202) 275–7840.

Decided June 5, 1981.

Upon further consideration of Eighteenth Revised Service Order No. 1473 (46 FR 25312), and good cause appearing therefor:

It is ordered,

§ 1033.1473 Service Order No. 1473; Various Railroads Authorized To Use Tracks and/or facilities of the Chicago, Rock Island and Pacific Railroad Company, Debtor, (William M. Gibbons, Trustee)

Eighteenth Revised Service Order No. 1473 is amended by substituting the following paragraph (N) for paragraph (N) thereof:

(n) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., September 30, 1981, unless otherwise modified, amended, or vacated by order of this Commission.

Effective date. This order shall become effective at 12:01 a.m., June 6, 1981.

This action is taken under authority of 49 U.S.C. 10304–10305 and Section 122, Public Law 96–254.

This amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement and upon the American Short Line Railroad Association. Notice of this amendment shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy with Director, Office of the Federal Register.

By the Commission, Railroad Service Board members, Joel E. Burns, Robert S. Turkington and John H. O'Brien.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 91

Migratory Bird Hunting and Conservation Stamp Contest; Notice of Contest Dates

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Announcement of contest, changing final rule entry dates.

SUMMARY: The Service announces the date and location of the 1981 Migratory Bird Hunting and Conservation Stamp Contest. The growing popularity of the contest has resulted in a steady increase in the number of entries, with over 1,500 in the 1980 contest. To provide adequate time for preparing entries for judging, the Service is also changing the entry deadline from October 15 to October 1.

DATES: This amendment is effective June 10, 1981. The new entry deadline is October 1. The contest will be held on November 5, 1981, beginning at 9 a.m.

ADDRESS: The 1981 contest will be held in the Department of the Interior Auditorium, 18th and C Streets, NW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: Mr. Peter Anastasi or Ms. Bea Boone, Public Affairs/Audio Visual, U.S. Fish and Wildlife Service, Washington, D.C. 20240, telephone (202) 343–8770/5612.

SUPPLEMENTARY INFORMATION: The annual Migratory Bird Hunting and Conservation Stamp Contest is held by the U.S. Fish and Wildlife Service to select a design for the following year's Migratory Bird Hunting and Conservation Stamp, popularly known as the Duck Stamp. The contest has steadily increased in popularity, with 1,507 entries in the 1980 contest. As a result, the Service has determined that the entry deadline of October 15 (postmarked date) does not provide adequate time to acknowledge receipt and prepare the entries for judging before each year's contest. The proposed change to an October 1 deadline would allow a July 1 to October 1 period for submitting entries.

The Department has determined that this is not a major rule under Executive Order 12291 and does not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act. All other portions of the contest rules remain unchanged.

As provided in 50 CFR 91.14, entries may not portray any of the species that were the dominant feature for the winner of the Migratory Bird Hunting and Conservation Stamp Contest during the preceding 5 years. For the 1981 contest, the species ineligible are Ross' geese, hooded merganser, green-winged teal, mallards, and ruddy ducks.

In accordance with 50 CFR 91.22, the date and location of the 1981 contest is November 5, 1981, at 9 a.m. in the Department of the Interior Auditorium, 18th and C Streets, NW., Washington, D.C.

Since the deadline for submitting entries is purely administrative in nature and announced well in advance of October 1, the Service has determined that notice and public comment procedure on the change is unnecessary and would be contrary to the public interest. This modification would thus be immediately effective when published. Additionally, each applicant for the contest will be notified of the deadline when they request a copy of the contest rules and Reproduction Rights Agreement under 50 CFR 91.11.

For the reasons noted above, the Service is revising the last sentence of 50 CFR 91.11 as follows:

§ 91.11 Contest deadlines.

* * * * *

Entries may be received any time after July 1, but must be received or postmarked no later than midnight of October 1.

Dated: June 4, 1981.

C. F. Layton,

Acting Deputy Assistant Secretary for Fish and Wildlife and Parks.

[FR Doc. 81-17247 Filed 6-9-81; 8:45 am]

BILLING CODE 4310-55-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 661

Ocean Salmon Fisheries Off the Coasts of California, Oregon and Washington

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Emergency interim rule with notice of availability of plan amendment.

SUMMARY: NOAA issues emergency regulations to implement on an interim basis the 1981 amendment to the fishery management plan for the salmon fisheries off the coasts of Washington, Oregon and California. Proposed regulations soon will be published for public review and comment. This action also constitutes a notice of availability and request for comments upon the plan amendment which was approved by the Assistant Administrator for Fisheries, NOAA, on May 18, 1981. Specific management measures and implementing regulations vary by fisheries and area, but generally establish fishing seasons, provide harvest guidelines or quotas and other inseason management modifications, set daily catch limits for recreational fisheries and size limits on fish. The 1981 amendment and implementing regulations are intended to prevent overfishing, to apportion equitably the ocean harvest between commercial and recreational fisheries, to allow more salmon to survive the ocean fisheries

and reach the various inside fisheries, to meet the U.S. obligations to treaty Indian fisheries, and to achieve spawning escapement requirements. The 1981 fisheries are presently being governed by regulations that were in place during 1980. These regulations are not adequate to meet conservation needs after June 1, 1981.

DATES: Interim rules are effective on June 5, 1981, and remain effective until July 20, 1981.

ADDRESS: Send comments on the 1981 amendment to the Director, Northwest Region, National Marine Fisheries Service (NMFS), 1700 Westlake Avenue North, Seattle, Washington 98109. Copies of the 1981 amendment, the regulatory impact review, and the final supplement to the final environmental impact statement are available from the Pacific Fishery Management Council, 526 S.W. Mill Street, Portland, Oregon 97201.

FOR FURTHER INFORMATION CONTACT: H. A. Larkins (Regional Director, NMFS) 206–442–7575.

SUPPLEMENTARY INFORMATION: The fishery management plan (FMP) for the Commercial and Recreational Salmon Fisheries off the Coasts of Washington, Oregon, and California, prepared by the Pacific Fishery Management Council (the Council) was approved by the Assistant Administrator for Fisheries (Assistant Administrator) on March 2, 1978. Regulations to implement the FMP were first published on April 14, 1978, (43 FR 15629) as emergency rules; regulations to implement amendments to the FMP were last issued as a final rulemaking on July 31, 1980 (45 FR 50764).

The Council has amended the FMP to improve management of the salmon fisheries in 1981. A supplement to the environmental impact statement (SEIS) for the 1981 amendment has been filed with the Environmental Protection Agency. A notice of availability of the SEIS was published on May 1, 1981 (46 FR 24674). The Council held six hearings on the amendment during the period February 19–21, 1981. The current FMP amendment was approved by the Assistant Administrator on May 18, 1981, under section 304 of the Magnuson Fishery Conservation and Management Act, 16 U.S.C. 1801 *et seq.* (Magnuson Act). The 1981 amendment is intended to: (1) provide adequate spawning escapements from ocean salmon fisheries for the various salmon runs; (2) meet treaty obligations to Indian fishermen; and (3) allow for a viable harvest for each segment of the salmon fishery, including the commercial and recreational ocean fisheries and the various internal water fisheries. NOAA issues a notice of availability of the FMP amendment for public review and comment, as required by Section 305(a) of the Magnuson Act.

Section 305(e) of the Magnuson Act authorizes the Secretary of Commerce to promulgate emergency regulations to implement fishery management plans. The Assistant Administrator has determined that the 1981 amendment should be implemented under that Section, by emergency regulations. This emergency rulemaking remains in effect for 45 days and may be extended for a second 45-day period. The regulations published here include both the regulations implementing the 1981 amendment and provisions from existing regulations not affected by the amendment (but which have been revised to some degree).

Proposed regulations soon will be published for public review. The final regulations, following publication in the **Federal Register**, will be effective for 1981 and subsequent years unless superseded or otherwise modified; except that, regulations establishing harvest guidelines and open seasons off California in 1981 (§ 661.10 to § 661.12) will remain in effect only for 1981. If regulations setting new harvest guidelines and open seasons off California are not adopted, approved, and implemented specifically for the 1982 season, then 1980 regulations (§ 661.10 to § 661.12) will apply in that area.

Status of the Salmon Resource in 1981

Current information on the abundance of the major stocks of chinook and coho salmon available to the ocean fisheries in 1981 indicates (1) that some stocks continue to be depressed, to the extent that their future productivity may be jeopardized if ocean harvests are not reduced, and (2) other stocks are expected to improve somewhat, although they are not expected to attain optimal levels of population abundance. The management objectives set forth in the FMP can only be achieved by carefully balancing a decrease of the ocean harvests for some areas with somewhat less restrictive regulations in other areas.

The following paragraphs summarize expectations regarding stock abundance for the 1981 fisheries and explain the basis for the desired levels of ocean harvests:

1. Coho stocks from the Oregon coast and Columbia River are predicted to be at a near-record low in 1981; only 772,000 coho can be taken in the ocean south of Cape Falcon without jeopardizing coho stocks. A reduction in the ocean harvest of these stocks is necessary to achieve the 1981 escapement goal. Spawning escapement of Oregon coastal and Columbia River coho stock showed improvement last year over the three previous years, but it was still quite far below desired levels. Harvests must continue to be restricted to allow an adequate number of coho to reach the spawning grounds.

2. Low abundance of natural runs of Washington coastal coho is predicted to continue; returns of artificially propagated stocks to hatcheries are expected to be similar to those of 1980. Reduced ocean harvests of these stocks in 1981 are necessary to meet natural-stock escapement and treaty-Indian allocation goals. As a result, only 620,000 coho can be taken in the ocean north of Cape Falcon without further depleting coho stocks returning to the Washington coast and Puget Sound.

3. Natural coho stocks from Puget Sound are predicted to be below average, but the abundance of hatchery coho can be expected to be slightly higher in 1981 than in 1980. Allocation and spawning escapement goals for coho in Puget Sound should be met with the exception of Skagit River. A complete ocean closure plus elimination of the Puget Sound sport fishery would not return enough coho to the Skagit to meet the spawning escapement goal.

4. Fall chinook stocks from the Columbia River remain at a depressed level and are not expected to be any more abundant in 1981 than in 1980. Fall chinook from the lower river and the Bonneville pool are managed mainly for hatchery production. The upriver bright fall chinook stocks will remain at a low level of abundance, but closures off southeast Alaska, along with closures off Washington when 620,000 coho are taken, should increase the size of the in-river fall chinook run. Populations of spring and summer chinook originating in the upper Columbia River basin are stabilizing at new-record lows; escapement goals are not attainable in 1981. These stocks, however, constitute a minor part of the ocean catches off the Washington coast, because the mature spring chinook have entered the river before the ocean fishing season begins and because summer chinook comprise only about four percent of the troll catch off the Washington coast during May.

5. California chinook stocks, although recovering from the 1975–77 drought, are expected to be below optimal levels. Fall chinook from the Klamath River are predicted to be substantially above the 1980 level, but catch restrictions in 1981 should be continued if the short-range spawning escapement goal is to be

realized. Sacramento River chinooks may return in numbers slightly above the 1980 run but are still well below historical levels.

The Council and its advisors considered these and many other factors during their deliberations on the 1981 amendment. The management measures adopted by the Council are considered to be those most consistent with the FMP objectives and with the requirements of the Magnuson Act.

The Ocean Salmon Fisheries

The ocean salmon fisheries primarily harvest chinook and coho salmon, although those off Washington usually harvest substantial numbers of pink salmon in odd-numbered years (e.g., 1981). The fisheries include commercial trollers and recreational anglers; a significant portion of the latter depend upon services provided by commercially-operated charterboats. Oceanic processes and ocean harvesting activities affect the numbers of fish returning to fisheries in internal waters and to spawning grounds, some as far inland as several hundred miles. Coho and chinook salmon range widely during their ocean residence, intermingling with the races from different spawning grounds. Ocean-harvested salmon are considered by many to be of the highest quality. Market qualities are also affected by the size and maturity of the fish, type of fishing gear used, and the degree of care in handling and processing the catch. All of these factors affect prices, and market supplies and demands. The Council has recognized that the ocean commercial salmon fishery and the ocean recreational salmon fishery involve different and distinct motivations and benefits; its management measures are intended to fully reflect those differences. Management goals for the commercial fishery, after giving full consideration to resource conservation requirements and legal decisions affecting distribution of the catches, are intended to optimize poundage yield and financial returns to commercial fishermen. Management of the recreational fishery is intended to achieve the greatest amount of angler participation and recreational satisfaction.

Treaty-Indian and Internal Water Fisheries

Some of the runs of salmon that contribute to the ocean fisheries are subject to treaties between the United States and various Indian tribes in Washington and on the Columbia River. The treaties reserve to the tribes a right to take a portion of the harvestable surplus of salmon that pass through their usual and accustomed fishing grounds. Recent Federal court decisions, affirmed by the United States Supreme Court, have interpreted the treaties as reserving to some tribes the right to harvest up to fifty percent of the runs that would return to their tribal fishing grounds. For Columbia River stocks, a separate agreement sets forth the obligations regarding the management of salmon returning to tribal fishing grounds. That agreement establishes numerical goals for salmon escapement from the ocean into the Columbia River and allocates the river harvest according to principles that are in lieu of the 50/50 allocation formula of the other treaty fisheries.

The Council, in developing the 1981 amendments to the management measures in the FMP, gave extensive consideration to the impacts that various management options would have on the rights of treaty-Indian fishermen. The Council gave thorough consideration to the expected returns of salmon to each of the areas of interest of the treaty tribes and designed these management measures to be consistent with treaty obligations. The inseason management provisions, particularly those which would automatically close the fishery when a specified number of fish are caught, should provide additional assurance that fishery obligations to treaty Indians will be met.

Certain season and area closures are applied to both commercial and recreational fisheries in the ocean to reduce ocean harvests in order to allow a greater proportion of the stocks to reach "inside" fisheries and to increase spawning escapements. Treaty-Indian fishermen, "inside" net fishermen other than treaty Indians, and recreational river fishermen should be assured a continuing opportunity to harvest salmon. There are significant commercial harvests in the internal waters of Washington State and on the Columbia River by fishermen other than treaty Indians. There is also an Indian reservation fishery on the Klamath River in California. These fisheries are expected to receive additional benefit under the 1981 regulations.

1981 Fishery Management Options

Six management options and corresponding management measures were set forth in January of 1981 in a document entitled "Proposed Plan for Managing the 1981 Salmon Fisheries off the Coast of California, Oregon and Washington." Three options were developed by the Council's Salmon Plan Development Team (Team); of these, one option was considered to contain restrictions necessary to meet the Council's stated goals, another option was slightly more liberal and the third was slightly more restrictive. The other three options, one much more restrictive and two much less restrictive, were proposed by representatives of the commercial trollers, recreational fishermen, and treaty-Indian fishery interests. This document was widely distributed. All options were considered at six public review hearings in the three coastal states and in Idaho. As a result of these hearings and written comments on the proposed plan, the Team refined the resultant management packages and analyzed their impacts. The Council adopted the management measures contained in the 1981 amendment following its review of the Team's analysis.

1981 Management Measures

The Council selected management measures which are intended to prevent overfishing in the ocean fisheries, to achieve treaty-Indian allocations, to minimize impacts on weaker salmon stocks, while equitably apportioning the increased regulatory burden, and minimizing shifts in fishing effort along the coast.

For California, the Council adopted management measures that are a combination of seasonal restrictions and harvest guidelines. The seasonal controls allow commercial fishing from May 1 to May 15 for chinook salmon only, with an all-species season from May 16 to May 31 and from July 1 to September 30. The recreational season is open now and will close November 15. Harvest guidelines permit a commercial catch of 300,000 chinook north of Point Arena and 265,000 chinook south of that point. Recreational guidelines permit catches of 15,000 and 115,000 north and south of Point Arena respectively, with a two fish daily bag limit. The seasons for either user group in either area will be closed for the year by the Director, Northwest Region, NMFS (Regional Director), if that particular guideline is reached, before the scheduled end of the 1981 season. Unused portions of the harvest are to be transferred to the other user group in those areas, but not between areas.

For Oregon, the Council adopted management measures for the commercial fishery south of Cape Falcon, which provide for an all-species-except-coho season from May 1 to May 31, and an all-species season from July 1 to September 8. The total troll catch of coho salmon south of Cape Falcon (including California) cannot exceed 548,000 fish. Procedures for inseason control, described later, provide that the

fishery will close when 548,000 coho are taken. A chinook-only season south of Cape Falcon opens on September 8 and closes on October 31. If it is necessary to close the all-species fishery before September 8, a special chinook fishery using only whole bait or 5-inch or longer salmon plugs would begin immediately from Cape Falcon to Cape Sebastian and would end on September 8. The recreational season is scheduled for May 15 to September 20 for the Oregon coast, and a chinook-only recreational fishery is scheduled south of Cape Blanco from September 21 to October 31. The bag limit is two fish per day. Inseason control of coho harvests also may close the recreational fishery when 224,000 coho are taken south of Cape Falcon (including California).

For the ocean fisheries off Oregon north of Cape Falcon and off Washington, the Council adopted management measures that allow commercial trolling for all salmon except coho from May 1 to May 31, and for all species of salmon from July 15 to September 1. The recreational season is from May 23 to September 7 with a daily bag limit of two fish per day, except that three fish per day, only two of which may be chinook and or coho, may be taken north of the mouth of the Queets River. Minimum size limit for coho for the recreational fishery is increased from 16 to 20 inches off Washington only. The coho harvest is limited to 372,000 troll-caught coho and a 248,000 recreational coho catch unless inseason information on the stocks and harvests require changing these numbers.

For the four treaty tribes fishing at their usual and accustomed fishing grounds in the ocean, the all-salmon season is from May 1 to October 31. The coho minimum size limit is 16 inches and the chinook minimum size limit is 28 inches except for persons exercising rights under the Treaty with the Makah for whom the chinook minimum size limit is 24 inches.

Inseason Management Procedures

A procedure for inseason management review, applicable only to coho off Washington and Oregon, was included in the 1980 regulations and, with some modification, is included also for the 1981 season. The inseason review is adopted again in recognition that preseason estimates of coho abundance north of Cape Falcon, Oregon, (i.e., the Washington Production Projection area or WPP) are less accurate than inseason estimates made after catch and catch-per-effort data are available. Projections of total ocean harvest for coho in the WPP area and the Oregon Production Index (OPI) area (i.e., south from Leadbetter Point, Washington) early in the season are subject to a variety of factors outside the Council's control (e.g., availability of albacore tuna as substitute targets for commercial trollers, weather conditions, salmon prices, and vessel operating costs). The inseason procedure provides for monitoring the fishery and updating the validity of estimates and projections for coho as the season progresses and more data are available. Current data may (1) verify that original stock estimates were accurate and that the original seasons should not be changed; (2) indicate that original stock abundance was overestimated and that the fishery should be closed immediately or earlier than originally planned; or (3) indicate that original stock abundance was underestimated and that the originally planned season should be extended or that the fishery should be reopened if prematurely closed by the Regional Director, as described below. After the opening of the all-species season, 21 days elapse before reliable catch and effort information is available for preliminary assessments. The preliminary assessments will be published in the **Federal Register**. After an additional 7 days of data are accumulated, plus 6 more days of agency analysis, final assessments are completed and recommendations are proposed by the State agencies. Agency reports are available on day 36. Two days are required for the Team to review the reports and prepare its recommendations (a process that was omitted in 1980), bringing the total elapsed time to 38 days for 1981. This is the absolute minimum time for NMFS and Team action. The Council's Scientific and Statistical Committee and its Salmon Advisory Subpanel meets with the Council on the 39th day. The Regional Director of NMFS makes his decision on the 40th day. Allowing two days for drafting decision documents, the decision will be filed with the Federal Register and becomes effective on the 43rd day. Current internal DOC review and E.O. 12291 requirements of a 10 day review by the Office of Management and Budget could extend this date even further. An exemption, if granted, could allow the 43 day response time to be more realistic.

Because the inseason management procedures would require a minimum of 43 days for implementation, it is possible that allowable harvest guidelines may be reached before that time. For this reason, separate WPP or OPI harvest guidelines are established for both the ocean troll and recreational fisheries, based on 1971–75 harvest ratios. If projections based on catch data indicate that a WPP or OPI harvest guideline will be reached by either the troll or recreational fishery before the 43rd day of the all-species troll season, then the Regional Director will publish a notice in the **Federal Register** as soon as possible before the projected attainment of the harvest guideline and will close the ocean troll and/or recreational fisheries in the affected areas on the date the harvest guideline is predicted to be attained. If the WPP guideline is reached, the area closed will be north of Cape Falcon; if the OPI guideline is reached, the area closed will be south of Cape Falcon to the Oregon-California border. For each area, the Regional Director will specify whether the troll or recreational fishery, or both, would be closed on that date.

The inseason management process will still continue and, subsequent to a closure, the Regional Director may determine that that fishing could be reopened if current stock abundance were higher than preseason predictions.

Off California, inseason management provisions consist only of provisions to close the fisheries if chinook harvest guidelines are reached before the end of the season. No provision is included for inseason evaluation of previously established harvest guidelines with the possibility of increasing the allowable catch. Data and procedures are not available for evaluating the abundance of the two or three year-classes of chinook salmon that are involved in the fishery.

Experimental Fishery in 1981

In the 1981 amendment, the Council made provision for an experimental fishery, proposed by the Washington Department of Fisheries (WDF), during calendar year 1981. The dimensions of that experimental fishery are as follows:

(a) *Area:* between Leadbetter Point, Washington (46°38'10" N. lat.) and Cape Falcon, Oregon (45°46'00" N. lat.), shoreward of a line 12 miles from the baseline from which the territorial sea is measured;

(b) *Season:* commences on September 20 and terminates on October 3;

(c) *Participants:* No more than 10 vessels (to be selected by WDF) each of which shall carry on board a letter of authorization from WDF and an observer placed by WDF.

The Assistant Administrator has determined that it is best to treat the Council's approval of this experimental fishery as a recommendation under Section 661.16 of these emergency regulations. That section provides criteria and procedures for the Regional

Director to use in allowing an experimental fishery. It also contains requirements relating to vessels which participate in the experimental fishery.

Changes in Regulations From 1980

Certain regulations published here implement the 1981 amendment. That is, §§ 661.10, 661.11 and 661.13 implement the 1981 management measures (areas, seasons, bag limits) for the commercial, recreational and treaty-Indian salmon fisheries. Section 661.12 implements the 1981 amendment's provisions regarding inseason management (including harvest guidelines). Section 661.16 implements the 1981 amendment's provision on experimental fisheries; this section also contains guidelines and procedures for the Regional Director to follow in permitting an experimental fishery and provisions regarding the vessels participating in such a fishery.

A new § 661.17, on scientific research activities, implements the Magnuson Act policy on this subject. It has been added with the aim of reducing enforcement activities against scientific research vessels which engage in scientific research activities on salmon.

Certain definitions in § 661.5 have been modified from the 1980 regulations. The definitions of commercial and recreational fishing have been changed in order to maximize the enforceability of this Part. The definitions of the OPI and WWP Areas have been modified to incorporate the original intent of utilizing these terms for inseason management.

Some sections (certain definitions in § 661.5 and certain prohibitions in § 661.7) from the 1980 regulations have been rewritten to track the language of the Magnuson Act. Various other sections have been reworded for purposes of clarity or have been consolidated, without substantive change from the 1980 regulations.

Supporting Documents and Data Sources

The salmon FMP and the 1981 amendment incorporate by reference a number of documents and data sources utilized in deriving salmon fishery managment measures. These documents and data sources or copies thereof will be made available to interested parties at reasonable times and places, and at a reasonable cost (if personal copies are desired), upon request to: H. A. Larkins, Regional Director, NMFS, 1700 Westlake Avenue, North, Seattle, Washington, 98109 (206) 442–7575.

Classification

The Assistant Administrator has determined that this amendment to the FMP is necessary and appropriate for conservation and management of the salmon fisheries resources off the coasts of California, Oregon and Washington, and that it is consistent with the Magnuson Act, including the national standards, and other applicable law, including treaty obligations.

The amendment has been initially approved and comments thereon are requested for a 45 day period. Recognizing the critical need for specific regulations for the 1981 ocean salmon fisheries, the Assistant Administrator has determined that an emergency exists and that these regulations are issued under Section 305(e) of the Magnuson Act. He has determined that continuance of the 1980 regulations would not provide the safeguards necessary for the resource, and it is necessary to promulgate these emergency regulations immediately.

The Assistant Administrator also finds that, because of the emergency situation, the emergency regulations must be promulgated prior to publication of notice of proposed rulemaking.

The Assistant Administrator finds for good cause that the reasons justifying promulgating emergency regulations under Section 305(e) of the Magnuson Act also make it impracticable and contrary to the public interest to provide notice and opportunity for comment upon, or to delay for 30 days the effective date of these emergency regulations, under the provisions of Section 553 (b) and (d) of the Administrative Procedure Act, 5 U.S.C. 551 *et seq.*

The final supplement to the environmental impact statement (SEIS) for this action, which supplements the original environmental impact statement and previous supplements prepared for the FMP, is on file with the Environmental Protection Agency. A notice of availability of this SEIS was published on May 1, 1981 (46 FR 24674), and the 30-day cooling-off period required by the National Environmental Policy Act of 1969, as amended, 42 U.S.C. 4321 *et seq.*, and regulations promulgated by the Council on Environmental Quality, 40 CFR Part 1500 *et seq.*, has run.

The NOAA Acting Administrator has determined that the FMP does not constitute a major rule under E.O. 12291 requiring a regulatory impact analysis. However, a regulatory impact review/initial flexibility analysis has been prepared. This review focuses on the issues and problems in the fishery and contains an analysis of the expected impacts of the adopted management measures and alternative management options. Some issues could only be partially analyzed because of data limitations. The review supports the determination that the proposed regulations is not likely to: result in an annual effect on the economy of $100 million or more; result in a major increase in costs or prices for consumers, the salmon industry, government agencies, or geographic regions; or have significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of U.S.-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The regulatory impact review also demonstrates that the regulations to implement the 1981 amendment to the plan comply with the requirements of Section 2 of E.O. 12291:

(a) The management measures specified in the 1981 amendment are based upon adequate information concerning the need for the consequences of regulation of the salmon fisheries;

(b) The potential benefits to society from regulation of the salmon fisheries outweigh the potential costs to society;

(c) The regulatory objectives chosen maximize the net benefits to society; and

(d) Alternative approaches to regulatory objectives which involved the least net cost to society were chosen.

The NOAA Acting Administrator has determined that the resource emergency which justifies the promulgation of emergency regulations under Section 305(e) of the Magnuson Act also constitutes an emergency situation under Section 8(a)(1) of E.O. 12291. Because it is imperative to implement the 1981 amendment immediately, it is impracticable to comply with Section 3(c)(3), which requires that NOAA transmit to the Director of the Office of Management and Budget (OMB) a copy of every final non-major rule, at least 10 days prior to publication. However, a copy of these emergency regulations and the regulatory impact review has been transmitted to the Director of OMB.

The NOAA Acting Administrator has determined that the rules implementing the 1981 amendment will have a significant economic impact on a substantial number of small entities, for purposes of the Regulatory Flexibility Act, 5 U.S.C. 601–12. An initial regulatory flexibility analysis (IRFA) has been prepared in conjunction with the regulatory impact review. A summary of the IRFA will be included in the preamble to the proposed regulations when those proposed rules

are published in the **Federal Register**, as required by 5 U.S.C. 603(a); the summary is not included here because the requirements of 5 U.S.C 603–604 do not apply to rules (such as these emergency regulations) which are exempted, for good cause from the requirements of 5 U.S.C. 553 regarding publication of a general notice of proposed rulemaking.

Neither the emergency regulations nor the FMP, as amended, purport to "conduct or sponsor the collection of information," which activities would be subject to the Paperwork Reduction Act requirements of 44 U.S.C. 3507.

Dated: June 5, 1981.

Robert K. Crowell,

Deputy Executive Director, National Marine Fisheries Service.

For the reasons set out in the preamble, 50 CFR Part 661 is revised to read as follows:

1. The authority citation for Part 661 reads as follows:

Authority: 16 U.S.C. 1801 *et seq.*

2. Part 661, including the title, is revised to read as follows:

PART 661—OCEAN SALMON FISHERIES OFF THE COASTS OF CALIFORNIA, OREGON, AND WASHINGTON

Sec.

661.1 Purpose.
661.2 Relation to U.S.-Canada Sockeye and Pink Salmon Convention.
661.3 Relation to State laws.
661.4 Effective dates.
661.5 Definitions.
661.6 Salmon management sub-areas.
661.7 General restrictions.
661.8 Facilitation of enforcement.
661.9 Penalties.
661.10 Commercial fishing.
661.11 Recreational fishing.
661.12 In-Season adjustments.
661.13 Treaty Indian fishing.
661.14 Emergency regulations.
661.15 Catch reports.
661.16 Experimental fisheries.
661.17 Scientific research.

Authority: 16 U.S.C. 1801 *et seq.*

§ 661.1 Purpose.

The purpose of this Part 661 is to provide for the management of the salmon fisheries off the coasts of Washington, Oregon and California in the Fishery Conservation Zone (the FCZ, also known as the 3-to-200 mile zone) over which the United States exercises exclusive fishery management authority (i.e., the Pacific Fishery Management Council Fishery Management Area). This Part 661 implements the Pacific Council's Fishery Management Plan for Commercial and Recreational Salmon Fisheries off the Coasts of Washington, Oregon, and California, pursuant to authority conferred by the Magnuson Fishery Conservation and Management Act.

§ 661.2 Relation to U.S.-Canada sockeye and salmon convention.

This Part 661 does not apply to fishing for pink and sockeye salmon conducted under the Convention for the Protection, Preservation and Extension of the Sockeye Salmon Fishery of the Fraser River System as amended by the Pink Salmon Protocol, in U.S. Convention Waters between 48° North latitude and the provisional international boundary between the United States and Canada.

§ 661.3 Relation to State laws.

This Part 661 recognizes that any state law which pertains to vessels registered under the laws of that state while in the Fishery Management Area, and which is consistent with the Salmon Management Plan, including any state landing law, shall continue to have force and effect with respect to fishing activities addressed herein.

§ 661.4 Effective dates.

These regulations shall become effective as Emergency Regulations upon the date of filing with the **Federal Register**, and shall remain in effect for 45 days unless extended or replaced by Final Regulations. Any Final Regulations duly promulgated shall be effective until superseded or otherwise modified, except that those portions of §§ 661.10–661.12 relating to Sub-Area C (the FCZ adjacent to California) shall remain in effect no longer than the 1981 fishing season, after which time those portions of §§ 661.10–661.12 of the 1980 ocean salmon fishing regulations (45 FR 50764) relating to the FCZ adjacent to California shall again become effective for that area unless superseded or otherwise modified.

§ 661.5 Definitions.

(a) *Act*—means the Magnuson Fishery Conservation and Management Act, 16 U.S.C. 1801–1882.

(b) *Authorized Officer*—means:

(1) Any commissioned, warrant, or petty officer of the Coast Guard;

(2) Any certified enforcement agent or special agent of the National Marine Fisheries Service;

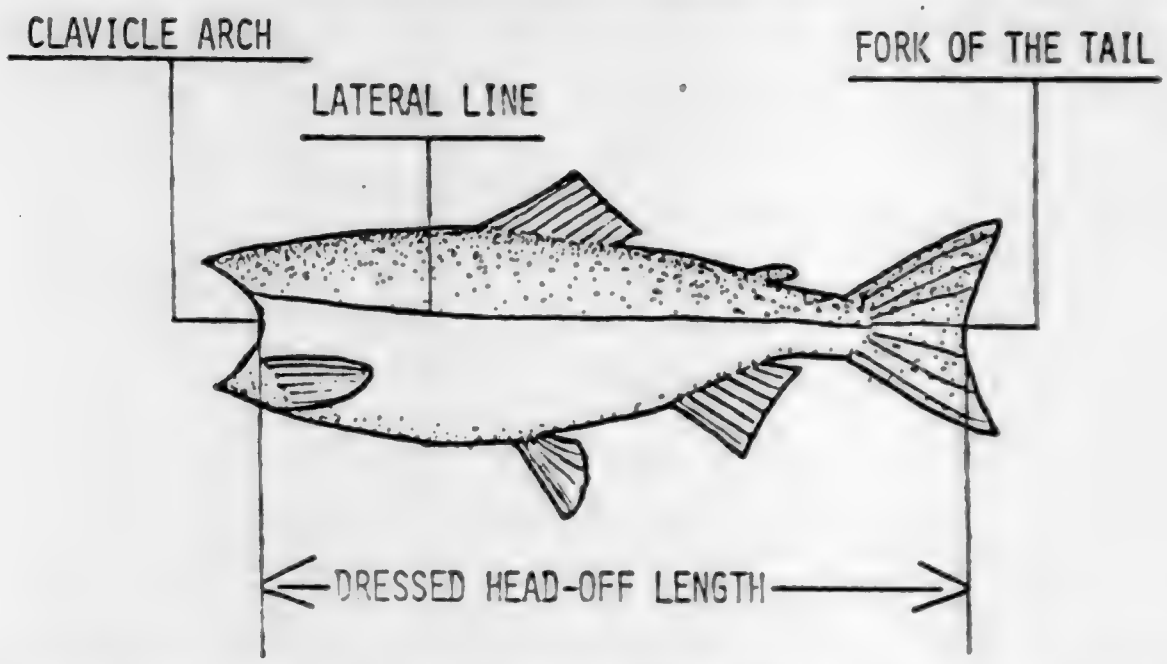
(3) Any officer designated by the head of any Federal or State agency which has entered into an agreement with the Secretary and the Secretary of Transportation to enforce the provisions of the Act; and

(4) Any Coast Guard personnel accompanying and acting under the direction of any person described in paragraph (1) of this subsection.

(c) *Commercial fishing*—means fishing with troll fishing gear as defined in paragraph (v) of this section, or fishing for the purpose of sale or barter of the catch.

(d) *Council*—means the Pacific Management Council.

(e) *Dressed, Head-off Length of Salmon*—means the shortest distance between the mid-point of the clavicle arch (see illustration) and the fork of the tail, measured along the lateral line while the fish is lying on its side, without resort of any force or mutilation of the fish other than removal of the head, gills, and entrails.



(f) *Dressed, Head-off Salmon*—means salmon that have been beheaded, gilled and gutted, without further separation of vertebrae, and are either being prepared for on-board freezing, or are frozen and will remain frozen until landed.

(g) *Fishing*—means:

(1) The catching, taking or harvesting of fish;

(2) The attempted catching, taking or harvesting of fish; or

(3) Any other activity which can reasonably be expected to result in the catching, taking or harvesting of fish, or

(4) Any operations at sea in support of, or in preparation for, any activity described in paragraph (g)(1) through (g)(3) of this section.

(h) *Fishing Vessel*—means any boat, ship or, other craft which is used for, equipped to be used for, or of a type which is normally used for fishing.

(i) *Freezer Trolling Vessel*—means a fishing vessel, equipped with troll fishing gear, which has a present capability for (1) on-board freezing of the catch, *and* (2) storage of the fish in a frozen condition until they are landed.

(j) *Fishery Management Area*—means the Fishery Conservation Zone (FCZ) off the coast of Washington, Oregon and California between 3 and 200 miles offshore, and bounded on the north by the Provisional International Boundary between the U.S. and Canada, and bounded on the south by International Boundary between the U.S. and Mexico.

(k) *Land* or *Landing*—means bringing fish to shore or off-loading fish from a fishing vessel.

(l) *ODF&W*—means the Oregon Department of Fish and Wildlife.

(m) *Oregon Production Index (OPI) Area*—means marine waters of the territorial sea and the FCZ south of a line extended due west from Leadbetter Point, Washington, at 46°38'10" N. latitude.

(n) *Recreational Fishing*—means fishing with recreational fishing gear as defined in paragraph (o) of this section and not for the purpose of sale or barter.

(o) *Recreation fishing gear*—means conventional angling tackle consisting of a rod, reel, line, and hooks with bait or lures attached.

(p) *Regional Director*—means the Regional Director of the Northwest Region of the National Marine Fisheries Service, or his designee.

(q) *Salmon*—means any anadromous species of the family Salmonidae and genus *Oncorhynchus*, commonly known as Pacific salmon, including but not limited to:

Chinook (King) salmon—*Oncorhynchus tshawytscha.*

Coho (Silver) salmon—*Oncorhynchus kisutch.*

Pink (Humpback) salmon—*Oncorhynchus gorbuscha.*

Chum (Dog) salmon—*Oncorhynchus keta.*

Sockeye (Red) salmon—*Oncorhynchus nerka.*

(r) *Secretary*—means the Secretary of Commerce or a designee.

(s) *Single, barbless hook*—means a hook with a single shank and point, with no secondary point or barb curving or projecting in any other direction. Hooks manufactured with barbs can be made "barbless" by forcing the point of the barb flat against the main part of the point.

(t) *Sub-area*—means one of the three salmon management subdivisions of the Fishery Management Area, as specifically described in § 661.6(a).

(u) *Total length of salmon*—means the shortest distance between the tip of the snout or jaw (whichever extends furthest while the mouth is closed) and the tip of the longest lobe of the tail, without resort to any force or mutilation of the salmon other than fanning or swinging the tail.

(v) *Troll fishing gear*—means fishing gear that consists of one or more lines that drag hooks with bait or lures behind a moving fishing vessel, *and* which lines originate from a spool or receptacle which is affixed to the vessel during the fishing operation, which spool or receptacle is not disengaged from the vessel at any time during the fishing operation.

(w) *Washington Production Projection (WPP) Area*—means marine waters of the territorial sea and the FCZ, between the U.S.-Canada boundary [as defined § 661.6(a)(1) (i) and (ii)] and a line

extended due west from Cape Falcon, Oregon, at 45°46′00″, N. latitude. .

(x) *WDF*—means the Washington State Department of Fisheries.

§ 661.6 Salmon management sub-areas.

(a) The Fishery Management Area shall be divided into the following Sub-Areas for regulation of commercial and recreational salmon fishing, with the following designations and boundaries:

(1) Sub-Area A:

(i) Northeastern boundary—that part of a line connecting the light on Tatoosh Island, Washington, with the light on Bonilla Point on Vancouver Island, British Columbia, southerly of the International Boundary between the U.S. and Canada (at 48°29′37″ N. lat., 124°43′33″ W. long.), and northerly of the point where that line intersects with the boundary of the U.S. territorial sea.

(ii) Northern and northwestern boundary is a line [1] connecting the following coordinates:

48°29′37.19″ N. lat., 124°43′33.19″ W. long.;
48°30′11″ N. lat., 124°47′13″ W. long.;
48°30′22″ N. lat., 124°50′21″ W. long.;
48°30′14″ N. lat., 124°52′52″ W. long.;
48°29′57″ N. lat., 124°59′14″ W. long.;
48°29′44″ N. lat., 125°00′06″ W. long.;
48°28′09″ N. lat., 125°05′47″ W. long.;
48°27′10″ N. lat., 125°08′25″ W. long.;
48°26′47″ N. lat., 125°09′12″ W. long.;
48°20′16″ N. lat., 125°22′48″ W. long.;
48°18′22″ N. lat., 125°29′58″ W. long.;
48°11′05″ N. lat., 125°53′48″ W. long.;
47°49′15″ N. lat., 126°40′57″ W. long.;
47°36′47″ N. lat., 127°11′58″ W. long.;
47°22′00″ N. lat., 127°41′23″ W. long.;
46°42′05″ N. lat., 128°51′56″ W. long.;
46°31′47″ N. lat., 129°07′39″ W. long.;

(iii) Southern boundary: a line extended due West from Cape Falcon, Oregon, at 45°46′00″ N. latitude.

(2) Sub-Area B:

(i) Northern Boundary: A line extended due west from Cape Falcon, Oregon, at 45°46′00″ N. latitude.

(ii) Southern Boundary: A line extended due west from the Oregon-California border at 42°00′00″ N. latitude.

(3) Sub-Area C:

(i) Northern Boundary: A line extended due west from the Oregon-California border at 42°00′00″ N. latitude.

(ii) Southern Boundary: The United States-Mexico International Boundary, which is a line connecting the following coordinates:

32°35′22″ N. lat. 117°27′49″ W. long.;
32°37′37″ N. lat. 117°49′31″ W. long.;
31°07′58″ N. lat. 118°36′18″ W. long.;
30°32′31″ N. lat. 121°51′58″ W. long.

(b) Any person fishing subject to this Part 661 shall be bound by the above described international boundaries, notwithstanding any dispute or negotiation between the United States and any neighboring country regarding their respective jurisdictions, until such time as new boundaries are published by the United States.

(c) The inner boundary of the Fishery Management Area is a line coterminous with the seaward boundaries of the States of Washington, Oregon, and California (the "3-mile limit").

(d) The outer boundary of the Fishery Management Area is a line drawn in such a manner that each point on it is 200 nautical miles from the baseline from which the territorial sea is measured, or is a provisional or permanent international boundary between the United States and Canada or Mexico.

§ 661.7 General restrictions.

The following restrictions apply to all salmon fishing in Sub-Areas A through C, except that the restrictions in this Part 661 shall not apply to fishing for pink and sockeye salmon regulated under the Convention for the Protection, Preservation, and Extension of the Sockeye Salmon Fishery of the Fraser River System, as amended by the Pink Salmon Protocol, north of 48° north latitude.

(a) No person shall use nets to fish for salmon in the Fishery Management Area, except that a hand-held net may be used to bring hooked salmon on board a vessel.

(b) No person shall fish for, or take and retain any species of salmon:

(1) During closed seasons or in closed areas specified in this Part;

(2) Once any catch limit specified in this Part is attained;

(3) By means of gear or methods other than recreational fishing gear or troll fishing gear as defined in this Part 661; or

(4) In violation of any Field order issued under § 661.12.

(c) No person shall take and retain any species of salmon which is less than the minimum length specified in this Part [See §§ 661.7 (d), (e), (f), and (h); § 661.10(c); and § 661.11(c), regarding minimum lengths for commercially and recreationally caught fish, and exceptions for "Dressed, Head-off" salmon aboard a "Freezer Trolling vessel"].

(d) No person shall possess on board a fishing vessel in the Fishery Management Area any salmon for which a minimum total length is set by these regulations, in such condition that its total length cannot be determined; except that "Dressed, Head-off" salmon [as defined in § 661.5(f)] may be possessed aboard a "Freezer Trolling Vessel" [as defined in § 661.5(i)]. *Exception:* see Paragraph (h) of this section.

(e) No person while fishing shall possess on a fishing vessel during an open season in any Sub-Area, any salmon that is less than the minimum total length for that species in that Sub-area; except that "Dressed, Head-off" Salmon [as defined in § 661.5(f)] aboard a "Freezer Trolling Vessel" [as defined in § 661.5(i)] shall not be less than the "Dressed, Head-off length" [as defined in § 661.5(e)] for that species in that Sub-Area. *Exception:* see paragraph (h) of this section.

(f) No person, while on board a fishing vessel, shall multilate or otherwise disfigure any salmon in a manner that extends its length to conform to any minimum "Total Length" or "Dressed, Head-off length" requirement specified in this Part. Salmon may be gilled and gutted, if in doing so there is no separation of vertebrae. In addition, on board a "Freezer Trolling Vessel" [as defined in § 615.5(i)] salmon may be prepared [as defined in § 661.5(f)] for on-board freezing, if in doing so there is no further separation of vertebrae. *Exception:* see Paragraph (h) of this section.

(g) No person shall fail to return to the water immediately and with the least possible injury any salmon the retention of which is prohibited by this Part.

(h) No person shall remove the head of any salmon caught in the Fishery Management Area, nor possess a salmon with the head removed, if that salmon has been marked by removal of the adipose fin, which missing fin indicates that a Coded Wire Tag has been implanted in the head of the fish.

(i) No person shall possess, have custody or control of, ship, transport, offer for sale, sell, purchase, import, export, or land, any species of salmon or salmon part which was taken or retained in violation of the Act, this Part 661, or any regulation issued under the Act.

§ 661.8 Facilitation of enforcement.

(a) No person shall:

(1) Refuse to permit an Authorized Officer to board a fishing vessel subject to such person's control for purposes of conducting any search or inspection in connection with the enforcement of this Act, this Part, or any other regulation issued under the Act;

[1] The line joining these coordinates is the provisional international boundary of the U.S. FCZ as shown on NOAA/NOS Charts #18480 and #18002.

V 46 JE 10 81 UMI

(2) Forcibly assault, resist, oppose, impede, intimidate or interfere with any Authorized Officer in the conduct of any search or inspection described in Paragraph (a)(1) of this section;

(3) Resist a lawful arrest for any act prohibited by this Part; or

(4) Interfere with, delay, or prevent, by any means, the apprehension or arrest of another person knowing that such other person has committed any act prohibited by this Part.

(b) Each person aboard a fishing vessel shall comply immediately with instructions given by Authorized Officers to facilitate safe boarding and inspection of the vessel for purposes of enforcing the Act and this Part.

§ 661.9 Penalties.

Any person or fishing vessel found to be in violation of this Part 661 will be subject to the civil and criminal penalty provisions and forfeiture provisions prescribed in the Act.

§ 661.10 Commercial fishing.

(a) *Open seasons and areas.* The Fishery Management Area is closed to commercial salmon fishing as opened by this Part 661 or superseding regulations. All open fishing periods shall commence at 0001 hours and terminate at 2400 hours local time on the dates specified herein.

(1) Sub-Area A (U.S.-Canada Border to Cape Falcon, Oregon):

(i) The season for all salmon species, except coho, shall begin on May 1, and terminate on May 31.

(ii) The season for all salmon species, including coho, shall begin on July 15, and terminate on September 1.

(2) Sub-Area B (Cape Falcon to the Oregon-California border):

(i) The season for all salmon species, except coho, shall begin on May 1, and terminate on May 31.

(ii) The season for all salmon species, including coho, shall begin on July 1, and terminate on September 8.

(iii) The season for all salmon species, except coho, shall begin on September 9, and terminate on October 31.

(iv) If the July 1—September 8 season is terminated prior to September 8 pursuant to § 661.12, then a season for all salmon species, except coho, shall begin on the date of termination and continue until September 8 in that part of Sub-Area B between Cape Falcon and Cape Sebastian (at 42°19'26" N. lat.). During such season, no person shall use any fishing gear other than hooks with whole, natural bait, or salmon plugs at least five (5) inches in length.

(3) Sub-Area C (Oregon-California border to the U.S.-Mexico border):

(i) The season for all salmon species, except coho, shall begin on May 1, and terminate on May 15.

(ii) The season for all salmon species, including coho, shall begin on May 16, and terminate on May 31.

(iii) The season for all salmon species including coho, shall begin on July 1, and terminate on September 30.

(b) *Gear restrictions.* (1) No person shall engage in commercial salmon fishing using other than troll fishing gear [as defined in § 661.5(v)] in the Fishery Management Area; however in Subarea C, troll fishing gear need to be affixed to the fishing vessel as specified in § 661.5(v).

(2) No person shall engage in commercial salmon fishing in the Fishery Management Area using other than single, barbless hooks [as defined in § 661.5(s)] prior to July 15 in Subarea A, prior to July 1 in Subarea B, or prior to May 16 in Subarea C, except that bait hooks with natural bait attached as the primary attraction and hooks on artificial salmon plugs may be barbed. Spoons, wobblers, dodgers, flies and flexible plastic lures shall not be considered artificial salmon plugs under this sub-paragraph, and therefore must be equipped with barbless hooks in all Subareas during the time periods described in this Paragraph § 661.10(b)(2).

(c) *Length Restrictions.* Minimum total lengths of salmon and minimum dressed, head-off lengths of salmon are as follows:

	Minimum total length [1]	Minimum dressed head-off length [1]
Subarea A:		
Chinook	28	21½
Coho	16	12
Subarea B:		
Chinook	26	19½
Coho	16	12
Subarea C:		
Chinook	26	19½
Coho	22	16½
All subareas:		
Species other than Chinook and Coho	None	None

[1] In inches.

(d) *Steelhead.* No person engaged in commercial salmon fishing shall take and retain, or possess, any steelhead *(Salmo gairdneri)* within the Fishery Management Area.

(e) *Restriction on use of commercial troll fishing gear for recreational fishing.* No person while on a fishing vessel with troll fishing gear on board shall use any part of that troll fishing gear to engage in recreational fishing for salmon.

§ 661.11 Recreational fishing.

(a) *Open seasons and areas.* The Fishery Management Area is closed to recreational salmon fishing except as opened by this Part 661 or by superseding regulations. All seasons shall begin at 0001 hours and terminate at 2400 hours local time on the dates specified herein.

(1) In Subarea A (U.S.-Canada border to Cape Falcon, Oregon), the season for all salmon species shall begin on May 23 and terminate on September 7.

(2) In Subarea B (Cape Falcon to Oregon-California border), the season for all salmon species shall begin on May 15 and terminate on September 20.

(3) In that part of Subarea B between the Oregon-California border and Cape Blanco (42°15'14" N. lat.), a season for all species of salmon, except coho, shall begin on September 21 and terminate on October 31.

(4) In Subarea C (Oregon-California border to the U.S.-Mexico border) the season for all salmon species shall begin on the Saturday closest to February 15 and terminate on the Sunday closest to November 15. (For calendar year 1981, the opening date is February 14 and the closing date is November 15.)

(b) *Gear restrictions.*

(1) No person shall engage in recreational salmon fishing in the Fishery Management Area using other than recreational fishing gear [as defined in § 661.5(o)], to which may be attached not more than one artificial lure or natural bait, with no more than four single or multiple hooks.

(2) No person shall use more than one rod and line for recreational salmon fishing in Subareas A and B; there shall be no limit to the number of rods and/or lines used for recreational salmon fishing in Subarea C.

(3) No person engaged in recreational fishing for salmon in Subarea C may use weights of more than four (4) pounds attached directly to the line.

(4) Recreational fishing gear (as defined in § 661.5(o)) shall be held by hand by the angler while the angler is playing a hooked fish and reducing it to possession.

(c) *Length restrictions.*

Minimum total lengths of salmon are as follows:

	Minimum total length (in inches)
Subarea A:	
Chinook	24
Coho: FCZ off Washington	20
Coho: FCZ off Oregon	16

	Minimum total length (in inches)
Subarea B:	
Chinook	22
Coho	16
Subarea C:	
Chinook and Coho	[1] 22
All subareas:	
Species other than Chinook and Coho	None

[1] Except that one chinook or coho salmon per day may be less than 22 inches but not less than 20 inches.

(d) *Catch limits.* No person shall fish for, or take and retain, or possess more than two salmon per day while recreationally fishing in the Fishery Management Area; *except* that three salmon, only two of which may be chinook or coho, may be taken and retained, or possessed per day while recreationally fishing in the area between the mouth of the Queets River (47°31'42" N. lat.) and the U.S.-Canada border (WDF Salmon Punch-card Areas 3 and 4).

§ 661.12 In-season adjustments.

(a) *Automatic fishing season closures based on harvest guidelines.* Harvest guidelines for the salmon fisheries subject to this Part are:

(1) The WPP Area (U.S.-Canada border to Cape Falcon, Oregon):

The total harvest quota for coho salmon has been established at 620,000, of which 40% or 248,000 coho are allocated to the recreational fishery and 60% or 372,000 to the commerical fishery.

(2) The OPI south of Cape Falcon, including California: The total harvest quota for coho salmon has been established at 772,000 coho salmon, of which 29% or 224,000 salmon are allocated to the recreational fishery, and 71% or 548,000 coho to the commercial fishery; *provided that,* the 548,000 coho allocated to the commerical fishery shall be reduced by the number of coho projected to be taken incidentally during the open season specified in § 661.10(a)(2)(iv).

(3) The California Area (marine waters of the territorial sea and the FCZ between the Oregon-California border and the U.S.-Mexico Border):

(i) For that part of the California Area north of Point Arena (38°57'20" N. lat.) the total harvest quota for chinook salmon has been established at 315,000 salmon, with 300,000 allocated to the commerical fishery and 15,000 to the recreational fishery.

(ii) For that part of the California Area south of Point Arena, the total harvest quota for chinook salmon has been established at 380,000 salmon with 265,000 allocated to the commerical fishery and 115,000 to the recreational fishery.

(4) When a harvest guideline for the commercial, the recreational fishery, or both, in any Area or specified portion of an Area is projected by the Regional Director [for the area described in Paragraph (a)(3) of this section, the Southwest Regional Director of the National Marine Fisheries Service shall make the projections] to be reached prior to the end of a season scheduled in this Part 661, the Regional Director shall, by publication of a field order in the **Federal Register**, close the commercial or recreational fishery, or both, as of the date the harvest guideline will be reached in that Area or specified portion of an Area.

(5) If it appears that either the commercial or recreational fishery will not catch all of its quota of chinook salmon in either the area north of Point Arena or the area south of Point Arena in the California Area by the end of the scheduled season, the surplus that will not be harvested shall be re-allocated to the other fishery in that portion of the California Area by field order of the Regional Director upon recommendation of the Southwest Regional Director.

(6) Availability of Data: The Regional Director shall compile in aggregate form all data and information relevant to the projections and field orders specified in Paragraph (a) of this section and shall make them available for public review during normal office hours at the Northwest Regional Office, 1700 Westlake Avenue North, Seattle, Washington 98109, or subsequent address of that office. Data and information pertaining to the California Area shall also be available for public review at the Southwest Regional Office of the National Marine Fisheries Service, 300 South Ferry Street, Terminal Island, California 90731.

(7) Public Comment: Interested persons may submit comments, relevant to the actions taken as described in Paragraph (a) of this section, to the Regional Director from the date of filing any required notices with the **Federal Register** through the 15th day following any closure of fishing.

(b) *Modifications of regulations based on in-season developments.*

(1) In addition to automatic fishing season closures based on harvest guidelines, the Regional Director may also modify the open seasons and catch limits in § 661.10 and § 661.11 in Sub-Areas A and B by issuing a field order in accordance with the provisions of this section, if the Regional Director determines that:

(i) Actual conditions of abundance and distribution of coho salmon, and of fishing effort and catches, differ from conditions anticipated prior to the opening of the fishing season; or

(ii) In-season modifications are reasonably necessary to provide adequate escapement of coho salmon from the ocean fisheries for spawning, to meet treaty Indian allocation requirements, or to maintain the historical harvest ratio between commercial and recreational salmon fisheries as set forth in Paragraph (b)(4) of this section.

(2) Procedures for *Preliminary* Determinations: Within 24 days following the opening of an All-Salmon Species season in Sub-Areas A or B, or the working day closest following, the Regional Director shall, based on catch data, make a preliminary projection of total ocean harvests that will occur by the end of the commercial and recreational salmon fishing seasons in the WPP and OPI Areas. The preliminary projections and determinations shall be published in the **Federal Register** and disseminated to public news media as soon as practicable after they are made.

(3) Procedures for *Final* Determinations and Field Orders: Within 40 days following the opening of an All-Salmon Species season in Sub-Areas A or B (hereinafter referred to as Day-40), or the working day closest following, the Regional Director, following consultation with the Chairman of the Council, the Director of WDF, and the Director of ODF&W, and taking into consideration all information received as provided for in this paragraph, shall estimate coho stock abundances in the WPP and OPI Areas and make a final projection of fishing effort and total ocean harvests that will occur by the end of the scheduled fishing season by the commercial and recreational fisheries. The final determinations by the Regional Director and any field order issued under Paragraph (b) of this section shall be published in the **Federal Register** and disseminated to public news media as soon as practicable after they are made, together with the reasons therefore. The following factors shall be considered in the final projection of coho abundance, ocean fishing effort and coho harvests in the WPP and OPI Areas:

(i) The amount, distribution, and trends of fishing effort and coho salmon catches of the commercial and recreational fisheries in the WPP and OPI areas as of Day-40, compared to similar data and time periods in prior years; and

(ii) The current and historical coho salmon harvest ratios between the

commercial fishery and the recreational fishery, as set forth in Paragraph (b)(4) of this section; and

(iii) Updated estimates of coho salmon abundance and distribution in the WPP and OPI Areas compared to the pre-season WPP and OPI predictions; and

(iv) Any available data from marked-fish recoveries, including analyses of recoveries of coho salmon with implanted coded-wire tags; and

(v) Any other available scientific information relevant to the abundance and distribution of coho salmon stocks, total fishing effort and catches of coho salmon in the WPP or the OPI Areas.

(4) Any modifications of fishing regulations made by the Regional Director under paragraph (b) of this section, shall, insofar as possible, maintain the historical coho salmon harvest ratios between the commercial and recreational fisheries as follows:

(i) For the WPP Area, a 60:40 coho harvest ratio between the commercial and recreational fisheries, respectively.

(ii) For the OPI Area south of Cape Falcon, a 71:29 coho harvest ratio between the commercial and recreational fisheries, respectively.

(5) Availability of Data: The Regional Director shall compile in aggregate form all data relevant to the preliminary projections and final determinations under paragraph (b) of this section, and shall make them available for public review during normal office hours at the Northwest Regional Office of the National Marine Fisheries Service, 1700 Westlake Avenue North, Seattle, Washington 98109, or subsequent address of that office.

(6) Public Comments: Interested persons may submit comments that are relevant to the projections and determinations in paragraphs (b)(2) and (b)(3) of this section to the Regional Director, for at least 10 days following filing with the **Federal Register**.

(c) *Effective Dates.* (1) Any field order issued under Paragraphs (a) or (b) of this section shall be disseminated to public news media and shall be effective on the date specified in the field order or on the date the field order is filed with the **Federal Register**, whichever is later.

(2) Any field order issued under paragraphs (a) or (b) of this section shall remain in effect until the expiration date stated in the order, or until rescinded or superseded; *Provided that* no such field order shall have any effect beyond the end of the calendar year in which it issued, at which time provisions of this part 661 that were superseded by such field order shall again become effective until subsequently modified or superseded.

(d) Nothing contained in this Section shall limit the authority of the Secretary to issue emergency regulations under Section 305(e) of the Act as specified in § 661.14.

§ 661.13 Treaty Indian fishing.

(a) Persons authorized by the Makah Tribe to exercise rights under the Treaty with the Makah may fish for all salmon species in that portion of Sub-Area A north of 48°07'36" North latitude (Sandy Point) and such other areas as may hereafter be authorized for that tribe's treaty fishery by a federal court, from 0001 hours on May 1, to 2400 hours on October 31. Minimum size limits shall be 24-inches for chinook salmon and 16-inches for coho salmon. Except as specified by this paragraph (a), such persons are subject to the provisions of this Part 661, the Act, and any other regulation issued under the Act.

(b) Persons authorized by the Quileute and Hoh Tribes to exercise rights under the Treaty of Olympia, may fish for all salmon species in that portion of Sub-Area A south of 48°07'36" North latitude (Sandy Point) and north of 47°31'42" North latitude (mouth of Queets River), and such other areas as may hereafter be authorized for those tribes' fisheries by a federal court, from 0001 hours on May 1, to 2400 hours on October 31. Except as specified in this paragraph (b), such persons are subject to the provisions of this Part 661, the Act, and any other regulations issued under the Act.

(c) Persons authorized by the Quinault Tribe to exercise rights under the Treaty of Olympia, may fish for all salmon species in that portion of Sub-Area A south of 47°40'06" North latitude (Destruction Island) and north of 46°53'03" North latitude (Point Chehalis), and such other areas as may hereafter be authorized for that tribe's treaty fishery by a federal court, from 0001 hours on May 1, to 2400 hours on October 31. Except as specified by this paragraph (c), such persons are subject to the provisions of this Part 661, the Act, and any other regulations issued under the Act.

(d) The Secretary will give due consideration in promulgating emergency regulations under § 661.14 to the treaty fishing rights of Indian tribes with federally adjudicated usual and accustomed fishing grounds in the area affected by such regulations.

§ 661.14 Emergency regulations.

The Secretary may issue emergency regulations under Section 305(e) of the Act, if the Secretary determines that an emergency involving the salmon resource exists. Such emergency regulations will become effective upon filing with the **Federal Register**. Information on emergency regulations will be disseminated to affected persons through public news media.

§ 661.15 Catch reports.

This Part 661 recognizes that catch and effort data necessary for implementation of this Fishery Management Plan shall be collected by the States of Washington, Oregon and California under existing State data-collection provisions. No additional catch reports will be required of fishermen or processors as long as the data-collection and reporting systems operated by State agencies continue to provide the Secretary with statistical information adequate for management.

§ 661.16 Experimental fisheries.

(a) The Pacific Council may recommend to the Director of the Northwest Region of the National Marine Fisheries Service that experimental fisheries for research purposes be allowed in the Fishery Management Area, as may be proposed by the Council, the Federal Government, State Governments, and Treaty Indian Tribes having usual and accustomed fishing grounds in the Fishery Management Area.

(b) The Regional Director shall not allow any experimental fishery recommended by the Council unless he determines that the purpose, design, and administration of the experimental fishery are consistent with the goals and objectives of the Council's fishery management plan, the national standards (as set forth in § 301(a) of the Act), and other applicable law.

(c) Each vessel participating in any experimental fishery recommended by the Council and allowed by the Regional Director shall be subject to all provisions of this Part 661, except those portions necessarily relating to the purpose and nature of the experimental fishery. These exceptions shall be specified in a letter issued by the Regional Director to each vessel participating in the experimental fishery and that letter shall be carried aboard each participating vessel.

§ 661.17 Scientific research.

Nothing in this Part 661 is intended to inhibit or prevent any scientific or oceanographic research which is conducted in the fishery management area by a scientific research vessel. The Regional Director shall acknowledge any notification he might receive of any scientific or oceanographic research with respect to salmon being conducted

by a scientific research vessel, by issuing to the operator or master of that vessel a letter of acknowledgement, containing information on the purpose and scope (locations and schedules) of the activities. The Regional Director shall transmit copies of such letter to the Council, and to State and Federal administrative and enforcement agencies, to ensure that all concerned parties are aware of the research activities.

Proposed Rules

Federal Register
Vol. 46, No. 111
Wednesday, June 10, 1981

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 989

Raisins Produced From Grapes Grown in California; Varietal Types of Raisins

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This notice of proposed rulemaking would classify Dipped Seedless, and Oleate and Related Seedless, raisins as separate varietal types. Currently, these raisins are included in a category designated Dipped and Related Seedless. Raisins are separated into varietal types to apply volume and quality regulations established under the order The proposal is based on a recommendation of the Raisin Administrative Committee. The Committee works with USDA in administering the order.

DATES: Comments must be received by June 30, 1981.

PROPOSED EFFECTIVE DATE: August 1, 1981.

ADDRESS: Send two copies of comments to the Hearing Clerk, U.S. Department of Agriculture, Room 1077, South Building, Washington, D.C. 20250, where they will be available for public inspection during regular business hours.

FOR FURTHER INFORMATION CONTACT: J. S. Miller, Chief, Specialty Crops Branch, Fruit and Vegetable Division, AMS, USDA, Washington, D.C. 20250 (202) 447–5697.

SUPPLEMENTARY INFORMATION: This proposal has been reviewed under USDA procedures established to implement Executive Order 12291 and has been classified "not significant" and, therefore, it is not a major rule.

William T. Manley, Deputy Administrator, Agricultural Marketing Service, has determined that this action will not have a significant economic impact on a substantial number of entities because it would result in only minimal costs being incurred by the regulated 19 handlers.

J. S. Miller has determined that a comment period of less than 60 days is warranted. The final regulation should be issued by August 1, 1981, the beginning of the 1981–82 crop year, so that handlers can formalize their marketing plans for that crop year.

Information collection (reporting or recordkeeping) under this part are subject to clearance by the Office of Management and Budget and are in the process of review. These information requirements shall not become effective until such time as clearance by the OMB has been obtained.

This action would be taken under § 989.10 of the marketing agreement, and Order No. 989 (7 CFR 989), both as amended, regulating the handling of raisins produced from grapes grown in California (hereinafter referred to collectively as the "order"). The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). Section 989.10 lists seven types of raisins, and provides that the Committee may, subject to the approval of the Secretary, change this list.

The seven listed varietal types are set forth as categories in § 989.110 and the raisins included in each category are defined. One of these is Category (2), Dipped and Related Seedless. That category includes raisins commonly referred to in the industry as water-dipped and soda-dipped, and oleate raisins.

The segment of the raisin industry making water-dipped and soda-dipped raisins is relatively small and is reasonably capable of tailoring supplies of those raisins to market needs. There are approximately 30 dehydrators in the industry capable of making water-dipped and soda-dipped raisins.

Production of oleate raisins is an outgrowth of the production of natural (sun-dried) raisins. Oleate raisins are of relatively recent origin to the U.S. raisin industry and were developed in order to reduce the time required to sun-dry raisins and reduce any problems associated with untimely rains during drying. Each producer making sun-dried raisins also is a potential producer of oleate raisins. There are roughly 4,800 producers making sun-dried raisins. Their number can fluctuate from year-to-year depending upon several factors, the most important of which is the prospective price for raisins versus the price offered by wineries for raisin variety grapes. The large number of producers and the versatility of the Thompson Seedless grape make it vitually impossible to tailor production of these raisins to free tonnage needs.

Currently, if a producer sprays grapes to accelerate the rate of drying, the dried product would be classified as Dipped and Related Seedless raisins. If oleate production is minimal, there would be little effect on any volume control percentages established for Dipped and Related Seedless raisins. However, if production of oleate raisins in any one year is substantial, the reserve percentage for Dipped and Related Seedless raisins would be inflated and the water-dipped segment's portion of the free tonnage for that year would be reduced.

Under the Committee's proposal, water-dipped, soda-dipped, and oleate raisins would be classified on the basis of whether or not they are sun-dried or artificially dried. Therefore, Category (2), "Dipped and Related Seedless" would be changed to "Dipped Seedless" and would include all raisins produced by artificial dehydration of seedless grapes which have or have not been dipped in or sprayed with water, with or without soda, oil, ethyl oleate, methyl oleate, or any other chemical, after such grapes have been removed from the vine and which have not been sulfured prior to drying. This category would not include raisins from Category (1), Natural (sun-dried) Seedless, Category (3), Golden Seedless, and proposed Category (8). Category (8), Oleate and Related Seedless would include all raisins produced by sun-drying of seedless grapes which have been dipped in or sprayed with water, with or without soda, oil, ethyl oleate, methyl oleate or any other chemicals, either while such grapes are on the vine or after they have been removed from the vine. This category would not include raisins in Categories (1), (3), and those proposed to be included in Category (2). The purpose of the proposal is to provide equity between the sun-dried and artificially dehydrated raisin segments of the industry in volume regulation computations.

Because of the similarity in appearance between the water-dipped, soda-dipped, and oleate raisins, the

proposal contains surveillance and identification requirements for the Dipped Seedless category. For the purpose of classifying raisins as Dipped Seedless, handlers would have to make arrangements with the inspection service for it to observe the production of water-dipped, soda-dipped, and any other raisins included in that category, and to classify those raisins as Dipped Seedless. The arrangement would have to be made in accordance with procedures prescribed by the inspection service. Each lot of raisins classified as Dipped Seedless would have to be stored separate and apart from all other varietal types and remain intact until processing and shipment. Any raisins presented for inspection similar in appearance to the raisins in the Dipped Seedless category which were not produced under the surveillance of the inspection service would be considered as raisins in the Oleate and Related Seedless category.

The proposed change in the term "Dipped and Related Seedless" to "Dipped Seedless", and the addition of the new category, "Oleate and Related Seedless" necessitates some conforming changes in Subpart—Supplementary Regulations (7 CFR 989.202–989.233; 45 FR 75164), Subpart—Conversion Factors (7 CFR 989.601), and Subpart—Quality Control (7 CFR 989.701–989.703; 45 FR 65512), and these changes also are proposed in this document.

The proposal follows:

PART 989—RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

Subpart—Administrative Rules and Regulations

1. Section 989.110 of Subpart—Administrative Rules and Regulations (7 CFR 989.102–989.176) is revised to read as follows:

§ 989.110 Changed list of varietal types.

Pursuant to § 989.10, the list of varietal types of raisins contained in that section is changed to include the category "Oleate and Related Seedless" and by specifying definitions for each varietal type category as follows:

* * * * *

(b) Category (2), Dipped Seedless includes all raisins, other than those in Categories (1), (3), and (8), produced by artificial dehydration of seedless grapes which have or have not been dipped in or sprayed with water, with or without soda, oil, ethyl oleate, methyl oleate, or any other chemicals, after such grapes have been removed from the vine.

* * * * *

(h) Category (8), Oleate and Related Seedless includes all raisins, other than those in Categories (1), (2), and (3), produced by sun-drying of seedless grapes which are dipped in or sprayed with water, with or without soda, oil, ethyl oleate, methyl oleate, or any other chemicals either while such grapes are on the vine or after they have been removed from the vine.

(i) For the purpose of classifying any raisins included in Category (2), Dipped Seedless handlers shall request the inspection service to observe the production of any raisins included in that category, and classify them as Dipped Seedless. Such raisins shall be kept separate and apart from all other categories of raisins and this segregation shall be maintained until the raisins have been processed and shipped by the handler. The handler shall make arrangements with the inspection service for this observation and identification, and all arrangements shall be made in accordance with procedures prescribed by the inspection service. Raisins presented for inspection which possess the characteristics of Category (2), Dipped Seedless but were not produced under the surveillance of the inspection service shall be classified by the inspection service as Category (8), Oleate and Related Seedless.

Subpart—Supplementary Regulations

§ 989.210 [Amended]

2. Amend § 989.210 of Subpart—Supplementary Regulations (7 CFR 989.210–989.233; 45 FR 75164) by changing the term "Dipped and Related Seedless", to "Dipped Seedless, and Oleate and Related Seedless".

Subpart—Conversion Factors

§ 989.601 [Amended]

3. The conversion factor table in § 989.601 is revised by changing the term "Dipped and Related Seedless" to "Dipped Seedless" and by adding the varietal type "Oleate and Related Seedless" to the list immediately after "Zante Currant". The conversion factors for "Oleate and Related Seedless" for weight computation "After Stemmer and Blower Processing", and after "Completion of Processing" shall be .94 and .92, respectively.

Subpart—Quality Control

§ 989.701 [Amended]

4. Amend §989.701(b), 989.702, and 989.703 of Subpart—Quality Control (7 CFR 989.701–989.703; 45 FR 65512) by changing the term "Dipped and Related Seedless" wherever that term appears in those sections, to "Dipped Seedless, and Oleate and Related Seedless".

Dated: June 5, 1981.

D. S. Kuryloski,

Deputy Director, Fruit and Vegetable Division.

BILLING CODE 3410-02-M

FEDERAL TRADE COMMISSION

16 CFR Part 13

[File No. 811-0059]

Kennecott Corporation; Proposed Consent Agreement With Analysis To Aid Public Comment

AGENCY: Federal Trade Commission.

ACTION: Proposed Consent Agreement.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order, accepted subject to final Commission approval, would require, among other things, a Stamford, Conn. manufacturer engaged in the production of various products, including fabric air filter bags utilized in the control of industrial air pollution, to timely divest its subsidiary, the Filter Media Division ("FMD"), in accordance with the terms of the order. Pending such divestiture, the firm would be required to operate its prospective acquisition, National Filter Media, as a separately managed entity. The order would further bar the company from certain acquisitions for a period of ten years without prior Commission approval.

DATE: Comments must be received on or before Aug. 10, 1981.

ADDRESS: Comments should be directed to: Office of the Secretary, Federal Trade Commission, 6th St. and Pennsylvania Ave., NW., Washington, D.C. 20580.

FOR FURTHER INFORMATION CONTACT: FTC/C, E. Perry Johnson, Washington, D.C. 20580. (202) 523–3601.

SUPPLEMENTARY INFORMATION: Pursuant to Section 6(f) of the Federal Trade Commission Act, 38 Stat. 721, 15 U.S.C. 46 and § 2.34 of the Commission's Rules of Practice (16 CFR 2.34), notice is hereby given that the following consent agreement containing a consent order to cease and desist and an explanation thereof, having been filed with an accepted, subject to final approval, by the Commission, has been placed on the public record for a period of sixty (60) days. Public comment is invited. Such comments or views will be considered

by the Commission and will be available for inspection and copying at its principal office in accordance with Section 4.9(b)(14) of the Commission's Rules of Practice (16 CFR 4.9(b)(14)).

In the Matter of Kennecott Corporation, a corporation. Agreement containing consent Order File No. 811–0059.

The Federal Trade Commission ("Commission") having initiated an investigation of the proposed acquisition of Dorr-Oliver, Inc. ("Dorr-Oliver") by Kennecott Corporation ("Kennecott"), and it now appearing that Kennecott, as proposed respondent, is willing to enter into an agreement containing an order in settlement of that investigation:

It is hereby agreed by and between Kennecott, by its duly authorized agent and its attorney, and counsel for the Commission, that:

1. Kennecott is a corporation organized, existing, and doing business under and by virtue of the laws of the state of New York, with it principal offices at Ten Stamford Forum, Stamford, Connecticut.

2. Kennecott admits all the jurisdictional facts set forth in the draft of complaint here attached.

3. Kennecott waives:

(a) Any further procedural steps;

(b) The requirement that the Commission's decision contain a statement of findings of fact and conclusions of law; and

(c) All rights to seek judicial review or otherwise to challenge or contest the validity of the order entered pursuant to this agreement.

4. This agreement shall not become part of the public record of the proceeding unless and until it is accepted by the Commission. If this agreement is accepted by the Commission, it, together with the draft of complaint contemplated thereby, will be placed on the public record for a period of sixty days and information in respect thereto publicly released. The Commission thereafter may either withdraw its acceptance of this agreement and so notify Kennecott, in which event it will take such action as it may consider appropriate, or issue and serve its complaint (in such form as the circumstances may require) and decision, in disposition of the proceeding.

5. This agreement is for settlement purposes only and does not constitute an admission by Kennecott that the law has been or would be violated as alleged in the draft of complaint here attached.

6. This agreement contemplates that, if it is accepted by the Commission, and if such acceptance is not subsequently withdrawn by the Commission pursuant to provisions of § 2.34 of the Commission's Rules, the Commission may, without further notice to Kennecott, issue its complaint corresponding in form and substance with the draft of complaint here attached and its decision containing the following order in disposition of the proceeding and make information public with respect thereto. When so entered, the order shall have the same force and effect and may be altered, modified or set aside in the same manner and within the same time provided by statute for other orders. The order shall become final upon service. Delivery by the U.S. Postal Service of the complaint and decision containing the agreed-to-order to Kennecott shall constitute service. Kennecott waives any right it may have to any other manner of service. The complaint may be used in construing the terms of the order, and no agreement, understanding, representation, or interpretation not contained in the order or the agreement, may be used to vary or contradict the terms of the order.

7. Kennecott has read the proposed complaint and order contemplated hereby. Kennecott understands that once the Order has been issued, it will be required to file one or more compliance reports showing that it has fully complied with the order. Kennecott further understands that it may be liable for civil penalties in the amount provided by law for each violation of the order after it becomes final.

Order

I

It is ordered That for the purposes of this order the following definitions shall apply:

1. "Kennecott" means Kennecott Corporation, a corporation organized, existing, and doing business under and by virtue of the laws of the state of New York, with its principal offices at Ten Stamford Forum, Stamford, Connecticut, as well as its officers, employees, agents, its parents, divisions, subsidiaries, affiliates, successors, assigns, and the officers, employees or agents of Kennecott's parents, divisions, subsidiaries, affiliates, successors, or assigns.

2. "Curtiss-Wright" means Curtiss-Wright Corporation, a corporation, organized, existing, and doing business under and by virtue of the laws of the state of Delaware, with its principal offices at One Passaic Street, Wood-Ridge, New Jersey, as well as its officers, employees, agents, its parents, divisions, subsidiaries, affiliates, successors, assigns, and the officers, employees or agents of Curtiss-Wright's parents, divisions, subsidiaries, affiliates, successors, or assigns.

3. "Dorr-Oliver" means Dorr-Oliver Inc., a corporation organized, existing, and doing business under and by virtue of the laws of the state of Delaware with its principal offices at 77 Havemeyer Lane, Stamford, Connecticut, as well as its officers, employees, agents, its parents, divisions, subsidiaries, affiliates, successors, assigns, and the officers, employees or agents of Dorr-Oliver's parents, divisions, subsidiaries, affiliates, successors, or assigns.

4. "Filter Media Division" or "FMD" means all assets, properties, titles to property, interests, rights and privileges of whatever nature, tangible and intangible, including, but not limited to, all real property, buildings, machinery, equipment, raw materials, inventory, customer lists, trade names, patents, patent applications, trademarks, orders for purchase that are unfilled on the date of the divestiture, and all other property of whatever description presently owned or operated, together with all additions, replacements, and improvements hereafter made, by the Filter Media Division of the Kennecott Engineered Systems Company, a division of Kennecott Corporation.

5. "National Filter Media" or "NFM" means the National Filter Media Corporation, a subsidiary of Dorr-Oliver. It includes all assets, properties, titles to property, interests, rights and privileges of whatever nature, tangible and intangible, including, but not limited to, all real property, buildings, machinery, equipment, raw materials, inventory, customer lists, trade names, patents, patent applications, trademarks, orders for purchase that are unfilled on the date of the divestiture, and all other property of whatever description presently owned or operated by NFM.

6. "Relevant Products" means fabric air filter bags, wet filtration media, and cages.

A. The term "fabric air filter bag" means a tubular or non-tubular, seamed or seamless bag, varying in length, width, and material, which is used within air pollution control systems called "bag houses."

B. The term "bag house" means a system used for the filtration of particulate matter from gas streams for environmental or safety reasons or for the recapture of valuable particulate.

C. The term "wet filtration media" means fabric filters of any shape used in industrial applications to separate liquids from solids.

D. The term "cages" means cylindrical wire mesh forms used in bag houses as a support for fabric air filter bags.

7. "Eligible Person" means any individual, corporation (including subsidiaries thereof), partnership, joint venture, trust, unincorporated association, other business or legal entity, or any combination thereof, approved by the Commission. Such approval shall be in the sole discretion of the Commission.

II

It is further ordered That Kennecott shall divest absolutely and unqualifiedly FMD to an Eligible Person within nine months from the date of the issuance of this order.

III

It is further ordered That divestiture under Paragraph II shall be in a manner which preserves the assets and business divested as a viable competitor.

IV

It is further ordered That, pending the divestiture of FMD required by Paragraph II of this Order, Kennecott shall not take any action other than in the ordinary course of business, without the consent of the Federal Trade Commission, to diminish the value of FMD.

V

It is further ordered That pending divestiture under Paragraph II required by this order:

A. Kennecott shall operate NFM as a separately managed subsidiary, separately maintaining its own financial books and records, internal auditors, employees and management. All earnings and profits of NFM shall be retained by NFM and shall not be distributed to Kennecott or any third party as dividends or in any other form.

B. Kennecott: (1) shall exert no control over or influence on or interfere in any way in any of the business decisions or operations of NFM; (2) shall not cause NFM, direcly or indirectly, to adopt policies preferred, suggested, or dictated by Kennecott; (3) shall not change NFM's existing policies or methods of operation. Furthermore, no Kennecott officer, director, employee, representative, or agent shall serve in any NFM position and no Kennecott officer, director, employee, representative or agent shall serve on NFM's Board of Directors.

VI

It is further ordered That, for a period of ten years from the date of issuance of this order, Kennecott, its parents, divisions, subsidiaries, affiliates, successors, or assigns, shall not, directly or indirectly, acquire any stock, share capital, or equity interest in, or assets used in the manufacture of any relevant product by, any concern, corporate or non-corporate, engaged in the manufacture or sale of any relevant product without the prior approval of the Federal Trade Commission.

VII

It is further ordered That Kennecott shall, within ninety days from the date of issuance of this order, and every ninety days thereafter until divestiture is completed, submit in writing to the Commission a report setting forth in detail the manner and form in which Kennecott intends to comply, is complying, and has complied with the terms of this order and such additional informaion relating thereto as may from time to time reasonably be required. All such report shall include a summary of contacts or negotiations with any one for the specified assets, the identity of all such persons, and copies of all written communications to and from such persons. After divestiture is completed, Kennecott shall submit in writing annual reports showing the manner and form of compliance with this order.

VIII

It is further order That for a period of ten years from the date of issuance of this order, Kennecott shall notify the Commission at least thirty days prior to any change in Kennecott which may affect compliance with the obligations arising out of this consent order, such as dissolution, assignment or sale resulting in the emergency of a successor corporation, the creation or dissolution of subsidiaries, or any other change in the corporation.

Kennecott Corporation, File No. 811–0059, Analysis of Proposed Consent Order To Aid Public Comment

The Federal Trade Commission has entered into an agreement to a proposed consent order with Kennecott Corporation ("Kennecott") concerning the acquisition by Kennecott of Dorr-Oliver Incorporated ("Dorr-Oliver"), a wholly-owned subsidiary of the Curtiss-Wright Corporation ("Curtiss-Wright"). Kennecott and Dorr-Oliver, through subsidiaries, are major manufacturers and direct competitors in the U.S. fabric air filter bag market. Fabric air filter bags are necessary components of baghouses, one of the principal methods of industrial air pollution control. The proposed order requires that Kennecott divest its Filter Media Division ("FMD"), which manufactures and sells fabric air filter bags with filtration media, and bag cages, and follow a course of conduct, pending divestiture, which preserves the assets and business of FMD as a going and viable business. The order also requires that, pending divestiture, Kennecott will operate separately and exert no control over or interfere in any way with the operation and business of National Filter Media Corporation ("NFM"), the Dorr-Oliver subsidiary which manufactures and sells fabric air filter bags. In addition, Kennecott has agreed to a ten year ban on certain acquisitions without prior approval of the FTC.

The proposed consent order is being placed on the public record for sixty days to receive comments from interested persons. Comments received during this period will become a part of the public record. After sixty days, the Commission will again review the agreement and the comments received and will decide whether it should withdraw from the agreement or make final the agreement's proposed order.

Kennecott is a large, integrated producer of metals, minerals and metal products. It is the leading United States producer of copper, the second leading domestic producer of gold, and through it subsidiaries, is involved in a wide variety of other businesses. Its Kennecott Engineered Systems Company manufactures and sells pollution control equipment, and, through FMD, fabric air filter bags for use in industrial air pollution control.

Dorr-Oliver is primarily engaged in the manufacture and sale of process equipment used in environmental systems and holds over 85 percent of the voting stock in NFM.

The complaint underlying the proposed consent order alleges that Kennecott's aquisition of Dorr-Oliver violates Section 5 of the Federal Trade Commission Act and Section 7 of the Clayton Act in that the effects of the acquisition may be substantially to lessen competition or to tend to create a monopoly in the fabric air filter bag market. The proposed consent order discussed here is designed to maintain competition in that market. In addition, the consent order obligates Kennecott to divest two other product lines—wet filtration media and bag cages to further ensure the financial success of the divested entity.

The first paragraph of the proposed order supplies the necessary definitions for interpretation of the subsequent provisions. Under th terms of Paragraph II and Paragraph III of the order, Kennecott has agreed to divest FMD, as

a going concern and a viable competitor, within nine months from the date of the issuance of this order. In addition, under Paragraph II, Kennecott must receive FTC approval of the prospective acquirers prior to divestiture. Paragraph IV of the order prohibits Kennecott from diminishing the value of FMD prior to its divestiture. These provisions are designed to ensure that this acquisition will not result in the elimination of FMD as a viable competitor in the fabric air filter bag market and to avoid increased concentration in this market.

In order to assure that NFM also remains a viable competitor in the fabric air filter bag market and continues to compete with FMD during the period of time when Kennecott will own both companies, Paragraph V requires Kennecott to operate NFM as a completely separate entity with its own financial systems, employees and management, and furthermore, requires that all earnings and profits of NFM be retained by NFM. In addition, under Paragraph V, Kennecott may not exert any control, influence or interfere in any way with the business of NFM, nor may any person affiliated with Kennecott serve in any NFM position or on NFM's Board of Directors.

Under Paragraph VI of the proposed order, Kennecott may not, without prior approval of the Commission, purchase any concern engaged in the manufacture or sale of fabric air filter bags, wet filtration media, or "cages". This ban continues for ten years from the date of issuance of this order.

Paragraphs VII and VIII require Kennecott to make reports to the Commission detailing its ongoing compliance with the terms of the order and to notify the Commission of any changes in Kennecott which may affect its compliance with the order.

The purpose of this analysis is to facilitate public comment on the proposed order, and it is not intended to constitute an official interpretation of the agreement and proposed order or to modify in any way their terms.

Carol M. Thomas,

Secretary.

BILLING CODE 6750-01-M

DEPARTMENT OF STATE

22 CFR Part 171

[Document No. SD-171]

Access to Information—Privacy Provisions

AGENCY: Department of State.

ACTION: Proposed rule.

SUMMARY: The Department of State proposes to amend Part 171 of Title 22 of the Code of Federal Regulations by exempting portions of a new record system from certain provisions of the Privacy Act of 1974 [5 U.S.C. 552a]. It may be necessary to exempt certain portions of the Records of the Inspector General of the Department of State and the Foreign Service (STATE-53) from the requirements of any part of the Act, except subsections (b), (c) (1) and (2), (e)(4) (A) through (F), (e)(6), (7), (9), (10), and (11), and (i).

DATE: Comments must be received by August 4, 1981.

ADDRESS: Send comments to the Information and Privacy Coordinator, Foreign Affairs Information Management Center, Room 1239, Department of State, 2201 C Street, NW, Washington, D.C. 20520.

FOR FURTHER INFORMATION CONTACT: Frank M. Machak (202) 632-3411.

SUPPLEMENTARY INFORMATION: The Department is proposing the creation of a new record system, Records of the Inspector General of the Department of State and the Foreign Service, under the authority of Section 209 of the Foreign Service Act of 1980 which provides for investigations of allegations of waste, fraud, and mismanagement. The mandate of the Inspector General is consistent with the Administration's efforts to eliminate such violations in the Federal Government. While all files in the Office of the Inspector General are maintained by a coded case number, only those cases which will be referred to the Director General of the Foreign Service, the Office of Security, Medical Services, or the Department of Justice for review and possible action involving an individual will be retrievable by name (cross-referenced to the case file code number) as provided in the system description and subject to the provisions of the Privacy Act.

Pursuant to subsection (j)(2) of the Privacy Act, the Department intends to exempt those records referred to the Department of Justice in order to assure effective investigative and judicial proceedings in criminal cases. In addition, certain records contained within the system will be exempt from disclosure under subsections (k)(1), (k)(2), and (k)(5) of the Act in order to enable the Department to protect properly classified information, investigatory material compiled for law enforcement proceedings against an individual, and the identity of confidential sources in investigations for law enforcement or suitability purposes. The Department believes that the withholding of such information from release to the public is necessary in the interest of national security or of the preservation of the effectiveness of the investigative and judicial processes. The Department of State therefore proposes to amend the Privacy Provisions of its Access to Information regulations as set forth below.

§ 171.32 [Amended]

1. In § 171.32, paragraph (h) will be amended by inserting "and by the Inspector General of the Department of State and the Foreign Service" between "Security" and "may";

2. In § 171.32, paragraph (i) will be amended by inserting "Records of the Inspector General of the Department of State and the Foreign Service. STATE-53" after "Munitions Control Records. STATE-42";

3. In § 171.32, paragraph (j)(1) will be amended by inserting "Records of the Inspector General of the Department of State and the Foreign Service. STATE-53" after "Munitions Control Records. STATE-42";

4. In § 171.32, paragraph (j)(2) will be amended by inserting "Records of the Inspector General of the Department of State and the Foreign Service. STATE-53 after "Munitions Control Records. STATE-42" and;

5. In § 171.32, paragraph (j)(5) will be amended by inserting "Records of the Inspector General of the Department of State and the Foreign Service. STATE-53" after "Senior Personnel Appointment Records. STATE-47."

(Pub. L. 93-579, 88 Stat. 1897; 5 U.S.C. 552a)

Dated: April 30, 1981.

Richard T. Kennedy,

Under Secretary for Management.

BILLING CODE 4710-05-M

LIBRARY OF CONGRESS

Copyright Office

37 CFR Part 201

Compulsory License for Cable Systems

AGENCY: Copyright Office, Library of Congress.

ACTION: Notice of public hearing.

SUMMARY: This notice is issued to advise the public that the Copyright Office of the Library of Congress is reviewing its regulations which implement portions of section 111 of the Copyright Act of 1976, title 17 of the

United States Code. That section prescribes conditions under which cable systems may obtain a compulsory license to retransmit copyrighted works, including the filing of Statements of Account. This notice announces and invites participation in a public hearing intended to elicit comments, views, and information which will assist the Copyright Office in considering alternatives, formulating tentative regulations to be later issued as proposed rules, and proposing revisions to the Statement of Account forms.

DATES: The hearing will be held on July 28, 1981 in Washington, D.C.

Anyone desiring to testify should submit a written request to present testimony by July 21, 1981, to the address set forth below. To assist the Copyright Office in scheduling witnesses we urge the public scrupulously to observe the date for requesting time to testify, even if written statements are submitted later. Ten copies of written statements must be received by the Copyright Office by 4:00 p.m., July 24, 1981.

ADDRESSES: Hearing location: The hearing will be held on July 28, 1981, at the James Madison Building of the Library of Congress, First and Independence Avenue, S.E., Washington, D.C. in the Assembly Room on the sixth floor, beginning at 9:30 a.m.

Written requests to present testimony and ten copies of written statements or of supplementary statements should be submitted as follows:

If sent by mail: Library of Congress, Department D.S., Washington, D.C. 20540.

If delivered by hand, copies should be brought to: Office of the General Counsel, James Madison Building, Room 407, First and Independence Avenue, SE., Washington, D.C.

All requests to testify should clearly identify the individual or group desiring to testify and the amount of time desired. The Copyright Office will try to contact all witnesses to confirm the time of their appearances.

FOR FURTHER INFORMATION CONTACT: Dorothy Schrader, General Counsel, Copyright Office, Library of Congress, Washington, D.C. 20559, (202) 287–8380.

SUPPLEMENTARY INFORMATION:

1. *Background.* Section 111(c) of the Copyright Act of 1976 (Act of October 19, 1976, 90 Stat. 2541) establishes a compulsory licensing system under which cable systems may make secondary transmissions of copyrighted works. The compulsory license is subject to various conditions, including the requirements that the cable systems comply with provisions regarding recordation of Notices of Identity and Signal Carriage Complement and Notices of Change of Identity or Signal Carriage Complement under section 111(d)(1), and deposit of Statements of Account and statutory royalty fees under section 111(d)(2).

On January 5, 1978, the Copyright Office published in the **Federal Register** (43 FR 958) new §§ 201.11 and 201.17 of its regulations governing the form, content, and filing of the Notices, Statements of Account, and statutory royalty fees. The Copyright Office emphasized in the preamble to the regulations that (43 FR 958):

> . . . we are dealing with an entirely new area of copyright law in which all parties concerned lack practical experience. Moreover, future actions by the Copyright Royalty Tribunal and Federal Communications Commission can be expected to affect the theory and application of our rules. Accordingly, these regulations must be considered somewhat experimental and subject to reconsideration as circumstances and experience develop.

On July 27, 1978, the Copyright Office announced in the **Federal Register** (43 FR 27827) the adoption of Statement of Account forms and published amendments to its regulations (37 CFR 201.17) to reflect changes necessitated by the new forms.

Further experience with these regulations led the Copyright Office to publish in the **Federal Register** on July 3, 1980 (45 FR 45270) certain clarifying and technical amendments to its regulations (37 CFR 201.17) governing the form, content, and filing of Statements of Account.

During the July 3, 1980 rulemaking proceeding, the Copyright Office received several comments suggesting substantive revisions to the regulations and Statement of Account forms (45 FR 45273):

> Based on their experience reviewing the Statements of Account submitted during the first three accounting periods, copyright owners noted in their comments particular areas where they feel further information and/or clarifications are needed. These areas principally concerns the designation of local and distant stations, classification of Canadian and Mexican stations, and problems resulting from the filings submitted on behalf of joint "individual" cable systems. In addition, some copyright owners proposed changes that they contend would streamline the royalty calculation steps required on forms CS/SA–2 and CS/SA–3.
>
> Comments on behalf of cable operators, on the other hand, suggested that a good deal of the information required on the Statements of Account for the purpose of assisting copyright owners and the Copyright Royalty Tribunal in the distribution of cable royalties is, in fact, unnecessary. They also advocated a review of our definition of "gross receipts for the 'basic service of providing secondary transmissions of primary broadcast transmitters' " based on recent technological advances and new marketing strategies affecting the types of services now available for a single monthly fee.

Although these issues were outside the scope of that rulemaking, the Copyright Office stated that it believes "that some of these developments do warrant a review or our cable regulations and Statement of Account forms at an appropriate time." (45 FR 45273).

Since that time, several administrative actions have been taken affecting the cable television compulsory license mechanism. First, on September 11, 1980, the Federal Communications Commission (FCC) published in the **Federal Register** (45 FR 60186) the decision to remove the cable television distant signal limitations and syndicated program exclusivity rules from the FCC regulations. Second, on September 23, 1980, the Copyright Royalty Tribunal published in the **Federal Register** (45 FR 63026) its determination of the 1978 cable royalty distribution. Finally, on January 5, 1981, the Copyright Royalty Tribunal published in the **Federal Register** (46 FR 892) its adjustment of the compulsory license royalty rates. Although all three of these actions presently are on appeal in the courts, the Copyright Office has decided that the initial administrative determinations warrant attention and may now provide an adequate basis for a review of the cable television regulations and Statement of Account forms.

Over the last few months, the issue of whether or not the cable television compulsory license should be retained, modified, or eliminated, has been addressed during hearings in both the Senate and the House of Representatives. On April 21, 1981, the Copyright Office advised Senator Strom Thurmond and Representative Robert W. Kastenmeier that the Office has concluded that the "cable compulsory license of section 111 should be eliminated, or at least, significantly modified." This conclusion was reiterated in greater detail during hearings held on April 29, 1981, before the Senate Committee on the Judiciary. Nothwithstanding this position taken in the context of possible legislative change, the July 28, 1981 public hearing is believed necessary to consider improvements in the administration of the existing cable compulsory license and is not intended as an alternative forum for consideration of legislative issues presently before the Congress.

V 4 6 JE 10 81 UMI

2. *Specific Questions.* The Copyright Office is interested in receiving comments and testimony relevant to the following questions:

A. *Distant Signal Equivalent [DSE] Value.*

(1) Should a cable system be permitted to make a prorated adjustment to the full DSE value of a distant television station added, deleted or carried on a part-time basis during an accounting period if that station is also carried full-time during any portion of that accounting period?

(2) Where two or more distant television stations are carried part-time on any one cable channel during an accounting period, should a cable system be required to set the total DSE values for those stations at not less than the full value of the signal carried most frequently during the accounting period?

(3) Should a cable system be required to classify its carriage of distant Canadian or Mexican television stations as "independent stations" and correspondingly assign to such stations a DSE value of one?

(4) Where a cable system carries a distant television station on a tiered basis so that only a portion of its subscribers are able to receive it, should the system be permitted to prorate the DSE value of the station on the basis of the receivable subscriber audience?

B. *Part-Time Carriage.*

(1) Should the Part-Time Carriage Log in Space J on Statement of Account form CS/SA–2 be discontinued? If not, what purposes does its retention serve?

(2) Should a cable system be permitted to prorate the DSE value of a distant television station on the basis of part-time carriage because of lack of activated channel capacity where the cable system uses one or more of its activated channels for services other than secondary transmissions (*e.g.*, local origination, subscription services, etc.)?

(3) What changes, if any, should be made to the Statement of Account forms and regulations with respect to part-time and substitute carriage as a result of the FCC elimination of its distant signal limitations and syndicated program exclusivity rules?

C. *Gross Receipts for the "Basic Service of Providing Secondary Transmissions of Primary Broadcast Transmitters."*

(1) Should a cable system be permitted to prorate its "basic service" gross receipts where it provides services other than secondary transmissions as part of its basic service?

(2) Where a cable system carries a distant television station on a tiered basis so that only a portion of its subscribers receive it, should the system be required to include any, all, or part of the tiered service gross receipts as part of its "basic service" gross receipts?

D. *Other Issues.*

(1) In the case of "all-band" carriage of FM radio stations, should the regulatory requirement for cable system monitoring activities (reported in Block 3 of Space H of the Statement of Account forms) be discontinued? If not, what purposes does its retention serve?

(2) In the case of carriage of local television stations, should cable systems be required to specify in Space G of the Statement of Account forms the basis for classifying the station as "local" (*i.e.*, within Grade B contour, significantly viewed, etc.)?

(3) Should the royalty computation formula in Space L of Statement of Account form CS/SA–2 be rewritten to read as follows: [1]

1. Subtract $41,500 [$55,500] from amount in "gross receipts" from Space K.
2. Multiply the amount in Line 1 by .01.....
3. Add $15.00 [$20.00] to the amount in Line 2.....
4. Total Royalty Fee Payable for Accounting Period. $

Registration of Claims to Copyright: Notice of Termination of Proposed Rulemaking Regarding Registration of Claims to Copyright in the Graphic Elements Involved in the Design of Books and Other Printed Publications

AGENCY: Library of Congress, Copyright Office.

ACTION: Notice of termination of proposed rulemaking.

SUMMARY: This notice of termination of proposed rulemaking is issued to advise the public that the Copyright Office of the Library of Congress is closing docket RM 79–2 without further action and does not intend to institute additional rulemaking proceedings at this time on the specific subject of registration of claims to copyright in the graphic elements involved in the design of books and other printed publications.

[1] Amounts in brackets represent adjustments to the "small system" gross receipts limitations adopted by the Copyright Royalty Tribunal on December 17, 1980 (46 FR 897) and presently on appeal in the courts.

FOR FURTHER INFORMATION CONTACT: Dorothy Schrader, General Counsel, Copyright Office, Library of Congress, Washington, D.C. 20559. Telephone (202) 287-8380.

SUPPLEMENTARY INFORMATION: Existing Copyright Office regulations preclude registration of claims to copyright in certain works that are not subject to copyright. Specifically, Copyright Office Regulation 202.1(a) prohibits registration based on "mere variations of typographic ornamentation, lettering or coloring." (37 CFR 202.1(a))

On August 14, 1979 (44 FR 47555), the Copyright Office issued an advance notice of proposed rulemaking, inviting interested persons to participate in a public hearing and to submit written comments intended to elicit views and information to assist the Copyright Office in considering all aspects of the question concerning the registration of claims to copyright in the design of books, periodicals, pamphlets, brochures, and other printed publications.

Within the stated limits of the inquiry, the Copyright Office sought clarification of the creative elements involved in "book design," *i.e.*, the arrangement or juxtaposition of text matter, pictorial matter, or combinations of text and pictorial matter, on a page, pages, or in an entire printed publication.

The Copyright Office solicited comments on the meaning of terms such as "layout", "format", "typography", "composition", "arrangement", "makeup", and "color schemes." We inquired whether these elements should be regarded as uncopyrightable ideas or concepts, or whether, alone or in combination, they could be considered copyrightable "works of authorship".

On October 10, 1979, a day-long hearing was held at the former location of the Copyright Office, Room 910, Crystal Mall, Building No. 2 1921 Jefferson Davis Highway, Arlington, Virginia. At that time testimony was received from nine witnesses. The period for written comments was extended to January 2, 1980. As of that closing date the Copyright Office had received twenty-four letters of comment. Four additional letters were received subsequently and have been considered in reaching the decision announced in this notice.

The written comments and oral testimony given at the hearing addressed various topics including technical definitions used in design, printing and publishing; the copyrightability of various subject matter and elements; infringement problems; a limited copyright approach

protection only against unauthorized photomechanical duplication; and others. The Copyright Office has carefully considered each of the comment letters and all of the oral testimony. Based on this review, the Copyright Office has decided not to propose further regulations concerning the registration of claims to copyright in the graphic elements involved in the design, of books, periodicals, pamphlets, brochures, and other printed publications.

Section 410(a) of title 17 of the United States Code (as amended by Pub. L. 94-553, 90 Stat. 2541), which became effective on January 1, 1978, authorizes the Register of Copyrights to issue a certificate of registration, after determining that the deposited material constitutes copyrightable subject matter and that other legal and formal requirements for copyright registration have been met. Section 102 extends copyright protection to "original works of authorship fixed in any tangible medium of expression * * *", and enumerates seven broad categories of copyrightable subject matter, including "literary works" and "pictorial, graphic, and sculptural works". These terms are defined in section 101 as follows:

> "Literary works", are works, other than audiovisual works, expressed in words, numbers, or other verbal or numerical symbols or indicia, regardless of the nature of the material objects, such as books, periodicals, manuscripts, phonorecords, film, tapes, disks, or cards, in which they are embodied.
>
> "Pictorial, graphic, and sculptural works" include two-dimensional and three-dimensional works of fine, graphic, and applied art, photographs, prints and art reproductions, maps, globes, charts, technical drawings, diagrams, and models. Such works shall include works of artistic craftsmanship insofar as their form but not their mechanical or utilitarian aspects are concerned; the design of a useful article, as defined in this section, shall be considered a pictorial, graphic, or sculptural work only if, and only to the extent that, such design incorporates pictorial, graphic, or sculptural features that can be identified separately, from, and are capable of existing independently of the utilitarian aspects of the article.

Subsection (b) of section 102 seeks to make clear, in express language, that copyright protection for an original work of authorship does not extend to any ideas, systems, or concepts that are "described, explained, illustrated, or embodied in such work". In commenting on this provision, the legislative reports say:

> Copyright does not preclude others from using the ideas or information revealed by the author's work. It pertains to the literary, musical, graphic, or artistic form in which the author expressed intellectual concepts. (S. Rep. No. 94-473, 94th Cong. 1st Sess., at 54 (1975) and H.R. Rep. No. 94-1476, 94th Cong. 2d Sess., at 56 (1976).

Both Reports accompanying the 1976 Act state that the new law "in no way enlarges or contracts the scope of copyright protection under the * * * (previous 1909 copyright) law. Its purpose is to restate, in the context of the new single Federal system of copyright, that the basic dichotomy between (copyrightable) expression and (uncopyrightable) idea(s) remains unchanged". (H.R. Rep. No. 94-1476, 94th Cong. 2d. Sess., at 57 (1976) and S. Rep. No. 94-473, 94th Cong. 1st Sess., at 54 (1975). Moreover, the legislative history indicates that Congress intended to maintain the same standard of original authorship that had been established under the previous copyright law. (S. Rep. No. 94-473, 94th Cong. 1st Sess., at 50 (1975) and H.R. Rep. No. 94-1476, 94th Cong. 2d Sess., at 51 (1976).

Case law under the 1908 Act clearly established that in order to be copyrightable, books, periodicals, pamphlets, brochures, and other printed publications must contain an appreciable amount of original authorship, usually in the form of literary or pictorial expression. The decisions in a number of cases established that for a work to by copyrightable it must be on a basis other than typography, coloring, general format, or arrangement. That a work is distinctive, unique or pleasing in appearance, and embodies certain ideas of contrast or coloring does not necessarily afford a basis for copyright protection. Likewise, considerable time, effort, and expense may go into the creation of a work, but in the absence of sufficient original, creative expression to constitute a "work or authorship" required by the statute, the "work" does not constitute copyrightable subject matter.

It became evident from the written statements as well as testimony at the hearing that much of the protection sought can be secured under existing Copyright Office regulations and practices. For example, one witness, representing graphic designers and illustrators, presented a series of slides depicting examples of designs for which copyright protection was being urged. Among the examples appeared pictorial posters and illustrated title pages which the Copyright Office would register under existing regulations. Claims in the spacing and arrangement of text would not be registered under existing regulations and practices, however.

The testimony of a substantial number of witnesses was that book design as such should not be considered copyrightable. The elements of typography, layout, and design were said to be constructed within a narrow range of alternatives by unwritten rules of legibility and aesthetics of design. Among the objections of those opposing registration of book designs was the fear that there would be a proliferation of litigation and that the author's ability to license his or her work would be limited. Authors and publishers were also concerned that a separate copyright in the book design might involve an injunction against the distribution of the literary work itself where relief had been granted for even an unintentional infringement of a "book design." Many witnesses pointed to the difficulty of determining the exact scope of protection resulting from such registrations, and anticipated serious pervasive effects on the publishing and graphics industries.

Many of those commenting and testifying in favor of some protection for book design focused on limiting the right to actual reproduction of the design by photocopying, or the like. The statute in the United Kingdom proscribing photoduplication was cited as a model. Under the United Kingdom statute, it is an infringement for unauthorized persons to make "by any photographic or similar process * * * a reproduction of the typographical arrangement of the edition." [1] Such protection exists independently of any copyright in the text of a literary, dramatic, or musical work. The protection is for 25 years from the end of the calendar year in which the edition is first published.

Another witness also suggested that the right to prepare derivative works should be limited to exploitation of the design in the context of exploitation of the literary work for which the design was conceived.

Congress could legislate solutions that would afford limited copyright protection for graphic designers of literary works. However, relief of this sort is beyond the province of the Copyright Office.

The Copyright Office has concluded that existing practices and regulations accurately reflect established principles of statutory and case law. The Copyright Office makes subject matter determinations of registrability solely on the basis of the original creative *expression* (if any) embodied in the works submitted for registration. We recognize that designers may employ substantial effort and artistic skills in the planning and development of book

[1] Copyright Act, 1956, 4 & 5 Eliz. 2, c. 74, § 15(3).

designs. However, we believe that the arrangement, spacing, or juxtaposition of text matter which is involved in book design falls within the realm of uncopyrightable ideas of concepts. Therefore, the Office has decided to terminate its advance notice of proposed rulemaking and to continue its long-standing practice with respect to the graphic elements involved in the design of books, periodicals, pamphlets, brochures, and other printed publications.

(17 U.S.C. 702, 410)

Dated: May 29, 1981.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-6-FRL 1836-3]

Approval and Promulgation of Implementation Plans; New Mexico Plan for Nonattainment Areas

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: This action proposes approval of revisions to the State Implementation Plan for both the primary and secondary sulfur dioxide (SO_2) standards for San Juan County, New Mexico. These revisions include changes to the SO_2 emission limitations for the Arizona Public Service Company's Four Corners power plant and the Public Service Company of New Mexico's San Juan power plant. The proposed approval action is based on new monitoring and new dispersion modeling information on the expected impact of emissions on air quality in San Juan County in 1982 and 1984.

DATES: Interested persons are invited to submit comments on this proposed action on or before July 10, 1981.

ADDRESSES: Written comments should be submitted to: U.S. Environmental Protection Agency, Region 6, Air Programs Branch, 1201 Elm Street, Dallas, Texas 75270. The docket for the revision (NM-11-80) is available for inspection during normal business hours at the above address and at the following location: Environmental Protection Agency, Public Information Reference Unit, Room 2922, EPA Library, 401 M Street, SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Randy Brown, Implementation Plan Section, Environmental Protection Agency, Region 6, Air Programs Branch, 1201 Elm Street, Dallas, Texas 75270, (214) 767-2742.

SUPPLEMENTARY INFORMATION: New Mexico submitted its plan for attainment of the National Ambient Air Quality Standards (NAAQS) for sulfur dioxide (SO_2) to EPA in January 1979. On April 10, 1980 (45 FR 24460) EPA granted conditional approval to the plan for attainment of the primary and secondary SO_2 standards in San Juan County, New Mexico by the end of 1982. The conditionally approved plan included a Regulation 602 which set emission limits for Arizona Public Service Company's (APS) Four Corners power plant and Public Service Company of New Mexico's San Juan power plant. The plan approval was conditioned on State submittal of a compliance schedule for the Four Corners Plant. The State submitted that compliance schedule on August 18, 1980. However, based on certain monitoring data taken at critical high terrain locations allegedly indicating no violation of the standards, APS asked the State to revise the emission limits in Regulation 602. This request was denied. Litigation in State court among the State, APS, and environmental groups resulted in a settlement on August 21, 1980. As a result of the settlement, the State developed new emission limitations for both the Four Corners plant and the San Juan power plant, and after holding a public hearing, submitted a revised Regulation 602 and new compliance schedule to EPA for approval as a Part D SIP revision on November 24, 1980. A revised control strategy demonstration was submitted on February 6, 1981, with supplements submitted on February 17, 1981. In order to resolve questions regarding the enforceability of the provisions, the State also submitted on April 10, 1981 clarifications of language in the regulation and a memorandum of understanding between the State and APS on the procedure to be used by EPA in enforcing certain station emission limits.

The revised regulation contains both individual unit emission limits as well as overall plant limits. The revised emission limits provide for an average of 60 percent control for Four Corners units 1, 2 and 3 and no control on units 4 and 5 by the end of 1982, and an average of 72 percent control for the entire Four Corners plant (5 units total) by the end of 1984. This degree of control will be achieved by the installation of flue gas desulfurization units (scrubbers). In addition, the regulation requires the use of continuous emission monitors. Installation of emission controls for units 4 and 5 compliance with a 72 percent plant-wide reduction by the end of 1984 are considered by EPA to be as expeditious as practicable. Plant-wide average SO_2 emissions will be .47 lb/mmBtu for the Four Corners plant and .65 lb/mmBtu for the San Juan plant after 1984. Considering the use of low sulfur coal in these plants, the level of control achieved in 1984 is considered to be reasonably available control. Regulation 602 also provides some interim emission limits before the end of 1982, but the continuous emission monitors needed to enforce them will in some cases not be installed before the end of 1981. For purposes of EPA enforcement of these interim limits before the end of 1981, the provisions of 40 CFR 52.21(c) will be applicable. In any event, emission reductions from these limits were not used as a basis for attainment for any of the NAAQS.

EPA has evaluated the submittals and prepared an evaluation report.[1] EPA has determined that the revised plan should be proposed for approval to replace the conditionally approved plan, since it contains enforceable emission limitations and compliance schedules that allow attainment of the primary SO_2 standards by the end of 1982 and attainment of the secondary SO_2 standard by the end of 1984.

Acceptance of the revised plan for other than high terrain locations is based on the State's modeling anylysis which demonstrates the standards will be attained in 1982 and 1984. For high terrain locations the State has shown that there are potential SO_2 violations on the Hogback Mountain without application of controls in addition to those presently in operation at the Four Corners plant. However, the State's high terrain modeling is not appropriate for the Hogback Mountain and is not adequate to demonstrate the degree of control needed to show attainment of air quality standards. EPA's acceptance of the revised plan for high terrain locations must therefore be based on the available high terrain air quality data, the identification of expected maximum SO_2 locations by modeling, and required emission reductions included in the State's control strategy. Considering all the information available, it is EPA's judgment that on the high terrain in San

[1] EPA Review of New Mexico State Implementation Plan of November 24, 1980. April 1981.

Juan County there will be no violations of the primary standards after 1982 or the secondary standard after 1984. The demonstration is accepted with the plant operating at the maximum emission rates, or any combination of individual emission rates allowed by revised Regulation 602.

Under Executive Order 12291, EPA must judge whether a rule is major and therefore subject to the requirements of a Regulatory Impact Analysis. This proposed action is not a major rule because it imposes no new requirements, since it only proposes approval of State action. This proposed rule was submitted to the Office of Management and Budget for review as required by Executive Order 12291.

Pursuant to the provisions of 5 U.S.C. 605(b) the Administrator has certified (46 FR 8709) that the proposed rule will not, if promulgated, have a significant economic impact on a substantial number of small entities. This action only proposes approval of State actions. It imposes no new requirements. In addition, this action only applies to two facilities.

This notice of proposed rulemaking is issued under the authority of Section 110(a) and 172 of the Clean Air Act, 42 U.S.C. 7410(a) and 7502.

Dated: April 22, 1981.

Francis E. Phillips,

Acting Regional Administrator.

[A-3-FRL 1840-5]

Proposed Revision of Maryland State Implementation Plan

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: The State of Maryland has submitted a revision to the Maryland State Implementation Plan (SIP). This submittal contains revisions to Sections .01 (Definitions) and .11 (Permits and Approvals) of COMAR 10.18.01, and Sections .05 (Control of Certain Sources) and .07 (Control and Prohibition of Carcinogenic and Toxic Substances) of COMAR 10.18.02, 10.18.03, 10.18.04, 10.18.05, 10.18.06, and 10.18.07.

DATE: Comments must be submitted on or before July 10, 1981.

ADDRESSES: All comments on the proposed revision should be directed to:

H. Sokolowski, Chief, MD, DE, DC Metro Section (3AH12), Air, Toxics & Hazardous Materials Division, U.S. Environmental Protection agency, Region III, 6th & Walnut Streets, Philadelphia, Pennsylvania 19106, ATTN: AH024MD.

Copies of the proposed SIP revision and the accompanying support documents are available for inspection during normal business hours at the following offices:

U.S. Environmental Protection Agency, Air Media & Energy Branch, Curtis Building, 6th & Walnut Streets, Philadelphia, PA 19106, ATTN: Carol D. Peters (3AH13), Phone: 215/597-8181.

Maryland Environmental Health Administration, Air Quality Programs, 201 W. Preston Street, Baltimore, MD 21201, ATTN: George Ferreri.

Public Information Reference Unit, Room 2922—EPA Library, U.S. Environmental Protection Agency, 401 M Street, S.W. (Waterside Mall), Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Carol D. Peters at (215) 597-8181.

SUPPLEMENTARY INFORMATION: On December 10, 1979, Harry Hughes, Governor of the State Maryland, submitted to EPA, Region III, a revision to amend the Regulations Governing the Control of Air Pollution in the State of Maryland. The State of Maryland submitted proof that public hearings were held July 30, 1979 in Hagerstown, August 1, 1979 in Baltimore, and on August 3, 1979 in Salisbury. The revision consists of the following changes:

A. COMAR 10.18.01 Control of Air Pollution in Maryland

1. Sections .01 AA. and AAA. Definitions—Minor administrative changes were made to the definitions of "National Emission Standards for Hazardous Air Pollutants Source" and "New Source Impacting on a Nonattainment Area (NSINA)." EPA is proposing these changes in the definitions for approval.

2. Section .11 Permits and Approvals—This revision significantly modifies the existing permit to construct, permit to operate, and registration regulations. The reorganization of the section was done to clarify the regulations. Certain terms have been added in Section A; "Applicant," "Application," "Completed Application," "Permit," and "Approval." These definitions appear to be approvable.

Regulations for determining whether a source or installation is required to obtain a permit (or approval) to construct have been consolidated into Section B. The phrase "Generating stations constructed by electric companies" is added to the exception list. Consolidated into Section C are the provisions listing those installations requiring operating permits. Sewage sludge incinerators have been added to the list of installations requiring an operating permit.

A new provision (Section D) has been added which requires the Department to provide a written determination to persons who are in doubt as to whether a particular source or installation is required to obtain a permit or approval to be constructed or operated.

Section E has been clarified and certain changes have been made to the provisions specifying the duration of permits and approvals. For example, the time limit for commencing construction after receipt of a permit would increase from 12 months to 18 months; a specific cross reference is made to the Maryland Administrative Procedure Act regarding the effect of expiration of a permit on a source or installation which is currently in operation.

Section F allows Maryland to attach reasonable conditions to the issuance of permits and approvals.

Section G clarifies the intended legal effect of air quality permits and approvals. However, prior to EPA final approval, the State should show how it can legally enforce the terms or conditions of a permit or approval which has expired or been suspended or revoked as stated in subsection .11G(3).

Section H is reserved. Section I is clarified to include New Source Impacting on a Nonattainment Area (NSINA). Evidence of compliance with State Workmen's Compensation Laws is added to the list of information to be provided in the application. Section J has minor administrative changes made in its wording.

Section K clarifies the basis for denial of permit and approval applications. The regulations are also modified to make it clear that there must be predicted compliance with NSPS, NESHAPS and NSINA requirements. Also, in the case of permits to operate, this revision would make it clear that compliance with terms and conditions of previous permits and approvals are to be taken into consideration in determining whether to issue an operating permit.

The State requires an applicant, in 10.18.01.11K(2)(b), to demonstrate that it would comply with the terms or conditions of a permit or approval which has expired or been suspended or revoked. The State should show its authority to require these conditions. The State should also identify the types of orders or consent agreements that are available to it under State law for

varying the substantive requirements of 10.18.01–.07 as they apply to a particular source or installation. A new subsection (.11K(3)) would authorize, but not require, Maryland to deny a permit application for failure to comply with certain procedural requirements, air pollution episode requirements, testing and monitoring requirements, reporting of excess emissions, etc.

Sections L, M, N, and O have not been modified. Section P is clarified as to the effects of filing late application for permits and approvals.

EPA is proposing to approve all changes to Section 10.18.01.11 as summarized in the above discussion, if the State provides the requested information.

B. COMAR 10.18.02, 10.18.03, 10.18.04, 10.18.05, 10.18.06, and 10.18.07

1. Section .05 Control of Certain Sources—Section A is modified to conform to the 1978 edition of 40 CFR Part 60 for New Source Performance Standards (NSPS). This section is being proposed for approval.

2. Section .07 Control and Prohibition of Carcinogens and Toxic Substances—This section is modified to conform to the 1978 edition of 40 CFR Part 61 for National Emission Standards for Hazardous Air Pollutants (NESHAPS). This section is proposed for approval.

Therefore, it is the tentative decision of the Administrator to approve the proposed revision of the Maryland State Implementation Plan.

Pursuant to the provisions of 5 U.S.C. 605(b), the Administrator has certified (46 FR 8709) that SIP approvals under Sections 110 and 172 of the Clean Air Act will not have a significant economic impact on a substantial number of small entities (46 FR 8709 (January 27, 1981)). The attached rule, if promulgated, would constitute a SIP approval under Sections 110 and 172 within the terms of the January 27 certification. Under Executive Order 12291, EPA also must judge whether a regulation is "major" and therefore subject to the requirement of a regulatory impact analysis. This rule is not "major" for the same reasons it would not have significant economic impact. This action would only approve State actions and would impose no new requirements of its own.

This regulation was submitted to the Office of Management and Budget for review as required by Executive Order 12291.

(42 U.S.C. 7401–642)

Dated: May 13, 1981.

Jack Schramm,

Regional Administrator.

40 CFR Parts 52 and 81

[A-3-FRL-1838-1]

Commonwealth of Pennsylvania, Proposed Section 107 Redesignations; Proposed Revisions on the Pennsylvania State Implementation Plan

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: Allegheny County, Pennsylvania was designated nonattainment for Sulfur Dioxide (SO_2) and Total Suspended Particulates (TSP) on March 3, 1978 (43 FR 8962) and September 12, 1978 (FR 40502). Since that time many monitors have come into compliance with National Ambient Air Quality Standards (NAAQS). Furthermore, because of the uncertainty resulting from several attempts at SO_2 air quality diffusion modeling other designations are proposed to be changed.

On December 24, 1980, the Commonwealth of Pennsylvania submitted a revision to the Pennsylvania State Implementation Plan which redesignates areas within Allegheny County with respect to Ambient Air Quality Standards for Total Suspended Particulates and Sulfur Dioxide; provided for attainment of these standards in the County, and relaxes emission limitations for one major source in the county.

This Notice provides a complete description of the proposed redesignation and proposed SIP revisions, summarizes the Part D requirements, compares the revision to these requirements, identifies major issues and proposes EPA's action on these revisions.

The EPA invites public comments on this revision, the identified issues, and whether the redesignation and revision should be approved, disapproved or conditionally approved, especially with respect to the requirements of Part D of the Clean Air Act.

DATE: Comments must be submitted on or before August 10, 1981 to: Mr. H. G. Hanson (3AH11), U.S. Environmental Protection Agency, Region III, 6th & Walnut Streets, Curtis Building, Philadelphia, PA 19106.

ADDRESSES: Copies of the proposed SIP revision and the accompanying support documents are available for inspection during normal business hours at the following offices:

U.S. Environmental Protection Agency, Air Media & Energy Branch, Curtis Building, 6th & Walnut Streets, Philadelphia, PA 19106, ATTN: Gregory Ham (3AH11)

Public Information Reference Unit, Room 2922, EPA Library, U.S. Environmental Protection Agency, 401 M Street, Southwest (Waterside mall), Washington, DC 20460

Bureau of Air Quality Control, Pennsylvania Department of Environmental Resources, Fulton Bank Building, Third and Locust Streets, Harrisburg, PA 17120, ATTN: Gary L. Triplett

Allegheny County Health Department, Bureau of Air Pollution Control, 301 Thirty-Ninth Street, Pittsburgh, PA 15201

FOR FURTHER INFORMATION CONTACT: Gregory Ham (3AH11), U.S. Environmental Protection Agency, 6th & Walnut Streets, Curtis Building, Philadelphia, PA 19106, Telephone Number 215–597–2745.

SUPPLEMENTARY INFORMATION: New provisions of the Clean Air Act, enacted in August 1977, Pub. L. 95–95 (42 U.S.C. § 7472), required States to revise their SIPS for all areas that do not attain National Ambient Air Quality Standards (NAAQS). The amendments required each State to submit to the Administrator a list of the NAAQS attainment status for all areas within the State. The Administrator promulgated these lists on March 3, 1978 (43 FR 8962) and on September 12, 1978 (43 FR 40502).

The entire State of Pennsylvania was designated as nonattainment for ozone and various portions of the State, including Allegheny County, were designated as nonattainment for Total Suspended Particulate Matter (TSP), Sulfur Dioxide (SO_2), and Carbon Monoxide (CO). As a consequence, the Commonwealth of Pennsylvania submitted State Implementation Plan (SIP) revisions for most areas designated nonattainment on April 24, 1979, and June 7, 8, 12, 13, 1979. On July 24, 1979 (44 FR 43306), EPA proposed action on the Pennsylvania SIP and finalized its approval and conditional approval on May 20, 1980 (FR 33607).

For Allegheny County, the Ozone portion of the Pennsylvania State Implementation Plan was submitted to EPA on April 24, 1979 and conditionally approved by EPA on May 20, 1980 (45 FR 33607). However, for the SO_2 and TSP portions of the SIP for Allegheny County, work continued and several

different drafts were prepared. Public hearings were held on July 30, 31 and October 23, 1979 and March 24, 25, 31, April 1, and November 12, 1980. Finally, on December 24, 1980, Clifford Jones, Secretary of the Department of Environmental Resources, submitted a redesignation request for SO_2 and TSP in Allegheny county and a revision to the Pennsylvania SIP providing for the attainment of the National Ambient Air Quality Standards (NAAQS) for SO_2 and TSP in the redesignated areas. Included as part of the SIP was an emission relaxation for Duquesne Light's Cheswick power plant, from 0.6 lbs $SO_2/10^6$ Btu to 2.8 lbs $SO_2/10^6$ Btu, which is now determined to be in attainment area.

EPA has reviewed the redesignation request, the emission relaxation for Cheswick and the nonattainment SIP revision with respect to the requirements of the Clean Air Act and criteria described or referenced in the **Federal Register** notice published on April 4, 1979 (44 FR 20372). Today's notice proposes EPA's action on the State submittal. The April 4, 1979 notice to which interested persons may refer is entitled "General Preamble for Proposed Rulemaking on Approval of Plan Revisions for Nonattainment Areas," and is incorporated herein by reference. This notice was further supplemented by the following **Federal Register** notices: July 2, 1979, 44 FR 38583, August 28, 1979, 44 FR 50371, September 17, 1979, 44 FR 53761 and November 23, 1979, 44 FR 67182.

A summary of the criteria for approving SIPs for nonattainment areas follows:

Criteria for Approval

The following list summarizes the basic requirements for nonattainment area plans.

1. Evidence that the proposed SIP revisions were adopted by the State after reasonable notice and public hearing.
2. A provision for expeditious attainment of the standards.
3. A determination of the level of control needed to attain the standards by 1982 and evidence that all criteria are met for approval of any extension beyond that date.
4. An accurate inventory of existing emissions.
5. Provisions for reasonable further progress (RFP) as defined in Section 171 of the Clean Air Act.
6. An identification of emissions growth.
7. A permit program for major new or modified sources, consistent with Section 173 of the Clean Air Act.
8. Use of Reasonably Available Control Technology (RACT) control measures as expeditiously as practicable.
9. Inspection and Maintenance (I/M), if necessary, as expeditiously as practicable.
10. Necessary transportation control measures, as expeditiously as practicable.
11. Enforceable regulations.
12. An identification of, and commitment to, the resources necessary to carry out the plan.
13. State commitments to comply with schedules.
14. Evidence of public, local government, and State, involvement and consultation.

Sulfur Dioxide

Background

Allegheny County Health Department, in response to the requirements of Part D of the Clean Air Act, undertook in 1978 a diffusion modeling study attempting to validate the CDMQC model using 1976 base year emissions and air quality data, and project air quality for compliance with existing regulations by 1982. Because of the complexities of transport and dispersion characteristics of pollutants in Allegheny County it was necessary to make several modifications to the basic air quality diffusion model. The major modifications in the basic model dealt with plume-terrain interaction and plume rise. The results of the initial validation run were unsatisfactory due primarily to gross overpredictions at the Hazelwood monitor. Subsequently, other validation runs were made using various combinations of modifications of major model features.

A comparison of the tested combinations of model features showed that all were improvements over the version used in the initial validation run. However, the model still significantly overpredicted at the Hazelwood monitor by 56% and underpredicted, in one case, a known violation at the Glassport monitor by 43%.

The Allegheny County Health Department after much consultation with its advisory groups decided to select the model which showed the best overall performance at all the sites and run the model for the 1982 annual compliance with existing regulations. The results showed numerous and widespread violations of the annual ambient SO_2 standard over a large unmonitored area of the Monongahela River Valley from near downtown Pittsburgh to Clairton and extending up to about 5 kilometers from the river. The higest predicted SO_2 value was 219 ug/m^3 near Homestead while various other Monongahela Valley areas showed values in the 150 to 180 ug/m^3 range.

The seven Allegheny County SO_2 continuous monitoring sites were predicted to be in compliance by the end of 1982 with the exception of the North Braddock monitor which showed a marginal violation at 83 ug/m^3 and the Hazelwood monitor which had a violation of 119 ug/m^3. It was theorized that the predicted violations at the Hazelwood monitor may have been caused by the models inability to predict SO_2 concentrations in areas where terrain considerations were vital to the accuracy of the prediction and this may have been a common occurrence throughout the County.

Based on the results of the validation and compliance runs for 1976 and 1982 respectively, Allegheny County concluded that the models were not accurately predicting air quality with any reasonable degree of certainty.

Section 107 Redesignation

Allegheny County Pennsylvania was designated nonattainment for Sulfur Dioxide and Total Suspended Particulates (TSP) on March 3, 1978 (43 FR 8962) and September 12, 1978 (43 FR 40502). Since that time, SO_2 data has shown a steady and consistent improvement in air quality levels at all monitored sites. The following chart shows the data used as the basis for the nonattainment designation and recent trends in SO_2 air quality levels.

Recent Annual SO_2 Data From Allegheny County Monitors

Monitor	9-76 to [1] 6-77	4-77 to 3-78	4-78 to 3-79	4-79 to 3-80	7-79 to 6-80
North Braddock	102	79	40	43	43
Liberty Boro	134	99	82	69	69
Glassport	97	81	45	53	53
Hazelwood	170	157	128	104	101
Logans Ferry	94	65	61	48	45
Bellevue	76	65	61	69	72
Downtown	71	55	45	51	48

[1] Basis of Original 107 Designation.

On the basis of this recent air quality data and the inherent problems of the modeling discussed above, Allegheny County has requested a change in the SO_2 designations from primary nonattainment Countywide to the following:

1. Unclassified for an area within an eight-mile radius of the Duquesne Golf Association Club House excluding the Hazelwood nonattainment area. This

area includes most of the modeling violations.

2. Unclassified for the area within a two-mile radius of the Bellevue monitor. This area includes the remainder of the modeled violations.

3. Primary nonattainment for the area within a two-mile radius of the Hazelwood monitor.

4. Attainment for the remaining portions of the County.

EPA has reviewed the modeling demonstration and air quality data submitted by the County, and agrees with the conclusions reached. Therefore, EPA is today proposing the approval of these Section 107 redesignations as listed above.

Nonattainment Plan

Control Strategy and Demonstration of Attainment

For those areas designated as nonattainment, the Clean Air Act requires Allegheny County to submit a revision to the Pennsylvania SIP to demonstrate attainment of the primary National Ambient Air Quality Standards (NAAQS) by December 31, 1982, and the secondary NAAQS as expeditiously as practicable. The County has submitted a plan providing for attainment of the primary standards by December 31, 1982. According to this plan, the current air quality in the Hazelwood area is directly related to the operation of the coke oven gas desulfurization unit at the Jones and Laughlin Steel Corporation (J&L) plant in the area. Ambient air quality data and unit operations data reported in the plan indicate the beneficial effect of the operation of the desulfurization unit on ambient SO_2 levels. The plan shows a direct correlation between improvements in air quality and operation of the desulfurization unit. Average SO_2 concentrations for days when the unit was not running were 74% higher than corresponding days in the following year when the unit was operating properly. These average values exceeded the annual average standard of 0.03 ppm. The average ambient SO_2 concentrations for periods when the unit was in stabilized operation met the ambient air quality standard, averaging 0.027 ppm. The Commonwealth and EPA recently signed a Consent Decree with J&L which in part addressed operational problems with the desulfurization unit. This decree requires J&L to bring the unit into compliance with the applicable County regulations, to submit monthly reports on the operation of the unit, and to retain a consultant to assist in the evaluation of the unit and make recommendations on actions needed to improve the reliability of this unit. The reporting and consulting requirements remain in effect until the unit availability has averaged 90% or more over a period of twelve consecutive months. This should result in more reliable operation of this unit and an overall improvement in air quality in the Hazelwood nonattainment area. Therefore, EPA proposes to approve the plan for the attainment of the SO_2 primary NAAQS by December 31, 1982.

According to an analysis using the Larsen statistical method, the short term standard should be attained if the annual standard is met, as the annual standard is the critical one. The County is currently attaining the secondary (3-hour) standard. No violations of the 3-hour SO_2 standard have occurred during the period from 1977 to the present. Furthermore, with the exception of the Hazelwood monitor, there have been no violations of the 24-hour SO_2 standard since 1978.

In the unclassified and nonattainment areas, the County has agreed to carry out additional evaluations of ambient sulfur dioxide concentrations. Additional monitors will be established in the nonattainment and unclassified areas where data will be collected for one year. The purpose of the monitoring is to better identify air quality levels and assess the accuracy of the modeled predictions. If any of these unclassified areas are found to be nonattainment, an attainment plan must be submitted within one year of the redesignation of these areas to nonattainment. This plan must provide for attainment of the applicable National Ambient Air Quality Standards (NAAQS) within three and one-half years of the date of plan approval by EPA. (EPA will take action on the plan within six months of submittal). Redesignation will occur within six months of the acquisition of four valid quarters of ambient SO_2 air quality data.) The EPA has reviewed the information submitted by the County, and is proposing that the plan be approved.

Emissions Inventory

The emissions inventory used in the development of this SO_2 plan is based on actual (vs. projected) emissions data from 1976. This data was used because at the time the plan development commenced, it was the latest year for which a complete set of data was available including industry fuel use and operations data. Projections for 1982 (the primary standard attainment data) and 1987 (the secondary attainment date) were developed from this 1976 data base, and include an allowance for growth of 0.5% per year.

Margin for Growth

The County accommodates growth of area sources and some point sources in the nonattainment area by including a growth increment of one half of one percent of the total Countywide sulfur dioxide emissions per year. Increases in emissions from major point sources will be provided for on a case-by-case emission offset basis.

Reasonable Further Progress

The County has submitted a graphical presentation of Reasonable Further Progress (RFP) for attaining the primary ambient SO_2 standard. In addition, a list of major events (i.e. shutdowns, startups, etc.) affecting SO_2 emissions was included. The expected overall effect will be a reduction of 17,000 tons per year of sulfur dioxide emissions from 1976 (actual emissions) to 1982 (projected emissions). EPA believes that these reductions are reasonable.

Reasonably Available Control Technology

The County has concluded that its Article (XX) regulations, which are applicable to existing sources, incorporate the requirements of Reasonably Available Control Technology (RACT). (The Article XX regulations were previously titled Article XVIII). EPA agrees with the County that the existing regulations satisfy RACT requirements. Therefore, EPA is proposing approval of the regulation.

Regulation Changes

Emission Relaxation-Attainment Area

In the areas redesignated as attainment both monitoring and modeling data show and predict attainment of primary and secondary standards. A relaxation of the regulations for these areas has been requested for existing plants above 5000 x 10^6 Btu/hour rated heat input and for those between 0.2 and 0.5 x 10^6 Btu/hr rated heat input. A demonstration submitted with this request showed that the attainment status of the area will not be jeopardized by these changes.

The previous limitations (1.0 lb/10^6 Btu) on the smaller units were found to have been unnecessary, and should have no effect on emission levels. Therefore, this regulation is not included in Arcticle XX (formerly Article XVIII). The relaxation for plants above 5000 x 10^6 Btu/hr. changes the limitation from 0.60 lbs SO_2 10^6 Btu to 2.80 lbs. SO_2 10^6 Btu. This relaxation affects only one plant in Allegheny County, the

Duquesne Light Company's Cheswick Power plant.

The Cheswick power plant is a coal-fired steam generating station rated at 5280 million Btu. The coal burned contained approximately 2.1% sulfur, with emissions averaging 3.5 lbs. SO_2 10^6 Btu, until the coal feed was changed in March 1980. The SO_2 emission reduction resulting from compliance with this revised regulation will amount to approximately 9,000 tons per year (based on 1976 actual operations and projected reasonable maximum operations). A real reduction will occur even though the regulation is being relaxed because the source is currently not in compliance with the previous regulation. Compliance with the revised regulation will be achieved by using a combination of low sulfur coal (about 1.0%S), and through improved coal cleaning to achieve an overall sulfur content of about 1.7%. Under the previous regulation, a flue gas desulfurization system would have been required. However, if in the future attainment of ambient air quality standards is jeopardized, the County may require additional controls as necessary to attain the air quality standards.

The County has submitted a demonstration that the emissions from Cheswick when added to existing air quality in the region will not cause a violation of any ambient air quality standard. This demonstration consisted of an analysis using the CRSTER model and five years of meteorological data, which conforms to the criteria which was developed as a result of the decision rendered in the Cleveland Electric Illuminating Company court case. EPA is proposing approval of this revision.

Regulation of SO_2 Emissions From Silicon Carbide Manufacturing

The County has proposed a regulation controlling the emissions of SO_2 from silicon carbide manufacturing processes. Currently, this process is controlled under Article XX with a process SO_2 emission limitation of 500 ppm. However, the County has determinded that this process regulation is not easily applicable to the one silicon carbide manufacturing process presently existing in the County. The revised regulation in Article XX establishes an equivalent degree of control (an 85% reduction in SO_2 emissions), but specifies control requirements as applicable to the silicon carbide process to facilitate enforcement. It also allows credit for the use of low-sulfur coke in the process. EPA is proposing approval of this regulation.

Total Suspended Particulates

Background

On December 24, 1980, the Commonwealth submitted a proposed revision to the Pennsylvania SIP for the attainment of the primary and secondary NAAQS for Total Suspended Particulates (TSP) in Allegheny County. This revision consists of a plan which contains: (1) an emission inventory, (2) a demonstration that more than Reasonably Available Control Technology (RACT) is needed for attainment of the standards, (3) a commitment to annual incremental reductions (Reasonable Further Progress), and (4) a proposal for further study of fugitive emissions which will result in the adoption of fugitive particulate regulations. For all those areas designated nonattainment, the plan provides for attainment of the primary standards by December 31, 1982, and the secondary standards by December 31, 1987.

EPA has reviewed th proposed TSP plan revision for Allegheny County. The following is a discussion of the plan and a summary of EPA's review.

Section 107 Redesignation

Allegheny County is currently designated nonattainment for TPS. This designation was requested in 1978 because of its administrative simplicity. However, in developing this plan, the County recognized the need for a review of this designation and a more accurate characterization of air quality within the County. In order to accurately assess current and future ambient particulate concentrations, the County conducted the following:

1. An exhaustive analysis of available data on air quality emissions, meteorological conditions and monitoring sites.

2. Special studies on the orgins of particulate matter.

3. An analysis of TSP emissions in the vicinity of steel plants.

As a result of these analyses, the County has requested a redesignation which divides the County into seven primary nonattainment areas, one unclassified area, and one secondary nonattainment area. The remaining areas of the County are in attainment of the primary and secondary standards. These areas are described as follows:

Primary Nonattainment

1. Five continuous segments (areas #3,4,5,6, and 8) of a three-mile wide strip which is within a perpendicular distance two miles north and east and one mile south and west of the river center line, from the I–79 Bridge on the Ohio River to the Westmoreland County Line on the Monongahela River, (area numbers are those used in a map and described in the plan).

2. An area within a 0.5 mile radius of the Greater Pittsburgh Airport monitor (area #2).

3. A one-mile wide strip centered on Turtle Creek from nonattainment area #6 (in number 1 above) to the Westmoreland County line (area #7).

Unclassified.

1. A three-mile wide strip within Allegheny County which is within a perpendicular distance two miles north and east of the Ohio River center line and one mile south and west of the Ohio river center line from the I–79 Bridge to the Beaver County line (area #1).

Secondary Nonattainment

1. An area within Allegheny County within a radius of two miles of the Springdale monitor (area #9).

Attainment

1. All remaining areas of the County.

The County has submitted data from twenty-four monitors located throughout the County as a basis for the redesignations proposed in this notice. The locations of these monitors were discussed in the plan, along with descriptions of local factors affecting ambient particulate levels in the vinicity of the monitors. The following chart indicates the most recent air quality data from these monitors.

Annual Average Particulate Levels in Allegheny County

	Site	Geometric mean (microgram per cubic meter)				
		1976	1977	1978	1979	1980

Liberty	8702	96	91	76	77	78
Coursin Hollow	8704	98	94	76	74	.....

EPA has reviewed the information submitted with the plan as a basis for the redesignation listed above. As monitoring data was used primarily in this analysis, the review focused on the accuracy and representativeness of the data, and the scale that each monitor represented. In general, the data used for this plan is adequate, and the siting requirements are satisfied for most monitoring sites. The monitors used as a basis for the nonattaiment area designations are mostly of the neighborhood scale, the scale preferred by EPA. Neighborhood scale is defined as an extended area of the city, or an area of uniform land use, from 0.5 to 4 kilometers wide. The three mile non-attainment corridor requested by the County encompasses the "neighborhood" area surrounding these monitors.

EPA agrees with the analysis conducted by the County as a basis for these redesignations, and is today proposing approval of the designations listed above.

Control Strategy and Demonstration of Attainment

The plan submitted by the County as part of its proposed SIP revision for TSP included studies of existing and projected particulate levels for the County. These studies indicate that the average annual particulate levels will decrease, but not sufficiently to attain the primary standard by December 31, 1982. Estimates have been made that between 60 and 80 percent of the projected 1982 ambient particulate levels will result from fugitive emissions if no further control strategies are implemented.

The demonstration submitted with this SIP consists of the following:

1. An exhaustive analysis of available air quality and emissions data, meterological conditions, and monitoring sites.
2. Special studies on the origins of particulate matter.
3. Analysis of TSP emissions in the vicinity of steel plants.

This approach was used because of various problems in areawide modeling of particulate concentrations. The reliability of such dispersion modeling techniques is dependent upon the detail and accuracy of information used in the modeling.

In order to better characterize TSP levels in Allegheny County, the TSP emissions inventory will be further refined. In addition, modeling of fugitive emissions, whether from traditional or non-traditional sources, is difficult and not easily validated. Fugitive emissions are a significant contributor to ambient particulate levels in the County, and emission sources are often located in complex configurations. The unique topographical features of the area further complicate attempts at dispersion modeling.

Because of these problems, the County proposed the use of a proportional rollback model for the evaluation of control strategy alternatives, along with near-field modeling of major steel-making facilities and a sampling analysis program to determine relative source impacts on ambient particulate levels.

The objective of the approach used by the County in analyzing ambient TSP data was to quantify the relative ambient particulate contributions from traditional and non-traditional sources, and to determine background concentrations. This analysis shows that currently point sources are contributing to ambient levels, but that by 1982 point source contributions will be relatively minor due to compliance with existing regulations. In addition, several Consent Decrees have been signed, detailing various fugitive emission controls on sources operated by the United States Steel Corporation, the Shenango Corporation, and the Jones and Laughlin Corporation. Despite this control, industrial non-traditional sources (e.g., material storage and in-plant traffic) will continue to contribute to high levels of particulates at most monitoring sites. However, some sites will be significantly affected by other traditional sources, and urban non-traditional sources (traffic dust, construction, demolition, etc.).

Allegheny County believes that the existing traditional source regulations are, at a minimum, equivalent to reasonably available control technology (RACT). Therefore, the attainment strategy which they have proposed consists primarily of the study and control of fugitive emissions. EPA agrees that fugitive emissions are a major contributor to existing nonattainment problems. EPA agrees that the existing regulations satisfy RACT requirements. Therefore, EPA is proposing approval of these regulations.

As part of its plan for attainment of the National Ambient Air Quality Standards (NAAQS) for particulates, the County has committed to conduct a study of non-traditional sources in the nonattainment areas. This study will consist of the following three parts:

a. Inventory of non-traditional sources.

b. Determination of non-traditional source contributions.

c. Evaluation of control program effectiveness.

The County has proposed that the study begin on January 1, 1981 with the implementation of fugitive regulations by June 30, 1982. The regulations that are finally implemented will further demonstrate attainment by December 31, 1982.

Upon completion of this study, the County will begin to examine the reasons for nonattainment of the secondary standard. This study will use the prior study as a basis, and will develop and implement control strategies for the attainment of the secondary standard. This study will begin on January 3, 1983, and regulations resulting from this second study should be implemented by December 1, 1986.

In the unclassified area, TSP monitors will be installed to determine the attainment status. One year of data will be collected, at which time the need for an attainment plan will be determined. If a plan is needed, it will be submitted within one year of the redesignation of these areas to nonattainment. This plan must provide for attainment of the applicable National Ambient Air Quality Standards (NAAQS) within three and one-half years of the date of plan approval by EPA. (This must happen within six months of submittal to EPA. Redesignation will occur within 6 months of the acquisition of 4 valid quarters of ambient SO_2 air quality data.)

EPA proposes to conditionally approve Pennsylvania's particulate control strategy for the County. The conditional approval would then be based on the County's commitment to conduct certain studies, to implement certain regulations and to achieve compliance by specified dates, all as outlined above. However, if Allegheny

County fails to meet its commitments on the schedule specified with regard to attainment of the primary standard, it will not be meeting its obligation under the Act and growth restrictions will again apply.

Emissions Inventory

The emissions inventory used in the development of this TSP plan is based on actual emissions data from 1976. This data was used because at the time the plan development commenced, it was the latest year for which a complete set of data was available. Projections for 1982 (the primary date) were developed from this 1976 data base, and include an allowance for growth of 0.5% per year.

Margin for Growth

This SIP revision accommodates growth of emissions from non-major stationary sources by assuming an annual growth rate of 0.5 percent, for sources for which no growth estimates were available. Growth of emissions from major stationary sources will be accommodated through an emission offset policy in the County's regulations. Further, if non-major source growth jeopardizes attainment or reasonable further progress, the County will require additional offsetting emission reductions for non-major sources. The offset program is discussed in more detail in a later section entitled *Offset Program for New and Modified Sources.*

Reasonable Further Progress

Allegheny County has submitted graphical presentations of Reasonable Further Progress (RFP) for five subareas of the County, and one for the overall area. Each of these graphs represent expected emissions levels, for the years from 1976 to 1987, and indicate estimated (or measured) ambient particulate levels for 1976, 1982, and 1987. Significant reductions are expected up until 1982 as a result of compliance with existing regulations. In addition, the County submitted lists of events (shutdowns, start-ups, control device installment, etc.) which will significantly affect emissions in each area. Also, regulations governing the control of fugitive emissions in non-attainment areas from source premises, parking lots, construction, mining and demolition activities (sections 521, 522, 524, 525 and 526 of the new Article XX) become effective January 31, 1982, and a regulation controlling fugitive emissions in transport activities (§ 523) becomes effective January 1, 1981. The RFP estimates include credits for the reductions resulting from the implementation of these regulations. The EPA has reviewed these RFP estimates and has found them to be generally adequate for the tracking of emission reductions and SIP progress.

General Comments

Offset Program for New and Modified Sources

Allegheny County has submitted as part of its plan a New Source Review program for the permitting of new and modified sources within the County. This includes any new, modified, reconstructed, or reactivated source. All major new or modified sources (those having potential emissions greater than 100 tons per year or more of any criteria pollutant), including applicable reconstructed and reactiviated sources located in, or significantly impacting, any nonattainment area, are subject to the County's offset regulations. The regulation requires a source to obtain offsets which will result in a net air quality benefit. The following ratios of actual emissions reductions to new emissions apply, as a minimum, to offsets obtained by a source:

Type of new emissions	Type of emission reductions	Ratio of required emission reduction to new emissions
Flue emissions	Flue emissions	1 to 1
Flue emissions	Fugitive emissions	2 to 1.
Fugitive emissions	Fugitive emissions	1.3 to 1 (where emissions are quantified by the same technique); 2 to 1 (where emissions are not quantified by the same technique).

These emission offsets were not included in developing estimates of reasonable further progress for attainment of the standards. Therefore, any net emission reductions produced by these offsets will be an additional benefit towards reasonable further progress. Other requirements include:

1. Establishment of emission limitations which specify the Lowest Achievable Emission Rate for the source or facility.

2. Demonstration that all other sources owned, operated, or under common control with the applicant in the Commonwealth of Pennsylvania are in compliance with all applicable SIP requirements, compliance orders, or court decrees.

Emission reductions committed to for emissions offsets must be enforceable by authorized State and/or local agencies and under the Clean Air Act. Internal offsets can be enforced at the Federal level through existing mechanisms in Pennsylvania, but external offsets would not presently be Federally enforceable. Therefore, EPA is asking the County to submit any external offsets to EPA as SIP revisions. This commitment should be submitted during the public comment period on this proposed revision.

Specific requirements for the permitting of major and non-major sources are contained in Chapter VIII of the County's regulations.

These regulations are generally consistent with the Commonwealth of Pennsylvania's offset regulations, and also satisfy the requirements of Section 173 of the Clean Air Act. EPA is therefore proposing the approval of these regulations as part of the Pennsylvania SIP.

Bubble Regulation

Chapter IX of the County's regulations allows for Alternative Emission Reduction Plans, commonly known as bubble plans. These allow a source operator to employ a mix of control measures on multiple sources to achieve a specified overall emission reduction, and would permit operators to place a greater burden of control on sources where the marginal cost is low. Any applications will be reviewed by the County in order to assure consistency with EPA's policy statement as published in the **Federal Register** notice of December 11, 1979 (44 FR 71780). Any plan approved by the County will then be submitted as a revision to the SIP. In the County's bubble regulation, it appears that the bubble plan is effective upon approval by the Director of the County Health Department. However, because each bubble proposal becomes effective only upon approval as a SIP revision by EPA, EPA proposes to take no formal action on the County's bubble regulation.

Review of Regulations

Several issues were raised during EPA's review of the regulations submitted as part of the county's plan. These issues are discussed in the following paragraphs.

Under Chapter IV, Regulation 401 C, an alternative standard may be established where fugitive emissions have been controlled, where reasonably available control technology has been applied, and where the owner or operator demonstrates that the remaining fugitive emissions are of minor significance. In the regulation, it is stated that the alternative standard is effective upon adoption by the Department. However, this alternative standard must be submitted to EPA for inclusion in the SIP, and can only

become effective upon EPA approval for such inclusion.

EPA does not have the authority to enforce odor regulations (§ 404 of the County's regulations). Therefore, they are not approved as part of the SIP.

Regulation 304, Delayed Compliance Order (DCO's), allows for the issuance of DCO's to sources needing extensions of any final compliance date. The Clean Air Act specifies that final compliance dates contained in the DCO cannot extend beyond July 1, 1979 or three years beyond the compliance date required by the SIP. Since the latest possible final compliance date for previously regulated sources (including SO_2 and TSP sources) has passed, only newly regulated sources of volatile organic compounds can be issued DCO's.

Commitments and Resources To Implement and Enforce Adopted Measures.

Allegheny County has made an adequate commitment of financial and manpower resources to implement the TSP and SO_2 studies and their results, and define air quality conditions in the currently unclassified areas. The EPA is working with Pa.DER and the County to better define the details of both studies.

Commitments To Comply With Schedules

The County has provided adequate commitments to perform a detailed study of nontraditional sources in the nonattainment areas according to the schedule which was included in this plan. This includes implementation of regulations by June 30, 1982, where the regulations would provide for an improvement in air quality and attainment of the primary standard by December 31, 1982.

Public Involvement and Analysis of Effects

The Clean Air Act requires a SIP to include evidence of involvement and consultation with the public, local government, legislature, and all other interested parties. The County has satisfied this requirement through the issuance of public mailings, public hearings, and representation of the public, industry, and local governments on various committees and board's invovled in the SIP process.

Also required in the SIP is an analysis of energy, economic, environmental and social impacts of the plan. The County has submitted a qualitative analysis which indicates that this plan will have a positive effect on the local economy, the social well-being of the area and on the environment (through attainment of the standards). The effects on the consumption of energy are expected to be minimal.

The public is invited to submit, to the address stated above, comments on whether the proposed changes to the regulations should be approved as a revision of the Pennsylvania State Implementation Plan.

The Administrator's decision to approve or disapprove the propsed revision will be based on the comments received and on a determination of whether the amendments meet the requirements of Section 110(a)(2) of the Clean Air Act and 40 CFR Part 51, Requirements for Preparation, Adoption, and Submittal of State Implementation Plans.

A supplement to an April 4, 1979 Notice of Proposed Rulemaking (44 FR 20372 (1979)) was published on July 2, 1979 (44 FR 38583 (1979)) involving among other things, conditional approval. EPA proposes to conditionally approve the plan where there are minor deficiencies and the County provides assurances that it will submit corrections on a specified schedule. This notice solicits comment on what items should be conditionally approved. A conditional approval will mean that the restrictions on new major source construction will not apply unless, (1) the County fails to submit, by dates to be scheduled, SIP revisions necessary to remedy the deficiencies, or (2) the revisions are not approved by EPA.

The deficiencies in the Pennsylvania Plan that are not corrected may be cause for disapproval of the proposed revisions to the SIP. EPA is aware, however, that Allegheny County is undertaking efforts to rectify plan deficiencies.

Pursuant to the provisions of the Regulatory Flexibility Act, 5 U.S.C. § 605(b), the Administrator has certified that SIP approvals under Sections 110 and 172 of the Clean Air Act and attainment status designations under Section 107 of the Clean Air Act, will not have a significant economic impact on a substantial number of small entities, 46 FR 8709 (January 27, 1981). I have also determined that the SIP approval and attainment status redesignations proposed today would not be major rules within the meaning of Executive Order 12291. SIP approvals and today's attainment status designations, which change designations from nonattainment to attainment and unclassifiable, only approve State actions and impose no new requirements. Under the Clean Air Act inquiry into the economic reasonableness.

The measures propopsed today will be in addition to, and not in lieu of, existing SIP regulations. The present emission control regulations of any source will remain applicable and enforceable to prevent a source from operating without control or under less stringent controls, while it is moving toward compliance with the new regulations (or, if it chooses, challenging the new regulations). Failure of a source to meet applicable pre-existing regulations will result in appropriate enforcement action, including assessment of non-compliance penalties. Furthermore, if there is any instance of delay or lapse in the applicability or enforceability of the new regulations because of a court order or for any other reason, the pre-existing regulations will be applicable and enforceable.

The only exceptions to this rule are cases where there are conflicts between the requirements of the new regulations and the requirements of the existing regulations such that it would be impossible for sources to comply with the regulations. In these situations, the State may exempt sources from compliance with the pre-existing regulations. Any exemption granted would be reviewed and acted on by EPA either as part of these proposed regulations or as future SIP revisions.

In addition, an existing requirement can be relaxed or revoked if it will not interfere with the attainment of standards.

Pursuant to the provisions of 5 U.S.C. § 605(b) the Administrator has certified that SIP approvals under Sections 110 and 172 of the Clean Air Act will not have a significant economic impact on a substantial number of small entities. See 46 FR 8709 (January 27, 1981). The attached rule, if promulgated, would constitute a SIP approval under Sections 110 and 172 within the terms of the January 27 certification. In addition, this action only approves State actions, and would impose no new requirements of its own.

Under Executive Order 12291, EPA must judge whether a regulation is "Major" and therefore subject to the requirement of a Regulatory Impact Analysis. This regulation is not Major because it will not have an annual efect of $100 million or more on the economy, nor will it increase costs or adversely affect competition as specified in Section 1 of the Executive Order.

This regulation was submitted to the Office of Management and Budget (OMB) for review as required by Executive Order 12291.

(42 U.S.C. §§ 7401–642)

Dated: May 14, 1981.

Jack Schramm,

Regional Administrator.

BILLING CODE 6560-38-M

40 CFR Part 180

[OPP-300051; PH-FRL-1849-1]

Polyvinyl Chloride (PVC) Proposed Exemption From the Requirement of a Tolerance

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: This amendment proposes that polyvinyl chloride (film and resin) (PVC) be exempted from the requirement of a tolerance when used as an inert controlled-release dispenser for formulations of the attractant gossyplure [(*Z,Z*-) and (*Z,E*-) 7,11-hexadecadien-1-ol acetate] for residues in or on cottonseed.

DATE: Written comments must be received on or before (July 10, 1981.

ADDRESS: Written comments to: John A. Shaughnessy, Registration Division (TS-767C), Office of Pesaticide Programs, 401, M St., SW, Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: John A. Shaughnessy (703-557-7110).

SUPPLEMENTARY INFORMATION: At the request of Herculite Products, Inc. 1107 Broadway, New York, NY 10010, the Administrator, proposes to amend 40 CFR Part 180 by establishing an exemption from the requirement of a tolerance for polyvinyl chloride (film and resin) when used as an inert controlled-release dispenser for formulations of the attractant gossyplure [(*Z,Z*-) and (*Z,E*-) 7,11-hexadecadien-1-ol-acetate on cottonseed].

Inert ingredients are all ingredients which are not active ingredients as defined in 40 CFR 162.3(c), and include, but are not limited to, the following types of ingredients (except when they have pesticidal efficacy of their own): solvents such as water, baits such as sugar, starches, and meat scraps; dust carriers such as talc and clay; fillers; wetting and spreading agents; propellants in aerosol dispensers; and emulsifiers. The term inert is not intended to imply nontoxicity; the ingredient may or may not be chemically active.

Preambles to proposed rulemaking documents of this nature include the common or chemical name of the substance under consideration, the name and address of the firm making the request for the exemption, and toxicological and other scientific bases used in arriving at a conclusion of safety in support of the exemptions.

Name of inert ingredient	Name and address of requestor	Basis for approval
Polyvinyl chloride (film and resin) (PVC)	Herculite Products, Inc. 1107 Broadway NY 10010	Presently cleared under 40 CFR 180.1001(e) for use on animals. Cleared by Food and Drug Administration for several uses as indirect food additives. [21 CFR 175.105, 21 CFR 175.300, 21 CFR 176.170, 21 CFR 176.180, 21 CFR 177.1210].

PVC has found widespread use in medical applications, often involving direct tissue contact. The low inherent toxicity is apparent in a published investigation of PVC used for medical purposes. (Autian, J. "Toxicology of Plastics" in *Toxicology the Basic Science of Poisons.* Casarett, L. J. and Doull, J. Eds. Macmillan, New York, 1975, pages 614-615.)

PVC has been manufactured in large quantities for over 30 years, with no reported effects associated with occupational exposure to the polymer (Autian, J. p.607).

Based on the proposed use of PVC dispensing a synthetic pheromone on cotton, the contribution of PVC to the diet is expected to be toxicologically insignificant. No overt hazard to applicators is expected.

Based on the above information, and a review of its use, it has been found that, when used in accordance with good agricultural practice, this ingredient is useful and does not pose a hazard to the environment. It is concluded, therefore, that the proposed amendment to 40 CFR Part 180, will protect the public health, and it is proposed that the regulation be established as set forth below.

Any person who has registered or submitted an application for the registration of a pesticide under the Federal Insecticide, Fungicide, and Rodenticide Act, which contains polyvinyl chloride may request, on or before July 10, 1981, that this rulemaking proposal be referred to an advisory committee in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments on the proposed regulation. The comments must bear notation indicating both the subject and the document control number "[OPP-300051]." All written comments filed in response to this notice of proposed rulemaking will be available for public inspection in the Process Coordination Branch (TS-767C), Rm. 514D CM #2, Environmental Protection Agency, Arlington, VA, from 8:00 a.m. to 4:00 p.m., Monday through Friday, except legal holidays.

As required by Executive Order 12291, EPA has determined that this rule is not a "Major" rule and therefore does not require a Regulatory Impact Analysis. In addition, the Office of Management and Budget (OMB) has exempted this regulation from the OMB review requirement of Executive Order 12291, pursuant to section 8(b) of that Order.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-534, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that the regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (46 FR 24950).

Effective on June 10, 1981.

(Sec. 408(e), 68 Stat. 514 (21 U.S.C. 346a(e)))

Dated: June 1, 1981.

Douglas D. Campt,

Director, Registration Division, Office of Pesticide Programs.

Therefore, it is proposed that Subpart D of 40 CFR Part 180 be amended by adding § 180.1060 to read as follows:

§ 180.1060 Polyvinyl chloride; exemption from requirement of tolerance.

Polyvinyl chloride (film and resin) is exempt from the requirement of a tolerance for residues in or on cottonseed, when used as an inert controlled-release dispenser for formulations of the attractant gossyplure [(*Z,Z*-) and (*Z,E*-) 7,11 hexadecadien-1-ol acetate] to disrupt the mating of the pink bollworm.

[FR Doc. 81-17166 Filed 6-9-81; 8:45 am]

BILLING CODE 6560-32-M

40 CFR Part 408

[WH-FRL-1849-8]

Canned and Preserved Seafood Processing Point Source Category

AGENCY: Environmental Protection Agency (EPA).

ACTION: Extension of comment period and notice of availability of additional supporting information.

SUMMARY: On January 9, 1981, EPA published in the **Federal Register** a proposed response to a petition for modification and amendment of regulations governing wastewater discharges from certain seafood processors located in Alaska (46 FR 2544). The comment period was initially scheduled to expire March 10, 1981. On March 23, 1981, EPA published in the **Federal Register** a notice which extended the comment period until May 11, 1981 and made available additional supporting information (46 FR 18055). The purpose of this notice is to extend the period for comment on all aspects of the proposed response to the petition for modification and the amendment of regulations until July 10, 1981.

DATE: Comments on the proposed response to the petition and the amendments to BPT regulations for the "non-remote" Alaskan subcategories of the seafood processing industry must be submitted to EPA by July 10, 1981.

ADDRESS: Send comments in triplicate to: Mr. Daniel S. Lent, Effluent Guidelines Division (WH-552), Environmental Protection Agency, 401 M Street, S.W., Washington, D.C. 20460, Attention: EGD Docket Clerk—Seafood Processing Industry.

The supporting information and all public comments submitted in response to this proposal will be available for inspection and copying at the EPA Public Information Reference Unit, Room 2404 (rear) PM-213 (EPA Library), 401 M Street, S.W., Washington, D.C. 20460; EPA Region X, 1200 6th Avenue, Seattle, Washington 98101; and the EPA Alaska Operations Office, 701 "E" Street, Anchorage, Alaska. The EPA information regulation (40 CFR Part 2) provides that a reasonable fee may be charged for copying.

FOR FURTHER INFORMATION CONTACT: Mr. Daniel S. Lent at (202) 426-2707.

SUPPLEMENTARY INFORMATION: On January 9, 1981, EPA proposed a response to a petition for modification and an amendment of regulations for portions of the Canned and Preserved Seafood Processing Industry (46 FR 2544). More specifically, the proposed regulation amended effluent limitations based on the best practicable control technology currently available (BPT) for the "non-remote" Alaskan subcategories of the seafood processing industry. Comments on the proposal were to be submitted on or before March 10, 1981. Counsel for the petitioners initially requested a 60 day extension of the comment period, until May 11, 1981. EPA agreed to this request and extended the comment period until May 11, 1981, and also made available additional information for public review and comment. See the **Federal Register** for March 23, 1981 (46 FR 18055). Subsequently, counsel for the industry requested a six month extension of the comment period. EPA has decided to extend the comment period until July 10, 1981. Interested persons should be aware that subsequent to May 11, 1981, the Agency placed additional supporting information in the EPA Public Information Reference Unit, Washington, D.C., EPA Region X, and the EPA Alaska Operations Office. This information and the date made available is listed below:

1. Letter from the Agency to counsel for the petitioners dated May 28, 1981, listing the names of seafood processors sending waste solids from Anchorage to the Seward reduction facility. Available June 5, 1981.

2. Telephone memorandum on waste trucking from Anchorage to Seward, dated May 6, 1981. Available May 29, 1981.

In view of industry's familiarity with the pertinent issues from prior contacts with EPA, we believe that these actions will provide the petitioning seafood processors and other interested parties with sufficient opportunity to comment on the proposed response to petition and amendment of regulations.

Dated: June 4, 1981.

James N. Smith,

Acting Assistant Administrator for Water and Waste Management.

BILLING CODE 6560-29-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 67

[Docket No. FEMA-6053]

National Flood Insurance Program; Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule; revision.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Unincorporated Areas of Kenosha County, Wisconsin.

Due to recent engineering analysis, this proposed rule revises the proposed determinations of base (100-year) flood elevations published in the *Kenosha News* on May 4, 1981, and at 46 FR 27137 on May 18, 1981, and hence supersedes those previously published rules.

DATES: The period for comment will be ninety (90) days following the second publication of this notice in a newspaper of local circulation in the above named community.

ADDRESS: See table below.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, National Flood Insurance Program, (202) 755-5585, Federal Emergency Management Agency, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: Proposed base (100-year) flood elevations are listed below for selected locations in the Unincorporated Areas of Kenosha County, Wisconsin, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 44 CFR 67.4(a)).

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Proposed Base (100-year) Flood Elevations

State	City/town/county	Source of flooding	Location	#Depth in feet above ground. *Elevation in feet (NGVD).
Wisconsin	(Unincorporated), Kenosha County	Pike River	About 1,100 feet downstream of State Highway 32	*591
			Just upstream of State Highway 32	*594
			Just downstream of confluence of Unnamed Tributary	*601
			Just upstream of abandoned railroad	*604
			Just upstream of County Highway Y	*608

BILLING CODE 6718-03-M

44 CFR Part 67

[Docket No. FEMA-6075]

National Flood Insurance Program; Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below and proposed changes to base flood elevations for selected locations in the nation. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: See table below.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, Federal Emergency Management Agency, Federal Insurance Administration, National Flood Insurance Program (202) 755–5585, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for selected locations in the nation, in accordance with Section 110 and Section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448)), 42 U.S.C. 4001–4128, and 44 CFR 67.4.

These elevations, together with the flood plain management measures required by Section 60.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insruance on existing buildings and their contents.

The proposed base (100-year) flood elevation for selected locations are:

Proposed Base (100-year) Flood Elevations

State	City/town/county	Source of flooding	location	#Elevation, meters above mean sea level
Commonwealth of Puerto.	Rio Jacaguas Basin	Rio Jacaguas	Intersection of Puerto Rico Highway 1 and Puerto Rico Highway 510.	*11.0
			25 meters upstream of intersection of Rio Jacaguas and Puerto Rico Highway 49.	*77.0
		Rio Jacaguas (At Villalba)	20 meters downstream of intersection of Rio Jacaguas and Puerto Rico Highway 151.	*150.2
		Rio Inabon	50 meters upstream of intersection of Rio Inabon and Puerto Rico Highway 506.	*7.5
			20 meters upstream of intersection of Rio Inabon and Puerto Rico Highway 52.	*44.0
		Rio Guayo	20 meters downstream of intersection of Rio Guago and Puerto Rico Highway 14.	*64.0
		Caribbean Sea	At mouth of Rio Jacaguas	*1.8

BILLING CODE 6718-03-M

FEDERAL MARITIME COMMISSION

46 CFR Part 502

[Docket No. 81-38]

Former Employees; Rules of Practice and Procedure

AGENCY: Federal Maritime Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: The present rule suggests that a former FMC employee wishing to practice before the agency, with respect to a matter that was pending during the employee's tenure, is absolutely precluded from such activity if "associated" with a barred former FMC employee, by reason of current common employer. This amendment would make clear that a former employee may practice before the FMC under such circumstances subject to certain conditions and restrictions.

DATES: Comments must be submitted on or before July 13, 1981

ADDRESS: Address comments and inquiries to: Joseph C. Polking, Acting Secretary, Federal Maritime Commission, 1100 L Street, NW., Washington, D.C. 20573, (202) 523–5725.

SUPPLEMENTARY INFORMATION: 46 CFR 502.32 (b) (2) requires a former employee wishing to appear or practice before the agency within one year of the termination of FMC employment of a particular matter, which was pending during the employee's tenure, to file an affidavit attesting, among other things, that the affiant "is not associated with " nor will be associated with any other former member, employee, or officer who is precluded from practicing, appearing or representing anyone before the FMC in connection with that matter.

The term "not associated with" is neither defined nor explained in section 502.32 (b) (2). The term could be read, however, as absolutely precluding an otherwise qualified former FMC employee from appearing before the agency solely because that employee now happens to be associated, by reason of a common employer, to another former FMC employee who is precluded by law or regulation from so appearing. The Commission did not intend such a result.

Section 502.32 (b) (2) is intended to forbid a former employee intending to practice before the agency on a particular matter, that was pending during the employee's tenure, from obtaining an unfair or unethical advantage by conferring with or soliciting the assistance of another former FMC employee who is precluded from appearing before the Commission in connection with such matter. Interpreted in this manner, § 502.32 (b) (2) is consistent with section 502.32 (c), which permits a former employee's partners or associates to appear before the Commission, even if the former employee is precluded from so doing, provided that such partners or associates do not discuss the matter with, utilize the services of, or share any fees with the former FMC employee. This is the standard the Commission intended to apply to associations among former employees rather than the absolute bar that could be implied from the existing language of § 502.32 (b) (2).

Therefore, pursuant to E.O. 11222 of May 11, 1965 (30 FR 6469), 18 U.S.C. 207, section 43 of the Shipping Act, 1916 (46 U.S.C. 841a), and 5 U.S.C. 553, the Commission proposes to revise paragraph 2 of section 502.32 (b) of Title 46 of the Code of Federal Regulations as follows:

§ 502.32 [Amended]

* * * * *

(b) * * *

(2) Such applicant shall be required to file an affidavit to the effect that the particular Commission matter was not under the applicant's official responsibility as a member, officer or employee of the Federal Maritime Commission at any time within a period of one year prior to the termination of his or her service with the Commission; that the applicant will not: (i) utilize the service of, (ii) discuss any matter with, or (iii) share directly or indirectly any fees or revenues received for services provided in the particular matter with a partner, fellow employee, or legal or business associate who is a former member, officer or employee of the Commission and who is either permanently or temporarily precluded from practicing, appearing or representing anyone before the Commission in connection with the particular matter; and that the applicant's employment is not prohibited by any law of the United States or by the regulations of the

Commission. The statements contained in such affidavit shall not be sufficient if disproved by an examination of the files and records of the case.

By the Commission.

Joseph C. Polking,

Acting Secretary.

BILLING CODE 6730-01-M

46 CFR Part 547

[General Order No. 45; Docket No. 81-36]

Procedures for Environmental Policy Analysis

AGENCY: Federal Maritime Commission.

ACTION: Proposed rule.

SUMMARY: The Commission proposes to amend section 547.4(a) of its environmental rules (46 CFR 547) to clarify certain existing categorical exclusions and to add several new exclusions. Based upon its administration of these rules, the Commission has concluded that several additional exclusions are warranted and will avoid unnecessary assessments on actions which have no potential for significantly affecting the environment. This action will allow both the Commission and the parties before it to more efficiently and effectively pursue those actions which are more likely to impact on the environment.

DATES: Comments (original and fifteen copies) on or before: July 27, 1981.

ADDRESS: Send comments to: Joseph C. Polking, Acting Secretary, Federal Maritime Commission, 1100 L Street, N.W., Washington, D.C. 20573.

FOR FURTHER INFORMATION CONTACT: Joseph C. Polking, telephone (202) 523-5725.

SUPPLEMENTARY INFORMATION: The Commission's environmental rules presently contain a list of Commission actions for which no environmental analysis need be undertaken (46 CFR 547.4(a)). These actions are generally ministerial and involve operations which neither increase nor decrease air, water or noise pollution or the use of fossil fuels, recyclables or energy. Thus, they have no significant effect on the quality of the human environment and can be categorically excluded from the environmental assessment process.

This proposed rule amends present section 547.4(a) to clarify existing exclusions and to add six new classes of Commission actions which are also ministerial functions, or, as experience has shown, do not individually or cumulatively have a significant effect on the quality of the human environment.

Specifically, it is proposed that the last sentence of present section 547.4(a) be revised by adding the words "and rulemakings related thereto" to clarify its intended effect. In addition, subparagraph 547.4(a)(3) would be amended to exclude from environmental assessment, Commission actions involving certification of financial responsibility for water pollution cleanup pursuant to 46 CFR 544.

Wharfage agreements would be deleted from present section 547.4(a)(12), since they would be included within the scope of proposed section 547.4(a)(30)(iii).

Present subparagraph 547.4(a)(18), concerning adjudication of small claims, would be deleted, since such actions are presently excluded by section 547.4(a)(22). In place thereof, a new subparagraph 547.4(a)(18) would be added to exclude actions solely affecting the environment in a foreign country. This conforms with sections 547.7(a) and 547.8(a)(4) which indicate that a finding of no significant impact and an environmental impact statement will only consider the potential impacts on the environment of the United States and the global commons.

Proposed subparagraphs 547.4(a)(30) through 547.4(a)(32) would expand the list of exclusions to include certain agreements involving marine terminals, longshoreman wages or working conditions, container equipment, cranes and other cargo handling equipment. The Commission believes that such actions involve operations which do not have a significant effect on the environment and, therefore, can be excluded. Similarly, actions in proposed subparagraphs 547.4(a) (33) and (34), relating to general agency agreements, credit rules and performance bonds, appear to involve ministerial duties of common carriers which can be exempted from the other provisions of this rule.

Proposed subparagraph 547.4(a)(35) would exclude agreements involving self-policing systems or cargo inspection services. These types of agreements do not involve the actual operation or construction of vessels, equipment or facilities and they consequently will have no significant effect upon the environment.

Therefore, pursuant to 5 U.S.C. 553 and section 43 of the Shipping Act, 1916 (46 U.S.C. 814a), the Commission proposes to amend Part 547 of 46 CFR as follows:

§ 547.4 [Amended]

1. The last sentence of section 547.4(a) would read, "The following Commission actions, and rulemakings related thereto, are therefore excluded:";

2. Section 547.4(a)(3) would read, "Certification of financial responsibility for water pollution cleanup pursuant to 46 CFR Parts 542, 543, and 544";

3. Section 547.4(a)(12) would be amended to read, "Consideration of exclusive or non-exclusive equipment interchange or husbanding agreements filed for section 15 approval";

4. Present section 547.4(a)(18) would be deleted and replaced with a new section 547.4(a)(18) which would read, "Consideration of actions solely affecting the environment in a foreign country";

5. The following new subparagraphs would be added to section 547.4(a):

(30) Consideration of agreements for marine terminal facilities and/or services which involve:

(i) the use, operation, repair or maintenance of: existing structures and facilities, such as docks, berths, piers, wharves, container freight stations, apron areas, warehouses, transit sheds or offices, cranes and other cargo handling areas and facilities;

(ii) the construction of facilities or structures of less than 50,000 square feet; the installation of supporting equipment and facilities, including paving or grading involving no expansion of land area; the installation of surface or subsurface pipelines, fences, lights, and water, sewage, electrical, and gas utilities; or

(iii) the performance of dockage, wharfage, free-time, wharf demurrage, terminal storage, handling, loading and unloading, stevedoring, checking and heavy lift services;

(31) Consideration of agreements regulating employee wages, hours of work, working conditions or labor exchanges;

(32) Consideration of agreements involving the repair, leasing, pooling and checking of shoreside containers, container equipment, cranes, and other cargo handling equipment;

(33) Consideration of general agency agreements involving ministerial duties of a common carrier such as internal management, cargo solicitation, booking of cargo, or preparation of documentation;

(34) Consideration of agreements pertaining to credit rules and performance bonds; and

(35) Consideration of agreements between the members of two or more conferences or other rate-fixing agreements to discuss and agree upon common self-policing systems or cargo inspection services.

By the Commission.
Joseph C. Polking,
Acting Secretary.

BILLING CODE 6730-01-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Ch. I

[CC Docket No. 79-252]

Policy and Rules Concerning Rates for Competitive Common Carrier Services and Facilities Authorizations Therefor; Order Extending Time for Filing Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; extension of reply comment period.

SUMMARY: Based on a request by Eastern Microwave Inc. the period of time for filing reply comments on the further Notice of Proposed Rulemaking issued in this proceeding, Policy and Rules Concerning Rates for Competitive Common Carrier Services and Facilities Authorizations Therefor CC Docket 79-252, 46 FR 10924 (February 5, 1981), is extended to July 10, 1981.

DATES: Reply Comments; July 10, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Michael B. Fingerhut, Common Carrier Bureau (202) 632-6917.

Adopted: May 28, 1981.

Released: June 1, 1981.

By the Acting Chief, Common Carrier Bureau:

1. Before the Common Carrier Bureau is a motion filed by Eastern Microwave, Inc. (EMI) for an extension of time in which to file reply comments on the *Further Notice of Proposed Rulemaking (Further Notice)* issued in the above-captioned proceeding.[1] Under the current procedural schedule, reply comments are due June 5, 1981; EMI seeks a 60-day extension of this date to August 4, 1981.

2. In support of its request, EMI points out that many of the direct comments which were filed on this proceeding on May 1, 1981 are of considerable length and involve complex legal analysis. It argues that its ability to review these comments and develop a response representative of EMI's interest in this far-reaching proceeding is hampered both by the relatively short time frame in which reply comments must be prepared and the fact that EMI's counsel are actively engaged in two lawsuits of vital importance to the carrier.

3. We agree with EMI that because of the voluminous number of direct comments filed, the parties should have some additional time in which to prepare their replies. Based on our own review of the comments as well as the fact that at the request of several other parties the Bureau previously granted a two-month extension in the entire pleading cycle, *Order*, Mimeo No. CC 07462 (released February 26, 1981), we have decided to allow the parties until July 10, 1981 in which to submit their replies.

4. Accordingly, it is ordered, that pursuant to authority delegated under § 0.291 of the Commission's Rules and Regulations, 47 CFR § 0.291, the procedural date for filing reply comments in this proceeding is extended to July 10, 1981.

5. It is further ordered that, except to the extent granted, the motion for the extension of time of Eastern Microwave, Inc. Is denied.

6. It is further Ordered, that this Order is effective upon adoption.

7. It is further ordered, that a copy of this Order be published in the Federal Register.

Federal Communications Commission.
Joseph A. Marino,
Acting Chief, Common Carrier Bureau.
[FR Doc. 81-17139 Filed 6-9-81; 8:45 am]
BILLING CODE 6712-01-M

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1047

[Ex Parte MC 75 (Sub-3)]

Agricultural Cooperative Exemption

AGENCY: Interstate Commerce Commission.

ACTION: Notice of Proposed Rulemaking.

SUMMARY: Section 24 of the Motor Carrier Act of 1980 raised the limit on nonfarm, nonmember regulated commodities which agricultural cooperatives could haul, from 15 to 25 percent of a cooperative's annual tonnage. With the increased percentage and the concern about sham cooperatives, Congress provided the Commission with enhanced enforcement powers over agricultural cooperatives hauling nonmember freight. The Commission proposes minimal report and record keeping requirements, and a requirement that non-resident agricultural cooperatives make their reports and records available within the United States. The "Notice to Commission of Intent to Perform Interstate Transportation for Certain Nonmembers Under 49 U.S.C. 10526(a)(5)," Form BOp. 102, has been redesignated as OCP 102 and will expire one year from the date filed by the agricultural cooperative. These provisions do not increase economic regulation over cooperatives but provide an improved monitoring mechanism to ensure that cooperatives are operating within the exemption.

DATE: Written comments are due July 27, 1981.

ADDRESS: The original and, if possible, 15 copies of comments should be sent to: Ex Parte No. MC-75 (Sub-No. 3), Room 7219, Office of Consumer Protection, Interstate Commerce Commission, Washington, D.C. 20423.

FOR FURTHER INFORMATION CONTACT: Phyllis Gunn (202) 275-7475.

SUPPLEMENTARY INFORMATION:

Background

Section 24 of the Motor Carrier Act of 1980 specifically permits the Commission (1) to prescribe the form in which records shall be kept by agricultural cooperative associations providing nonmember transportation; (2) to require the filing of reports containing answers to questions about transportation; (3) to inspect the lands, buildings, equipment, and records of any cooperative; and (4) to bring civil action against a cooperative and levy specific penalties for noncompliance with the inspection, record keeping, and reporting requirements.

The Proposed Rules

Records and Reports

The present regulations under 49 CFR 1047.22 prescribe the content of records but not the form in which they must be kept. Since most cooperatives do not organize transportation information in any particular order, it is difficult to monitor compliance with the nonmember, annual tonnage and revenue limitations.

Section 1047.22(b)(1), (2) and (3), as proposed, would hopefully remedy this situation. First, a single trip report for each member and nonmember haul containing the required shipment information shall be compiled. It can be maintained as a single document or as part of a continuous tally of all hauls. The trip reports must be kept in some type of order determined by the cooperative, either chronologically, by freight bill number, or some other means, and cross referenced to

supporting shipping and billing documents. These documents must also be kept and cross referenced to the trip reports. In § 1047.22(b)(1)(v), the weight of the shipment, rather than its volume, will be required to ensure that tonnages are properly figured.

The next proposal requires agricultural cooperatives performing nonmember transportation to compile a quarterly report of their tonnage and/or revenue figures for members; nonmembers who are farmers, cooperatives, federations thereof, and transportation otherwise exempt; other nonmembers; and the U.S. Government. Cooperatives should be maintaining this information in order to determine whether or not they are exceeding the tonnage and revenue limits. The new legislation sets a time limit of 30 days in which a cooperative must provide transportation information. The same time frame is proposed for the preparation of the quarterly reports.

It is reported that many so-called agents, sub-agents, and brokers are arranging transportation for a significant amount of regulated traffic under the name of a cooperative but without the knowledge of the cooperative they purport to represent. One step which can help curb such abuse is to have the cooperative maintain a list of all agents, sub-agents, and brokers it has authorized to represent it.

On the other hand, a cooperative may use its network of agents to scatter its transportation records throughout the country and hamper compliance monitoring significantly. To combat this problem, the regulations will mandate the keeping of all records and reports at the address specified in the Notice filed by the cooperative.

The Senate Committee on Commerce, Science, and Transportation "received testimony and informal comments that indicate a concern about so-called sham cooperatives that have been formed to take advantage of the exemption without truly being a transportation service for agricultural shippers." Determining whether or not the members of the cooperative are engaged to some extent in farming is the first step in identifying a sham operation. The agricultural cooperative would be required to maintain member qualification statements containing the basic information specified under Section 1047.22(c).

Although we believe these additional recordkeeping requirements will have minimal effect on legitimate cooperatives, we seek additional evidence and comments in assessing the paperwork burden presented by these proposals.

Form OCP 102

Form BOp 102, the "Notice to Commission of Intent to Perform Interstate Transportation for Certain Nonmembers Under 49 U.S.C. 10526(a)(5)," has already been redesignated as Form OCP 102 due to the reorganization of the Bureau of Operations into the Office of Consumer Protection. The new form designation was approved by the General Accounting Office on February 12, 1981, when the form was cleared for usage until December 31, 1981. The other change in the form involves the replacement of Section 203(b)(5) and 49 U.S.C. 10526(a)(5) due to the recodification of the Interstate Commerce Act.

The Notice, Form OCP 102, is required by 49 U.S.C. 10526(a)(5) for agricultural cooperatives intending to perform nonmember, nonfarm transportation. From 1968 (when the Notice was first required) to 1978, approximately 350 agricultural cooperatives filed Notices. The form was revised in July, 1978 and since then, approximately 48 cooperatives have refiled and an additional 60 new cooperatives have filed the Notice.

Although many of the agricultural cooperatives go out of business, the Notices which they filed remain in effect. A cooperative may be violating the requirements to make an annual filing and to file supplemental Notices when changes occur. However, such violations do not authorize the Commission to void the initial filing without initiating a formal procedure. Hence, it is impossible to tell how many Notices are actively used and whether or not the information on the form is accurate about the cooperative that filed it. Outdated Notices are misused by a sham cooperative or other illegal trucking operation to mislead shippers and state police into believing that it has "interstate operating authority." Even the "rights" to use the OCP 102 "authority" are sold to various trucking operations.

To help control these occurrences, we propose to amend the Form OCP 102 (see Appendix A) so that it expires one year from the date it is filed by the cooperative. The expiration date of the filing will be included in the annual publication of the Notice in the **Federal Register**. All cooperatives will have one year to refile and then all previously filed Notices will become null and void. This proposal will not place any extra burden on the cooperatives since they presently must file a Notice annually within 30 days of their annual meetings. This present requirement will be eliminated since the expiration date necessitates an annual filing if the cooperative intends to continue hauling for nonmembers.

Any changes in the information contained in the Notice on file will necessitate another filing of the Notice within 30 days of the changes to replace the outdated Notice. The language in the certification statement on the OCP-102 has been simplified with no substantive changes in content or meaning.

Agricultural Cooperatives Domiciled in Other Countries

Commission investigators are unable to monitor compliance of a cooperative domiciled in a foreign country, if it refuses to make its records available in the United States. The regulation proposed under Section 1047.24 would resolve this problem. It would require the non-resident to maintain copies of records at a designated place in the United States. The OCP 102 would be modified to require the address *in the United States* where records are maintained.

Without such a regulation, our ability to monitor compliance by a foreign-based agricultural cooperative doing business in the United States, is significantly reduced. Presently, there are seven cooperatives domiciled in Mexico which have filed Notices and the number is likely to increase.

Environmental and Energy Considerations

This proposed action does not significantly affect the quality of the human environment or the conservation of energy resources.

Initial Regulatory Flexibility Analysis

Amendments to the regulations are being proposed in response to Congressional concern about sham agricultural cooperatives and transportation for nonmembers which exceed the tonnage and revenue limits established by Congress. By providing additional enforcement powers over cooperatives in Section 24 of the "Motor Carrier Act of 1980," Public Law 96-296, passed July 1, 1980, Congress clearly intended for the agricultural cooperative statute to be fully monitored.

This statute is found under 49 U.S.C. 10526(a)(5). Its present form (except nonmember annual tonnage has been increased from 15 to 25 percent) is due to a statutory amendment made by Congress in 1968 when Public Law 90-433 was enacted. To implement the new legislation, a set of regulations defining the new provisions was adopted under 49 CFR 1047.20 through 1047.23 and 49

CFR 1003.1(a). These regulations were modified in 1978 under Ex Parte No. MC–75 (Sub-No. 1) to define further the agricultural cooperative statute and deal with the fast growing problem of sham cooperatives and other illegal operations. Unfortunately, these regulations were deficient in certain respects, especially concerning non-resident cooperatives and the record keeping responsibilities of all cooperatives. Under 49 U.S.C. 11144(c), Congress had limited the Commission from prescribing the form of any records to be maintained by agricultural cooperatives. However, this prohibition was eliminated under the "Motor Carrier Act of 1980" and a new section was enacted under 49 U.S.C. 10529 which permits the Commission to prescribe a form for records, require filing of reports, and inspection and copying of records. Specific penalties for noncompliance with the requirements are assigned. Thus, the statutory amendments have enabled us to propose amendments to carry out the Congressional mandate in this area.

Overall, the proposed revisions seek to systematize information agricultural cooperatives already must keep to ensure its compliance with the statute. However, basic information regarding farmer members, brokers, and agents supporting the cooperative, will be required for the first time and thus made available to the Commission for compliance monitoring.

Approximately 110 agricultural cooperatives have filed the required Notice since July 1978, and would be affected by these proposed amendments. They can range in size from one driver and truck to a fleet of a hundred or more trucks with drivers. Their operations are often nationwide regardless of the size of the cooperative, although some tend to operate predominately in one region of the country.

The legitimate agricultural cooperative will feel minimal effects from these record keeping requirements since it already keeps such records as part of its regular business practice. On the other hand, the sham cooperative probably maintains few of the records pertaining to members, brokers, agents, and nonmember transportation.

Most of the information required for the trip report will be obtained from the freight bill. Other information will need to be gathered from other sources and included in the trip report. The summary report will consist of the total tonnage and revenue figures contained in trip reports for one quarter. Names and addresses of farmer members, brokers, agents, and sub-agents should already be available to the cooperative.

Although the Commission can now require cooperative associations to submit reports, we are only proposing that such reports and records be maintained for possible inspection at the cooperative's office or in the case of non-resident cooperatives, at a place in the United States. Except for the cooperatives domiciled in a foreign country, there are no reproduction or mailing costs involved and clerical time spent on preparing records is greatly reduced.

The record and report keeping requirements will require at most, routine bookkeeping skills while other tasks may be accomplished by clerical personnel.

There are no other Federal rules which duplicate, overlap or conflict with the proposed rules.

The proposed amended regulations are straightforward and simple to comprehend. There are no significant alternatives which would accomplish the stated objectives. These proposed regulations will have a slight economic impact on relatively few small entities. To try to minimize the economic impact would require forfeiting some of the stated objectives and, thus, render the rulemaking unworthwhile.

A copy of this notice will be served on the Administrator of the Small Business Administration. Any input that agency intends to make should be presented within the 45-day comment period.

Amendments

We propose to amend Part 1047, Subtitle B, Chapter X of Title 49, of the Code of Federal Regulations, as follows:

1. In § 1047.20, paragraphs (a) and (b) are revised and paragraph (i) is added to read as follows:

§ 1047.20 Definitions.

* * * * *

(a) Cooperative Association. The term "cooperative association" means an association which conforms to the following definition in the Agricultural Marketing Act, approved June 15, 1929, as amended (12 U.S.C. 1141j): as used in this act, the term "cooperative association" means any association in which farmers act together in processing, preparing for market, handling, and/or marketing the farm products of persons so engaged, and also means any association in which farmers act together in purchasing, testing, grading, processing, distributing, and/or furnishing farm supplies and/or farm business services, Provided, however, that such associations are operated for the mutual benefit of the members thereof as such producers or purchasers and conform to one or both of the following requirements: First. That no member of the association is allowed more than one vote because of the amount of stock or membership capital he may own therein; and Second. That the association does not pay dividends on stock or membership capital in excess of 8 per centum per annum. And in any case to the following: Third. That the association shall not deal in farm products, farm supplies, and farm business services with or for nonmembers in an amount greater in value than the total amount of such business transacted by it with or for members. All business transacted by any cooperative association for or on behalf of the United States or any agency or instrumentality thereof shall be disregarded in determining the volume of member and nonmember business transacted by such association. Associations which do not conform to such definition are not eligible to operate under the partial exemption of 49 U.S.C. 10526(a)(5).

(b) Federation of cooperative associations. The term "federation of cooperative associations" means a federation composed of either two or more cooperative associations and one or more farmers, which federation possesses no greater powers or purposes than a cooperative association as defined in paragraph (a) of this section. Federations of cooperative associations which do not conform to such definition are not eligible to operate under the partial exemption of 49 U.S.C. 10526(a)(5).

* * * * *

(i) Non-resident. The term "non-resident" means a cooperative association or federation of cooperative associations which maintains its principal place of business and/or its transportation records required by 49 CFR 1047.22 in any place not within the United States.

2. Section 1047.21 remains unchanged.

§ 1047.21 Computation of tonnage allowable in nonfarm-non-member transportation.

* * * * *

3. Section 1047.22 is amended by revising paragraph (b) and adding paragraph (c) to read as follows:

§ 1047.22 Nonmember transportation limitation, record and report keeping.

* * * * *

(b) Records and reports of interstate transportation when nonmember transportation is performed. Any cooperative association or federation of

cooperative associations performing interstate transportation for nonmembers and required to give notice to this Commission under § 1047.23 shall prepare and retain for a period of at least two years at the address specified in its OCP 102 on file, the following written records and reports of all interstate transportation performed for members and nonmembers.

(1) Each shipment shall be documents in a single trip report which shall contain:

(i) the date of the shipment,

(ii) cross references to the supporting shipping and/or billing documents,

(iii) the names and addresses of the consignor and consignee,

(iv) the origin and destination of the shipment,

(v) a description of the articles in the shipment,

(vi) the weight of the shipment,

(vii) a description of the equipment used either by unit number or license number and, in the event this equipment is nonowned, the names and addresses of its owners and drivers,

(viii) the total charges collected,

(ix) whether the transportation performed is

(A) member transportation,

(B) nonmember transportation for nonmembers who are farmers, cooperative associations, or federations thereof, and nonmember shipments which are exempt under Subchapter II, Chapter 105, Subtitle IV of Title 49 of the United States Code,

(C) other nonmember transportation, and if of category (C), how such transportation was incidental and necessary as defined in § 1047.21(a).

A copy of all leases executed by the cooperatives association or federation of cooperative associations to obtain equipment to perform transportation under 49 U.S.C. 10526 (a)(5) shall also be kept. All trip reports shall be maintained in an orderly fashion, in a single document or on a continuous ledger sheet, and may be computerized.

(2) Within 30 days of the end of each quarter in the fiscal year of each agricultural cooperative or federation thereof, the following information shall be compiled into a single report: (i) Total tonnage and revenue for each of the three categories described in Section 1047.22(b)(1)(ix); (ii) Total revenue from shipments transported for the U.S. Government; (iii) Names and addresses of all brokers, agents, and sub-agents authorized to represent the agricultural cooperative or federation thereof.

(3) Shipping and billing documents which provide the data for the above records and reports shall be maintained and cross referenced to the trip reports required under paragraph (b)(1) of this section.

(c) Member qualification statements. Any cooperative association or federation of cooperative associations required to give notice to this Commission under Section 1047.23 shall prepare and maintain a current list of its members' names and addresses, the date each member was admitted into the cooperative, the name of a person at the member's address who may be contacted about member's participation in the cooperative association, and a description of farm-related products produced by the member.

4. Section 1047.23 is revised to read as follows:

§ 1047.23 Notice to the Commission.

A cooperative association or federation of cooperative associations which performs or proposes to perform interstate transportation for nonmembers, who are not farmers, cooperative associations, or federations of cooperative associations, under 49 U.S.C. 10526(a)(5) (which transportation is not otherwise exempt under Subchapter II, Chapter 105, Subtitle IV of Title 49 of the United States Code) shall notify the Commission of its intent to perform such transportation. Such notification shall be given prior to the commencement of such operations and shall be in the form, contain the information, and be served in the manner called for in Form OCP 102. The Notice will expire one year from the filing date stamped on the Notice and must be refiled annually to comply with the notification requirement prior to the commencement of transportation for nonmembers. All previously filed Notices shall become null and void one year following the effective date of this section. Following the receipt of a properly completed Form OCP 102,[1] the Federal Register and put in a central file at the Commission, as public notice of the intent of the agricultural cooperative association or federation of cooperative associations to conduct interstate for-hire transportation for nonmembers under 49 U.S.C. 10526(a)(5). The information requested is of a continuing nature and any changes in the information concerning officers, directors, and location of transportation records in the Notice on file shall be brought to the Commission's attention by the filing of another Form OCP 102 within 30 days of such change which will replace the previously filed Form OCP 102. Forms which are incomplete or are not properly notarized will be rejected by the Commission.

5. Section 1047.24 is added to read as follows:

§ 1047.24 Reports and records of non-resident cooperative associations and federations thereof.

Each non-resident cooperative association or federation which is required to give notice to the Commission under § 1047.23 shall maintain true and current copies of the records and reports required by Section 1047.22, at a place within the United States designated by the non-resident in the Form OCP 102.

(49 U.S.C. 10321, 10526(a)(5), 10529, and 5 U.S.C. 553)

Decided: May 28, 1981.

By the Commission, Acting Chairman Alexis, Commissioners Gresham, Clapp, Trantum, and Gilliam. Commissioner Trantum dissented with a separate expression.

Agatha L. Mergenovich,

Secretary.

The following Appendix A will not appear in the Code of Federal Regulations.

[1] Form OCP 102 is available upon request from the Office of the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

CERTIFICATION

(To be completed by each principal officer)

I certify that the above statements are true and correct; that I am a principal officer of the organization in whose behalf this Notice is filed and am duly authorized to sign said Notice; that I have acquainted myself with the requirements of 49 U.S.C. 10526(a)(5) and 10529 and the Commission's regulations (49 CFR 1047.20 to 1047.24, inclusive); that the organization is a cooperative association or federation thereof as defined in the Agricultural Marketing Act (12 U.S.C. 1141j) which intends to engage in interstate transportation for nonmembers who are neither farmers, cooperative associations, nor federations thereof, in addition to transportation otherwise exempt under Subchapter II, Chapter 105, Subtitle IV, Title 49 of the U.S. Code; that the original Notice is filed with the Office of the Secretary, Interstate Commerce Commission, Washington, D.C. 20423; that a copy of this Notice shall be carried upon each truck or tractor operating pursuant to 49 U.S.C. 10526(a)(5); and that according to 49 U.S.C. 10529, the Commission or its duly authorized employees may on demand and display of proper credentials (1) inspect and examine the lands, buildings, and equipment of the association or federation, and (2) inspect and copy any record of the association or federation.

I further certify that in signing the foregoing certificate I am aware that anyone who, in any matter within the jurisdiction of any agency of the United States, intentionally makes or uses any false, fictitious, or fraudulent writing or document, may be subject to prosecution and fined up to $10,000 and imprisoned for up to 5 years. BILLING CODE 7035-01-C

Commissioner Trantum, dissenting:

I am very much opposed to the issuance of this Notice of Proposed Rulemaking. Inasmuch as the statute is permissive with regard to the use of Commission authority to impose new federal regulations on agricultural cooperatives, I would decline to do so at this time. I am particularly concerned that the Commission admits that it may never review or utilize any of the information it intends to require these businesses to compile. I doubt very much that this proposed action could stand the scrutiny of a cost/benefit analysis.

National Oceanic and Atmospheric Administration

50 CFR Part 653

Coastal Migratory Pelagics; Fishery Management Plan; Public Hearing

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of Public Hearing.

SUMMARY: The South Atlantic Fishery Management Council will hold hearings to allow for public input on proposed changes to the Coastal Migratory Pelagics (Mackerels) Fishery Management Plan.

DATES: Written comments will be accepted until June 26, 1981. Individuals or organizations wishing to comment on the proposed changes may do so at the hearings which will be held from 7:30 p.m. to 10:00 p.m. as follows:

June 24, 1981	Greenville, North Carolina
June 24, 1981	Savannah, Georgia
June 25, 1981	Charleston, South Carolina
June 25, 1981	Palm Beach Gardens, Florida

The proceedings will be recorded; the tapes will serve as the official transcript. A written summary of each hearing will also be prepared.

ADDRESSES: Send comments to Chairman, South Atlantic Fishery Management Council, 1 Southpark Circle, Suite 306, Charleston, SC 29407.

Hearing Locations

June 24, 1981	Research Development Institute Auditorium, East Carolina University, Greenville, North Carolina
June 24, 1981	Savannah Science Museum, Savannah, Georgia
June 25, 1981	Marine Resources Auditorium, Charleston, South Carolina
June 25, 1981	Northeast County Courthouse Complex, Palm Beach Gardens, Florida.

FOR FURTHER INFORMATION CONTACT: David H. G. Gould, Executive Director, South Atlantic Fishery Management Council, 1 Southpark Circle Suite 306, Charleston, SC 29407. Telephone 803 571-4366.

SUPPLEMENTARY INFORMATION: The South Atlantic and Gulf of Mexico Fishery Management Councils jointly prepared the Fishery Management Plan for Coastal Migratory Pelagics (Mackerels). The plan was disapproved by the National Marine Fisheries Service as originally written. Disapproval was based on three management measures: (1) Specifying a minimum size of 25 inches for king mackerel that are bought, sold, or processed commercially; (2) stipulating a minimum mesh size of 4¾ inches for king mackerel gill nets; and (3) prohibiting the use of purse seines in the king and Spanish mackerel fishery off the South Atlantic Coast.

The South Atlantic Fishery Management Council reconsidered these management measures and voted to: (1) delete the minimum 25 inch size limit for king mackerel; (2) reaffirm its position in support of the 4¾ inch minimum king mackerel gill net mesh size (and develop additional rationale); and (3) allow purse seiners to compete with:

(a) Other netters for up to 400,000 lbs. of king mackerel (the total allocation of king mackerel to netters is 5,122,800 lbs. The total allowable harvest by all gear types is 37 million lbs.), and

(b) Other users for up to 300,000 lbs. of Spanish mackerel (the total allowable harvest of Spanish mackerel is 27 million lbs.)

The South Atlantic council will hold hearings to allow for public comment on these proposed changes to this plan. When changes to the disapproved measures are accepted by both Councils, then the plan may be resubmitted to the National Marine Fisheries Service for reconsideration.

Dated: June 5, 1981.

Robert K. Crowell,

Deputy Executive Director, National Marine Fisheries Service.

Western Pacific Fishery Management Council; Public Hearings; Correction

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Correction of Notice of Public Hearings.

SUMMARY: On May 29, 1981 (46 FR 28883) a notice was published in the **Federal Register** 50 CFR Part 682 announcing a series of hearings to receive comments on a proposed fishery management program for billfish fisheries of the Western Pacific Region as described in the draft environmental impact statement/fishery management plan (DEIS/FMP). The notice has been amended as follows.

ADDRESSES: Public hearing locations: The June 18 hearing in Kona will take place at the King Kamehameha Hotel. The June 30 hearing in Kahului, Maui, will take place at the Kahului Library on Kaahumanu Street. A hearing will be held on July 11 in Saipan, Commonwealth of the Northern Mariana Islands, at 7:00 p.m. in the Governor's Conference Room.

FOR FURTHER INFORMATION CONTACT: Svein Fougner, Executive Director, Western Pacific Fishery Management Council, 1164 Bishop Street, Suite 1608, Honolulu, Hawaii 96813 (808) 523-1368, or Mr. Doyle Gates, Western Pacific Program Office, Southwest Region, NMFS, P.O. Box 3830, Honolulu, Hawaii 96812 (808) 946-2181.

Dated: June 5, 1981.

DEPARTMENT OF AGRICULTURE

Forest Service

Record of Decision, Final Environmental Impact Statement; A Programmatic Statement for Methods of Managing Competing Vegetation Pacific Northwest Region National Forest Lands In Oregon, Washington and Siskiyou and Del Norte Counties of California

Based on the analysis and evaluation in the Final Environmental Impact Statement for Methods of Managing Competing Vegetation, it is my decision to adopt Alternative 2 as the mix of methods to be used on appropriate National Forest Lands in the Pacific Northwest Region. Alternative 2 is: "Full use of all methods of vegetation management, except chemical use would be reduced. Use of chemicals would be critically examined for effects on adjacent land, streams, water systems, and nearness to communities." It is expected that a reduction in chemical use would be accomplished through consideration of local concerns and strict adherence to current law, regulation, policy, and guidelines. Seven alternatives were identified. All alternatives, except "no action," considering varying mixes of methods, including chemical, mechanical, manual, biological, and thermal.

Alternative 2 best meets all the evaluation criteria and gives due consideration to public input, public health and safety, environmental protection, cost effectiveness, employment opportunities, and accomplishment of assigned targets.

Alternative 2 was one of two alternatives identified as environmentally preferable.

The alternative selected provides adequate mitigation to avoid environmental harms.

Implementation may take place 45 days from the date of this decision. The decision to adopt Alternative 2 as described in the Final EIS is subject to administrative review (appeal) pursuant to 36 CFR 211.19.

Dated: June 2, 1981.

R. E. Worthington,

Regional Forester, Pacific Northwest Region.

CIVIL AERONAUTICS BOARD

[Order 81-6-25]

Fitness Determination of Puerto Rico International Airlines, Inc.; Order To Show Cause

AGENCY: Civil Aeronautics Board.

ACTION: Notice of commuter air carrier fitness determination—Order 81-6-25, order to show cause.

SUMMARY: The Board is proposing to find that Puerto Rico International Airlines, Inc. is fit, willing, and able to provide commuter air carrier service under section 419(c)(2) of the Federal Aviation Act, as amended; that it is capable of providing reliable essential air service; and that the aircraft used in this service conform to applicable safety standards. The complete text of this order is available, as noted below.

DATES: Responses: All interested persons wishing to respond to the Board's tentative fitness determination shall serve their responses on all persons listed below no later than June 22, 1981, together with a summary of the testimony, statistical data, and other material relied upon to support the allegations.

ADDRESSES: Responses or additional data should be filed with Mr. Patrick V. Murphy, Jr., Chief, Essential Air Services Division, Civil Aeronautics Board, Washington, D.C. 20428, and with all persons listed in Attachment A of Order 81-6-25.

FOR FURTHER INFORMATION CONTACT: Richard E. Clusman, Bureau of Domestic Aviation, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428 (202) 673-5216.

SUPPLEMENTARY INFORMATION: The complete text of Order 81-6-25 is available from the Distribution Section, Room 516, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. Persons outside the metropolitan area may send a postcard request for Order 81-6-25 to the Distribution Section, Civil Aeronautics Board, Washington, D.C. 20428.

By the Civil Aeronautics Board: June 4, 1981.

[Order 81-6-44]

United States-Chile Show Cause Proceeding; Order To Show Cause

AGENCY: Civil Aeronautics Board.

ACTION: Notice of order to show cause; order 81-6-44.

SUMMARY: The Board proposes to institute the *United States-Chile Show Cause Proceeding*, Docket 39692, and consolidate the certificate applications of Pan American World Airways, Eastern Air Lines, and Air Florida, Inc. and other applicants, into this proceeding.

ANSWERS: Interested persons may answer these applications NO LATER THAN July 8, 1981. Copies of answers shall be filed with the Civil Aeronautics Board (23 copies, addressed to Docket 39692, Dockets Section, Civil Aeronautics Board, Washington, D.C. 20428), and shall be mailed to Pan American World Airways, Eastern Air Lines, Air Florida, Inc., the Departments of State and Transportation and the Ambassador of Chile in Washington, D.C.

Answers must cite the docket number and must include a summary of testimony, statistical data or other such supporting evidence.

To get a copy of the complete order, request it from the Civil Aeronautics Board, Distribution Section, Room 516, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428. Persons outside the Washington metropolitan area may send a postcard request.

BILLING CODE 6320-01-M

DEPARTMENT OF COMMERCE

International Trade Administration

[Case No. 618 and Case No. 617]

Bryan V. Williamson, a/k/a Byron Williams and Datalec Ltd.; Order Temporarily Denying Export Privileges

The Office of Export Administration, Internatonal Trade Administration, (ITA), issued charging letters against the above named respondents, alleging the parties separately and in association with each other, violated the provisions of the Export Administration Regulations, 15 CFR 368 *et seq.* It petitioned for an order temporarily denying respondents all export privileges pending final resolution of the charges.

Bryan Williamson, a/k/a Byron Williams, was denied all export privileges by Order of August 20, 1968 43 FR 11841 (August 22, 1968). At that time the record disclosed that Williamson and others have connived and conspired to procure American-manufactured communications and electronic equipment for ultimate transshipment to proscribed distinations and persons. The evidence presented in support of the present petition leads to the conclusion that Datalec, 16 Haviland Road, Ferndown Industrial Estate Wimborne, Dorset, England BH21 7 RF is a dummy corporation, wholly owned and controlled by Williamson, dedicated to the purpose of evading the export laws of the United States, and that it has purchased and seeks to acquire additional American-controlled commodities for ultimate delivery to Eastern European destinations.

The record before me enforces the conclusion that to allow the export of any commodity for or on behalf of Williamson, a person long known for varied and continued violations of export laws, is inimical to the public welfare and may pose a threat to the national security.

I find that an order temporarily denying all export privileges to the respondents is reasonably necessary for the protection of the national security and the public interest to permit and facilitate enforcement of the Export Administration Act, and implementing regulations, pending the final disposition of the proceedings initiated against the parties as indicated above.

Accordingly, it is hereby ordered that:

I. All outstanding validated export licenses in which respondents appear or participate, in any manner or capacity, are hereby revoked and shall be returned forthwith to the Office of Export Administration for cancellation.

II. The respondents, their successors or assigns, officers, partners, representatives, agents, and employees hereby are denied all privileges of participating, directly or indirectly, in any manner or capacity, in any transaction involving commodities or technical data exported from the United States in whole or in part, or to be exported, or which are otherwise subject to the Export Administration Regulations. Without limitation of the generality of the foregoing, participation in any such transaction, either in the United States, or abroad, shall include participation, directly or indirectly, in any manner or capacity, (a) as parties or as representatives of a party to a validated export license application, (b) in the peparation or filing of any export license application or reexportation authorization, or of any document to be submitted therewith, (c) in the obtaining or using of any validated or general export license or other export control document, (d) in the carrying on of negotiations with respect to, or in the receiving, ordering, buying, selling, delivering, storing, using, or disposing of any commodities or technical data in whole or in part, exported or to be exported from the United States, and (e) in the financing, forwarding, transporting, or other servicing of such commodities or technical data.

III. Such denial of export privileges shall extend not only to the respondents, but also to their agents and employees and to any successor and to any person, firm, corporation, or business organization with which they now or hereafter may be related by affiliation, ownership, control, position of responsibility, or other connection in the conduct of trade of services connected therewith.

IV. No person, firm corporation, partnership or other business organization, whether in the United States or elsewhere, without prior disclosure to and specific authorization from the Office of Export Administration, shall do any of the following acts, directly or indirectly, or carry on negotiations with respect thereto, in any manner or capacity, on behalf of or in any association with any named respondent or related party, or whereby any named respondent or related party may obtain any benefit therefrom or have any interest or participation therein, directly or indirectly: (a) apply for, obtain, transfer, or use any license, Shipper's Export Declaration, bill of lading, or other export control document relating to any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States, by, to, or for any named respondent or related party denied export privileges: or (b) order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance, or otherwise service or participate in any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States.

V. In accordance with the provisions of § 388.19(b) of the Export Administration Regulations, the respondents may move at any time to vacate or modify this temporary denial order by filing with the Hearing Commissioner, International Trade Administration, U.S. Department of Commerce, Room 3810, 14th and Constitution Avenue, NW Washington, D.C. 20230, an appropriate motion for relief, supported by substantial evidence, and may also request an oral hearing thereon, which if requested, shall be held before the Hearing Commissioner at the earliest convenient date.

VI. This order is effective immediately. It remains in effect until the final disposition of any administrative proceeding or proceedings initiated against the named respondents have been completed. A copy of this order shall be served upon the respondents.

Dated: June 4, 1981.

Bertram Freedman,

Hearing Commissioner.

[FR Doc. 81-17016 Filed 6-9-81; 8:45 am]

BILLING CODE 3510-25-M

Michelin X-Radial Steel Belted Tires From Canada; Preliminary Results of Administrative Review of Countervailing Duty Order

AGENCY: International Trade Administration, Department of Commerce.

ACTION: Notice of Preliminary Results of Administrative Review of Countervailing Duty Order.

SUMMARY: The Department of Commerce has conducted an administrative review of the countervailing duty order on Michelin X-

radial steel belted tires from Canada. The review is based upon information for the period January 1, 1978 through December 31, 1979. As a result of this review, the Department has preliminarily determined to assess countervailing duties equal to the calculated value of the net subsidies for 1978 and 1979. Interested parties are invited to comment on these preliminary results.

EFFECTIVE DATE: June 10, 1981.

FOR FURTHER INFORMATION CONTACT: Josephine A. Russo or Joseph A. Black, Office of Compliance, Room 2803 International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230 (202–377–1168 or 377–1774).

SUPPLEMENTARY INFORMATION:

Procedural Background

On January 8, 1973, a "final Countervailing duty Determination," T.D. 73–10, was published in the **Federal Register** (38 FR 1018). The notice stated that the Department of the Treasury had determined that exports of Michelin X-radial steel belted tires from Canada benefitted from bounties or grants within the meaning of section 303 of the Tariff Act of 1930 (19 U.S.C. 1303) ("the Tariff Act"). Accordingly, imports into the United States of this merchandise were subject to countervailing duties.

On January 1, 1980, the provisions of Title I of the Trade Agreements Act of 1979 ("the TAA") became effective. On January 2, 1980, the authority for administering the countervailing duty law was fransferred from the Department of the Treasury to the Department of Commerce ("the Department"). The Department published in the **Federal Register** of May 13, 1980 (45 FR 31455) a notice of intent to conduct administrative reviews of all outstanding countervailing duty orders. As required by section 751 of the Tariff Act, the Department has conducted an administrative review of the order on Michelin X-radial steel belted tires from Canada.

Scope of the Review

Imports covered by this review are X-radial steel belted tires manufactured in Canade by Michelin tires (Canada), Limited (formerly Michelin tires Mamufacturing Company of Canada, Ltd.), such imports are currently classifiable under item number 772.51 of the Tariff Schedules of the United States (TSUS).

The review is based upon information for the period January 1, 1978 through December 31, 1979 and is limited to the programs found countervailable in the final determintion. Those programs are: (1) a preferential long-term loan from Industrial Estates Limited ("IEL"); (2) capital and training grants from the Federal Department of Regional Economic Expansion ("DREE") and IEL; and (3) a preferential property tax agreement.

Analysis of Programs

1. *IEL Loan.* In the final determination, Treasury countervailed against a 1970 $50 million loan agreement ("the 1970 agreement") with IEL at the preferential rate of 6 percent interest. Treasury ascertained the going rate for like funds to be 8 percent, thereby resulting in a 2 percent interest subsidy. Further, the 1970 agreement contained a pledge which tied the receipt of all of the grant monies to the repayment of the loan. In Michelin's September 11, 1980 response to our questionnaire, the company informed the Department of an agreement with IEL undertaken in 1972 ("the 1972 agreement") which changed certain of the terms of the 1970 loan contract. The 1972 loan agreement deferred payment of the first seven principal payments while financing that amount at higher interest rates. We have found that these amending provisions of the 1972 agreement do not result in a subsidy. We compared the interest rates on the deferred portion of the loan principal with the prevailing rates on the Canadian corporate bond and Eurobond markets in the month that the agreement became effective. Based on this data, the rates fixed by the 1972 agreement were not below market rates. For the loan principal that was not deferred and has continued to bear the original rate of 6 percent interest, we have calculated the subsidy rate by applying the same method used by Treasury in the final determination. We have preliminarily determined that the rates of benefit for this program are 0.49 and 0.22 percent *ad valorem* for 1978 and 1979, respectively.

2. *Capital and Training Grants.* Grants from DREE were direct cash grants for construction, expansion and/or modernization. Those from IEL were both training and capital grants. Since the 1970 loan agreement contained a pledge which tied all grants recieved to the repayment of the loan, Treasury calculated the benefit by allocating the grants over the same loan repayment schedule. The 1972 loan agreement discontinued this pledge, and, therefore, we will no longer apply our past method of allocation. Further, Michelin has received additional DREE grants for its later phases of expansion of capital plant and equipment. Consequently, we calculated the subsidy rates from the grants by determining those remaining portions of the capital grants that would be applicable to buildings and to machinery, and allocating them on a straightline basis over half the useful life of the assets (20 years for buildings; 10 years for machinery) beginning in the year each grant installment was received. We then divided the allocated monies by the value of production (discussed below). We have preliminary determined that the *ad valorem* rates of benefit from all of the capital grants for 1978 and 1979 are 2.33 and 2.07 percent, respectively. (See offset discussion below.)

For the IEL training grants received during 1973 and 1974, Treasury followed the same rationale for allocating each award over the life of the loan repayment schedule. The Department would normally expense a training grant in the year received. However, because the training grants are no longer tied to the loan's repayment, we have decided to approximate the normal approach by allocating the outstanding balances of these grants only to the year 1978, and divide by the value of production. This has resulted preliminarily in the subsudy rate of 1.63 percent *ad valorem* in 1978 and 0 percent in 1979.

Michelin requested that the Department take into consideration offsets due to costs incurred by location in an economically disadvantaged area. Under the TAA, offsets of this type can no longer be considered by the Department for entries made after January 1, 1980. However, since entries made after January 1, 1980. However, since entries covered by this review were made prior to the enactment of the TAA, the Department will allow such offsets if supported by sufficient evidence. Michelin did not provide verified evidence for these offsets; thus no offsets have been granted.

Michelin further requested that we take into account the after-tax consequences of the grant awards in calculating the amount of the subsidy. Under Canadian tax law, assets purchased with funds from DREE grants are not eligible for depreciation-related tax deduction. This, Michelin argues, increases the level of taxable income. The Department will not investigate the indirect consequences of domestic taxation law which flow from an alleged subsidy program unless that program is itself a provision of domestic taxation law. Thus, no adjustment has been made for this factor.

Lastly, Michelin requested that we make an adjustment for the payment made by Michelin to IEL for the release from the grant pledge. We have taken this payment into consideration on the

grounds that it represents a cost to Michelin for obtianing unrestricted use of the grant funds. We have applied this adjustment to the rate for 1979, the year in which the payment was made, resuling in an offset 0.24 percent *ad valorem*. The net subsidy for the capital grants after deduction of this offset is 1.83 percent in 1979.

3. *Preferential Property Tax Agreement*. The property tax agreement between IEL and the area taxing authorities provided for a flat rate of 1 percent property tax based on the actual costs of construction, rather than the appraised values. Each year, Treasury calculated the benefit by estimating the normal property tax incidence, and subtracting from this figure the payments made by Michelin on its 1 percent agreement. We have used this same method to determine the subsidy for 1978 and 1979. We have included the value of land in the total value of real property, since land is normally included in appraised values. We have preliminarily determined that the *ad valorem* rates under this program are 0.12 and 0.09 percent for 1978 and 1979, respectively.

In the calculation of all of the subsidy rates, we have decided to use the value of Michelin's exports to the United States as the best information available in representing the value of production. Michelin submitted in October 1980 values of production based upon an improper method of calculation. Further, Michelin declined to allow the Department to verify the production figures it furnished in response to our request. Michelin did offer, on May 12, 1981, to provide additional information and verification. However, we have not accepted this information since it was not provided in a timely manner.

Thus, while Michelin sells this merchandise in both the United States and Canadian markets, we are not able in a timely manner to verify from corporate books and records the production value of the merchandise sold in either, or the combined, markets. The only verified evidence of the production value of this merchandise consists of the value of exports to the United States. This information, which was obtained through the United States Government, was used, therefore, as the best evidence of the total production value of the merchandise.

We verified certain of the information presented by Michelin through examination of Canadian Government laws and documents; corporate loan contracts, cancelled checks and invoices and other documents; import statistics from the U.S. Government; and consultation with Canadian Government officials who are familiar with the specific programs in this case.

Preliminary Results of Review

As a result of our review, we preliminarily determine that the aggregate net subsidy is 4.57 percent of the f.o.b. invoice price for 1978 and 2.25 percent *ad valorem* for 1979.

The Department intends to instruct the Customs Service to assess countervailing duties of 4.57 percent of the f.o.b. invoice price for 1978 and 2.25 percent *ad valorem* for 1979 on all unliquidated entries of Michelin X-radial steel belted tires from Canada exported during the period 1978 and 1979 respectively.

Further, a cash deposit of estimated countervailing duties of 2.25 precent of the f.o.b. invoice price shall be required on all shipments entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of the present review. This requirement shall remain in effect until publication of the final results of the next administrative review.

Pending publication of the final results of the present review, the suspension of liquidation and deposit requirements previously ordered will continue.

Interested parties may submit written comments on these preliminary results on or before July 9, 1981 and may request disclosure and/or a hearing within 15 days of the date of publication. Any request for an administrative protective order must be made on or before June 15, 1981. The Department will publish the final results of the administrative review after analysis of issues raised in written comments or at a hearing.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and § 355.41 of the Commerce Regulations (19 CFR 355.41).

Waring Partridge III,

Acting Deputy Assistant Secretary for Import Administration.

June 4, 1981.

BILLING CODE 3510-25-M

Maritime Administration

Retrofitting of Four Tankers and Two OBOs To Comply With the Port & Tanker Safety; Intent To Compute Foreign Cost

Notice is hereby given of the intent of the Maritime Subsidy Board, pursuant to the provisions of Section 502(b) of the Merchant Marine Act, 1936, as amended, to compute the estimated foreign cost for retrofitting four MA Design T8-S-100b tankers and two MA Design OB8-S-90a OBOs to comply with the Port and Tanker Safety Act of 1978 (Pub. L. 95-474).

Any person, firm or corporation having any interest (within the meaning of Section 502(b)) in such computations may file written statements by the close of business on June 25, 1981, with the Secretary, Maritime Subsidy Board, Maritime Administration, Room 3099B, Department of Commerce Building, 14th & E Streets NW, Washington, D.C. 20230.

Dated: June 4, 1981.

By Order of the Maritime Subsidy Board, Maritime Administration.

Robert J. Patton, Jr.,

Secretary.

BILLING CODE 3510-15-M

National Oceanic and Atmospheric Administration

Caribbean Fishery Management Council; Education and Information Subcommittee; and Administration Subcommittee; Public Meetings

AGENCY: National Marine Fisheries Service, NOAA, Commerce.

SUMMARY: The Caribbean Fishery Management Council, established by Section 302 of the Magnuson Fishery Conservation and Management Act (Public Law 94-265), has established Education and Information and Administrative Subcommittees. The Council and its Subcommittees will hold separate meetings. The Council will hold its 36th regular meeting to consider status reports on fishery management plans (FMP's) under development; draft FMP for shallow-water reef fishes; draft FMP for coastal migratory pelagics resources and discuss the proposed participation of the Council on joint efforts of various Councils regarding and FMP for swordfish; discuss progress on preparation of the color-slide narrated presentation on Council activities, as well as discuss administrative matters and other Council business. The Education and Information Subcommittee will also meet to consider the color-slide narrated presentation on Council activities and discuss the Council's newsletter; the Administrative Subcommittee will meet to consider matters related to the Council's budget and administrative operations. These meetings are open to the public.

DATES: The Council meeting will convene on Wednesday, July 22, 1981, at approximately 9 a.m., and will adjourn on Thursday, July 23, 1981, at

approximately noon. The Council's Education and Information Subcommittee will meet on Tuesday, July 21, 1981, at approximately 1:30 p.m., and will adjourn at approximately 3 p.m. and the Council's Administrative Subcommittee meeting will also convene on the same day, at approximately 3:30 p.m., and will adjourn at approximately 5 p.m.

ADDRESS: The meetings will take place at the Conference Room Number 4, La Torre Annex, Caribe Hilton Hotel, San Juan, Puerto Rico.

FOR FURTHER INFORMATION CONTACT: Caribbean Fishery Management Council, Suite 1108, Banco de Ponce Building, Hato Rey, Puerto Rico 00918, Telephone: (809) 753–4926.

Dated: June 5, 1981.

Robert K. Crowell,

Deputy Executive Director, National Marine Fisheries Service.

[FR Doc. 81–17211 Filed 6–9–81; 8:45 am]

BILLING CODE 3510–21–M

Inter-Council Swordfish Steering Committee; Public Meetings

AGENCY: National Marine Fisheries Service, NOAA, Commerce.

SUMMARY: The South Atlantic, Mid-Atlantic, New England, Gulf of Mexico, and Caribbean Fishery Management Councils, established by Section 302 of the Magnuson Fishery Conservation and Management Act (Public Law 94–265), will hold inter-council meetings to review and discuss the source document of the Swordfish Fishery Management Plan.

DATES: The public meetings will convene on Monday, July 20, 1981, at approximately 9 a.m., and will adjourn on Tuesday, July 21, 1981, at approximately noon.

ADDRESS: The meetings will take place at the Caribbean Hilton International Hotel, San Juan, Puerto Rico.

FOR FURTHER INFORMATION CONTACT: South Atlantic Fishery Management Council, One Southpark Circle, Suite 306, Charleston, South Carolina 29407, Telephone: (803) 571–4366.

Dated: June 5, 1981.

Robert K. Crowell,

Deputy Executive Director, National Marine Fisheries Service.

BILLING CODE 3510–22–M

New England Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service, NOAA, Commerce.

SUMMARY: The New England Fishery Management Council, established by Section 302 of the Magnuson Fishery Conservation and Management Act (Public Law 94–265), will meet to discuss the status of the groundfish and Atlantic sea herring fisheries; the Maine herring fishery management plan; reports of the Scientific and Statistical Committee, Advisory Subpanel and ad hoc enforcement committee; ovesight committee's reports on Atlantic sea scallops; environmental affairs committee's report; reports of the inter-council and Chairpersons'/Executive Directors' meetings; National Marine Fisheries Service's secretarial hearings and summary of comments received at public hearings, as well as other business.

DATES: The public meetings will convene on Tuesday, June 30, 1981, at approximately 10 a.m., and will adjourn on Wednesday, July 1, 1981, at approximately 5 p.m. The meetings may be lengthened or shorthened, or agenda items rearranged depending upon progress on the agenda.

ADDRESS: The meetings will take place at the King's Grant Inn, Route 128 at Trask Lane, Danvers, Massachusetts.

FOR FURTHER INFORMATION CONTACT: New England Fishery Management Council; Suntaug Office Park, Five Broadway-Route One, Saugus, Massachusetts 01600.

Dated: June 5, 1981.

Robert K. Crowell,

Deputy Executive Director, National Marine Fisheries Service.

BILLING CODE 3510–22–M

National Marine Fisheries Service; Notice of Issuance of Permit

On April 23, 1981, Notice was published in the **Federal Register** (46 FR 23097), that an application had been filed with the National Marine Fisheries Service by Mr. Brent S. Stewart, Field Biologist, 1700 South Shores Road, San Diego, California 92109, for a permit to take 1,000 Northern elephant seals and four other species of marine mammals for scientific research. The Notice erroneously gave the address as 700 South Shores Road and did not address adequately the numbers of animals to be taken from the other four listed pinniped species. The number of California sea lions, harbor seals, Northern sea lions, and Northern fur seals is undetermined. These species may be inadvertently harassed in the course of aerial and beach walk surveys in conducting the Northern elephant seal research.

Notice is hereby given that on June 4, 1981, as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the National Marine Fisheries Service issued a Scientific Research Permit to Mr. Brent S. Stewart, to conduct population studies on one thousand (1,000) Northern elephant seals (*Mirounga angustirostris*) subject to certain conditions set forth therein.

The Permit is available for review in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street, N.W., Washington, D.C.; and

Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731.

Dated: June 4, 1981.

Robert K. Crowell,

Deputy Executive Director, National Marine Fisheries Service.

DEPARTMENT OF DEFENSE

Office of the Secretary

Military Traffic Management Command; Tender Format Requirements To Move Military Freight

AGENCY: Military Traffic Management Command (MTMC), DOD.

ACTION: Request for Public Comment on Proposed Change.

SUMMARY: MTMC proposes, as a revised procedure, to require mandatory use of the new tender format now in Optional Form 280, to move military freight shipments (excluding personal property). MTMC proposes that it will not distribute, but will return, to the issuing carrier or rate bureau any military freight tender that has not been submitted in the revised tender format. The purpose of this notice is to seek public guidance before a final decision is made.

DATE: Written public comments should be received by July 15, 1981.

ADDRESS: Directorate of Inland Traffic (MT–INNT), 5611 Columbia Pike, Falls Church, Virginia 22041.

FOR FURTHER INFORMATION CONTACT: Mr. Martin Cunningham, Headquarters, Military Traffic Management Command, Attention: MT–INNT, 5611 Columbia Pike, Falls Church, Virginia 22041, Telephone: (202) 756–1567; 756–1149.

SUPPLEMENTARY INFORMATION: In FR 51817, November 7, 1978, and 44 FR 59249, October 15, 1979, the General Services Administration, under 49 U.S.C.

10721, published changes to the standard format used to tender rates to U.S. Government agencies. Accordingly, 41 CFR 101–40.306–1, was amended to encourage optional use of the new tender format, illustrated in 41 CFR 101–40.4906.2, and designated Optional Form 280. MTMC now proposes mandatory use by common carriers of the new tender format to move military freight (excluding personal property).

Copies of Optional Form 280 and of tender preparation instructions can be obtained either from the Superintendent of Public Documents, U.S. Government Printing Office, Attention: Public Documents, Washington, D.C. 20402 (Stock No. 022–000–00183–3), or from the American Trucking Associations, Inc., Government Traffic Department, 1616 P Street, NW., Washington, D.C. 20036.

M. S. Healy,

OSD Federal Register Liaison Officer, Washington Headquarters Services, Department of Defense.

BILLING CODE 3810–70–M

Corps of Engineers; Department of the Army

Draft Supplement Environmental Impact Statement (DSEIS) for a Proposed Cooperative Aquatic Plant Control Program for the State of Alabama

AGENCY: U.S. Army Corps of Engineers, DOD.

ACTION: Notice of intent to prepare a draft supplement environmental impact statement (DSEIS).

SUMMARY: 1. *Description of Proposed Action:* The proposed action involves a cooperative program between the U.S. Army Corps of Engineers, Mobile District, and the State of Alabama Department of Conservation and Natural Resources to control/manage obnoxious aquatic plants in the waters of the State. The primary action involves herbicidal treatment, with the appropriate EPA-labeled herbicides, of Eurasian watermilfoil (*Myriophyllum spicatum*) and hydrilla (*Hydrilla verticillata*). The control efforts on Eurasian watermilfoil will be in limited areas of high public contact (i.e., boat channels, launching ramps) in the Mobile Delta area of south Alabama. Hydrilla control will be carried out initially on Coffeeville Lake on the Tombigbee River.

2. *Alternatives to the Proposed Action.* Alternatives considered include various degrees of plant management using chemical, biological, mechanical, and integrated control methodologies, as well as the no action alternative.

3. *Description of the Scoping Process.* Numerous releases through the local media have been made in an effort to inform the public of the proposed action. In addition, many presentations have been made to local civic, conservation, and fishing organizations. The DSEIS will undergo the public review process as required by the National Environmental Policy Act. Significant issues to be addressed in the DSEIS will include purpose and need for the proposed action, the environmental impacts of herbicidal control activity, and the degree of treatment.

4. *Scoping Meeting.* None scheduled.

5. *DSEIS Preparation.* The DSEIS should be completed and made available to the public in August 1981.

ADDRESS: Questions about the proposed action and DSEIS can be answered by: Mr. James B. Hildreth, PD–EE, U.S. Army Engineer District, Mobile, P.O. Box 2288, Mobile, AL 36628.

Dated: June 2, 1981.

Robert H. Ryan,

Colonel, CE, Commander and District Engineer.

BILLING CODE 3710–CR–M

Rocky Mountain Arsenal, Colorado; Filing of Final Second Supplement to Final Environmental Impact Statement, Transportation of Chemical Materiel, Operation RMT (October 1977)

A Final Environmental Impact Statement (FEIS) for the transportation of WETEYE chemical bombs from Rocky Mountain Arsenal, Colorado to Tooele Army Depot, Utah was filed in November 1977.

A first Supplement to the FEIS was filed in October 1978 to present the results of the 1978 Special Surveillance inspection of the munitions.

Section 809 of the Military Construction Authorization Act of 1981, Pub. L. 96–418, requires the Secretary of Defense, notwithstanding any other provision of law, to remove all chemical munitions from Rocky Mountain Arsenal, CO by October 10, 1981. In compliance with Section 809(b) of that Act, the Under Secretary of Defense (Research and Engineering) proposed to the Congress that the munitions be moved to Tooele Army Depot for future storage.

Although Section 809 of the Military Construction Act, 1981, exempts the removal of the WETEYE bombs from Rocky Mountain Arsenal from the requirements of other laws, the Departments of Defense and Army, as a matter of policy, are continuing to use the procedures of Section 102 of the National Environmental Policy Act, 42 U.S.C. section 4332 (1976) as a guide in planning the movement. Accordingly, a Second Draft Supplement to the Final Environmental Impact Statement was filed on February 20, 1981. This Final Supplement presents the results of the 1979 WETEYE Reassessment Inspection, changes in inspection criteria, and other clarifications to the FEIS.

Copies of this Final Second Supplement have been delivered to the Environmental Protection Agency and are being forwarded to concerned, Federal, state and local agencies, as well as congressional delegations and Chairmen of the Congressional Armed Services Committees. Interested organizations or individuals may obtain copies from Commander, U.S. Army Armament Materiel Readiness Command, Building 390, Attn: DRSAR–ASN (Mr. N. H. Baker), Rock Island, IL 61201 (Phone (309) 793–5916). In the Washington area, inspection copies may be seen in the Environmental Office, Office of the Assistant Chief of Engineers, Room 1E676, Pentagon, Washington, D.C. 20310 (Phone (202) 694–1163).

Dated: June 5, 1981.

Lewis D. Walker,

Deputy for Environment, Safety and Occupational Health OASA(IL&FM).

BILLING CODE 3710–08–M

Department of the Navy

Privacy Act of 1974; Addition of New Systems of Records

AGENCY: Department of the Navy (DON).

ACTION: Addition of a new system of records.

SUMMARY: The Department of the Navy proposes to add a new systems of records to its inventory of systems of records subject to the Privacy Act of 1974. The systems notices for this new system of records is set forth below.

DATES: The proposed actions will be effective without further notice on July 10, 1981, unless comments are received which would result in a contrary determination.

ADDRESSES: Any comments, to include written data, views or arguments concerning the actions proposed should

be addressed to the systems managers identified in the systems notices.

FOR FURTHER INFORMATION CONTACT: Mrs. Gwendolyn R. Aitken, Privacy Act Coordinator, Office of the Chief of Naval Operations (OP-09B1P), Department of the Navy, The Pentagon, Washington, DC 20350; telephone 202-694-2004.

SUPPLEMENTARY INFORMATION: The Department of the Navy inventory of systems of records notices as prescribed by the Privacy Act of 1974, Title 5, United States Code, Section 552a (Pub. L. 93-579; 88 Stat. 1896, et seq.) have been published in the **Federal Register** at:

FR Doc. 81-897 (46 FR 6696) January 21, 1981
FR Doc. 81-3277 (46 FR 9693) January 29, 1981
FR Doc. 81-10892 (46 FR 21226) April 9, 1981

The Navy submitted a new system report for this system under the provisions of Subsection 552a(o) of Title 5 of the United States Code, on May 1, 1981.

M. S. Healy,

OSD Federal Register Liaison Officer, Washington Headquarters Services, Department of Defense.

June 5, 1981.

N1754

SYSTEM NAME:

Navy Family Support Program

SYSTEM LOCATION:

Navy Family Service Centers located at various Naval and Marine Corps activities. A list of the proposed 78 Family Service Center Sites and anticipated implementation year is attached.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Navy and Marine Corps service members and their families/dependents. In certain overseas locations civilian Navy and Marine Corps employees may be eligible for services. In certain CONUS locations, civilian Marine Corps employees may be eligible for services.

CATEGORIES OF RECORDS IN THE SYSTEM:

File could contain personal information such as name, social security number, home address, telephone number, marriage counseling information, parent-child relationship information, family relations, financial data, and developmental disability information.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301 Departmental Regulations.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Officials and employees of the Family Service Centers in the performance of their duties related to counseling/servicing the member and/or dependent.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Filed alphabetically by last name of member.

SAFEGUARDS:

Records are maintained in monitored or controlled areas accessible only to authorized personnel that are properly cleared and trained. Building/rooms locked outside regular working hours.

RETENTION AND DISPOSAL:

Records are retained for two years and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Chief of Naval Operations (OP-152), Department of the Navy, Washington, DC 20370.

NOTIFICATION PROCEDURES:

Written requests may be addressed to the appropriate Naval/Marine Corps activity concerned (mailing addresses are listed in the Navy directory in the component system notice). Individuals should provide proof of identity, full name, rank, dates of counseling, etc.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Form submitted by the individual applying for counseling/assistance.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Office of the Secretary

Defense Science Board Summer Study Panel on Operational Readiness With High Performance Systems, Advisory Committee Meeting

The Defense Science Board Summer Study Panel on Operational Readiness with High Performance Systems will meet in closed session on June 29–30 in Arlington, Virginia.

The mission of the Defense Science Board is to advise the Secretary of Defense for Research and Engineering on scientific and technical matters as they affect the perceived needs of the Department of Defense.

At its meeting on June 29–30, 1981 the Defense Science Board Summer Study Panel on Operational Readiness with High Performance Systems will review the impact of high performance systems on the current state of readiness of U.S. forces.

In accordance with 5 U.S.C. App. 1 § 10(d) (1976), it has been determined that this Defense Science Board Summer Study Panel meeting concerns matters listed in 5 U.S.C. 552b(c) (1) (1976), and that accordingly, this meeting will be closed to the public.

June 2, 1981.

BILLING CODE 3810-70-M

DEPARTMENT OF ENERGY

Economic Regulatory Administration

[ERA Case Nos. 52007-1626-01-82, 52007-1626-02-82, 52007-1626-03-82]

New England Power Co. of Westborough, Massachusetts, Salem Harbor Units 1, 2, and 3; Intention To Proceed With Prohibition Order Proceedings

The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) hereby gives notice of its intention to proceed with the pending Prohibition Order Proceedings relating to certain powerplants owned by New England Power Company (NEP) of Westborough, Massachusetts, and located in Salem, Massachusetts, and identified as Salem Harbor units 1, 2 and 3.

Pursuant to sections 301(b) and 701(b) of the Powerplant and Industrial Fuel Use Act of 1978, 42 U.S.C. 8301 *et seq.*, (FUA) proposed prohibition orders for Salem Harbor units 1, 2 and 3 were issued by ERA on March 28, 1980, and published in the **Federal Register** on April 3, 1980 (45 FR 22183).

Description of Prohibition Order Proceedings

In accordance with 10 CFR 501.51, the issuance of the proposed prohibition orders commenced an initial public comment period, during which period NEP was given an opportunity to challenge ERA's initial finding that Salem Harbor units 1, 2 and 3 have or previously had the technical capability to burn an alternate fuel (coal) as a primary energy source. The initial comment period was extended twice, to a final date of May 1, 1981, in order to allow the utility to conduct air quality modeling on the effects of coal burning at Salem Harbor and to discuss the modeling results with appropriate environmental agencies. During this period, the utility was required to furnish ERA with evidence bearing upon the other statutory findings which ERA must make prior to the issuance of a final prohibition order. The utility must also have identified, during this period, any exemptions for which the powerplant may qualify, but need not have submitted evidence attempting to demonstrate entitlement to an exemption.

The publication of this Notice of Intention To Proceed commences another three-month period during which NEP may present evidence to demonstrate that the powerplants would qualify for exemptions, which would constitute a defense to the issuance of final prohibition orders.

Subsequent to the end of this three-month period ERA will, if it intends to issue final prohibition orders, prepare and publish a notice of availability of a Tentative Staff Analysis concerning the findings ERA must make prior to issuance of final prohibition orders. Those findings, which are required by section 301(b) of FUA, are: (1) that the powerplant has the technical capability to use coal or another alternate fuel as a primary energy source, or it could have such capability without (A) substantial physical modification of the powerplant or (B) substantial reduction in the rated capacity of the powerplant; and (2) that it is financially feasible for the powerplant to use coal or another alternate fuel as its primary energy source.

The provisions of section 701(d) of FUA and 10 CFR 501.33 afford any interested person an opportunity to request a public hearing on the proposed prohibition order. Interested persons wishing a hearing must make their request, in writing, no later than 45 days after publication of the Notice of Availability of the Tentative Staff Analysis. In accordance with 10 CFR 501.33, the request must include a description of the requesting party's interest in the issue or issues involved, and an outline of the anticipated content of the presentation proposed to be made. The request should, to the extent possible, identify witnesses that are intended to be called and include, if possible, a summary of their anticipated testimony and/or questions expected to be asked. If a hearing is requested, the hearing will be held in accordance with Subpart C of 10 CFR Part 501. Interested persons may also submit written comments during this 45-day period.

After the hearing and comment period closes, ERA shall determine whether a final prohibition order will be issued based upon ERA's review of the entire administrative record. Any final prohibition order, together with a summary of the basis therefore, will be published in the **Federal Register**. Such order shall not take effect earlier than sixty days after publication.

Comments and Written Submission Received on Proposed Prohibition Order

NEP submitted comments on the proposed prohibition order by letter dated April 30, 1981, indicating that NEP is working with various local, state and federal officials to obtain the necessary approvals to allow coal burning at Salem Harbor units 1, 2 and 3. NEP indicates that it will continue to work towards conversion to coal as long as the proposition is financially feasible, in the economic interest of utility customers, and environmentally safe.

Neither NEP, nor any other interested persons, submitted any information contrary to ERA's initial finding that Salem Harbor units 1, 2 and 3 have or previously had the technical capability to burn an alternate fuel (coal) as a primary energy source.

In accordance with 10 CFR 501.51, NEP submitted evidence relating to the other findings tht ERA is required to make under section 301(b) of FUA, and identified, in their response dated April 30, 1981, those exemptions for which Salem Harbor units 1, 2 and 3 may qualify. The exemptions authorized by sections 311 and 312 of the Act which NEP identified are:

(a) Temporary exemption due to lack of alternate fuel supply, site limitations, or environmental requirements;
(b) Temporary exemption based upon future use of synthetic fuels;
(c) Temporary exemption based upon use of innovative technologies;
(d) Temporary exemption for units to be retired;
(e) Temporary public interest exemption;
(f) Temporary exemption for peakload powerplants;
(g) Temporary exemption for powerplants where necessary to maintain reliability of service;
(h) Permanent exemption due to lack of alternate fuel supply, site limitations, or environmental requirements;
(i) Permanent exemption due to certain state or local requirements;
(j) Permanent exemption for certain fuel mixtures containing natural gas or petroleum;
(k) Permanent exemption for emergency purposes;
(l) Permanent exemption for peakload powerplants;
(m) Permanent exemption for intermediate load powerplants;
(n) Permanent exemption for the use of LNG by certain powerplants; and
(o) Permanent exemption for installations necessary to meet scheduled equipment outages.

BILLING CODE 6450-01-M

Ozona Gas Processing Plant; Action Taken on Consent Order

AGENCY: Economic Regulatory Administration, Energy.

ACTION: Notice of Action Taken on Consent Order.

SUMMARY: The Office of Enforcement (OE), Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces notice of filing a Petition for the Implementation of Special Refund Procedures for refunds received pursuant to a Consent Order.

DATE: Petition submitted to the Office of Hearings and Appeals: June 1, 1981.

FOR FURTHER INFORMATION CONTACT: Natural Gas Liquid Products, Attn.: Claude Corzatt, Program Operations Division, Office of Enforcement, 2000 M Street, NW., Room 5108, Washington, D.C. 20461, (202) 653-3541.

SUPPLEMENTARY INFORMATION: On December 7, 1979, the OE published notification in the **Federal Register** that it executed a Consent Order with Ozona Gas Processing Plant (OGP) of Tyler, Texas on November 26, 1979, 44 FR 70538 (1979). Interested persons were invited to submit comments concerning the terms, conditions, or procedural aspects of the Consent Order. In addition, persons who believe they have a claim to all or a portion of the refund amount paid by OGP pursuant to the Consent Order were requested to submit notice of their claims to the OE.

One comment was received. The commentor raised issues concerning its independent claims against another purchaser from OGP. The Consent Order, by its terms, only resolved civil claims between OGP and the Department of Energy. The Consent Order, therefore, was not modified.

Pursuant to the Consent Order, OGP refunded the sum of $177,000 by certified checks made payable to the United States Department of Energy in four installments. All such funds received by DOE have been placed into a suitable account pending determination of their proper distribution.

The following persons submitted claims to the OE:

Suburban Propane Gas Corporation
Growth Energy, Inc.

ACTION TAKEN: The OE is unable, readily, to identify the persons entitled to receive the $177,000, or to ascertain the amounts of refunds that such persons are entitled to receive. Therefore, the OE has petitioned the Office of Hearings and Appeals (OHA) on June 1, 1981 to implement Special Refund Procedures pursuant to 10 CFR Part 205, Subpart V, 10 CFR 205.280 *et seq.* to determine the identity of persons entitled to the refunds and the amounts owing to each of them. Persons who believe they are entitled to all or a portion of the refunds should comply with the procedures of 10 CFR Part 205, Subpart V.

Issued in Washington, D.C. on the 3rd day of June 1981.

Robert D. Gerring,

Director, Program Operations Division.

BILLING CODE 6450-01-M

Federal Energy Regulatory Commission

[Project No. 4538-000]

Wisconsin Public Power Incorporated System; Application for Preliminary Permit

June 1, 1981.

Take notice that Wisconsin Public Power Incorporated System (Applicant) filed on April 15, 1981, an application for preliminary permit (pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)) for proposed Project No. 4538 to be known as Mississippi River Lock and Dam No. 6 located on Mississippi River in Winona County, Minnesota. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Wisconsin Public Power Incorporated System, c/o Mr. Richard L. Olson, P.O. Box 927, Madison, Wisconsin 53701. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) A proposed powerhouse containing generating units having a total installed capacity of 10,815 kW; (2) proposed 69-kV transmission lines; and (3) appurtenant facilities. Applicant would utilize an existing dam owned by the U.S. Army Corps of Engineers, and the Applicant's facilities would be located mostly on U.S. lands. The Applicant estimates that the average annual energy output would be 42,440 MWh.

Purpose of Project—Energy produced at the project would be marketed to the municipal members of the Applicant.

Proposed Scope and Cost of Studies Under Permit—Applicant seeks issuance of a preliminary permit for a period of 24 months, during which time studies would be made to determine the economic, engineering, and environmental feasibility of the project. In addition, Federal, State, and local agencies would be consulted concerning the environmental effects of the project. Applicant estimates the cost of the studies would be $48,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before August 6, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than October 5, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its rules of practice and procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's rules. Any comments, protest, or petition to intervene must be received on or before August 6, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4538. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, NW., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-01-C

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" before the section code. Estimated annual production (PROD) is in million cubic feet (MMCF). An (*) before the Control (JD) number denotes additional purchasers listed at the end of the notice.

The applications for determination are available for inspection except to the extent such material is confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol St., Washington, D.C. Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 275.204, file a protest with the Commission within fifteen days after publication of notice in the **Federal Register**.

Categories within each NGPA section are indicated by the following codes:

Section 102–1: New OCS lease
102–2: New well (2.5 mile rule)
102–3: New well (1000 ft rule)
102–4: New onshore reservoir
102–5: New reservoir on old OCS lease
Section 107–DP: 15,000 feet or deeper
107–GB: Geopressured brine
107–CS: Coal seams
107–DV: Devonian shale
107–PE: Production enhancement
107–TF: New tight formation
107–RT: Recompletion tight formation
Section 108: Stripper well
108–SA: Seasonally affected
108–ER: Enhanced recovery
108–PB: Pressure buildup.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450–01–M

ENVIRONMENTAL PROTECTION AGENCY

[RD–FRL–1841–6]

Public Hearing on the Federal Energy Conservation Program

AGENCY: Environmental Protection Agency.

ACTION: Participation in a public hearing.

SUMMARY: Section 11 of the Federal Nonnuclear Energy Research and Development Act (Public Law 93–577) requires EPA "to carry out a continuing analysis of the adequacy of attention to energy conservation." Part of this analysis is the conduct of annual public hearings and the preparation of a Report to the President, the Secretary of Energy, and the Congress.

The Hearings will be held at the Office of Personnel Management's Auditorium, 1900 E Street, NW, Washington, DC. The Hearings will begin at 9:00 am each day. Witness testimony is limited to 10 minutes and will be followed by questions from the Hearing panel. An open period at the end of each day will be set aside for unscheduled testimony. The public is invited to participate.

DATES: Tuesday, July 14, 1981 and Wednesday, July 15, 1981 (9 am through 5 pm).

ADDRESSES: An information package is available on the Hearings. Copies can be obtained from the Section 11 Program Manager, Office of Research and Development (RD–681), EPA, 401 M Street, SW, Washington, DC 20460. Witnesses should submit a copy of their testimony or a summary of their full statement to the EPA Section 11 Program Manager by July 8, 1981. EPA will notify witnesses in early July of the date and time of their scheduled testimony. The envelope and its contents should be clearly marked "Written Testimony". All written testimony should be received by July 31, 1981. Copies of the Transcript and other products may be obtained from the EPA Section 11 Program Manager in December, 1981.

FOR FURTHER INFORMATION CONTACT: Gregory Ondich, at the EPA address above, or by telephone at (202) 426–9434.

SUPPLEMENTARY INFORMATION: The 1981 Section 11 review program focuses on Federal energy conservation programs. Many of the changes in Federal energy conservation programs are based on projections that rising market prices of energy commodities will enhance conservation efforts, and the private sector and state/local agencies will carry out activities previously supported by the Federal government. Given the new directions of Federal energy policy and the decentralized nature of energy conservation, how can the adequacy of attention to conservation be assured?

To explore the impacts of the changes in Federal programs, witnesses are asked to address the following issues in their testimony:

- How are private firms, state governments and local agencies preparing to assume their new responsibilities?
- Which activities will get priority from public and private organizations and what will be the consequences if some activities are discontinued?
- Have any new initiatives, opportunities or efficiencies been created as a result of the shift in Federal energy conservation programs?
- How can the Federal government assist in this period of transition?
- How should the Federal government evaluate and monitor the effects of its new energy policies and program changes?

Dated: May 22, 1981

Kurt W. Riegel,

Acting Deputy Assistant Administrator for Environmental Engineering and Technology.

BILLING CODE 6560–35–M

[PF–225; PH–FRL–1849–5]

Certain Pesticide Chemicals; Filing of Pesticide, Food, and Feed Additive Petitions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This announces that certain companies have submitted pesticide, food, and feed petitions to establish tolerances and food and feed additive regulations for certain pesticide chemicals.

ADDRESS: Written comments and inquiries to the product manager cited in each specific petition at the address below: Registration Division (TS–767C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW, Washington, DC 20460.

Written comments may be submitted while a petition is pending before the agency. The comments are to be identified by the document control number "[PF–225]" and the specific petition number.

All written comments filed pursuant to this notice will be available for public inspection in the product manager's office from 8 a.m. to 4 p.m., Monday through Friday, except legal holidays.

FOR FURTHER INFORMATION CONTACT: The product manager cited in each specific petition at the telephone number provided.

SUPPLEMENTARY INFORMATION: EPA gives notice that the following pesticide, food, and feed additive petitions have been submitted to the EPA, in accordance with the Federal Food, Drug, and Cosmetic Act. The analytical method for determining residues, where required, is given in each specific petition.

FAP 1H5295. Dow Chemical Co., P.O. Box 1706, Midland, MI 48640, proposes that 21 CFR 561.98 be amended by establishing a regulation permitting the combined residues of the insecticide chlorpyrifos [*O,O*-diethyl *O*-(3,5,6-trichloro-2-pyridyl)phosphorothioate] and its metabolite 3,5,6,-trichloro-2-pyridinal in the feed item tomato pomace at 35 parts per million. (PM 12, Jay S. Ellenberger, 703–557–7024).

PP1F2488. Rohm and Haas Co., Independence Mall West, Philadelphia, PA 19105, proposes amending 40 CFR 180.381 by establishing a tolerance for the combined residues of the herbicide oxyfluorfen and its metabolites, containing the diphenyl ether linkage in or raw agricultural commodity cotton at 0.05 part per million (ppm), fresh mint hay (peppermint and spearmint) at 0.1 ppm; pistachio (nut) at 0.05 ppm; and walnut (nut) at 0.05 ppm. The proposed analytical method for determining residues is gas liquid chromatography procedure using an electron capture detector. (Richard F. Mountfort 703–557–7070).

FAP 1H5296. Rohm and Haas Co., Independence Mall West, Philadelphia, PA 19105 proposes amending 21 CFR 193.325 and Part 561 by establishing regulations permitting the combined residues of the herbicide oxyfluorfen and its metabolites, containing the diphenyl ether linkage in or on the food items: cottonseed at 0.2 part per million (ppm), mint oil (peppermint and spearmint) at 0.25 ppm; and the feed items (part 561) pistachio (hulls) 0.1 ppm; and walnut (hulls) at 0.1 ppm. (PM 23, Richard F. Mountfort 703–557–7070).

(Sec. 408(d)(1), 68 Stat. 512, (7 U.S.C. 136); 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348))

Dated: June 1, 1981.

Douglas D. Campt,

Director, Registration Division, Office of Pesticide Programs.

[FR Doc. 81–17141 Filed 6–9–81; 8:45 am]

BILLING CODE 6560–32–M

[PP 8G2118/T299; PH–FRI–1849–4]

Ethalfluralin; Extension of Temporary Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: A temporary tolerance has been extended for residues of the herbicide ethalfluralin [*N*-(ethyl-*N*-(2-methyl-2-propenyl)-2,6-dinitro-4-(trifluromethyl) benzenamine] in or on the raw agricultural commodity groupings seed and pod vegetables, forage legumes, peanuts, peanut hulls, and cucurbits at 0.05 part per million.

DATE: This temporary tolerance expires April 16, 1982.

FOR FURTHER INFORMATION CONTACT: Richard F. Mountfort, Product Manager (PM) 23, Registration Division (TS–767), Office of Pesticide Programs, Environmental Protection Agency, Rm. 412D, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703–557–7070).

SUPPLEMENTARY INFORMATION: EPA issued a notice that published in the **Federal Register** of May 21, 1980 (45 FR 34052), that a temporary tolerance had been established for residues of the herbicide ethalfluralin [*N*-(ethyl-*N*-(2-methyl-2-propenyl)-2,6-dinitro-4-(trifluromethyl) benzenamine] in or on the raw agricultural commodity groupings seed and pod vegetables, forage legumes, peanuts, peanut hulls at 0.05 part per million.

Elanco Products Co. submitted an amended section F to include cucurbits at 0.05 part per million (ppm).

This temporary tolerance ahs been extended to permit the continued marketing of the above raw agricultural commodities when treated in accordance with an experimental use permit (1471–EUP–63) that has been extended under the Federal Insecticide, Fungicide, and Rodenticide Act as amended (92 Stat. 819; 7 U.S.C.).

The scientific data reported and other relevant material have been evaluated, and it has been determined that the temporary tolerance will protect the public health. Therefore, the temporary tolerance is extended on the condition that the pesticide be used in accordance with the experimental use permit with the following provisions:

1. The amount of the pesticide to be used will not exceed the amount authorized in the experimental use permit.

2. Elanco Products Co. will immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The company will also keep records of production, distribution, and performance, and on request make these records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

This temporary tolerance expires April 16, 1982. Residues remaining in or on the raw agricultural commodities after the expiration date will not be considered actionable if the pesticide is legally applied during the term of, and in accordance with, the provision of the experimental use permit and temporary tolerance. This temporary tolerance may be revoked if the experimental use permit is revoked or if any scientific data or experience with this pesticide indicates that such revocation is necessary to protect the public health.

As required by Executive Order 12291, EPA has determined that this temporary tolerance regulation is not a "Major" rule and therefore does not require a Regulatory Impact Analysis. In addition, the Office of Management and Budget (OMB) has exempted this temporary tolerance from the OMB review requirement of Executive Order 12291, pursuant to section 8(b) of that Order.

Pursuant ot the requirements of the Regulatory Flexibility Act (Pub. L. 96–534, 94 Stat. 1164, 5 U.S.C. 601–612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (46 FR 24950).

(Sec. 408(j), 68 Stat. 516, (21 U.S.C. 346a(j)))

Dated: June 1, 1981.

Douglas, D. Campt,

Director, Registration Division, Office of Pesticide Programs.

BILLING CODE 6560–32–M

[PP 7G1923/T302; PH-FRL-1849-3]

Pendimethalin; Extension of Temporary Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: A temporary tolerance has been extended for the combined residues of the herbicide pendimethalin [*N*-(1-ethyl-propyl)-3,4-dimethyl-2,6-dinitrobenzenamine] and its metabolites 4-[(1-ethylpropyl)amino]-2,3,5-dinitrobenzyl alcohol in or on peas at 0.1 part per million (ppm).

DATE: This temporary tolerance expires March 25, 1982.

FOR FURTHER INFORMATION CONTACT: Robert J. Taylor, Product Manager (PM) 25, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 412E, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703-557-7066).

SUPPLEMENTARY INFORMATION: EPA issued a notice that published in the **Federal Register** of May 5, 1980 (45 FR 29632) that American Cyanamid Co., P.O. Box 400, Princeton, NJ 08540 had requested a renewal of a temprary tolerance for the combined residues of the herbicide pendimethalin and its metabolites in or on peas at 0.1 ppm.

American Cyanamid has requested an extension of the temporary tolerance to permit the continued marketing of the above raw agricultural commodity when treated in accordance with the experimental use permit (241-EUP-85) which is being extended under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended (92 Stat. 819; (7 U.S.C. 136)).

The scientific data reported and other relevant material has been evaluated and it has been determined that the temporary tolerance will protect the public health. Therefore, the temporary tolerance is being extended on the condition that the pesticide be used in accordance with the experimental use permit with the following provisions:

1. The amount of the pesticide to be used will not exceed the amount authorized in the experimental use permit.

2. American Cyanamid will immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The company will also keep records of production, distribution, and performance, and on request make these records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

This temporary tolerance expires March 25, 1982. Residues remaining in or on raw agricultural commodity after the expiration date will not be considered actionable if the pesticide is legally applied, during the term of, and in accordance with the provisions of the experimental use permit and temporary tolerance. This temporary tolerance may be revoked if the experimental use permit is revoked or if any scientific data or experience with this pesticide indicates that such revocation is necessary to protect the public health.

As required by Executive Order 12291, EPA has determined that this temporary tolerance regulation is not a "Major" rule and therefore does not require a Regulatory Impact Analysis. In addition, the Office of Management and Budget (OMB) has exempted this temporary tolerance from the OMB review requirement of Executive Order 12291, pursuant to section 8(b) of that Order.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-534, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (36 FR 24950).

(Sec. 408(j), 68 Stat. 516, (21 U.S.C. 346a(j)))

Dated: June 1, 1981.

Douglas D. Campt,

Director, Registration Division, Office of Pesticide Programs.

BILLING CODE 6560-32-M

[PP 5G1582/T300; PH-FRL-1849-6]

Thiobencarb; Extension of a Temporary Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: A temporary tolerance has been extended for the combined residues of the herbicide thiobencarb (*S*[(4-chlorophenyl) methyl] diethylcarbamothioate) and its metabolite 4-chlorobenzyl methylsulfone in or on rice grain at 0.1 part per million (ppm).

DATE: This temporary tolerance expires June 30, 1982.

FOR FURTHER INFORMATION CONTACT: Richard F. Mountfort, Product Manager (PM) 23, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 412D CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703-557-7070).

SUPPLEMENTARY INFORMATION: EPA issued a notice that published in the **Federal Register** of April 17, 1980 (45 FR 26128) that Chevron Chemical Co., Ortho Agricultural Chemicals Div., 940 Hensley Rd., Richmond, CA 94804, had submitted a request to the EPA to extend a temporary tolerance for the combined residues of the herbicide thiobencarb (*S*[(4-chlorophenyl)methyl] diethylcarbamothioate) and its metablite 4-chlorobenzyl methylsulfone in or on the raw agricultural commodity rice grain at 0.1 ppm.

Chevron Chemical Co., has requested a one-year extension of the temporary tolerance to permit the continued marketing of the above raw agricultural commodity when treated in accordance with experimental use permits (239-EUP-77 and 239-EUP-78) which are being extended under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended 1978 (92 Stat. 819; (7 U.S.C. 136)).

The scientific data reported and all other relevant material have been evaluated, and it was determined that the extension of the temporary tolerance will protect the public health. Therefore, the temporary tolerance is being extended on the condition that the pesticide be used in accordance with the experimental use permits and the following provisions:

1. The total amount of the pesticide to be used must not exceed the quantity authorized in the experimental use permits.

2. Chevron Chemical Co. must immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The company will also keep records of production, distribution, and performance, and, on request, make these records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

This temporary tolerance expires June 30, 1982. Residues remaining in or on the raw agricultural commodity after the expiration date will not be considered actionable if the pesticide is legally applied during the term of, and in accordance with, the provisions of the experimental use permits and temporary tolerance. This temporary tolerance may be revoked if the experimental use permits are revoked or if any scientific data or experience with this pesticide indicates that such revocation is necessary to protect the public health.

As required by Executive Order 12291, EPA has determined that this temporary tolerance regulation is not a "Major" rule and therefore does not require a Regulatory Impact Analysis. In addition, the Office of Management and Budget (OMB) has exempted this temporary tolerance from the OMB review requirement of Executive Order 12291, pursuant to section 8(b) of that Order.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-534, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (36 FR 24950).

(Sec. 408(j), 68 Stat. 516, (21 U.S.C. 346a(j)))

BILLING CODE 6560-32-M

[OPTS-53025; TSH-FRL-1848-5]

Premanufacture Notices; Monthly Status Report for April 1981

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(d)(3) of the Toxic Substances Control Act (TSCA) requires EPA to publish a list in the **Federal Register** at the beginning of each month reporting the premanufacture notices (PMN's) pending before the Agency and the PMN's for which the review period has expired since publication of the last monthly summary. This is the report for April 1981.

DATE: Written comments are due no later than 30 days before the applicable notice review period ends on the specific chemical substance.

ADDRESS: Written comments to: Document Control Officer (TS-793), Management Support Division, Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E-401, 401 M St., SW, Washington, DC 20460 (202) 426-2610.

FOR FURTHER INFORMATION CONTACT: Kirk Maconaughey, Chemical Control Division (TS-794), Office of Toxic Substances, Environmental Protection Agency, Rm. E-208, 401 M St., SW, Washington, DC 20460 (202) 426-2601.

SUPPLEMENTARY INFORMATION: Section 5(a)(1) of TSCA (90 Stat. 2012 (15 U.S.C. 2604)) requires any person who intends to manufacture or import a new chemical substance to submit a PMN to EPA at least 90 days before manufacture or import commences. A "new" chemical substance is any substance that is not on the Inventory of existing substances compiled by EPA under section 8(b) of TSCA. EPA first published the Initial Inventory on June 1, 1979. Notices of availability of the Inventory were published in the **Federal Register** on May 15, 1979 (44 FR 28558-Initial) and July 29, 1980 (45 FR 50544-Revised). The requirement to submit PMN's for new chemical substances manufactured or imported for commercial purposes became effective on July 1, 1979. EPA has 90 days to review a PMN once the Agency receives it (section 5(a)(1)). The section 5(d)(2) **Federal Register** notice indicates the date when the review period ends for each PMN. Under section 5(c), EPA may, for good cause, extend the review period up to an additional 90 days. If EPA determines that an extension is necessary, it will publish a notice in the **Federal Register.**

The monthly status report published in the **Federal Register** as required under section 5(d)(3), will identify: (a) PMN's received during the month; (b) PMN's received previously and still under review at the end of the month; (c) PMN's for which the notice review period has ended during the month; and (d) chemical substances for which EPA has received a notice of commencement to manufacture. Therefore, EPA, is publishing the April 1981 PMN Status Report.

Interested persons may submit written comments on the specific chemical substance no later than 30 days before the applicable notice review period ends to the Document Control Officer (TS-793), Management Support Division, Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E-401, 401 M St., SW, Washington, DC 20460. Three copies of all comments shall be submitted, except that individuals may submit single copies of comments. The comments are to be identified with the document control number "[OPTS-53025]" and the specific PMN number. Nonconfidential portions of the PMN's written comments received on individual PMN's, and other documents in public record may be seen in Rm. E-106 at the above address between 8 a.m. and 4 p.m., Monday through Friday, excluding legal holidays.

Dated: June 3, 1981.

Edward A. Klein,

Director, Chemical Control Division.

81-160	Generic name: Ethylene interpolymer	46 FR 25693 (5/8/81)	Do.
81-161	Generic name: Polyacrylate	46 FR 24988 (5/4/81)	Do.
81-162	Generic name: Hydroxy-alkoxy alkyl alkane	46 FR 24990 (5/4/81)	Do.
81-163	Generic name: Acrylated alkoxylated aliphatic glycol	46 FR 25693 (5/8/81)	Do.
81-164	Generic name: Allylglycidly ether polyol resin	46 FR 25693 (5/8/81)	Do.
81-165	Generic name: Siliconized alkyd resin	46 FR 24990 (5/4/81)	Do.
81-166	2-Naphthalenesulfonyl chloride, 2-acetamno	46 FR 24990 (5/4/81)	Do.
81-167	Ethanol,2-(6-acetammonaphth-2-yl sulfonyl)	46 FR 24990 (5/4/81)	Do.
81-168	p-Chlorophenol-resorcinol-formaldehyde polymer end blocked with carbanil	46 FR 24990 (5/4/81)	July 7, 1981.
81-169	Generic name: Copolymer of styrene and mixed alkyl acrylates	46 FR 25693 (5/8/81)	July 8, 1981.
81-170	Generic name: (Oxy-1,2-ethanediyl-alpha-acyl-omega-alkyl	46 FR 25693 (5/8/81)	Do.
81-171	1,3-Isoberizofurandione, polymer with 2,2-dimethyl-1, 3-propanediol, 1,2-ethanediol, 2-hydroxymethyl-1,3-propanediol, and tall oil acids.	46 FR 24988 (5/4/81)	Do.
81-172	Generic name: Poly(amide-ester) resin X2-821	46 FR 25693 (5/8/81)	Do.

Premanufacture Notices Monthly Status Report, April 1981—Continued

PMN No.	Identity/generic name	FR citation	Expiration date
81-173	Adipic acid, isophthalic acid, trimethylolpropane, 2,2,4-trimethyl-1,3-pentanediol, trimellitic anhydride polymer.	46 FR 24986 (5/4/81)	Do.
81-174	Generic name: Disubstitutednaphthalenol	46 FR 24986 (5/4/81)	Do.
81-175	Generic name: Disubstitutednaphthalenol	46 FR 24986 (5/4/81)	Do.
81-176	Generic name: Disubstitutednaphthalenol	46 FR 28683 (5/15/81)	Do.
81-177	Generic name: Chloroalkyl alkoxysilane	46 FR 25693 (5/8/81)	July 12, 1981
81-178	Generic name: Chloroalkylchlorosilane	46 FR 25693 (5/8/81)	Do.
81-179	Generic name: Derivatized fatty alcohols	46 FR 25693 (5/8/81)	Do.
81-180	Generic name: Alkadiene	46 FR 27170 (5/18/81)	July 14, 1981
81-181	Generic name: Polymer of alkene and diene	46 FR 27170 (5/18/81)	Do.
81-182	Generic name: Alkadiene	46 FR 27170 (5/18/81)	Do.
81-183	Generic name: Isocyanate modified polyester/polyether	46 FR 27170 (5/18/81)	Do.
81-184	Generic name: Silicone polyol	46 FR 27170 (5/18/81)	Do.
81-185	Generic name: Polymer of alkanediol, carbomonocyclic anhydride, and substituted alkanoic ester	46 FR 27170 (5/18/81)	Do.
81-186	Generic name: Polyester polyurethane	46 FR 27170 (5/18/81)	July 14, 1981
81-187	Generic name: Cycloaliphatic polyester modified with a polyether glycol	do	Do.
81-188	Hexahydropyrimidine-1,3-diacetonitrile	do	Do.
81-189	Generic name: Unsaturated polyester	do	July 21, 1981
81-190	Generic name: Unsaturated polyester resin	do	Do.
81-191	Acrylic acid, bisphenol A-epichlorohydrin resin, ethyl acrylate, methyl methacrylate, polyvinyl butyral resin, styrene polymer.	do	July 16, 1981
81-192	Generic name: Trisubstituted silylalkanolacetate	do	July 21, 1981
81-193	Generic name: Poly(oxyalkyldisubstituted silane) aroyl, alkoxy terminated	do	Do.
81-194	Oligomers from 1,6-dimethylnaphthyl sulfonic acid, sodium salt, and formaldehyde	do	Do.
81-195	2,4,6-Tributylphenol, ethoxylated, acetate	do	Do
81-196	Polymer from propylene oxide and ethylene oxide acetylated	do	Do.
81-197	Monylphenol, ethoxylated, acetate	do	Do
81-198	Polymer of: *N*-vinyl-*N*-methylacetamide and maleic acid, diisooctyl ester	do	Do
81-199	Polymer of: Vinyl acetate, butyl acetate, neodecanoic acid, vinyl ester, and vinyl sulfonic acid, sodium salt.	do	Do.
81-200	Generic name: Trisubstitutedbenzene	do	July 23, 1981
81-201	Generic name: Polymer of substitutedacrylic acid derivative and substitutedstyrene	do	Do.
81-202	Generic name: Polyether alkenyl alkanyl	do	July 26, 1981
81-203	Generic name: Substituted alkyl cyanoacrylate	do	Do.
81-204	Generic name: Aliphatic alcohol	do	July 28, 1981
81-205	Generic name: Aliphatic alcohol ester	do	Do.
81-206	Generic name: Sukbstitutedthiol salt	do	July 26, 1981
81-207	Generic name: Halogenated alkylated titanium mixed aluminum magnesium oxides	do	July 28, 1981
81-208	Generic name: Alkenyltn (substituted alkoxy) silane	do	Do.
81-209	Generic name: Polymer of: Adipic acid, isophthalic acid, trimethylol propane, neopentyl glycol, and silicone.	do	Do.
81-210	Generic name: Aromatic disazo dye	do	Do.
81-211	Generic name: Aromatic disazo dye	do	Do
81-212	Generic name: Aromatic disazo dye	do	Do.
81-213	Generic name: Aromatic disazo dye	do	Do
81-214	Generic name: Aromatic disazo dye	do	Do
81-215	Generic name: Aromatic disazo dye	do	Do.
81-216	Generic name: Aromatic disazo dye	do	Do.
81-217	Generic name: Amide functional silane	do	July 29, 1981

II. Premanufacture notices received previously and still under review at the end of the month

81-44	3,4,5,6-Tetrahydro-2(1*H*)pyrimidinone	46 FR 16123 (3/11/81)	May 3, 1981
81-45	Generic name: Polyester(1,4-butanediol/isophthalic acid, dimethyl ester/poly(oxyethylene/oxypropylene/terephthalic acid, dimethyl ester).	46 FR 16125 (3/11/81)	Do
81-46	Generic name: Neutralized polymer of modified epoxy resin	46 FR 15944 (3/10/81)	Do.
81-47	Generic name: Neutralized polymer of modified epoxy resin	46 FR 15944 (3/10/81)	Do
81-48	Generic name: Substituted polyamine	46 FR 15944 (3/10/81)	Do.
81-49	Generic name: Sodium poly-4-vinyl-phenol-formaldehyde condensate	46 FR 16319 (3/12/81)	May 5, 1981
81-51	Polymer of tall oil fatty acids, neopentyl glycol, pentaerythritol, isophthalic acid, and benzoic acid	46 FR 16319 (3/12/81)	May 4, 1981
81-53	Generic name: Ester of salicylic acid	46 FR 16319 (3/12/81)	May 10, 1981
81-54	Generic name: Disazo dye	46 FR 16319 (3/12/81)	Do
81-55	Generic name: Acrylate urethane oligomer	46 FR 16933 (3/16/81)	Do.
81-56	Generic name: Polymer of substituted alkanediol, carbomonocyclic anhydride, and substituted alkanoic ester	46 FR 16933 (3/16/81)	Do
81-57	Acetamide, *N*-[4-((2-hydroxyethyl)sulfonyl-2-methoxy 5-methylphenyl]	46 FR 16931 (3/16/81)	Do
81-58	Generic name: Phenolic novalak resin	46 FR 16933 (3/16/81)	Do
81-59	Generic name: Phenolic novalak resin	46 FR 16933 (3/16/81)	Do
81-60	Resin from alkali refined safflower oil, neopentyl glycol, trimethylolpropane, isophthalic acid, dimethylolpropionic acid, and isophorone diisocyanate.	46 FR 16931 (3/16/81)	Do
81-62	Generic name: Polyester-polyether copolymer reaction product with toluene diisocyanate and hydroxyethyl methacrylate.	46 FR 16936 (3/16/81)	May 11, 1981
81-63	Diisocyanic acid, tetramethylene bis-(oxytri-methylene)ester	46 FR 16931 (3/16/81)	Do
81-64	Generic name: Polymer of neopentyl glycol, adipic acid, trimellitic anhydride, and an aromatic aliphatic ester.	4C FR 16933 (3/16/81)	Do
81-65	Generic name: Disubstitutednitrobenzene	46 FR 16933 (3/16/81)	Do
81-66	Generic name: Bis[(Substituted-)aminophenyl]substituent	46 FR 16933 (3/16/81)	Do
81-67	Generic name: Bis[(Substituted)-nitro-phenyl]substituent	46 FR 16933 (3/16/81)	Do
81-68	Generic name: Sodium salt of disulfonated alkylaromatic	46 FR 16931 (3/16/81)	May 12, 1981
81-69	Generic name: Benzophenone tetracarboxylic dianhydride copolyimide	46 FR 19075 (3/27/81)	Do.
81-70	Generic name: 2-Methyl-2-propenoic acid, polycyclohexy ester	46 FR 16936 (3/16/81)	May 14, 1981
81-71	Generic name: Alkenylpyrolidinedione	46 FR 19075 (3/27/81)	Do.
81-72	Generic name: 2-2-Chloro-6-cyano-4-nitrophenylazo)-5-[di(*n*-pentyl)amino acetoanilide	46 FR 19305 (3/30/81)	Do
81-73	Generic name: *N*-(Tetrasubstitutedphenyl)-acetamide	46 FR 19307 (3/30/81)	Do
81-74	Generic name: Tetrasubstitutedphenol	46 FR 19307 (3/30/81)	Do.
81-75	2,2,4-Trimethyl-1,3-pentanediol, 1,6-hexanediol, isophthalic acid, terephthalic acid, and dibutyltin oxide.	46 FR 19305 (3/30/81)	May 19, 1981
81-76	Soya bean oil and polymer of bisphenol A, *p*-tert-butylphenyl, formaldehyde	46 FR 19306 (3/30/81)	Do

Premanufacture Notices Monthly Statue Report, April 1981—Continued

PMN No.	Identity/generic name	FR citation	Expiration date
81-77	Generic name: Tetrasubstitutedphenol	46 FR 19307 (3/30/81)	May 14, 1981.
81-78	Generic name: Tetrasubstitutedphenol	46 FR 19307 (3/30/81)	Do.
81-79	Generic name: Polyurethane from substituted alkanols and an aromatic diisocyanate	46 FR 19307 (3/30/81)	May 19, 1981.
81-80	Generic name: Trisubstitutedbenzenamine	46 FR 19307 (3/30/81)	May 14, 1981.
81-81	Generic name: Tetrasubstitutedphenol	46 FR 19307 (3/30/81)	Do.
81-82	Generic name: Neutralized polymer of styrene, acrylic acid, alkyl acrylate, and alkyl methacrylate	46 FR 19312 (3/30/81)	May 19, 1981
81-83	Generic name: Copolymer of dibasic aliphatic and substituted dibasic aromatic carboxylic acids with glycols.	46 FR 19307 (3/30/81)	Do.
81-84	Generic name: Tetrasubstitutedphenol	46 FR 19307 (3/30/81)	May 14, 1981
81-85	Generic name: Tetrasubstituted phenol	46 FR 19307 (3/30/81)	Do.
81-86	Generic name: Disubstituted benzenamine hydrochloride	46 FR 19307 (3/30/81)	Do.
81-87	Generic name: Polyether urethane-acrylate blocked	46 FR 19303 (3/30/81)	May 19, 1981.
81-88	Generic name: Substituted transition metal oxide	46 FR 19312 (3/30/81)	May 20, 1981.
81-89	Generic name: Epoxy resin/substituted amine adduct	46 FR 20763 (4/7/81)	May 21, 1981
81-90	Generic name: Oxime blocked polyurethane pre-polymer, waterborne	46 FR 19314 (3/30/81)	Do.
81-91	Generic name: Hydroxy aryl ether ester of alkenoic acid	46 FR 19314 (3/30/81)	Do.
81-92	Lithium-lime-hydrogenated castor oil-tallownaphthenic acid	46 FR 19314 (3/30/81)	May 19, 1981
81-93	Acrylic alkenyl ester polymer	46 FR 19314 (3/30/81)	May 27, 1981
81-94	Polymer of: D-glucose; acetic acid; propanoic acid, 2-oxo, arabinose; D-mannose, 6-deoxy; D-glucuronic acid, mixed ammonium, calcium, magnesium, potassium, and sodium salt.	46 FR 19314 (3/30/81)	Do.
81-95	Polymer of: D-glucose; succinic acids; propanoic acid, 2-oxo; and galactose, mixed ammonium, calcium, magnesium, potassium, and sodium salt.	46 FR 19314 (3/30/81)	Do.
81-96	Oxidized soy isolate	46 FR 19303 (3/30/81)	Do.
[1]80-308	(Cuprate(3-), [3-[[5-hydroxy-4-[[1-hydroxy-6-(phenylamino)-4-sulfo-2-naphthalenyl]azo]-2-methylphenyl]azo]-1,5-naphthalenedisulfonato-(5)]-, trisodium.	46 FR 20770 (4/7/81)	Do.
[1]80-309	(Cuprate(6-), [u-[[3,3'-dimethoxy[[[-hydroxy-3-sulfo-6,2-naphthalenediyl]azo(5-hydroxy-2-methyl-4-,1-phenylene)azo]]bis[1,5-naphthalene-disulfonato]](10-1)]dihexasodium.	46 FR 20770 (4/7/81)	Do.
81-97	Generic name: Bis(substituted carbomonocyclic) substituted carbopolycycle	46 FR 19303 (3/30/81)	May 31, 1981
81-98	Generic name: 4-Diazo-2,5-diethoxymorpholino phenyl sulfonate salt	46 FR 20763 (4/7/81)	Do.
81-99	Generic name: Diazo dye	46 FR 20763 (4/7/81)	Do.
81-100	Generic name: Hydroxymethlyheteromonocycle	46 FR 20763 (4/7/81)	Do.
81-101	Generic name: Polyester-amide	46 FR 22645 (4/20/81)	June 1, 1981
81-102	Generic name: Urethane polymer from polyester polyol and diisocyanate	46 FR 20767 (4/7/81)	Do.
81-103	Generic name: Alkylamine methacrylic copolymer	46 FR 22645 (4/20/81)	June 3, 1981
81-104	Generic name: Ammonium salts of substituted alkyl phosphoric acid	46 FR 20767 (4/7/81)	Do.
81-105	Generic name: Alkoxylated alkylphenol substyituted sulfosuccinate, isopropylamine salt	46 FR 20767 (4/7/81)	Do.
81-106	Generic name: Modified polymer of carbomonocyclic anhydride, glycerine oil, substituted alkanediol, and an alkanoic ester.	46 FR 20767 (4/7/81)	Do.
81-107	Generic name: Modified water-borne, linseed fatty acid based alkyd	46 FR 20767 (4/7/81)	Do.
81-108	Generic name: Modified soya alkyd	46 FR 20767 (4/7/81)	Do.
81-109	Generic name: Modified alkyd from a substituted alkanediol, a substituted alkanoic acid, and a carbomonocyclic anhydride.	46 FR 20767 (4/7/81)	Do.
81-110	Acetamide, N-(2-[(2-chloro-4,6-dinitrophenyl)-azo)-5-(diethylamino)-4-(2-methoxy)ethoxyphenyl)	46 FR 22645 (4/20/81)	Do.
81-111	4-[[4-Chloro-6-[[6-hydroxy-3,6-disulfo-7-[(2-sulfophenyl)azo]-1-naphthalenyl]amino]-1,3,5-triazin-2-yl] amino]benzenesulfonic acid, tetrasodium salt.	46 FR 20765 (4/7/81)	Do.
81-112	Butanamide,-2-[(4-(4-aminocarbonylphenyl)-aminocarbonylphenyl)azo)-N-(2,3-dihydro-2-oxo-1H-benzimidazole-5-yl)-3-oxo.	46 FR 22645 (4/20/81)	Do.
81-113	Generic name: Polymer of Styrene, butyl acrylate, hydroxy ethyl acrylate, dimethylamine propyl methacrylamide.	46 FR 20765 (4/7/81)	Do.
[1]80-356	Benzoic acid, 2-[[2-amino-5-hydroxy-6-[[4'-[[1-hydroxy-8-[[(4-methylphenyl)sulfonyl]amino-3,6-disulfo-2-naphthalenyl]azo-3,3'-dimethoxy[1,1'-biphenyl]-4-yl]azo]-7-sulfo-1-naphthalenyl]azo]-5-nitro-, trisodium salt.	46 FR 20770 4/7/81	Do.
[1]80-357	Benzoic acid, 2-[[-amino-6-[[4'-[[5-[[2,5-disulfophenyl)azo]-1-hydroxy-6-(phenylamino)-3-sulfo-2-naphthalenyl]azo]-3,3'-dimethoxy[1,1'-biphenyl]-4-yl]-azo]-azo]-5-hydroxy-7-sulfo-1-naphthalenyl]azo-5-nitro-,tetrasodium salt.	46 FR 20770 (4/7/81)	Do
81-114	Generic name: Modified epoxy resin	46 FR 20765 (4/7/81)	June 4, 1981
81-115	1,4-Cyclohexanedimethanol, 2,2-dimethyl-1,3-propanediol, 2-ethyl-2-(hydroxymethyl)-1,3-propanediol, 1,3-benzene dicarboxylic acid polymer.	46 FR 20765 (4/7/81)	Do.
81-116	Generic name: Substituted hydroxy ether of an alkanoic acid ester	46 FR 22260 (4/16/81)	June 7, 1981
81-117	Generic name: (Substituted cycloaliphatic ether) hydroxy alkyl ester	46 FR 22260 (4/16/81)	Do.
81-118	Generic name: Polyurethane polyisocyanate silane	46 FR 22260 (4/16/81)	Do
81-119	Generic name: Alkyl aluminum halide	46 FR 22260 (4/16/81)	Do.
81-120	Generic name: Alkyl aluminum halide	46 FR 22260 (4/16/81)	Do.
81-121	Generic name: Polyacrylocarbamoyl alkyl silane	46 FR 22646 (4/16/81)	Do.
81-122	Generic name: Isocyanatodisilane substituted polyester	46 FR 22646 (4/20/81)	Do
81-123	Fatty acids, C_{18}- unsaturated dimers, light fractions reacted with 1,3-butanediol ethoxylate	46 FR 22646	Do.
81-124	Generic name: Substituted anisole	46 FR 22643 (4/20/81)	June 9, 1981.
81-125	Generic name: Benzophenol tetracarboxylic dianhydride polymide	46 FR 22646 (4/20/81)	June 8, 1981.
81-126	Safflower oil, polymers with benzoic acid, bisphenol A, epichlorohydrin	46 FR 22643 (4/20/81)	June 14, 1981
81-127	Safflower oil, polymers with benzoic acid, bisphenol A, epichlorohydrin	46 FR 22646 (4/20/81)	Do.
81-128	Generic name: Unsaturated alicyclic ether	46 FR 22648 (4/20/81)	Do.
81-129	Polymer of: Styrene, isobutyl acrylate, hydroxy ethyl acrylate, acrylic acid, ter butyl perbenzoate, dimethyl ethanol amine.	46 FR 22648 (4/20/81)	Do.
81-130	Generic name: Unsaturated alicylic alcohol	46 FR 22648 (4/20/81)	Do.
81-131	Generic name: Allylglycudyl ether polyol resin	46 FR 23796 (4/20/81)	June 15, 1981
81-132	Generic name: Maleic anhydride-based Unsaturated polyester resin modified with mixed phthalic acid.	46 FR 22648 (4/20/81)	Do.
81-133	Generic name: Unsaturated carboxylic amide	46 FR 23796 (4/28/81)	Do.
81-134	Generic name: Unsaturated carboxylic amide-carboxylic acid	46 FR 23796 (4/28/81)	Do.
81-135	Generic name: Acrylic polymer	46 FR 23796 (4/28/81)	Do.
81-136	Generic name: Water-borne, linseed acid based modified alkyd	46 FR 22648 (4/20/81)	June 16, 1981.
81-137	Generic name: Polymer of a substituted polypropylene oxide and a substituted cyclic alkanediol	46 FR 22648 (4/20/81)	Do
81-138	Generic name: Acrylate-nitrogen hereocycle copolymer	46 FR 24683 (5/1/81)	June 21, 1981
81-139	Polymer of carbomonocyclic acids, carbomonocyclic anhydride and modified vegetable oil	46 FR 24683 (5/1/81)	Do.
81-140	Polymer of an alkanediol, aliphatic dicarboxylic acid, and an aromatic dicarboxylic acid	46 FR 24683 (5/1/81)	Do.
81-141	4,N,N-Diethylaminobenzene diazonium sulfonate salt	46 FR 23796 (4/28/81)	June 23, 1981
81-142	4-(4-Morpholinyl)-2,5-dibutoxybenzene diazonium sulfonate salt	46 FR 23796 (4/28/81)	Do.
81-144	4-(1-Pyrolidinyl)-3-methyl benzene diazonium sulfonate salt	46 FR 23796 (4/28/81)	Do.

Premanufacture Notices Monthly Status Report, April 1981—Continued

PMN No.	Identity/generic name	FR citation	Expiration date
81-145	4-*N,N*-Dimethylaminobenzene diazonium sulfonate salt	46 FR 23796 (4/28/81)	Do
81-146	Organic amine salts of dihydrogen phosphate esters of mixed alcohol ranging from C_{16} to C_{20}	46 FR 24683 (5/1/81)	Do
81-147	Poly (oxy-1,4-butanediyl) alpha-hydro-omega-hydroxy, polymer with 1,1-methylene bis (4-isocyanato-benzene) and 2-hydroxyethyl-2-methyl-2-propenoate	46 FR 24683 (5/1/81)	June 24, 1981
81-148	Generic name: Carboxylic sulfonic acid salt	46 FR 24990 (5/4/81)	June 25, 1981
81-149	Generic name: Styrene acrylic polymer	46 FR 24990 (5/4/81)	Do.
81-150	Polyol reaction product with methylene bis (cyclohexyl isocyanate)-hydroxy propyl acrylate blocked	46 FR 24681 (5/1/81)	Do
81-151	Copolymer of styrene and mixed alkyl acrylates	46 FR 24990 (5/4/81)	June 26, 1981
III. Premanufacture notices for which the notice review period has expired during the month. (Expiration of the notice review period does not signify that the chemical has been added to the inventory)			
81-1	Polymer of tall oil fatty acids, neopentyl glycol, trimethylol ethane, phthalic anhydride, and benzoic acid.	46 FR 12315 (2/13/81)	Apr. 2, 1981
81-2	Water reducible siliconized alkyd resin	46 FR 11350 (2/6/81)	Do
81-3	Methyl, bis (hydroxypropyl) tallow alkyl ammonium methyl sulfate	46 FR 11349 (2/6/81)	Do
81-4	Polymer of maleic anhydride, phthalic anhydride, dicyclopentadiene, diethylene glycol, and adipic acid.	46 FR 12312 (2/13/81)	Do.
81-5	Generic name: Nylon	46 FR 12836 (2/18/81)	Do
81-6	Polyester-amide polymer	46 FR 12836 (2/18/81)	Apr. 5, 1981
81-7	Generic name: Modified resorcinol resin	46 FR 12314 (2/13/81)	Apr. 26, 1981
81-8	Generic name: Urethane resin	46 FR 12314 (2/13/81)	Do
81-9	Generic name: Silylated phosphonate	46 FR 11352 (2/6/81)	Apr. 13, 1981
81-10	Generic name: Sodium salt of silylated phosphonate	46 FR 11352 (2/6/81)	Do
81-11	Polymer of: Esterdiol 204; 1,6-hexanediol, neopentyl glycol; trimethylol propane; isophthalic acid and; and dibutyl tin oxide.	46 FR 11352 (2/6/81)	Do.
81-12	Generic name: Acrylic copolymer adhesive	46 FR 12104 (2/12/81)	Do.
81-13	C18–32 Polypropylene ether	46 FR 12836 (2/18/81)	Do.
81-14	Polymer of tetrabromophthalic anhydride, isopthalic acid, ethylene glycol, propylene glycol, and maleic anhydride.	46 FR 12315 (2/13/81)	Apr. 15, 1981

FEDERAL COMMUNICATIONS COMMISSION

[Report No. B-13]

FM Broadcast Applications Accepted for Filing and Notification of Cut-Off Date

Released: June 3, 1981.

Cut-off Date: July 30, 1981.

Notice is hereby given that the application listed below is accepted for filing. Because it is in conflict with the application of Unique Radio Group, Inc., File No. BPHI-810219AD, for authority to operate the facilities of former Station WMJX on an interim basis which was accepted for filing and listed previously as subject to a cut-off date for conflicting applications, no application which would be in conflict with the application listed will be accepted for filing.

Petitions to deny the listed application and minor amendments thereto must be on file with the Commission not later than the close of business on July 30, 1981. The Unique Radio Group may also be amended as a matter of right not later than the close of business on July 30, 1981. Amendments filed pursuant to this notice are subject to the provisions of § 73.3572(b) of the Commission's Rules.

BPHI-810427AE, Miami, Florida, Scripture Church of Christ, Req: 96.3, Channel 242, 98 kW, 799 Feet (H&V).

Federal Communications Commission.

William J. Tricarico,

Secretary.

FEDERAL HOME LOAN BANK BOARD

[No. AC-124]

Texas Federal Savings and Loan Association, Dallas, Tex.; Final Action Approval of Conversion Applications

Dated: June 5, 1981.

Notice is hereby given that on March 31, 1981, the Federal Home Loan Bank Board, as operating head of the Federal Savings and Loan Insurance Corporation ("Corporation"), by Resolution No. 81-176 approved the application of Texas Federal Savings and Loan Association, Dallas, Texas, ("Association"), for permission to convert to the stock form of organization. Copies of the application are available for inspection at the Secretariat of said Corporation, 1700 G Street, N.W., Washington, D.C. 20552 and at the Office of the Supervisory Agent of said Corporation at the Federal Home Loan Bank of Little Rock, 1400 Tower Building, Little Rock, Arkansas 72201.

By the Federal Home Loan Bank Board.

J. J. Finn,

Secretary.

FEDERAL MEDIATION AND CONCILIATION SERVICE

Labor-Management Cooperation Program; Resumption of Application Process

AGENCY: Federal Mediation and Conciliation Service.

ACTION: Resumption of Application Process.

SUMMARY: The Federal Mediation and Conciliation Service published program guidelines for its new Labor-Management Cooperation Program in the January 30, 1981 issue [46 FR 10008] of the **Federal Register**. Those guidelines were first deferred on February 10 [46 FR 11706], and again deferred on April 13 [46 FR 21697] pending congressional action on the President's decision to rescind the $1 million fiscal year 1981 appropriation for the program. On June 4, the Congress voted to retain the original fiscal year 1981 appropriation. As a result, the application process for the Labor-Management Cooperation Program is being resumed. The guidelines published on January 30 and mailed out to those parties requesting application kits remain in effect and unchanged except for the application deadlines and A-95 clearance. All applications (plant, area, and industrywide) must be postmarked on or before July 31, 1981. Obtaining clearance from an appropriate state A-95 clearinghouse will not be required in fiscal year 1981. Applicants should, however, forward an information copy to their A-95 agency.

FOR FURTHER INFORMATION CONTACT: Peter L. Regner, Director, Office of Labor-Management Grant Programs, FMCS, 2100 K Street NW., Washington, D.C. 20427.

SUPPLEMENTARY INFORMATION: Individuals needing copies of parts or all of the application kit are advised to call 202/653-5240 to expedite processing.

Kenneth E. Moffett,

Acting Director.

[FR Doc. 81-17198 Filed 6-9-81; 8:45 am]

FEDERAL RESERVE SYSTEM

Sugarland Bankshares, Inc.; Formation of Bank Holding Company

Sugarland Bankshares, Inc., Jeanerette, Louisiana, has applied for the Board's approval under 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company by acquiring 80 per cent or more of the voting shares of Sugarland State Bank, Jeanerette, Louisiana. The factors that are considered in acting on the application are set forth in 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Atlanta. Any person wishing to comment on the application should submit views in writing to the Reserve Bank, to be received not later than June 28, 1981. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, May 28, 1981.

D. Michael Manies,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

FEDERAL TRADE COMMISSION

Cigarette Advertising

AGENCY: Federal Trade Commission.

ACTION: Request for Comment on Commission Staff Report on Cigarette Advertising.

SUMMARY: This Notice requests comment on a staff report which (1) discusses current medical and consumer knowledge of the health risks of cigarette smoking, (2) explores whether current cigarette advertising is deceptive under Section 5 of the Federal Trade Commission by omitting material information about the health risks of cigarette smoking, and (3) discusses various informational alternatives that might be appropriate for action by Congress, other government agencies, private organizations, or the Commission.

DATES: Comments must be postmarked on or before December 10, 1981.

ADDRESSES: Comments should be submitted to: Secretary, Federal Trade Commission, 6th and Pennsylvania Avenue NW., Washington, D.C. 20580. Comments should refer to File No. 792–3204. Agencies and organizations are requested to submit comments in triplicate.

ADDITIONAL MATERIALS AVAILABLE FOR REVIEW: Copies of the Report and studies discussed in the Report may be obtained from: Public Reference Room, Room 130, Federal Trade Commission, 6th and Pennsylvania Avenue NW., Washington, D.C. 20580 (202) 523–3598.

FOR FURTHER INFORMATION CONTACT: Wallace S. Snyder, Assistant Director, or Matthew Myers, Attorney, Bureau of Consumer Protection, Federal Trade Commission, Washington, D.C. 20580 (Telephone: 202–724–1499 and 202–724–1490, respectively).

SUPPLEMENTARY INFORMATION: All comments received pursuant to this Notice will be placed in a public file which will be available for inspection as described above, except for information that discloses the identity of a confidential source or contains confidential commercial or financial information. If you believe your commet contains such information or fits this category, please specify the reasons for your belief. Such information will be retained in a non-public investigative file. Portions of the Staff Report do contain information for which confidential treatment has been requested by the cigarette manufacturer or advertising agency which supplied it. Those portions of the Staff Report which refer to this information have been deleted in the copy released to the public. The staff will continue its investigation during the period in which comments are being received.

Part A—Background Information

In May 1981, the Federal Trade Commission's Bureau of Consumer Protection published a report on cigarette advertising. The report represents the fourth time in the last sixteen years that the Commission has addressed the general subject of cigarette advertising.

In 1964, the Federal Trade Commission found that the mounting evidence of the "grave hazards to life and health" caused by cigarette smoking, together with the failure of the cigarette manufacturers to warn consumers of this danger, constituted "an unfair or deceptive act or practice" within the meaning of Section 5 of the Federal Trade Commission Act. Prompted by the same concern, the Commission in 1969 and in 1971 took formal action to require cigarette manufacturers to inform the public about the dangers of smoking. As a result, all cigarette advertisements today contain the same health warning that Congress requires on cigarette packages.

The serious health consequences of cigarette smoking have also been a major concern of Congress. In 1965, Congress passed the Federal Cigarette Labeling and Advertising Act requiring all cigarette packages sold or distributed in the United States to contain a health warning. In 1970, Congress passed the Pubic Health Cigarette Smoking Act requiring all cigarette packages to contain the current warning and making it unlawful to advertise cigarettes on radio and television.

The Staff Report discusses several recent events that suggest that a reexamination of whether consumers are being adequately warned about serious health hazards of smoking is appropriate at this time. Reports by the Surgeon General in recent years have confirmed and strengthened the conclusions of the 1964 Surgeon General's Report regarding the relationship between smoking and certain diseases. In addition, these recent reports have established ■ relationship between smoking and a number of other health hazards about which little was known in 1964. Yet, despite this increased knowledge about the medical risks of smoking, the Staff Report finds that more people are smoking today than ever before. In addition, substantial portions of the public may still lack specific knowledge of these hazards. They include the relationship between smoking and heart disease, lung cancer and emphysema, plus more recent concerns about the risks of smoking during pregnancy, and the interaction between smoking and birth control pills. The Staff Report also finds that consumers desire more information about the health effects of smoking. The findings and recommendations, which are summarized and discussed in the Staff Report, indicate the need for reexamination of whether current cigarette advertising may be deceptive by failing to provide sufficient material information about the dangers of smoking.

The staff review which culminated in this Staff Report was authorized by the Commission in 1976. The staff focused its review on the following five major issues: (1) In light of the substantial growth of medical information in recent years, what are the known consequences of smoking? (2) What health information does cigarette advertising contain about the nature, probability and severity of the dangers of smoking? (3) Does the public already know these facts, or does a substantial portion of the population lack knowledge of or hold false beliefs about the dangers of smoking? (4) Is the current warning effective in alerting the public to the health hazards of smoking? (5) Is remedial action necessary? If so, what remedial measures, if any, are likely to result in the public being provided with sufficient health information to avoid any possible deception in cigarette advertising?

The Commission recognizes that the issues today are far more complex than they were when the Commission first took action on this problem in 1964. At that time, cigarette packages and advertisements contained no health warnings, and the Commission's focus was on the threshold question of whether to require a health warning at all. In light of the number of years the current warning has been in use and the increased knowledge about the health risks of smoking, it is now necessary to examine the effectiveness of the existing warning, the remedy adopted a decade ago. In addition, the warning the Commission required for cigarette advertisements is the same as that required by Congress for cigarette packages. Because of these parallel approaches and Congress' involvement in this area, the Commission desires to work with Congress and other relevant organizations in carefully considering what further action with respect to advertising practices would be appropriate.

In light of the available evidence about public awareness, or the lack thereof, of the risks associated with smoking, the staff undertook a review of the effectiveness of the current health warning in cigarette advertising. The Staff believes that the warning is not effective because of its generalized and abstract nature, because it has appeared

in the same unchanging size and shape for a decade and because the current warning does not adequately communicate the various health risks of smoking. The Staff indicates something more than this warning may be needed to cure possible deception in cigarette advertising. The Report therefore reviews a number of possible remedial options. These options include consumer education, industry self-regulation, changing the size and shape of the current warning, replacing the current warning with a more specific one, instituting a system of rotational warnings for cigarette advertisements, permitting only "tombstone" advertising for cigarettes, and disclosure of carbon monoxide levels. Based upon this review, the staff has tentatively concluded that increasing consumer education, changing the size and shape of the current warning, and replacing the current warning with a system of short warnings that rotate in cigarette advertising may be the most effective in remedying and deception in cigarette advertising and in improving public awareness of the health consequences of smoking.

The Commission wishes to emphasize that the remedial options suggested are not limited to action by this agency; they may well be appropriate for consideration by other entities, inlcuding private organizations, government agencies such as the Department of Health and Human Services, and especially Congress. The Commission's 1978 Report to Congress on Cigarette Advertising has already suggested that Congress consider strengthening the language of the current warning and adopting a system of rotational disclosures. The Commission currently believes that because of the nature of the issues posed by such a system, rotational warning proposals are particularly appropriate for congressional consideration. The staff report's analysis of how such a proposal might work will hopefully facilitate this discussion.

Part B—Issues on Which Comment is Invited

The remedial options suggested by the staff are primarily information in nature. To the extent any further action is called for, whether by Congress, this agency or others, the Commission believes that information-oriented approaches are preferable to more intrusive remedies. However, the Commission has not reached any conclusions regarding the need for action by this agency with respect to the subjects addressed by the Staff Report. By publishing this Report, the Commission hopes to initiate a dialogue with members of Congress, the industry, and the general public concerning the important issues raised by the Report. This dialogue will enable the Commission to determine whether further action is necesssary to cure any deception in current cigarette advertising and, if so, what action might be appropriate.

Because of the complexity of the issues raised, the Commission has determined to slicit public comment for a period of six months.

Interested persons are invited to address any issues of fact, law, policy or procedure which they feel are relevant and should be considered by the Commission. The Commission particularly desires comment upon the questions listed below. These questions are provided in order to facilitate public comment and should not be construed to limit the nature and scope of comments submitted in response to this request.

(1) The Staff Report discusses evidence linking smoking with many specific health consequences. Has the staff accurately summarized the available medical evidence? Is there additional evidence which should be considered?

(2) The Staff Report includes a detailed analysis of the available survey data on the level of the public's knowledge of the health hazards of smoking. Are there other surveys or material which the staff should have considered? Are the staff's conclusions based on the survey data appropriate? Is the public adequately informed about the health hazards of smoking to avoid any possible deception?

(3) The Staff Report describes both the quantitative level of cigarette advertising in this country and the major themes in current cigarette advertising. Is the staff's description accurate?

(4) The staff believes that the current health warning is not effective. Does the warning provide sufficient information to adequately alert consumers to the health consequences of smoking? Is the staff's analysis of the reasons why the warning may not be effective accurate and complete?

(5) In view of knowledge about the general health hazard of smoking, is further legal action necessary to require more specific disclosure in advertising of the health risks associated with cigarette smoking? Should any action be taken with respect to advertising that might differ from the warning disclosure required by Congress for cigarette packages?

(6) The Staff Report describes a number of possible remedial options. Are there options not mentioned in the Report which should have been considered? Are there additional educational efforts not involving the mass media, such as school or smoker education programs, which deserve further consideration in evaluating the options discussed in the Staff Report? Are there any aspects about the options discussed in the Report which merit particular consideration? Are the options discussed feasible? The Commission also invited comments on the staff's tentative conclusion that three of the options discussed are likely to be most effective and on any particular aspect of the staff's discussion of the nature and operation of any of the options discussed.

(7) The staff has made no recommendation on the merits of requiring disclosure of carbon monoxide levels in all cigarette ads? Would the addition of these figures to the "tar" and nicotine figures now disclosed be useful?

(8) Health warnings on billboards pose special problems. The Staff Report discusses four options in an effort to select a proposal which will make a revised health warning effective in billboard advertisements, taking into account cost and administrative burden to cigarette manufacturers. The Commission invites comments and suggestions on these or any other proposals.

Commenters should be aware that the Commission has concluded that the size of the current billboard warning is too small to be seen and read at the distance from which most consumers view the typical billboard and at the speed at which motorists drive past billboards. The Commission is currently involved in litigation over this issue with the R. J. Reynolds Company in federal court.

By direction of the Commission.

Carol M. Thomas,

Secretary.

BILLING CODE 6750-01-M

GENERAL SERVICES ADMINISTRATION

Office of the Federal Register

Basic Building Code; Code Development and Educational Conference

AGENCY: Office of the Federal Register.

ACTION: Notice of public meeting.

SUMMARY: The Building Officials and Code Administrators International (BOCA) will hold its annual Code Development and Educational Conference. The Conference will include hearings on proposed changes to the Basic Building Code and other related codes. All interested parties are invited to participate at this open meeting. The Office of the Federal Register is announcing this meeting as a public service.

DATES: June 22, 1981 through June 26, 1981.

ADDRESS: Sheraton-Hartford Hotel, Hartford, Connecticut.

FOR FURTHER INFORMATION CONTACT: Registration information and code change agenda: Clarence R. Bechtel, Executive Director, Building Officials and Code Administrators International, 17926 South Halsted Street, Homewood, IL 60430, (312) 799–2300. Federal Register contact: Gary Segal, (202) 523–4534.

Martha B. Girard,

Acting Director of the Federal Register.

BILLING CODE 1505-02-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Alcohol, Drug Abuse, and Mental Health Administration

Advisory Committees; Restablishment

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (5 U.S.C. Appendix I), the Alcohol, Drug Abuse, and Mental Health Administration announces the reestablishment by the Secretary of Health and Human Services, with the concurrence of the General Services Administration Committee Management Secretariat, of the following advisory committees:

Alcohol Human Resource Development Review Committee.

Community Alcoholism Services Review Committee.

Authority for these committees will expire September 30, 1981, unless the Secretary formally determines that continuance is in the public interest.

Dated: June 4, 1981.

Robert L. Trachtenberg,

Acting Administrator, Alcohol, Drug Abuse, and Mental Health Administration.

[FR Doc. 81-17117 Filed 6-9-81; 8:45 am]

BILLING CODE 4110-88-M

Centers for Disease Control

Health and Safety Effects of Cold Stress; National Conference on Occupational Health and Safety Issues Affecting Minority Workers; Open Meetings

The following meetings will be convened by the National Institute for Occupational Safety and Health (NIOSH) of the Centers for Disease Control and will be open to the public for observation and participation, limited only by space available:

Health and Safety Effects of Cold Stress

Date and time: June 26, 1981, 1 p.m.–5 p.m.
Place: Robert A. Taft Laboratories, 4676 Columbia Parkway, room 241, Cincinnati, Ohio 45226
Purpose: To critically evaluate details of project concerning, (a) epidemiological, environmental and psychophysiological assessments of work places where cold may be a stressor and (b) objective methods for in-house study of continuous and intermittent work in cold environments including handling of cold objects.
Additional information may be obtained from: Mr. Walter S. Carlson, Division of Biomedical and Behavioral Science; National Institute for Occupational Safety and Health, Centers for Disease Control, 4676 Columbia Parkway, Cincinnati, Ohio 45226, telephone: (513) 684–8286

National Conference on Occupational Health and Safety Issues Affecting Minority Workers

Date and time:
July 6, 1981, 9:30 a.m.–5:00 p.m.
July 7, 1981, 8 a.m.–5:00 p.m.
July 8, 1981, 8 a.m.–4:30 p.m.
Place: Grand Ballroom of Stouffer's Cincinnati Towers, 141 West Sixth Street, Cincinnati, Ohio 45202
Purpose: To discuss occupational safety and health problems as they relate to minority workers of America and to develop strategies for both the public and private sector to address these problems/issues. Several workshops will be conducted in conjunction with the conference on such issues as gathering of injury and health data; inclusion of minorities in epidemiological investigations; minority worker education and training; diseases and hazards which impact minority workers disproportionately, etc. Viewpoints and suggestions from industry, organized labor, worker groups, academia, small businesses, civil rights advocates, equal opportunity affirmative action officers, State, local, and other Federal agencies are invited. The registration date has been extended until June 30.
Additional information may be obtained from: Mr. Marshall E. LaNier, Office of the Director, National Institute for Occupational Safety and Health, Centers for Disease Control, 4676 Columbia Parkway, Cincinnati, OH 45226, telephone: (513) 684–8215.

Dated: June 3, 1981.

William H. Foege, M.D.,

Director, Centers for Disease Control.

BILLING CODE 4110-87-M

Cooperative Agreement To Support a Uniform National Health Program Reporting System for Comprehensive Public Health Services; Availability of Fiscal Year 1981 Funds

The Centers for Disease Control announces the availability of funds for fiscal year 1981 for a cooperative agreement to support a uniform national health program reporting system. The system is specified in the Catalog of Federal Domestic Assistance, Number 13.210 under the Reports Section. Authorization is under Section 314(d) of the Public Health Service Act, as amended (42 U.S.C., 246[illegible]).

The purpose of the activity is to continue the operation of the uniform national health program reporting system that has been in existence for 10 years. Section 314(d)(2)(C)(ii) of the Public Service Act defines the activity in these terms:

* * * From time to time, as prescribed by the Secretary, report to the Secretary (through a uniform national health program reporting system and by such categories as the Secretary may presribe) a description of the comprehensive public health services provided in the State in the fiscal year for which the grant applied for is made and the amount and source of funds expended in that fiscal year and in the preceding fiscal year for the provision of each such category of services * * *.

It is expected that approximately $430,000 will be available in fiscal year 1981 for this cooperative agreement. The agreement will be for a period of 10 to 12 months. Projected initiation date is approximately September 15, 1981. Any public or private nonprofit entity is eligible to apply.

Funding criteria will include the following factors:

1. Technical approach and understanding the problem.
2. Administrative capability and staff expertise in the handling and analysis of large data bases.
3. Present or prior experience dealing with the 57 State and Territorial health jurisdictions or a plan to initiate such an effort.
4. Proposals to improve the present system and analysis of the data.
5. Proposals to expand the system to include local health department data.
6. Response to selected recommendations recently published by the Technical Advisory Panel.

7. Work schedule (e.g., Program Evaluation and Review Technique (PERT).

8. Cost proposal.

Applications must be received by July 27, 1981. Applications are not subject to review as governed by OMB Circular A-95 and regulations (42 CFR Parts 122 and 123) implementing the National Health Planning and Resource Development Act of 1974, as amended.

Guidelines and information may be obtained from, and applications, must be submitted to, the Procurement and Grants Office, Centers for Disease Control, Atlanta, Georgia 30333.

Dated: June 5, 1981.

William C. Watson, Jr.,

Deputy Director, Centers for Disease Control.

BILLING CODE 4110-86-M

Office of the Assistant Secretary for Health

Advisory Committees; Meetings

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following National Advisory bodies scheduled to meet during the month of June 1981:

Name: Health Care Technology Study Section
Date and Time: June 15-17, 1981, 8:30 a.m.
Place: Gramercy Inn, South Scott Room, 1616 Rhode Island Avenue, N.W., Washington, D.C. 20036
Open June 15, 8:30 a.m.-10:30 a.m.
Closed for remainder of meeting

Purpose: The Committee is charged with the initial review of health research grant applications for Federal assistance in the program areas administered by the National Center for Health Services Research.

Agenda: The open session of the meeting on June 15 will be devoted to a business meeting covering administrative matters and reports. The closed portion of the meeting will be utilized in a review of health services research grant applications relating to the delivery, organization, and financing of health services. The closing is in accordance with the provisions set forth in section 552b(c)(6), Title 5, U.S. Code, and the Determination by the Assistant Secretary for Health, pursuant to Pub. L. 92-463.

Anyone wishing to obtain a roster of members, minutes of meetings, or other relevant information should contact Dr. Alan E. Mayers, National Center for Health Services Research, OASH, Room 7-50A, Center Building, 3700 East-West Highway, Hyattsville, Maryland 20782, telephone (301) 436-6196.

Name: Health Services Research Review Subcommittee
Date and Time: June 17-19, 1981, 8:00 a.m.
Place: Capital Hilton, June 17, 1981, 16th & K Streets, N.W., Washington, D.C. 20036; Gramercy Inn, June 18-19, 1981, North Scott Room, 1616 Rhode Island Avenue, N.W., Washington, D.C. 20036
Open June 17, 8:00 a.m.-9:00 a.m.
Closed for remainder of meeting

Purpose: The objective of the Subcommittee is to advise the Secretary and make recommendations to the Director, National Center for Health Services Research, concerning the scientific and technical merit review of health services research grant applications involving primarily the analysis and use of economic, statistical, and other theoretical approaches which examine problems associated with the delivery of health services.

Agenda: The open session of the meeting on June 17, 1981, will be devoted to a business meeting covering administrative matters and reports. During the closed session, the Subcommittee will be reviewing research grant applications relating to the delivery, organization, and financing of health services. The closing is in accordance with provisions set forth in section 552b(c)(6), Title 5, U.S. Code, and the Determination by the Assistant Secretary for Health, pursuant to Pub. L. 92-463.

Anyone wishing to obtain a roster of members, minutes of meetings, or other relevant information should contact Anthony Pollitt, Ph.D., National Center for Health Services Research, OASH, Room 7-50A, Center Building, 3700 East-West Highway, Hyattsville, Maryland 20782, telephone (301) 436-6918.

Name: Health Services Developmental Grants Review Subcommittee
Date and Time: June 22-23, 1981, 9:00 a.m.
Place: Gramercy Inn, North Scott Room, 1616 Rhode Island Avenue, N.W., Washington, D.C. 20036
Open June 22, 9:00 a.m.-9:45 a.m.
Closed for remainder of meeting

Purpose: The Subcommittee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Center for Health Services Research.

Agenda: The open session of the meeting on June 22, 1981, will be devoted to a business meeting covering administrative matters and reports. During the closed sessions the Subcommittee will be reviewing research grant applications relating to the delivery, organization and financing of health services. The closing is in accordance with provisions set forth in section 552b(c)(6), Title 5, U.S. Code, and the determination by the Assistant Secretary for Health, pursuant to Pub. L. 92-463.

Anyone wishing to obtain a roster of members, minutes of meetings, or other relevant information should contact Mr. David McFall, National Center for Health Services Research, OASH, Room 7-50A, Center Building, 3700 East-West Highway, Hyattsville, Maryland 20782, telephone (301) 436-0916.

Agenda items are subject to change as priorities dictate.

Dated: June 3, 1981

Wayne C. Richey, Jr.,

Acting Executive Secretary, Office of Health Research, Statistics, and Technology.

BILLING CODE 4110-85-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

Montana; Campground Stay Limitation

AGENCY: Bureau of Land Management, Interior.

ACTION: Closure of road vehicle and primitive camping; campground stay limitation.

SUMMARY: Notice is hereby given that motorized vehicle use and use of the public lands for temporary or permanent occupancy in the form of bedrolls, tipis, tents, pickup campers, camping trailers, tent trailers, mobile homes and such like is prohibited in accordance with the provisions of regulations dealing with closure of lands (43 CFR Part 8364.1).

The area and trails on public lands affected by this designation are in Phillips County, Montana, immediately northeast of the town of Zortman and immediately west of the town of Landusky and are described as follows:

T. 25 N., R. 25 E., PMM, Section 16,
All north of main county road into Zortman.
T. 25 N., R. 24 E., PMM, Section 27,
All north of main county road into Landusky.

All camping of any form is prohibited except for the 15 family units in Camp Creek Campground and the 10 family units in Montana Gulch Campground. All vehicular use in above areas is restricted to the established improved graveled roads to each respective campground, the Zortman school and Thompson Avenue. All camping inside the two established campgrounds is limited to 14 days per year per camper in accordance with regulations covering occupancy and use of developed sites (43 CFR Part 8363.1-3(b)). The closure and length of stay limitations are necessary because of public health hazards, excessive erosion, destruction of plant life and impacts on the aesthetics of the area. These areas will remain closed until further notice.

This notice is effective immediately. Any person who knowingly and willfully violates this closure shall be fined not more than $1,000 or imprisoned not more than 12 months, or both.

FOR FURTHER INFORMATION CONTACT:
Charles Dahlen, Area Manager, Phillips Resource Area, 501 So. 2nd St. East, P.O. Box B, Malta, Montana 59538, 406/654–1240.

Glenn W. Freeman,
District Manager.

BILLING CODE 4310-84-M

National Environmental Policy Act; Adoption of Another Agency Environmental Impact Statement

AGENCY: Bureau of Land Management, Interior.

ACTION: Adoption by the Bureau of Land Management of three (3) Department of Army Final Environmental Impact Statements Concerning Proposed Land Withdrawals for the 172nd Infantry Brigade (Alaska) at (1) Fort Richardson, (2) Fort Wainwright, (3) Fort Greely.

SUMMARY: Pursuant to section 43 CFR 1506.3 of the Code of Federal Regulations for implementing the provisions of the National Environmental Policy Act (NEPA), notice is hereby given that the Bureau of Land Management will adopt the three final environmental impact statements prepared by the Department of Army, dated November 1980, and filed with the Environmental Protection Agency May 6, 1981. BLM assisted the Department of Army in the preparation of the final environmental impact statements and is identified as a cooperator in accordance with section 43 CFR 1501.6 of the Code of Federal Regulations.

DATES: Written comments on the proposal and alternatives contained in the final environmental impact statement prepared by the Department of Army will be accepted by the Bureau of Land Management up to and including July 15, 1981.

ADDRESSES: Written comments on the proposals are to be addressed to Mr. Gary Seitz, Planning and Environmental Coordination Staff, Bureau of Land Management, P.O. Box 13, Anchorage, Alaska 99513.

A limited number of the final impact statements may be obtained from the Department of Army, HQ 172nd Infantry Brigade (AK), Attn: AFZT–FE–EQ, Fort Richardson, Alaska 99505.

SUPPLEMENTARY INFORMATION: The final environmental impact statements identify and analyze the impacts that would result from the withdrawal and use by the Department of Army of 3,340 acres at Fort Richardson, 249,552 acres at Fort Wainwright and 624,225 acres at Fort Greely, Alaska. The withdrawal of these lands as proposed would allow present military use to continue.

Alternatives considered and analyzed in the impact statements include no action, the proposed action, moving present military activities to other areas, reducing the acreage of the proposed land withdrawals, and allowing uses other than strictly military use on certain of the lands proposed for withdrawal.

BLM's jurisdictions in the proposed actions are to prepare under authority of Pub. L. 94–579 (Federal Land Policy and Management Act of 1976) a Public Land Order for the signature of Secretary, U.S. Department of Interior, concerning the land withdrawals at Fort Richardson, and under authority of Pub. L. 85–337 (Engle Act 1958) make recommendations to the Secretary USDI on proposed congressional legislation concerning the land withdrawals at Fort Wainwright and Fort Greely. BLM has determined that the final environmental impact statements are adequate for the actions and recommendations BLM must make, and they satisfy the requirements set forth by NEPA, CEQ and appropriate USDI and BLM regulations. The documents are therefore adopted for these purposes.

Dated: June 1, 1981.

Fred Wolf,
Associate State Director, Alaska.

BILLING CODE 4310-84-M

[SL-064606]

Utah; Order Providing for Opening of Public Lands

1. In an exchange of lands made under the provision of Section 8 of the Act of June 28, 1934, 48 Stat. 1269, 1272, as amended and supplemented, 43 U.S.C. 315g (1964), the following lands have been reconveyed to the United States:

Salt Lake Meridian, Utah

T. 30 S., R. 7 W.,
Sec. 9, NE¼NE¼, W½NE¼;
Sec. 10, NW¼NW¼.
(Less 6.06 acres for Highway in Sec. 9)
Containing 153.94 acres in Beaver County.

2. By Warranty Deed dated July 15, 1948, both the surface and minerals were reconveyed to the United States.

3. Subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law, the lands described in paragraph 1 hereof are hereby open to operation of the public land laws including the mining and mineral leasing laws. All valid applications received at or prior to July 10, 1981, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

4. Inquiries concerning the lands should be addressed to the State Director, Bureau of Land Management, University Club Building, 136 East South Temple, Salt Lake City, Utah 84111.

Dated: June 2, 1981.

Darrell Barnes,
Chief, Branch of Lands and Minerals Operations.

[FR Doc. 17003 Filed 6-9-81; 8:45 am]
BILLING CODE 4310-84-M

[N-27612]

Nevada; Proposed Withdrawal and Opportunity for Public Hearing

June 1, 1981.

The Bureau of Land Management, Department of the Interior, proposes the following described lands be withdrawn, subject to valid existing rights, from appropriation under the public land laws, including the mining laws, but not the mineral leasing laws:

Mount Diablo Meridian, Nevada

T. 17 S., R. 60 E.
Sec. 26, S½;
Sec. 34, NE¼;
Sec. 35, N½N½, SE¼NE¼, SW¼NW¼, W½SW¼, N½NE¼SE¼, NW¼SE¼;
Sec. 36, W½.
T. 18 S., R. 50 E.
Sec. 1, Lots 3 and 4;
Sec. 2, Lots 1 and 2, S¼NE½.
The land described aggregates 1,419.04 acres.

The purpose of the proposed withdrawal is to protect the essential habitat of the Warm Springs Pupfish *(Cyprinodon nevadensis petoralis)*, a Federally listed endangered species. This action is an objective of the approved Warm Springs Pupfish Recovery Plan.

Pursaunt to section 204(h) of the Federal Land Policy and Management Act of 1976, 90 Stat. 2764, notice is hereby given that an opportunity for a public hearing is afforded in connection with the pending withdrawal application. All interested persons who desire to be heard on the proposed withdrawal must file a written request for a hearing with the State Director, Bureau of Land Management, at the address shown below within 40 days from the date of publication of this notice. Upon determination by the State Director that a public hearing will be held, a notice will be published in the **Federal Register**, giving the time and place of such hearing. The hearing will be scheduled and conducted in accordance with BLM Manual Sec.

2351.16 B. All previous comments submitted in connection with the withdrawal application have been included in the record and will be considered in making a final determination on the application.

In lieu of or in addition to attendance at a scheduled public hearing, written comments or objections to the pending withdrawal application may be filed with the undersigned authorized officer of the Bureau of Land Management within the 40 day period allowed.

The above described lands are temporarily segregated from the operation of the public land laws, including the mining laws, to the extent that the withdrawal applied for, if and when effected, would prevent any form of disposal or appropriation under such laws. Segregation will terminate two years from the date of this notice.

All correspondence in connection with this withdrawal should be addressed to the Bureau of Land Management, Department of the Interior, Chief, Division of Technical Services, 300 Booth Street, P.O. Box 12000, Reno, Nevada 89520.

William J. Malencik,

Chief, Division of Technical Services

BILLING CODE 4310-84-M

Idaho; Filing of Plat of Survey

June 2, 1981

1. Plats of survey for the following described land, accepted January 15, 1981, will be officially filed in the Idaho State Office, Bureau of Land Management, Boise, Idaho, effective at 10:00 a.m., on August 3, 1981.

Boise Meridian, Idaho

T. 4 S., R. 33 E.
- Sec. 1, Lots 9 and 10;
- Sec. 11, Lot 2;
- Sec. 12, Lots 8 to 16, inclusive and NE¼SW¼;
- Sec. 13, Lot 4;
- Sec. 14, Lots 8 to 12, inclusive;
- Sec. 22, Lots 6 to 9, inclusive;
- Sec. 23, Lots 8 and 9;
- Sec. 27, Lots 9 and 10;
- Sec. 32, Lots 11 to 15, inclusive;
- Tract 37.

The areas described aggregate 620.45 acres.

2. The lands involve dependent resurveys, survey of islands and omitted lands.

3. The omitted lands are subject to the provisions of the Act of May 31, 1962 (76 Stat. 89). Before sale of any of the omitted lands can be made, a notice in accordance with the regulations in 43 CFR 2546.1 must be published in the **Federal Register.** Inquiries concerning the lands should be addressed to the State Director, Bureau of Land Management, Box 042 Federal Building, 550 West Fort Street, Boise, Idaho 83724.

Multiple Use Advisory Council; Meeting

June 2, 1981.

AGENCY: Bureau of Land Management, Interior.

ACTION: Multiple Use Advisory Council: Meeting.

SUMMARY: The Council will conduct a field trip on July 30, with formal recommendations being made in a meeting on July 31. Both meetings will begin at 9 a.m.

LOCATION: Moab District Office, 125 West 200 South, Moab, Utah.

SUPPLEMENTARY INFORMATION: The agenda is scheduled as follows:

July 30

9 a.m.—Call to order and briefing on purpose of field trip
9:30 a.m.—Leave for field trip up U-128 along the Colorado River to discuss the Wild and Scenic River nomination
12 Noon—Lunch at Fisher Valley Ranch
1 p.m—Continue up U-128 to discuss humate and placer mining along the river

July 31

9 a.m.—Call to order. Old business.
10 a.m.—New business, including the Vernal Highway, the Book Mountain Trasnsportation Plan, and the "blocking" of State lands
12 Noon—Lunch
1 p.m.—Public statements
2 p.m.—Recommendations formalized
3 p.m.—Agenda for next meeting; adjournment

FOR FURTHER INFORMATION CONTACT: Mary Plumb, Public Affairs Officer, Bureau of Land Management, 125 West 200 South, P.O. Box 970, Moab, Utah 84532, 801-259-6111.

All Advisory Council meetings are open to the public. Written statements may be filed, or verbal statements may be made at 1 p.m. on July 31. Anyone wishing to make a verbal statement must contact the District Manager by July 29. Depending on the number of statements, a per person time limit may be established so that all may be heard. Summary minutes for the meeting will be maintained in the District Office and be available for public inspection within thirty days following the meeting.

Gene Nodine,

District Manager.

BILLING CODE 4310-84-M

Utility Corridor Land Use Plan

ACTION: Notice of Off-Road Vehicle use designation contained in approved Land Use Plan.

SUMMARY: Because a portion of the Dalton Highway through the Utility Corridor north of the Yukon River will be open for public travel for the first time during the summer of 1981, and in accordance with 43 CFR 8342.2(b), this **Federal Register** notice is provided to inform the public of the off-road vehicle management guidelines contained in the Utility Corridor Land Use Plan, which was approved in September 1979. These guidelines have already received extensive public comment through the formal public review process during the preparation of the Land Use Plan. Additional public notice is planned through the local news media. The Land Use Plan designated the Utility Corridor as a Limited Use Area for off-road vehicles until a special ORV Plan is prepared.

DATE: Effective September 24, 1979.

FOR FURTHER INFORMATION CONTACT: Yukon Area Manager, Bureau of Land Management, P.O. Box 1150, Fairbanks, Alaska 99707 (907) 356-2025.

Limited use designation: North of the Yukon River, the use of ORV's regardless of size is by permit only, except as established by other law or regulation. This designation will allow for (1) ORV use in support of lawful mining activities (including prospecting) providing that the individual files a Notice of Intent of Plan of Operations with the Bureau in advance, or as otherwise outlined in Title 43 Code of Federal Regulations, "Mining Claims Under the General Mining Laws." Subparts 3802 and 3809, and (2) commercial operators who have been issued a Temporary Use Permit, Right-of-Way, or similar expressed written

authorization from the BLM. Permits for recreation use will not be issued.

Carl D. Johnson,

District Manager.

BILLING CODE 4310-84-M

[Wyoming 74478]

Wyoming; Application

June 2, 1981.

Notice is hereby given that pursuant to Section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185) the Colorado Interstate Gas Company of Colorado Springs, Colorado filed an application for a right-of-way to construct a 4" pipeline for the purpose of transporting natural gas across the following described public lands:

Sixth Principal Meridian, Wyoming

T. 24 N., R. 87 W.,
Sec. 20, SW¼NW¼.
T. 23 N., R. 88 W.,
Sec. 4, Lots 1, 2, 3, S½NW¼, NW¼SW¼.
T. 24 N., R. 88 W.,
Sec. 24, S½SE¼;
Sec. 26, SE¼NE¼, NE¼SW¼, S½SW¼, N½SE¼;
Sec. 36, N½NE¼, SW¼NE¼, SE¼NW¼, N½SW¼, SW¼SW¼.

The pipeline will transport natural gas within T. 24 N., R. 87 W., T. 23 N., R. 88 W., and T. 24 N., R. 88 W., in Carbon County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, P.O. Box 670, 1300 3rd Street, Rawlins, Wyoming 82301.

Harold G. Stinchcomb,

Chief, Branch of Lands and Minerals Operations.

Proposed Revision to the Five-Year Outer Continental Shelf Oil and Gas Lease Sale Schedule; Availability of Draft Supplemental Environmental Impact Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft supplement to the final environmental impact statement relating to a proposed revision to the Five-Year Outer Continental Shelf Oil and Gas Lease Sale Schedule.

Single copies of the draft supplemental environmental impact statement can be obtained from the Office of the Manager, New York Outer Continental Shelf Office, Bureau of Land Management, 26 Federal Plaza, Suite 32-120, New York, New York 10278; Office of the Manager, New Orleans Outer Continental Shelf Office, Bureau of Land Management, Hale Boggs Federal Building, Suite 841, 500 Camp Street, New Orleans, Louisiana 70130; Office of the Manager, Pacific Outer Continental Shelf Office, Bureau of Land Management, 1340 West 6th Street, Los Angeles, California 90017; Office of the Manager, Alaska Outer Continental Shelf, Bureau of Land Management, P.O. Box 1159, Anchorage, Alaska 99510, and from the Office of Public Affairs, Bureau of Land Management (130), Washington, D.C. 20240.

Copies of the draft supplemental environmental impact statement will also be available for review in public libraries located throughout the coastal States. Information regarding the locations of libraries where copies of the statement will be available may be obtained from the OCS Offices listed above.

In accordance with 43 CFR 3314.1, public hearings will be held in New York, New York; New Orleans, Louisiana; Los Angeles, California; Anchorage, Alaska, and Washington, D.C. for the purpose of receiving comments and suggestions relating to the supplemental environmental impact statement. The exact locations and dates of the hearings will be announced at a later date. Comments will be accepted until July 27, 1981.

After a public hearing is held and comments have been received and analyzed, a final environmental impact statement will be prepared.

Ed Hastey,

Associate Director, Bureau of Land Management.

Approved:

Cecil S. Hoffmann,

Special Assistant to Assistant Secretary of the Interior.

Battle Mountain Grazing Advisory Board; Meeting

Notice is hereby given in accordance with Pub. L. 94-579 that a meeting of the Battle Mountain District Grazing Advisory Board will be held on July 28 and 29, 1981. The meeting will begin at 9:00 a.m. both days in the Tonopah Convention Center at 301 Brougher, Tonopah, Nevada.

The agenda for the meeting will include: (1) a discussion of the function of the Board, (2) expenditure of range betterment funds for range improvements, (3) a review of all proposed Stewardship Plans and Allotment Management Plans for the Tonopah Resource Area, (4) discussion of the Board's future involvement in the Experimental Stewardship and Allotment Management Plan Program, (5) field tour of an allotment under a proposed Stewardship Plan, and (6) arrangements for the next meeting.

The meeting is open to the public. Interested persons may make oral statements to the board between 3:30 and 4:30 p.m. on July 28, 1981 or file written statements for the Board's consideration. Anyone wishing to make an oral statement must notify the District Manager, Bureau of Land Management, 2nd and Scott Streets, Battle Mountain, Nevada 89820 by July 17, 1981. Minutes of the board meeting will be maintained in the district office and will be available for public inspection and reproduction (during regular business hours) within 30 days following the meeting.

Dated: June 1, 1981.

Fish and Wildlife Service

Endangered Species Permits Issued for the Month of May

Notice is hereby given that the U.S. Fish and Wildlife Service has taken the following action with regard to permit applications duly received according to Section 10 of the Endangered Species Act of 1973 as amended, 16 U.S.C. 1539. Each permit listed as issued was granted

only after it was determined that it was applied for in good faith, that by granting the permit it will not be to the disadvantage of the endangered species; and that it will be consistent with the purposes and policy set forth in the Endangered Species Act of 1973 as amended.

Additional information on these permit actions may be requested by contacting the Federal Wildlife Permit Office, Box 3654, Arlington, VA 22203, telephone (702/235–1903) or by appearing in person at the Federal Wildlife Permit Office, 1000 N. Glebe Road, Room 605, Arlington, VA, between the hours of 9:00 a.m. and 3:00 p.m. weekdays.

BILLING CODE 4310–55–M

Endangered Species Permit; Receipt of Application

Applicant: Duke University Primate Center, Durham, NC 27705.

The applicant requests an amendment to PRT 2–6368 to allow importation of five (5) individuals of any subspecies of Verreaux's sifaka, *Propithecus verreauxi*, rather than only *P.v. coquereli*, and a maximum of ten (10) individuals of any of the following species: *Lemur macaco, L. mongoz, L. variegatus, Cheirogaleus medius, C. major*, and/or *Microcebus coquereli* from Direction des eaux et forets of the Madagascar Government, Madagascar. The animals are to be removed from the wild for enhancement of propagation and survival.

Humane care and treatment during transport has been indicated by the applicant.

Documents and other information submitted with this application are available to the public during normal business hours in Room 601, 1000 N. Glebe Road, Arlington, Virginia, or by writing to the U.S. Fish and Wildlife Service, Federal Wildlife Permit Office, P.O. Box 3654, Arlington, VA 22203.

This application has been assigned file number PRT 2–6368. Interested persons may comment on this application on or before July 10, 1981 by submitting written data, views, or arguments to the Director at the above address. Please refer to the file number when submitting comments.

Dated: June 5, 1981.

Larry LaRochelle,

Acting Chief, Branch of Permits, Federal Wildlife Permit Office, U.S. Fish and Wildlife Service.

BILLING CODE 4310–55–M

National Park Service

Cuyahoga Valley National Recreation Area Advisory Commission; Meeting

Notice is hereby given, in accordance with the Federal Advisory Committee Act, 86 Stat. 770, 5 U.S.C. App. 1, as amended by the Act of September 13, 1976, 90 Stat. 1247, that a meeting of the Cuyahoga Valley National Recreation Area Advisory Commission will be held beginning 8:30 a.m. (EDT), on Thursday, June 25, 1981, at Happy Days Visitor Center located on State Route 303 (Streetsboro Road), 1 mile west of State Route 8 near Peninsula, Ohio. Parking is on the north side of Route 303 and a pedestrian tunnel leads to the building on the south side of the highway.

The Commission was established by the Act of December 27, 1974, 88 Stat. 1788, 16 U.S.C. 460ff–4, to meet and consult with the Secretary of the Interior on matters relating to the administration and development of the Cuyahoga Valley National Recreation Area.

The members of the Commission are as follows:

Mrs. Tommie Patty (Chairperson)
Mr. John Craig
Mr. Norman A. Godwin
Mrs. William Hutchison
Mr. James S. Jackson
Mrs. George Klein
Mr. Stanley Mottershead
Mr. C. W. Eliot Paine
Mr. Melvin J. Rebholz
Mr. F. Eugene Smith

Ms. Robbie Stillman
Mr. Barry K. Sugden
Dr. Robert W. Teater

Matters to be discussed at this meeting include:

1. Environmental Assessment for Oak Hill development.
2. Trail planning subcommittee process.
3. Expanding visitor services.
4. Update on Park operations.

The meeting will be open to the public. It is expected that about 100 persons, in addition to members of the Commission, will be able to attend this meeting. Interested persons may submit written statements. Such statements should be submitted to the official listed below prior to the meeting.

Further information concerning this meeting may be obtained from Lewis S. Albert, Superintendent, Cuyahoga Valley National Recreation Area, P.O. Box 158, Peninsula, Ohio 44264, telephone (216) 650–4414. Minutes of the meeting will be available for public inspection 3 weeks after the meeting, at the office of Cuyahoga Valley National Recreation Area, located at 501 West Streetsboro Road (State Route 303), 2 miles east of Peninsula, Ohio.

Dated: May 29, 1981.

J. L. Dunning,

Regional Director, Midwest Region.

BILLING CODE 4310-70-M

Mining Plan of Operations at Death Valley National Monument; Availability

Notice is hereby given that pursuant to the provisions of Section 2 of the Act of September 28, 1976, 16 U.S.C. 1901 et seq., and in accordance with the provisions of § 9.17 of 36 CFR Part 9, Western Minerals Gas, Oil and Mining and its subsidiary Western Minerals Exploration Ltd. has filed a plan of operations in support of proposed mining activities on lands embracing the Gold Bar Mining Claim within the Death Valley National Monument. The plan is available for public inspection during normal business hours at the Death Valley National Monmuent Headquarters, Death Valley, California.

Dated: May 20, 1981.

George Von der Lippe,

Superintendent, Death Valley National Monument.

[FR Doc. 81-17188 Filed 6-9-81; 8:45 am]

BILLING CODE 4310-70-M

San Juan National Historic Site, San Juan, Puerto Rico; Concurrent Jurisdiction Accepted

Notice is hereby given that effective April 6, 1981, concurrent legislative jurisdiction between the United States and the Commonwealth of Puerto Rico is established over all lands and waters within San Juan National Historic Site. The retrocession of exclusive jurisdiction was authorized by the Act of October 7, 1976 (Pub. L. 94–458 (16 U.S.C. 1a-et seq.)). The acceptance of jurisdiction was authorized by the Act of May 12, 1980 (P.R. Act No. 36), in which the Governor of the Commonwealth of Puerto Rico was authorized to accept a cession of jurisdiction over the lands within the Commonwealth of Puerto Rico, title of which was vested in the United States.

San Juan National Historic Site, established by order of the Secretary of the Interior on February 14, 1949, under authority of the Act of August 21, 1935 (49 Stat. 666), consists mainly of 16th and 18th century fortifications that include: Ft. El Morro, El Canuelo, San Cristobal, The City Walls, Outerworks, and the San Juan Gate. Prior to the establishment of the historic site, the San Juan fortifications were under the exclusive legislative jurisdiction of the United States.

Exclusive jurisdiction was retroceded and concurrent jurisdiction was established by written agreement dated April 6, 1981, between the Director of the National Park Service and the Governor of the Commonwealth of Puerto Rico.

The establishment of concurrent jurisdiction will allow the National Park Service and the Commonwealth of Puerto Rico to jointly exercise responsibility for public health and safety and to otherwise administer this area more effectively.

Jim Mills,

Attorney Advisor, Regional Solicitor's Office, Southeast Region.

BILLING CODE 4310-70-M

Office of the Secretary

[Order No. 3066]

Trans-Alaska Pipeline System; Organizational and Functional Responsibilities

Sec. 1 *Purpose.* The purpose of this Order is to repeal Order No. 3003 and substitute therefor new supervisory and management responsibilities for Department of the Interior supervision of the Trans-Alaska Pipeline System; and reaffirmation of prior delegation of authority to the Director, Bureau of Land Management to issue pipeline rights-of-way pursuant to Section 28 of the Mineral Leasing Act, as amended, 30 U.S.C. 185 (Supp. 1975), on lands administered by the Bureau of Land Management or by two or more Federal agencies.

Sec. 2 *Authority.* This Order is issued in accordance with the authority provided by Section 2 of Reorganization Plan No. 3 of 1950 (64 Stat. 1262).

Sec. 3 *Responsibility.* Supervisory, management and support responsibilities are assigned as follows:

a. *The Under Secretary.* The Under Secretary resolves internal jurisdictional and other conflicts which may arise within the Department; and supervises the functions of the Assistant Secretary, Land and Water Resources conducted pursuant to this Order.

b. *The Assistant Secretary—Land and Water Resources.* The Assistant Secretary—Land and Water Resources, is the principal Department Official responsible to the Secretary for Trans-Alaska Pipeline System matters, and under the direction of the Secretary coordinates the contact with Congressional Committees, pipeline officials and the general public. He supervises the work of the Director, Bureau of Land Management, in matters pertaining to the Trans-Alaska Pipeline System.

c. *Director, Bureau of Land Management.* The Director, Bureau of Land Management has overall responsibility for management of the Trans-Alaska Pipeline System.

d. *Alaska State Director, Bureau of Land Management.* The Alaska State Director, Bureau of Land Management, has the responsibility for the day-to-day management of Trans-Alaska Pipeline System operations. He supervises the Authorized Officer for the Trans-Alaska Pipeline System.

e. *Authorized Officer.* The Manager, Office of Special Projects, Alaska State Office, BLM, is the Authorized Officer referred to in the "Agreement and Grant of Right-of-Way for the Trans-Alaska Pipeline," including the stipulations thereto. The Authorized Officer is responsible for:

(1) Ensuring compliance with the terms and conditions of the "Agreement and Grant of Right-of-Way for the Trans-Alaska Pipeline," and other terms and conditions placed on rights-of-way, permits, and leases issued pursuant to the Trans-Alaska Pipeline Authorization Act of November 16, 1973, Pub. L. 93–153, 87 Stat. 584, which relate to the construction, operation, maintenance, or

termination of the Trans-Alaska Pipeline System, and any stipulations attached to such authorizations.

(2) Taking necessary steps to enforce the terms and conditions of the above authorizations; protecting Federal interests relating to the Trans-Alaska Pipeline; monitoring of the Permittees and their agents, contractors and subcontractors; and coordinating monitoring activities with State of Alaska government officials.

(3) Coordination of billing of charges to the TAPS owners. Such billings will be based on plans submitted by the appropriate bureaus for operations associated with and approved by the Authorized Officer for planning, studies, report preparation, liaison and other activities required for TAPS.

f. *Director, Fish and Wildlife Service and Director, Geological Survey.* The Director, Fish and Wildlife Service and Director, Geological Survey will make available to the Authorized Officer such personnel and expertise as the Authorized Officer may from time to time require. Personnel provided will be under the direction and supervision of the Authorized Officer.

g. *Other Bureaus and Offices.* Other bureaus and offices will cooperate by providing any assistance and personnel which the Authorized Officer may from time to time require.

Sec. 4 *Secretarial Delegation of Authority.*

a. *Assistant Secretary, Land and Water Resources.* All authority granted to the Secretary of the Interior by Title I and Title II of the act of November 16, 1973, Pub. L. 93–153, 87 Stat. 576 (Trans-Alaska Pipeline Act and amendments to the Mineral Leasing Act of 1920), is hereby delegated to the Assistant Secretary, Land and Water Resources. Excepted is the authority reserved to the Secretary under the "Agreement and Grant of Right-of-Way for Trans-Alaska Pipeline," including the authority to amend or modify said "agreements."

b. *Director, Bureau of Land Management* is delegated:

(1) Subject to the Supervisory authority of the Assistant Secretary, Land and Water Resources, the authority granted to the Secretary of the Interior by Title I and II of the Act of November 16, 1973, Pub. L. 93–153, 87 Stat. 576 (Amendments to the Mineral Leasing Act of 1920 and Trans-Alaska Pipeline Authorization Act). Excepted is the authority reserved to the Secretary under the "Agreement and Grant of Right-of-Way for Trans-Alaska Pipeline," including the authority to amend or modify said "agreement."

(2) The authority of the Secretary of the Interior necessary to perform the functions specified for the Authorized Officer in the "Agreement and grant of Right-of-Way for Trans-Alaska Pipeline," including the stipulations thereto; and for ensuring compliance with the terms and conditions placed on rights-of-way, permits, and leases issued pursuant to the Trans-Alaska Pipeline Authorization Act of November 16, 1973, Pub. L. 93–153, 87 Stat. 584, which relate to the construction, operation, maintenance, or termination of the Trans-Alaska Oil Pipeline System, and any stipulations attached to such authorizations. Excepted is the authority reserved to the Secretary under the "Agreement and Grant of Right-of-Way for Trans-Alaska Pipeline," including the authority to amend or modify said "agreements."

c. *Authorized Officer, TAPS.* The Authorized Officer, TAPS, subject to the supervisory authority of the State Director, is delegated:

(1) The authority of the Secretary of the Interior necessary to perform the functions specified for the Authorized Officer in the "Agreement and Grant of Right-of-Way for Trans-Alaska Pipeline," including the stipulations thereto; and for ensuring compliance with the terms and conditions placed on rights-of-way, permits, and leases issued pursuant to the Trans-Alaska Pipeline Authorization Act of November 16, 1973, Pub. L. 93–153, 87 Stat. 584, which relate to the construction, operation, maintenance, or termination of the Trans-Alaska Oil Pipeline System, and any stipulations attached to such authorizations. Excepted is the authority reserved to the Secretary under the "Agreement and Grant of Right-of-Way for Trans-Alaska Pipeline," including the authority to amend or modify said "agreements."

(2) The authority, subject to the limitations set forth in Part 205 of the Departmental Manual, to enter into procurement contracts or modifications thereof.

d. *Redelegation.* The authority granted in Section 4a, 4b, and 4c of this Order may be redelegated.

Sec. 5 *Revocation.* This Order supersedes Order No. 3003 dated April 26, 1977 (42 FR 22426).

Sec. 6 *Effective Date.* This Order is effective immediately. Its provisions will remain in effect until its conversion to the Departmental Manual; termination of the Trans-Alaska Pipeline; or until it is amended, superseded, or revoked, whichever occurs first. However, in the absence of the foregoing actions, the provisions of this Order will terminate and be considered obsolete on December 31, 1982.

Dated: May 29, 1981.

James G. Watt,

Secretary of the Interior.

[FR Doc. 81-17014 Filed 6-9-81, 8:45 am]

BILLING CODE 4310-84-M

INTERSTATE COMMERCE COMMISSION

[Permanent Authority Decisions Volume No. OPY-3-088]

Motor Carriers; Permanent Authority; Decision-Notice

Decided: June 3, 1981.

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will

be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board No. 2, Members Carleton, Fisher, and Williams.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

MC 13134 (Sub-105), filed May 27, 1981. Applicant: GRANT TRUCKING, INC., P.O. Box 256, Oak Hill, OH 45656. Representative: James M. Burtch, 100 E. Broad St., Columbus, OH 43215, (614) 228–1541. BILLING CODE 7035-01-M

[Permanent Authority Decisions Volume No. 97]

Restriction Removals; Decision-Notice

Decided: June 4, 1981.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR Part 1137. Part 1137 was published in the **Federal Register** of December 31, 1980, at 45 FR 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Restriction Removal Board, Members Sporn, Alspaugh, and Shaffer.

Agatha L. Mergenovich,

Secretary.

MC 2202 (Sub-671)X, filed May 13, 1981. Applicant: ROADWAY EXPRESS, INC., P.O. Box 471, 1077 Gorge Boulevard, Akron, Ohio 44309. Representative: William O. Turney, Suite 1010, 7101 Wisconsin Avenue, Washington, D.C. 20014. Applicant seeks to remove restrictions in its Sub-Nos. 149, 175, 188, 304, 323, 399, 400, 442, 463, 475, 492, 496, 501, 506, 515, 527, 529, 531, 539, 553F, 558F, 559F, 561F and 580F certificates to (1) eliminate the restrictions prohibiting or limiting service to the transportation of shipments (a) moving from, to, or through Akron, Columbus, or Hamilton, OH, (b) originating at or destined to Cleveland, Cincinnati, and Dayton, OH; and (c) at points in the commmercial zones of points in OH which are not within the confines of the State of OH in Sub-No. 507; and (2) replace off-route plantsite or city-wide authority with county-wide authority: (a) facilities near Newburgh, IN, with Warrick County, IN, in Sub-No. 149, (b) facilities near Sherman TX, with Grayson County, TX, in Sub-No. 175, (c) facilities near Mount Vernon, IN, with Posey County, IN, in Sub-No. 188, (d) facilities at Brown's Ferry, AL, with Limestone County, AL, in Sub-No. 304, (e) facilities at or near Winchester, KY, with Clark County, KY, in Sub-No. 323, (f) facilities in Marshall County, AL, with Marshall County, AL, in Sub-No. 399, (g) facilities near Mt. Holly Springs, PA, with Cumberland County, PA, in Sub-No. 400, (h) facilities at or near Goddard, KS, with Sedgwick County, KS, in Sub-No. 463, (j) facilities near Iowa Park, TX, with Wichita County, TX, in Sub-No. 475, (k) facilities at or near Wallis, TX, with Austin County, TX, in Sub-No. 492, (l) facilities at or near Greenwood Springs, MS, with Monroe County, MS, in Sub-No. 496, (m) facilities at or near Columbus, MS, with Lowndes County, MS, in Sub-No. 501, (n) facilities at or near Chocolate Bayou, TX, with Brazoria County, TX in Sub-No. 506, (o) facilities at or near Kennedy, AL, with Lamar County, AL, in Sub-No. 515, (p) facilities at or near Marble Falls, TX, with Burnet County, TX, in Sub-No. 527, (q) facilities at or near Milledgeville, GA, with Baldwin County, GA, in Sub-No. 529, (r) facilities at or near Hartsville, TN, with Trousdale County, TN in Sub-No. 531, (s) Little Rock, AR, with Pulaski County, AR, in Sub-No. 539, (t) facilities in Burke County, GA, in Sub-No. 553F, (u) facilities at or near Olney, TX, with Young County, TX, in Sub-No. 558F, (v) facilities at or near Canton, MS, with Madison County, MS, in Sub-No. 559F, (w) facilities at or near Milan, MI, with Washtenaw County, MI, in Sub-No. 561F and 580F.

MC 13134 (Sub-104)X, filed May 22, 1981. Applicant: GRANT TRUCKING, INC., P.O. Box 266, Oak Hill, OH 45656. Representative: James M. Burtch, 100 E. Broad St., Columbus, OH 43215. Applicant seek to remove restrictions in its Sub-Nos. E-1, E-2, E-3, E-4, E-5, E-6, E-7, E-8, E-9, E-10, E-11, E-12, E-13, and MC-93003. Sub-Nos. E-1, E-2, E-3, E-4, E-5, E-6, E-7, E-8, E-9, E-10, E-11, E-12, E-13, E-14, E-15, E-16, E-18, E-19, E-20, E-21, E-22, E-23, E-24, E-25, E-26, E-27, E-28, E-29, E-30, E-31, E-32, E-35, E-36, E-37, E-38, E-39, E-40, E-41, E-42, E-43, E-44, and E-45 letter notices to (1) broaden the commodity descriptions from (a) iron and steel products, reinforcement steel, steel rails, railway track, materials and fittings, structural steel, including fittings and bolts, steel posts, iron and steel bars, corrugated iron and steel pipe, steel mine roof bolts, steel track bolts, steel plates, steel sheets, steel pipe, and related contractor's materials and supplies to "metal products" in MC-13134 E-2, E-3, E-4, E-5, E-6, E-7, E-8, E-9, E-10, E-11 (part 2), and E-13, and MC-93003 E-1, E-2, E-3, E-4, E-5, E-6, E-7, E-8, E-9, E-10, E-11, E-12, E-13, E-14, E-15, E-16, E-17, E-18, E-19, E-20, E-21, E-22, E-23, E-24, E-25, E-26, E-27, E-28, E-29, E-30, E-31, E-32, E-35, E-36, E-37, E-38, and E-39; (b) glassware, clay refractory products, lime, limestone, and limestone products, clay products and refractories, damaged or returned shipments of clay products and pallets used in the transportation of clay products to "clay, concrete, glass or stone products" in MC-13134 E-1 and E-12; (c) materials, equipment and supplies used in the manufacture or processing of iron and steel articles to "materials, equipment, and supplies used in the manufacture or processing of metal products" in MC-13134 E-11 (part 1); and (d) mine cars, shovels, scrapers, and scoops, and parts thereof, and related contractor's materials and supplies to "those commodities which because of their size and weight require the use of special handling or equipment" in MC-93003 E-40, E-41, E-42, E-43, E-44, and E-45; (2) eliminate the facilities limitations in MC-13134 E-1, E-8, E-9, E-10, E-11, and E-13; (3) replace city with county-wide authority from Siloam to Greenup County, KY, Elizabeth Township to Lawrence County, OH, in MC-13134 E-1; Burns Harbor to Porter County, IN, in MC-13134 E-1, E-8, and E-9; Lorain to Lorain County, OH, in MC-13134 E-6 and E-7; Ironton to Lawrence County, OH, in MC-13134 E-12; Lackawanna to Erie County, NY, in MC-13134 E-13; and Johnstown to Cambria County, PA, in MC-93003 E-35, E-36, E-37, E-38, and E-39; (4) remove the restrictions (a) except commodities in bulk in MC-13134 E-1, E-9, E-10, and E-11; (b) except furnace and stove lining shapes and plastic brick in MC-13134 E-1; (c) against size and weight in MC-13134 E-3, E-4, E-5, E-6, E-7, E-8, E-9, E-10, E-11, E-13 and MC-93003 E-1, E-2, E-3, E-4, E-5, E-6, E-7, E-8, E-9, E-10, E-11, E-12, E-13, E-14, E-15, E-16, E-17, E-18, E-19, E-20, E-21, E-22, E-23, E-24, E-25, E-26, E-27, E-28, E-29, E-30, E-31, E-32, E-35 and E-37; (d) except building materials in MC-13134 E-4, E-5, E-9, E-13 and MC-93003 E-37; (e) against reinforcement steel and steel rails and railway tract materials and fittings, bolts, agricultural implement parts, steel posts, and iron and steel bars in MC-13134 E-13; (f) except aircraft and missiles and parts in MC-13134 E-13; and (g) the originating at or destined to restriction in MC-13134 E-1, E-8, E-9, E-10 and E-11.

MC 29648 (Sub-15)X, filed May 28, 1981. Applicant: E. F. SMITH, INC., P.O. Box 73, Roaring Spring, PA 16673. Representative: J. Bruce Walter, P.O. Box 1146, Harrisburg, PA 17108. Applicant seeks to remove restrictions in its lead and Sub-Nos. 12, 13, and 14, to (1) broaden the commodity description from (a) paper, paper products, materials, equipment and supplies to "pulp, paper, and related products" in the lead and Sub-Nos. 12 and 13; (b) fuel oil to "petroleum or coal products" in Sub-No. 13; (c) canned food to "food and related products" in the lead; (d) general commodities (with exceptions) to "general commodities (except classes A and B explosives)" in the lead; (2) broaden cities to counties: Dunkirk, NY, to Chautauqua County, NY; Roaring Spring, PA, to Blair County, PA; Dunellen, NJ, to Middlesex County, NJ; Martinsburg, PA, to Blair County, PA; Bridgetown, NJ to Cumberland County,

NJ: Claysburg and Sproul, PA, to Blair Counties, PA, in the lead; Roaring Springs, PA, to Blair County, PA, in Sub-Nos. 12 and 13; North Woodbury Township, PA, to Blair County, PA, in Sub-No. 14; (3) authorize radial service between the counties named above and points in named eastern states in the lead and Sub-Nos. 12 and 13; (4) remove the restriction limiting transportation to traffic originating at and destined to named origins in Sub-No. 14; (5) delete plantsite restriction in Sub-No. 13.

MC 30513 (Sub-16)X, filed April 21, 1981, previously noticed in the **Federal Register** May 1, 1981, republished as corrected this issue. Applicant: NORTH STATE MOTOR LINES, INC., P.O. Box 4108, Rocky Mount, NC 27801. Representative: Lawrence E. Lindeman, 1032 Pennsylvania Bldg., Pennsylvania Ave. and 13th St., NW., Washington, DC 20004. Applicant seeks to remove restrictions in its lead and Sub-Nos. 8, 10, 12, and 15 certificates to (1) broaden its commodity descriptions (a) in the lead, to "general commodities, (except classes A and B explosives)", from general commodities (with exceptions); to "food and related products", from agricultural commodities, peanuts, fish, flour, livestock and groceries and food; to "textile mill products", from cotton; to "lumber and wood products", from lumber; to "machinery", from batteries; to "clay, concrete, glass or stone products", from glass bottles and jars; to "metal products", from ice tanks; to "building materials", from terra cotta pipe; to "machinery, building materials, and metal products", from hardware, machinery, roofing, tin, and solder; to "chemicals and related products", from fertilizer and fertilizer materials; to "petroleum, natural gas, and their products", from petroleum products, in containers; to "metal products, and rubber and plastic products", from empty petroleum containers; and to "tobacco products", from leaf tobacco, dried and packed tobacco, tobacco, and tobacco sheets; (b) in Sub-No. 8, to "chemicals and related products", from fertilizer and fertilizer materials, (except in bulk, in tank vehicles); (c) in Sub-No. 10, part 1, to "building materials", from fibreboard, fibreboard products, and accessories and supplies used in the installation and application thereof, and in part 2, remove the commodities in bulk exception; (d) in Sub-No. 12, to "tobacco products", from reconstituted, reconstructed, or homogenized tobacco; and (e) in Sub-No. 15, to "tobacco products, and materials, supplies and equipment used in the processing, packing, storing, handling, and marketing thereof", from materials, supplies and equipment (with exceptions) used in the processing, packing, storing, handling, and marketing of unmanufactured tobacco, and unmanufactured tobacco when moving on the same vehicle at the same time with the commodities described above and remove "except cellulose and paper products and commodities in bulk, in tank vehicles" exception from the materials description; (2) replace cities and facilities with county-wide authority (a) in the lead, beginning with the 4th granting paragraph, Farmville, NC, with Pitt County, NC, Wilmington, NC, with New Hanover and Brunswick Counties, NC, Reading, PA, with Berks County, PA, Wilson, NC with Wilson County, NC, Bridgeton, NJ, with Cumberland County, NJ, Mount Olive, NC, with Wayne and Duplin Counties, NC, Greenville, NC, with Pitt County, NC, Columbia, SC with Richland and Lexington Counties, SC, Jarratt, VA, with Sussex and Greensville, VA, Fayetteville and Goldsboro, NC, with Cumberland, Green, and Wayne Counties, NC, Williamston, Wilmington, Rocky Mount, Wilson, Greenville, Kinston, New Bern and Washington, NC, with Martin, Brunswick, New Hanover, Nash, Edgecombe, Wilson, Pitt, Lenoir, Craven, and Beaufort Counties, NC; Mullins, Loris, Conway, and Dillon, SC, with Marion, Horry and Dillon Counties, SC, Fairmont, Lumberton, Whiteville, Chadburn, and Fair Bluff, NC, with Robeson and Columbus Counties, NC, Farmville, Goldsboro, Greenville, Rocky Mount, Kinston, Robersonville, Williamston, and Henderson, NC, with Pitt, Wayne, Nash, Edgecombe, Lenoir, Martin, and Vance Counties, NC, Oxford, Durham, Winston-Salem, and Reidsville, NC, with Granville, Durham, Forsyth, and Reidsville Counties, NC, (b) in Sub-No. 8, Charleston, SC, with Charleston and Berkeley Counties, SC, (c) in Sub-No. 10, Spring Hope, NC, with Nash County, NC, and (d) in Sub-No. 12, Louisville, KY, with Jefferson and Oldham Counties, KY, and Floyd and Clark Counties, IN; (3) change one-way to radial authority between several specified counties, cities and States and points in several specified counties, cities and States in the eastern part of the U.S.; and (4) replace points and mileage radii territories in the lead certificate with county-wide authority: (a) in paragraph 1, from Norfolk, VA and points within 10 miles to "Norfolk, Hampton, Newport News, Portsmouth, Virginia Beach, Cheseapeake, Suffolk, VA and points in Isle of Wight County, VA" and from Farmville, NC and points within 50 miles to "point in Pitt, Wake, Franklin, Warren, Halifax, Northampton, Hertford, Bertie, Washington, Beaufort, Pamlico, Craven, Jones, Onslow, Duplin, Sampson, Johnston, Nash, Wayne, Lenoir, Greene, Wilson, Martin and Edgecombe Counties, NC"; (b) in paragraph 2, from Robersonville, NC and points within 50 miles to "points in Northampton, Gates, Perquimans, Hertford, Warren, Halifax, Franklin, Nash, Wake, Johnston, Wilson, Edgecombe, Bertie, Martin, Chowan, Tyrrell, Washington, Hyde, Beaufort, Pamlico, Craven, Jones, Lenoir, Wayne, Greene, and Pitt Counties, NC, and from Edenton, NC to "points in Chowan County"; (c) in paragraph 3, from Wilmington, Turkey, Windsor, and La Grange, NC, and points within 25 miles of those cities to "points in Brunswick, Bladen, Pender, New Hanover, Columbus, Bertie, Chowan, Perquimans, Washington, Martin, Beaufort, Pitt, Edgecombe, Halifax, Hertford, Lenoir, Duplin, Jones, Craven, Greene, Wilson, Johnston, Wayne Sampson, Onslow, and Cumberland Counties, NC" and from Atlanta, GA to "points in Fulton, De Kalb, Clayton and Cobb Counties, GA", from Orlando, FL to "points in Orange and Seminole Counties, FL" and from Miami, FL to points in Dade County, FL"; (d) paragraph 18, from Roberson, NC, and points within 200 miles to "points in North Carolina in and east of Surry, Wilkes, Iredell, Catawba, Lincoln, and Gaston Counties, NC."

The purpose of this republication is to expand mileage radius to county-wide territories in part (4), as the Commission recently determined that this was a reasonable broading of authority.

MC 41406 (Sub-168)X, filed March 3, 1981, and noticed in the **Federal Register** republished as corrected this issue. Applicant: ARTIM TRANSPORTATION SYSTEM, INC., P.O. Box 8414, Merrillville, IN 46410. Representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 Eleventh Street NW., Washington, D.C. 20001. Applicant seeks to remove restrictions in its Sub-No. 68, certificate to broaden the commodity description from automobile parts, and materials, equipment and supplies to "general commodities, except classes A and B explosives." The Board has decided to renotice this portion of the original application following the presentation of evidence which demonstrated that "transportation equipment" was insufficiently broad.

MC 107162 (Sub-81)X, filed April 22, 1981, published in the **Federal Register** of May 13, 1981, republished as follows: Applicant: NOBLE GRAHAM TRANSPORT, INC., Rural Route 1, Brimley, MI 49715. Representative:

Michael S. Varda, 121 South Pinckney Street, Madison, WI 53703. Applicant seeks to remove restrictions in Certificate No. MC–107162 Sub-Nos. 1, 34, 37, 41, 42, 46, 47, 49, 51F, 55, 62F, 63F, 66F, 67, 68, 69, 70, 71, 72, 73, 74F, 77, and E8 and E9 letter notices to (1) broaden the commodity description in Sub-No. 1, from lumber, rough lumber, lumber (except flooring, plywood, veneer, paneling, dimension stock, furniture stock, or built-up wood), hardwood flooring systems, hardwood flooring, and accessories and supplies, wood fencing, post, accessories used in the installation thereof, cinder blocks, concrete block, and brick to "construction materials," from logs, evergreens, pulp wood, and wooden posts, piling and spars, to "forest products," from lumber, lumber products, and treated wood products, to "lumber and wood products," from dry asphalt and black topping material, in bulk, to "commodities in bulk," from agricultural lime and lime products, mineral feed, and animal poultry feed and feed ingredients to "such commodities as are dealt in by feed and agricultural products distributors," from fertilizer, fertilizer ingredients, and chemicals used in the manufacture of fertilizer to "chemicals and related products," from malt beverages to "food and related products," from mined rock to "ores and minerals;" in Sub-No. 34, from plywood, veneer sheets or board, wood paneling, hardboard, construction board, and wood particleboard to "construction materials;" in Sub-No. 37, from salt and salt products to "ores and minerals;" in Sub-No. 41, from malt beverages to "food and related products" and from salt to "ores and minerals;" in Sub-No. 42, from hardwood flooring and systems to "construction materials;" in Sub-No. 46, from lumber to "construction materials;" in Sub-No. 47, from wood chips to "forest products;" in Sub-No. 49, from construction board to "construction materials;" in Sub-No. 51F, from iron and steel articles and steel casings and pipe to "metal products;" in Sub-No. 55, from lumber, and lumber products to "lumber and wood products," and from building and insulating materials (except iron and steel articles and commodities in bulk) to "construction materials;" in Sub-No. 62F, from lumber to "lumber and wood products," from fabricated metal products to "metal products," and from fertilizer and chemicals used in the manufacture of fertilizer to "chemicals and related products;" in Sub-No. 63F, from non-alcoholic beverages to "food and related products;" in Sub-No. 67F, from lumber and lumber products to "lumber and wood products;" in Sub-No. 68F, from lumber and lumber products, wood products, and waferboard to "lumber and wood products" and "construction materials;" in Sub-No. 69F, from lumber to "lumber and wood products;" in Sub-No. 70F, from dry-mixed concrete and tar emulsion sealer to "construction materials;" in Sub-No. 71F, from steel tube to "metal products;" in Sub-No. 72F, from iron and steel article to "metal products;" in Sub-No. 73F, from building and insulating materials (except iron and steel articles) to "construction materials;" in Sub-No. 74F, from compressed sawdust logs to "lumber and wood products;" and in letter notices E8 and E9 from lumber to "lumber and wood products;" (2) remove the "in bulk" restriction in Sub-Nos. 1, 37, 41, 55, 62F, 63F, and 70F; (3) remove plantsite limitations (a) in Sub-No. 1 and replace Ishpeming, MI and White Lake, WI with Marquette County, MI and Langlade County, WI; Dollar Bay, MI with Houghton County, MI; Alpena, MI with Alpena County, MI; and Green Bay, WI with Brown County, WI (b) in Sub-No. 34, part (2) and replace Oshkosh, WI with Winnebago County, WI, (c) in Sub-No. 42 and replace Amasa, MI with Iron County, MI, (d) in Sub-No. 51F and replace Dafter, MI with Chippewa County, MI, (e) in Sub-No. 55 leaving Scott County, MN, and (f) in Sub-No. 71F and replace Union, MO with Franklin County, MO, (4) replace city with county-wide authority (a) in Sub-No. 1, from Laramie, WY to Albany County, WY; from Mayville, Rockwood, Jackson, Antigo, Cameron, Green Bay, Prairie du Chien, Watertown, Madison, Hillsboro, and Stevens Point, WI and Dubuque, IA, to Dodge, Jefferson, Manitowoc, Washington, Langlade, Barron, Brown, Crawford, Walworth, Dane, Vernon, and Portage Counties, WI and Dubuque County, IA; from South Bend, IN and Sault Ste. Marie and Hessel, Engadine, MI to St. Joseph County, IN and Chippewa and Mackinac Counties, MI, (b) in Sub-No. 37 from Manistee, MI to Manistee County, MI, (c) in Sub-No. 41 from Green Bay, Hurley, Aurora, and Marinette, WI to Brown, Iron, Florence, and Marinette Counties, WI, (d) in Sub-No. 55 from Bangor, WI, Camden, NJ, and Charleston, SC to LaCrosse County, WI, Camden County, NJ and Charleston County, SC, (e) in Sub-No. 62F from Kincheloe, Lansing and Grand Ledge, MI and Hazel Green, WI to Chippewa, Eaton, Ingham and Clinton Counties, MI and Grant County, WI, (f) in Sub-No. 63F from Lakeland, FL to Polk County, FL, (g) in Sub-No. 70F from Menomee Falls, WI to Waukesha, Washington, Ozaukee and Milwaukee Counties, WI, (h) in Sub-No. 72F from Rockdale, IL to Will County, IL, (i) in Sub-Nos. 73F and 74F from Minneapolis, MN to Anoka, Carver, Dakota, Hennepin, Ramsy, Scott and Washington Counties, MN, (j) in Sub-No. 74F from Shawano, WI to Shawano County, WI, (k) in Sub-No. 77 from Canton and Washington Court House, OH to Stark and Fayette Counties, OH from Green Bay, WI to Brown County, WI and from Milwaukee, WI to Ozaukee, Washington, Waukesha, Milwaukee and Racine Counties, WI; (5) replace the named ports of entry in named states with all ports of entry in named states in Sub-Nos. 1, 28, 34, 37, 41, 47, 49, 51 and 62, (6) remove the restriction to transportation in foreign commerce only in Sub-No. 1, (7) remove the restriction to the transportation of traffic having a subsequent movement to Ontario, Canada, in Sub-No. 37, (8) remove the "originating at and/or destined to named points" restrictions in Sub-Nos. 1, 34, 66, 71, (9) remove the restriction against transportation to AK and HI in Sub-No. 51, (10) remove the restrictions in Sub-Nos. 1, E3 and E9 against traffic that originates in Canada, (11) remove the restriction in Sub-No. 1 requiring that shipments originating in Canada move through, the port of entry at or near Sault Ste. Marie, MI, and (12) change one-way to radial authority between various points throughout the U.S. in all Subs and E letter notices except part of Sub-No. 69F. The purpose of this republication is to notice Langlade County, WI for Whitelake, WI, removal of facilities in Sub-No. 55, Jefferson and Dodge Counties for Watertown, WI, Clinton County, MI, for Grand Ledge, MI, Waukesha, Washington, Ozaukee and Milwaukee Counties, WI, for Menomonee Falls, WI, expansion of ports of entry in Sub-No. 62 and notice of restriction removal in part (7) in Sub-No. 37.

MC 112391 (Sub-4)X, filed April 28, 1981. Applicant: HADLEY AUTO TRANSPORT, P.O. Box 96, Pico Rivera, CA 90660. Representative: David E. Driggers, 1600 Lincoln Center, 1600 Lincoln Street, Denver, CO 80264. Applicant seeks to remove restrictions in its permit No. MC–112391 and Sub-Nos. 14, 31 and 40F and permit authority acquired in MC–F–12442 to (1) broaden the commodity description to "machinery" from new automobiles, new trucks, new tractors, and new chassis, in the lead (paragraphs 1, 6 and 8); automobiles, trucks, tractors and chassis, in the lead (paragraphs 3 and 4); to "transportation equipment" from new automobiles, in the lead (paragraphs 2, 5, and 7); automobiles, trucks and buses,

except trailers and show paraphernalia, in the lead (para 9); automobiles and trucks, in the lead (para 10); new trucks, in Sub-No. 14; automobiles, trucks, buses and chassis, in Sub-No. 40F; and to "machinery" from automobiles and trucks, and farm type tractors, in Sub-No. 31; to "machinery" from new automobiles, new trucks, chassis, and new tractors, automobiles, trucks, and tractors and motor vehicles, in MC–F–12442 (paragraphs 1 and 4); to "transportation equipment" from motor vehicles, in MC–F–12442 (paragraphs 2 and 3), (2) remove the initial movements, secondary movements, drive-away service, truckaway service, restrictions wherever they may appear, in the lead and all subs, and (3) broaden all territorial description to between points in the U.S. either under continuing contract(s) with named shippers, or under open-ended permit authority.

MC 115917 (Sub-41)X, filed May 19, 1981. Applicant: UNDERWOOD & WELD COMPANY, INC., P.O. BOX 247, Crossnore, NC 28616. Representative: Wilmer B. Hill, 805 McLachlen Bank Building, 666 Eleventh Street NW., Washington, DC 20001. Applicant seeks to remove restrictions in its Sub-No. 37F certificate to (1) broaden the commodity description to "ores and minerals, and, clay, concrete, glass or stone products" from olivine and olivine products, in part (1); bentonite clay, in part (2); foundry sand additives, in part (3); and mica, in part (4); and (2) eliminate the AK and HI restriction, in all parts.

MC 115276 (Sub-8)X, filed May 22, 1981. Applicant: HAROLD D. MILLER, INC., 385 Jones Street, Shreve, OH 44676. Representative: Boyd B. Ferris, 50 W. Broad St., Columbus, OH 43215. Applicant seeks to remove restrictions in its lead and Sub-Nos. 4 and 7F certificates, and E–1 letter notice, to (1) broaden the commodity descriptions from machinery, equipment, materials, and supplies used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and machinery, equipment, materials, and supplies used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, including the stringing and picking up of pipe in connection with main lines to "such commodities as are dealt in or used by producers, manufactures and distributors of petroleum and petroleum products, machinery, and metal products" in each certificate and letter notice; and (2) remove the restrictions against (a) commodities in bulk in Sub-No. 4 and E–1; and (b) stringing and picking up of pipe in connection with main lines in E–1.

MC 117201 (Sub-53)X, filed May 4, 1981. Applicant: INTERSTATE DISTRIBUTOR CO., 8311 Durango SW., Tacoma, WA 98499. Representative: George R. LaBissoniere, 15 S. Grady Way, Suite 233, Renton, WA 98055. Applicant seeks to remove restrictions in its permit No. MC–125952 Sub-Nos. 11, 19, 24, 31F, 33F, 36F, 37F, 38F, 46F, and 54 to (1) broaden the commodity descriptions to "such commodities as are dealt in by grocery, food and variety establishments (except commodities in bulk)" from such commodities as is dealt in by wholesale and retail grocery establishment; except frozen foods and foods in vehicles equipped with mechanical refrigeration, in Sub-Nos. 11, 19 and 31F; cakes, cookies, bakery supplies, materials and ingredients, in Sub-Nos. 24 and 33F; canned seafoods, in Sub-No. 36F; salt (except in bulk), in Sub-Nos. 37F and 46F; toppings, flavoring, extract, pie filling, syrups, fruit juice concentrates, jams and jellies, in packages and equipment used for dispensing the commodities shown above, in Sub-No. 38F; and such commodities as are dealt in and used by grocery and food business houses, and agricultural feed houses and soy products (except commodities in bulk), in Sub-No. 45F and (2) broaden the territorial application to between points in the United States under continuing contract(s) with named shippers.

Conrail; Amended System Diagram Map

Notice is hereby given that, pursuant to the requirements contained in Title 49 of the Code of Federal Regulations, Part 1121.23, that the Conrail has filed with the Commission its amended color-coded system diagram map in docket No. AB 167 (SDM). The Commission on May 28, 1981, received a certificate of publication as required by said regulation which is considered the effective date on which the system diagram map was filed.

Color-coded copies of the map have been served on the Governor of each State in which the railroad operates and the Public Service Commission or similar agency and the State designated agency. Copies of the map may also be requested from the railroad at a nominal charge. The maps also may be examined at the office of the Commission, Section of Dockets, by requesting docket No. AB 167 (SDM).

Agatha L. Mergenovich,

Secretary.

Motor Carrier; Temporary Authority Application

Import Notice

The following are notices of filing of applications for temporary authority under Section 10928 of the Interstate Commerce Act and in accordance with the provisions of 49 CFR 1131.3. These rules provide that an original and two (2) copies of protests to an application may be filed with the Regional Office named in the **Federal Register** publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the **Federal Register**. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the ICC Regional Office to which protests are to be transmitted.

Note.—All applications seek authority to operate as a common carrier over irregular routes except as otherwise noted.

Motor Carriers of Property

Notice No. F-127

The following applications were filed in Region 2. Send protests to: ICC, Fed. Res. Bank Bldg., 101 North 7th St., Rm. 620, Philadelphia, PA 19106.

MC 156233 (Sub-II-1TA), filed June 1, 1981. Applicant: PATRICIA A. HUTCHINSON d.b.a. D. J. P. LEASING, 724 Carrollton Ave., Salem, VA 24153. Representative: Patricia A. Hutchinson (same as applicant). *Malt Beverages, wine and empty containers for malt beverages and wine,* between Roanoke County, VA and points in GA, MD, PA, KY, OH, and MI for 270 days. BILLING CODE 7035-01-M

Motor Carrier Temporary Authority Application

Correction

In FR Doc. 81-14150, appearing on page 26188, in the issue of Monday, May 11, 1981.

On page 26189, first column, nineteenth line, the last three entries reading: "NJ, NJ, NC," should have read "NH, NJ, NC".

BILLING CODE 1505-01-M

[AB 10 (SDM)]

Norfolk & Western Railway Co.; Amended System Diagram Map

Notice is hereby given that, pursuant to the requirements contained in Title 49 of the Code of Federal Regulations, Part 1121.23, that the Norfolk and Western Railway Company has filed with the Commission its amended color-coded system diagram map in docket No. AB 10 (SDM). The Commission on May 21, 1981, received a certificate of publication as required by said regulation which is considered the effective date on which the system diagram map was filed.

Color-coded copies of the map have been served on the Governor of each state in which the railroad operates and the Public Service Commission or similar agency and the State designated agency. Copies of the map may also be requested from the railroad at a nominal charge. The maps also may be examined at the office of the Commission, Section of Dockets, by requesting docket No. AB 10 (SDM).

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after July 3, 1980, are governed by Special Rule 247 of the Commission's Rules of Practices, see 49 CFR 1100.247. Special Rule 247 was published in the **Federal Register** of July 3, 1980, at 45 FR 45539. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.247(B). A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. Some of the application may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient interest in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 day after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OP2–064

Decided: June 4, 1981.

By the Commission, Review Board Number 1, Members Parker, Chandler and Taylor.

MC 151393 (Sub-1) (Republication) filed November 12, 1980, published in the **Federal Register** of December 10, 1980, and republished this issue: Applicant: MILLERS BEND CARRIERS, INC., U.S. Hwy 231 North, P.O. Box 197, Wetumpka, AL 36092. Representative: Ronald L. Stichweh, 727 Frank Nelson Bldg., Birmingham, AL 35203. A decision of the Commission, *Review Board 2*, decided March 9, 1981, and served March 23, 1981, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce, over irregular routes, as a *common carrier*, by motor vehicle, transporting *general commodities* (except household goods as defined by the Commission and classes A and B explosives), between points in the United States (except Alaska, Hawaii, Maine, New Hampshire, North Dakota, South Dakota, Vermont, and Wyoming); that applicant is fit, willing, and able properly to perform the granted service and to conform to the requirements of Title 49, Subtitle IV, U.S. Code, and the Commission's regulations. The purpose of this republication is to broaden the scope of authority.

Volume No. OP2–065

Decided: June 4, 1981.

By the Commission, Review Board Number 1, Members Parker, Chandler and Taylor.

MC 3753 (Sub-30) (Republication) filed December 19, 1980, published in the **Federal Register** of January 19, 1981, and republished this issue: Applicant: AAA TRUCKING CORP., 3620 Quaker Bridge Rd., P.O. Box 8042, Trenton, NJ 08650. Representative: Zoe Ann Pace, Suite 2373, One World Trade Center, New York, NY 10048. A decision of the Commission, *Review Board 3*, decided April 22, 1981, and served May 15, 1981, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce, over regular routes, as a *common carrier*, by motor vehicle, transporting *general commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Scranton, and Williamsport, PA: from Scranton over Interstate Hwy 81 to junction Interstate Hwy 80, then over Interstate Hwy 80 to junction U.S. Hwy 15, then over U.S. Hwy 15 to Williamsport, and return over the same route, serving all intermediate points and the off-route points in Bradford, Columbia, Lackawanna, Luzerne, Lycoming, Montour, Sullivan, Susquehanna, and Wyoming Counties, PA.

Note.—Applicant intends to tack with its irregular-route authority to serve points in New Jersey, New York, Connecticut, Rhode Island, Massachusetts, and Maryland; that applicant is fit, willing and able properly to perform the granted service and to conform to the requirements of Title 49, Subtitle IV, U.S. Code, and the Commission's regulations. The purpose of this republication is to broaden the scope of authority.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule 251 of the Commission's Rules of Practice, see 49 C.F.R. 1100.251. Special Rule 251 was published in the **Federal Register** on December 31, 1980, at 45 F.R. 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 46 F.R. 80109.

Persons wishing to oppose an application must follow the rules under 49 C.F.R. 1100.252. Applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisidictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulation. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date or publication (or, if the application later became unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81-17131 Filed 6-9-81, 8:45 am]

BILLING CODE 7035-01-M

[Volume No. 83]

Permanent Authority Decisions; Restriction Removals; Decision-Notice

Correction

In FR Doc. 81–15032 appearing on page 27574 in the issue of Wednesday, May 20, 1981 make the following correction:

On page 27575, third column, sixth line from bottom of the page "MC 12551" should have read "MC 125551".

BILLING CODE 1505-01-M

Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems, (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority be issued.

On or before August 10, 1981 an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OP1–166

Decided: June 3, 1981
By the Commission, Review Board Number 1, Members Parker, Chandler and Fortier. Member Parker not participating.

MC 67450 (Sub-117), filed May 27, 1981. Applicant: PETERLIN CARTAGE CO., a corporation, 9651 S. Ewing Ave., Chicago, IL 60617. Representative: Joseph Winter, 29 South LaSalle St., Chicago, IL (312) 263–2306. Transporting *food and related products,* between the facilities of H. J. Heinz Company and its subsidiaries, in the U.S., on the one hand, and, on the other, points in the U.S.

MC 74681 (Sub-16), filed May 28, 1981. Applicant: STEVENS VAN LINES, INC., 121 South Niagara St., Saginaw, MI 48602. Representative: Robert J. Gallagher, 1000 Connecticut Ave., N.W., Suite 1200, Washington, DC 20036, (202) 463–6044.
